

Starchild 321

Chapter 321: Hopeless Situation

“Boom!” Huge water waves jumped to the sky from under Yun Xi’s feet. It was a fully automatic countermeasure released by his Sailing Jellyfish’s Robe, it was one of the ultimate protections Yun Xi prepared for himself.

Under the White Emperor Mask, Yun Xi’s face was pale and hard.

Hua Huo’s Sky Flying Sword was even stronger than his imagination.

Now, he was protected by three artifacts: The Sailing Jellyfish’s Robe, the White Emperor Mask and the Water God’s Crown.

From his head to his toes, the trinitarian defensive measure was perfect. Even so, Hua Huo’s sword still broke his defence easily and cut Yun Xi’s face through the White Emperor Mask.

Although Yun Xi’s face wasn’t really being cut by the sword tip but being cut by the winds caused by the sword, however, it still left a horrible wound from his chin to his ear.

“This is... her sword...” Condensing nine ice lotuses in the air, Yun Xi stepped on the waves. He touched the wound on his face vigilantly.

If he wasn’t wearing the three artifacts, he would’ve been killed. And till now, he still didn’t know how Hua Huo’s sword could do that.

Although he had concentrated his attention on the sword, he even felt that time itself was becoming slower and slower, however, he still couldn't see and understand how Hua Huo's sword moved.

"Humph, you lucky bastard..."

Hua Huo took a deep breath. Blood coloured air raised from her body to the sky like steam, turning into a pattern of two wings, which Yun Xi didn't understand at all.

Oh, this is the feeling, this is the anger and persistence, this is the sense of freedom.

I can break and tear open everything.

No one could disobey the will of the Sky Flying Bloodline!

The blood boiled in her body, and her sweat would be evaporated instantly after appearing on her skin.

Her heartbeat was 20 times faster than usual. If she was an ordinary person, her heart would've broken into pieces.

Her right wrist was painful, and the blood in and around her lungs rushed to the pulmonary alveolus. Pain went through her whole body, it was the result of burning her life using her non hero ranked body.

It doesn't matter, the pain is nothing, my body can adjust to it naturally, and turn my will to a real power, reversing everything in my body.

Put off! Put off! Put off! Dispel all side effects!

Step forward again!

The translucent haloes appeared under her feet again. Her will started to erode and reform her body, exceeding the limit of flesh and blood!

In her body, the massive blood power turned into one imprinting after another and overlapped together.

Her bones, flesh and blood groaned, because her body constitution wasn't strong enough to suffer the reformation of her power and started to crash.

An unknown thing which was sealed in her body had been released and input a great amount of bioactive factors into her blood. The temperature in her body was beyond the limit that ordinary people could suffer.

She felt like she could ignite a sea with her blood, her Sky Flying Bloodline was releasing a surprising amount of heat like an erupting volcano.

"Ahya!" Her sword dropped from the sky. The ice lotuses, which could still block the sword just now all smashed under this attack, turning into countless silver ice particles flying in the air.

Take this, and feel fear. This is my Sky Flying Sword, the godlike sword skill only I can use!

The pain on her body was getting worse, the surprising heat was pushing its way into her body like crazy.

She had never entered this realm. If she was an ordinary person, she would have died due to spontaneous combustion from this heat.

She had broken through the tipping point!

Crimson air raised from her body. At this moment, Hua Huo was even stronger than the master of this world, the White Emperor!

Although Yun Xi's weapons were better, but in the face of Hua Huo's Sky Flying Sword, his will and spirit were all being suppressed.

To Yun Xi, it was just a matter of time before defeat.

The nine ribbons spread in the air, Yun Xi clenched his fists tightly.

Is this Hua Huo's real power after she gets serious?

She was just one person, but she could even surpass the White Emperor who had the help from an entire world.

Fight against a whole world, she did it.

Exceeding the will of a world, she did it.

What can't she do?

What can I do to reach the same level she's at?

"It's simple, you will find the answer after releasing your real power too." Standing outside the life energy shields, Casina smiled.

Only a godlike skill can fight another godlike skill.

Remember the treasure I engraved in your body and soul.

It's your reward for saving this world!

"Gee?!" Suddenly, Yun Xi noticed that his body made a position against his will.

It doesn't make any sense. Before his mind realized it, when facing the coming Sky Flying Sword, Yun Xi's body independently made the reaction.

His left hand raised to the sky and his right hand dropped to the ground.

One hand stood for the heaven and the other hand stood for the earth, his body became a bridge connecting the sky and the ground.

Yun Xi felt as if his body was out of his will's control, it had become a part of this world and resonated with the rhythm of the entire world.

In the face of Hua Huo's sword, the most valuable treasure Casina left in his body was activated.

Synchronization is completed.

His body had been "synchronized" with this world!

This was the Water God's world, the world the White Emperor saved.

Infinite energy gushed towards Yun Xi from all directions, from the sky and earth, gathering together under Yun Xi's feet automatically.

Only a godlike skill can fight another godlike skill.

What's the godlike skill Yun Xi knew? There was only one answer.

The Battle God Genre: The Magnificence of Sky Dance!

Chapter 322: The Godlike Skill

Yun Xi's left hand rose up to the sky and his right hand pointed at the ground.

His body turned into the bridge connecting the sky and the earth, transferring the world's power into his own body.

Just like what he felt when Casina possessed his body, his mind entered the all seeing state again. The rules of the world turned into data flow, streaming into his hands.

This was the only godlike skill Yun Xi had ever used, and his only method to fight against his invincible childhood sweetheart, Hua Huo.

Without the help of Casina's will, his speed was slightly slower than before, but the energy that was gathering into his hands was more than the last time. A large proportion of the energies were Shaya Longnis' energy that hadn't been used to repair this world by the sailing jellyfishes.

Only godlike martial artists could borrow the free energy between the sky and ground easily. Even throughout the endless god's domains, the number of godlike martial artists could still be counted on fingers.

Casina was one of them.

Because Yun Xi's body still remembered the Battle God Genre Martial Arts, and he could use the energy in the entire Water God's world freely, thus he could replicate Casina's martial arts.

Oh, I see it! The time didn't disappear, but... After entering this special state, Yun Xi finally found the secret of Hua Huo's Sky Flying Sword.

It was a way of exerting force that theoretically couldn't be done by a human body. When she brandished her sword, her bloodline power was also burning into full play. When ordinary people brandished their swords, it would take them three steps: accumulate strength, brandish the sword, and drawback the sword. However, because of her burning blood power, Hua Huo didn't need to accumulate strength and drawback her sword.

Therefore, Yun Xi could only see her sword's furious attacks without stopping.

That was the secret of the Sky Flying Sword, the godlike sword skill that was beyond mortal's imagination.

In this state, Hua Huo's skin was pink and white and as smooth as silk. It was the bonus of releasing her Sky Flying Bloodline, which had just adjusted her body to the most perfect state, which also meant the most beautiful state.

With the great amount of energy, Yun Xi pressed down his left hand and raised up his right hand. At that moment, the rules of the world were reversed. The rules of "Yun Xi must accumulate strength before he attacks" and "Yun Xi must adjust his body position first before launching the second attack" were cancelled. Using the "Magnificence of Sky Dance", Yun Xi did the same thing to Hua Huo.

He waved his hand and the relative position of the sky and earth was reversed.

At first, her sword was dropping from the clouds toward his head, but now, it became a sword that was flying into the sky. At the same time, Yun Xi also flew into the sky and pressed his hands on Hua Huo's chest.

The Magnificence of Sky Dance: Sky Style!

Build the bridge connecting the sky and earth!

Both of his hands tightly pressed on her breasts. Because her body temperature was extremely high at that moment, Yun Xi felt a gush of heat was rapidly spreading into his body through his hands.

“Arrrghhh!” Hua Huo’s mind descended into chaos. Her body instantly twisted when she felt the temperature of Yun Xi’s hands, and the blood power in her body also immediately intensified into a frenzy.

Arguably, when Yun Xi’s hands pressed on her chest, she had been defeated at that moment.

At that critical time, her Sky Flying Bloodline took over the control of her body automatically and forcibly made the burning blood power in her body cool down.

Unfortunately, it couldn’t change the fact that Hua Huo had been caught by Yun Xi’s Magnificence of Sky Dance, just like what happened to Shaya Longnis before.

For the first time in his life, Yun Xi clearly felt the soft handfeel of Hua Huo’s chest. His body still followed the running mode of Casina’s martial arts, flying into the sky holding Hua Huo in his arms.

Sky Style.

A huge vortex formed by the free energy in the air appeared and surrounded them.

When they flew up to the peak point, the positions of their bodies reversed. Yun Xi was on the upper side and Hua Huo was on the under side.

Earth Style.

Again, the rules of the world were reversed. The energy that was soaring into the sky together with them, suddenly changed directions, dropping them to the ground.

The earth was like a mother that was waiting for her children, opening her arms to Yun Xi and Hua Huo.

“Boom!” With countless bright lights caused by the free energy in the air, they dropped from the sky into the sea, which was in the northeast quadrant of the Caelian City.

Extracting energy! Without hesitation, Yun Xi’s body naturally absorbed the incredible amount of blood power in Hua Huo’s body.

Everything was so natural and smooth. The memory about the martial arts Casina left in his body had all been remembered. Moreover, the rules of this world had been reversed to help in accelerating this process.

After a few seconds, Yun Xi had extracted all the blood power in Hua Huo’s body and released them into the air.

However, Yun Xi felt that something wasn't right, because compared to the strength Hua Huo showed just now, the amount of blood power was lesser than what he estimated.

Through his hands that were pressing on Hua Huo's chest, Yun Xi could feel that Hua Huo's heartbeat was very strange.

When his hands had just touched her chest, her heartbeat was about a hundred times faster than ordinary people.

But now, her heart rate was only about 1 beat per minute. Yun Xi even believed that her heart and breathing had all stopped.

"Have I survived through this torment?"

After observing Hua Huo for a while, Yun Xi found that her breath and heartbeat gradually returned to normal, he let out a sigh of relief.

Oh, I was almost punished by Hua Huo's Sky Flying Sword.

The next second, Yun Xi found that it was way too early to relax.

"I caught you." Hua Huo opened her eyes and said coldly.

Chapter 323: Desperate Fight

“I caught you!” Hua Huo opened her eyes, ground her teeth and said in a cold tone.

Yun Xi found that he had made a mistake.

The Magnificence of Sky Dance did break Hua Huo’s Sky Flying Sword, to be exact, he just took her by surprise by pressing his hands on her chest.

However, it didn’t mean that he had won.

Although Hua Huo’s broken sword had been lost in the disarray before, but even though she wasn’t holding a sword now, she was still Hua Huo!

The danger hasn’t been disarmed!

“You... die!” Hua Huo’s wrapped her legs around Yun Xi’s waist tightly, blocking all his movements.

She wasn’t just good at using a sword. Her close combat ability was also superb.

As the inheritor of Sky Flying Bloodline, she didn’t have any weakness!

“Extracting!” Yun Xi was really freaked out. If he wasn’t wearing the Sailing Jellyfish’s Robe, his waist would have been broken under the strength of her legs!

The strength of her legs was much stronger than the Lamia's Death Coil!

So, Hua Huo's close combat ability is also great.

No wonder that she is my invincible childhood sweetheart!

"Boom!" Infinite lights exploded into the sky from the deep side of the sea, forming one light curtain after another in the sky. When the people in the Caelian City looked at the sea, they could see continuous water columns ejected up to the sky, forming a colourful, fantastic scene in the sky above the sea.

How can this be possible?! Yun Xi realized how strong the power in Hua Hu's body was again.

If he wasn't in the Water God's world, where the entire world was sharing the pressure with him, he would've been killed!

How many secrets are still hiding in your body, Hua Huo?

"Shuffle!" The nine ribbons on the crown stretched out and tied Hua Huo's arms tightly. This was the most Yun Xi could do now.

However, this fact proved that it was far from enough!

Hua Huo's hands were tied, but her legs were still free!

She never conceded and was still struggling!

Her legs just slightly loosened when Yun Xi started to extract her power again, but soon after, her legs wrapped around his waist again with a stronger strength.

If one took a glance at them from a distance, one would have thought that they were just a loving couple that was hugging each other.

Only they themselves knew that it was a battle that was betting everything.

"Extracting! Extracting! Extracting!" Yun Xi sadly found that without the help of Casina's will, his "Magnificence of Sky Sword" was awfully bad.

Casina could easily extract Shaya Longnis' energy and back feed it to the entire Water God's world, and now he was just facing his childhood sweetheart, but the effect of this godlike skill wasn't good and he was so frantic.

"No... they are different..." Casina had sat on the cloud and watched their battle for a while. She shook her head.

Shaya Longnis' energy was different from Hua Huo's energy.

As the strongest slime, Shaya Longnis' energy was from the endless slimes in the endless god's domains. Although the amount of her energy was incredible, the quality of her energy was bad.

The energy in Hua Huo's body was different. From the beginning, she was using her own energy.

Hua Huo's energy was like a piece of iron, and Shaya Longnis' energy was like a cloud. Obviously, it was easier to absorb a cloud than to absorb a piece of iron, even though the former was much larger than the latter.

Yun Xi's control of his "Magnificence of Sky Dance" wasn't as bad as he thought, it was just because Hua Huo's body constitution was too special. To a person at his rank, it wasn't a wise choice to absorb energy from her since she was an owner of the "Rigid Body".

"Boom! Boom! Boom!" Yun Xi extracted Hua Huo's energies and then immediately released them to the sky, then repeated this process over and over again. The energies turned into lights flying in the sky like beautiful fireworks and formed a few rainbows in the sky.

The ring of blessing echoed above the sky of the Caelian City again, as if it was for celebrating something.

For three days and three nights, Yun Xi and Hua Huo were still hugging together, continuing their dangerous seesaw battle in the sea.

Fortunately, the balance of victory gradually biased toward Yun Xi, because this was the Water God's world, the entire world was helping him!

At the last moment of the third day, Yun Xi's ribbons took over the control of Hua Huo's left hand.

On the fourth day, the ribbons took over the control of her right hand.

On the fifth day, the ribbons tied around her neck.

On the sixth day, her upper body was tied by the ribbons.

Finally, on the seventh day, the nine ribbons tied her legs. So far, Hua Huo's whole body was bound and sealed.

During the process, Yun Xi gathered and released over a hundred rounds of energy bursts.

Yun Xi turned his body into the bridge between the sky and earth, extracting her energy and releasing them to the air over and over again. People could even see the lights transformed from the energies from the Caelian City, and they called this scene "Rainbow Fountain".

"I... I won't let you go..." After struggling for seven days and seven nights, Hua Huo still didn't concede. She still stared at Yun Xi's silver mask with a determined look.

Why don't you concede Hua Huo? Yun Xi felt that he had reached the limit of his body and soul. If the entire world wasn't still supporting him, he would have fainted.

Originally, he was the one who had the upper hand, but now, he was afraid that he would topple down first.

After having her energy being extracted for over a hundred rounds, Hua Huo was still spirited. What a monster she is!

Chapter 324: The Water God's Blessing

"Ride a tiger and find it hard to get off", this was the most suitable proverb to describe Yun Xi's dilemma at this moment.

Moreover, it wasn't a common tiger but a winged tiger than could slaughter thousands of green hippos easily!

After having her energy extracted for over a hundred rounds, Hua Huo was still spirited. What's wrong with her body?!

If it was Yun Xi and he wasn't in the Water God's world, he didn't think he had any resistance in the face of the Magnificence of Sky Dance.

He was the one that was extracting Hua Huo's energy, but now, he was afraid that he would faint before she conceded.

The perspiration poured down his White Emperor Mask, the recovered wounds had started to become painful again.

"Ha... ha... ha..." Yun Xi gasped for air. Without sleep and rest for seven days and seven nights, Yun Xi was already exhausted, even the ribbons that were tying Hua Huo were slightly loosened.

“Cough... ha ha... you... you can’t hold on much longer...” Hua Huo’s face looked both funny and annoyed.

She wanted to laugh, but she was still tied. In some sense, he hadn’t conceded, but she did face the first failure of her life.

She was still energetic, but it wasn’t because she had a strong will or beliefs, it was simply because of her powerful bloodline.

Sky Flying Bloodline wouldn’t be bound by any forces. It was a godlike bloodline that was doomed to fly in the sky.

At the moment Hua Huo was caught by Yun Xi, the battle had left the right path and became this helpless situation.

“Oh...” Yun Xi could only smile bitterly.

He didn’t suspect that Hua Huo’s bloodline was far stronger than his imagination. If Casina’s will was still possessing his body and he had his one million brides’ power, it was possible for him to win.

Unfortunately, reality proved that even with the help of the will of the entire Water God’s world, he could only barely suppress his childhood sweetheart for a few days.

When Yun Xi despondently estimated how long he could still hold on and try to extract Hua Huo’s energy again, a great will descended upon his body.

It was a strong, prideful, confident, soft and hot will.

In the sky, Casina let out a sigh of relief. She kicked her feet freely in the air and looked at the two people in the sea with a smile.

The battle was over.

Yun Xi's mind became blanked. Without the support of the stars, his mind couldn't withstand such a great will now.

Of course, the will wouldn't hurt him, because it was from the source of this world, the Water God, Hydra.

...

Originally, Hua Huo was about to break away from the ribbons, when the will appeared, she was bound tightly again.

Hydra's strength spread through Yun Xi's whole body, each of the nine ribbons was filled with an absolute strength than could suppress Hua Huo completely.

"What?!" Hua Huo felt the terrible aura, which only existed in the White Emperor Mask and covered Yun Xi's whole body now.

“It’s about time I have a talk with you, Sky Flying princess.” Looking down at her, Hydra exposed Hua Huo’s real identity.

“You are the White Emperor! You are the person who possessed my Little Xi’s body!” She immediately understood who was talking to her.

“Yes, it’s me.” Hydra took the blame for Yun Xi without hesitation.

Since she was the one who let him become her Apostle and granted him the White Emperor Mask, she would take responsibility for everything he did in this world.

Yun Xi saved this world from being destroyed by Shaya Longnis, of course she would give him her blessing.

The entire world and the beings in this world were her betrothal gifts to him.

She witnessed his growth and his love for this world, which meant that he loved her, because she was this world.

Her body turned into the ground.

Her blood turned into the sea.

Her soul turned into the sky.

Even her nightmare turned into the Mist Tide and the Mist Demon tree, becoming a necessary part of this world.

She is this world!

“Return my Yun Xi to me!” Hua Huo cried.

Only Yun Xi was her treasure and she won't let anyone take him away!

She was the first on everything! She was Yun Xi's first childhood sweetheart, she was his first love, she would undoubtedly become his bride and have a happy life with him!

The times that only belonged to the two of them, were always full of happiness. She would feel satisfied as long as she could stay together with Yun Xi.

If this still couldn't be called “love”, it must be the fault of the entire world!

“He loves you too. What an admirable couple. However, you should know he won't live in the garden of peace forever. Just like you, he is doomed to step on the stage of the endless god's domains, you should know what a great potential he has, you can't monopolize him forever. Even so, you still love him and wanted to protect him?” Hydra wore a faint smile on her face, waiting for Hua Huo's answer.

Hua Huo cried out without hesitating for a second, “Yun Xi is forever my Little Xi!”

“No matter what mistakes he had made, no one can keep us apart.”

“Naught can stop my love for him, even if it's you, a god!”

“If Yun Xi decides to be the enemy of the entire world, I will help him challenge the entire world.”

“No matter what he will be, he is forever my treasure, and I will never let anyone take him away!”

Hydra smiled. She took off the silver mask from Yun Xi's face.

Yun Xi's body and appearance returned to normal. It wasn't his middle-aged man appearance that was disguised by the mask, but his real appearance, the callow 16 year old boy.

Take the blame for my bride, deceiving the innocent girls for my lover, what a sinful lady I am!

However, it's not bad, is it?

My cute bride, I'm waiting for your growing up.

As a good lady, I will help you become stronger.

This is a blessing from me, the Water God, Hydra!

Chapter 325: Dream or Reality

Yun Xi had a dream. It was a strange and ridiculous dream, even in his wildest delusion.

In the dream, he became the savior of a world called “the Water God’s Fantasy Island”.

In order to save the world, his partner named Yun Que helped him make the “Expansion Plan of A Million Brides”. After successfully proposing to over a million girls, he obtained the Mist Soul Army’s power and had a fierce battle with a super strong enemy, Shaya Longnis, the Sky Sword.

The Guardian of the Door, the oldest Sky Sword watched the battle and held the final judgement.

The strongest Battle God, Casina possessed his body and beat down Shaya Longnis using his hands.

The master of the Water God’s world, Hydra regarded him as her bride and granted him the highest power of administration in this world.

Finally, Hua Huo found him with jealousy and had a fierce battle with him. He was forced into the corner by her and had to use the only godlike skill he knew: the Magnificence Of Sky Dance, which let him successfully defeat his childhood sweetheart.

What a real dream!

Hua Huo’s breasts were soft and rubbery, the handfeel was too comfortable.

Not only so. Yun Xi could also clearly remember the process using the nine ribbons tying her whole body bit by bit.

The nine ribbons were like a part of his body. When they touched Hua Huo's skin, he also felt a chill of excitement.

Well, isn't this dream becoming strange?

Hua Huo wasn't a girl who would bear such a thing. In her character, she should struggle with rage.

He knew she was jealous and moody, but she was also his childhood sweetheart, the most perfect lover in his heart. How could she do nothing?!

"Little Xi, Little Xi! Wake up!" Vaguely, Yun Xi heard her worried voice beside his ears.

For the first time, he heard that her voice was trembling.

Don't worry, I'm fine.

I just had a very long, realistic and strange dream.

"Ohoo, It's not a dream. My cute bride, I helped you deceive your childhood sweetheart, but you still need to be careful and don't let her notice the truth."

“I need to continue my sleep now. The next time I wake up, you should have grown up. I will marry you at that time.”

“Before that, you can play with your little darlings here to kill time.”

“Good night, my favorite bride.”

A lazy sound echoed beside his ears, telling him what the reality was.

Err, can this sound be...

He tried to open his eyes, but found his four limbs feeble.

Being exhausted after battling with Hua Huo for seven days and seven nights, his energy hadn't recovered yet.

Just like an ordinary person who just ran ten kilometres without a break, and then the person stopped and tried to relax, the extreme fatigue of the heart could even kill the person.

“Yun Xi! Yun Xi!” Finding that his body state was becoming bad, Hua Huo called his name anxiously.

If the White Emperor still possessed his body, she wouldn't mind what would happen to him. But now, her Little Xi had taken back the control of his body!

What can I do now?

“Well now, how about you kiss him?” She did not know since when Casina had quietly stood beside them. Looking at Yun Xi’s appearance, she had made a very dubious suggestion.

“Oh, right, artificial resuscitation!” Like a drowning man would clutch at a straw, hearing Casina’s suggestion, Hua Huo immediately pressed her hands on Yun Xi’s chest and kissed him.

“Whoa... en...” Closing his eyes, he felt a small, sweet tongue block his mouth.

His nose whiffed a faint scent, which was like the strongest aphrodisiac, it was stimulating all parts of his body.

With the knowledge he learned in the Water God’s world, his body naturally responded to it.

He subconsciously sucked, licked and lightly bit her tongue. He could feel that her body suddenly trembled just like she was stung.

Her natural reaction was so valuable and sensible, making him lost in the pleasant sensation of kissing.

The taste in his mouth was becoming thick, and the atmosphere in the air was becoming sweet. Being stimulated by his tongue, her body trembled like a frightened little rabbit.

Even though she was the undefeated Hua Huo, she was no different than other common girls. Her mind had almost blanked out under the kiss.

Only Yun Xi in this world could break her defence that easily, by invading her mouth.

At first, it was just a mouth-to-mouth resuscitation. However, his skillful kissing soon made her lay down her arms and surrender.

When her mouth slightly opened and her tongue was entangled by Yun Xi's tongue, she was already doomed to be defeated.

He greedily explored her tongue with his tongue and drank her saliva, during the process, his energy gradually recovered.

When the deep kiss finished, she blushed and didn't dare look at his face.

Her shamefully cute face was a treasure of his own.

"Sorry, Hua Huo... I think I had a very bad dream... am I still dreaming?" It was true. He could barely recognize the difference between his dream and the reality.

The things that happened in the Water God's world were too extraordinary, but they were real.

Therefore, this Hua Huo, whose face blushed should be true one. Shouldn't she?

“Little Xi, your nightmare is over. Everything will get better.” Of course, she wouldn’t confuse him with the White Emperor.

After the mask disappeared, her Little Xi returned. This shy, uneasy, but also warm boy was her childhood sweetheart, her lover.

As for the White Emperor, he could go to hell and never let me see him again! My Little Xi won’t be salacious like him!

My Sky Flying Bloodline won’t surrender to anyone, even though the mask’s real identity is the god of this world!

Chapter 326: Two White Emperors (1)

“Yes, it was just a dream.” Hua Huo hoped that Yun Xi didn’t get affected by the crimes of the shameless White Emperor.

The man who married a million brides had no relationship with her Little Xi!

“Hua Huo...” Looking at his childhood sweetheart, Yun Xi felt as if a generation had passed.

It seemed that everything returned to normal. The things that happened in the Water God’s world were like a dream and a bubble’s shadow.

Only holding Hua Huo tightly, was the only real touch he could feel right now.

...

In the sky, a figure wearing the White Emperor Mask and the Sailing Jellyfish's Robe was comfortably laying on a group of sailing jellyfishes, regarding them as a soft, warm bed.

Sitting down opposite her, was Casina, the sixth Sky Sword, who looked very familiar with the her figure.

"Will you really let him go? Isn't this little guy your favorite bride?" Casina asked and looked at Hydra curiously.

"If he wants to stay in this world, this paradise I made for him, I will protect him forever, letting him enjoy a happy life."

"However, he wants to leave, he wants to see the various god's domains and reach a higher realm."

"Since my bride wants to, I can't just go to sleep and do nothing. So I decided to give him one last help."

"I believe he will become a much more beautiful bride in the future." Hydra blushed as she smelled Yun Xi's odour left on the mask and the robe.

"He is still too young now, it's a bit awkward to put my hands on such a young boy."

“Can this still be considered a lady’s behavior? Aren’t you playing a growing game? What bad taste.” Casina sniffed at Hydra.

“He will come back, because there is a very important thing for him here, unfortunately, he still can’t obtain it yet.” Hydra showed a mysterious smile on the corners of her mouth.

“As for you, Casina, don’t carry off my bride!”

“I don’t think I like robbing the cradle like you. I just want him to become my disciple. After all, it’s not easy to find such an excellent ‘Soft Body’.” Casina said in a bad tone and kicked Hydra’s leg. Her brown skin was in striking contrast to Hydra’s white skin.

“You are like a pot calling the kettle black... don’t forget you are already hundreds of years old, you are not the little girl who accidentally broke into my garden.” As a lady, Hydra thought that it was too impolite to talk about the age problems. The difference between a five digit number and a three digit number was just two zeroes, it’s not too striking of a difference! “It’s not my fault for being a long lived fantasy creature!”

“I’m not as shameless as you... how old are you? How can your mind still be filled with fantasies about love?” To Casina, improving her martial arts was the ultimate goal of her life, nothing was more important than that.

During her hundreds of years of life, she only had the impulse to accept disciples a few times, because there weren’t too many super geniuses in the god’s domains that could let her feel interested enough and want to teach them the Battle God Genre.

In some sense, Casina was a pure woman just like the sword “The Sands of Time” on her back.

“Yes, yes, you still haven’t changed, just like the little girl below.” Hydra shrugged her shoulders. If Casina’s character wasn’t like this, she probably couldn’t create the strong Battle God Genre.

Casina only used a few hundreds of years to enter the legend rank. Even though all Sky Swords were monsters above monsters, Casina was still one of the most terrible monsters amongst them.

Also, due to her pure, innocent character, she could become a lot of old beings’ friends, because no one would worry about whether or not she would betray them. She was a person that could help her friends keep any of their most valuable treasures.

Compared to Casina, the Sky Flying princess was also skilled and had a potential that wasn’t inferior to any Sky Sword, however, her intelligence was... too unreliable.

There were so much evidence that had proved that Yun Xi was the White Emperor, yet she still trusted him wholeheartedly.

She blamed all the things Yun Xi had done on the “White Emperor”.

Looking at such a pure and cute little princess, Hydra couldn’t help but want to play tricks on her.

As a lady who took the blame for her bride, Hydra showed an evil smile on her face.

My bride, there are still a lot of surprises waiting for you in this world.

Therefore, grow up quickly, you are still not strong enough to know the secret of this world.

As the watcher of this secret, she had slept and waited for thousands of years.

It won't be a long time to continue waiting for a hundred years again, will it?

I'm looking forward to your growing up, I'm looking forward the moment you wear the gorgeous wedding dress.

My most favourite, beautiful and loveliest bride, Yun Xi.

...

"Well..." Yun Xi felt his back go cold.

It must be my delusion! He thought.

"You mean, the White Emperor has left?" Yun Xi found something wrong.

I am the White Emperor, where did the other White Emperor come from? Moreover, the White Emperor said that everything I did in this world was actually what he did, now, the master of this world had appeared, so he didn't need my body anymore and returned it to Hua Huo.

The other White Emperor helped Yun Xi to deceive Hua Huo, but for what reason?

“That White Emperor is just a bastard! He just thought that your body is a good container and used you like a puppet!” Hua Huo was outraged with anger.

The damn White Emperor is guilty! He deserves ten thousands of deaths!

Chapter 327: Two White Emperors (2)

“Splish! Splish!” Sea waves gently washed upon the sandy beach. When the sun went down, beside a campfire, Yun Xi was laying in Hua Huo’s arms with a helpless look.

“Ooo ooo, how dare the White Emperor control my Little Xi’s body! If he didn’t help you enhance your body as a compensation, I wouldn’t be done with him!” Hua Huo pinched Yun Xi’s hands and feet with a disgruntled look.

This was already the tenth time she helped him check his body. Her expression was always bad every time she checked his body, he didn’t know whether it was good or bad.

Without the White Emperor Mask, Yun Xi couldn’t obtain the help of this world’s help again. However, the changes that had happened to his body didn’t disappear.

Even he himself hadn’t realized that his body had been totally changed unknowingly.

If his physical quality when he just arrived in the Water God’s world was one, he was one hundred times stronger than his past self. He could now kill one hundred units of his past self easily, even with his eyes closed.

Due to the breakthrough of his “Baker’s” career, his mental strength had also been strengthened, which was already far more than most hero ranked beings.

Although the career “Baker” couldn’t enhance his combat ability, it could help him increase his speed of understanding of the rules of the universe.

Only the barrier between the mortal rank and the hero rank was still stopping Yun Xi from becoming stronger, although, it wasn’t really a hurdle for him since he had even experienced the power of the legend rank with his body.

If he wanted, he could stride across the barrier within three days, becoming a hero ranked Swordsman.

However, after experiencing the powers of the legend rank, Yun Xi looked back on his path to power again and ceased to advance consciously. He gave up trying to reach the hero rank for the time being.

As a matter of fact, it was also because of the power Hua Huo had shown him, which let him realize what a strong potential the mortal rank still contained.

After seeing the tip of the iceberg of the legend rank, he found that all the legend ranked powers he had ever seen had a similar feature.

Hydra, the Water God, the fantasy creature overlord, the nine headed demon snake, as long as her nine heads weren’t being chopped off at the same time, she was immortal.

Shaya Longnis, the tenth Sky Sword, the child of the slime race, the slime who had thousands of avatars, as long as there was still a slime living in the endless god’s domains, she wouldn’t be killed.

If the reason they entered the legend rank was because of their specific race, then the other two legends were totally different.

Casina, the sixth Sky Sword, the Battle God, the human who had entered the god's realm, the super martial artist who beat Shaya Longnis to death.

And the oldest Sky Sword, who just appeared for a moment but judged three legend ranked beings in an instant.

The four legend ranked beings had all exposed powers that were similar to the essential rules of the world.

Shaya Longnis' power and Hydra's power tended to be race specific; Casina's power and the oldest Sky Sword's power were close to the law of heaven and earth.

Maybe they were just different forms of expression of the same power, because they were all powers that sprang from the basic rules of the universe.

The common point is...

"Hua Huo, if I wanted to reach the legend rank, is it a 'must be' to master a godlike skill?" Lying on her knees, he suddenly asked.

"Gee... why are you asking? Oh, I see, the White Emperor told you this?"

“No, he didn’t!”

“To humans, mastering a Godlike skill is indeed the best way to open the door of the legend rank, however, it isn’t the only way. If you can arouse your oldest bloodline power... oh...” Hua Huo suddenly realized that Yun Xi’s bloodline couldn’t be as good as her Sky Flying Bloodline, so she immediately changed the topic.

“If you can find a super artifact that is perfectly fit for your physical quality, for example, one of the legendary sky swords, it can help you reach the legend rank.”

So, godlike skill, bloodline and artifact were the three essentials that can help me reach the legend rank. Yun Xi silently remembered this information.

There were also the things countless people wanted to obtain in the endless god’s domains.

Arousing his oldest bloodline, mastering a godlike skill, or obtaining an artifact. If he wanted to open the door leading to the legend rank, he must obtain one of the three “keys”, otherwise, it would be just a waste of time no matter how hard he tried.

In fact, the three keys all pointed to some certain rules of this world, they could be considered as the instantiations of these rules.

Hua Huo, Hydra and Shaya Longnis were born with one of the keys. When they grew up, they could naturally enter the legend rank.

Casina created a godlike skill using her own power and wisdom, then opened the “door” using her godlike skill as the “key”.

As for the oldest Sky Sword, her artifact, the ice blue sword was impressive to him. He guessed that she may have entered the legend rank by using her sword.

After all, the ice blue sword could even beat down the White Holy Dragon, the Water God and the tenth Sky Sword. Undoubtedly, it was the strongest artifact he had ever seen.

Although it was for just a short time, when he was holding the ice blue sword, he had a vision that he could cut open the entire Water God’s world at that moment. What a delusion!

No, it was probably not a delusion. The ice blue sword really could break stars and cut open the void.

“This is really a big big world.” Stretching out his hand, Yun Xi looked at the clouds through his fingers. In the sky, he vaguely saw a silver masked figure smiling at him.

It was Hydra’s avatar, who just wore the silver mask and replaced his identity, walking in this world as his substitute.

Now, there were two White Emperors in this world at the moment.

The figure who replaced his identity in this world and helped him carry everything on his back.

The young boy who had just returned to his childhood sweetheart and would embark on his journey and new life.

They were both the White Emperor!

Chapter 328: The Innocent Fantasy Creature Overlords

“Don’t look at the sky! That guy isn’t handsome at all!” Hua Huo held Yun Xi’s hand and pressed it on her cheek, “Listen, Little Xi, you can’t be affected by that man.”

“He is just a shameless pervert and deserves ten thousand deaths. If he didn’t return you back to me, I wouldn’t just let him go.”

Listening to her angry tone, sweat broke out all over his body and trickled down his back.

No matter what will happen, I will never tell her that I was the White Emperor and I wasn’t being possessed!

Fortunately, she didn’t even doubt him. Even before he tried to find any excuse, she had poured her anger at the non-existent White Emperor.

Was it a white lie? No, it wasn’t a lie, because he never said “I’m not the White Emperor”, “Yun Xi’s body was possessed by the White Emperor” was just her guess and she believed it beyond a shadow of doubt.

As a man, he thought that he knew when to speak and when to close his mouth tightly.

Looking at his strange expression, she felt that something was wrong.

Oh, they're smells on Yun Xi's body!

"Sniff... sniff..." she smelt his skin like a little puppy and wanted to cry.

The smells are too many! They are not just the smells from one or two people, but dozens of mixing smells, from his toes to his fingers!

She could imagine what an amazing crime the White Emperor had made when he possessed Yun Xi's body.

Whoaaa! That damned White Emperor stained my Little Xi!

I will be back with a vengeance after my Sky Flying Bloodline is aroused!

White Emperor, I will remember you!

...

The ninth day after the sixth Sky Sword, Casina arrived at the Water God's world.

In the hustle and bustle in the streets, a lot of strangers appeared.

After the Water God's world had been opened to the outside world for a week, finally, the diplomatic groups of other god's domains had also arrived in this world.

A lot of big shots came, and some of them were not inferior to Casina. If it wasn't because the Water God's world had suffered too many pains before and the people here were busy with rebuilding their homeland, these creatures' coming would cause a huge unrest.

Yes, these big shots were "creatures" but not "humans", they were fantasy creature overlords just like Hydra.

Although they didn't choose to become a god like Hydra, instead, relying on their specific race, they could run amuck in the endless god's domains.

Yun Xi even witnessed a giant snake, whose body was half the size of the Water God's world, slowly crawled into this world from the light bridge. The whole process took it a few hours.

The giant snake's body looked like it was wrapped around by countless rings. Every time it moved, Yun Xi had a fit of dizziness.

When he took a close look, he found that the snake wasn't crawling but floating in the air. Actually, it was moving in another dimension but not really crawling with its belly. Probably this was the reason why it could arrive at White Lotus Sword Domain from the remote Western God's Domain so quickly.

When it saw Hydra's White Emperor avatar, the giant snake looked very happy, and its style of greeting was to swallow the White Emperor avatar in its mouth, which made him feel grateful that he was not the White Emperor who was facing the public.

After a while, a bird whose body was surrounded with flames flew into this world. After seeing the White Emperor avatar, it also looked very happy and carelessly burned half of the sky red and torrefied hundreds of young sailing jellyfishes.

Fortunately, sailing jellyfishes wouldn't be killed in this manner. After being put into the sea, these broiled sailing jellyfishes quickly reactivated and flew back to the sky.

"Little Xi, remember, if you see the people who look great and sacred in the future, stay away from them! Most of them have something wrong in their minds and ordinary people should never try to get close to them!" Hua Huo pointed at the snake and the firebird and shook her head.

"For example, the snake is called 'Ouroboros'. People say that it can fly through the void easily, swimming in the sea of space and time with ease, but in fact, it's just an idiot. It even tried to eat its own tail when it felt hungry, and its ability of time travel is actually the result of its jumbled memories. People said that it can predict the future, but most of the futures it had seen were wrong. Moreover, it often confused the time of its prediction."

"And the firebird also has a lot of problems. Also it's an immortal bird, it will still die once upon a time and completely disappear from this world. It also has a bad memory. If it didn't record its memory into the memory stone frequently, it wouldn't even remember its own name!"

"As for how this immortal bird did die and why it could revive after that, has always been a mystery."

Looking at the two prodigious fantasy creatures, a drop of sweat dripped down from his forehead.

Oh my god, if Hydra didn't replace my identity using the White Emperor avatar, am I the person who would have to face the two fantasy creatures now?

No, I can't do it! The gap between the levels of our lives is too wide! Even if I wear the White Emperor Mask, I couldn't stop my body from being as stiff as a stick when facing them!

"Hum? Wait, something is wrong. Are they looking at us?" Hua Huo quickly stood forward and pulled Yun Xi to her back, staring at the two fantasy creatures courageously.

Compared to the sailing jellyfishes, the snake and the firebird were really two well known fantasy creature overlords. They were at the same level with Hydra.

Shouldn't they feel jealous after seeing Hydra becoming a god? Why do they look so pleasant?

What is happening?

"Hydra, is he your bride? He looks yummy!" The giant snake, Ouroboros licked its tongue.

"I can't remember a lot of things again. Hydra, can you tell me the name I used the last time we met, and what is the promise I had made?"

Chapter 329: Ouroboros' Prediction

"Oh, your name was Futaba in your last life and was a loving couple with my little bride. You don't remember it because the memory stone you used to record this is broken."

As an excellent lady, Hydra didn't feel shy in deceiving the firebird, Phoenix with a serious look. She had prepared to make fun of it.

“Really? No wonder I have a familiar feeling when I look at him! So, he was my lover in my last life! Yes, yes! I almost remember it. His name is...” The firebird, Phoenix, opened its wings and exclaimed. It felt that it was going to remember something very important.

When countless burning feathers flew in the air, another group of sailing jellyfishes were grilled and spread a roast squid like smell in the sky and dropped into the Caelian City one by one. The girls in the city quickly collected their bodies and sent them back to the sea.

“Purr! Purr!” The sailing jellyfishes quickly revived in the sea and left the Caelian City with fear.

The immortal bird Phoenix was too horrifying!

“What’s his name? What’s his name?!” Phoenix cried and flew into Ouroboros’ arms.

“Don’t worry, let me help you. In front of the great Ouroboros, who can travel through space and time, there is no secret in the entire universe!”

Ouroboros, who was said to have existed in the past, present and future at the same time and could observe all secrets of the universe, gave Phoenix a smile and its promise.

“Forever universe, forever disaster, I observe everything, I explain everything, I’m the truth of all things, I’m the traveller of the river of time, Ouroboros!” The rings around its body started rotating.

“Ouroboros, are you serious?” Hydra looked at it in surprise. Apparently, Ouroboros was using its source power to search for Yun Xi’s name in the river of time.

Even for Ouroboros itself, It wasn't an easy thing. Compared to the predictions of diviners, the rank of Ouroboros' prediction was obviously much higher.

Although its predictions about future weren't precise, because nine tenth of its predictions would proved to be wrong, but the remaining one tenth was very likely to really happen in the future.

Maybe ordinary people would sniff at Ouroboros' 10% accuracy, however, only legend ranked beings could understand how strong its ability was.

The futures it could predict weren't the things such as "weather", "tide" or "the celestial trajectories", which could be calculated using math, but the "real future" that couldn't be calculated by following any rules.

Even though the accuracy of Ouroboros' predictions was only 10%, however, once the prediction came true, the probability would become 100%. If judging from this point, it wasn't just boasting for itself that it could travel through time and space.

At the least, when it used its ability of observing the "future", probably its mind really travelled to the future and saw something. Even if the things it saw would happen in a far future and have no use for the present.

Even in the endless god's domains, Ouroboros was the only fantasy creature who had this ability, therefore, countless forces throughout countless god's domains hoped to get a word or two from it.

Unfortunately, it only predicted the future when it felt interested in it. If it had a good mood, it would even predict for a mortal; if it lost interest in the things people wanted it to predict, it would play dead or act shamelessly in front of them.

Therefore, even though it owed a lot of forces an amazing amount of money, its creditors didn't dare bother it and could only pray that it would be interested in helping them predict their futures someday.

At this moment, Ouroboros was in a very good mood and was really interested in this.

If its creditors knew that it predicted for a common human kid casually, they would die crying!

Countless images of stars flipped through Ouroboros' pupils. They were the past traces of the river of time and the possibilities of Phoenix having a relationship with the human boy in the future.

"I see it! I see it!" Ouroboros exclaimed.

"You and he were a couple of lovers!"

Hydra mouth opened wide in surprise.

Can it be possible? I just made fun of my friend, Phoenix, can there really be something between Phoenix and my little bride?

"I knew it, I knew it! Tell me his name and when did I establish my love relationship with him!" Phoenix looked so excited. Of course, my instinct can't be wrong. He and I really had a special relationship!

"You and he were enemies!"

“Well...” Hydra was completely confused after hearing about this. How could they be enemies and lovers at the same time?

“Not really!” Phoenix was also dumbfounded. The transition was too sudden!

Was it a hatred caused by love?

“You and he will be very much in love.” Ouroboros’ body twisted, the rings started to rotate faster and faster around its body.

“You and he will be irreconcilable! You will have a life-and-death fight.”

“He will rob you of your most important thing, you will obtain the most valuable treasure from him.”

Hydra lightly coughed, looking at Phoenix whose mind was already in a mess.

“Are we lovers or enemies? Can you please speak more clearly?” Phoenix groaned and didn’t know how she should treat Yun Xi.

“You are his daughter, and you will marry him. Your daughter will become your new self and embark on a new journey with him.”

“At the end, you and he will face countless strong enemies, you will open your wings and fly into the sky, dancing above the thirty-three heavens.”

“Till the stars drop from the sky and a new era starts, you and he will...” Speaking this, the rings around Ouroboros’ body suddenly lost their brilliance and the traces of stars in its pupils also disappeared.

Originally, Ouroboros’ body was half of the Water God’s world long, but now, its body heavily shrank and looked like a dead snake who had been exposed under the hot sun for several days.

Chapter 330: On the Road Again

“Hiss... hiss...” Ouroboros stuck out its tongue and couldn’t even turn over its body.

Its instinct was warning it to stop “observing”. If it said one more word, its life would be in danger.

“Ouroboros, what happened?”

“No, I can’t say, I’m already a dead snake.” Ouroboros looked desperate.

In order to help Phoenix predict the future, it paid a painful price. Perhaps it couldn’t observe the future again within the next one hundred years.

It had promised to predict the futures for a lot of forces before, but now, it seemed that it had to cancel all the orders. If the forces who had paid it the earnest money before knew it, they would go crazy!

Hum hum, when there are too many debts, the best solution is to forget them all!

Ouroboros had stopped worrying about them. After all, It's just a hundred years!

"Which prediction is real?" Phoenix still recalled the words Ouroboros said before.

Lovers, enemies?

Have a sweet relationship, have a life-and-death battle?

Daughter, father?

Phoenix knew Ouroboros' predictions often turned out to be wrong, but... isn't the prediction this time too dubious?

"Well, at least we know one thing, that you and my little bride will have a special relationship in the future!" Hydra was still teasing Phoenix. As a good lady, she loved to do these kind of things very much!

"Whoa! I don't understand! I don't understand! What is the real future?" It was too difficult for Phoenix to think about such a complicated thing.

"Sorry, I can't help you." Ouroboros collapsed on the central square of the Caelian City and its body was still shrinking, the accident in the prediction had almost killed it.

"Ho ho, interesting." Under the silver mask, Hydra's White Emperor avatar smiled with anticipation.

As a fantasy creature, it had lived far too long a life and there were not too many things in the entire universe that could let her feel interested.

It seems that my little bride still has a lot of secrets!

...

“No. We should leave here quickly. The firebird looks indecent. It’s not a decent bird! Little Xi, don’t look at them!” As Yun Xi’s closest childhood sweetheart, Hua Huo’s instinct let her sense a suspect atmosphere in the air.

On her Jealousy Radar, the point that stood for the firebird suddenly turned from the harmless white to the dangerous red.

Danger! Danger! Compared to the red tide caused by the White Emperor, this firebird was tougher.

In some sense, the immortal bird Phoenix was more dangerous than the Water God Hydra!

“Oh!” Yun Xi agreed. Hua Huo held his hands and left, disappearing in the crowd of people quickly.

In the sky above the Caelian City, the ring of blessing echoed again.

...

“305... 306... almost everyone is here.”

The tutors of the Sword Palace was counting the numbers of the Sword Palace disciples.

After the floating ship White Lotus dropped from the sky and were lost in the Water God’s world, half of the Sword Palace disciples minds became unstable and lost the practice of keeping up their sword skills. Those chose to quit and return to the lower-level area of White Lotus Sword Domain, which was equal to giving up their hopes of becoming stronger.

Not everyone could conquer their limits in the trial, even though the thing that happened before was actually of great benefit to them.

The thing of “they survived from wandering between life and death” itself was already a gift, which could help them understand the rule of life and death. As long as they could bear it, they could learn more or less from it.

Unfortunately, half of them failed. Even after giving up their self-respect and joining the evil god, Tlahuizcalpantecuhtli’s camp, they still didn’t learn anything and were traumatized.

When facing the same challenge, some people would fly to the sky and some people would fall to the ground. It’s not a surprising thing.

At this moment, the Sword Palace disciples who had given up and planned to return to the mortal world were actually a group of such losers.

Their swords had lost their sights. Even though they were still the high class people in the mortal world and could reach the third rank, they were not able to touch the edge of the hero rank.

The tutors of the Sword Palace had expected this. The Sword Palace didn't need losers, since they had lost confidence in themselves, the Sword Palace wouldn't force them. After all, they had proved that they were not fit to keep going on the road of the sword skills, and the trial in the Water God's world just exposed their weaknesses early.

Compared to them, the remaining disciples who still kept their faith about the sword after seeing the disaster in the Water God's world were the real treasures in the eyes of the tutors.

Especially when they looked at the Starwing Knights girls, their eyes lightened up with appreciation.

After signing the marriage contract with the White Emperor, their bodies and souls had all been purified again, especially Hua Yue and Xiao Cao whose bodies even once carried the wills of the Sky Swords.

This was sufficient to prove that they would have a bright future!

However, there was a much stronger and more terrible genius.

Hua Huo, the girl who just returned to the White Lotus Sword Palace camp with a bright smile and her maid.

If they didn't witness it with their naked eyes, they wouldn't believe that this sixteen year old girl actually dared to challenge the master of this world, the White Emperor!

Compared to her, the tutors thought that they had lived their lives in vain.

Hua Huo, the most dazzling star in the final battle of the Water God's world, the girl who dared to challenge an entire world alone.

While holding a broken sword in her hand, she eventually ended the battle in a draw with the White Emperor.

She was undoubtedly the best disciple amongst these disciples, and wasn't even inferior to the twin witches, who were doomed to master White Lotus Sword Domain in the future.

"Ok, no one is left. Let's set out!"
