

Starchild 371

Chapter 371: The Girls' Great Goal

No wonder Lu Lu said that only half of the Dragon Plants could grow up.

By the way, where did she find the seeds? This herb wasn't a native plant and was a treasure even in the remote Dragon God's Domains. You weren't likely to buy those seeds via normal channels.

"Well... this..." Lu Lu blushed like a little girl who had her secret found.

"Cough... cough! Yes, we cultivate it for money, for raising our quality of life!" Apparently, Mei Lan was lying. Maybe some of the girls were poor before they joined the Starwing Knights, but it wouldn't be a problem anymore now.

The weakest member of the Starwing Knights was at the second rank, and dozens of girls had reached the third rank. In the mortal world, such a force could even conquer a small country.

"For breasts! They want their breasts to grow bigger!" Suddenly, Xiao Cao said unashamedly, exposing the secret Lu Lu and Mei Lan tried to hide. "Because we are not satisfied with the current size of our breasts!"

This was the critical defect of the civilian girls' camp.

Hua Yue and Ling Ling were all members of the noble girls' camp. Compared to them, the entire civilian girls' camp lacked in confidence.

“Numbers” could do nothing when facing this problem.

In a word, the civilian girls’ camp was totally defeated at this point.

As the cores of the civilian girls’ camp, the sizes of Xiao Cao, Lu Lu and Mei Lan’s breasts could be described as “poor”. None of the girls of the civilian camp was “full”.

As for the noble girls’ camp, even if ruling out Hua Yue and Ling Ling, the sizes of other girls’ breasts were far above the average.

In Yun Xi’s view, it was because of their diet structure and family environment.

The noble girls could eat all kinds of nutrient-rich food from their childhoods.

And just several months ago, the civilian girls could only barely fill their bellies when they needed a large amount of nutrients in cultivating.

Maybe there were exceptions existing in the world, but none included in the civilian girls of the Starwing Knights. They grew up in common families.

The result was apparent: it was natural that the civilian girls didn’t have full breasts!

However, what’s the relationship between “breast” and “Dragon Plant”?

Apart from Mumu, the White Holy Dragon, Yun Xi didn't know that there was any dragon in the White Lotus Sword Domain.

As a creature who had high wisdom and strong power, dragons were under populated and most dragons lived in Dragon God's Domain. However, wyverns were often witnessed in the wild of the White Lotus Sword Domain. Were they planning to hunt wyverns?

"Dragon Plant... is the quest of the Dragon Blood Alliance." Finally, Xiao Cao's words exposed the wild ambition of the civilian girls.

"Dragon Blood Alliance? Oh gosh, are you trying to hunt the multi headed demon dragon?" Yun Xi was shocked by their "bright idea".

The multi headed demon dragon had been wanted for thousands of years. It was said that several god's domains even started wars for obtaining it, but it was still on the run.

Dragon Blood Alliance was a special alliance by the females who were eager for its blood. It was one of the most famous forces in all of the god's domains, and even in the White Lotus Sword Domain, there was a small branch of the alliance.

"No matter where the demon dragon is, even if it hid in the deepest area of hell, we will find it!"

"Demon dragon, demon dragon! Give up resistance and offer us your blood!"

"Long live the Dragon Blood Alliance!"

It was said that the alliance had innumerable strong members, even including gods. However, the multi-headed demon dragon was still alive and kicking now, it couldn't be weak.

Yun Xi wasn't a girl, so he didn't understand why almost all females were eager for its blood. He didn't hear of any misdeed by the dragon, but every time people found it, it would cause carnage.

Its blood could only enlarge breasts, is it really worthy of their fever?

"I must successfully cultivate the Dragon Plants!" Lu Lu's eyes sparkled with hope.

"Yes, don't give up till the last moment!" Mei Lan stretched out her hands and her mind already fell into an unrealistic imagination. "We must have dreams!"

"We are all very small, so, come together with us, Mei!" Patting on Yun Xi's shoulders, Xiao Cao ground her teeth.

Hum? What?!

Why do I have to worry about the size of breasts with you?

I'm not a girl!

Yun Xi was speechless.

“If we can catch the demon dragon, I want a cup of blood. Just a cup...”

“Oh, a cup of blood is sufficient to you, but to me, I’m afraid that I need three cups...”

“I heard that there are only very few cups of blood in the entire Dragon Blood Alliance. For obtaining the remaining blood, the leaders of the alliance had attacked each other dozens of times!”

“That damn demon dragon, where are you? Don’t hide yourself away!”

Ok, although countless girls had it daily and nightly in their thoughts, it wasn’t a pleasing thing to the demon dragon at all.

Chapter 372: Mumu’s Change

Under the morning sun, the disciples of the sword palace walked to the gate of the sword palace in small groups.

They all looked confident and pleasant because of the White Lotus Secret Treasure. Even cats and dogs obtained benefits from it, not to mention them.

From the beginning, these disciples were super geniuses in the entire White Lotus Sword Domain. After obtaining the powers from the secret treasure, they would definitely go a step further on the road of their lives.

Last night, the sword palace announced that all the trainee disciples would become formal disciples without any extra requirement, which made them feel so excited that they didn't sleep the whole night, and formed one small group after another according to their identities and families.

At this time, they were probably at the peak of their lives.

As long as people existed, different social circles would naturally form. Disciples of noble families and rich families had their circles, and disciples of civilian families also had their circles.

“Oh, I only heard four sounds at that time. Brother Lee, you are better than me!”

“No, don't say that. I only heard five sounds. There are a lot of people who are stronger than me.” Although he said modestly, his face looked confident.

No matter whether it was four sounds or five sounds, it meant that their talents were far better than ordinary people.

Before yesterday, they still lacked confidence in themselves, but now, all the people who heard more than four sounds were confident.

Reaching the hero rank was not just a dream to them all. It was like a tall tower, they already built the base and obtained the blueprint of the tower, now they just needed to practice themselves and wait for the day that the tower is built.

The White Lotus Secret Treasure really roiled up a storm in the entire White Lotus Sword Domain.

The girls also walked out of the girls' dorm, but they were focusing on another thing.

Just like the male disciples, female disciples also had their circles.

New disciples formed a circle, old disciples formed a circle, girls of noble families formed a circle, girls of civilian families formed a circle, servants formed a circle.

However, their minds were all focusing on the same thing.

"Hey... is it true?"

"You didn't guess wrong. I also become more white."

"Yes, when I woke up, I looked at the mirror for an hour and still didn't believe it! I never dared to imagine that my skin could be so good!"

Yes, from the hero ranked female tutors to the maids who just came to the sword palace, they all noticed the change in their skins.

The blessing of the White Lotus Secret Treasure didn't discriminate by the race, sex, or age.

It conferred males stronger strength, faster speed and aroused the power of their bloodlines. As for females, it conferred them more smooth skins, more nimble bodies, and more luscious hair.

The higher the talent the females had, the more obvious the changes that would happen to their bodies.

Looking around in front of the old gate of the sword palace, male disciples looked more energetic and female disciples looked more beautiful.

“We found a lot of good disciples this time.” In front of the main temple of the sword palace, Red Lotus nodded with satisfaction. As the future master of the White Lotus Sword Domain, she knew that these disciples were the hopes of the entire sword domain.

Red Lotus didn't expect that the secret treasure would come out at that time, neither knew why her body moved uncontrollably and announced the awakening of the secret treasure together with her sister, White Lotus.

“Perhaps we will really become the master of the secret treasure we are protecting.” White Lotus smiled and looked at a corner of the girls' camp.

“Oh, she is probably the chosen one.” Looking in the same direction, Red Lotus murmured.

The girl who defeated the top ten disciples and heard ten sounds.

Almost all people thought that it was her who aroused the White Lotus Secret Treasure.

Apart from her, no one else heard ten sounds.

“Oh, my princes of destiny... he is there... what a lucky day.” Squinting her eyes, White Lotus looked at the same direction but for a different person.

“Oh, sisters!” Beside them, a girl happily waved her hands towards the girls of the Starwing Knights.

She wore a big silver headdress, a broken necklace on her neck and there were three silver blue gems slowly rotating around her body, which exposed that she wasn't an ordinary girl.

Yes, she was the girl Yun Xi saved on the desert island: Mumu.

Today, she wore white underclothes and her naked feet were floating in the air about one centimeter away from the ground.

“Mumu, your state is still unstable, you need to seal your power before you come to see them.” White Lotus touched Mumu's ears. It was Casina who confided this mysterious girl to them, and there was a very terrible power lurking in her body.

The power was sealed by special equipment called the “Locked Dragon Ring”. However, a part of the ring was broken, which made the seal become unstable. Casina had to let White Lotus look after her.

“Ooo... I see... it was all that bad guy's fault, she broke my necklace!” Mumu bit her fingers with a hurt expression, but soon, she beamed with joy.

Because she saw the black-haired maid who was waving her hand at her.

“Oh, it seems that the twin witches take care of Mumu very well, but what happened to her body? Her rank... how can it be true...”

Yun Xi looked at Mumu in confusion. From the information of her seed, he thought that Mumu must have had a very special adventure after leaving the Water God’s world with the twin witches.

She was just a little girl who even lacked the strength to truss up a chicken not long ago, but now when she appeared in front of him again, her power had reached the hero rank.

Chapter 373: The Third Godlike Talent

When Yun Xi was in the Water God’s world, the threads between him and the girls’ seeds became vague, and Mumu’s seed even disappeared.

In the past, this only happened when the seeds were too far away from him, such as his several childhood sweethearts.

After he successfully proposed to the one million girls and found the girls of Starwing Knights, the threads of their seeds became clear again.

When he left the Water God’s world, he still didn’t know where Mumu was. Later, he heard that Mumu was being protected by the twin witches.

As for why the twin witches did protect Mumu and why did the thread of her seed disappear, he knew the reason now.

After appearing in front of him again, Mumu was not a weak little girl anymore.

When she was on the island, she wasn't even at the first rank. She was just a girl who came to the desert island to look for her father alone.

He gave her his seed at that time, because he wanted to confer this poor child his power to protect herself.

But now, she was different.

Perhaps she was still the shy girl who wouldn't even hurt a squirrel, but the information of her seed had totally changed.

Mumu's seed:

Rank: unknown.

Bloodline: unknown.

Natural born abilities: Diamond Body.

Yun Xi rubbed his eyes. Yes, she had the "Diamond Body", one of the strongest Rigid Bodies. Just like his perfect Soft Body, her "Diamond Body" was far stronger than common Rigid Bodies.

Special Ability One: Body of Diamond. Her body was harder than steel, and her attacks could smash the ground and shake the sky.

Special Ability Two: Heart of Diamond. Her mentality won't be influenced by anything. No evil magic can twist her holy will and bloodline.

Special Ability Three: The Song of Time. The girl's song resounds throughout the sky. She has the potential to be the favorite child of god.

Unknown God Weapon (broken): It contains a strong power of sealing.

Just like the tip of an iceberg emerged out of the water, Mumu finally exposed a part of her super talents.

Basing on his experience, since he didn't obtain Hua Huo's Sky Flying Bloodline through her seed, he knew that it wasn't likely to obtain Mumus's Diamond Body.

The seeds could only transfer the host's experience to him, they wouldn't rob other people's bloodline powers.

However, although Yun Xi didn't have Hua Huo's Sky Flying Bloodline, he could use the "godlike skill" which her bloodline conferred her.

Although he just knew some surface knowledge of the Sky Flying Sword, he could use it.

What does this mean? It meant that Yun Xi could learn a skill which required a corresponding power of bloodline.

Mumu's Diamond Body was one of the godlike talents Yun Xi was eager for. When he saw the information through her seed, he was so surprised that his mouth grinned from ear to ear.

What a big, exciting surprise!

Yun Xi had only seen familiar talents from three people: the twin witches and Hua Huo.

He tried to plant a seed into Casina's body, but he failed.

Apparently, he couldn't plant his seeds into the people who were far stronger than him. At least, it wasn't possible to plant his seeds in legend ranked creatures such as Casina and Hydra now.

Mumu's Diamond Body was the third godlike talent his seed system had found. And although he didn't know the reason, but compared to the twin witches' seed, which was too hard to merge, the affinity of Mumu's seed was the highest with him.

Although Hua Huo was standing beside him and Mumu was still hundreds of metres away from him, he was still amazed that the experience Mumu's seed sent to him was two times higher than Hua Huo's seed!

A large amount of information of Mumu's Diamond Body was sent to him across space, being absorbed by his body. It was an experience that wasn't inferior to when he first obtained Hua Huo's seed.

Naturally, his body was gradually obtaining the power of Diamond Body, although it was totally different from his Soft Body.

Perhaps even Mumu herself didn't know what the information was, because it was a natural talent of her body, which didn't need to be learned by her mind.

However, Yun Xi understood it.

If his Soft Body was a river, then Mumu's Diamond Body was a mountain.

His Soft Body could let him twist the rules of the sky and earth.

Mumu's Diamond Body could let her smash the sky and earth using her fists and legs.

Two ultimate powers, two godlike talents, now Yun Xi had them both. Even his teacher Casina couldn't expect this to happen.

Chapter 374: The Invisible Thread

Casina was also the owner of the Soft Body, however, it didn't mean that the Battle God Genre didn't contain the cultivating techniques of the Rigid Body.

On the contrary, Casina's battle style was never mincing. Her attack was always as fast as a thunderclap and as violent as an erupting volcano.

Her battle with Shaya Longnis was the best interpretation.

“Rigid Body” and “Soft Body” would become similar when touching their essence. Even in the endless god’s domain world, Casina was one of the few people whose body could transfer between “Softness” and “Rigidity” easily.

However, she probably wouldn’t believe that a person could obtain the “Soft Body” and the “Rigid Body” at the same time.

It was a paradox! It violated the rules of the universe!

Casina could change her body from the “Soft Body” to the “Rigid Body”, and then change back easily, however, it wasn’t possible for her to maintain the two states at the same time.

Now, Yun Xi’s body had accomplished this, which was against the basic rule of the world. What would he become?

“Light and darkness.”

“Water and fire.”

“Pros and cons.”

Can they coexist?

“They can, my master.”

“What is rational is actual and what is actual is rational.”

“Light is darkness.”

“Water and fire are just the flows of different manifestations”

“If it’s you, you can toss the front and back of a coin at the same time.”

“Even if the probability was negligible, as long as it happened, the probability would become 100%!”

Mei’er’s sound roused Yun Xi and pointed out a new road for him.

“Everything real is rational?”

“Yes, for example, if you like her and marry her, it will become the truth of the world. And I suggest you do it. She is a super genius!” Mei’er said with a serious look. In her mind, if her master married the little girl, he would be able to obtain all her talents through her seed!

It was probably the highest ranking seed they had seen.

It would be a great waste if my master doesn’t use her seed, and the best solution is to marry her!

“Marry...” Yun Xi’s eyes became dangerous.

I can obtain stronger power from her, as long as I marry her?

I don’t think that Mumu will resist me, or rather to say, as a child, she wouldn’t know what she would face.

Oh, it’s really easy to become strong. I just need to give up a few of my principles as a human!

Don’t be ridiculous!

Even though I’m not an upright gentleman anymore now, I won’t become such a beast!

At the least! At the least! I will wait till she is 18 years old!

“Don’t talk nonsense, Mei’er! How can I become such a bastard?” Yun Xi retorted with a straight face.

“Hum? But, master, in the past, you...” Mei’er cocked her head and tried to say something.

“I don’t know! I don’t want to listen!” Yun Xi quickly stopped her because he had a very bad presentiment!

“Mumu is a good girl, and I like her, but I would never marry her! In fact, she is like a little sister in my heart... to be precise, she is like my daughter in my heart!”

This was his true feeling when he first saw Mumu. He wanted to protect her, giving her the warmth she missed from her irresponsible father.

“Oh... well... I see. You can do everything, my master.” Mei'er shrugged, since it was her master's choice.

“Whoa!” Mumu blushed being looked at by Yun Xi's gentle eyes. She felt that she was swimming in the sea of happiness just now.

Although she didn't have the memory of being hugged, she felt the warmth, as if her father had just come back!

The feeling was so real that she didn't know if it was her delusion or something else.

She looked at the black-haired big sister, as if there was an invisible thread between them. Every smile and motion could make her face blush and her heart pound faster.

What's wrong with me? Mumu whispered to her closest and dearest friend, White Lotus.

“Oh, Mumu, that feeling is called 'love'. Did you find the prince who deserves your love? Have your fingers been tied to the invisible red thread of fate?” White Lotus smiled and extended her little finger. There was an invisible red thread too, which was tying her and her prince tightly.

“Is that so?” Mumu looked at White Lotus in confusion. She didn’t understand what love was, but she could feel her happiness from the bottom of her heart.

However, she felt different from what White Lotus said.

It wasn’t a feeling called “love”, but a feeling that stood for a stronger emotion. Compared to White Lotus’s red thread that stood for “predestined marriage”, her thread was much more special, sparkling like the light of the starry sky.

Chapter 375: Hua Huo’s Suspicion

Accelerating, accelerating, the transmission speed of the secret of Mumu’s Diamond Body was still accelerating!

Even though Mumu was hundreds of metres away from him, he could feel the flowing of the information of her Diamond Body!

“It’s really a high quality seed.” Mei’er looked at Mumu, who was smiling at them.

Theoretically, there was a limit of transmission speed of the seed. It wasn’t likely to reach 100%.

The transmission speed of Hua Huo’s seed could reach 100%, but the speed of Mumu’s seed had reached 200%! Only one theory could explain it, that is she and my master are actually...

No, I shouldn’t tell my master about that. It would be too shocking to him. He would go crazy!

...

“What happened?” Hua Huo looked around with a skeptical eye.

Since last night, she had become increasingly restless, as if something very bad, or fatal had just happened.

However, she didn't see any “enemy” in her sight.

It wasn't possible for the “Starwing Knights girls” to find out about her Little Xi's true identity, and she had confidence in her Little Xi's sense of morality. She believed that even if he lived in the girls' dorm, he wouldn't do anything bad.

In her mind, her Little Xi was always the common young boy who only wanted to enjoy a peaceful life.

Even though she had forced him to enter the “higher society”, he didn't change at all.

However, what was this sense of danger just now?

Little Xi was right beside her and there was nothing special happening, but her suspicion was still lingering.

Checking, checking, checking again! Where is the enemy?

I own the strongest Sky Flying Bloodline! I can crush any rival!

I'm the girl who knows Little Xi the best, he should spend his life together with me!

In the past, in the present, into the future, nothing can separate us!

"Mei, what are you looking at?" Holding Yun Xi's hands, Hua Huo asked him straightly. This was her privilege as his childhood sweetheart.

"Mumu, look, she is the girl sitting beside the White Lotus witch. Isn't she cute?" Yun Xi answered honestly, pointing at the silver-haired girl who was waving her hands towards them on the stage.

He wasn't lying, because this was what he was thinking. Therefore, although Hua Huo felt uneasy, she couldn't find anything suspicious.

The little girl beside White Lotus was indeed very cute. Everyone would like her at first sight.

"Hum? It looks like she isn't a human." Looking at the broken fetter on her hands and legs, Hua Huo recognized that they were called "Lock Dragon Ring". They were used to seal dragons who were sentenced. She could still move after putting on the fetter? She couldn't be simple!

However, the Lock Dragon Rings were also useful tools to dragons. If a dragon got used to the fetter, the dragon could break out terrible battle power after unlocking them.

“Yes, but she is still a poor girl who is trying to find her father.” Yun Xi stared at Mumu softly.

“Mei, you’d better come clean. Do you like the little girl?” Finally, Hua Huo understood where her sense of danger was from.

Oh, I was careless! Although she is still a child... she is still a girl!

Even if she will only become my enemy after ten years, she is still my enemy!

“Hum? Oh, yes, she is like a little sister to me.” Yun Xi hadn’t realized what Hua Huo was thinking.

“Mei, you want a sister?” Hua Huo’s eyes became dangerous. A “Sister” is always the biggest enemy of a “childhood sweetheart”!

Fortunately, Yun Xi had no sister. Otherwise, she would have faced a great crisis!

Compared to “childhood sweetheart”, “sisters” could stay with him all day and call him “brother” in a cute tone.

Sisters could live together with him and no one would say a word.

Sisters could hide in his arms in the middle of the night after hearing a clap of thunder or having a nightmare.

Sisters could naturally play the role of his bride in the game "Playing House".

Sisters were ten thousands times tougher than dragons and demons! Sisters are the biggest impediment in a childhood sweetheart's way of becoming his brother's lover!

My Little Xi should never have a sister!

"Hum?" Yun Xi finally realized Hua Huo's jealousy.

Her dangerous eyes looked as if she would... in the past, he only saw this expression when he played the game "Playing House" with Ye Li, El'phyllis and Milei.

"Oh, I was just saying that! Hua Huo, don't misunderstand my words!" Yun Xi quickly explained.

Chapter 376: The Super High Speed Seed

The connection with Mumu brought him a super fantastic feeling.

It wasn't a physical feeling, but a feeling of the soul.

He felt as if he just planted a tree sapling, then saw it growing up and becoming a tree that could support the whole world.

The growth of the seed is such a magical thing! Raising up his head, Yun Xi looked at the girls around him. He could feel their seeds clearly.

In the far away, unknown places, he could vaguely feel the seeds of Ye Li, El'phyllis and Milei.

Some of the seeds that were planted into the girls' bodies were by him.

Some of the seeds were his rewards from the star trials.

No matter what the seeds were, once they got connected with him, everyone would have a special connection with him, just like the sparkling stars in the endless god's domains.

Now, the seeds of all the girls were sparkling in his eyes.

The seeds of Mumu, the twin witches and Hua Huo were the brightest. The seeds of Hua Yue, Xiao Cao and Lu Lu were slightly inferior to their seeds. Then there were the seeds of other members of the Starwing Knights.

He wasn't standing under the starry sky, but he was surrounded by these bright stars.

"Is it... my network?" Amongst the seeds, a well-connected network was formed. He could feel their happiness and sorrow, he could see the traces of their fates.

Because of him, their fates were totally changed and moving to an unknown direction.

His own fate had also become colorful because of his connection with them.

“All for one, one for all!” He murmured the famous proverb, then touched the brightest, hottest thread in the network.

On the other end of the thread, it was the silver-haired girl who was pinching the corner of her clothes shyly.

“Zii! Zii! Zii!” A strand of Hua Huo’s hair stood up and pointed to the little girl besides the twin witches.

“No... it can’t be possible!” A strong sense of being threatened arose in her heart.

Now she confirmed who the suspect was!

“Mei, are you really so eager for a sister?” Hua Huo ground her teeth and held Yun Xi’s hands tightly.

No, stop looking in that direction!

I’m your childhood sweetheart, how can I lose to this little girl!

If it’s Ye Li, El’phyllis or Milei, I can understand it, but I will never concede to this little girl who came from out of nowhere!

If I lose to her, I won't believe in justice anymore!

"Well... in fact... I said she is like my little sister, but this feeling... I feel she is more like my..." Yun Xi could find no words to describe it. Just like what Mei'er said, her seed was super excellent!

He just met a seed that could transfer him such a great amount of information at such a high speed. He felt as if he was smoking.

He could clearly feel the change that was happening to his body.

Casina's secret training could strengthen his body in one night, helping him break the barrier which stopped him from entering a higher realm, the hero's realm.

However, it was still a step by step process. It wasn't that easy to break the limit of flesh and blood. Millions of years, a human body couldn't break through the limit of a mere mortal without hard practice and luck. Every meagre bit of progress after reaching the limit of the human body would bring a great improvement to the body after entering the third rank.

There were differences between different "third ranks". The green hippo was at the third rank, the three Childes were at the third rank, and Hua Huo was also at the third rank. However, the gap between their battle powers was wide and desperate.

The fundamental difference was "their limits were different".

The green hippo was a third ranked monster. The strength of its body was far stronger than common third rank humans.

Child Yun He, Child Si Nian and Child San Quan were nobles. They learned the battle skills of their families from their childhoods and even had their own spirit weapons. Their bodies were far inferior to the green hippo, but they could kill the hippo with great ease.

As for Hua Huo, she was an exception. She wasn't a standard common third ranked human.

If the green hippo's limit was 100, then the limit of the three childe was between 200 and 300, arguably, the limit of any common human was 300.

However, humanity was just one of the races in the endless god's domains. There were numerous races whose limit was far beyond 300.

Before entering the hero rank, they were still flesh and blood, but the limit of flesh and blood of different races were various.

Before his memory as the starchild was aroused, Yun Xi's limit was 100, which was even inferior to the green hippo.

After being blessed by the Water God, his limit increased to 800. This was also the reason Casina thought very highly of him.

And now, he felt that his limit was being broken again, which announced that he had stepped into the realm of non humans.

Chapter 377: Getting Closer

Originally, this should happen at the moment Yun Xi reached the hero rank.

The nature of the hero rank was an evolution of life form, a total transmutation.

Even if it was a “weak” human, after reaching the hero rank, the human’s physical quality would be stronger than an elf and even a giant.

The outstanding people could even fly using the powers of their weapons, crossing the racial isolation.

The hero rank meant a brand new realm.

Mortals would shiver with cold in the face of monsters like the green hippo, but any hero ranked person, even if the person just entered the hero rank, could slaughter a group of green hippos with his eyes shut.

The mortal rank’s limit was the starting point of the hero rank. The stronger a person was when the person was still a mortal, the higher the potential the person would show after reaching the hero rank.

Yun Xi thought that he was already very close to his limit, but now, his limit was expanded again.

Everything about his body had become unknown just now.

After obtaining the information of Mumu's "Diamond Body", he clearly felt that his bones and muscles were strengthened, and his breathing became slow.

His blood flowed slowly like the lava in the volcano. The rhythm of his life was becoming slow, because his body was restraining itself.

Once he was ready for a battle, his body would release the amazing amount of power it saved just like an erupting volcano.

This technique was included in Casina's training course of the Battle God Genre, however, it was a very high-level technique which Casina wasn't going to teach him before he learned the basic skills.

But now, Yun Xi obtained the "Soft Body" and the "Rigid Body" both, then he naturally understood this technique.

Unlike the "Soft Body", the strengthening goal of the "Rigid Body" was higher, faster, stronger.

The "Soft Body" could let the flexibility and agility of his body reach its limit.

The "Rigid Body" could improve and help the hardness and strike-resistance of his body reach its limit.

The two different evolutionary lines existed in his body harmoniously and perfectly. He hadn't reached the hero rank, but his temperament already made him look like a great sword master.

From today on, he already stepped into the realm that Hua Huo and the twin witches had reached.

After his limit practice in the small valley, he reached the “first stage” of his cultivation, now, he just reached the “second stage”.

In the first stage, he obtained his “heart of never yield”. Even facing countless deaths, he wouldn’t surrender in the trial.

Without a “heart of never yield”, even if his talent was ten times greater, he wouldn’t be able to find his own road.

In the second stage, he just obtained his “body of never collapsing”. In the long history, it wasn’t rare that a genius couldn’t step into a higher realm because of his physical defects. No matter how talented the genius was, without a good body, he could only turn into the ash of history after a helpless sigh.

If he wanted to reach the legend rank, only a great good body could withstand the great power of the legend rank.

Although “a good body” wasn’t necessary when trying to reach the hero rank, for example, even a soul who had no good body could reach the hero rank, however, the “hero rank” was imperfect, which meant that the soul could never reach the legend rank.

Only the person whose “body”, “soul” and “technique” were all perfect had the hope to enter the realm of the legend rank. Casina was a wonderful example.

Now, on his way to becoming strong, Yun Xi had only a weakness, “technique”. This was the only difference between him and Hua Huo and the twin witches.

He didn't realize that he had become closer and closer to the distant goal in his eyes, his invincible childhood sweetheart.

The will of the stars was indeed pushing him to step onto the road that nobody had come down yet. However, it was also a road with infinite possibilities.

Of course, there was also a "very negligible" defect.

The principle of equal value exchange was still available. After obtaining so much from Mumu, it was natural that he needed to give her the corresponding return. However, the one who paid the price wasn't Yun Xi himself but the stars.

"It's warm... it's like... someone is hugging me." Mumu held her arms with an intoxicated look.

From just now, she could feel an unknown warmth coming from nowhere.

In her small universe, the silver dragon whose body was covered with wounds smiled in her deep sleep.

...

Mumu Salabert had a dream, a happy, warm colorful dream, a dream she didn't want to wake up from.

In the dream, she was a careless child, and her daddy was hugging her and praising her.

“Mumu is my good girl! I love you.”

“Eh, papa, I love you too.”

Oh, let this dream become longer and longer.

Chapter 378: The Growth of the Seed

“You have successfully accepted all the information in the seed.” Mei’er pleasingly announced.

The secret of Mumu’s bloodline talent, “Diamond Body” had all been absorbed by Yun Xi’s body. Correspondingly, a part of his talent, his “Soft Body” also returned to Mumu’s body.

Not only Mumu, as long as he kept growing, but also all the girls in the network of his seeds could achieve growth.

Because Yun Xi absorbed Hua Huo’s seed and transferred his experience into the bodies of the girls of the Starwing Knights, those girls who didn’t have a great talent of sword skill originally all became excellent sword geniuses.

Similarly, the girls of the Starwing Knights also shared a part of the mentality talent Yun Xi obtained from the twin witches.

When Yun Xi obtained the “Soft Body” in the Water God’s world, the girls’ bodies immediately became more nimble and flexible.

Now, he obtained Mumu's super high speed, the girls of the Starwing Knights also obtained a part of the properties of the "Rigid Body".

This time, not only the common girls of the Starwing Knights, even Hua Huo and the twin witches were influenced.

After obtaining Hua Huo's seed and the twin witches' seed, he could absorb experience from their seeds, but couldn't influence the two special seeds.

It was because the rank of their seeds was too high. Yun Xi's personal understanding about the sword was like nothing compared to their seeds, naturally, they couldn't feel anything.

However, it was different this time.

Because the change happened to him this time was too big.

Even the hero ranked twin witches and his invincible childhood sweetheart could clearly feel it.

After Yun Xi finished absorbing the secret of Mumu's Diamond Body, Hua Huo and the twin witches' suddenly shivered. They noticed the changes that happened to their bodies.

"It's strange... my bloodline was aroused just now? No, it wasn't that kind of feeling..." Hua Huo murmured and still held Yun Xi's hands tightly. She still blocked his sight of Mumu with her own body, trying to stop him from looking at her in this manner.

Almost all people wished that their bloodlines could be aroused by 100%, breaking the limit of their bodies. However, Hua Huo always suppressed her bloodline, just in case that her power increased too fast and too strong.

However, although her power was enhanced this time, she didn't feel any change in her bloodline. She knew it must be something else.

As a super genius who had to suppress her growth, there weren't too many things in the world that could make her feel surprised.

"I just became stronger?" Red Lotus was taken aback.

She hadn't practiced hard recently, but her body naturally became stronger just now. Although she could find no reason to explain it, the enhancement of her own body was undoubtedly a good thing.

"It wasn't your delusion. I feel I've become stronger too." Apparently, White Lotus realized something. Holding her sister's hands with a smile, she quietly took a glance at a corner under the stage.

To them, every insignificant progress in their powers was meaningful, because they had their own "secret".

"Hua Huo, what's wrong?" He finally realized that his childhood sweetheart's face looked strange.

Doubt, unease, anger, reluctance, happiness... it was really hard to believe that she could show so many expressions on her face at the same time.

“Humph! It’s all your fault!” It was good to become stronger, but she wouldn’t forget Yun Xi’s eyes when he looked at Mumu!

Even becoming stronger couldn’t make her lose her focus on this!

She swore that there must be something wrong. She wasn’t going to turn a blind eye to it!

Did anything happen when Yun Xi was on the desert island? Only during that period of time was she not staying with him.

“Tell me the truth, Little Xi! How did you find her?” Hua Huo questioned him with an undisguised jealous look.

“Well... it was just an accident... I just found her...” Yun Xi felt that his familiar girlfriend in his memory had just returned.

As expected, no matter how strong Hua Huo had become, she was still the familiar girl in his heart. She never changed.

“! Don’t! Believe! It!” She said as she ground her teeth.

How can anyone find a silver-haired little girl on a desert island so easily? Is this the plot from a fantasy novel that was already out of date a thousand years ago?

It must be because of a conspiracy! She didn't believe that it was an accident at all.

How can I give you a chance! Even Ye Li, El'phyllis and Meilei had all been defeated by me, how can I let you steal the fruit of my victory away?

I know everything about him, including his favorite clothes, favorite food and drink, and his favorite girls in the books he hid secretly! How can I be defeated by you, a little girl from nowhere?

"It's true! This is the first time I've seen her after leaving the Water God's world!" Of course, Yun Xi wouldn't tell Hua Huo that he had planted his seed into her body.

He didn't lie, he just told her the truth selectively!

"Really?" As his childhood sweetheart, she could easily detect it if he was lying.

Yes, he didn't lie. This really was their first meeting after leaving the Water God's world.

Fortunately, nothing has happened. I must break off the connection between them before anything does happen.

It's the smartest thing of my life to let my Little Xi become a greatsword maid!

Chapter 379: That Summer

“Puff!” After understanding the relationship between Yun Xi and Mumu, Hua Huo let out a sigh of relief.

Fortunately, even if she would become a threatening enemy in the future, at present, she was still a little girl who didn’t understand what love was.

Her Little Xi was still her “personal property”!

As the inheritor of the Sky Flying Bloodline, she shouldn’t have any weakness, but she did have one: Yun Xi.

She didn’t ever dare to imagine what would happen if she lost him.

From her childhood, she knew she wouldn’t have any friends, because the children of the same age couldn’t possibly begin to understand the world she was in.

When she was small, she once aroused her bloodline, eliminating a group of enemies who tried to do something to her.

The power of the Sky Flying Bloodline would become stronger and stronger when she was in a desperate situation. Nothing could suppress the wings of freedom.

She was born to be strong, so she had to suppress her true power in normal times.

Even so, people still said that she was a monster and avoided her.

Till that day, she had her first friend in the small town, where she was originally planning to have a temporary rest.

No, not the friend who got close to her for her bloodline, not the friend who worried about annoying her, fearing of her power.

It was a friend who simply treated her like a common girl. He didn't mind her past, and didn't even ask where she was from.

She would never forget that summer.

After being betrayed and losing the trust of her family, she lost control of her bloodline power and killed a lot of people. After that, she was driven away by her family. They said that it was a "vacation", but everyone knew that she was exiled.

She came to the White Lotus Sword Domain in desperation.

In a foul mood, she started to play a game with herself.

A game named "build a castle and crash it".

Then, she met him.

He probably doesn't remember it. When he tried to talk to her, her so-called "parents" shook all over with fear.

They were actually her distant relatives and pretended to be her parents. She never called them "father and mother".

She was doomed to fly into the sky, she was doomed to be a super legend to conquer the Tower of God.

She came to this remote sword domain just for resting and avoiding some unnecessary troubles.

At the end of the summer, she would leave this small town and never come back.

At least, she thought so at that time.

"Go away, I won't talk with a weaker."

Well, in her memory, she yelled at Yun Xi, who was trying to talk to her.

I just killed some bastards who salivated over the power of my bloodline, I did nothing wrong! Why did they punish me?

I'm not wrong, those adults were wrong!

Isn't it natural to kill enemies without mercy?

If I didn't kill them, they would kill me. It was so simple, why didn't the adults understand?

The world is sick!

"Weaker? Are you saying that to me?" As a child, Yun Xi didn't understand what "weaker" meant, just like he didn't know the reason why she was exiled to this remote sword domain.

"Yes, you are weak. I can beat down ten of you at once!" Hua Huo threw out her chest proudly. In fact, even if she just used one hand, she could knock out a hundred stupid kids like him.

I'm different! I'm doomed to be a person above all people!

"But, you don't know how to make bread, do you?"

Oh, she would never forget his silly smile at that time. His question made her feel at a loss.

"I... I... I'm strong!" She suddenly found that although she was a genius, she didn't understand how to make bread!

I'm a noble above all mortals! Isn't it a natural thing that I don't understand it?

Moreover, I'm not a common noble. My bloodline was from the exalted Tower of God, I should be more exalted than any kings and emperors!

"If you don't know how to cook, you will always be hungry. People will feel upset if they don't eat."

He took out a bread and tore it in two, handing half of it to Hua Huo.

"Come on, eat it. I know it's uncomfortable to be hungry."

"Goo!" That sound was one of her biggest blackest memories. Her stomach irresistibly growled at that time.

"Come on, eat it."

"Humph, don't think you can get anything from me. I'm a bad girl! If you dare to do anything, don't blame me if you get killed."

"Gee? Get killed? I will die?"

"Yes. People die if they are killed."

In her memory, she said those embarrassing words without feeling ashamed.

The lonely, indifferent self gradually became enthusiastic.

In fact, her temper didn't change. She just forced herself to change because she wanted to become the perfect bride in his eyes.

He said that she was his queen of the summer, in fact, he was the sparkling sun in her heart. She was just a mirror reflecting his lights.

If she hadn't met him, she would still be a lonely, weird child.

He made the current Hua Huo, he helped her find her road and walk forward straightly without confusion.

I'm going to marry Yun Xi, find the Demon Dragon and extract its blood to change the shape of my body, becoming the charming bride in the books he hid secretly. This was the road Hua Huo chose for herself.

Her bloodline was her wings, she could bring him and fly. As long as they were together, everywhere is heaven.

Yun Xi doesn't have wings, so I will become his wings!

She thought that it was just a common summer, but it was still continuing on at this moment.

The summer of her and Yun Xi would never end.

[Chapter 380: The War in the Pas](#)

Yun Xi doesn't know how many people's fates he had changed in the past.

The first "leaf" of the Ten Leaves Alliance, the girl who slept in the temple of gods from her birth and could only hear desperate sighs all days, showed a happy smile because of him.

The child of the Void God Church, the "anomaly" that was born in the last grave of the endless void, smiled happily when he hugged her and stroked her head.

Yes, they were very "common" daily lives to ordinary people. This was the world Yun Xi was living in.

However, they were "abnormal".

The Sky Flying Bloodline was a bloodline of god, however, its owners were doomed to be lonely all their lives.

Even though she had the strongest "absolute" power in the world, even though she could obtain anything in the world as long as she opened her wings, however, she would become the biggest misfortune once she broke the constraint of her flesh and blood.

The first leaf of the Ten Leaves Alliance was doomed to be the sacrifice in the mist, the most unfortunate child.

The princess of the Golden Family was the last princess in the ruin of gods. There was no way for her to break free from this path since her birth.

The last hope of the Void God Church, the last hope of all void gods, however, she was also a delicate child.

They had different names and came to the small town using different fake identities.

They came for her Sky Flying Bloodline, because it was “special” to the entire Western God’s Domain.

Eventually, they all became his childhood sweethearts, his friends, and tried to be his lover.

They were “imperfect”, they were “abnormal”, so they were eager for the “mediocrity” who stretched out his hands to them. He was the last hope in Pandora’s Box.

Because of him, the miserable girls encountered each other. Although they never spoke it out, they spontaneously gathered around him and formed a strange circle.

From the beginning to the end, only Yun Xi didn’t know what was hiding in the seemingly normal small town.

The small town was their paradise, where they could forget all troubles and sorrows.

When Yun Xi chose to leave his paradise and went to a brand new world, their paradise was ended, and they went onto their different roads of life again.

The first leaf of the Ten Leaves Alliance, El’phyllis, went to join the ten leaves parliament of the alliance.

The sleeping golden princess, Milei, had to shoulder her responsibility, to revive the glory of the gods and become a veritable Princess of God.

The youngest child of the void gods, Ye Li, had to return to the grave in the endless void to overhaul herself.

Only Hua Huo, the free, strong, willful Sky Flying Bloodline didn't listen to any force, and could stay beside him of her own will.

She never thought that she was common. She firmly believed that she could change the miserable fate of the Sky Flying Bloodline.

Nothing should be doomed in the world.

Even the trace of stars could be changed. Isn't that right?

Hua Huo believed that her summer could never be ended!

I have defeated almost all strong enemies, how can I concede to this little girl from nowhere?

As an enemy, you are far inferior to Ye Li, El'phyllis and Milei!

In order to take ownership of Yun Xi, they had a fierce virtual war.

On the World Chessboard, four people chose 28 different heroes, launching a war called "Yun Xi".

They summoned a lot of projections of old heroes, fantasy creatures and even real gods onto the chessboard, having a war that lasted for seven days and seven nights.

The Hydra who would never die unless all her nine heads were beheaded.

The Ouroboros who could interfere in the flow of the river of time.

The largest war machine of the void god, the invincible Star Destroyer which could create a mini black hole.

The War Knights who were doomed to destroy the world.

The legendary hero whose bow could shoot down the sun.

The mysterious creature who could shuttle back and forth between reality and dream.

The giant spider who could turn an entire world into crystal.

A total of 28 heroes responded to their summons, their projections launched a mini war on the World Chessboard.

The final winner was a beautiful figure whose wings blotted out the sky and covered the sun.

She opened three pairs of wings, rewriting all the rules in the mini world on the chessboard.

She defeated all the enemies. Even though she was also severely injured, she still stood in the sky and looked down at the land that had been destroyed by the war.

It was Hua Huo's hero, her ancestor Seraphim, the avatar of her Sky Flying Bloodline, the king above all gods.

It defeated all the enemies, no one was a match for it.

Even though it was the last hero Hua Huo still had, but it defeated all the enemies for her. The winner obtained everything and the losers could only wail in the darkness.

After the war, Ye Li, El'phyllis and Milei had to admit that Hua Huo was his strongest childhood sweetheart. She deservedly took over most of Yun Xi's free time and could enjoy his bread every day.

"Mei, I'm the strongest. No matter who the enemy is, I will never lose!" With burning flames in her eyes, Hua Huo announced again.

"Well, I never had any doubt about that." Yun Xi said and firmly believed it even though he didn't know the war amongst his childhood sweethearts.
