

Starchild 551

[Chapter 551: Static](#)

Golden and red flames were burning, and pillars of fire rose into the sky one after another, causing numerous firestorms to rage between heaven and earth.

The basic particles of yellow, red, blue turned into giant spirals one after another, spinning at high speed.

Seven-color lightning that never appeared in the White Lotus Sword Domain before jumped happily among the clouds. Colorful light penetrated through the battlefield of gods, illuminating the sky of the White Lotus Sword Domain.

A new sun suddenly appeared in the dusk of the White Lotus Sword Domain. That was Golden Crow Princess, that was the little sun from the Kunlun God's Domain.

However, the area covered by this sun was completely confined by a circle of ice-blue brilliance in the upper part of the White Lotus Sword Palace.

All lightning and storms stopped abruptly at one line, as if it was a field God had designated for them, and they could not take a step past.

The edge of the lightning seemed so magnificent, its numerous branches seemed to extend beyond the sky of the White Lotus Sword Domain, but the ice-blue wall completely blocked these lightning storms, standing as an unbreakable wall.

“Give my Mei back!”

“Give my Mei back!”

“Give my Mei back!”

Watching Yun Xi being snatched away from her arms, Golden Crow Princess lost her sanity.

As the princess of the Kunlun God’s Domain and the youngest daughter of West Queen, she had never experienced such a setback. Never!

Even the Sunwalker, Hura had to run away in the face of her, who would have thought that the guardian of the door would suddenly stop her?

“I decline...” Lilibet looked indifferently at Golden Crow Princess.

Apart from “Mei”, Golden Crow Princess could bring away anyone. After all, perhaps no one would refuse this “opportunity” to go to the Kunlun God’s Domain.

However, “Mei” was different. His real identity wasn’t inferior to Golden Crow Princess. From the moment he obtained the title “the Master of Star Go”, he had become a “signboard” of the Sky Tower, naturally, Lilibet wouldn’t turn a blind eye to it if anyone dared to kidnap him.

Even though Golden Crow Princess was the youngest daughter of West Queen, apparently, her value wasn’t as high as the Master of Star Go!

If Yun Xi was really willing to leave with Golden Crow Princess, she wouldn't interfere with this kind of thing.

But if Golden Crow Princess wanted to take him away by force, she would stop her!

"You're bringing about your own destruction!" Golden Crow Princess burst into a rage and turned back to her true form, a golden-red bird.

She cried into the air.

"No one can rob me of my thing!"

The battlefield of gods melted once again!

The earth's crust was easily burnt through by the fire of the sun, and then turned into a sea of lava.

Like the real ocean, the lava ocean was vast and boundless. As far as the eyes could see, white-heat lava bubbles rolled up and sprayed out, bursting into flames.

Yun Xi's hand-made furnace was 100% compatible with Golden Crow Princess. Even though Golden Crow Princess had never fought as a Sunwalker before, she could easily liberate the power of the furnace.

Putting the small furnace in her mouth, Golden Crow Princess' anger could even affect the operation of the White Lotus Sword Domain.

This was the power of the great sun!

“I want to... burn you to death!” Golden Crow Princess waved her wings, and numerous golden-red flame spiral arrows appeared behind her.

As long as these arrows fell on the ground of the White Lotus Sword Domain, any of them could cause a large-scale volcanic eruption and eventually trigger a world-class natural storm.

At this moment, there were more than ten million flame arrows that were locking on Lilibet’s body!

Those arrows’ power could destroy a thousand White Lotus Sword Domain in the blink of an eye!

“...” Lilibet raised her ice-blue sword. The compass pointer on the sword handle began to move and reflected endless fantastic scenes on the surface of the compass.

“Die!” Golden Crow Princess unleashed a world-class attack. More than three thousand golden arrows shot at Lilibet, blotted out the sky and covered up the earth.

Golden Crow Princess showed no mercy at all. She was trying to evaporate Lilibet from the world using this attack!

As for Mei, her sun power would not hurt him. He was holding the other furnace (SN-Drive) so he was actually immune to the fire of the sun. This was also the reason why Golden Crow Princess dared to launch such a destructive attack.

“I come from far away... go to the unfathomable future...”

“Order... symmetry to all things...” Lilibet’s ice-blue sword shimmered and sounded in her hand, and the compass on the sword handle pointed swiftly to Golden Crow Princess.

“The Sword of Order!”

The compass instantly turned to a strange golden color, reflecting the color of stars. An ice-blue light surpassed the river of time, ceasing all the arrows of the sun as if they were nothing and straightly pierced through Golden Crow Princess’ body.

Golden Crow Princess’ eyes slowly opened wide with a look of disbelief.

The next moment, everything was paused.

All of the battlefield of gods froze.

From the lava waves rising from the ground to the sky to the golden red particles dancing on Golden Crow Princess’ wings, everything stagnated.

“Go back, this place is not where you should stay.”

[Chapter 552: Expulsion](#)

Holding Yun Xi (who was totally flabbergasted) in her arms, Lilibet held the Sword of Order and walked to Golden Crow Princess, gently pointing the sword tip on her forehead.

“Go back to where you come from.”

“Forget the things that happened today, little Sun Princess.”

The next second, everything began to rush, as if lost time was suddenly released from its cage, countless visible fragments exploded and blasted around Golden Crow Princess!

“I’ll be back!” She made a terrifying roar, and her whole body was absorbed by the fragments and disappeared little by little from the battlefield of gods.

This was “expulsion”. Her body was returning to where she came from under the guidance of Lilibet’s power.

This was also the last step in the sacrificial ceremony, “sending the god away”. However, the performer was replaced by Lilibet.

Golden Crow Princess couldn’t resist the rules of the sacrificial ceremony, so that Lilibet could drive her away by a brandish of her sword.

In the face of the guardian of the Sky Tower, the young Golden Crow Princess finally paid the price and was taught a lesson.

Lilibet used her method to tell her that “power” wasn’t everything. There was a great distance between them in the use of their own powers.

“Thank you. We should leave now also.”

“I’m afraid that our little princess will make a tremendous row after returning to the Kunlun God’s Domain.” The two fantastic creatures who also came from the Kunlun God’s Domain, Yinglong and Bifang stopped hiding and appeared in front of Lilibet. They bowed to her and then disappeared from the battlefield of gods again.

As the guardian of the Sky Tower, Lilibet protected the orders of the Sky Sword God’s Domain from the age of the Twilight of the Gods. She deserved their salute.

Her age was even older than most of the fantastic creatures in the Kunlun God’s Domain, and she had begun to guard the Sky Tower before the Sky Sword God’s Domain was formed.

If it wasn’t because she had to follow an unknown rule, protecting the Sky Tower and the Sky Sword God’s Domain, she would have been able to become a real god long, long ago.

Amongst all Sky Swords, she was probably the most special one. She never interfered in the daily life of the Sky Sword God’s Domain. But once anyone dared to break the order in the Sky Sword God’s Domain, she would appear and prevent the worst situation from happening.

“Go back.”

“Here... It’s not a place you should come now...”

“You can come back after you reach the legend rank.” After expelling Golden Crow Princess back to the Kunlun God’s Domain, Lilibet lowered her head and looked down at Yun Xi.

“Um... Thank you... Lilibet...” Yun Xi really didn’t know what he should say now.

Being held tightly in her arms, Yun Xi could even clearly feel the arc and softness of her breasts.

To Yun Xi’s surprise, her body wasn’t as cold as her ice-blue sword at all, but very soft and comfortable, as if he had returned to his mother’s embrace.

He had never had this feeling from any girls of the Starwing Knights.

In the face of the girls of the Starwing Knights, he always had a feeling that he needed to protect them.

But in the face of Lilibet, he longed for her protection.

And she did have that power for protection.

Yun Xi didn’t understand how she could freeze time in the battlefield of gods before.

Maybe that was the power of order? The power to balance everything and turn everything around?

“To you... you still have a long life...”

“Your life... has just begun...”

“Don’t worry... I’ll protect you...” Rarely, did she say a lot of words, except for this time. After that, she let go of Yun Xi and gave him a gentle push.

The next moment, Yun Xi was surrounded by countless silver-blue particles.

It’s so warm. The silver-blue particles weren’t cold at all. Yun Xi watched his body falling toward the earth, but he was not afraid of that at all.

Because Lilibet’s power was still protecting him.

Under her protection, even if an attack that could destroy the world came, it couldn’t harm him.

That was the “order” she held, the gentle and kind power. Under her cold appearance, her will was more firm and powerful than anyone else,

For what reason, do you keep guarding this world?

What is this world in your eyes?

Why do you have to stay in that silent world, silently looking at the aggregation of the Sky Sword God’s Domain?

Lilibet, what a nice name.

It was so great to meet you in the dream.

[Chapter 553: In the Deep Sea](#)

“Go back...” Lilibet reached out her hand and gave Yun Xi a gentle push.

The next second, Yun Xi began to fall down to the earth from the battlefield of gods.

The battlefield of gods finally fulfilled its mission. It splintered like a mirror. Instead, an ice-blue portal stood over above the sky of the White Lotus Sword Domain.

It was the “door” of the Sky Tower, the door connected all sword domains in the Sky Sword God’s Domain.

In the next thousands of years, she would still stand on that beautiful and silent beach as ever, guarding the order of the Sky Tower and the Sky Sword God’s Domain.

Compared with Golden Crow Princess’ flying speed, the speed of Yun Xi falling from the sky was much slower, but it was more realistic.

Boundless land, mountains, and oceans appeared in Yun Xi’s vision and became clearer and clearer in his eyes. His body fell at a high-speed, which even caused sparks in the atmosphere.

It was impossible for his hero ranked body to withstand the impact of falling directly from the sky to the ground, however, Yun Xi was not afraid of it at all, because his body was being surrounded by silver-blue particles.

Being protected by Lilibet's power was the best, he only felt the joy of going back home.

The wet sea breeze and the familiar, beautiful scenery all seem to say "Welcome back" to Yun Xi.

Oh, he knew where the sense of familiarity came from now, because it was indeed the scenery he knew.

Some hidden power in his body stretched out comfortably, releasing a happy atmosphere.

The maid's dress automatically disappeared in the air and naturally became another set of clothes. On his face, a silver mask appeared, and above his head, a crown also naturally condensed. It was the mask belonging to the White Emperor, it was the crown belonging to the Water God's bride.

The magnificent ruby.

The clear sapphire.

The profound black obsidian.

The sacred moonstone.

The colorful diamond.

The golden crystal.

The silver ice crystal.

And a pair of ambers, which looked like a living sailing jellyfish and the butterfly of death.

All the gemstones were shining, reflecting each other's color.

The White Emperor was back!

One sailing jellyfish after another flew in from all directions, and fell happily from the sky to the sea together with Yun Xi.

They were singing softly, praising the only emperor in this world.

“Even the infinite love from millions of people, it wouldn't be more than the love you have granted to him.”

“You have the whole world, but you only love this boy.”

“Even though the world would end in misfortune, you would only offer this boy honour and hope.”

“Welcome back, bride of the great Water God.”

“Boom!” With a loud sound, Yun Xi dropped on the surface of the sea like a meteorite falling from the sky.

One sailing jellyfish after another happily chased after Yun Xi falling into the sea, the pressure of the sea water was nothing for these fantastic creatures.

More than that, after Yun Xi fell into the sea, the butterflies of death also came and followed behind Yun Xi together with sailing jellyfishes.

Oh, it’s so deep, it’s so deep! Is this the deep sea? Yun Xi watched his body falling uncontrollably in a straight line, and within a few breaths, he had fallen into the deepest and darkest side of the sea where he couldn’t even see his fingers.

After a while, the sailing jellyfishes also arrived near him. Fortunately, these jellyfishes were self-luminescent so he could barely see the environment around him through the cold lights from the bodies of the sailing jellyfishes.

It was probably already several kilometers deep under the surface of the sea, but there were a variety of unusual species living here.

Two kinds of marine life inhabited this sea area. They were either very flat, adjusting the internal and external pressure with a soft body, or developed towards another direction, having a huge body in size.

Among them, there were very few creatures that were also self-luminescent, for example, a numbfish whose body was wrapped in azure lightning not far away from Yun Xi.

Why did Yun Xi know the name of this creature? Because one of his a million brides was the princesses of the Numbfish Race.

Diving to the deeper sea area, Yun Xi saw more rare races that hardly appeared in front of human beings. If it wasn't because he had married the princesses of all these races, he would never know that there were so many strange creatures inhabiting such a deep sea area.

Lilibet's power was still protecting him and it didn't seem like it would disappear anytime soon.

Ten thousand meters, twenty thousand meters, Yun Xi had never entered such a deep sea area.

Was the sea so deep in the past? Yun Xi remembered that when he erected the four towers in the four corners of the Water God's world, the sea wasn't so deep at that time and the number of the species that habitated here were far fewer than the number they were now.

He had a feeling that this was "growing", not only the scale of the world, but also the strength of the creatures in this world.

Along the way, Yun Xi has seen dozens of powerful hero ranked deep-sea monsters.

In the battle with Shaya Longnis, he didn't see any of them at that time.

They seem to have appeared overnight in this deep-sea area.

Looking at the sailing jellyfishes and butterflies of death around him, Yun Xi could be sure that this wasn't just his imagination.

The number of the two unique fantastic creatures around him had become two times more than what he knew when he just left the Water God's World.

Moreover, there were still more sailing jellyfishes flying to this place from all directions, while more and more butterflies of death emerged from the deepest darkness.

[Chapter 554: False Mountains](#)

The Sailing jellyfish represented, "life".

The butterfly of death represented, "death".

The two kinds of fantastic creatures had different postures, but they had the same beauty. They were the symbols of the power of the Water God's world, they were proof of Hydra's identity as a god.

Their number was increasing, which meant that the aggregate of the Water God's Fantasy Island was expanding.

It wasn't his imagination, it was because Hydra was recovering her strength step by step after waking up from the long dream.

She was the world, so any changes that happened to her body would naturally change the world at the same time. As she recovered, a lot of creatures who disappeared during the sleeping period had emerged into this world again.

After protecting this broken world for thousands of years, Hydra finally harvested the fruits that belonged to her.

As the bride of the Water God, Yun Xi had also become one of the harvesters.

After dropping into the Water God's world, he was accepted and embraced by this world like a child who just returned to his mother's arms.

The world was welcoming its child, the little White Emperor.

Yun Xi didn't know how deep he had sunk into the deep sea, he could not even tell whether it was 80,000 meters deep or 100,000 meters deep. In a word, it had exceeded the limit that could be observed.

At last, the deep-sea races around him had become scarce once again. Everything had become quiet. Only the transparent sailing jellyfishes and the butterflies of death still accompanied him.

Finally, Yun Xi arrived at the end.

"Ah!" His body seemed to have touched some very soft thing. The silver-blue particles that were protecting him dispersed without a sound, then Yun Xi's whole body was plunged into a soft and familiar breath.

“Huh...” There seemed to be a soft laugh echoed into his ear. It was the gaze of a great being, who opened her eyes quietly and was full of warm smiles on her face.

Hydra, the Water God... Yun Xi naturally understood what this soft thing was. It was the source of Hydra's power, an endless ocean of blood.

Here was the god world of Hydra, in other words, this was actually a part of Hydra's body.

Perhaps there was no safer place in the White Lotus Sword Domain than this place was for Yun Xi.

Lilibet had indeed thrown him into the safest shelter in the whole of the White Lotus Sword Domain.

Passing through a wide passage, Yun Xi finally stood on the ground again.

“Here is...” Yun Xi looked doubtfully at the vast mountain range in front of him.

In his sight, there were only mountains at the bottom of the sea, and the outlines of these mountains looked strange.

From Yun Xi's point of view, the mountains seemed to have their own life, releasing a mysterious and ancient atmosphere.

Yun Xi reacted with awe in the face of this holy land.

But the next second, the sound of a hurricane whistling completely interrupted Yun Xi's thought.

"Hiccup!" It was a tremor that was loud enough to trigger a small earthquake. All of the mountains rolled up, releasing earth-shattering shock waves. Yun Xi's body was blown down.

If it wasn't because the sailing jellyfishes around him blocked most of the shock waves for Yun Xi, he still wouldn't be able to stand up.

"This... can it be..." It was not easy for Yun Xi to control the mist in the air, but he was more shocked by the mountains in front of him.

In the blink of an eye, the tremendous earthquake completely changed the shape of the mountains.

The whole world was turned upside down!

No, the earth wasn't being overturned!

Stepping onto the fog created by the White Emperor's Mask, Yun Xi flew to the highest point of this unknown world, and finally witnessed the full view of the mountains.

They weren't mountains, they were all parts of a giant creature's body!

The giant creature turned over in its sleep, which triggered this earth-shattering disaster.

And Yun Xi actually knew who this giant creature was.

It was the first fantastic creature who arrived at the Water God's world, Ouroboros!

But now, Ouroboros' body had grown to a size that was large enough to devour a star, so Yun Xi didn't relate the mountains to the concept of "living things" at all.

He remembered that before he left the Water God's world, Ouroboros' body was only one-thousandth the size of this "mountain".

Maybe this was Ouroboros' true body? When it first appeared in the sky above the Water God's world, it shrank its body?

Somehow, Yun Xi thought that this might be the truth.

As a strong fantastic creature, it wasn't surprising to know that Ouroboros had such a big body.

Fantastic creatures were the favorites of the rules of the world, and some of them were even the incarnations of some certain rules. A Human's common sense meant nothing to fantastic creatures.

[Chapter 555: The Drunken Ouroboros](#)

Yun Xi's reasoning was soon proved to be true.

In just a moment, the mountains changed their postures three times, every combination of the mountains looked disorderly, but also seemed to contain some old, mysterious rules.

Without exception, every change of Ouroboros' posture would lead to a catastrophe equivalent to a magnitude 9 earthquake. Shock waves alone could cause a doomsday scene.

But for Ouroboros, it was just a normal rollover during sleep, and it didn't seem to sleep well at this moment?

"Hiccup..."

"Gu..."

"Ha..."

With these vague sounds, Ouroboros rolled over in its sleep.

Not everyone had the luck to witness a fantastic creature's sleeping posture. Fortunately, Yun Xi's body was equipped with the "Sailing Jellyfish's Robe", the "White Emperor's Mask" and the "Water God Bride's Crown", the three god weapons represented the blessing of the Water God's world to him.

Equipped with these god weapons, he could summon millions of mist souls and ask for the help of the two fantastic creatures: sailing jellyfish and butterfly of death.

In this state, even if he had to face Shaya Longnis again, he had the power to fight against her.

Although he could only hold this fighting power in the Water God's world, for now, it was enough. The earthquakes caused by Ouroboros could do no harm to him.

Not only Ouroboros, but Yun Xi also sensed a familiar aura from the end of the mountains. Compared to drunken Ouroboros, that aura was more scorching.

"Teacher Casina?" Yun Xi looked at the end of the mountain in some surprise. He didn't expect that Teacher Casina would also be here.

Speaking of her, after he finished his 100 victories in the Sky Tower, he should report it to Teacher Casina and return her identity to her.

When he first entered the Starry Sky Chessboard, he had no idea about how valuable this identity was. Until he finally found out that all his opponents were at the legend rank, he realized what a special gift it was.

A legend ranked person's identity! No one else could enjoy this treatment in the White Lotus Sword Domain!

Without Teacher Casina's identity, he wasn't even qualified to step into the Sky Tower. Casina must have great expectations for him, so she gave him her identity and let him go to take part in the competition on the Starry Sky Chessboard.

Without Teacher Casina's help, he could never obtain the title "the Master of Star Go".

"Er ah..." Between the sky and earth, there was a tragic scream. Ouroboros suddenly made a painful howl as if it was being excruciatingly tortured by some invisible executioner.

“Why?” Yun Xi didn’t know what he could do.

Is there anything in this world could do harm to such a giant snake, a mountain-like fantastic creature?

“It hurts! It hurts! Anyone, give me water!” Ouroboros rolled over painfully. If it wasn’t because it was in Hydra’s body, the damage caused by it could already destroy a mortal world.

“Water! Water! Water!”

“I see, I see! Oh, my, drink some water and get up!” Somehow, Casina’s voice sounded a little distorted, and then a light column shot up to the sky.

A big mouth appeared in the sky and tens of millions of tons of seawater fell from the sky, bombarding on Ouroboros’ lifeless body.

“Ouch! Ouch! Ouch!” Ouroboros made a dying cry and rolled over the ground and began to smoke all over its body.

“Toxic gas?” Yun Xi smelled the horror toxin that was spreading in the air. The toxic gas could kill millions of people at once, but he had a familiar feeling when smelling it. He knew that he would not be harmed by the toxic gas.

Because this toxic gas was from the master of this world, Hydra.

It was the poison from Hydra that pervaded in the air at this moment. Just a drop of Hydra's poison could kill a group of the strongest hero ranked people. If a few drops of her poison transformed into toxic gases, they could even wipe out all the living beings in a sword domain.

However, there seemed to be something else mixed up in the toxic gas?

Is it the aroma of wine?

[Chapter 556: Two Colors](#)

Yun Xi sniffed and analyzed the bouquet in the air.

As a hero ranked baker, he could judge all kinds of food, including wine. After all, there was also wine bread such as Red Wine Bread and Rum Toast.

However, because people in the White Lotus Sword Domain didn't like to eat bread mixed with wine, Yun Xi hadn't really made this kind of bread before.

Ingredients: Wine brewed from an unknown liquid, highly poisonous!

Level: Unknown.

Brewing time: Unknown.

Effectiveness: Very horrible poisonous wine, no hero ranked beings can drink. Not for humans.

He couldn't analyze out too many things. The only thing he knew was that this kind of wine was extremely poisonous and could poison millions of people with a single drop.

If you made bread with this poisonous wine, he could easily kill any hero ranked person.

After drinking such a poisonous wine, Ouroboros could still struggle to look for water. Are all fantastic creatures' bodies so strong?

"Gu... Ah..." Ouroboros uttered a tearful groan and still murmured, "Again... one more drink!"

"Good... one more drink!" It seemed that Casina was jubilantly pouring wine for the dying Ouroboros.

Yun Xi curiously controlled the mist, flying to the end of the mountain, which was actually the location of Ouroboros' head. Not surprisingly, he saw Teacher Casina and an unknown woman there.

Although he had never seen this mature woman, who wore only a transparent robe on her body, Yun Xi subconsciously knew that she was one of Hydra's best friends, the real body of the mountains under their feet: Ouroboros.

Her whole body was wet and under the wet robe, her beautiful body was clear and distinct. The wet hair sticking on the skin made her look more charming.

Her eyes looked as if there were broken stars flashing in her pupils. Although her face looked feeble, her appearance showed a decadent beauty.

In her hand, she was holding a glass of bloody wine, and she was trying to drink it.

At this moment, she was so drunk that she couldn't even hold the glass of wine. She splashed most of the wine on her fragrant, smooth, round, firm, snow-white and delicate peaks.

The bright red poisonous wine dropped on her snow-white skin, it looked like a magic painting that Yun Xi could barely break his eyes away from.

"Whoop... What a waste..." Ouroboros looked at the poisonous wine falling onto her breasts, she directly pulled open her robe and gently stretched out her tongue, licking the liquor that hadn't yet completely fallen down from her skin.

The poisonous wine that could kill millions of people shone brilliantly under Ouroboros' fragrant tongue, the "beautiful scene" was so seductive that Yun Xi didn't know where to look at at this time.

On the opposite side of Ouroboros, Casina was also drunk. Although she was not as drunk as Ouroboros, her flushed cheeks revealed her hazy state.

Her brown slender legs had long been free from the hindrance of shoes and socks. On the round and beautiful toes and the bows of the feet, there were full of bright red wine.

A few drops of bright red wine fell from Casina's lips to the instep of her feet, attracting Ouroboros' eyes.

"Wine..." Ouroboros licked her lips and kissed Casina's smooth ankle.

Casina's beautiful toes, soles, foot arch... as long as they were stained with wine beads, Ouroboros licked them all clean and didn't let go of a drop of wine.

Looking at the beautiful bare feet, Yun Xi's heart suddenly beat faster.

"You're too drunk... Ouroboros..." Casina drank another glass of poisonous wine without batting an eyelid, then kicked Ouroboros with her toes.

"Let me... die..." Ouroboros sank down beside Casina's ankle with a lifeless look.

Even with such a decadent look, her body still naturally emitted a seductive charm.

"Hot..." After drinking another glass of poisonous wine, it seemed that Casina had also reached a critical point of her drinking capacity.

She stabbed her sword, "the Sands of Time" into the ground, Casina shook her head and was going to take off her clothes to dissipate heat.

Anyway, they were in Hydra's secret wine store, apart from her and Ouroboros, there were no other people.

"Ah!" Yun Xi stared at Teacher Casina skillfully taking off her clothes.

Why are you so skillful?!

Compared with Ouroboros' morbid state, Casina's skin showed a different beauty, healthy and flexible, moreover, she had a pair of long legs that could make anyone envy.

Looking at the snow-white skin and brown skin, the world in Yun Xi's eyes suddenly became blurred, and he vaguely heard a slight laugh from nowhere.

[Chapter 557: Surprise! He Is Actually...](#)

Yun Xi looked dully at Casina, who was slowly taking off her clothes. There was still some liquor on her skin, which made his mouth dry and almost couldn't believe his eyes.

He knew that Teacher Casina indeed loved to drink, however, he never saw her getting drunk before.

He saw it with his own eyes that even after drinking ten barrels of wine, Teacher Casina's face only became blushed a little. She would never be so drunk that she had to take off her clothes to dissipate heat.

Is it because of the wine? Yun Xi smelled the bouquet of the wine in the air. It was indeed a good wine that even his hero ranked food identification capability couldn't identify.

Think about it carefully, even Ouroboros, whose body was as large as a star was drunk after drinking the wine, it wasn't surprising to see Teacher Casina also getting drunk.

No wonder that when he returned from the Sky Tower, he didn't find Teacher Casina. She actually came here to drink!

Did she forget that he had to report to her about his 100 victories in a row on the Starry Sky Chessboard?

No, no! That can't be!

Yun Xi shook his head and ran to Casina, stopping her from taking off her bra.

"Um... White Emperor?" Casina squinted her eyes and raised her finger to shake between her eyes, as if she was measuring the distance between herself and Yun Xi.

"Teacher Casina, you are drunk." Yun Xi accidentally touched Casina's smooth back, which made his heart suddenly beat faster.

"Drink... Oh, it seems that I drank too much..." Casina touched Yun Xi's forehead and pinched his face.

"Why do I feel like you have grown up?" She asked with a puzzled look.

"Really?" Yun Xi looked at his own body. He couldn't find any parts that had grown up.

"Silly boy... I mean, you have become stronger..." Casina took a deep breath. Instantly, the alcohol in her whole body was forced to be dissipated bit by bit.

This was a waste. For legend ranked beings, only very few materials could affect the states of their bodies. Taking Casina as an example, although she liked wine, all wines that hadn't been stored more than a hundred years were actually as flavourless as water.

No matter how good the brewing material was and how high the grade of the winemaker was, if there was no trace of time in the wine, she couldn't taste anything from the wine.

To great existences such as Casina and Ouroboros, only the wine that had been stored more than a thousand years could make them feel physically and mentally pleasant.

And the wine that could make them get drunk was even rarer in the endless god's domains.

Amongst all the wines in the world, Hydra's poisonous wine, which was brewed with her own venom and had been stored thousands of years could be called the highest ranked enjoyment in the endless god's domains.

Otherwise, Ouroboros and Casina wouldn't be so drunk that they forgot the time to go back and almost could not wake up.

Hydra wasn't just a "Water God", she was also a "legend ranked winemaker". Even back to the age of the gods, this was a rare career. Only the strongest legend ranked beings could enjoy the poisonous wine made of her own blood and venom.

Casina had come to Hydra's treasury to look for something useful for Yun Xi's future. As a result, she encountered Ouroboros and was tempted by her words, sneaking into Hydra's wine cellar together.

Fortunately, compared to Ouroboros, Casina's drinking capacity was big. After stealing and drinking countless barrels of Hydra's poisonous wine, she was still not totally drunk, so that Yun Xi could awaken her.

“Good... That’s all right...” After dispelling about half of the alcohol in her body, Casina’s eyes became clear again.

As for why she didn’t dispel all the alcohol in her body... because it was Hydra’s legend ranked poisonous wine! It would be a great pity if she dispelled all of it.

She clearly knew that she may not have another chance to sneak into Hydra’s wine cellar and steal her wine again!

“White Emperor... Have you completed the challenge in the Sky Tower?” When Casina wasn’t drunk, she was a very serious and responsible teacher. At the first moment, she asked Yun Xi about his test in the Sky Tower.

“Thank you, Teacher Casina, I have successfully achieved 100 victories in a row.” Yun Xi proudly stretched out his hand and showed her the two shining Soul Jades in his palm.

“I won two Soul Jades as my reward.”

Casina looked cheerfully at the two Soul Jades.

Soul Jade of Innocence: The owner can store his memory in the jade. Even if the owner’s existence was totally wiped off from the universe, his memory in the soul jade wouldn’t disappear.

Soul Jade of Holy Light. Put on this soul jade and you can obtain a light-type talent.

Good, he did well! He deserves to be my disciple! Not only is he physically gifted, but he is also very lucky. Soul Jades has only a 10% possibility to appear to be a reward, he could actually obtain two top class Soul Jades as the reward!

Hum? Wait a minute, two top class Soul Jades?

Casina showed a doubtful expression on her face.

In the Battle God's Championship Contest, everyone would get a reward after achieving a hundred victories in a row. Casina had achieved countless victories in the Sky Tower, but she only obtained Soul Jades as rewards several times.

Yun Xi not only obtained 2 Soul Jades as rewards, but also both of them were top class Soul Jades!

It's incredible!

"White Emperor, how many times have you achieved 100 victories in a row?"

"Just once, I achieved 100 victories in a row on the Starry Sky Chessboard and chose the two Soul Jades as my reward." Yun Xi innocently looked at Casina.

"Ha? The Starry Sky Chessboard? You went to the Starry Sky Chessboard?" Casina was speechless.

“Yes, and I also got the title of ‘The Master of Star Go’.” Yun Xi was an honest child. At least, he had no intentions of lying in front of Casina.

“The Master of Star Go?” Casina suddenly wondered if she had been drunk and slept in Hydra’s wine cellar for several years.

Is the Starry Sky Chessboard a place for any people with a healthy mental state?

[Chapter 558: Keep It A Secre](#)

“You... What equipment did you use?”

Casina was trying hard to think about what equipment could help her disciple to participate in the game of the Starry Sky Chessboard. However, although she had won innumerable legend ranked equipment in the Battle God’s Championship Contest, she really didn’t know which equipment could be useful in this situation.

Her disciple hadn’t even stepped across the door of the hero rank yet, how could he enter the Starry Sky Chessboard?

“Equipment? Does it exist?” Yun Xi looked at his teacher innocently. He had never entered the Battle God’s Championship Contest, so he didn’t know that his teacher had prepared countless legend ranked equipment for him there.

For example, there were weapons called “Infinity Edge”, after equipping six Infinity Edges, they would combine into a “Killing Suit”, which could make the equipper’s critical strike chance reach 120%.

Or after equipping six Black Cleavers, the “Black Cleaver Alliance Suit” could reduce the your opponent’s defence to zero.

Six Thornmails could combine into a “Bloody Barrier Suit”, which could reflect back the opponent’s attack with 180% magic power.

Six Frozen Hearts could combine into a “Icecrown Suit”, which had an ice-sealed aura that could reduce the attack speed of nearby enemies by 99%.

In addition to these, there was also a “FireStone Suit” made of six Boots of Mobility could let the equipper flash around the earth.

Any of these suits were rare legend ranked equipment. If Yun Xi equipped them all, he would be literally invincible in the Sky Tower.

That’s why Casina was confident that even a newbie like Yun Xi could achieve a hundred consecutive victories in the Battle God’s Championship Contest.

However, she didn’t expect that he would go to the Starry Sky Chessboard!

She thought carefully and remembered that there were indeed equipment that could increase the wearer’s intelligence.

“Are you sure that you didn’t use the ‘Little Red Riding Hood Suit’?” Casina vaguely remembered that amongst all the suits she had, there was indeed a “Little Red Riding Hood Suit” made by combining six Banksy’s Deathcaps.

A Banksy’s Deathcap could increase magic power by 120 points and raise mental power by 35%.

And after combining six Banksy's Deathcaps, the "Little Red Riding Hood Suit" had three effects:

1. This suit can increase the equipper's magic power by 1000 points and raise the equipper's mental power by 500%.
2. The equipper will be transformed into a 14-year-old golden-haired girl "Witch", who can cause 3 times hit to any dark-type creatures.
3. The equipper's attributes to werewolves are weakened and the attributes of "vulnerability to wild animals" are acquired.

Warning: The girl with little red riding hood needs to keep their distance from the Uncaged Wrath of Zaun.

Casina had experimented with this suit before. After wearing this suit, the equipper would automatically trigger the transformation effect and gain powerful magic power. Moreover, it was a rare equipment that had zero requirement for the equipper's rank.

However, only a "pure girl" can equip this suit, and once you put it on, you couldn't take it off for a lifetime unless you had found a more powerful suit than this suit.

That was to say, if you were chosen by this suit, you would become a "14-year-old golden-haired girl" for a lifetime!

Therefore, this suit also had a nickname “14 Years Old Forever”. It was said that it was made by a god in the ancient age.

In addition to the “Little Red Riding Hood Suit”, that god also made a lot of other equipment based on his fantasies, such as “Glass Shoes with Infinite Melody”, “Crystal Crown of Eternal Sleeping”, “Pumpkin Carriage Shuttling the World” and “Seven Matches of Mortal Prayer”.

“No.” Yun Xi looked at his teacher in confusion. After he entered the Sky Tower, he went directly to the Starry Sky Chessboard. Where was the equipment from?

“Oh... can it be... you didn’t go to the Battle God’s Championship Contest?” Looking at her disciple’s confused expression, Casina finally discovered the truth, she seemed to have forgotten to tell him that he should go to the Battle God’s Championship Contest after entering the Sky Tower!

For her, it was common sense to go straight to the Battle God’s Championship Contest. Besides the Battle God’s Championship Contest, where else in the Sky Tower does she need to go?

It seemed that her disciples didn’t have this common sense.

“Well, I took part in the test of the Starry Sky Chessboard and won a hundred times.”

“I didn’t plan to stop after obtaining 100 victories, but the Sky Tower told me that I had obtained the title ‘The Master of Star Go’.” Yun Xi honestly told his teacher everything that happened before.

“Starry Sky Chessboard... 100 victories in a row...” A drop of sweat fell down from Casina’s forehead.

Again, she wondered how long she had been drinking.

How many years have passed? Even my disciple has obtained the title “The Master of Star Go”?

“The Master of Star Go” is a title that isn’t inferior to my own title of “The Battle God”!

If people knew that the new master of Star Go is such a little guy, they will... well, every force in the endless god’s domains will want to grab my little disciple away from me!

“Well... White Emperor, how many people know that you are the ‘Master of Star Go’?” Casina couldn’t help but pinch Yun Xi’s cheeks again. This pleasant surprise was so great that it almost became a scare.

“Apart from you, only the Guardian of the Sky Tower knows it.”

“That’s good. Remember, you must keep it a secret before you reach the legend rank.” Casina hesitated for a while and warned her lovely disciple, “Otherwise, there will be many terrible elder sisters that will try to talk to you and try to take you away, by the way.”

This wasn’t a lie. If Yun Xi’s identity was exposed, countless forces would try to obtain him at all costs.

The secret of the stars was still a great temptation to countless legend ranked beings.

Chapter 559: The Etiquette of the Battle God (1)

It’s strange, why didn’t I find that he was such a gifted Star Go player before?

No, he couldn't be simply called genius, even if he was a super genius, it was too incredible to win the title of "Master of Star Go" at such an age!

"When you played Star Go... What did it feel like?"

Casina was really curious about how her youngest disciple could beat so many legend ranked wise men on the Starry Sky Chessboard, a place where she didn't even dare to set foot in once.

"It's very simple. The rules of Star Go are very simple and easy to understand." Yun Xi bluntly expressed his feelings.

From the beginning to the end, he was enjoying the game. He was extremely grateful to Teacher Casina, because if she hadn't lent him her identity, he would've never been able to enter the Sky Tower and he probably would never have known that there was such an interesting game in the world.

"Simple?" Casina recalled her experience when Orfina tried to teach her the rules of Star Go.

Every move on the chessboard must be done after thinking twice, and as time went by, the requirements on the player's calculating power would become higher and higher. Eventually, even most common legend ranked beings couldn't withstand the pressure.

All players must advance gradually and entrench themselves at every step. As one of the oldest trials in the seven towers, countless people couldn't even pass the entrance test.

Otherwise, the Starry Sky Chessboard wouldn't be recognized as the stage of the highest wisdom in the endless god's domains.

Orfina was one of the fanatics who would even forget to eat and sleep when playing Star Go, as for her, she just looked at the rules of Star Go and had known that it wasn't a game for her.

To put it bluntly, she could easily beat down three Orfina in the Battle God's Championship Contest, however, even if there were a hundred of herself, it was impossible to overcome Orfina on the Starry Sky Chessboard...

"Orfina the Ruby Princess, God of Wisdom, Black Mage, Duke Rome, Cyber Elf Alpha..." Although she had never participated in the trial of the Starry Sky Chessboard, she clearly knew these names... apart from Cyber Elf Alpha.

The Ruby Princess – the pearl of the Dragon God's Domain, the wise dragon of Star Gemstone, the daughter of Dragon God, her best friend Orfina.

The God of Wisdom – one of the oldest gods in the Western God's Domain and one of the survivors from the Twilight of the Gods.

Black Mage – Lord of the Sea of Chaos, the High Priest of the Dark Church, one of the most famous members of the Dark Council.

Duke Rome – the warlord of the Rome God's Domain, the leader of the famous sacred Legion in the Western God's Domain.

As a result, Cyber Elf Alpha defeated all of these legendary people, and her cute disciple defeated Cyber Elf Alpha by an overwhelming advantage.

Just listening to Yun Xi's words, Casina could imagine how breathtaking the battles on the Starry Sky Chessboard were.

Oh, facing such an opponent, Orfina must be excited to death!

Hey, wait a minute. Wasn't my disciple using my identity to participate in the Starry Sky Chessboard? Could Orfina misunderstand that he was me... Casina had a bad feeling about this. She vaguely realized the truth with a distressed look.

Orfina, don't mistake him with me, please!

It wasn't me who beat you!

"Well done, I'm proud of you." Even the most critical teacher would feel happy from the bottom of their heart in the face of such a perfect answer sheet.

Although, she gave him the test paper of "the Battle God's Championship Contest" and he handed in the test paper of "the Starry Sky Chessboard"... but it doesn't matter!

There's only one truth for him to achieve this success, it's all due to her teaching.

Oh, I'm really a great teacher!

“Come on, I’ll give you a reward.”

Since Yun Xi had obtained two Soul Jades, Casina wouldn’t be stingy in giving him more rewards. From the beginning, the reason she came to Hydra’s treasury was to prepare gifts for Yun Xi.

With this gift, her disciples would never die after 100 days!

“Put your arms flat, make your body and the ground horizontal, and stretch your legs.” Casina taught Yun Xi by the hand.

“Uh...” Because Casina had only dissipated half of the alcohol in her body, she squinted her eyes from time to time, and her moves were also a little languid.

Without any idea of putting on her shoes and socks, her naked feet directly stepped on Yun Xi’s back.

“Teacher, is this position a part of the practice?” Being trampled under her feet, Yun Xi’s face slightly turned red.

“Well, keep this position for a while, I’ll help you adjust your body.” Casina burped while trampling on Yun Xi’s body with her toes.

Although she still looked drunk, every press of Casina’s toes had made Yun Xi’s blood run more smooth.

Even “a part of his body” became “excited” due to the massage, which made Yun Xi feel really embarrassed.

He swore that he didn’t have any strange ideas about Teacher Casina, it was just a simple natural reaction of his body!

“Oh, ha ha... I forgot that you’re a man. It’s a natural reaction.” Casina laughed and stepped on the end of Yun Xi’s spine with her toes.

For an instant, Yun Xi’s whole body seemed to be electrocuted. His body trembled violently and curled up like a crooked prawn.

After the electric current went through, another cold current burst from the bottom of his spine and instantly spread to his whole body.

“Ah!” Yun Xi made a strange sound and was almost unable to maintain this posture. If it wasn’t because Casina was stepping on his back, he would’ve rolled on the ground.

“Don’t be afraid, it’s just a natural reaction.”

“You are still too young, you must learn to get used to this sort of stimulus.” Casina teased her lovely disciple while activating the energy in his blood and flesh.

Teacher Casina, this sort of stimulus is too strong!

Chapter 560: The Etiquette of the Battle God (2)

“Don’t be nervous. It’s just foreplay. The ‘formal one’ hasn’t started yet.” Casina cocked her head, wondering why Yun Xi had such a strong reaction. The tremor of his muscles was clearly beyond the range that could be called “normal”.

She remembered that when she taught this skill “The Etiquette of the Battle God” to her other disciples, they all gritted their teeth and endured it. The most exaggerated one even bit through the towel in her mouth.

Is it too exciting for him? When she taught other disciples it, they had already reached the hero rank, but Yun Xi had not yet taken that crucial step.

No, that’s not the problem. She sat down on Yun Xi’s body, reached out her hand and pinched his ankle, then touched around his foot.

Oh, this handfeel! Not to mention common hero ranked people, even all of her previous disciples didn’t have such a perfect body.

“Ah!” Yun Xi screamed because Casina just held one of Yun Xi’s feet and flicked her fingertips gently in the center of his foot.

“Ga!” After a severe pain, Yun Xi felt a numbing pain shooting straight from his foot to the top of his head, and that “indescribable part” became harder and hotter.

That kind of sweet, sour and soft feeling almost made Yun Xi fly above the heaven and also dropped him into the abyss. He felt extreme pain and happiness at the same time.

Teacher Casina, is this really a part of the practice? Yun Xi gritted his teeth and tried to shift his attention desperately.

One little rabbit, two little rabbits, three little rabbits, ah, that snow-white lovely rabbit! Oh, that obedient little rabbit is making all kinds of attractive gestures in front of me!

Whoop, Whoop! No! I shouldn't imagine this scene!

This is not what a gentleman should do!

"It's incredible. What medicine did you take?" Casina patiently held Yun Xi's foot with her palm and her fingertips kept drawing circles on the sole of his foot.

Again, she wondered if she had drunk so much in Hydra's wine store that she had forgotten the passage of time.

If it was really the same as my lovely disciple said, Yun Xi's body had become a perfect body that had both of the advantages of Rigid Body and Soft Body, but... how could it be possible?

No human could have such a terrible talent!

Combining the advantages of Soft Body and Rigid Body... even she herself mastered this after practicing many, many years.

Where was his “Rigid Body” from?

She knew that Yun Xi’s “Soft Body” was a blessing from Hydra, but, where did his “Rigid Body” come from? His “Rigid Body” was one of the top-ranked bodies, “Diamond Body”!

If anyone had a “Diamond Body”, that person could learn and master the skill “Superarmor” easily. To the people who didn’t have the “Diamond Body”, even the most talented people must spend dozens of years to learn the skill “Superarmor”.

“Have you met any fantastic creatures or gods recently?” Casina asked.

She was sure that Yun Xi hadn’t had such a talent before the last time she saw him. Therefore, he must’ve just obtained the “Diamond Body” a few days ago.

“Oh... I have met a lot of fantastic creatures and gods recently.” Yun Xi forced himself to restrain the boiling desire in his heart. Yes, it was a naked desire. He felt that the desire was going to drive him into a beast at any moment.

Teacher Casina, I can’t hold on!

“Ah... I see...” Casina remembered that her lovely disciple just defeated a lot of fantastic creatures and gods on the Starry Sky Chessboard.

Who did it? Who granted him this talent? Doesn’t the god know that this isn’t a good thing? It’s like pulling up seedlings to help them grow, now, she had to help him redesign his training plan.

What a luxurious annoyance, to have such a gifted disciple!

She pulled Yun Xi's feet up and stuck them to her chest, Casina began to adjust her breathing.

"Ah!" Yun Xi was puzzled at the beginning, wondering what his feet had touched. When he came to his senses, his cheeks turned red instantly and his toes trembled uncontrollably.

He could clearly feel the warm and slippery touch from his feet. That size, that softness, anyone who had experienced them at any time before would never mistake them.

Yun Xi suddenly had a general concept about the limit of "Soft Body". It was too wonderful of a feeling, he knew that he could never forget it.

"Don't be afraid. I'll try to be gentle." Casina's cheeks were a little red, but that was because she was still drunk.

Her ten fingers straightened Yun Xi's toes one by one, and then kneaded his toes one by one. Each kneading would send a burning force into Yun Xi's body.

"Hot... It's so hot..." In all senses, Yun Xi's blood was boiling.

"Casina, what are you doing?" At this moment, Ouroboros woke up and looked at them with her hazy eyes.

She seemed to be awakened by some great mysterious will, walking, she stumbled to Yun Xi.

Without even raising his head, Yun Xi could see that under the long transparent robe, a pair of snow-white “peaks” were close at hand.

“Ouroboros... Don’t make trouble...” Casina grabbed Yun Xi’s feet with both her hands and shook his body skillfully.

Yun Xi’s body shivered all over. Teacher Casina was so fierce! His whole spine was moaning and groaning, and that part of his body was becoming more “vigorous”.

“Hiccup... What an interesting face...” Ouroboros didn’t recognize who Yun Xi was. She giggled and moved her face close to Yun Xi’s.

“Little guy... Where did you come from?”
