

## **Starchild 631**

### [Chapter 631: The Little Witch's Secre](#)

Slime was one of the weakest monsters in the food chain of all god's domains. Except for their super-adaptability that could survive in any environment, they were good for nothing.

If we take the standard value of an adult man's strength as five, then a slime's strength was not even more than one. Even a child could bully a slime and it has no power to fight back.

Slow speed moving and low attack power, main food is various decaying organic matter. Most slimes were extremely weak, very few mutant slimes could develop special abilities.

The slime that appeared in front of the "Knights and Magic" team was such a special case of one in a billion.

Lancelot's sword.

Mordred's shield.

Alexander's scepter.

Three high-quality weapons were melted in a few seconds by the solution of the slime.

It was probably not with the acid in its body, because no acid could melt their weapons so quickly.

It was a kind of devouring talent, just like Rose's magic talent, this was the slime's special ability.

However, it seemed that this ability was only activated by inorganic substances, so although their weapons, armor, and clothes were dissolved, Lancelot, Mordred, and Alexander weren't injured and just being bound by this strange solution, unable to move.

When their armor was completely melted, the girls' skins were completely exposed.

Lancelot had a perfect figure. With blonde hair and blue eyes, beneath her slender, soft neck were round and smooth shoulders.

With fullness in her chest, her waist showed a perfect curve. Because of regular physical exercise, her buttocks were beautiful and smooth. Together with snow-white slender legs, even if they were closed vigorously, Yun Xi could also vaguely see the girl's paradise...

No, Yun Xi, stop! You can't look at it!

Even so, his man's instinct was uncontrollable. After struggling, he laboriously moved his eyes away from Lancelot.

Compared with Lancelot's jade-like skin with a sense of sanctity and inviolability, Mordred's well-trained body was strong and powerful, full of healthy beauty.

Even though she was half bent, her lower abdomen showed no excess fat. The muscles in her waist and abdomen fluctuated like waves, the curves of her thighs were exquisite and delicate.

She opened her arms in front of Rose with a firm look on her face. Even in such an embarrassing situation, she didn't forget to be the shield of the little witch.

Alexander was also standing in front of Rose like a shield. Her flaxen braids slightly covered her naked body, but also made her curves more prominent.

Her skin was neither the pure white of Lancelot's skin nor the healthy color of Mordred's skin, but a color between them, emitting a special tropical temptation.

However, after losing all their clothes, the biggest change happened on the little witch, who had been desperately hiding her secret.

She really had magic in her chest!

It was a bandage engraved with mysterious runes, which almost completely wrapped the little witch's whole chest. The magic of the bandage tightly bound the little witch's chest, so no one could find out the real size of the little witch's breasts.

It was not until this moment that the bandage melted under the slime's solution that Yun Xi really knew why Hua Yue would specifically notify him about them in the little witch's information.

Too big!

Yun Xi did not imagine that the little witch, whose height only reached his waist, would have such a magnificent chest.

That pair of snow-white rabbits were so beautiful that it shook his eyes and heart.

Only when the bandage was melted off, did the lovely rabbits rush out of bondage and move about in the wind.

Not only the shape was perfect, but also the feel was absolutely first-class from the beautiful curve. If we average the “fighting power” of common noble girls’ chest measurement at 3,000, then Lancelot’s “fighting power” was 5,000, Alexander’s is about 6,000, and Mordred’s about 8,000.

As for Rose, her “fighting capability” is absolutely over 10,000!

Even in all the Starwing Knights, probably only Hua Yue and Ling Ling were bigger than her.

From the viewpoint of growth, she could certainly become a great witch in the future!

No wonder that even Hua Yue was shocked and accepted her application of joining the Starwing Knights.

The potential of this small team was really great. Especially the little witch Rose, whether it was her battle talent or chest measurement, she could cause most of the girls of the Starwing Knights to feel despair.

So round, so slippery, so white, so sturdy, even the pair of pink buds were flawless, like the world’s most beautiful works of art.

“Whoa!” the little witch Rose held her pair of tall and round white rabbits in her arms, rippling out a fascinating arc as her body trembled.

Her white face turned burning red and her cherry-like mouth was half-open and half-closed, so lovely when she cried.

No, it’s a crime if I continue to look at this scene! Yun Xi drew out the twin swords from his back and rushed towards the mutant slime like the wind.

When the emerald slime noticed Yun Xi’s move, it spat out a large amount of transparent solution again.

“Don’t use the same skill twice!” Yun Xi wouldn’t repeat the same mistake the “Knights and Magic” team made. His body flipped in the air and flew directly to the slime’s head.

The twin swords flashed. He used Flying Swallow Sword, which was Hua Huo’s proudest sword skill.

Flying Swallow Tenfold Attack!

The mutant slime’s huge body was instantly cut into dozens of jellies, like being cut by a fruit knife.

But in the next instant, the fragments of the slime’s body ejected more solutions, shooting overwhelmingly towards Yun Xi.

Yun Xi quickly flew higher to avoid this wave of evil solution.

He didn't want to test whether his clothes would melt when they met the solution.

Even if his clothes wouldn't melt, he didn't want his body to be covered with the solution.

For creatures living on the ground, species that can attack from the air are like cheaters.

If I could use Rose's Magic Missiles, I would be able to completely destroy these fragments in a flash.

Yun Xi thought so and brandished his sword again.

#### [Chapter 632: This Is Strange!](#)

After three rounds of solution spraying, the slime finally became exhausted. The dozens of fragments of its body began to squirm together, trying to merge and become one again.

Separation and combination were also one of the slime's special abilities, this giant slime was obviously an elite above all elites.

However, when it met Yun Xi who could fight in the sky, it encountered its natural enemy.

Yun Xi once fought against the child of slime, Shaya Longnis the Sky Sword in the Water God's world, naturally, he knew the weaknesses of slimes very well.

They had extremely low mobility, even if they had extraordinary powers, they were easy to deal with if nobody controlled them.

It was precisely because of such fatal defects that the Slime race yearned for the birth of their god. Only under the control of Shaya Longnis did the Slime race have the potential for war.

This giant slime was apparently a survivor who escaped from the Water God's world after the final war.

"Flying Swallow!" The twin swords chopped down. Without solution spraying, and the giant slime wasn't strong enough to digest the twin swords, it was cut up bit by bit until finally, Yun Xi found its core.

It was a small, soft and elastic gemstone, only about the size of a pebble, and had the same color as the slime's body.

If it weren't for Yun Xi's rich experience and familiar hand feel, he wouldn't have found the gemstone that was quietly shrinking and trying to hide.

"It's you!"

Familiar hand feel, familiar elasticity, familiar temperature, Yun Xi seemed to have returned to the Water God's world, returning to the time he caught green slimes everywhere together with Yun Que on the island.

This slime's special ability was to devour equipment but not eat people, the mutant green hippo was actually just the green slime's host body.

After the death of the green hippo, the slime took its original form and instinctively began to devour their equipment to supplement its lost vitality, as Yun Xi naturally understood when he gained the slime's core.

Speaking of this, he and slimes did have an indissoluble bond. In the Water God's world, he once had a special slime bracelet, which was later taken away by Shaya Longnis the Sky Sword, but now he obtained it again.

Yes, the slime's core in Yun Xi's hands now was the original prototype of the slime bracelet in the Water God's Domain.

It seemed that Shaya Longnis' aura had disappeared completely. It had become a common slime who wandered around this strange coast and in order to survive, it parasitized the green hippo's body.

The "Knights and Magic" team did kill the mutant green hippo, but lost to the giant slime, who was once a fragment of Shaya Longnis the Sky Sword.

Although it had become smaller, Yun Xi still felt the familiar when kneading and pinching it.

"Ughh! Ughh! We've had bad luck. Why does this place have such a mutant slime that doesn't exist in any records?" Mordred complained and wiped her body.

"Because no one knows, so it's called an accident." Alexander untied her braids. Her long flaxen hair hung down to her waist, her long legs folded together, and she was lazily basking in the sun.

"I feel that this thing can't be so simple." Lancelot washed her beautiful long blond hair and smelt herself.

Three naked girls.

Summer sun.

Gold, flaxen, snow white, black, all kinds of colors.

Ah ah ah ah! Why are you so defenseless? Aren't you noble girls from famous big families?

Yun Xi turned his back to the three knights and kept kneading and pinching the green slime in his hands.

"Whoa! My bandage dissolved, what do I do?"

"Without that, my sisters will kill me!"

Crouched up in her spare robe which she just put on, Rose had a helpless look on her face as if she just saw the end of the world.

"Is that bandage so important?" Yun Xi asked with curiosity.

"Well, that's my most precious magic item."

“My sisters told me that I should never take that bandage off, or many people would come to kill me.”

“Especially witches, my sisters have always warned me that I should never take off the bandage in front of other witches before I had become a great witch, otherwise, something very horrible would happen.”

Oh, I see, is it jealousy? If the other witches could see the size of her breasts, they would kill her out of jealousy.

Sure enough, even amongst witches, Rose’s talent is at the superclass.

If Hua Yue was right, the bigger the breasts were, the higher the magic power the witch could have, then the little witch Rose’s talent was super!

Fortunately, no matter how strong their talents were, they couldn’t be stronger than Hua Huo. In this case, Yun Xi could accept the appearance of geniuses.

Don’t worry, the Starwing Knights will accept you! No one will be jealous of you!

After kneading his trophy again, Yun Xi made a decision.

At the same time as Yun Xi made his choice, the three knight girls finally put on their spare clothes and came out of the sea.

“Mei, come here.”

“Mei, the temperature here is moderate.”

“Mei, please wash Rose clean.”

They looked at Yun Xi and the little witch with meaningful eyes.

Yun Xi wanted to shout.

How can you be so defenseless and take a bath in front of me?!

Why do I have to comfort the little witch Rose and help her wash her body!

The world is so strange!

### [Chapter 633: Human Wolf](#)

“Whoa!” Rose was still crying sadly. She was curled up in her spare big magic robe like a rabbit hiding in her hole.

Next to her, the three girls who had put on their knight armor were comforting the little witch.

“Rose, it’s not your fault.”

“It’s because the slime was too strong!”

“Your Magic Missile is still the best. Let’s slaughter the dragon and conquer the world together in the future!”

Rose still sobbed. Her hands clasped around her huge chest, which was totally out of line with her body shape.

It was too big and too heavy for her petite body. It wasn’t a problem when she was wrapped in the bandage, because the bandage had a special magic power which could greatly reduce the weight and cover the size of her breasts.

Now, the bandage was eaten by the slime, and the little witch, Rose felt wrong all over.

In the past, only when she took a bath with Lancelot, Mordred, and Alexander would she untie the bandage.

Apart from the bathing time, she would never untie the bandage. For her, the bandage had almost become a part of her body.

They are so heavy! Ooooh!

“Mei, take her to the bath.”

“Just wash Rose clean, and she’ll regain her confidence.”

“We’ll find a way to find a new bandage for Rose.” The three knight girls looked at Yun Xi with an expression “Great hero, please save the world!” on their faces.

So why do you ask me to take care of Rose so naturally?

What’s more, she looks so small, but has such a pair of plump fruits! I can barely preserve my sanity!

“Hurry up! Go! Take care of Rose!”

“Let’s prepare a new bandage for Rose.”

“Mei, don’t be hesitant, you can do it!”

The three girls pushed the little witch to Yun Xi and didn’t give him any chance to refuse.

“Well... Rose...” Yun Xi really has little experience in caring for such a young child.

What’s more, it’s such a big-breasted child! It’s really a crime!

“Whoa!! Does Mei dislike me?”

“I lost to the slime, so I can’t join the Starwing Knights?” Rose looked at Yun Xi with tears in her eyes and despair on her face.

Looking at her crying face, Yun Xi could not say the word “no”.

“All right!” Yun Xi felt that this was fate. The girl asked him to take a bath, and he couldn’t expose his gender and identity. What else can he do?

I’m desperate, too!

“Whoa... Um...” Rose shrugged her nose, and her little face flushed with shame.

A child needs only a kiss and a hug to recover quickly.

Knowing this, the three knight girls gave Rose to Yun Xi without hesitation.

They would not have thought that the black-haired maid’s true identity was an energetic 16-year-old boy!

Looking at Rose’s scarlet face and shy eyes, his heart couldn’t help but beat faster.

Take the little witch to the beach and try not to look at her body, Yun Xi quickly took off her broad magic robe and the time to suffer began.

The girl's white body had soft, tender skin. The pair of huge peaks floated in the water with a fatal temptation.

Of course, Yun Xi didn't see it with his eyes, because he had actively shielded his vision and began to learn how to use breathing to sense the "air" around him.

It's the last resort. If he opened his eyes at this time, he would be a real criminal.

Nevertheless, his hands still inadvertently touched places he should not touch.

In the clear seawater, the full peaks were tender like tofu and slippery like oil.

With a gentle pinch on the belly of the finger, the fruit deformed freely in the palms. It was a tenderness that was enough to arouse the desire of the male animal, which made him feel pity for her, but also, he couldn't help wanting to ravage her again and again.

Clearly there was no support, but this pair of peaks had no trace of falling, as firm as they had been cast magic. The lower edge and upper edge maintained a perfect arc, straight and sharp, perfect and incredible.

Not only the shape, but also the touch was soft and delicate. Just a gentle pressure, it would sag down; slightly, loosen the grip, and then it would "bounce" back.

Even if he didn't see with his eyes, Yun Xi could fill in the little witch Rose's white body and blushed face in his mind.

This soft and delicate body leaned into his arms, the fragrance of her hair, as well as the snow-white delicate skin, all could be mastered with one hand.

After taking off her shoes and socks, her snow-white feet were smooth and as tender as snow.

What's more, the bared feet often trod on where they shouldn't tread, which made Yun Xi feel suffocated.

Although he closed his eyes, he could feel the elongated legs rubbing his unmentionable location with bared feet.

The exquisite white feet with round ankles and toes moved and slid curiously around that area.

"Ah-ho!" At the seaside, there was a faint cry of despair from the big gray wolf who stayed alone with the little white rabbit.

#### [Chapter 634: Rose's Complaints](#)

With great efforts, Yun Xi had washed the tearful little witch clean.

Why didn't I feel any problem when I washed Ye Li before?

Sure enough, is it all because of that big pair of breasts?

Or is it because after the night I spent with the dark elf girl, the world in my eyes had become different?

Recalling the secret lesson the teacher had taught him that summer, Yun Xi felt that his life would probably never go back to that age of innocence.

Ye Li, I can't give you a bath in the future, because my heart is not pure anymore!

After realizing this, Yun Xi felt that he had lost something important.

As for the little witch, she was completely restored after bathing.

"I want to develop Magic Missiles that can destroy all slimes!"

"Even if slimes can be magically immune, my Magic Missiles must be able to pierce through them!" Rose had set a great goal for her life.

She still firmly believed that there was no monster in the world that could not be killed by Magic Missiles.

If not, develop more powerful Magic Missiles! Eventually, my Mage Missiles will be able to kill gods!

Most witches are such obsessives, as long as they like one thing, they will chase it crazily to the end.

They will never change their minds. Once they like something, they will not change their goal even after a thousand years.

For them, the “first time” of life is the most important, representing the deepest indelible memory.

Take a woman named “Black Tea Witch” as an example. She has a special hobby for a certain taste of black tea. If she does not drink this kind of black tea every day, she will feel that life is meaningless.

One day, the origin of this kind of black tea suffered a disaster of extinction, and all the tea plants were destroyed.

Ordinary people could only accept the unfortunate truth helplessly.

However, the witch didn’t give up.

Saddened by the disappearance of the origin of this black tea, she practiced the taboo time-retrospective magic over and over again, tracing back to the earliest time when the black tea tree took root and sprouted, and then observed the environmental variables in the time record while nurturing the seeds of the black tea tree.

Countless failures, countless starts from scratch, and all the records she wrote could be piled up in several rooms. Even in this case, she still didn’t give up.

Finally, after hundreds of years, she successfully reproduced her favorite black tea and became one of the greatest witches in the Witch God’s Domain.

This story tells people not to provoke witches. Once they get serious about anything, they are impossible to do anything with.

Black Tea Witch's persistence in the taste of black tea is the same as little witch Rose's passion for Magic Missiles.

"Pafu! Pafu?" Wrapped around Yun Xi's wrist, the green slime made a curious sound and jumped up and down on Yun Xi's wrist.

Well, this is probably an unexpected pleasure. This green slime, who escaped from the Water God's Island, seems to have a little lower intelligence and will send out a lovely "Pafu! Pafu!" voice.

In view of this, Yun Xi simply named it "Pafu", anyway, this slime was easy to feed, it could survive even if only absorbing the free magic in the air.

With such a tenacious vitality, no wonder that the slime race can survive in all corners of the endless god's domains.

"One day, I will defeat all slimes!" Looking at this emerald slime, who made her suffer great humiliation, Rose gnashed her teeth.

Never had she lost so badly since she learned Magic Missile Storm!

"Pafu! Pafu?" the slime was frightened and transformed back to the bracelet form, rolling into Yun Xi's sleeve and hiding.

Yun Xi was slimed. The familiar touch returned.

Sure enough, he seemed to be somewhat related to this type of slime.

“Well, the spare bandage is ready.”

“It’s not as good as the magic bandage, but it’s OK to make use of it.” Lancelot, the most ingenious of the three knights came over with a brand new white bandage.

“Puff... it’s so tight...” Wrapping the white bandage around her big chest, Rose breathed a sigh of relief.

Sure enough, this bandage could reassure her.

Although Lancelot’s bandage does not have the magic power to reduce the weight and size on her chest, just hiding the breasts that didn’t fit her body shape could make Rose feel a sense of security.

Oh, I really don’t understand why my sisters like it so much and tell me that I can never let other witches know.

It’s clear that this thing has no other advantages besides storing great magic power. It can’t be used as a Magic Missile!

“Very well, Rose. Are you satisfied?” After binding Rose’s beautiful breasts which Lancelot admired so much, Lancelot hugged Rose.

“Thank you, Lancelot!” Rose felt a familiar sense of tightness and a less pleasant sense of heaviness, but she could only tolerate it until she obtained a new magic bandage.

At least, she didn't like to walk around in broad daylight with such a pair of huge and shameful things.

It wasn't just because of her sisters' words, she didn't like it herself.

Yes, she was one of the few "poor breast minority" among witches. She thought that poor breasts are beautiful!

Unfortunately, her will was contrary to fact, but she often participated in the secret meetings of the "poor breast minority" and was one of the senior staffers.

The value of witches is not determined by their breasts! The little witch always thinks this way.

#### [Chapter 635: Mei's Curse](#)

"I declare that your entrance test is over." Looking at the "Knights and Magic" team in front of him, Yun Xi announced.

"..." Lancelot looked thoughtfully at the emerald slime bracelet on Yun Xi's wrist and frowned.

"Pafu! Pafu!"

The slime recovered by Yun Xi looked more lively and active than when it was the giant slime, and seemed to have no resistance to becoming a trophy.

"Well, this time, we were so unlucky to encounter such a rare mutant green hippo." Mordred was a little depressed.

All of them were captured by the giant slime, and their armor, weapons, and even the broomstick Rose loved so much were eaten. That crystal on the broomstick was very expensive!

“Our preparedness was not enough, in fact, the slime still has weaknesses.” Alexander carefully analyzed the situation. If they had been more alert, they would’ve been more cautious in trapping the green hippo. In this case, they could’ve escaped even if they couldn’t win.

The most terrible ability of the giant slime was to devour equipment, and it needed to launch it at close range. Even if Rose’s Magic Missile Storm couldn’t break through the giant slime’s defense, it was absolutely no problem to draw its attention at long distance.

All three of them had committed the act of lowering their guard, although it was more or less because “Mei” was at their back, but after all, it was a mistake.

“I’ll kill all slimes when I see them!”

“Only dead slimes are good slimes!” Rose gritted her teeth and swore to heaven as she watched the emerald slime on Yun Xi’s wrist.

Even she had listed the goal of eliminating slimes as her daily lesson for the next three hundred years.

Anyway, slime is everywhere, killing more is good for the world.

“Pafu! Pafu!” The slime was frightened by Rose’s expression. It escaped into Yun Xi’s clothes and became a heart-shaped necklace, pretending that it didn’t know anything.

“The result of the entrance test is...” Yun Xi hesitated for a moment, but finally he couldn’t go against his own heart.

“You have passed.”

“Sure enough...” Lancelot showed a clear smile.

She knew Mei would give this answer.

“Well, we have passed the test? But we lost!” Mordred hadn’t figured it out yet.

“Is it because we knocked down the mutant green hippo?” Alexander guessed.

“Yes, your test was just to knock down the mutant green hippo. Rose has done it.”

“The mutant giant slime is not included in the test.” Yun Xi explained why they passed the test.

He could deliberately embarrass them and prevent them from passing the test, but that was against his heart.

Hua Yue must have known the result before sending me to see what kind of girls they are.

Lancelot's perfect character.

Mordred's concentration of power and her companion's character will never be abandoned in any adversity.

Alexander's great vision.

As well as Rose's witch talent.

The members of the "Knights and Magic" team all have their own characteristics.

With Rose as the core, this was a perfect team with extraordinary talent. Yun Xi couldn't even find a reason to refuse them joining.

"Finally, let me ask you once again, do you really know the meaning of joining the Starwing Knights?"

"There is no exaggeration in what Hua Yue said."

"After joining the Starwing Knights, you can't quit." Yun Xi didn't know what kind of mood he was in now.

Is he happy? Of course, after personal contact with the "Knights and Magic" team, he was quickly attracted to them.

They all had excellent talents, and none of them were pampered noble girls.

They are veterans of hunting monsters, from preparing their own equipment to driving a carriage and laying out traps, everything they did was skillful.

It would be a pity that such an excellent team would not be eligible to join the Starwing Knights.

They are qualified to receive my “blessings”.

“I would like to join the Starwing Knights in order to be a better knight.” Lancelot half knelt in front of Yun Xi and kissed his finger.

“I would like to join the Starwing Knights in order to be the strongest shield and sword.” Mordred also half knelt before Yun Xi and kissed his finger.

“For the sake of world conquest, let me join the Starwing Knights!” Alexander smiled and kissed Yun Xi’s finger.

“Mei’s taste is very comfortable.” Rose became even more annoying after close contact with Yun Xi.

Like is like, like is a lifetime.

First love is the eternal love.

Whether it is a hundred years, a thousand years, ten thousand years, the love of the witch will never change.

“Well, I am here to announce that you are officially part of the Starwing Knights.” Yun Xi pinched his black hair with complicated expressions.

Although he still had long hair, will he become bald one day if the members of the Starwing Knights continue to increase like this?

With such confusion, Yun Xi pulled off four hairs and handed them to the four girls.

“The contract is established from this moment on.”

All the members of the “Knights and Magic” team finally got the “blessing”, which was also the certificate representing the qualification to join the Starwing Knights.

Maybe it’s also a curse.

A curse named “Becoming the Sword of Mei”, which couldn’t be dispersed and wouldn’t dissipate.

Chapter 636: The Witch’s Blessing (Curse)

“That’s the Blessing.” Lancelot solemnly took Yun Xi’s black hair, which was as dark as night. This was the incredible miracle they were longing for.

“Beautiful hair!” Mordred looked at her own hair with inferiority. Why is my hair so bad?! She complained in her heart.

“Mei’s Legendary Lucky Charm!” Alexander squinted her eyes, pinched the black hair, looked up and down, left and right, as if to see the mystery of the universe from the black hair.

“Mei, I like you the best!” Rose cried out with joy filling her eyes.

Everyone is an easy-to-understand girl! Yun Xi quietly began to plant his seeds into the four girls’ bodies.

Soon he had a harvest.

Like Hua Yue deduced, all the members of the “Knights and Magic” team had different extraordinary talents.

Lancelot:

Weapon Expert – Knights who possess this talent can use any weapon with ease. From daggers, sleeve swords to two-handed swords, they naturally understand how to use these weapons.

Toughness – Her will is as strong as steel. She will never give up hope and hold on till the very last moment.

Mordred:

Berserker's Bloodline: The more she was wounded, the more powerful her attacks could be. Using this talent, you will inevitably pay the price of losing reason.

Kii

Patricide – Like a cursed fate, there will inevitably be a war of life and death between her and her father, and no matter what happens, no one can not prevent this fate.

Alexander:

King's Cavalry – The King's wish is to conquer the world. Any force that prevents this wish will be crushed by the King's cavalry. With this talent, she can even ride god-ranked fantastic creatures.

King's Knights – The king can easily assemble loyal knights. They are the king's sword and shield, fighting for the king with no fear.

Finally, it was the information of the little witch, Rose.

Source of Magic – You are naturally loved by the elements in the air. Elemental Elves will come to you unconditionally and obey your orders. You can automatically master the skills of Magic Power Reinforcement, Magic Compression, and Magic Capacity Up.

Witch's Blessing (Curse) – Only the biggest breasted witch can be the real great witch. Obtaining the contract from the mysterious great existence gives you a magic talent beyond everyone, and it also brings a terrible curse for you. The cursed witch can grow her chest only if she keeps growing stronger.

Yun Xi was shocked after reading the information of their talents from their seeds.

Lancelot is a perfect incarnation of a Paladin.

The blood of berserker and the talent "patricide" revealed Mordred's tragedy.

Oh, did Alexander have the gift of being a king?

Rose's genius is Witch's Blessing (curse), from this point of view, she can certainly become a great witch in the future!

The three knights are all top-class geniuses. They can certainly break through the barrier of the hero rank with ease and will inevitably become heroes in tales and stories.

The little witch's talent is even stronger. Even now, he could see a trace of the "great witch" from the "size".

Accepting Lancelot's talent from her seed, Yun Xi instantly understood the method of use of dozens of weapons in his mind.

Now even if he had only one branch in his hand, he could use master-level martial arts.

After accepting Mordred's talent, Yun Xi felt some kind of blood roaring deep in his body.

Once he paid the price of reason, he would obtain the strength that could let him fight even if he was seriously injured. It was a blood of madness that could let him move beyond his own limits.

After sharing Alexander's talent, Yun Xi's sense of the girls of the Starwing Knights suddenly became much stronger.

All girls in the Starwing Knights, from their chests to their favorite food, from their favorite clothes to their current appearance, Yun Xi could clearly feel them.

This was Mei's Knights, the knights of the starchild.

The wings of the stars exist for him.

Finally, it was the little witch's terrible talent.

Source of Magic – Yun Xi never practiced magic before, but instinctively he mastered the method to absorb the free magic in the air, and he had a feeling that he could directly perform the magic Rose knew ignoring the long casting time mortal magicians would spend.

Witch's Blessing (Curse) – Yun Xi was freaked out. He clearly felt that his chest was growing along with the growing of the magic power he was obtaining!

??????!!!!!!!!!!!!

How can this be possible?

This is not realistic!

Who can tell me what happened? Yun Xi looked at his chest with a frightened look. What kind of joke is this?

Why is the Witch's Blessing (curse) also coming into effect as my seed drew her talents?!

Calm down, calm down, Yun Xi!

You are not a girl, you are not a girl, you still have a big d\*\*k, there must be something wrong!

Oh what am I saying? I must be crazy!

What a strange world!

Fortunately, Yun Xi stealthily used the breathing method he learned from Casina the Sky Sword, and his chest quietly restored to its original state.

Oh, fortunately, it's not a permanent curse!

However, what happened had happened, once it happened, something had been changed.

Once it was recognized by the rules of the world, he would also be cursed (blessed) by the Witch's Curse (Blessing)...

### [Chapter 637: Unbearable Weigh](#)

What's the matter with this curse?

Yun Xi quietly reached out his hand and pressed on his chest.

"Puff!" Even if it was bound by the breathing method, the feel was still as perfect as if he was kneading the green slime bracelet.

Clearly, there was nothing there, but he could still feel it with his hand.

"Pafu! Pafu!" The lovely slime core was jumped directly onto Yun Xi's chest, rolling around on the "same kind" as its own body.

Yun Xi stared at this lovely green slime and felt itchy in his chest.

The bigger the breasts the witches had, the higher the magic power they could use, so all great witches had great breasts.

From this point of view, Yun Xi's disguise had the talent to become a witch.

"Pafu! Pafu!" The green slime happily stuck on Yun Xi's chest.

"No, Pafu." Yun Xi flipped the disobedient little slime. The witch's curse was too terrible! It could create a magic organ that didn't exist!

Is it possible that such a strange change would occur if the witch is a man?

There should be no male in the witch race, because only women can awaken their Witch Bloodline.

As the descendants of witches, only girls had the potential to be a new witch, and boys could only be a magician. Therefore, in the Witch God's Domain, the status of women is much higher than that of men.

After all, it was a God's Domain ruled by witches.

In theory, there would never be a male witch!

The "Will of the Great Stars", your strength is too strong!

In the face of such a situation, Yun Xi tried to weep but failed to shed a tear.

Now, he was afraid he wouldn't reveal his true identity even if he took a bath with the girls of the Starwing Knights if he wrapped in towels.

Is it an illusion, an illusion? It seems that this non-existent chest is still slowly absorbing mana from the air. If this goes on, it will develop again!

"Huh?" Rose noticed the change. Although it was only for a moment, she did feel the aura of the witch from Yun Xi's body.

That was what only the witches could perceive, the blessings and curses of the witches.

"Mei's taste has become familiar." Rose rubbed her hand and smelled Yun Xi like a pet puppy.

"Pafu! Pafu!" The green slime jumped out of Yun Xi's chest and flew to Rose with curiosity, but was hit by Rose's Magic Missile, and then rotated 720 degrees in the air and fell into Alexander's chest.

"Well, the slime's core?" Alexander looked at the green slime on her chest and rubbed it with a strange look on her face, "It feels good."

"Is this Mei's trophy? It's a rare slime core." Mordred also came up and pinched the green slime.

"Pafu! Pafu!" the small and lovely green slime made a pleasant sound and seemed to enjoy the treatment.

“Humph, I’m going to kill slime for three hundred years!” the little witch was still holding a grudge.

“Mei is the only one who can touch my chest!”

It seemed that she just said something surprising... a big sweat bead fell from Yun Xi’s forehead.

“Mei’s blessing is the best.” Ignoring the three knights who were kneading and pinching the green slime, Rose stood on her toes and rubbed her face against the lower edge of Yun Xi’s chest.

Obviously there seemed to be nothing there, but it brought the little witch unprecedented sense of security.

In the past, her favorite pastime was to lie in the arms of her sisters and act like a spoiled child.

Now, Mei gave her the same feeling. She felt that she had become more dependent on Mei and couldn’t leave Mei.

It must be because of the symptoms of “Mei Poisoning” had deepened.

“The Witch’s Curse is terrible.” Yun Xi pressed the little witch Rose’s chest wrapped in bandages. The hand feel was incredibly good.

“Yes, it’s inconvenient to have big chest.”

“It’s heavy and it affects balance. Every time I take a bath, I would feel my shoulders were overtired.”

“Why do people think that this kind of thing is good? It’s not necessary at all except for storing magic!” Rose complained. If the civilian girls of the Starwing Knights had heard her words, they would be deathly jealous.

Yun Xi sighed.

It’s heavy.

It’s too heavy.

This is the unbearable burden of life!

### [Chapter 638: Chain Reaction](#)

“Pafu! Pafu!” The little green slime jumped up and down between the chest of the three knights, making a cheerful sound.

Yun Xi began to get used to the current situation.

Fortunately, the organ that stored magic was still part of himself. Through the breathing method Casina taught him, Yun Xi gradually grasped its nature.

It didn’t really exist but was probably like a concretization of a certain concept, the Witch’s Blessing (Curse).

As for Yun Xi, he regarded it as a piece of equipment, a magic “breastplate”, which could store huge amounts of magic and protect his chest.

Because it was actually the coagulate of mana, the defense of this “breastplate” was not superficial. It could probably block all hero ranked magic attacks.

In addition, there are other uses.

“Pafu!” After fully enjoying the chest of the three girl knights, the green slime core jumped back to Yun Xi’s chest and swam in the fountain of magic.

At the same time, as Yun Xi shared the little witch’s seed, all members of the Starwing Knights received different benefits.

In the headquarters of the Starwing Knights, Hua Yue was dealing with documents. She suddenly frowned and looked at her chest.

A Source of Magic appeared and rose directly to a very high level.

As Ling Ling was secretly eating snacks. “Ah?” She suddenly found that her perception of the world became clearer.

Her Source of Magic appeared and had the same quality as Hua Yue’s.

Similar changes had also occurred to other noble girls of the Starwing Knights family. They all found that middle-level or even top-level Source of Magic appeared in their bodies.

By contrast, almost all the civilian girls of the Starwing Knights had only obtained low-level Source of Magic.

None of them obtained the Witch's Blessing (Curse). At least no one in the Starwing Knights was qualified to acquire this level of talent.

Unlike the Sword Skill talent and the Source of Magic, the Witch's Blessing was clearly beyond the reach of the girls of the Starwing Knights.

Similarly, the three girl knights' talents had also been disseminated. Seven girls awakened their Weapons Master talent, two obtained the Berserker Bloodline and four obtained the skills of the rider.

Conversely, the four members of the "Knights and Magic" team also received feedback from the girls of the Starwing Knights.

"Well, is this the so-called blessing?" Lancelot was the first to perceive her own changes. As a Weapon Master, she was sensitive to her changes in every muscle and nerve.

Three extraordinary gifts shared by all members of the Starwing Knights:

Sword Skill Talent (Weakened)

Mentality Talent (Weakened)

Body Talent (Weakened)

Although they were all weakened, they were all great talents with unlimited potential.

Now, there was another talent that could be shared by the seeds:

Rose's talent: the Source of Magic.

All the girls had obtained the four kinds of supernatural talents. Although they were weakened compared to the original talents, it could drive countless ordinary people crazy if they knew about this.

Moreover, these talents would continue to grow, and in this network of seeds, there were already more than one member of the Starwing Knights that had awakened their own unique talents, such as Hua Yue's White Golden Rose Bloodline and Xiao Cao's Mortal's Sword.

Yun Xi's seed had evoked their real potential, and their rebirth would further enhance Yun Xi's talent. After all, the talents he obtained from the seeds were never weakened.

However, Yun Xi had always used Hua Huo as a reference, so he had no pride at all, rather a sense of inferiority.

Hua Huo didn't choose to enter the hero rank, and he made the same choice. He wanted to wait until he became stronger before stepping into that realm.

As for how strong he was now, Yun Xi himself didn't clearly know, because his strength was still increasing, and was far from his limit.

When normal human beings reach the limit of flesh and blood, they have to try to enter the hero rank. Otherwise, once their potential of flesh and blood was exhausted, they would never be able to enter the hero rank.

Yun Xi's situation was quite different from that.

He was more like an archaic dragon or an elf. These inherently extraordinary races were far superior to human beings. In the eyes of these strong races, reaching the hero rank was as easy as breathing.

### [Chapter 639](#)

: Their Blessings

"Awesome! Mei's blessing is so powerful!" As a Berserker, Mordred clearly felt that her physical strength had been strengthened dramatically.

Just as the members of the Starwing Knights had different adaptations to different talents, Mordred had very high adaptability to Mumu's Diamond Body.

Not only just the height of her body improved, but also there were incredible changes happening inside her body.

The density of bones, nerves, and muscles... all parameters related to strength increased continuously.

Mordred took a deep breath and then a clear “Crack” went throughout her body. It was the resonance of bones and muscles. It was the cheer of the Berserker physique.

Now, she could be sure that it wasn't a dream.

Power!

Speed!

Recovery ability!

All the values related to the Berserker body had been greatly increased!

If this wasn't a miracle, then nothing could be called a miracle!

“Puff... What a wonderful blessing!” Alexander showed a strange smile.

She also acquired Mumu's talent, but it wasn't Mumu's Diamond Body but something else.

That was one of Mumu's advantages that even Yun Xi hadn't discovered yet.

Walking to the carriage not far away, Alexander touched the tall horse's head and simply said a word:

"Hello."

The tall horse felt weak and almost knelt down in front of Alexander, which was the natural response of ordinary animals to the pressures of a superior being.

Alexander's talent, "King's Cavalry" was improved by Mumu's unknown talent and once again raised to a more terrible field.

Maybe this talent could be renamed "Cavalry on a Dragon's Back"?

As for Rose, her changes were the biggest.

"Rip!" With a sharp tearing sound, Rose screamed and looked at the bandage which was suddenly tore open by her suddenly growing breasts.

Undoubtedly, the breasts which symbolized her witch talent had become bigger than before.

With the fall of the snow-white bandage, Rose's charming, smooth, round breasts were once again exposed in front of Yun Xi.

Pink and white. The delicate twin peaks rippled out a thrilling arc in the air.

The fruits were so huge, but the buds in front of the chest were a lovely pink. A beautiful arc formed from her chest, after reaching the apex, followed by a downward arc, outlining that pair of delicate crystal white was cream buns.

With her breathing, this pair of enlarged peaks swayed slowly and repeatedly, making Yun Xi's eyes dazzled.

Oh, it must be because of the twin witches' mentality talent. Rose must have great adaptability with the twin witches' talents, which wasn't a one-plus-one improvement, but was more like a fierce chemical reaction.

As a result, Rose's Source of Magic was instantly promoted to an incredible level.

The Witch's Blessing (Curse) faithfully reflected this change, breaking open the bandage.

"Ooo ooo, no!!!"

"Why did my chest get bigger again!"

"I don't want it!"

The little witch burst into tears. She was clearly a leader of "flat-chested" witches, who advocated that witches should enhance their personality and charm by exploring the source of magic and understanding the rules of magic.

Why are her breasts still getting bigger?! She likes poor breasts!

“We should become a great witch not with our own talents but with our own efforts!” This was the declaration of “flat-chested” witches.

Although none of these “flat-chested” witches had become a great witch with their own efforts, it was still a belief of many witches.

Rose had many good friends who had this belief. If they saw her appearance now, they would definitely break off relations with her.

“No!”

“It’s not my fault.”

“Why doesn’t Mei’s Blessing make my breasts smaller?” The little witch cried like a child when she said the words, which, if heard by the Starwing Knights were enough to cause an uprising.

“It doesn’t matter, it doesn’t matter. Whether your breasts are big or small, we are your friends! Rose, cheer up!” Lancelot quickly inspected Rose’s chest and got an enviable figure, then she began to weave a new bandage for Rose.

“Yes, we are your friends, we don’t mind it!” Mordred brandished her two-handed heavy sword. In fact, her breasts had also become a little bigger, but weren’t that noticeable like Rose’s.

“You should learn to get used to it. It’s not a shame.”

“If you have a pair of big breasts, it’s comfortable to knead them!” Alexander smiled and rubbed Rose’s twin peaks with a pleasant look.

Oh, yes, yes, this hand feel is perfect! It’s perfect to get bigger, little Rose!

“Cough! Please respect yourself, everybody.” Yun Xi had turned around long ago, but that pair of snow-white peaks continuously appeared in his mind, which made him feel despair.

Except for Lancelot, they are all problem girls!

Hua Yue, on what basis do you think this team is very suitable for the Starwing Knights?

That’s of course because they have big breasts!

Mei, didn’t you very much like big-breasted girls?

This was already an open secret in the Starwing Knights from a long time ago.

#### [Chapter 640: The Shadow of Blood](#)

“The imprint is strengthened...” On the roof of the girl’s dormitory of the White Lotus Sword Palace, Robin sat there and looked towards the end of the horizon.

“You can’t be happy. It’s too luxurious for you.”

“Have you ever seen your hands stained with blood, little bloody bird?”

“Robin doesn’t fly in the sky freely. It’s not her world.”

“Come back, come back, come back, go back to the world of blood and killing.”

The birds symbolizing ominousness and death were low whispers around robin’s ears, tempting her to go back to a world full of death, which does not belong to the mortal world.

In her pupils, there were patterns of thorns and flowers, either of which was bloody.

As a member of the Starwing Knights, she had also acquired extraordinary talents suitable for herself: the twin witches’ mentality talent.

Very few of the girls of the Starwing Knights could obtain the twin witches’ talents. As the gods’ servants, White Lotus and Red Lotus had incredible amounts of spiritual power. Acquiring their talents, Robin could now see her fate more clearly.

It had never been changed. The future she saw with her ability was still full of blood and death.

Once she descended from into the nightmare world, she had no way back.

“I... I’m getting stronger...” Closing her eyes, Robin clearly felt the power of fate surging through her body, and now she could even clearly see the upper limit of life for the vast majority of people.

In the entire White Lotus Sword Palace, more than 90% of the disciples had less than 300 years of life, which meant that even if they had a smooth life, it wasn’t possible for them to live more than 300 years.

Only the lives of the Master of the White Lotus Sword Domain and several tutors were beyond this limit. However, it was clear that the Master of the White Lotus Sword Domain’s time was up, and Robin could even see the death aura around his body.

Probably, in less than ten years, the Master of the White Lotus Sword Domain would come to the end of his life.

On the contrary, there were still “monsters” whose life forces were far stronger than the Master of the White Lotus Sword Domain in the White Lotus Sword Palace.

For example, the twin witches. Robin couldn’t even see the upper limit of the life of White Lotus and Red Lotus.

Similarly, she couldn’t predict the limit of Hua Huo’s life. Just looking at Hua Huo, Robin could feel her strong life force that could crush everything.

This was a rare experience for Robin. In theory, as long as a person was still at the hero rank, she could figure out the approximate range of the person’s life.

The vast majority of ordinary people couldn't live more than 100 years, and the lives of hero ranked people were between 300 years and 1000 years. Human beings are short-lived creatures, the upper limit of their lives is not worth mentioning compared with the lives of dragons and elves.

Unless the person could step into the legend rank, the person's life could truly exceed this numerical range and even reach infinity, just like Casina the Battle God.

In the past, Robin couldn't see the life limit of legend ranked beings, but now there were three such monsters in the White Lotus Sword Palace.

Similarly, there was also a strange thing here, that was the girls of the Starwing Knights.

When she first observed the life limit of the members of the Starwing Knights, she wondered if there was something wrong with her eyes.

Why do all of them have lives close to five digits? How can this be true?

Even the upper limit of her life was changed. In the past, her life was always a negative number in her eyes, but now the number became a positive number. Only she understood what this meant.

Humans are the most standard life form in the endless god's domains.

Nothing is the best, and nothing is the lowest. The overall value of human talent has always maintained a constant level for thousands of years.

In the endless god's domains, the human race is a benchmark to measure the value of a race. The races whose value is below the humans are lower races, while those far beyond the humans are the higher races.

In any case, the life of human beings, even if they are at the hero rank, can not naturally reach five digits!

The existence of the Starwing Knights clearly transcended the boundaries of human beings, and now, after she became a member of this special group, she finally found the root cause.

Mei's Blessing, or Mei's Curse, is irrevocable bondage.

"This is... Mei's Blessing... Feeling the Source of Magic formed in her body, Robin finally understood where the root of all this came from.

"The Source of Magic! Why?!"

"Isn't this a Witch's talent?"

"No, no, no, no! Something is wrong!"

"Curse, curse, curse! The Witch's Curse is coming!" Finding that Robin suddenly had something she shouldn't have, the bloody birds screamed with panic.

“I see. So, even you don’t understand this phenomenon?” A ball made of blood floated on Robin’s fingertip. Her eyes gazed at the ball, seemingly seeing a distinct future.

To overcome the curse of robins, only to find a stronger curse (blessing)!

Now she found it.

“Mei...”

“It’s a blessing, and also a curse.”

More blood wrapped around Robin’s fingertip, which was a force she couldn’t use before, a source power of nightmare creatures.

At this moment, she finally gained her first strength in the invincible curse.

The blood rippled and formed a pool of blood at Robin’s foot. Her tiny figure sank into the pool and disappeared from the world.

The Blood Walker awakened at this moment.

From this moment on, she was no longer just an observer of fate.

Blood and curses are with her.
