

## **Starchild 651**

### [Chapter 651: Fall](#)

“The Starwing Knights!”

“It’s the prince and his knights!”

“We have hope!”

The appearance of the Starwing Knights greatly inspired the morale of the people in the city.

As mortals, they couldn’t fight against a real dragon, the only thing they could do was to pray for the prince and the Starwing Knights.

“Glory, turn into my shield and my sword!”

“In the name of the white golden rose, Starwing Knights, move out!” As the owner of one of the noblest bloodlines in the Knight God’s Domain, Hua Yue finally showed the extraordinary power of her white golden rose bloodline.

Unlike Xiao Cao, Hua Yue brought together all the forces of the Starwing Knights.

The attack that shattered the giant sandworm’s body just now was the masterpiece of all the members of the Starwing Knights.

The entire Starwing Knights rushed into the battlefield like a storm, showing no fear.

This was also the first time that Yun Xi had seen the real combat ability of the Starwing Knights.

“Defensive formation!”

“White Golden Shield!”

After blowing up a giant sandworm, Hua Yue raised the sword in her hand, and all the members of the Starwing Knights were concentrated behind her. All the Knights breath almost merged into one.

Several red dots appeared on Hua Yue’s body, and then the dark red ray attack reappeared.

Yun Xi’s heart beat fast. The death ray could kill most hero ranked beings in seconds, could Hua Yue dodge it?

Fortunately, the deep red ray was blocked by a transparent shield with white golden color halfway.

The shield engraved with the mark of the cross and the rose emblem was precisely a secret art from the Knight God’s Domain: The White Golden Shield.

The white golden shield was shaped by all the strength of the girls of the Starwing Knights.

This was the special secret art of the Knight God's Domain. An excellent leader of the Knights could concentrate all of the force of the Knight members and display all kinds of incredible secret arts.

The power of the secret art depends on two factors.

The talent and the will of the leader of the Knights.

The trust of the members of the Knights for their leader.

For the Starwing Knights, both factors were perfect.

Hua Yue's talent and will were absolutely first class. She was undoubtedly a genius.

The members of the Starwing Knights had 100% confidence in Hua Yue, and among the members of the Starwing Knights, there were special bonds that other people couldn't imagine.

With "Mei's Blessing" (seed), the tacit understanding amongst the girls of the Starwing Knights was enough to make any other Knights feel inferior.

"Raise your swords! Charge!" The protection of the White Golden Shield was almost invincible. Although there was a time limit, it was still a secret art that was enough to subvert the situation on the battlefield.

"Splash!" Another giant poisonous scorpion had its tail cut off and its blood sprayed ten meters high. It was Xiao Cao, the deputy leader of the Starwing Knights who killed the scorpion.

As one of the few hero ranked members of the Starwing Knights, Xiao Cao chose to move alone, targeting directly on the giant scorpions that could threaten Yun Xi.

“Humph, useless struggles! No matter how many humans there are, humans can’t defeat the great Desert Dragon Zaka!” Zaka shook its dizzy head and showed a grim smile.

“Taste this! Dragon Spirit...” It was a unique all-range attack of the dragon, the death declaration for the people who dreamed of slaying dragons.

However, before it released this magic, one of Zara’s eyes exploded and magic was forced to stop.

The breath of blood and death slowly emerged before Zaka. It was Robin, the ominous bird of the Starwing Knights.

She didn’t attack Zaka’s eye, but watched quietly, waiting for this unfortunate fate to happen.

“Ouch, Ouch!” The Desert Dragon tightly covered its eye with its claws. This time it was seriously injured, but it didn’t see any attacks aiming at its eyes!

It felt like something was wrong inside its eyes, then its eye exploded itself!

Is it a curse? What kind of curse is effective for a dragon?

These damn bugs! I was too careless!

“Ha!” While the Desert Dragon Zaka was distracted by Robin’s curse, taking this advantage, Yun Xi rushed to its head, on the side of the eye that just exploded!

Soft Water Palm!

His palm pressed on the exploded eye with full strength!

“Roarrghhh!” Under the double attacks and great pains, the Desert Dragon’s huge body fell to the ground and blew up dust from the ground into the sky.

“Not finished yet!” Yun Xi’s hand hit on the Desert Dragon’s wound again.

“...” Robin looked at the Desert Dragon’s twitching body and shook her head.

“Charge!” The girls of the Starwing Knights had killed three sandworms in succession. They began to speed up and rushed towards the Desert Dragon.

“I’ll be back!” The Desert Dragon realized that if it didn’t escape, it would probably be left here forever. It immediately held its head in its claws and displayed its ultimate skill: Desert Dragon’s Roll!

Its fifty-meters-long huge body began to roll, roll, roll on the ground! In just a minute, it had rolled away from the sight of Yun Xi and the girls of the Starwing Knights.

The four Desert Dragon's Eyes also flew away with their master. The desert disappeared in a twinkling of an eye, and the earth restored its to its original color.

"Its rolls are really fast..." Yun Xi wiped the sweat from his forehead. In fact, he had been exhausted.

He couldn't use the Soft Water Palm infinitely. Even with the support of the Battle God's Seed, his energy and blood were almost exhausted.

If the battle continued, he really didn't know if he could still stand up. Before the Desert Dragon was killed, he would die first.

#### [Chapter 652: Booty](#)

"We won!"

"We won!"

"The dragon escaped away!"

The guards on the walls of the city were the first to shout the glad tidings. With their message, many people hiding in their basements, churches and even palaces began to walk up the walls and witness the battlefield after the battle between the Starwing Knights and the Desert Dragon.

It wasn't until they saw for themselves that the Desert Dragon had left and that there were still mutilated bodies of monsters lying on the ground, that they believed that the disaster of the kingdom had finally been diverted.

The dragon was completely repulsed.

At this moment, nobody cared that the dragon was only one of the four heavenly kings, one of the minions of the real dragon.

All they knew was that the Prince and the Starwing Knights had won!

Soon, the cheers rang throughout the sky, and people ran out of the city gate one by one, watching the bodies of giant scarlet scorpions and sandworms.

“Have we really won?” Not only these ordinary people, but the members of the Starwing Knights also showed an incredulous look on their faces.

When did they become so strong?

Not long ago, many of them were still ordinary first ranked swordswomen.

But now, they could already frighten away a dragon?

“Yes, we won.” Hua Yue showed a confident and sunny smile.

How can they win? Because the Starwing Knights trusted a man and had the consciousness of sacrificing their lives to protect him.

Their prince was the core that connected all of them together.

Any teams with such a firm belief could be strong.

Without firm beliefs, in the face of giant sandworms and poisonous scorpions, the number of people was only number. It couldn't be turned into combat power.

Only by adhering to their own inner will and willingness to pay all costs for it, can the white golden shield shine brightly and let the beautiful rose open.

The Starwing Knights will certainly become stronger!

"One, two, three..." Xiao Cao counted the bodies of poisonous scorpions on the ground.

As a girl from an ordinary family, "careful calculation" was her instinct.

Before she reached the hero rank, she often didn't have the money to repair her equipment. She used the newbie iron sword for a long time until she joined the Starwing Knights.

After joining the Starwing Knights, although she became much richer, the belief that "waste is shameful" had long been incorporated into her mind. No matter which world she was in, this belief wouldn't change.

“Well, the body won’t disappear.” Yun Xi curiously watched the girls of the Starwing Knights cut off and carry the bodies of giant poisonous scorpions.

He found the decisive difference between this battle and the battle in the Forgotten Ruins.

In the Forgotten Ruins, the monsters he killed would leave corpses, but these corpses would soon be revived by the mysterious Queen of Assyria.

However, the minions of the Desert Dragon didn’t seem to have this characteristic. These bodies wouldn’t suddenly revive and attack the people nearby them.

It seemed that the Desert Dragon didn’t have a relationship with the Queen of the Forgotten Ruins.

This also meant that the Queen of the Forgotten Ruins was probably stronger than the Desert Dragon Zaka.

Maybe she was also one of the four heavenly kings?

If the four heavenly Kings were ranked according to their strength, Yun Xi felt that Desert Dragon Zaka was probably the weakest.

“Come on, everybody, the meat of these monsters are useful. Eating them can improve our physiques.” Xiao Cao stood on a scorpion’s tail and commanded all the members of the Starwing Knights to carry the whole body of the scorpion.

At the same time, the palace armies also arrived on the battlefield at last. They cut the giant sandworm's body with ready tools and cut it into hundreds of half meter chunks of meat.

Like what Xiao Cao said, whether in the infinite god's domains or in this world, the bodies of these monsters were rare treasures. Just like no matter how rich you were, you couldn't buy the meat of male fiery dragon, the meat of the sandworms and scorpions couldn't be bought in the mortal world.

The taste of the meat was a secondary consideration. The enormous energy contained in the meat was the most important.

Even so, the girls of the Starwing Knights were curious about how the monsters tasted.

"I haven't eaten the meat of a giant sandworm yet. I want to know how it tastes!"

"Isn't this scorpion poisonous? Can its meat be eaten?"

"Well, what's the flavor? Chicken or beef?" Ling Ling was deeply troubled.

"According to the records, the meat of giant sandworms is delicious, and the protein is more than ten times that of ordinary beef. After eating, our endurance to high temperatures would be strengthened. It's a very rare food ingredient!"

"Because giant sandworms generally live in the desert, hundreds of meters below the ground, it's difficult for humans to find and kill this kind of monster. Their meat is very expensive."

Mei Lan recited the knowledge she remembered from books, satisfying the curiosity of other members of the Starwing Knights.

“Yeah, ten times better than beef! I thought the roasted veal steak was the best thing in the world!”

“It’s great that the meat contains so much protein. My mother always said that my chest flat is because of undernourishment. If I eat the sandworm’s meat, can my breasts grow again?”

“Mei Lan, is that the same with the poisonous scorpions?”

Mei Lan pushed the glasses on her nose and nodded, “The scorpion is poisonous, but the poison is confined to the scorpion’s tail.”

“Therefore, after we cut off its tail, its meat can be eaten.”

“I heard it tastes like chicken.”

### [Chapter 653: The Twin Witches](#)

When the Starwing Knights and the Royal Army returned to the city, the main road of the city was crowded with people.

Many people who saw the spoils of the Starwing Knights and the prince and they cheered loudly by the road.

“Long live the prince!”

“Long live the Starwing Knights!”

“Let the evil dragon die!”

“As long as there is our prince and the Starwing Knights, we don’t have to be afraid of dragons any more!”

Yun Xi sighed as he listened to people’s excited cheers.

It’s better not to let people know the truth.

Only he knew how terrible the evil dragon’s nest was.

The master of the Forgotten Ruins, the Queen of Assyria, as long as she was there, even if with the help of the Starwing Knights, he had no hope to break through the Forgotten Ruins, not to mention the Dragon’s Nest.

Compared with the Queen of Assyria, Desert Dragon Zaka was just the weakest of the four heavenly kings.

Moreover, even though the Desert Dragon was defeated by himself and the Starwing Knights, it still didn’t show enough terror. If it wasn’t for the Starwing Knights, he would’ve been defeated and would have to watch the dragon destroying the city.

The Dragon War had only opened its prelude.

“Prince, are you worried about our fighting capacity?” The bloody Robin appeared again behind the worried Yun Xi.

Unlike the blindly optimistic people, she also saw the tragic future of the kingdom by observing Desert Dragon Zaka’s life trajectory.

Even though the Starwing Knights had unlimited potential, that potential was still just potential, and it would take time for them to become stronger and stronger.

But now, this kingdom had no time to wait for the Starwing Knights to grow up.

As a palace augur and a member of the Starwing Knights, like Yun Xi, she was aware of the crisis for the future of the kingdom.

“Yes, the Starwing Knights are not strong enough to break through the Forgotten Ruins.”

“Do you have any ideas?” Yun Xi looked at the mysterious augur with a glimmer of hope in his heart and his eyes.

In the battle before, Robin’s damage to the Desert Dragon was the greatest.

Even Yun Xi didn’t find out how she blew out one of Desert Dragon Zaka’s eyes.

It can be said that Robin had made the greatest contribution to the battle before.

“The future can be changed.”

“There is only one hope for the kingdom.”

“Prince, come with me.” Robin used the magic “Unknown Realm” and disappeared with Yun Xi from the parade, leaving the Starwing Knights.

“Oh, they sneaked away!” Ling Ling noticed their disappearance and muttered with dissatisfaction.

“She’s supposed to discuss the next plan with the prince.” Hua Yue chose to believe in Robin.

Inside the palace, in Yun Xi’s room, under the ceiling engraved with the sun, moon, mountains, and rivers, Robin opened a map half the size of a person.

“Prince, do you really want to defeat the dragon and save the kingdom?” Robin needed to identify this problem before she explained her plan.

All subsequent plans must be based on this premise.

If Yun Xi didn’t like this idea and have a fearless will, there was no way that they could accomplish the plan.

“Yes, I must defeat the dragon. I have to win!” This was the main quest of this trial. It must be accomplished in any case.

What would happen if he failed to accomplish the main quest? Yun Xi dared not think about it. His instincts told him that it must be a terrible thing.

“Well, let’s look at this mark on the map first.” Robin nodded.

Yes, that was the will.

Having a firm will may not be the necessary condition for victory, but it was absolutely a great advantage.

Those who had no confidence in themselves were not qualified to be favored by the goddess of victory!

Yun Xi looked closely at the map. It was the world map of this trial world.

On the map, the area in the eastern half corner was marked by sword and shield, and a castle pattern was erected in the center of the area.

Undoubtedly, this was the only human kingdom on this continent. After the collapse of the Assyrian kingdom, this kingdom was the last fortress and hope of mankind.

This area was marked in white.

In contrast, the central part of the mainland, from the most central to the north and western regions were all marked in dark red.

The center of the region was a mysterious place surrounded by ruins with a dragon-shaped imprint.

Dragon's nest! This was Yun Xi's ultimate goal!

"The evil dragon already occupies two-thirds of the continent?" Yun Xi didn't expect that the only continent of this trial world had long ceased to belong to human beings.

Compared with the land dominated by the evil dragon, human beings were simply hanging on with the last of life in the border area.

"Yes, it's no problem to say that the continent has been ruled by the evil dragon."

"But, prince, take a closer look at the southern area." Robin took Yun Xi's hand and led him to a strange place.

It wasn't the white of the kingdom, nor the red of the evil dragon. It was red and white.

"Why are there white and red here?" Yun Xi looked at the unknown area in surprise.

“Because this region has both the remnants of human beings and the forces of the evil dragon. It is the only region on the mainland that is still in a war.”

“Are humans fighting dragons in this region?” Looking at the red and white color, Yun Xi had a vague intuition. He felt as if there was something calling him.

“Yes, they haven’t lost yet, because they have special tactics and means to fight the dragon.”

“They are not like our kingdom, because they are the people who inherited the civilization of the ancient Assyrian kingdom and choose witches as their religion.”

“Prince, you must obtain the special power of witches. Only in this case, will you have the hope to overcome the Forgotten Ruins. Only they know how to face the dead Queen of Assyria.”

“Because they are the cursed twins who inherited the last blood of the ancient Assyrian kingdom.”

“The twin witches of fate.”

[Chapter 654: Imminent Problems](#)

“The Twin Witches...”

“The witches of fate.”

Without thinking, Yun Xi could guess who the twin witches were.

White Lotus and Red Lotus.

The side quest “the legendary witches” was exactly tailored for them.

“Yes. Prince, if you want to defeat the evil dragon, they are indispensable people.”

“But before that, there’s one more important thing to do.” Robin’s face looked serious, “That’s the most serious problem in the kingdom right now.”

“What’s more serious than the evil dragon?” Yun Xi looked at the mysterious palace augur in confusion.

“That’s naturally... your identity, my prince.” Robin picked up a crystal ball in her hand. Her face was covered by her bright red cloak, and the atmosphere became strange in an instant.

“My identity... am I not the prince of this kingdom?” Yun Xi remembered that this was the “setting” of this star trial.

Judging from the fact that the Starwing Knights were trusted by the people of the city and people’s worship to him, he was indeed the prince of this kingdom in people’s hearts.

“Yes, you are undoubtedly our prince, and this is the biggest problem.”

“Because, my prince, you are only a prince now.” Like speaking a tongue twister, Robin said the biggest problem.

“I’m a prince. What’s wrong with this?” Yun Xi became more and more confused.

“My prince, it means that you are not the most powerful person in this kingdom!”

“That is to say, you are only the successor of this kingdom. The real master of this kingdom is not you, but the king!” Robin pointed out the key point.

“Ah... I have a father?” Only then did Yun Xi realized what Robin meant.

Indeed, if he is a prince, it means that there is a king in this kingdom.

In the past, he always fought alone, so it didn’t matter what the background setting was.

However, compared with the previous trials, his identity in this trial seemed to be somewhat different.

“Yes, the king has been ill for a long time. My prince, you are only performing the king’s duties to administer the kingdom.”

“This is a problem that must be solved.” The bloody Robin had witnessed countless human tragedies, however, she must say this.

She sighed and continued, “The king is not an incompetent king, but it’s not his time now.”

“My prince, it’s time for you to make a decision.”

“Decision? What decision?” Yun Xi still didn’t understand what Robin hinted.

“We are facing the evil dragon’s threat, we need you, but we don’t need a sick king.”

“My prince...” Robin looked at Yun Xi in peace.

Hasn’t the prince understood it yet?

He is an excellent prince and the hope of the kingdom’s future. Compared with the old king, he is the real master of this kingdom.

Now, facing the enormous threat of the evil dragon, he must truly ascend the throne and become the righteous master of the kingdom.

For this reason, the best solution is to let the long-disqualified “king” disappear.

From the trajectory of fate, she saw the future of this kingdom, in which the “old king” didn’t have a place.

“No, I don’t have that plan.” Eventually, Yun Xi realized what Robin’s hint was. He was neither able to cry or laugh.

He was the prince of this kingdom, but it was just a setting. Although the king could only play a mascot of this kingdom, there was no need to kill him.

What he did was to find a way to kill the evil dragon, not to play a royal theatre called “patricide”.

By the way, Robin, are you really not playing the role of a villainess?

What a third-rate script your suggestion is!

“My prince, you are a kind man, but the world is not as beautiful as you think.” Robin shook her head and said something to Yun Xi’s surprise.

“Go and see the king. Maybe you can understand why I suggested that.”

“That king has gone the wrong way.”

No matter how hard Yun Xi thought, he couldn’t remember a thing about the king. For him, the king’s sense of existence wasn’t stronger than the trees in the dark forest, how could he remember the shape of a random tree in the dark forest?

But according to Robin’s proposal, he still came to the garden where the king was supposed to convalesce.

“This... It doesn’t look very good...” What Yun Xi saw was doctors in black long clothes with beak-like masks on their faces. They were busy shuttling through the garden.

In the air, there was an overwhelming smell of medicines.

“Pafu!” The emerald jelly came out of Yun Xi’s chest and made an uncomfortable sound.

“Ga...” Doctors in black clothes looked at Yun Xi with lifeless eyes and made a threatening voice.

“I am the prince.” Yun Xi had to declare his identity.

“Ga!” The doctors’ eyes turned red.

“I am the prince!” Yun Xi declared his identity again. He was the successor of this kingdom and the current regent! Although this was just a setting, it should be useful in this trial world!

“Ga!” There were crows crying, and more doctors in black clothes appeared, looking at Yun Xi with bloody eyes.

No, the script is wrong!

Why do they have that bloody smell?!

Yun Xi smelled that the doctors in black clothes had exactly the same smell as those black axe monsters in the Forgotten Ruins.

“Ga!”

“Ga!”

Under the black beak-like masks, one sharp mouth after another opened, showing a chilling expression.

Sickle!

Fork!

Jigsaw!

Those doctors in black took out something that should never be used by doctors one by one and surrounded Yun Xi.

They looked so enthusiastic, like some hospitable hosts who were welcoming the most honored visitor had finally arrived at the door.

“You’re looking for your own death!” Yun Xi noticed a bonfire in the middle of the garden, which looked so familiar.

This meant that this area was the same as the Forgotten Ruins. It was a “barrier” he had to breakthrough!

Recalling Robin’s hint, Yun Xi had no doubt who the ultimate boss of this area is.

Damn it, why is her predictions so accurate?

Now he really had to be the protagonist of a third-rate royal theatre of “patricide”!

#### [Chapter 655: Dark Garden](#)

“Ding!” The Crane Wings Twin Swords circled in the air, turning into two flying streamers above the battlefield, which was originally a garden.

“Bang!” A Doctor in Black’s whole body exploded.

“You are dead!” Yun Xi who took away his palm. He didn’t even look at the Doctor in Black and sheathed the Crane Wings Twin Sword.

After being blown up, the Doctor in Black slowly stood up in an eerie manner. It was clear that his heart had been pierced, but the hole in his heart was being filled up with black granules.

This was a kind of parasite that Yun Xi didn’t know, parasitizing on the human body. It could greatly increase the vitality of the body and could even repair fatal injuries.

However, in the face of Yun Xi’s Soft Water Palm, these parasites could do less use.

Before the dense granulations could repair the monster's heart, they had all suddenly burst into a bloodstain.

Yun Xi's Soft Water Palm could even break Desert Dragon Zaka's defense, how could these parasites withstand it!

"Shuffle!" The twin swords drew smooth tracks in the air and three black doctor monsters' heads had been cut off.

After losing their heads, these monsters didn't die immediately but exposed their true faces.

It was a black wireworm that emerged from the wound on the neck and replaced the function of the cut-off head.

"Why are there these disguising parasites in the garden?!" Yun Xi looked at these weird monsters in a very bad mood.

"Hiss!"

"Hiss!"

"Hiss!"

Here came that sound again, the whisper of death! Wasn't this the patent of the Queen of Assyria?

The monster whose head was replaced by black wireworms fell completely into a state of insanity after hearing the sound, rushing madly towards Yun Xi.

“As I said, you’re looking for your own death!” Yun Xi took a long breath and put his hands up and down on his right side.

Unlike the “Soft Water Palm” he just used, this time, he was going to use a “rigid body skill” Casina taught him.

“Boom!”, “Boom!”, “Boom!”, “Boom!” The deafening sound of blood flew in Yun Xi’s body and resounded in his ears, like the torrent of rivers and like the surging of waves.

At this moment, the blood in Yun Xi’s body was flowing ten times faster than that of ordinary people.

Only with a “diamond-like” unbreakable body, a human could withstand this rigid body skill and not commit suicide.

Its name: Thunderbolt!

“Ha!” Gathering all the “qi” of his body into his hands, a ball of incandescent rotating light emerged.

As if thunder was exploding, a circle of shock waves was released and all the black monsters around Yun Xi were blown away, and then the light ball in Yun Xi’s hand flew out.

“Boom! Boom! Boom! ” The light ball turned into a continuous burst of light circles, blasting all the monsters in front of Yun Xi into pieces.

No matter how strong their self-healing power was, after being blasted to ashes, there was no way they could revive.

Soft Water Palm embodied the destructive power of “soft”.

Thunderbolt demonstrated the destructive power of “rigid”.

Only a “freak” who had both rigid body and soft body could master these two super fighting skills before even reaching the hero rank.

“Huh!” After releasing the Thunderbolt, Yun Xi took a deep breath.

Anyone who saw the power of Thunderbolt would be shocked, including Yun Xi himself.

This was the first time that he had really used the rigid body skill he learned on the battlefield, and the result was apparently outstanding.

Compared with the silent and lethal attacks of the soft body, the attacks of the rigid body were all straight and fierce.

“Well, soft body skills are suited for one-on-one fights, and rigid body skills are suited for battlefields?” Yun Xi had more insight into the characteristics of his body.

The two physiques were distinct, but once he could combine the two physiques together, their effect opened up a new world for him.

However, Yun Xi was still far from combining the rigid body and the soft body together. Whether it was the Soft Water Palm or the Thunderbolt, he could only use them separately.

“Ga!” After about 90% of the members were eliminated by Yun Xi’s Thunderbolt, he quickly wiped out the remaining Doctors in Black by the twin swords.

These Doctors in Black were apparently weaker than the black axe monsters in the Forgotten Ruins.

The black parasites in their bodies gave them strong power and fast speed, but they didn’t grant them killing skills.

If the black axe monsters were elites, then these Doctors in Black were just the weakest monsters Yun Xi had ever seen.

“Did I start in the wrong order?” Looking at the monsters, Yun Xi began to suspect that he had used the wrong strategy to pass this trial.

Basing on the difficulty, obviously, this garden was a novice area, and the Forgotten Ruins was the final area where the ultimate boss was.

“Ah... Ah... Ah... You’re here...” A hysterical voice echoed in the dark garden, “My unfilial son!”

Well, Yun Xi thought that he knew who the master of the voice was.

“Why? Why did I give birth to such a rebellious son like you?”

“I am the king of this kingdom! I’m the supreme ruler!”

The king roared. From his voice, Yun Xi couldn’t feel any traces of ill.

Your majesty, are you really sick? Aren’t you full of spirits?

“I curse you!”

“You animal! How dare you want to kill your father and marry your mother!”

Wait! What kind of crime is this?!

I didn’t do anything! You are slandering me!

Even a third-rate novelist doesn’t write such a story nowadays!

[Chapter 656: King](#)

“You must die!”

“You and the Starwing Knights you formed will be buried by me!”

“This kingdom is my kingdom, my thing!” The king who should have died long ago, shouted with a voice so loud that Yun Xi wondered if he was really sick.

“I’m sorry, but I don’t want to do so.” Yun Xi had no will to be such a prince.

He was coming to fight the dragon, not to play in this family-ethics drama!

The identity “prince” was worthless in his eyes.

No matter how Robin advised him to murder the king and ascend to the throne of the kingdom, Yun Xi himself wasn’t interested in it at all.

But that’s what he thought, not what the king thought.

“I should have strangled you in the cradle when you were born!”

“It was the greatest mistake of my life to have pity on you for the death of your humble mother! I shouldn’t have left you at that knight’s house and let him raise you.”

Hum? Was there such a setting?

My real mother is dead... Although it was only the “background” of the trial, Yun Xi still felt a little sad to hear it.

Hey, this really is a standard family-ethics drama!

But if my mother was dead, what did she mean to “kill your father and marry your mother”?

“I won’t give her to you. She’s mine. She’s mine!”

“Even if I’m in the coffin, I’ll climb out and stop you!”

“Grant me the power of eternal life, great god!” The king fell into a fanatic and prayed to an ancient existence.

Wow, this is... Yun Xi smelled the same thing again.

That invisible thing in the Forgotten Ruins!

“Hiss!”

“Hiss!”

“Hiss!”

It seemed to be a soft twittering sound, and it seemed to be the sound of bubbles breaking out of the deep sea. From the deepest part of the garden inside the palace, there came with a creepy whisper.

“Arrrghhhh!”

“That’s it, that’s the power!”

“My unfilial son, you can never take away my kingdom and marry my bride!” The king roared with great excitement, making a deafening roar.

The sky became dark, and a bloody crescent moon revealed half of its body.

“Crescent Moon?” Yun Xi looked at the weather worsening and recalled the huge red moon he saw in the Forgotten Ruins.

“Ga!”

“Ga!”

“Ga!”

Under the bloody moon, more crow doctors poured out of the garden. Their eyes turned red and their moves became more “hospitable”.

“They went berserk?” Yun Xi was too familiar with this situation.

Crane Wings Twin Swords! Let’s fly!

Soft water palm!

Even though these doctors’ strengths were strengthened three times after going berserk, they were still nothing in Yun Xi’s eyes.

Apart from their exuberant vitality, they had nothing good.

“Shuffle!”

“Shuffle!”

“Shuffle!”

The Crane Wings Twin Swords flying over the crow doctors’ heads. Every time the sword flashed, there would be a head flying into the sky and bursting out a pile of parasites.

“Bang!”

“Bang!”

“Bang!”

Every attack of the Soft Water Palm would blow up a bunch of such black parasites, ensuring that none of the doctors could revive.

Kill! Kill! Kill! Kill! Kill!

With the support of the Battle God’s Seed, Yun Xi killed hundreds of doctors within just a dozen seconds.

Yun Xi didn’t even leave a corpse of the doctors, not even a living parasite.

Stepping in a pool of blood, Yun Xi entered the palace, which used to be the core of the whole kingdom.

But now, under the shining of the bloody crescent moon, the palace looked as if it had been smeared by some kind of internal organs, giving off a foul odor.

Looking carefully, there were obvious biological lines on the walls, which were like living intestines, liver and lung mixed together.

Anyone could see at a glance that the owner of this palace had completely degenerated.

“You’re here at last.”

“Come to kill me and rob me of my most precious treasure.”

“Come on, I’ll kill you with my own hands!” The king’s voice became hoarse. Just listening to it, Yun Xi could smell the breath of the abyss.

Yun Xi shook his head. That was what happened. The king he had never seen before was hopeless.

Stepping on the floor of the most magnificent palace in the kingdom, the plants on both sides of the corridor were all turned into black and weird vines, which made him feel creepy, let alone the vines were still alive!

Walking into this palace was like entering the interior of a terrifying creature. The deeper Yun Xi walked inside, the more disgusted he felt.

It even gave him a delusion that he was moving further into the abyss.

Perhaps this was not a delusion.

Because the owner of this palace had completely deviated and entered the darkest world.

A few minutes later, stepping on the blood of crow doctors, Yun Xi finally saw the man who was supposed to be his father in this world.

The king who guards the kingdom is the king who inherits the blood of ancient knights.

However, no one could believe that this king was once a good king.

No. It was even hard to believe that the king was a living person.

Sitting on that iron throne was a living corpse.

The visible part of his skin was as dry and weak as a corpse that had been dried for decades.

On his head, he wore a metal-cage-like weird decoration.

Only the knight's armor on his body, as well as the stick beside him still retained a trace of the past fair and incorrupt king.

At this moment, there was only jealousy and madness on his withered face.

“My son, are you finally coming to kill me?”

Well, his persecutory delusion is hopeless. Your Majesty, you really do like to play the family-ethics drama too much?!

#### [Chapter 657: Battle between Father and Son](#)

“I have no interest in the throne.”

Although Yun Xi knew that the king was already hopeless, he still thought that he needed to clarify this.

“Oh, I know you don’t like the throne.” Surprisingly, the king seemed to know that Yun Xi didn’t care about the throne.

“But you want my queen!”

“She’s so charming, so perfect! She’s mine, nobody can take her away from me!”

“Especially you, you bastard! I know you want to kill me and marry her!”

Hey, hey! I don’t even know who the queen is! Don’t accuse me of this!

In this world, I will never do any things unrelated to slaying the evil dragon!

“Her snow-white skin, her smart eyes, her lovely, innocence appearance!

“I fell in love with her at first sight. I love her more than anyone else!”

“You want to steal her from me? Then I will kill you first!”

A great deal of black air rose from the king, and the sacred knight armor began to take on an ominous color.

“I curse you, curse why you are so young, so energetic!”

“My kingdom, my queen, are all mine, mine! I will never give them to you!”

“Unforgivable, unforgivable, unforgivable!”

“Accept the judgment from the king, the sinner who wants to kill his father and marry his mother!” The king stood up.

The long-withered body was infected by some weird breath and became strong and powerful again.

Black parasites swam out of his corpse-like eyes, declaring that the king had become a real monster.

When he was still alive, he was a real hero ranked knight. Now, infected by strange forces, he had stepped further into an unknown field.

He has a set of god weapons! He is a strong enemy! This was what the Battle God's Seed told Yun Xi.

The contaminated armor and stick were the parts of the set of god weapons, "Sacred Revenge". It was the legacy of the first king of the kingdom and had been handed down from generation to generation to protect the kingdom. After thousands of years, it had been recognized by the people of the kingdom as a powerful god weapon.

When the king was still a human, he was not just a king but also a famous knight. This was the characteristic of the kingdom. Every king would inevitably inherit the "Sacred Revenge" and watch the ruins of the Assyrian kingdom.

However, the last watcher, the master of the "Sacred Revenge" himself had degenerated.

Because of this, the "Sacred Revenge" also lost its glory and became a dark-type god weapon.

Gaining back his power, the king jumped into the air and struck the stick down at Yun Xi.

The black stick smashed on the ground, causing the ground to break. The rippling shock wave even smashed the wall several dozen meters away. The position directly hit by the stick collapsed suddenly and became an area covered by ominous black air.

Too fast!

Yun Xi barely dodged the attack and his heart started to beat fast.

After being infected, the king was really strong.

“Ha!” The king bent his right leg and gave Yun Xi a side kick.

“Bang!” Yun Xi’s body twisted unnaturally, which avoided the heavy kick. It was the characteristic of the soft body.

“Ha!” The king once again kicked Yun Xi’s waist!

Hey, you’re a knight! What don’t you use your stick? You’re only relying on your foot?

Unexpectedly, Yun Xi couldn’t avoid a kick and had to withstand the kick.

“Ha!” The king kicked again.

“Bang!” Yun Xi’s Soft Water Palm punched the king’s leg again.

His Soft Water Palm could stun a dragon, but caused no effect on the king’s black leg.

He did hit the king’s leg, but after penetrating into the king’s body, he couldn’t find anything to destroy.

Yun Xi felt as if his palm hit on a decayed coffin with nothing inside.

“Ha!” The king was totally unaffected by Yun Xi’s Soft Water Palm and stretched out his leg, and Yun Xi was forced to take a step back.

Undoubtedly, the King’s kick skill had been practiced to the limit.

“Ha!”

“Ha!”

The king’s side kicks seemed to never stop, giving Yun Xi no chance to take a break.

In this case, Yun Xi’s Soft Water Palm completely lost any effects, and he could only rely on the characteristics of the rigid body to bear the hurt.

Your kicks just don’t stop, hum? Then I’ll kick too!

Taste my side kick!

“Ha!”

Side kick!

“Ha!”

Side Kick!

Only then did Yun Xi and the king reveal a style that seemed to be closely related.

Foot vs foot! Rigid Body vs Sacred Revenge!

After a while, both of them realized that if this continued, neither of them could take any advantages. They changed their skills almost at the same time.

“Ah ha!” The king swung up his stick and roared. Three black turtle-shell-like obscurities appeared above his head.

“Taste this! Thunderbolt!” Yun Xi rolled back, put his hands up and down, and breathed in as much air as he could.

A strong whirlpool of air diffused around Yun Xi, continuously releasing the unique aura of the rigid body.

Gathering the strength of his whole body to a point, Yun Xi released a thunderbolt from his hands without hesitation!

Yun Xi wondered if it was his delusion, because he saw a contemptuous smile on the king's withered face.

A burning flash burst in the middle of the palace, and the three turtle shells that rotated above the king's head disappeared at the same time.

In the next second, Yun Xi was blown up by the rebounding thunderbolt's shock wave and was stunned.

Taking this advantage, the king jumped up with a heavy blow, slapping his palm on Yun Xi's body.

#### [Chapter 658: Fatal Attack](#)

"Boom!" Numerous black waves of light burst on Yun Xi's body. He spat a mouthful of blood, even His rigid body couldn't withstand the horrible destructive force.

As the ground exploded again, Yun Xi's body together with the twin swords was bombed into the ground, suffering the greatest damage since the battle with the king.

But it wasn't the end.

My body can't move? Yun Xi found that his body was full of unidentified forces similar to electric current, resulting in a short period of spasms throughout his body.

He remembered the introduction of the Sacred Revenge he saw in the library.

The Sacred Revenge had two parts.

The “Sacred Stick” could release the thunder of judgment and wipe out all darkness.

The “Revenge Armor” could absorb any attack and reflect it 200%.

Yun Xi finally knew how he lost.

His Thunderbolt was rebounded by the king’s “Revenge Armor” and increased by 200%!

Even he himself couldn’t withstand Thunderbolt after it was increased by 200%!

“Hiss!”

“Hiss!”

“Hiss!”

Unknown whispers hovered around Yun Xi’s ear, and the king raised his hand with one hand. He first flew to the sky, and the next second he fell like a meteorite.

Knight’s Martial Art: Justice Judgement!

The fierce impact from the sky hit Yun Xi accurately, penetrated his internal organs and turned his whole person into ashes and rose all over the sky. This was the fatal blow from the angry king, the Justice Judgement from a father!

Besides the bonfire in the garden.

“It’s really tough.” Yun Xi gazed at the burning bonfire and listed the mistakes he had made.

First of all, he looked down upon the king’s battle power.

Although it looked like a corpse, it was definitely a corpse that was more powerful than the black axe monsters in the Forgotten Ruins.

Secondly, he neglected the power of the Sacred Revenge.

It could release the thunder of judgment and paralyze the target’s body.

Rebound all damage by 200%.

Although the king had degenerated and the Sacred Revenge had been contaminated by the power of darkness, but the god weapon’s power wasn’t being weakened at all.

Finally, the power that led to the king’s degeneration.

His body looked like a corpse, but had essentially been eroded by unknown black substances. There was no flesh and blood beneath the skin of the corpse.

It seemed that human nature had disappeared from the king.

When Yun Xi's Soft Water Palm penetrated into the king's body, he felt as if he was hitting on a statue with numerous holes.

Soft Water Palm could do no harm to the king's body.

Thunderbolt would be rebounded by the king's Sacred Revenge.

Maybe the king had weaknesses when he was still a human, but now, he was completely invincible.

"Is he really invincible?" Remembering the feeling when his Soft Water Palm hit on the king's body, Yun Xi wondered.

Maybe the king still had memory and wisdom, Yun Xi felt that the seemingly infatuated king had embarked on the road of no return.

The power of the abyss was devouring his life.

The king now was like a torch burning his soul, releasing the last light of his humanity.

It was such a crazy and powerful king that Yun Xi would defeat.

“Give it a try.” Once again, with the Crane Wings Twin Swords, Yun Xi stepped into the demon’s palace.

“Ga!”

“Ga!”

“Ga!”

Among the screams of crow doctors, Yun Xi once again went inside the palace, which had been covered by endless internal organs.

Sitting high on the iron throne, the living corpse stood up again.

“You’re here, my unfilial son.”

“Accept your father’s verdict!”

This time, Yun Xi carefully looked at the king’s face.

It wasn’t his delusion. The darkness in the king’s eyes had increased and the black paradises shuttling through the empty eye sockets had become more vivid.

The knight's shining armor was turning into the same color as the surrounding internal organs, and the stick representing the supreme power of the kingdom was shining black runes.

"Sacred" had lost, only "Revenge" remained.

"Bomb!" Without any words, the degenerated king charged towards Yun Xi again.

Sidekick!

Sidekick!

The two chose the same skills. Rigid Body vs Sacred Revenge! The scene before was repeated.

Relying on his Rigid Body, Yun Xi didn't fear the king's sidekick at all.

Since the Soft Water Palm can do no damage, then why don't I try to use pure strength?

Lava breathing? Lava skin? Iron Blood? Yun Xi didn't need to learn these at all.

Because he himself was a "Rigid Body", an ultimate fantasy!

This was the first time that Yun Xi really and truly applied this talent after he obtained it.

Obviously, the opponent this time had the characteristics that were strong enough to compete with his Rigid Body.

Although the king's wisdom, humanity and even memory were failing, the degenerated king was indeed one of the strongest opponents Yun Xi had ever encountered.

Without human flesh and blood, his weaknesses as a human had also disappeared. He was more powerful and terrible than when he was a hero ranked human knight.

In some sense, the king was a monster-like opponent.

No matter how he obtained the strange power and how long he could maintain it, power was still power, Yun Xi couldn't make the battle become easier.

This was a match of strength and strength!

[Chapter 659: Sacrifice](#)

"Boom!"

"Boom!"

"Boom!"

It sounded not like a battle between human beings, but rather like a natural disaster, an earthquake, or a volcanic explosion.

This was the battle between two monsters.

Like a blazing flame burning.

Like a wild thunder running.

Like the dry earth roaring.

Like a whistling storm raging.

Rigid Body symbolized the most original and violent force in the world.

Carry all before one! Because the Rigid Body itself was the strongest and hardest substance in the world.

What just hurt Yun Xi's Rigid Body wasn't the blow of the sacred stick, but Yun Xi's own Thunderbolt.

The king's armor of revenge could bound back everything, but it needed a special ceremony to launch it.

The three revolving black turtle-shell-like unknown objects were the signals of the launch of the king's Sacred Revenge.

Apparently, Yun Xi wouldn't step into the same trap again.

"Ha ha!" The king used the Sacred Revenge again, showing a mysterious smile on his face.

I won't be defeated by the same skill twice!

Yun Xi changed from the Rigid Body to the Soft Body.

This process took a little time, but since the king was using the Sacred Revenge, he naturally couldn't take this advantage to attack Yun Xi.

With clever footsteps, Yun Xi didn't retreat but directly dashed towards the king and entwined his arms around the king's neck.

Sacred Revenge could rebound all attacks, but it was only a linear reflection. If he was strangled to death, the Sacred Revenge could do no use to save his life.

With both hands pressing on the king's head, Yun Xi turned over in the air and rode on the king's neck.

It looked like a children's play "Knee Rides", but it was actually a true game of death. As long as the king showed a little careless, Yun Xi's legs could strangle him to death.

With a twist of his waist, Yun Xi displayed the death strangling skill that only humans who had Soft Body could perform, pulling the king's body down to the ground.

"Ga!" The king's neck was twisted into a strange shape. Even his powerful force couldn't break away from the deadly strangulation. Instead, it became an assist force for the strangulation.

If the king was still a human, the strangulation was enough to kill him.

The three revolving turtle-shell-like objects disappeared, and the time for the skill "Sacred Revenge" had passed.

The king got up in rage and lifted up the stick in his hand. The stick emitted the sound of thunder, the sound of verdict.

"Go!" Yun Xi's body turned over in the air and stepped on the palace's ceiling.

Switch the Soft Body to the Rigid Body!

"Boom!" With the king's stick as the center, innumerable lights burst apart and exploded.

Yun Xi had switched the Soft Body to the Rigid Body. He stepped on the ceiling with both feet and put his hands in an up-and-down position.

Oh, the Sacred Revenge entered its cool-down time, you can't use it now! Then take this!

Thunderbolt!

The same sound of thunder echoed. Only one side relied on the strength of a god weapon and the other side relied on the power of the Battle God's Seed.

Countless electric currents broke out and the pillars that supported the palace fell one after another. In the continuous explosions, one figure was blown up into the sky while the other figure was bombed into the underground.

"Cough... it's still beyond imagination..." Yun Xi crawled up from the ruins of the palace.

This time, his Thunderbolt wasn't bounced back, but he was directly hit by the king's Sacred Verdict and his body was paralyzed for more than three seconds.

If he was an ordinary hero ranked being, he'd have been killed ten times!

The king was far stronger than the crow doctors!

"I won't admit it!"

"I won't let you have her!"

"She's mine! mine!"

From the ruins of the palace came the mad king's roar.

More black air was rising from the palace's underground.

"I sacrifice my legs, the great thing, give me more power!"

Yun Xi frowned. His Thunderbolt indeed hit the king's legs just now, but under the protection of the armor, the king's legs shouldn't have been broken.

Why do you sacrifice your legs so simply? Is that queen that I haven't seen really so important?

The blood moon shed a hazy moonlight to the king's body in response to the mad king's call.

"Arrrghhh!" The king howled even more wildly and crawled out of the ruins.

As he crawled, the armor on his feet began to be corroded and eventually turned into dust by a great stream of black air.

Yun Xi could even see one black hole after another appeared on the king's gray-black body as if an invisible flame was burning his body.

After losing his legs, the king didn't weaken but became more powerful. Even the size of his body was incredibly growing, from about one meter tall to five meters tall. Now he looked like a giant, and his body was still growing.

"Yes, that's the power. That's the power that even demons would feel fear! That's the power of gods!" The king was intoxicated with this immense power. The black paradises in his empty orbit became more and more vigorous, in sharp contrast to his withered body.

The armor of revenge, which once represented the glory of the kingdom, was peeled off bit by bit from the king's body, symbolizing that the last knight of the kingdom had fallen completely and wasn't even qualified to wear the armor "Sacred Revenge".

The Sacred Stick, which represented the glory and power of the kingdom had also changed from the shape of a stick to the shape of a sword stained with black flames.

#### [Chapter 660: Precursor](#)

"Ah ah ah ah!"

Under the bloody crescent moon, the king's madness increased!

Eerie black devil worms kept shuttling through his eyes. Dense corrosive holes appeared on the dry and withered skin.

If the burning of fireworks was regarded as a process, there was no doubt that the degenerated king was in the most violent stage of burning.

His knight skills had long been forgotten, and were replaced by more and more frantic fighting and killing instincts.

Without legs, and there was no need for legs, even though he could only crawl on the ground, the king was faster and stronger than when he was a human being.

“Boom!” The king brandished the black sword in his hand, and the black sword more than three meters long blew up strong winds in the ruins.

Without any skill but just a simple slash, the sword’s power wasn’t inferior to the legendary sword skill: Blade Storm.

This was the king’s power. Now the degenerated king could be called a moving disaster, the incarnation of the nightmare.

“Oh, brother!” Dashing away from the king’s attack range with all effort, Yun Xi once again gathered the strength of his whole body.

The sound of blood echoed in Yun Xi’s body like a storm.

The Battle God’s Seed was releasing more and more power.

Nothing could exercise a person more than a battle to the death.

Under the threat of the degenerated king, Yun Xi broke through the limitations of his body over and over again, evolving toward a higher level of the Rigid Body.

For others, they would be exhausted before they could reach a higher level.

Miracles are not without cost.

Most of those who activated the potential of their lives could no longer stand up after they created miracles, because they had overdrawn all their vitality.

The human body had its limits. The cost of breaking those limits was often life itself.

However, Yun Xi had something to pay for it.

The Battle God's Seed.

The seed from a legend, Casina the Battle God!

It was like an extra core of power, which stored an amazing amount of energy from Casina. The energy could be used to protect Yun Xi and improve Yun Xi's combat power when he needed it.

It couldn't improve Yun Xi's talent, however, it could pay the price which Yun Xi should pay by using his own life force originally. With the Battle God's Seed, Yun Xi could perform all the skills he had mastered without worrying about the limit of his body. Before he exhausted all the energy in the Battle God's Seed, he was nearly invincible!

Originally, Thunderbolt was an ultimate skill that would extract all the energy of the body.

Only Yun Xi, who had the Battle God's Seed, could perform this ultimate skill over and over again.

The third Thunderbolt was far stronger than the previous two. The white thunderball appeared between Yun Xi's hands emitting bright lights, looking like a small sun.

"Taste this!" Locking the king's giant-like body, Yun Xi unleashed the most powerful Thunderbolt he could release.

The white ball of light struck on the black sword, blowing up endless bright thunders and lightning, illuminating the entire ruins of the palace.

"Unfilial son!" The king's reason, humanity, and wisdom were all disappearing in a mad way. At these prices, he had gained a power that was far beyond the limits of any human being.

Even though Yun Xi's Thunderbolt could kill any hero ranked beings in an instant, it couldn't break through the king's defense! The king's body only shook for a few moments, then he had stood firm and kept his footing.

Without pain.

Without flesh and blood.

In exchange for power, even his soul was burning like firewood.

The king roared, and once again raised the black sword in his hand.

Endless air of the abyss wrapped around the black sword with palpitating death breath.

Slash!

A crack over ten meters long appeared on the ground of the ruins.

One crow doctor after another climbed out of the black crack and made creepy screams.

“Ga!”

“Ga!”

“Ga!”

It's too difficult! Even from the most optimistic point of view, Yun Xi didn't think that his Rigid Body could withstand the attacks from such a sword.

The sword's power was probably ten times stronger than his strongest Thunderbolt!

Now the degenerate king didn't need the Sacred Revenge to rebound Yun Xi's attack. He could easily kill Yun Xi with one brandish of the black sword.

Maybe I can also let my Rigid Body level up? Yun Xi thought for a moment, then shook his head. No way, there was no possibility for him to strengthen the Rigid Body to a brand new level in such a short time as this was needed.

Even though his Rigid Body was a god-like talent, he couldn't upgrade in one stroke.

In a sense, the degenerated king did obtain the power he dreamed of after he sacrificed his body and even burned his soul.

This was not without cost.

Yun Xi could see with the naked eye that there were more and more black holes on the king's skin and the black parasites lodged in his eyes even drilled out of his orbit and wrapped around the king's head.

Apparently, the power the king had now couldn't last long.

However, the king didn't have enough self-consciousness to stop.

Like a boulder falling from a high mountain, the faster he fell, the stronger the gravitational potential energy he could obtain, and the more tragic death he would have.

No, perhaps not death, but complete disappearance, because the king should have died long ago.

“Give it a try...” Faced with such an enemy who couldn’t even be killed by his Thunderbolt, Yun Xi could only try to take his foot in a new realm.

Now he may be able to use a more powerful and mysterious skill than the Thunderbolt.

The Crane Wings Twin Swords flew beside Yun Xi.

They felt something that began to wake up gradually from the deepest part of Yun Xi’s body.

“Start Calculation!”
