

## Chapter 341 Go There

Almost all the people from the Green Group went back inside, leaving behind only a receptionist who was clad in professional clothes.

With a polite smile, she said into the microphone, "Hello, to all the doctors present here, I am honored to show you around our biological laboratory. I hope to see you work with us. Please follow me. Let's start off with the main equipment we use first."

As she spoke, she got moving.

The doctors followed her immediately.

After all, this was their rare opportunity to get in touch with top companies, so their curiosity was piqued.

Leilany pretended to look excited, but slowly, she retreated to the end of the queue.

She held Melissa's arm and whined endlessly. "Melly, my father is so cunning. There's a guide who can show us around the lab, but my father specially arranged for me to lead the team."

"Maybe Mr. Cooper is the one who arranged it," Melissa said in a low voice. "Just let it go. Don't assume things. We can eventually find out what's happening."

"You are right." Leilany nodded in agreement. She turned around to look at the tall figure behind her and patted him on the shoulder. "Dr. Wilde, just stay relaxed. I'll protect you."

"Okay." Lukas raised his eyebrows and played along with her joke. Clearing his throat, he said, "Then I'll rely on you today, Dr. Green."

"Yes, you are free to do so."

Then Leilany waved her hand in a bold and dramatic manner.

Amused by their conversation, Melissa covered her mouth, stifling a smile.

It took them nearly two hours to get past some of the instruments in the lab.

The receptionist took the trouble to explain everything in a professional and detailed way.

However, most of them looked a little tired, and Leilany even leaned against Melissa's shoulder.

Melissa couldn't bear the weight, so she suggested in a low voice, "Leilany, go and play your role. Communicate with the receptionist and let her know we need rest."

"Good idea."

With that, Leilany moved forward to the receptionist.

"Well, hello, can we get some rest first?"

"Okay, sure." The receptionist was quick to oblige. She went on in a polite tone, "Miss Green, there is a rest area in front of us. I'll take you there right now."

Seeing the employee of the Green Group treat Leilany with so much respect, the other doctors widened their eyes in shock. There was no doubt about Leilany's identity.

Those doctors' faces became pale and drawn. Eugenia and Maria, who had been stirring up trouble, were particularly shocked by this. Their mouths were agape and words wouldn't come out of them.

They were in the Green Group. If they said something more, as they intended to, they might get into serious trouble.

But Leilany didn't care about their reaction. She walked over and sat down directly.

"Melly, Lukas, come here and join me."

"You don't have a good physique." Melissa sat next to her and joked, "You

should learn something from Lukas. Look at him. He has even performed a small operation earlier today, but he doesn't look tired at all."

"Well, I can't help it."

While the three of them were talking, the doctors in the rest area began to gossip again.

"Well, it's worth it. I not only met the chairman of the Green Group, but also saw Everett at a very close distance. He is so handsome."

"He is rich and handsome. And the best thing is, he is single."

"Who do you think he was looking at before he left?"

Everett's assistant who came here to invite Melissa overheard this conversation.

He was overcome by an urge to laugh at them. His boss had feelings only for Melissa.

He walked quickly to her and said, "Hello, Dr. Sherman. Mr. Green and Mr. Mayfield wanted to discuss something with you and Dr. Wilde."
