

Chapter 487 Leilany Had A Car Accident

Initially, Melissa had assumed that Mona was requesting a salary increase, but she didn't expect that Mona would think the annual salary was too much.

The love for money was, after all, universal. For a few moments, Melissa thought differently of Mona.

Melissa was right about her decision. Mona was indeed an honest and simple person.

"It's all based on your work, Mona. Since you're employed by the Mayfield family, you won't have to worry about salary issues."

"Still... I'm only hired to protect you, and I can't do much else for you. If I were to accept such a large amount of money, I would be overcome with guilt."

"I set this salary for you myself, and I won't take the money back."

Melissa was firm in her reply, cutting Mona off before she could say anything more.

At that moment, Melissa's cell phone rang.

Upon picking it up, Melissa discovered the call was from a landline number.

"Hello. Do you know Leilany Green? Is it possible for you to come to the hospital?"

The sudden mention of Leilany and the hospital caused Melissa's mind to go blank.

"What happened to Leilany?"

"She was involved in a car accident. Do you think you could come over?"

"Oh no! How serious is it? Is she okay?"

"I cannot disclose the details over the phone. Come down to the hospital please. If you are unavailable, I will reach out to her other friends. Also, if at all possible, please assist me in contacting her parents."

"Alright."

After ending the call, Melissa's face became pale. Everett, who was sitting beside her, noticed something was amiss and pulled Melissa into his arms.

"What has happened?" he asked.

Melissa was visibly shaken, with a pale face and trembling body. She looked up at Everett. "It's Leilany. She was in a car accident..."

Melissa shivered as she spoke, tears streaming down from her eyes.

Considering Leilany's young age, it was unbearable to imagine something terrible happened to her.

Upon hearing this news, Everett was also taken aback. He wondered why a car accident occurred so suddenly.

"Have you done something to upset anyone recently?"

"No."

Melissa was extremely worried about Leilany and was unable to think about Everett's question.

"No way!"

Melissa promptly got up and headed back to her room to change what she was wearing.

"Where are you headed?" Everett asked.

"I have to go see Leilany."

Upon learning Melissa was going to visit Leilany, Everett became nervous.

"You're having difficulty walking. How do you plan on going to the hospital?"

Everett reached out and held Melissa in his arms, preventing her from leaving.

"But..." Melissa was on the verge of crying out because she was so worried. "Leilany is still at the hospital and I need to find out how she's doing!"

"It's possible for you to visit the hospital, but I must be the one to drive you there."

Everett was concerned about Melissa as she was unable to stand firmly and incapable of driving to the hospital. He was anxious about the possibility of another unfortunate incident occurring.

"Alright."

Melissa entered the car feeling upset, and Mona joined her in the back seat.

"Mona, I am heading to the hospital to visit my friend. You can return; there's no need to accompany me."

"No, you've paid me generously, and it's my responsibility to work for you. As your bodyguard, I should be available to you all day, every day. Additionally, given the large number of people in the hospital, it's important to have someone by your side in case of any potential incidents or emergencies."
