

Chapter 13 Mistakes Started Four Years Ago

Everett always kept his words. Early the next day, it was reported nationwide that Earley Corporate had been in a state of shutdown. The demolition team had arrived at the spot, waiting for Everett's command.

He repeatedly dialed Melanie's number, but none of the calls went through. "Well, Melanie, you are quite a composed person, huh?!"

With his command, "demolish," Earley Corporate was blasted and the giant structure collapsed. Everett destroyed the only thing Melanie left, leaving nothing but debris.

The media was in an uproar. The media dug up the marriage between Everett and Melanie, and rumors ran rampant. Just how deep was his resentment that made he demolish the only property left behind by his ex-wife?

No one knew the answer. Even Everett himself did not know.

Standing on the top of the cloud-kissing building, Everett looked down at the ruins of Earley Corporate, his heart ached inexplicably. 'Melanie, even that can't make you show up?'

Next, it's your sister's turn...

"Mr. Connors, we've investigated it thoroughly." The assistant hurriedly rushed over, panting. "The reason why Vivian Jacob divorced Ander Wyatt is indeed because of her affairs with Ander's brother, which was discovered by

Ander and forced her to divorce.”

“After their divorce, Ander’s brother refused to marry her, so she...”

The assistant hesitated to continue.

Everett’s body trembled slightly, and his eyes hid an immense anger. Ander’s brother refused to marry Vivian, and that’s why she came back to him!

“What about... that matter happened four years ago?” Everett regained his composure.

“Vivian’s parents said that it was because Connors family was not prestigious at that time, and Ander Wyatt happened to confess his affectionate to Vivian...”

“Vivian Jacob had no guts to ask for break up, but she knew Melanie had crush on you, so she drugged you two...”

The assistant’s words crushed Everett’s nerves, and his head ached like it’s gonna explode. He felt as if his heart had been ripped apart, and his eyes turned red for the first time.

He had really misunderstood... Melanie.

The scenes of the night four years ago emerged from Everett’s mind. At that night he took Melanie’s virginity, and when they turned sober, she cried and was completely bewildered.

But instead of blaming him, she explained and apologized repeatedly, telling him that she really had no idea what had happened. She had no idea why they would

wake up on the same bed.

Perhaps it was her apology that made him take for granted that it was her fault.

The next day, when Melanie's parents forced him to marry her, he was even more convinced that everything was plotted by Melanie.

In retrospect, Everett found himself so stupid to think it was plotted by Melanie. She was just a pure, innocent girl at that time. How could she plan everything so meticulously?

Why was he so stupid to believe Vivian and her parents?

"Mr. Connors." The assistant's voice brought Everett back to the present.

Everett's usual arrogant face showed a hint of defeat for the first time. He looked at his assistant with a heavy heart and asked, "Does my wife know about this?"

For the first time in four years, he called Melanie his wife.

Even the assistant was surprised and paused for a moment before replying. "Yes, madam found it out as soon as Vivian came back."

"Why didn't she tell me then?" Everett muttered, as if asking his assistant, as if asking himself.

The assistant remained silent, knowing that Mr. Connors probably had a clearer understanding of the answer than anyone else.

Melanie loved him so deeply that she couldn't bear letting him be hurt. Melanie was the most strong-willed woman had ever met, and she was also the one who loved Mr. Connors the most.

As Everett's assistant, he knew best how Everett had been treating Melanie over the past four years. No wedding was held, and no witnesses for their marriage. Even their marriage certificate was handled by the assistant on Everett's behalf.

In the following years, the assistant witness how Melanie transformed from a noble lady to an ordinary housewife.

As the only daughter in Earley family, she was cherished by her parents, and was well protected from any harms or evils.

Four years passed, and Connors family rose and became the leading enterprise. Yet, Everett didn't value Melanie at all. He never brought Melanie to attend banquets but other women. Neither did he attend the funeral of Melanie's parents.

But Melanie never expressed any complaints to Everett. Even when she knew that she had been wronged, she still chose to remain silent to protect Everett's pride.

"Release Ander Wyatt from prison. Hand over Vivian and her parents to him!" Everett ordered, his voice heavy with coldness.
