After knocking down the senior brother with a single punch, he didn't stop and dashed straight towards us. The three of us hurriedly got into position, while the master sat cross-legged on the ground to recover his energy.

However, the amount of Essence I had just expended was simply too intense, and it would be difficult to recover in a short period of time. I clenched my claws tightly, and senior apprentice sister took out her copper coin sword. Senior apprentice brother Juul grabbed at it with both of his hands, faintly feeling that the aura around him was changing, and that the burly man seemed to completely ignore us as he walked over like a gust of wind.

With his height of around two meters, the three of us were like weak children in front of him. Seeing him in front of me, I activated all of my fox blood, and in an instant, a strong aura squeezed out from me. My hair stood on end, my skin had turned a deep red from the extreme impact of the blood, and my entire body was emitting a strong killing intent.

The burly man stopped and said with slight surprise, "Oh, not bad." Before he could do anything, I lunged forward, thrusting the staff straight into his throat. I used all my strength in this blow, trying to knock him down with a single blow, the staff almost piercing into him with a shriek, only to see him reach out his right hand unhurriedly, his thick palm blocking the staff. I quickly pulled back, bending over to swing it at his knee.

"Dang!" I felt as if I had hit steel, my knees were an extremely weak part of my body, I didn't think that he would have such a miraculous skill, could it be that his entire body was covered in this, I secretly breathed in, and the pair of Ghastly Bats in my hands flew up and down towards his face, the big man waved his arms left and right, neutralizing my attack. Just as the big man was focusing all of his attention on me, my senior sister stabbed his soft ribs.

The big fellow seemed to be hurt by my sword. He groaned and actually took a step back. He seemed to be afraid of the bronze sword. Senior Sister and I attacked from the left and right and made him continuously retreat.

There was no response when our weapons hit him, as if he were a machine made of steel, a mistake, I made up for it, and he grabbed my wrist, and I knew it was no second, and then I heard a smirk, and his other hand caught my neck, and his right hand grabbed my wrist and pulled hard, and there was a sharp pain in his shoulder, and did he want to pull my arm off? In this moment of life and death, the fox blood in my body was stimulated to the point where I had to fight him to the death. He exclaimed in surprise, then exerted even more force from his hands.

All of this happened in an instant. Before Senior Sister could react, a figure rushed over quickly. Senior Brother Juul raised his elbow and ferociously slammed it into his dantian. The burly man looked as if he was struck by lightning and released me with a muffled groan.

The man's dantian was the Qi Sea of the human body, and any expert would not be able to withstand a heavy blow to it. The man had clearly been heavily injured by Senior Brother Zue's attack, and was mumbling something as he glared hatefully at him.

My left hand was in severe pain as it drooped down. It seemed that it had been dislocated, and this burly man was really ruthless in his actions. If it wasn't for Senior Brother Juul distracting him, my arm would have definitely been torn off.

The big man stood up once again and took out a piece of talisman paper to place on his forehead. What did this mean? I took a closer look and sucked in a breath of cold air. The talisman stuck on his forehead was actually a Demon Summoning Talisman. What was he trying to do? Then he opened his arms and lifted his head and closed his eyes, and very quickly, all the black Qi from all directions was drawn towards him, all the way to his body, and there were countless streams of black Qi entering his body, his skin alternating between white and black, and the aura around him became even more terrifying, and the black Qi was advancing almost as fast as it could. He slowly retracted his body and opened his eyes, what kind of eyes were those, they were no longer emotionless and cold, but instead filled with a dense, sinister Qi, and devoid of humanity, and exuding an unconcealed ghostly aura, as if he had just crawled out from hell.

The first senior brother climbed to his feet and said in surprise, "What kind of monster is this?" Senior sister and senior brother Gür also walked over. The four of us stood side by side. The big fellow coldly laughed as he ran towards us.

His every step seemed to step on my heart, the powerful aura almost made us lose our lives, I almost had the illusion that the person in front of me was invincible, we had no way to fight back, this despair almost knocked me down, I took a deep breath and shook my head, the fox blood in my body was boiling, no matter if it was my body or my courage, I would be scared, if it wasn't for the fox blood, then I would have already been scared of myself.

He was like a spinning top between us, dealing with all four of us at the same time, but without any effort at all. On the contrary, the more we fought, the more we were shocked, and there was not a single weakness in his body, no matter where we hit him, his neck, his head, his dantian, his dantian, or his dantian, he seemed to be completely unharmed.

Countless amounts of black Qi emitted from his palm and sword. The Yang Qi of the bronze coin sword was extremely strong, the big man had absorbed too much Yin Qi, but the Yin Yang Energy that was present was extremely weak, and the copper money sword that was originally the bane of Yin Qi was now useless to him. Senior brother Juehe took this opportunity to jump up behind the big man and hacked his hands into the two ears of the big sized man, hitting a few large holes on the back of his head, but the big man did not react at all as if he was bitten by a mosquito.

The burly man pushed past his senior sister and extended his hand towards me. I took a step back, but that burly man didn't move an inch as he used his huge hand to cover the top of my head. I felt like I was being bound, and couldn't move an inch as I watched that burly man punch straight towards me.

Peng! I was punched on the head by the big sized man and was sent flying. When the big sized man's fist was about to reach my head, the fox blood ran all over my head, blocking a lot of the force from the punch. Even so, my head still hurt from the punch, my eyes were wide open, I almost vomited, and quickly closed my eyes.

Suddenly, a gust of cold wind assaulted me, the wind was mixed with a heavy baleful aura, an unspeakably powerful cold energy suddenly appeared beside me, even the ghost aura on the big fellow was suppressed. I slowly opened my eyes, and discovered that the baleful aura was coming from the body of the first senior brother.

From the looks of it, he seemed to be in extreme pain. Behind him, there was a large shadow, and something seemed to be baring its fangs and brandishing its claws, as if it was about to charge out and tear everything in front of it apart. The aura around Senior Brother Ju was cold and powerful, and it was definitely not his own.

Everyone quieted down and looked towards Shixiong Juyi. They only saw that he was constantly saying something, his speed was extremely fast, and his voice was soft. His Master frowned and said, "Evil God Talisman, how could this brat have such a thing?" The Evil God talisman, what kind of talisman is that? Just listening to the name is filled with evil, then Master told me that this kind of talisman is considered a forbidden technique, and that I can use this kind of talisman to invite the power of the Evil God from the heavens to strengthen my body, and this kind of talisman is only said like that, it is not really in the sky that I see, but is a space that mortals cannot reach. This kind of talisman is a concentrated existence of negative energy, and adding this kind of energy onto my body, it has a great impact on my mind and body.

Suddenly, he opened his eyes and glared at the burly man. His expression was completely different from before, and then the black shadows behind him suddenly separated into five parts, standing beside him. Immediately, ghost aura scattered in all directions, could it be the Five Devils? His Master laughed bitterly, "This kid is simply messing around." After he had finished speaking, he got up and sat back down.

Senior brother Juul and senior sister also walked over. My master said, "Juyi is now completely suppressed by the ghost aura, don't go near him. When the ghost aura on his body disappears, use your vitality to protect his heart veins, otherwise he will be completely replaced. By then, it will be too late to say anything."

The two of them clashed fiercely with each other, and in the next second, the two of them started fighting, and the only thing that could be seen was that there were ghost shadows everywhere, mixed with gusts of cold wind. It was as if there were countless evil spirits and ghosts fighting in this kind of battle, and their howls and screams were almost enough to break one's spirit, and Wang Tuzhang was so scared that he peed on his pants, as he lay on the ground trembling.

I asked my Master, "What do we do now, Master?" His Master smiled bitterly, "If I could recover half of my power and set up a Dragon Repellent Formation, I might be able to control the two of them. But now, I can only watch." I asked eagerly, "Is there no other way?" Not to mention whether he can get close to the body, even if he can get close to it, if he can get close to it, it will definitely anger the evil spirits on his body. When the time comes, the evil ghost will retaliate, and from what I can see, that black burly man seems to be able to control the evil spirits on his body, if not, with so much ghost aura on his body, ordinary people would have already become crazy.

His Master pulled him back. "Juul, if you want to go in now, you won't be facing the black-faced man alone, but rather the ghost aura on his body, which is becoming more and more dense in the middle of the battle. I'm afraid that he won't be able to differentiate between the two of us, and will disregard everything and attack you, and absolutely not let you go." I said, "I'll go." The Master said, "Neither of you are allowed to go." At this moment, a deep male voice sounded from behind him, "I think it's better if I go."

When I heard this voice, I immediately felt relieved. I turned around and saw Chang Tianba. His face was covered in dust, as if he had just come over.

"Master Chang, you're here?" Chang Tian Ba nodded his head lightly, "Yesterday, when you were calling out to me, I had already sensed it, but the aura you gave me was very weak, as if something had obstructed it. My guess is that you must be in trouble, that's why you rushed here so late."

His Master said, "It's fine even if we wait a little longer." Master Chang looked at his master and said, "You're not lightly injured." His Master said, "I'm thankful that I survived. This little injury is nothing."

Lord Chang looked at the fighting senior brother and the man and said, "Is it alright if we cut off their Ghost Veins?" Since you've come, then I'll have to trouble you to help me get rid of that black faced burly man. Remember, don't hold back. That person seems to have cultivated some evil technique and can no longer turn back. Master Chang said, "Don't worry, I've never known what it means to hold back." With that, he ran towards his Senior Brother and Senior Brother who were engaged in a fierce battle.

As I looked at Master Chang's figure, I immediately relaxed, and the pain in my body immediately followed. At this moment, I realised that what I said wasn't light at all, especially my confused state. I guessed that if I went to the hospital for an examination, it would definitely be a concussion.

Lord Chang walked over to the side of the black bearded man and bellowed. His voice was so loud that it scared all of us, who were about ten meters away. The black faced man and the senior both stopped to look at Chang Tianba, but then he coldly said, "Another helper has arrived. Take this opportunity, I'm in a hurry." The First Senior Brother did not speak as he closed his mouth and stared at Chang Tianba with a murderous look. Chang Tian Ba sized up the dark figure before saying, "You have such a large amount of ghost aura on you." Chang Tianba was around 1.9 meters tall, and with his imposing build, he was already considered outstanding amongst the ordinary people. He still needed to raise his head to look at the black-faced man.

The black-faced man chuckled, without saying a word, he suddenly shot straight at Chang Tianba, his large hands falling from the sky like a large bowl towards Chang Tianba. Chang Tianba did not dodge, and was actually grabbed by the large man's large hands, the big man laughed, and with the strength of his hands, his large hands were like small basins, his five fingers were as thick as a mace, and with the countless amount of ghosts energy in his body, he could even crush a stone.

The black-faced man tried to crush Chang Tianba's head, but Chang Tianba remained calm while my heart raced against his throat. Suddenly, Chang Tianba's forefinger and middle finger pressed heavily onto the big hole on the black-faced man's right arm, while grabbing onto his wrist, the black-faced man laughed and placed his other hand on Chang Tianba's head. All of this happened in an instant, the black-faced man suddenly roared and broke free from Chang Tianba's control, retreating to cover his ears.

The black-faced man looked angrily behind him. It turned out that senior brother Juyi had gathered the power of the Five Devils to punch him in the ear. No matter how hard his body was, his brain was still extremely weak.

After succeeding in his attack, the first senior brother didn't stop, he continued to rush forward, continuing his barrage of attacks. The Evil God's upper body was supported by the Five Devils, and the first senior brother was a master of cultivation, so I was unable to see his movements, but at this moment, the fox blood had calmed down so I could barely see it, and every single kick or punch landed heavily on the black faced man's body, causing him to be forced to retreat several steps. Chang Tianba had also joined the battle, and very quickly, the number of wounds on the black faced man was increasing, and soon, the number of wounds on his body increased.

Although Chang Tianba looked no different from a human, his fingernails were very different from a human's. His nails were not pieced together, but grew on his fingers, and at this moment, he extended them out like ten sharp knives, with countless knife wounds on the black faced man's body that he left behind. Senior brother Ju's attacks were like hammers, but slowly, I discovered that the endless attacks of the two of them were unable to break through the black faced man's defenses.

The Evil God would lend him his strength while at the same time endlessly exhausting his body. To be able to endure for so long, aside from the fact that Senior Brother Ju's body was very strong and long term, it was also because of the Five Devils' support. However, the Five Devils had to repay Senior Brother Ju with their help, so no one could afford to take such a massive amount of energy.

The black faced burly man's eyes lit up as he dodged Chang Tianba's strike. His hands moved like lightning as he grabbed onto Senior Brother Zunyi's shoulders, raising his right leg, and ferociously slammed his knee into the chest of the latter. Immediately, the latter's eyes bulged out, and saliva dripped from his mouth. Following which, the black faced burly man's knees struck against the chest of the senior brother, each strike containing the force of a brick.

As soon as his fingers touched the black-faced man's body, the black-faced man grabbed onto Senior Brother Ju's collar and suddenly turned around. He threw Senior Brother Ju at Chang Tianba, and with the black-faced man's strength and the weight of Senior Brother Ju, the black-faced man smashed Chang Tianba onto the ground.

His Master suddenly stood up and linked her hands with a seal. She placed the Divine Flame Talisman next to her mouth and took a deep breath to release it, and suddenly a pillar of fire flew towards the man, but in the next second, that man broke away from the raging flames, and saw that most of his clothes were already burnt, and a small part of his body was still burning, revealing his dark muscles. As if he did not notice, he continued to rush forward, laughing coldly as he grabbed his Master's collar and threw him far away.

Then he ran over to me, and before I could react, a hand grabbed my belt and whipped the whip from my waist. I swung it at the big man's face, and with a 'pa' sound, the whip left a mark on his face. I turned around and saw that it was Senior Brother Juul.

The black faced burly man was obviously angered by the whip, he tore apart the torn clothes on his body, at this moment, the ground suddenly shook, Pei Jin Ge shouted, "Mister Lu, the spirit vein has appeared."

The two huge stone pillars started to sink, causing the ground to tremble non-stop like an earthquake. Everyone present was so shocked by the scene that they forgot to fight. When the pillars completely sunk, there were two black holes left.

“What is this?” The black-faced man walked towards the two black holes, and we also walked towards them. We stood at the entrance of the cave and looked at the dark cave, it was as if it could swallow us whole. At the same time, waves of cold wind blew out from the cave, as if there were countless ghosts inside.

When Chang Tianba came over, his master rubbed his senior brother’s chest and took out a pill from within, “Fortunately, the ghost aura has not completely corroded my body, so I can temporarily protect my heart and veins. I’ll return to take care of myself slowly.” I saw that my Master’s expression was also bad. Senior Sister asked, “Master, how are you?” His Master looked at the black hole and said, “I’m fine, I just overused my inner force.”

The ground trembled and disappeared. It seemed like the two stone pillars had completely stopped sinking. After a short period of peace, a bird cry suddenly came from the black hole.

Then, a little blue bird flew out from the black hole. It was the one that we had seen when we first entered, and now that it flew out, it was accompanied by a warm feeling, causing everyone around to feel comfortable. Pei Jinge shouted in surprise, “Spiritual Pulse, Mister Lu, that’s a Spiritual Pulse.”

What? So the spirit vein we are bitterly looking for is this little bird? I think it’s like master, master said, “Spirit veins are formed by the concentration of spirit energy, they can change into anything. This bird is emitting an endless amount of spirit energy to nourish everything around it, it seems to be the spirit vein we’re looking for.” When the bird landed a few meters away from us, it tilted its head and looked at us. Wang Tuo Zhang ran over and said, “Master Xu, you said this bird has spiritual veins. Let’s grab it.”

His Master lightly said, “How could it be so easy to obtain a Spiritual Pulse? Captain Wang, please forgive me for being powerless.” Seeing his Master like this, Wang Tuo Zhang turned around and took out a large net from his bag, excitedly rushing towards the Spirit Vein. I saw his clumsy appearance and wanted to laugh. Just one net and you want to grab the Spirit Vein? He saw Wang Tuo Zhang tiptoeing towards the bird, his small eyes emitting a greedy light. He stopped two meters away from the spirit vein. The spirit vein was tilting its head as it looked at him, seemingly not afraid of him, but interested in him.

Wang Tuozhang whispered, "Be good and come with me. I guarantee that you will have something to eat and drink." Pei Jin Ge said to the black faced man, "Mister Lu, hurry up and snatch the spirit vein." The black-faced man expressionlessly looked at Wang Pai Zhang not moving an inch. Wang Tuo Zhang drew closer, as he felt that he had grasped a bit too big, and threw the net towards the spirit vein. The spirit vein flapped its wings and flew away, then stopped not far away, staring at Wang Po Zhang.

Seeing that the spirit vein had stopped moving, Wang Tuo Zhang moved his fat body closer to the spirit vein. I have some doubts as to whether this bird really has a spirit vein or not. Wang Tuo Zhang was determined to grasp the spirit vein, and Master could not stand it any longer. He said to him, "Captain Wang, the spirit vein is not something you can control. Don't waste any time." Wang Tuozhang ignored his Master and once again emptied his net. As expected, it was once again empty.

The bird seemed to be toying with Wang's seal, looking at him, looking at us, looking at Pei Jinge and the others, seemingly pondering something. It seemed that in this place, even if the bird wasn't a spirit vein, it would still be nourished day and night by the spirit vein, causing it to grow spirituality. Who would have thought that Wang Tuo Zhang would actually shake off his Master and throw the net at the bird as if he was possessed by a devil. However, this time, the net actually trapped the bird.

We all turned pale with fright. Wang Dazhang laughed out loud, "You deserve it! I, Wang Zhong, received the spirit vein! Hahaha!" As soon as he said that, the black-faced man ran towards him, as if he wanted to snatch the spirit vein. Wang Tuozhang was so scared that he ran back to us.

His Master then pulled Wang Tuozhang behind him as he said to Pei Jin Ge, "If we keep fighting like this, we will both be injured. Moreover, this place is too strange, and there might be some danger. Let's just give up."

Pei Jinge said to the dark faced man, "Mr Lu, look..." The dark faced man said, "I'll let you off this time, but that doesn't mean I'll let you off in the future. Sooner or later, I will obtain the Spiritual Pulse." With that, he turned around and walked away, with Pei Jin Ge fawning behind him.

Seeing that the dark faced man had left, I let out a breath of relief. This person gave me too much pressure, and just because of his terrifying strength, I believe that he hasn't used his full strength yet,

but he has already made us all fall over. Senior brother Ju is still in a coma from his injuries and the ghost aura has invaded us too much, and Chang Tianba is also injured.

Seeing that he didn't say anything, Li Jiannan and the old man walked over. Wang Tuo Zhang arrogantly said, "Well, let's consider this the successful completion of the mission. We can go home now." Li Jiannan looked at the bird and said, "Captain, is this bird a spirit vein? What's its use? Or how can we prove that it's a spirit vein?"

Wang Tuo Zhang was rendered speechless by the question. He was stunned for a long time before asking his Master, "Master Xu, are you sure this is a spirit vein?" His Master said, "It should be." Wang Pushang said, "Master Xu, you clearly said just now that this was a Spiritual Pulse." His Master said, "I've also never seen a spiritual vein before. It's just that you don't feel it. Do you feel that this bird is very hot when you hold it with your hands?" Wang Tuo Zhang said, "Yes, it's really quite hot. My whole body is burning."

Li Jiannan shook her head and said, "Master Xu, you must have confirmed that it was a spiritual vein because of this. This is too child's play. Birds are animals, so naturally they feel hot in your hands." His Master asked, "Then what do you think the Spiritual Pulse should look like?" Li Jiannan said, "The spirit vein should be made of a type of metal or mineral, so it should be a rock." His Master said, "You've never come into contact with spirit veins before, how can you make such a conclusion? Many things can't be explained clearly with your knowledge, and I didn't say that there was only one."

Wang Tuo Zhang's eyes widened as he asked in surprise, "Master Xu, do you mean that there are other spirit veins?" His Master said, "I only guessed so. Moreover, this place is really dangerous. Captain Wang, my martial nephew is already severely injured. If you don't treat him now, his life might be in danger." Wang Tuo Zhang thought for a moment and said, "Alright, Master Xu, we'll listen to you. Since we've completed our mission, we'll leave immediately."

The group of us walked back along the path we came from. Along the way, Wang Tuo Zhang was constantly playing with the birds. I asked Master, "Master, didn't you say that the Spiritual Pulse can't be moved? How could you allow Wang Tuo Zhang to take it away?" His Master said, "I also don't believe that a Spiritual Pulse would appear in the shape of an animal. Moreover, the Spiritual Pulse is naturally blessed by the heavens and the earth, so it can't be taken away that easily. This bird is probably just a Spiritual Object with an abundance of Spiritual Qi." I said, "So you're fooling him?"

His Master smiled and said, "Against this kind of person, we can't use force. After all, he has a certain background, why not trick him? Moreover, I can't guarantee that this is a spiritual vein, he said so himself." I looked at the happy Wang Pushang and secretly gave him a thumbs up. "Master, you're too

tall.” His Master said, “How am I tall? I was just forced. Remember, people can never be too tough. Being tactful is beneficial for one’s survival. If you can avoid offending others, then you won’t have to offend others.”

Even though several of his men had already died, and he had taken the initiative to sit down and chat with his master at night, it seemed that he was in a very good mood. The bird had already been put into his cage, and was eating compressed biscuits while drinking from bottled water, while Wang had a hint of drunkenness in his voice as he said to his master: “Master Xu, this really is all thanks to you. I can’t forget you, and of course, there are a few of your top disciples, all talented people in the country.

His Master smiled. “Captain Wang, you overestimated me. How could I have that kind of thought?” Wang Tuozhang said, “Don’t call me Captain Wang. I’m a few years younger than you, so just call me Zhang Gong. I have the cheek to call you big brother. What do you think?” I was in Senior Sister’s tent, quite a distance away. I perked up my ears when I heard him say that, and my goosebumps were all raised. He actually knew his own limitations and knew that he was thick-skinned.

Unexpectedly, his Master said, “Alright, here’s the seal. Then I’ll call you Little Brother.” Wang Pozhang said, “Big Brother, we’ll be brothers from now on, and we’ll be brothers through thick and thin. If anything happens in the future, just call me out and I’ll die for sure.” The two of them started calling each other ‘big brother’.

This Wang Tuozhang is thick-skinned, and I can see that he may still have hope for Master in the future. Master is also tactful, and I know that he is very annoyed with this Wang Dazhang, so I can happily call him brother. I said in my heart that Master is at a level that I can barely reach in my entire life.

Senior Martial Sister was combing her hair when she saw me shiver and asked, “Junior Martial Brother, what’s wrong? Why are you still cold when it’s so hot?” I said, “It’s fine. I just heard something I shouldn’t have heard.” The Senior Sister curiously asked, “What is that thing? Why can’t I hear it? There isn’t even a bird cry here.” I smiled and told Senior Sister about the conversation I had just heard. Senior Sister covered her mouth and chuckled. “Master is too interesting. I can’t believe that I would be able to meet such a person.” I said, “Our master said that it’s called smooth.” The Senior Martial Sister curled her lips and said, “Then you can learn. I can’t learn it.”

I asked, “Senior Sister, we’ll be going back tomorrow. How do you feel?” The Senior Sister said, “Not good, how could the mood be good after the death of the people who came together?” I said, “You mean the two from the archaeological team?” The senior sister said, “There are three of them. That’s three lives!” I remember, other than the two people who died from having their heads bitten off, there

was also the missing Han Tieniu. Think about it, in this kind of place, if an ordinary person lost his life, he would have already died a long time ago.

I said, "Ai, what a pity. He's quite a good person." The senior sister said, "It's quite good? How did you know?" I said, "How passionate! We ate and drank together when we left and took the initiative to ride in our car to chat with you. At least, it was better than being in a good mood than being in Wang Dazhang so we took out our tent. We even said that we forgot yesterday and that we would forget everything we brought. I didn't believe it." The Senior Martial Sister said, "Junior Martial Brother, do you know who Han Tieniu is?" I said, "Aren't they from the archaeological team?" The Senior Sister then asked, "Then who are the people in this archaeological team?" I said, "What else can an archaeological team do? They're all cultural people who study history." Senior Martial Sister smiled and patted my head. "You really must learn from Master."

I asked, "Then do you know who he is?" The senior sister said, "I don't know either, but I'm definitely not a cultured person. Let's talk about it tomorrow." I still wanted to continue asking, but the Senior Sister pushed me out of the room. "Junior Brother, hurry up and sleep. I'm not sleepy yet. It's easy for girls to get old if they stay up late."

After coming out of Senior Sister's tent, I walked around the place. After completing the mission today, I was actually in a rather relaxed mood, this place looked good, but was filled with hidden dangers, so I went back to my own place to have a good time. Master and Wang Zhu Zhang were still talking.

Li Jiannan was also there. She was making a few numbers on a tree. I walked over and asked, "What's the use of making this mark? We'll leave tomorrow." My sudden appearance scared her. After seeing that it was me, she calmed down and said, "It's you. I want to come back here and do some research in the future. Also, look." Then, she opened her own small bag and showed me a few plants, "I'm going to take these plants back to study. Although they are ordinary plants, they are clearly different from the plants outside. This might be the radiation from the spirit vein."

I wanted to tease her when I saw her serious expression. "Then you should catch an animal to study. Isn't that more intuitive?" She said, "You're right, but most of the animals here are mutated by radiation. Our team doesn't have the ability to catch those dangerous animals. We hope that we can bring a weapon the next time we come." I said, "Looks like you're interested in this place." Li Jiannan said, "Indeed, I'm very excited to see that giant mutated beast for the first time. This is something all biologists dream of. It would be great if I could bring an animal back for research." I said, "It's a pity the animals might not want to be caught."

Li Jiannan thought about it and said, "You're right, so next time, it's fine as long as you can bring in a large scale weapon." I said, "Comrade, the animals here didn't hurt you. Why do you hold a grudge? Why do you keep saying that you want to bring in large weapons?" Li Jiannan said, "You're wrong, I don't have the intention to kill them. I just want to do some scientific experiments. This is something that is meaningful to humans." I said, "I know what you're talking about. Isn't it just killing them and getting some data? I also killed frogs when I was young and was told by my grandma that I was guilty. I don't think your way of doing things is any different from mine."

Li Jiannan said seriously, "Scientific experiments are not just about killing. Science serves all of humanity. If your thoughts are still that far behind, then it would be too sad." I said, "No matter what, killing people isn't right. Those little mice in your lab, no matter who you offend, you will be the one to bring disaster upon them." "Sometimes, sacrifices are inevitable," said Li. I waved my hand. "Alright, I can't beat you." Li Jiannan said, "That's because your thinking was wrong."

Just as I finished speaking, I suddenly heard light footsteps nearby. Why would there be footsteps at this time? She quickly covered Li Jiannan's mouth and squatted down. She said in fear, "What happened?" I carefully followed the sound and walked two steps, but the sound disappeared. I took Li Jiannan with me and went back to my master, and before my master could even open her mouth, Wang Tuo Zhang patted his chest and said, "Don't worry, old bro. I'll keep watch for you guys and you guys can sleep in peace."

I looked at my master. How could this guy watch the night? My master saw my worry and said to Wang Tuo Zhang, "Brother, you must be tired after being busy all day. Let me do the night watch."

However, Wang Duo Zhang said, "No, you guys were the ones on night watch last night. My team leader can't just eat and not work. He'll have to be on the front lines forever." Hearing his words, I didn't know whether to laugh or cry. You're overestimating yourself, aren't you? I didn't think that my Master would say, "Alright then. Brother, tonight you will stand guard. I'll switch you to a little after one." Then he arranged for us all to rest in the tent.

I took advantage of the moment when no one was asking, "How can he be on night watch? He can definitely fall asleep." His Master said, "I know. You should wake up later. Maybe there will be trouble tonight." I nodded and looked around me. The silence was terrifyingly quiet. No one knew what kind of killing intent was hidden beneath the surface silence.

I went back to my own tent to lie down and closed my ears to meditate, not letting go of even the slightest bit of activity around me. Wang Tuo Zhang was humming around him, holding a bird cage in his hand, and looking at his elated look, he didn't even feel the slightest bit of danger, saying that this guy is really stupid, the more pleased I am with myself, the easier it is for me to relax my guard. Right now, Wang Tuo Zhang is like this.

Maybe it was because I was too tired and my master was still for a while, so I fell asleep while lying down and saw a blurry figure in front of me. It was a woman dressed in white, I couldn't tell her face from age, I could only see a rough outline, but that outline gave me a very familiar feeling, who is it, I chased after her, but my feet couldn't move at all, I wanted to lift them up and run, but my feet seemed stuck in the mud, I could only watch her go away, feeling anxious and sad, and actually woke up like this.

When I opened my eyes, it was dark outside. Only then did I realize that I was still inside the tent. I took a deep breath and wiped the sweat off my forehead.

I was thinking hard about who she was, but couldn't get an answer. At this moment, I suddenly heard a loud shout from outside, it was from senior sister, oh no, I rushed out, there were already several people standing near senior sister's tent, it was senior brother master and the rest. I ran over to see, senior sister's tent was torn apart and her sleeping bag was also damaged. She opened her eyes and saw that it was the grey haired monkey that I met in the cave. That grey haired monkey covered her mouth and did not let her make a sound as he dragged her out.

But there will always be a sound, Chang Tianba was the first to hear it, the grey monkey saw someone coming and left his senior sister, and ran, but Chang Tianba had already caught up with him, and upon hearing his words, my brain expanded in anger, that grey animal actually had such guts! I asked Chang Tianba in the direction he went, and went off with his demon claw, thinking to himself, I must teach this beast a lesson, I must beat it on its head, since master did not stop me, and senior brother Juul came with me.

Even though it was already dark, I could still see clearly, and Chang Tianba and the grey monkey had a special smell on them. Senior brother Jiu followed the smell, and very quickly, we saw Chang Tianba

standing there with a grey monkey crouching on the other side. It was the monkey that Senior Sister and I met in the cave.

It turned out that the grey monkey was talking to Chang Tianba, but this time it did not talk to him. Instead, it opened its mouth and said to Chang Tianba, "You're also a thing from the wilderness, what right do you have to interfere with me?" Chang Tianba said, "I'm different from you. You're an uncivilized scourge." The grey haired monkey asked, "You and I are the same kind of people, why did you help them? What benefits did they give you?" Chang Tianba said, "You and I are not the same. You have our unique conditions here that make cultivation difficult. I can give you a way out, but you have to promise that you won't appear in front of me again."

The grey haired monkey said, "Sure. In short, you will be leaving tomorrow. There will be other women coming in in the future." With that, he turned and ran into the darkness. Chang Tianba watched him leave before turning back.

The two of us didn't disturb him, and when he went back, we went around the place, but when we went back, we found that it was really bad, so it turns out that the grey monkey was trying to lure us away with the help of a tiger. After luring us out, a group of monsters that were half human and half monkey under his command rushed over and captured Li Jiannan.

When I asked him where Master and Senior Sister had gone, he just opened his mouth and couldn't say anything. I was so angry that I wanted to slap him twice in the face, but at this moment, Master and Senior Sister appeared supporting me, and I saw that Master and Senior Sister's bodies were covered in wounds, as if they had suffered a lot.

I hurried to help my Master, and asked him how he was, my Master panted and said he was fine, but at this moment, I saw the old man lying on the ground naked, twitching from time to time, and looking as if he was about to lose his life. I walked over to help him up, and since he was so old, how could he withstand the torture of these monsters? According to my Master, the sudden appearance of those monsters scared them, but soon, with my Master and Li Jiannan and my Senior Sister were not so lucky, and my Master and Senior Sister were able to take care of themselves.

Pity the old man and Li Jiannan, the monsters seemed to be more interested in the girl, and took away Li Jiannan, who was as scared as a wooden chicken. The old man also learned from Wang Tuozhang to hide in the tent with his butt stuck up, but who knew that those monsters didn't let him go, not only did they strip the old man, they even beat him up. Poor old man, he's so old!

It wasn't a good idea for such a big man to be naked, but his clothes and pants were torn to pieces from the inside out, so I had to put my own clothes and pants on him. It took a while for the old man to wake up and open his mouth to ask for water and give it to him to drink, and he had to take a deep breath before he opened his eyes and looked at us and started crying.

His Master said, "Li Jiannan was captured, so we can't wait like this. Quickly go and save her." I said, "But, Master, we only have these few people. How can we save them?" The Senior Sister said, "Don't worry, I have a way." As it turns out, Senior Sister saw that those monsters were interested in women, so she decided to attract the monsters' attention first.

"No." I said, in order to save someone I had just met, even if I was in trouble, I didn't want my Senior Sister to take the risk. My Senior Sister said, "This is the only way. I looked at my master, who thought for a moment and said, "There seems to be no other way. How about this, I'll be together with Xizhen. The three of you will be in charge of saving her."

Just as I was about to say something, my Master interrupted me and said, "It would harm Heaven and Earth if we do not save him. We cultivators value this even more. Stop talking and quickly leave." I sighed and prepared to go save him, but Chang Tianba and senior brother Ju E hurriedly caught up to me. Just as I was about to leave, Wang Dazhang came over and grabbed my master's leg, "Big brother, you can't leave me behind." His Master said, "We will come back immediately after saving you. You just wait here." Who knew that Wang Pushang said, "Big Brother, Jiannan definitely won't be able to protect herself any longer. Let's quickly run! This isn't a place for people to stay!"

Hearing his words made me want to laugh and be angry. Who the hell is this guy? He could even throw away the lives of his subordinates so easily. It was really a mystery what he was thinking. The Master sighed and pushed him away, "Captain Wang, that is a human life. No matter what, I will save it." Wiping his tears, Wang Tuo Zhang said, "I don't want to stay here. I'll go with you."

Master sighed and didn't say anything else. He just let Wang Tuo Zhang carry the old man and follow behind. Wang Tuo Zhang didn't waste any more words and just silently followed behind. We followed the footprints of those monsters and followed behind them.

The further we went, the darker the atmosphere became. I was secretly shocked, Chang Tianba and my master's faces were filled with nervousness, my master's eyebrows were knitted together, there was a cave in front of us, the cave entrance was very large, the inside was pitch black and there was only the sound of wind, the air here was heavy, it seemed like that group of monsters were here.

Reaching the cave entrance, his Master said, "There's no other way. Let's bite the bullet and enter." With that, he looked at Chang Tianba and said, "Bring Captain Wang to the entrance of the cave to receive us." I find it strange that my master would do this. Most of us are injured and extremely exhausted, but my master is extremely weak. Chang Tianba is the strongest person here, how could he possibly wait for us at the entrance of the cave?

Chang Tianba heard this and laughed, "Master Xu thinks of me as an outsider. I am indeed not the same as you, but I promised Old Madam Hu that I will definitely protect Sun Hao." His Master looked at him deeply, but didn't say anything. Wang Tuozhang also said, "I'm going too, I'm going too. Don't leave me behind." Master said no more and led the way. We hurried to keep up.

After walking for a while, the smell here became worse and worse, it was all the stinky smell of monsters and also the stench of urine. Senior sister frowned, I couldn't help but curse in my heart, that grey monkey knows how to speak human language, the place he lives in is actually so dirty, it is indeed different from a human's.

When we reached a corner, Master signaled us not to make any noise and squatted down. After squatting down, Master whistled lightly, and I was really surprised at what he was doing, only to see a figure swaying around the corner. That figure walked over, and before it could see us, Master's palm landed on its neck, and it softly fell onto the ground.

It's even on sentry duty, just like a human. I fiddle with the monster lying on the ground. The black fur on its face is very dense, and its short and muscular body is also covered with black fur.

I squatted down to pick off the fur on its face and found that its facial features were very similar to a human's. I even suspected that it was a human covered in black fur, and when my master saw my surprised expression, he explained to me, "This guy has been here for who knows how many years, so

it's normal for some mutations to occur. Furthermore, the Han TienNiu we heard in the cave is coming from them.

Just as I was about to go out, my Master stopped me and told us to hide in the shadows. He and his Senior Sister then tied up the Godly Armored Horse and firmly walked in. The sound inside first disappeared, then suddenly a series of sharp whistles came from inside, and my Master shouted, "Quickly run." He and Senior Sister both turned around and ran, while the rest of us hid in the corner according to the plan. Master and Senior Sister came out like the wind, their speed was extremely fast, followed by a large group of monsters behind them.

The monsters seemed to be very excited as they all ran out. I did some calculations and almost all the monsters ran out. Only then did Chang Tianba and the others enter the cave while the scene inside made my scalp tingle.

There was a huge space surrounded by rows of neatly arranged skeletons, some grass on the ground, probably used by monsters to keep warm, the air was filled with an unpleasant odor, at this time, there was only one monster inside, it was the grey monkey, it was lying lazily on the ground, beside it laid a naked woman, it really was Li Jiayan, the blood below Li Jiannan, already passed out.

It first looked at us in panic, then quickly calmed down. Senior brother Cue walked over to pick Li Jiannan up and covered her with his coat, and I walked over to the grey monkey with my staff in my hand. At this moment, my heart was filled with rage, and anyone could tell what it had done to Li Jiannan.

Who knew that just as I walked over, the grey haired monkey said, "You can't kill me." I coldly laughed and asked, "Why?" The grey haired monkey slowly said, "If you kill me, you won't be able to get away when the other fierce beasts come back. Besides, you've already been infected by the smell of this place, so they definitely won't let you retreat peacefully."

Extremely powerful species? I seemed to have some impression of this term. After thinking for a while, I suddenly remembered that when I was young, there was a murder case in our village, and it was said that the murderer was the fierce one, but that the murderer was a human, and he killed his own parents. The grey haired monkey hesitated and said, "These strong ones are completely under my control, so whatever I say, they have to listen to me, I am their master, so, you better not touch me.

My master and senior sister had the Godly Armored Horse, and it would be very difficult for those vile creatures to keep up with my master and senior brother's speed. Once they are left far behind, they would come back, and at that time, we would not even have the chance to run.

With that, Chang Tianba walked up to the grey monkey and twisted its arm. The grey monkey squeaked and struggled with all its might as I went up to control it. It cried out, "You cannot do this, I am the master here, they will kill you. Let me go." I swung the baton at its head and it didn't dare to make any more noise, and immediately there was a bulge on its head.

Holding the grey haired monkey in his arms, Wang Tuo Zhang nervously asked, "Where is Master Xu?" It seemed that his master was too important to him, as if he was reconstructing his parents.

After we went out, it was pitch-black outside. I stirred the fox's blood into my eyes, and only then did I see clearly that I was suddenly a little flustered, master and senior sister should be alright, the ground was a mess, we followed our footsteps and chased after them for a long time, but we could not find any trace of our master or monster.

"Damn it, where did they run off to?" I said flustered. The grey haired monkey said, "You can still let me go if you don't ..." Before he could finish his sentence, Chang Tianba chuckled and said, "Otherwise, even if we die, you won't be able to get away with it." After saying that, he stuck a finger into the grey monkey's neck with his sharp fingernail. The grey monkey screamed hoarsely in pain, "You bastard, why are you helping these humans? Have you forgotten your own identity? Don't think that if you help them now, they will treat you as one of their own. They will always be against you."

Hearing this, Chang Tianba blanked out for a moment before rolling his finger on the grey haired monkey's neck, "Cut the crap, these little tricks are useless to me." The grey monkey was in so much pain that it struggled for its life, but Chang Tianba's hand was like two iron pincers, not moving at all.

Following the footprints to a water source, I lifted my nose. There was the smell of my master and senior sister, as well as the stench of monsters. This was the place, but where were they? I wished I could see a monster, but there wasn't a sound of birds.

Along with the flapping of wings, a blue bird flew over. It was the bird that Wang Tuo Zhang had caught, and when the monsters had attacked, the bird's cage had also been broken. The bird had probably flown away at that time.

“Spiritual Pulse, it’s a Spiritual Pulse.” Wang Tuo Zhang pointed excitedly at the bird, which landed on a small tree not far away from us. It tilted its head to look at us, and when the grey monkey saw the bird, it reacted very strongly, and it seemed to be very afraid of the bird. It closed its eyes, stopped struggling, and curled up into a ball, trembling non-stop.

Wang Tuo Zhang put the old man down and slowly walked over. “Little bird, no, spirit vein, come here quickly. I’ll take you out.” At his words, the bird flapped its wings and flew away to the other side, and looking back at us, it kept shrieking, as if trying to lure us towards it. Wang Tuzhang ran up, as if it had discovered something, and most of the animals here were nourished by the spirit vein, not to mention that the bird itself could be the spirit vein. We looked and hurried to catch up, Senior Brother Juul carrying the old man, Chang Tianba dragging the grey monkey, but the grey monkey stayed behind and fought Chang Tianba with all his might, I anxiously grabbed the two hind legs of the grey monkey, and used them to lift it up like a stretcher.

I wondered what was going on with this beast, and how it got scared at times. It was rare for the bird to go and stop, and it seemed to be guiding us. After a while, we saw a shocking scene.

The few monsters in front, the ones mentioned by the grey monkey, were pushing a smaller monster down onto the ground and eating it. The scene was extremely bloody, and even I, who had always bragged about my mental fortitude, could not help but feel nauseous. I asked the grey monkey, “Aren’t they in a team? How do they kill each other?” The grey monkey said, “This is the nature of the fierce beasts, they are cruel and bloodthirsty, and they have a bad temper. If anything happens to make them angry, they will attack without a care for their own safety.” I said, “Why didn’t they eat you?” “That’s because I’m smart,” said the grey monkey. “I know where to find food, and I’ll take them to find it. So they treat me like a director.” I said, “Is there anything to eat here?” “Li species likes to eat a kind of grass,” said the grey monkey. “I call this grass the Immortal Grass. They’ll be very excited and happy to eat this grass, but they’ll eat it all at once when they see this grass. Only I can find this grass.” I said, “Then you control these monsters and ask them where my master is.” The grey monkey replied, “It’s not like they can’t speak. How do you want me to ask?”

I said, “Impossible. They’re the ones who lied to us in the cave.” The grey haired monkey said, “They can only learn how to talk like you guys, they don’t know what’s the meaning of this. Although there’s a spirit vein here, it doesn’t mean that all the animals that live here can talk. With that, he looked at Chang Tianba. Chang Tianba did not say anything, but used all his strength to twist the grey monkey’s arm, causing it to emit ‘ka ka ka ka’ sounds. The grey monkey let out a miserable shriek, and the monsters eating it turned its head to look at us.

Seeing the hideous faces of these monsters, as well as the bloodstains on their faces and mouths, and how terrifying the baring of their fangs and claws could be, the Asura Yaksha written in the ancient book was probably only mediocre.

After a few squeaks, the monsters stopped roaring and quietening down, but still continued to look at us with a scrutinizing gaze. I looked around me, and aside from the tranquil flowing water, there were no traces of anything else, I was simply going crazy. I pointed my claw at the nose of the grey haired monkey and said, "Since you can't find my master or senior sister, what's the use of keeping you here? I'll kill you, you evil beast." As soon as his voice fell, the surface of the water rumbled and two figures jumped out. They were their Master and Senior Sister.

At this moment, Master's face was pale and his body was covered in water, so when I touched his body, I couldn't feel a trace of warmth. Those monsters saw that Senior Sister was very excited and kept howling, eager to give it a try, so I knew that they wouldn't dare to move recklessly, as long as the grey furred monkey was in our hands.

Just now, when Master and Senior Sister ran out, they were chased to the side of the water by those monsters, that group of monsters seemed to be very afraid of the water, Master and Senior Sister held their breath and jumped into the water, the monsters didn't leave, so Master and Senior Sister could only go to the water to catch their breath every now and then, until we arrived. Senior Sister was fine, but because Master's body was too exhausted, he already couldn't last much longer, and we were afraid that the monsters would catch us if we came any later.

Looking at my Master and Senior Sister, I felt both heartache and anger. If it weren't for these beasts, Li Jiannan wouldn't have ended up in such a miserable state. My Master and Senior Sister almost lost their lives.

I pushed the grey monkey to the ground and used my foot to stomp on its chest. "Speak! Why are you pestering us for so long? What do you want to do?" The grey monkey wailed, "I just want to find a woman to give me a baby. I don't have any other thoughts. Please spare me." It seemed that the grey monkey was in heat. Just as I wanted to hit it, it said, "I had no choice but to spare me. There isn't even a female monkey in this group. I can only capture a human to help me give birth."

I said, "How many times have you done this?" The grey haired monkey said, "Not too many times, only five times. Today, I only have five wives. I originally wanted this beauty to be my wife, but that's fine. At least she can give me children." I looked at Li Jiannan who was still unconscious, and couldn't help but feel sorry for her. Although we had only known each other for a few days, I could tell that she was a simple and kind person who only thought about scientific research. She didn't know what sins she committed in her previous life, but her own body was actually tainted by a monkey.

I asked, "Then you're saying that before this, there were already four people who were your wives. Where are they?" The grey haired monkey said, "Those four wives are all beauties. They look really good, especially the first one..." Without waiting for it to finish speaking, Chang Tianba gave it a kick and it snapped out of its stupor. It honestly said, "After I caught them, I tried to get them to conceive my child, but they always wanted to run out. One of them ran away, while the other three slowly died. Thinking about it, that was true. Although this place had spiritual veins, it was still a wilderness after all. Who would be able to live together with these beasts?"

The grey monkey continued to say, "I treat them very well, give them whatever food they have and I learn how to speak from them. But they are afraid of me and my seed, so they don't dare to get close to me. They are too weak too. They died soon after giving birth, and my children are getting fewer and fewer." I asked, "Where is your child? Is he a human or a monkey?"

The grey haired monkey said, "My children are all raised by the fierce beasts. I can't tell which one is mine. Anyway, my children are covered with fur. But I know that my children are becoming fewer and fewer because I can't smell them anymore." I said, "Aren't you afraid they'll eat your children if you feed them up?" The grey haired monkey hesitated for a moment before saying, "Why did you eat my child?" I said, "You said it yourself, Li Si has an irascible temperament and has gone berserk, even killing his own people." Hearing my words, the grey monkey burst into tears. "I say, why can't I smell my children? My children, wuwuwu." She actually began to cry.

Seeing the grey monkeys crying, those few strongly-bred monkeys became very manic, constantly turning around, as if they were ready to attack at any moment. I said, "Sooner or later, you will be eaten by these strongly-brained monkeys." The grey haired monkey whined for a while and said, "The black hair on their bodies will fall off after a long time, and then they will be like you guys. They will slowly speak the human language and walk out, and some of the beasts will integrate into your group and have

children. Listening to its words, I vaguely remember something. Merging into the human race, could it be that the species I met in the past was transformed from this kind of black-furred monster?

I asked, "You said that strychnine will become exactly like humans and then live together with them. Can they also have children?" The grey haired monkey nodded and said, "Yes, other than the difference between their minds and humans, there are no other differences. Naturally, they can have children, and the children they give birth to are also the same as humans, but they are fierce, after all, their temperament is unpredictable, and once they go berserk, they will become crazy. Even their own biological parents and their own children will kill and eat meat."

I suddenly felt a chill. If that was the case, then it was very likely that they were living right next to us, but we didn't know anything about it. I hastily asked, "Then how do we distinguish between humans and raptors?" The gray monkey thought for a moment and said, "The first species that came in contact with humans would never admit their identity, because the opportunity to become humans is really too rare, and they and the children of humans don't know anything about their identity. In my opinion, the fierce species are a little more stupid than the humans, and the fierce species all want to have a lot of children, they will spend a lot of time letting the women of humanity give birth to their children, they will only think in this way."

The more I looked at them, the more I felt that their eyes were very similar to the eyes of humans. If we allow them to develop in this way, the species will slowly exhaust all of us. Could it be that the entire street will be filled with these monsters, and we won't be able to differentiate between them?

After resting for a while, Master recovered. His face was not as pale as before. "There are too many things that happened today. I also don't have enough strength. Let's hurry up and go out. I'm afraid there won't be anything else before daybreak." I nodded my head and prepared to lead the way. Chang Tianba held onto the grey haired monkey tightly so that the other elites wouldn't dare to do anything to us.

The grey haired monkey cried, "It's useless. Tonight, we're all going to die here." After saying that, we curled up into a ball on the ground. It didn't move no matter what we did, leaving Chang Tianba and I with no choice but to carry it away. At this moment, Wang Tuo Zhang said, "Ai, where is my bird, my spirit vein?"

At this time, I didn't have the mood to look for the bird. I said, "Hurry up and follow. Otherwise, I won't care if you leave me behind." As soon as he finished speaking, he started walking with his head in his hands. But as Wang Tuozhang walked back the way he came, his Master quickly pulled him back and scolded him a few times. He seemed to have sobered up a lot, and silently followed us.

The old man's vital signs were indistinct, he could die at any time. Only Chang Tianba, Chang Tianba, and I could walk normally, but we were only barely able to hold on. After going through all this, Wang Tuzhang's entire body was trembling, he was already sweating profusely, his fat body did not want to move a single step, he was just about to collapse at any time.

Thus, I carried Senior Brother Su, Chang Tianba grabbed the grey monkey, Senior Brother Gui carried Li Jiannan on his back, Master and Senior Sister took turns carrying the old man on their backs. Wang Tuzhang could still walk on his own, but even if he fainted here, I'm afraid that no one would be able to bring him out.

At this moment, I suddenly thought of an idea. I said to the grey haired monkey, "I told you to control the seed and carry us out. Can you do it?" "I'm not sure," said the grey monkey. "After all, I've never asked them to do it before." I said, "If you can let Li Zi carry us out, I'll find you a woman to be your wife." The grey haired monkey became excited after hearing my words. "Really? Then I'll give it a try."

After dawdling for a long time, a few tall fierce beasts finally arrived. Although they came over, they were still very cautious towards us, so I grabbed onto the grey monkey and didn't let it move around. This guy is very cunning, who knows if it will come up with any evil ideas.

After placing a few unconscious people on Li Si's back, just in case, I let Chang Tian Ba and Senior Brother Zu E carry Li Si, while my weak body's master and senior sister rode on Li Si's back. Wang Zhu Zhang wouldn't let Li Si's back even if he died, so I didn't bother to care about him as I used a rope to tie the claw of the grey haired monkey together with mine, clearing the way ahead.

After walking for a while, the grey monkey's originally listless look suddenly became excited, pointing to the front with chirping sounds. The fierce beasts also seemed very excited. They kept sniffing the air, and I said to the grey monkey, "What happened to you?" The grey haired monkey said, "There's Immortal Grass ahead. Quickly go, or else we'll run away." I said, "What grass can run?" The grey haired monkey said, "It's true, the Immortal Grass can run away. Hurry and go."

Following the gray-haired monkey's directions, we walked into a dark corner. The gray-haired monkey squatted down and searched around for a long time until he found a few ordinary looking grasses, which he stuffed into his own mouth. Then he began to chew with a satisfied expression on his face.

I said, "Is this grass so delicious?" The grey haired monkey said, "That's right. Not only is it delicious, but after eating it, you won't need to sleep or eat anything for a few days." I showed it to my master, who said, "It's a pity that senior brother is not here. Perhaps he can see that there's something special about this grass. Every blade of grass here has been nourished by spiritual energy all year round, so it should be different. But it's better not to try it." With that, he threw away the Celestial Grass and quickly picked it up. "If you don't eat me, I will eat it. Maybe I will live forever." He stuffed the Immortal Deity Grass into his mouth, chewed it, and said, "It doesn't taste anything, it's dry." Then he swallowed with difficulty.

When I saw his greedy look, I was annoyed and urged the grey monkey to move on. The grey monkey was very familiar with this place, and when I told him about it, he couldn't wait to find a woman for him to be his wife. He couldn't wait to go out for a moment, and I wondered if he would always be in a state of rut, and the grey monkey said, "If I don't want more children, how can I give myself to them when I'm dead?" I said, "What do you mean by giving yourself to a child?" The grey-haired monkey explained in a flurry of explanations, which probably meant the same thing as a human trying to pass on incense. I thought this monkey was both angry and amused, angry because it had harmed several women, including Li Jiannan, who I knew. The funny thing was that it had a simple and straightforward plan for itself, just like a child.

After walking for a while, the road became harder and harder to walk. It was already as dark as the bottom of a pot. I was anxious that I had delivered the safety of so many people to a monkey, a monkey with ill intentions toward us.

The Heavenly Fairy Grass seems to be really effective, the grey haired monkey, those few fierce beasts and Wang Tuozhang still seem to be full of energy, I'm a little regretful that I didn't eat some just now.

After walking for almost an entire night, the sky had already begun to brighten up. The grey monkey was panting heavily, and its monkey face had turned red. I suspected that its butt was already red like a fire, but the way out was still invisible.

I pulled the grey monkey to a stop. The grey monkey said nervously, "We can't stop. It's dangerous to stop. We'll die." I asked, "What danger?" The grey monkey nervously looked behind him. I also looked and saw that there wasn't anything following him. The grey monkey finally said, "It won't let you guys go so easily. It won't let me go either. Let's go quickly."

I said, "What is it? What did you say?" The grey haired monkey gestured frantically, "That's right, this one. Flying back and forth." I said, "You mean the bird?" The grey haired monkey then said, "Yes, the one you guys call the bird." I said, "What about it?"

The grey monkey said, "If we meet it, it will die. Quickly go, it won't be able to catch up." After saying that, I pulled my hand and walked forward. I looked at my surroundings. This place was unfamiliar and it wasn't a way out. I said, "Are you bringing us along? Be careful of me ..." Before he could finish his words, the shrill cry of a bird came from behind him.

When the grey haired monkey heard this, it started to squeak and whimper, and then it lay on the ground and started to wail. The grey haired monkey heard this, and started to squeak and whimper, and then it lied on the ground and whimper. The grey monkey screamed after I kicked it, put it on, and ran, but our hands were joined, and it nearly made me fall.

He used all his strength to hold it back, and the grey haired monkey kept kowtowing. "I beg you, please let me go. I don't want to die." Before I could finish, the bird's cry grew louder and louder behind me, and the blue bird flew over. I didn't know why such a small bird could make such a sound, but it seemed angry and kept shrieking at us.

When Wang Tuo Zhang saw the bird, he ran over excitedly. His Master shouted, "Come back here!" Wang Tuo Zhang acted as if he didn't hear it, and the little blue bird quickly pecked his head and ran away. Immediately, blood started trickling down from his forehead, and he miserably held his head as he laid on the ground.

What's wrong with this bird? The bird was standing on top of a tree, looking at us with its head tilted, and I vaguely felt a chill. It was actually the bird, and at this moment, everyone around was silent. I walked over to my master and asked, "Master, this bird is a little strange."

His Master said seriously, "Seems so, but I can't feel any evil aura from this bird. It's really strange."

Normally, the Five Thunder Divine Talisman had a huge reaction against evil things, and would try his best to repel evil beings. But facing this bird, the Five Thunder Divine Talisman did not seem to feel any evil energy, which was why it was so quiet. Master frowned and said, "Let's go, don't worry about him."

I nodded and pulled up the grey monkey. The grey monkey looked at the bird and said fearfully, "It wants my life. It wants mine." I was so angry that I kicked him twice, and then the bird suddenly flew up to Wang Tuozhang and screamed at him. Wang Tuozheng suddenly froze like a wooden chicken, motionless, his entire body as stiff as a statue, his two eyes staring blankly ahead. The bird called out to me twice more, and I immediately felt a terrifying force, a force so powerful I couldn't even breathe.

This feeling lasted for about a minute or two, but in fact, it only lasted for a few seconds, and then it came and went quickly and disappeared, and the feeling of being looked at was almost everywhere on my body, and when I woke up, my master and the rest of them were also distracted by the bird's cries, and the grey monkey and a few of the seeds suddenly started to run crazily after a short period of absent-mindedness, and the raptors left the people on their backs behind and ran off into the distance. The grey monkey bit the rope on his wrist, and I didn't stop it, because I felt the breath of death coming from it.

They ran in panic, and after running a few steps, suddenly, intense flames sprayed out from their bodies. Those flames seemed to have come from hell, and in an instant, the light blue flames had burned them into inert ashes, and very quickly, only a few piles of dust were left on the ground. The faint traces of burning in the air were slowly dissipating, and very quickly, all traces of their existence in this world were wiped away.

The bird stopped and flapped away like an ordinary bird, and for a long time my heart couldn't calm itself, not because the grey monkey had been burned to ashes, but because the feeling of being seen through was too real, too strong, and for the first time I felt so small under that power, my soul and body teasing me, don't resist, resist the command to anger him, even if I didn't know who he was, but I was just an ant before him, and at the same time he was so fair, as if the greatest justice in the world existed in him.

The grey monkey and the fierce species sensed something. They tried to escape, but presumably they also knew in their hearts that it was futile. Death was their only choice.

Master ... Master ... They gradually woke up from their daze. Wang Tuo Zhang was still in that position. I walked over and patted him on the shoulder. Then, Wang Zhu Zhang slowly turned his head. He saw me and screamed before fainting on the ground.

At this moment, the sun has already risen and those of us who are still conscious reluctantly bring those unconscious people out. This time, without the grey-furred monkey, we have found the way out very quickly, as if everything that happened just now was within the plans of someone else. We are just chess pieces in the hands of others, we don't have our own consciousness.

After we went out, we went to a nearby village and asked for help. We dared not speak carelessly and could only say that we were a group of tourists, but we ran into bandits blocking the way here. The villagers helped us find a car and also gave us some clothes and food.

On the way back, Master sat in the car and looked outside. He seemed to be thinking about something. I asked, "Master, what are you thinking about?" His Master said, "A lot. To be honest, these two days have left me too scared to even think about it. It seems like my dao heart is still weak. No wonder Master ..." "Sigh, let's not talk about it anymore. Haozi, just remember, no matter what happens in the past, it will be fine. Don't leave behind any shadows or regrets. It's useless." I replied, "Of course, I'm already very satisfied that senior apprentice brother and sister are safe and sound. However, I'm afraid that it will be difficult for them to live a normal life in the future."

The doctor said that it would be difficult for her to have another child in the future. The old man had suffered this disaster, his body was just a superficial wound, but he suffered a severe shock from that moment on, the doctor said that this was the aftermath of a great shock, Wang Dazhang was even more miserable, ever since they came out, he had vomited blood every day and continued to bleed all over his body, the doctor could not find out why, he even lied on the bed for a while, and when he got up, there was blood on the bed. In short, the best result for these people was to keep their lives.

In these few short days, I felt as if I had walked through hell's gates. Silly aunt and child are fine, while stupid aunt looks at people, but at least the child is still doing fine, Chang Tianba delivered us safely and left without a word. I didn't think that he would want to see my own child, since he is my own flesh and blood, but now, it seems that the Snake Immortal's temperament is so weird that he doesn't even want to look at his own child.

His entire body was riddled with bruises, especially his chest, which had a slight fracture in the sternum. After being bandaged up in the hospital, his master brought him back to his room and burned the brick bed hot every day. He smiled and said, "Today, I realized that this injury is also beneficial.

Senior brother Ju Ming is also in good condition. Although he can't wake up for the time being, his pulse is no different from a normal person's, and this is already the best result. Senior sister is only a little weak, and it only takes a few days for her to recover. After all, she's a cultivator, and her body's recovery ability is much better than a normal person's.

My master paid no attention to outside matters and wholeheartedly focused on the soup. My master did not know where he heard that the soup was very effective in the recovery of a patient's body, so he went to buy the soup every day. However, there were not many people who ate the soup, so it was quite hard to buy.

Upon hearing that Master Xu had returned, many of the old customers came to find Master Xu. No matter if it was the wedding or the wedding, as long as there was something that caught my eye, Master would always pass it on to me and Senior Brother Ju. Thus, we became god-like men, spending our days without rest, often running through this field and earning a lot of money. Every day, we would hear a lot of wails and make a lot of noise.

One day, a potbellied woman came in early in the morning, and a knock on the door woke me up. I looked at my watch and saw that it was only a little after six, so I got angry and went downstairs to open the door. The big sister came in with a potbellied belly, and there were still tears on her eyes.

"Big Sis, what are you looking for me for?" I asked slowly. This is what my master taught me, that I'm too young, that I don't have any hair on my mouth as the saying goes, and that I'm worried that others won't trust me and that I'll have to put in some superficial effort first.

The elder sister wiped her tears and said, "Are you Master Xu?" It was another person who had followed the fame of my master. I said, "I am not Master Xu, I am his disciple. My master has been in closed door cultivation recently and has instructed me to take care of everything." Big Sis said, "You must save me." After saying that, he kneeled down.

Big Sis's actions made me feel very embarrassed. Master told me before that when young people salute with older people, their lives must be cut short.

He hurriedly helped her up and said, "Big Sis, don't be like this. If you have anything to say, say it. I'll do my best to help you." This elder sister's nose was full of snot and tears, and she was crying for a long time before she told me the reason. Her name was Qi Ying, she just got married not long ago, and didn't have a child until now.

Qi Ying is a woman with a very miserable background, she has no mother since she was young, grew up and died her father, and with the help of all the other aunts and aunts, she managed to get married with great difficulty. The first husband is an alcoholic, he doesn't drink every day, he doesn't feel well from the body, he beat Qi Ying after drinking wine, in her words, he was living a life worse than death. Not two years later, the first husband drank himself to death, and the first husband sold himself to a broken house, he didn't even have a child, luckily he didn't have a child, otherwise he would have to marry again and suffer more.

Qi Ying was less than thirty years old at the moment, and she was pretty good-looking, and very quickly she married another man. This man was honest and honest, and was quite compatible with her, but he had one problem, he didn't like to talk, so it wasn't really a big problem to say that. However, Qi Ying became more and more silent after taking her, and in the end, she became so serious that she couldn't say a single word for a whole day. The doctor said that this was a language barrier, and it was fine for him to let her family accompany him for a long time.

Since then, some people who liked to talk behind Qi Ying's back always claimed that she was a jinx. Although Qi Ying was only 30 years old at the moment, no woman had married two men in a row. Both men were dead, so she couldn't blame others for calling her a jinx.

After that, she met her current husband, who worked on the construction site, who got up early in the morning and was greedy for dark every day. Although she didn't earn much, she wasn't so poor that she couldn't eat her fill, and she didn't mind that Qi Ying was a married woman, the two of them loved each other after they got married, and soon, Qi Ying became pregnant. At one point, she thought that her blissful life had come to an end, but the truth didn't go according to her expectations.

That's right, it was this vegetable who had killed someone. The investigation by the Public Security Bureau and the hospital surveillance footage all proved that this person, who usually lay motionlessly on a hospital bed, had strangled an unfamiliar patient to death in one night. After strangling this person, Qi Ying's vegetable husband laid back down quietly.

Hearing Qi Ying's crying, I fell into a state of confusion. I couldn't figure out the cause and effect of the murder, so I asked, "Big sis, what is your husband's current situation?" Qi Ying sobbed, "He's still in a coma. The doctor said that the probability of him waking up is very small, because he suffered a severe head injury. My husband fell from the roof, so it's fortunate that he didn't die. I said, "Did you see the video of your husband killing someone?" Qi Ying said, "Yes, I saw it too, the police showed it to me, the moment I saw him get up, it was really a pleasant surprise, then I saw him slowly walk to the bed on the other side, on it was a patient with stomach bleeding, he grabbed that person's neck, his hand was so strong, that person's eyes popped out, his tongue stuck out, very quickly he stopped moving, very scary, I've never seen him before."

I comforted her, "Don't be sad. I will definitely help you out to the best of my abilities. Give me your contact information, and I will contact you in the afternoon." After Qi Ying left her phone number, she left with a million thanks. No matter how I thought about it, I just couldn't understand. If plants could wake up and kill people, wouldn't my senior brother wake up as well? I just pray that he won't get up and kill someone. Thinking about this, I feel a little sad. My senior brother is still lying unconscious on the bed, and I still have to help treat other people.

After a while, Master and the others woke up. I had already made breakfast and told Master about this during dinner. Master said, "This is rather strange. You must not be careless." The senior sister said, "Did she lie to you? I don't believe a vegetable can get up and kill people unless ..." Unless the patient is possessed, but the patient's body is weak and has many obstructions. Ordinary evil beings would not be willing to lie on top of her, and besides, there are so many good people, why would they pick such a person?" His Master said.

I thought for a long time before replying, "I don't have any other ideas. At the moment, I only think of this one method, Evil Spirit Possession. I'll go and take a look at her husband in the afternoon." The Master said: "It's not that easy, after the Evil Spirit possessed killed someone, the knot in my heart ended and I dispersed. I can only see this situation, if you go you won't be able to see anything, don't say anything and ruin my reputation, in the future when no one is around to take care of my business, it will be miserable."

The Senior Sister said, "Master, you are in the wrong. How can doing good deeds be called doing business? This is not how you usually educate us." The Master said, "It's the same thing. Doing business doesn't mean we can't do good deeds, and what I do in this business is doing good deeds. I have to eat, and look at how good your Junior Brother is! If I don't earn some money, then what are we going to eat and drink?" The Senior Martial Sister said, "Tsk, that sounds good. Do you know that a lot of people outside now call you Divine Staff Xu?" His Master was surprised for a moment. "Who would call me the God Stick? This is utter nonsense. How many God Stick that can't be deceived like me are there?" Haha, you should know yourself that you're a swindler."

After we finished eating, I started drawing talismans on paper. Although I was just drawing on paper with a brush, I had to concentrate on drawing. I couldn't relax at all, and I even slightly relaxed the paper, so I had always been very tired of drawing talismans. When Master saw that I was covered in sweat, he pretended to leisurely ask, "How is it, Hao Zi, how many pictures did you draw?" "Is it enough?"

I wiped off my sweat and said, "Three Evil Breaking Talismans, one Evil Repellent Talisman and one Soul Suppressing Talisman. It's more or less enough. Once I reach the hospital, I'll seal all the life gate. Nothing will be able to escape." His Master shook his head and said, "Still young. Without experience, you will suffer a great loss. Haozi, these talismans are all used to exorcise devils and break devils. They walk a fierce and fierce path, but have you thought about who can use this talisman if the evil spirit doesn't come out?"

I said, "That's right, that's right. I'll take Senior Sister's Soul Lamp." Hearing my words, my Master slapped the back of my head and said, "You brat, who knows how many ghosts are wandering around in the morgue below the hospital. You turned on the Soul Lamp and all of them came for you, are you happy?" I said, "Then what do you think we should do?" His Master said, "You are such a hothead. Analyze the details of the problem. I will go with you and talk about it later."

Therefore, the task of taking care of Senior Brother Ju was handed over to Senior Sister and Senior Brother Ju. The Senior Sister complained, "You might as well let me accompany you. Making soup is not my specialty." His Master giggled and said, "It's difficult at the beginning, but you should learn first. Otherwise, I won't have anyone to take care of me while I'm in bed." Pah pah pah, crow's beak." The Senior Sister rolled her eyes at her Master, "Hurry up and go. Don't ruin your reputation, Great Divine Xu."

I contacted Qi Ying and told her to wait for us in the hospital. When Qi Ying heard my master's excited voice, she repeatedly said that Master Xu was truly a good person. I thought to myself, in any case, he only knows how to make soup all day long without doing anything.

There are a lot of people in the county hospital, and there are a few in the inpatient department. There are a lot of people coming and going, either in wheelchairs or swinging bottles, or they're all bloody. What's going on with everyone these days," I thought to myself, "unless something happens, they won't be able to keep up with the trend." Master led me around the hospital, nodding and saying yes to it. I thought to myself, "It's fine as long as you don't mind." Master looked at me doubtfully and said, "Hao Zi, take a look at the atmosphere here.

I squinted my eyes for a while, but could not find anything. My master repeatedly shook his head and said, "Truly rotten wood cannot be carved into. Have you forgotten about the ability I taught you?" I blankly said, "Master, you can simply tell me how I can learn it." His Master said, "You're too stupid. Haozi, there are some things that cannot be clearly said with your mouth. At this time, it all depends on your perception. Take a look."

He said, "I thought you were a little stronger than your senior brother, but unfortunately, Haozi, I'm telling you, this hospital is located right in front of the government's main entrance. Although it's far away, but you can borrow the positive energy directly to protect you."

"I thought the hospital would be better off?" Seeing how many patients there were in a day, I didn't want to say more, so I said, "Let's go see Qi Ying, master."

Qi Ying's husband was on the fifth floor of Building Three. Ever since that incident, the police had intervened in the investigation, suspecting that he was very aggressive and told Qi Ying to move her husband into a separate ward. Qi Ying didn't say anything.

Qi Ying saw us coming in and pulled Master's hand excitedly, "Master Xu, I really didn't expect you to come. Once you came, my heart was at ease. Many people said that you were a master, so you have to save me." The more he spoke, the more agitated he became. Seeing that he was about to cry again, his Master put on a sage-like look and said, "Lady, I've already heard about your situation from my little disciple. You can rest assured that with me here, there won't be any evil doing." Qi Ying stopped crying and asked, "Xu..." "What?" "What's the matter?"

Qi Ying was stunned for a moment before she replied, "Nothing, just having the same surname as my husband." The Master said, "Name doesn't matter. Come, let me see your husband." Her husband lay motionless in his bed, his body full of tubes, his heart and pulse so weak I could not understand how such a man could kill.

Master carefully examined Qi Ying's husband, but didn't find anything abnormal. Seeing that Master was silent, afraid that Master would be embarrassed, I signaled Qi Ying to go out and speak.

When Qi Ying and I reached the corridor, Qi Ying asked me what was wrong. I said, "My master will examine your husband's body, so don't disturb him." Qi Ying said with a knowing look, "Yes, even masters are like that. They don't like to be disturbed." I nodded. At this moment, my Master came out and said, "Why did you two leave? I have something to ask you."

After entering the room, the Master said, "Tell me what happened to your husband. I didn't see anything wrong with him, and even after Haozi told me, I didn't remember clearly. He spoke in a muddled manner." Qi Ying briefly introduced her master to her husband's situation. His name was Liu Yang, and he came here to work instead of his hometown. Since his parents had died in his hometown, Qi Ying was free to go anywhere to find a woman to marry and settle down here.

How could Liu Yang, who worked at the construction site, not pay attention to his safety, especially after years of working as an old man, not being able to block out his misfortune? Every year after his marriage to Qi Ying, Liu Yang, who didn't even have a minor accident before, was in trouble.

Qi Ying had rushed out to take a taxi to the hospital in the afternoon when she received a call saying that something had happened to her husband. The weather had been fine since the day of the accident, and according to Qi Ying's memories, the weather had been fine since the day of the accident, and the sky had been clear for thousands of miles in the morning when she received the call saying that her husband had been in trouble.

When the results came out the next day, the doctor said that Liu Yang was hit on the head and the chances of waking up were very slim, but with this incident, the family that was already on the verge of collapse became even worse. Qi Ying said to himself that this was his life, and her third husband was the same as well; if he died, then Qi Ying wouldn't remarry, and he would be lonely until he was old enough to at least not hurt anyone, and she himself also believed that he was a jinx.

After listening to her words, her Master thought for a moment and said, "Can you let me see that video?" Qi Ying said she was at the police station, if she wants to see, then take us there. Master said it's best if we hurry, Qi Ying nodded, and just as we were about to leave, a man in a suit came in.

When he saw us, he went blank for a moment before asking, "You two are ...?" Qi Ying introduced him. It turned out that this man was the medical examiner in charge of her husband's case. He was very interested in this case.

This man wore gold-rimmed glasses and had a refined appearance, but no matter how one looked at his smile, he felt uncomfortable. He said to his master, "Hello, my name is Chen Sheng. I'm the medical examiner in charge of this case." His Master briefly introduced the two of them, and Chen Sheng smiled, "Oh, so you're Master Xu. I've heard of you before, you're quite famous. All the living dead cannot do without you. Is this your disciple?" I thought to myself, "What is this supposed to be, Mr. Chen must have come for the same purpose as me." Chen Sheng replied, "Of course, this case is very strange. I've been practicing medicine for many years, but I've never come across something like this. I wonder what Master Xu thinks of this case?"

We all sat down, and the Master said, "I don't know what's going on, so I don't dare comment, but I don't think this is a simple case." Chen Sheng smiled, "That's right, I can't trouble you with simple words. But Master Xu, the person lying down is a murderer, who knows when he will get up and hurt others. I advise you to stay away from this, this isn't buried in a coffin." I said, "What are you saying? It's not like my master is here to cheat money." "That's not what I meant," Chen said. "It's just that we specialize in the arts. Some things need to be settled by professionals like me. Others might cause a lot of trouble."

His Master said, "Mr. Chen is right. How about this, you sit down first. We have to leave first." "I heard it from the entrance. Didn't you guys want to go watch that video? I've brought it," Chen Sheng said. After saying that, he opened his handbag. Inside was a laptop.

He turned on the computer and showed us the video, which was recorded by the hospital camera. It wasn't very clear, but it could still be seen that the person inside the video was the unconscious Liu Yang. On the other bed was a bald man with an oxygen bottle in his mouth.

After a few seconds, something strange happened. Liu Yang, who was in a coma, got up like a normal person and got out of bed without any hesitation, as if he had been planning for a long time, opened the blanket and walked straight to his friend who was lying on the bed beside him, pressing down on him with both hands. The man's face turned red from suffocation, and his mouth and eyes bulged out.

The video made my back go cold. 'Pa!' Chen Sheng turned off the computer and said, "Master Xu, this isn't a joke. The murderer is right in front of us, yet he can't be sentenced to death." Qi Ying said, "My husband can't kill people." Chen Sheng said, "That's not up to you to decide. Please show me the results of today's examinations." It turned out that ever since Liu Yang's murder, Chen Sheng had been visiting the physician for reports every day.

After reading the report, Chen Sheng said, "Ms. Qi Ying, your husband is suspected of having committed a grave crime. You should know that I am unmerciful. I hope you can cooperate with us and not use any other excuses." After saying that, I straightened my clothes and left. Looking at his back, I couldn't help but curse in my heart. Even if you have an identity, is there a need to act so domineering? Not to mention that Qi Ying is one of the victims.

My Master lowered her head in silence. I said, "Big Sis, you don't have to worry. My Master will definitely give you justice." Qi Ying thanked him profusely. After thinking for a while, her Master asked, "When you watched that video just now, did you feel anything different about your husband?" Qi Ying recalled, "I didn't see anything different." Her Master said, "Think about it carefully." Qi Ying thought for a moment and said, "I think it's a little hunchbacked."

Hunchback? What was going on? His Master stood up and said, "If I'm not wrong, your husband will wake up in the next few days. At that time, I'll trouble you to contact me immediately." Before I left, I saw my master quietly affixed a piece of glyph paper under Liu Yang's bed.

When I returned to the store, I asked Master what had happened. She said, "I suspect that Qi Ying's husband had twin souls." I said, "What's that?" His Master said, "Twin souls are created when two or more souls are delivered to a pregnant woman. They are basically twins or multiple twins, but there are times when twin souls fuse together in a pregnant woman's womb, and those that cannot fuse will be pushed out. There are also very few twin souls that fuse together into one body.

I asked, "What will happen then?" His Master said, "This is a very troublesome situation, that person normally doesn't show any abnormalities, if his own soul can suppress the hidden soul it would be fine, but once he can't, when his body is weak, then the other twin souls or even a few other souls will run out. I suspect that this is the case with Liu Yang, he might have displayed this when he was young, but the people around him don't feel it, they might even suspect that he is a kind of mental illness, doesn't he have a medical term for it now?"

Psychosis? What does that mean? The strong ones suppress the weak ones, while the strong ones control the weak ones. The weak one can only endure, but once the strong one is weak or relaxed, the weak one will appear, and the weak one will have the same memory, but that is a completely different soul. And after a long time without seeing the light of day, no one will know what they will do when they come out.

When I heard this, I became confused, "Master, then what kind of charm paper did you paste on it?" His Master said, "There are two of them. One for me and one for you. If there is any movement, or if there is a negative fluctuation, I will react immediately." As he finished speaking, he took out a piece of glyph paper from his pocket.

I said, "That's amazing! When will Master teach me?" His Master said: "These are all basic skills, there's nothing to teach. Oh right, those two books of Old Lady Liu, you must keep them well, they are similar to the talismans on the two sides of the river." I replied, "There's no rush. We have to look after this pair of souls. This is a rare item." His Master said, "It's nothing special, you have it on you."

I have it on me? I hastily asked, "Master, what do I have on me?" "Didn't you know? You should have had a younger sister." "You mean, Hu Yao Yao?"

His Master replied, "What Hu Yaoyao? She's not even human, so she has nothing to do with you." I said, "What's that?" His Master walked over and gently pressed my waist with her finger. "It's right here. Have you forgotten?" After saying that, I immediately felt an itch on my waist where my master had pressed me. I couldn't help but scratch my waist, "Master, what's on my waist?" "It's nothing," said the Master. "It's boils." "Then tell me, what do I have on me?" I'm just teasing you. "

I couldn't help but praise the delicious dishes Senior Sister had cooked. Senior Sister said, "It's not that I cook delicious food, it's just that you and Master didn't even drink a single sip of water when you talked to each other all afternoon. Hungry, what's so engrossed about this?" I replied, "She's the woman that came to find Master in the morning. I went with Master in the afternoon. Master said something about twin souls and said that I also had one on me. I don't know if it's a lie."

After hearing what I said, he said, "I'm sure that Martial Uncle is lying to you. The twin souls are not so easily encountered." I asked, "Senior Brother, you also know." I also heard from my master that after many years, there was a child that was found to be twin souls when he was born. Furthermore, I couldn't tell the difference between the primary and secondary souls in the beginning, meaning that the two souls had similar strength until the moment of birth. Only then did the boy manage to suppress his sister, saying that this person was able to walk in the world for the sake of this opportunity.

His Master said, "Let's hurry up and eat. There's no need to talk so much." The First Senior Brother said, "Is that true? Didn't my master tell you before?" His Master said, "Eat and eat, eat without saying anything. I don't even understand this little bit of truth."

That night, after Master saw that we had all lied down, he jumped off the wall. The Senior Brothers and Sisters all slept soundly, and only I was able to hear him.

I quietly followed him, but I didn't dare to follow him too closely. I was worried that Master would notice me, so I followed him from afar. The fox blood spurted out, and I fell to the ground on all fours, quietly following him.

He took out some paper money from the bag in his hand and quietly burned it, one by one. I couldn't see his expression behind him, I only felt that his back was a little lonely and desolate, who the hell was this paper money for?

"Shuhua, take it and spend it, don't think about saving it. Right now, senior brother is doing this business. We have plenty of money." His Master's tone was sorrowful, as if she was mourning for an old friend. Listening to this name, it was a woman's name. If her Master said he was her senior brother, then the person her master was mourning for was her junior sister.

After eavesdropping for a while, I felt bored, so I prepared to slip away. Just as I was about to leave, I saw Master standing up and taking out a long piece of yellow paper from his pocket, it was about the height of a person and had been cut into the shape of an adult by his master. With his graceful figure and full face, I focused my eyes and saw that he was a beautiful woman.

His Master carefully put the paper man away, then took out a small bottle. She unscrewed the bottle and poured the liquid on the paper man. The paper man slowly stood up.

When the paper man stood up, I heard a faint laugh. It was a woman's laughter, and it was from the paper man. The paper man turned around and actually turned into a woman.

His Master seemed to be very dispirited as she said to the paper man, "Shuhua, after all these years, you are still the same as ever." That woman was wearing red and grey pants, and her hair was combed meticulously. Her hairstyle was the same as it had been many years ago, and her facial features were exactly the same as the paper man's. She was a rare beauty, and her eyes were clear as she looked at Master with a smile, "Senior Brother, long time no see."

His tone was as though he was meeting an old friend. I was surprised that Master had the ability to turn paper men into living people, but thinking about this, my fingers were already itching. Tomorrow, I must get Master to teach me this skill.

His Master said, "Sit down and talk." The woman sat down, and the two of them looked at each other. They didn't speak for a long time, but the love in their eyes was so deep that I couldn't shake it off. I could feel the love between the two of them from a long distance. What relationship did these two have? No, that can't be right, this woman is clearly a paper man, she definitely doesn't have any life. Could it be that this was just a trick by Master? However, who was his Master playing tricks in the wilderness at this time of night?

After a while, the woman leaned her head on her master's shoulder and nestled against him. My master's body shuddered, as if she wasn't used to being so intimate with me, I was greatly shocked. No wonder Master said that I was chased away by Qian Zhen.

The master told her everything that had happened in the past few years, but the woman just agreed and didn't say anything about me. I was very curious, could it be that this paper man also knew that I was a paper man?

After a while, the two of them finished their conversation and the master stood up. The woman also stood up, and they held hands as if to part, the atmosphere was a little sad, I felt it too, Master comforted her, advised her not to be sad, there was definitely still a chance to meet again. The woman was sad for a while, wiping her eyes, smiling at her master, but I couldn't see the tears in her eyes, so it's no wonder, they were made of paper, how could there be tears.

The woman's legs suddenly went soft and she fell to the ground. She turned back into a piece of paper. Master picked up the yellow paper and I left before Master could even turn around.

When he returned to the store, he quickly lied down and pretended to be asleep. However, all he could think about was his master's strange actions, what exactly was that paper man? Could it be that his master was lonely in his later years and had used forbidden techniques to turn the paper man into a real

person to ease his loneliness? This was too much of an exaggeration. Not long after, hearing the sound of his Master entering the room, his Master poured a cup of water for him to drink before entering the room to sleep.

When we ate, we complained that the steamed buns today were not tasty, but the congee was pretty good. After drinking a few mouthfuls of congee, Master said, "Sigh, the current standard of living is up, but the taste of the food has gone down, let's just talk about this millet. The millet congee we ate at that time was called fragrant, you know, when the rice porridge was served, it was very fragrant and we drank it in two gulps, not even a little bit of the taste of the food now is good for us, but it was good for us to eat until we were full." He pretended to sigh.

Master's expression made us laugh. Senior Brother Ju said, "Martial Uncle, what story do you have? Tell it to us." The Senior Sister said, "Stories are mostly love stories. Do you think Master can have love like this?" "What do you know, why do you think I don't have love anymore? You guys can see now that I don't look anything, but when I was young, I was famous for my looks, and the matchmaker for the marriage was old, so I didn't pick any of the girls in the village. But I can only blame myself for growing old with my eyes high, or else you would have had a mistress by now."

I said, "Master, I remember that you said that you were sent to the monastery when you were young. Are there still people who went to propose to the monastery?" His senior martial brother and sister burst into laughter. The silly nun also laughed. His master's face turned red and white. "You talk too much. Eat, silly nun. Stop laughing. You're not scared of choking. Little Mi, you are the easiest to choke."

Looking at my Master's laughing face, the scene from last night seemed to have never happened. I'm sure it wasn't my dream, but I still didn't ask my Master. After all, everyone has their own secrets.

Sitting in the house in the afternoon, I was bored out of my mind. If there were people coming and going in and out of the paper horse shop every day, the smaller city wouldn't be able to hold on for long. After all, most of the people here come to buy longevity clothes.

The knocking sounds came from the door. Without waiting for me to open the door, the person outside pushed it open and walked in. "Haozi, I've finally seen you." It was his brother, Qi Fenghua, who he hadn't seen for a long time, "Even if you didn't come, I would have gone to find you. How was it recently?" I asked.

He sat down, took off his heavy coat, and threw it on the table, "Haozi, where did you go this time? Did you forget about me? I was bored when I stayed at school and couldn't see you. Why do I feel like you've grown up again?"

I scratched my head and said, "The academy... I'm still a student. I almost forgot, there's no change in the academy, right?" Brother Hua said: "The school hasn't changed much, but our class has changed a little. Your old classmate here is going to drop out soon."

"You're right, Ding Xiu, what happened to her?" I curiously asked. Brother Hua said, "Look at you, you almost forgot your own classmate's name. Hey, who else do you remember in our class other than me?" I thought about it and said, "No one."

"Your old tablemate probably lost sight of you because he was overly worried and fell in love with you." Brother Hua said with a smile, "You can do it. Acacia is also related to you. What does it have to do with me?" Brother Hua said, "Hehe, you don't know, after you left, your seat was always empty. At the beginning, it was for putting other people's things in, books, clothes, food, and then a few new classmates came and there was a guy sitting there. Right, when can you go back to school?"

And I said, "Well, this... I have to ask my senior sister, at that time my senior sister and teacher asked for a leave of absence." Speaking of Senior Sister, Brother Hua's eyes lit up, "Where's our Senior Sister? It's been a long time since we've seen each other, I miss you so much." I said, "That's my senior sister, not your senior sister. She's upstairs right?"

Brother Hua said, "I'm wondering if you'll be able to find our school. Hey, Haozi, tell me what you've been doing for the past few days. The homeroom teacher is asking me how you're doing." I said, "We can pretty much find the school, but we didn't do anything and went on a tour. Hey, the form teacher is asking you, what did you say?" "I don't know what I'm going to say," said Brother Hua. "I'm afraid I'm going to slip up."

After chatting with Brother Hua for a while, Brother Hu came out of the room and saw that we were chatting, so he also sat down and enthusiastically greeted Brother Hua. After chatting with Brother Hua for a while, Brother Zhu came out from the room and saw that we were chatting, and also sat down, and warmly greeted Brother Hua.

"Sigh, I forgot. Later on, I even made an appointment to play football with someone. Haozi, are you going?" I don't know how to play, and I don't like to hang out with people I don't know.

The first senior brother happily sent Brother Hua off, then came back to ask me: "Hao Zi, do you know this friend of yours from school?" I said, "Yeah." The first senior brother said, "He's quite outgoing and lively." I said, "Yes, Brother Hua is just like that, laughing without any sense of humor." "He doesn't have much heart, but you'd better keep him at arm's length," said the First Senior Brother.

I was stunned. "What's wrong, senior brother?" The first senior brother took a sip of water and said, "During this previous opportunity to speak, I asked him about his life and also observed his face. I saw that he was rich and powerful, but his ups and downs were harmful, so I advised you to stay away from him."

Senior sister had also told me this before. I said, "I understand. Senior brother, I know to protect myself. I don't believe that he will harm me." The First Senior Brother said, "That's good. You're not young anymore, and many things are better decided by yourself. Fate is rare, so I don't want you to easily give up on fate." After saying that, he went back to his room.
