“Get out of my way.” I hit his abdomen with all my might, and with a slight crack, his ribs caved in and his arms slowly loosened.

Pushing him aside, I struggled to stand up. Lv Tianhe’s Four Devils’ hiding technique had already been completed, and obviously his senior brother was unable to stop him. The three ghosts that just died were all sucked into his body, “Hahaha, this feeling is truly wonderful.” Lv Tianhe laughed out loud, all the Yin Qi in his body surged, countless amount of black qi surged out from his pores and absorbed them, the scene was extremely terrifying, senior brother’s face turned serious, my heart sank, what should I do?

Lv Tianhe slowly walked over, his right leg feeling a bit unnatural, his entire body was wrapped in black Qi, especially his face, which was as black as the bottom of a pot, it was hard to see his nose and eyebrows, “Lv Tianhe, I can see that there are countless ghosts behind you, they are about to lock your life away, you won’t live much longer.” It was true that Lv Tianhe’s Yin Qi was too rich, the Four Great Ghosts’ hiding technique that he trained in was an evil technique used within the Evil Techniques. The technique used to bury the four vengeful spirits into his body through a special method, which caused them to suffer from the attacks of the Yang Qi s in his human body for a long time.

Furthermore, it easily attracted other Ghost s, so people who cultivated this technique had to possess a very special physique. In their previous life, they were not a part of the Ghost Dao so they would not live for very long, and Lv Tianhe’s cultivation was deep, so he had trained for a long time, so he must have definitely reincarnated into the Ghost Dao.

Looking at it now, even in the broad daylight, the black aura behind Lv Tianhe gathered but did not dissipate. Within the shadows, one could vaguely see the figure of a person, most likely the Ghost who was wronged by Lv Tianhe before, died with grievances and grievances, stuck by his side, waiting for an

opportunity to take revenge. However, the ghost was also afraid of the evil person, and in addition to Lv Tianhe's cruel methods of killing, the person that was killed had turned into a ghost.

"Hey, have you seen enough?" When I raised my head, the black cloud like figure seemed to have covered the sunlight. I thought to myself that this was not good, Lv Tianhe's movements was extremely fast, and the moment I heard the voice, his attacks had already begun.

I hastily held my breath, my eyes opened wide in fear of Lv Tianhe's sudden attack. Unexpectedly, the moment the black aura touched my eyes, my eyes felt a sharp pain, and the black aura was harmful to my eyes as well. I hurriedly closed my eyes, and the moment my body came into contact with the black aura, my skin felt a sense of corrosion.

Along with a stuffy groan, I heard the sound of someone heavily falling on the ground, and slowly the black fog dissipated. This time, I clearly saw that just now, the person who was about to attack me on the surface was actually Senior Brother Ju Yi, but he had a heavy expression on his face and laid on the ground with his hands covering his chest. In between his chest was a black palm print, the edge of which was already covered with white frost.

"Senior Brother, are you alright?" I hastily went to help him up. Senior brother Ju Yi nodded and said, "It's alright." That's what he said, but I saw that my senior brother's eyebrows were twitching uncontrollably. I could tell that his injuries weren't light, but he was holding on because he didn't want me to worry about him.

"Hao Zi, I beg of you, please do me a favor." The Senior Brother looked at Lv Tianhe with a dark expression and said, "What is it?" "You can try your best to buy me five minutes, or even three minutes. I have a way to get rid of him." "Alright, it's only five minutes, leave it to me."

Although those words were spoken, I did not have much confidence. Lv Tianhe seemed to have just come out from a ghost road, the Yin Qi around his body was so dense that no one dared to approach him, I believed that I would not last more than five minutes with him, but since I had already said it, I had to do it, and there was no way out.

After saying that, he sat cross-legged with his hands on his Dantian and closed his eyes to meditate. I looked at Lv Tianhe and said: "Come, I'll play with you for a while." The Fox Blood in my body no longer held back and completely burst out. In that instant, I felt the power in my body surge like a tidal wave, maybe the Fox Blood knew, it wouldn't be easy to persevere for five minutes.

At the same time, he raised his knee and rushed towards my chest. I took advantage of the fact that he was retreating backwards while he was attacking, and seemingly trying to dodge the attack, which meant that I had actually circled behind him. At the same time, I leapt high into the air and readied my right hand to hit his neck with all my strength.

With the full strength of the Fox Blood, my speed was actually slightly faster than his. Seeing that my fist was about to land on his neck at lightning speed, I couldn't help but feel ecstatic in my heart.

Just as my punch was about to touch him, suddenly, a strong force grabbed onto both of my wrists and stopped my attack. I was startled, I did not think that there would actually be someone, but I did not feel it at all, could it be that all of my attention was placed on Lv Tianhe?

I hastily looked back, and all the hairs on my body immediately stood up. The one holding onto my wrist wasn't a human, but a white skeleton hand. Looking up along my arm was a skull, and at this moment, it was opening its mouth towards me, as if it was laughing.

Looking down, I saw three skeletons holding onto my legs and left hand respectively. I struggled not to get out, as Lv Tianhe turned his head and looked at me who was struggling bitterly and said, "How is it, is my Four Devils' hiding technique interesting?" It turns out that he could tell that I couldn't be underestimated due to me using all my strength, and it wasn't easy for me to defeat me in a short amount of time, so he bought an opening and released the four ghosts in my body when I was fully focused on him. When I wasn't prepared to control me, the four ghosts would have long been refined by Lv Tianhe and become Lv Tianhe's puppets.

"Hehehe, little demon, I heard that you also have a special physique. You can become my puppet." After saying that, he grabbed my chin and opened my mouth. A mouthful of foul smelling black air sprayed in and I immediately felt suffocated. The black air scurried around in my body and my internal organs were immediately in turmoil.

The Fox Blood condensed on the tip of his tongue, it's mouth was filled with thousand year Fox Blood s, upon seeing the dense Evil Qi on Lv Tianhe's body, the two could not tolerate each other. Lv Tianhe covered his face in pain and fell to the ground, with black smoke coming out from his fingers like a burn.

"Ah ..." The Four Devils couldn't grab hold of me, and were knocked away by this great force. I fell onto the ground, and I could barely breathe, as if there was a splitting pain in my chest. When Lv Tianhe

walked over, quite a few parts of the skin on his face had been burnt away, revealing the tender flesh underneath, making him look even more terrifying. "You really made me angry this time ..." After he finished speaking, he raised his foot and was about to step down, when suddenly, thunder roared in the sky.

Lv Tianhe looked around in panic. Senior Brother Ju Yi raised one hand, and opened his palm towards the sky, a silver Talisman was revolving at an extremely fast speed two meters above his palm, I could vaguely see a small lightning pattern appearing on his palm. Could it be that master did not succeed in his Five Thunder Blast Technique as well?

The senior brother was still motionless with his eyes tightly closed. Right when Lv Tianhe was about three meters away from him, a lightning bolt descended from the sky and smashed right in front of Lv Tianhe, causing him to turn pale with fright, following that, five lightning bolts fell one after another and surrounded Lv Tianhe, the lightning bolts did not dissipate, but instead formed five transparent walls that trapped Lv Tianhe within. The walls were faintly covered with lightning patterns, which contained an irresistible might, but Lv Tianhe did not dare to make a move.

His eyes were tightly shut, his eyebrows were knitted together, and his lifted right hand was groping for something, as if he was trying to sense something. His master had said before, the might of the Five Thunder Dojo was extremely strong, the first four Divine Lightnings were used to control the target, and the power was all above the fifth Divine Lightning. But Senior Brother had used all five Divine Lightnings to control Lv Tianhe, so how could he kill him?

Very quickly, the sound of thunderclaps rang out, and a slender bolt of lightning appeared in Senior Brother's palm, passing through the rapidly spinning silver colored Talisman and shooting towards the sky. Immediately, muffled thunder sounded out in the sky, and the clouds seemed to be brewing with an even more tyrannical strength.

Suddenly, I seemed to have thought of something and looked at the silver Talisman. I turned pale with fright.

The Talisman can only be used once in a lifetime, and at the very least, will lose half of its life. It wants to die with the enemy, and senior sister once wanted to use her Destiny Divine Symbol, but was stopped by me, because once I used this kind of Talisman, she basically wanted to commit suicide. Although the user might not necessarily die, but Master said that he had never seen anyone who used the Destiny Divine Symbol who was still alive.

“Senior apprentice-brother, stop!” I struggled to stand up, ignoring the pain on my body as I ran towards him. Before I could get close to him, a bolt of lightning struck down on my toes. I shouted, “Senior Brother, you don’t have to do this.” As he spoke, thunder rumbled in the sky. Senior brother’s Destiny Divine Symbol rotated to the limit, and the lightning patterns connecting his hands suddenly became thicker, causing senior brother to reveal an expression of pain. This was a sign that he had overdrawn his life; no good, the divine symbol had already started to absorb senior brother’s life in exchange for a fatal blow.

Lv Tianhe seemed to feel the powerful attack that was about to arrive as well. Dense death aura enveloped his face and he almost crazily struck the lightning barrier around him, with every strike, his body emitted a bit of black Qi, causing the lightning barrier to weaken a little as he became more and more berserk. The lightning barrier became more and more weak, and was about to shatter at any moment.

Record of Strange News in Northeast - C172

C172

Accompanying a deafening explosion, an incomparably violent bolt of lightning strikes down for an entire three seconds. I was also shocked by the might of the heavens as my feet unconsciously retreated a few steps backwards.

After being struck by the lightning, Lv Tianhe lost all signs of hostility, the Yin Qi on his body disappeared, and the gigantic lightning bolt dissipated just as quickly. Very quickly, the clouds opened and the mist dissipated, and the five lightning barrier also disappeared.

After he fell to the ground, a lot of water came out from his body, which made the ground around him wet. He had lost a lot of weight, and from a burly man who was as thin as a stick to his bones, with sunken eye sockets and dark skin to a normal human skin, his body seemed to have shrunk a little. I touched the back of his head, but his heart didn’t beat at all.

A soft groan came from behind me, and I remembered that my senior brother was still there. He had used the Destiny Divine Symbol to forcefully overdraft his life, and was currently on the verge of death.

Zhao Xuewen and Senior Brother Zhao Xuewen had forcefully borrowed strength from the outside to fight the enemy, but they had left behind irreversible injuries. Fan Dexin’s body was weak, and he had

almost died on the way out of the valley, but even so, the four of us had still persevered on and found a way out, leaving this place of disaster.

After returning to the temporary residence of the Special Operations Group, Master and Dean Gao were especially happy that we managed to return alive, especially Master. This is the first time I've seen Master cry after seeing Senior Brother and I covered in wounds and dying, let alone crying now.

The injuries of Fan Dexin and I were not light, but because we were young, I recovered really quickly. On the second day, I borrowed the power of the Fox Blood and recovered to normal people, but Senior Brother and Zhao Xuewen were much more serious than me, just that Senior Brother and Zhao Xuewen had always been in a semi-conscious state ever since we fought back, and could occasionally wake up. Most of the time, they were unconscious, and the doctor could not explain this kind of coma on Senior Brother's part.

Zhao Xuewen's curse on Shi Yuan had already changed his fate. If not, Shi Yuan would not have died so easily at my hands, but all of the powers were mutual, so Zhao Xuewen's fate would also be changed. Furthermore, from the sudden death of Shi Yuan, I could tell that this curse seemed to be able to kill a person, no matter how good Zhao Xuewen's life was, he would still become a lowly person after this battle.

The members of the special operations team who participated in the operation suffered heavy casualties. Apart from the few of us, only three of us survived the incident, while the rest were buried deep underground. After this incident, I realized how fragile life was.

However, this time, it was a good thing that we were able to eliminate Lv Tianhe. After the change in the earth's crust occurred, the special forces sent another group of people to the valley to carry out a series of clean-up activities. The so-called clean-up activity was to destroy those who were completely out of their minds.

Once again, I was a little conflicted with that place, finding those who failed, those in the group with the flamethrower, bringing those who failed together, burning them into ashes, out of humanity, before cleaning up, we had to do our best to knock out some of the people who were able to move, so as to save them from pain, it could be said that these people were no longer alive in this world, because their souls had long left their bodies, and because their bodies were restless, their bodies could not be at peace, and even if they died, their bodies would still have a great impact on their souls, so only by burning them up, would they be able to gain early peace.

“Hurry, hurry up and burn it. This stench, it’s so disgusting!” A young man was at the side, directing these people with a look of disgust on his face. One of his hands was tightly pinching his nose, and he was constantly fanning it. “This is too stinky. I’m going to die.” As he said that, he walked further away. The adonis’ face was flushed red. He bent down and started retching.

This time, it was him leading the team, but from the looks of it, he isn’t the type of person to do this kind of work, he can’t even smell the stench of dead bodies. However, it seems that Director Gao values him a lot, and he doesn’t know which almighty’s disciple he is, so it’s possible that he’s not able to find a job.

He retched for a while but didn’t spit anything out. After getting up, he spat a few times on the ground, “These dead people are so annoying. Even if they die, they won’t stop. I still have to do this kind of useless work and have bad luck.” His actions were a big taboo in front of the dead, it was a disrespect to the dead. After a person dies, the soul would choose to hide in the shadows, some souls would hide in the ground, and some souls would hide under the eaves, so it was best not to stamp their feet in the death-ground, and they couldn’t even go up to the roof, because such actions could possibly step on the dead’s head.

I walked up to him and patted his shoulder. He turned to me and said impatiently, “What are you doing?” I smiled and said, “Assistant Wang, it’s impolite of you to do this. It’s better not to ...” Who cares? Seriously, do you think I’d want to come into your place and follow you around every day? I don’t see any good things, but I do see a lot of dead people. Go go, don’t bother me. ” He pushed me away.

He walked in front of the bonfire, spitting a mouthful of phlegm onto the face of one of the mummified corpses. I grabbed his hand and pulled it back for him in anger, “Are you sick? What are you spitting on? I spit in your face.” I was really angry, as most of the people in the team knew about these taboos. Firstly, it was to show respect to the dead, and secondly, to avoid unnecessary trouble.

“Lighten up, what are you doing? Are you still going to hit me?” I let him go, and he stepped aside and rubbed his arm, and I looked at him, not too angry, but wondering how someone like that could get into the department, to be a little too small, and his actions were easy to stir up trouble with, and to put it too big, they were evil, and they had an effect on his own life.

As the fire subsided, the corpses of the people who failed to do so were burned to ashes. We dug a large hole in the ground and buried the ashes, while Assistant Director Wang muttered something.

When we went back, Master’s absent-minded look made me a little worried. As expected, Senior Brother’s condition is getting worse, he hasn’t woken up for an entire day, and his entire body is

worrying. The doctor told us that Senior Brother's internal organs have started to fail, and there's no reason for it, Master is determined to let First Martial Uncle see Senior Brother's last time.

First Martial Uncle wasn't very surprised to see us. Even though two of our senior brothers were in danger, I didn't see a trace of panic on their faces. First Martial Uncle's calm demeanor made my heart drop.

With the medicine that I brought back from Shi Yuan and the others, Senior Brother Ju E had basically recovered from his dangerous situation. His consciousness was slowly recovering, and Senior Brother Ju Yi's situation was a little special, the First Martial Uncle had brought him to the underground space of the headquarters. Originally, the underground floor of the headquarters was even larger than the underground space, so they took the elevator down to the lowest floor.

There were many rows of vertical glass coffins, and inside, there were only people with their eyes closed, not a single trace of life. I was not sure if there were people living or dead inside, could it be that I wanted to place Senior Brother Ju Yi inside?

Sure enough, a few people wearing white put Senior Brother Ju Yi inside the glass. Separated by a thick layer of glass, looking at Senior Brother Ju Yi's pale white face, I suddenly had a feeling that we were separated from each other by a great distance, and the moment the glass closed, it was as if we could never meet again. That kind of feeling made me feel extremely uncomfortable.

"First Martial Uncle, can senior brother be well?" It's all up to him now. " This was originally an experiment being conducted at Headquarters, and using the principle of freezing, he temporarily stopped the patient's body from functioning. At the same time, this was the deepest part of Headquarters, tens of meters deep into the ground, and the earth energy that surrounded it had a great effect on the human body's recovery. First Martial Uncle hoped to use this to stop Senior Brother Ju Yi's body from regressing.

"Let's go." Seeing that the glass door was closed, First Martial Uncle's expression suddenly dimmed, as if he had suddenly aged a few years, and his entire person became dejected.

My winter vacation is almost over, and the movements of my Longevity Hall are also becoming more and more stable. Master told me and Senior Sister to go back first, because he wants me to stay here for a while, so I know that he wants to stay here with him more because he sees that First Martial Uncle is alone and lonely. Once he is old, there are many things that he cannot handle, especially when it comes to the younger generation.

Senior Sister and I bid our farewells and went back. On the way, I looked out the window at the scenery and felt a little lost about the road ahead. The people around me fell one by one. Who would be next? I can't even bring myself to think about it.

Record of Strange News in Northeast - C173

C173

"Sun Hao, come up on stage and try to solve this question." Looking at the teacher's eager gaze, I tried to lift my stiff legs and walk towards the stage.

The more I read, the more confused I became. Not to mention the things that I study now, I even lost all the knowledge that the teacher taught me last semester, today is the first class today, the math teacher usually doesn't ask me any questions, I don't know what's going on today, but the first question I get asked is the first question.

I slowly walked towards the podium. In these few seconds, I had almost forced out my Fox Blood, and everything around me had slowed down. I saw the math teacher slowly raise his eyes, and behind his gold-rimmed glasses, his kind eyes revealed a hint of hope.

I stood stiffly in front of the blackboard with chalk in hand. Looking at the densely packed questions on the blackboard, I felt a sense of desolation in my heart. What and what was this? Other than a few numbers, the rest were foreign languages.

"Teacher, I don't know how to ..." A mosquito-thin voice came from my mouth, and I almost wondered if that was what I had said, but when I said it, I couldn't help but lower my head. I had always thought I was pretty thick-skinned, and now I was blushing white.

After a long time, the teacher finally spoke, "Oh ..." Then, there was a dead silence. I looked over in the corner of my eyes and saw the book in the teacher's hands frowning slightly, I couldn't be angry and was prepared to teach a lesson here, "Sun Hao, this question is pretty basic, you can leave first."

Hearing this, it was as if I had received an imperial decree, I almost kneeled down to knock on the door. I hastily walked back to my seat in a flustered manner, and when I reached it, my face was still burning.

The teacher found a good student with good math and quickly solved the problem. Speaking of which, I thought that I had a thick face, but in reality, my face is still short. I have never seen the world, so I can't get any exercise, and I can't compare to other people's children in big cities. Looking at that Brother Hua, when she was called by her teacher, her expression didn't change at all, and with a slight smile on her face, she said 'no' so quickly, much better than me.

"Students, let's put down the textbooks in our hands first. I want to free up some time to listen to your opinions on studying. Why do you think you would sit here listening to an old lady? What are your plans for your future first?"

What did that mean? After a minute of silence, the teacher began asking, most of the students who were asked were shy, and the answer was always to study hard in order to find a good job, earn money, support the family, and the future. Isn't the future clear? Looking for a job and then finding the right person, getting married and having children, then raising children and watching our own children learn and get married and have children? Isn't that how our parents came here?

It was unknown whether they were truly ambitious or just bragging. They talked about how great their dreams were, and what kind of people they wanted to be. They talked about it so passionately that even a resident director would feel wronged if they didn't act like it.

The teacher looked at us and said, always maintaining a smile, that kind of calmness and calmness that is incomprehensible at our age and far from achievable. When I got here, I stood up and said, "Learning is to master knowledge, to master knowledge so that one can become a useful person to society and to the people." I gave myself 60 points for this round of answers. I don't think that there are any flaws. I have never sought anything good, but I have never wished for anything good. There shouldn't be any problems answering the question with this standard and positive attitude.

Seeing that it was almost time to end class, the teacher asked us to stop and answer, "Students, you are all right, some of you are not happy, some are even pessimistic, but I can understand, this is the truth, you can say this clearly, this is a good thing, indeed, a few of you came here according to your will, a few are willing, to put it bluntly, a few do not hate this, you treat this as a prison, you as a place to suffer, and as your teachers, I can also tell you clearly, no matter how hard you try, you can't catch up with some people. There was some laughter in the class, and the teacher continued to say, "But, there's no other way, the world is always unfair, all you can do is face it, God didn't give you an outstanding appearance, a good family background, a beautiful voice, a strong body, even if you don't have that, don't be unwilling because of it, even if you don't have anything, you still have to feel good about it. Children, remember, what you can bring to you is not worth cherishing, I hope that my students can achieve something in their studies, but I hope even more that you can experience the happiness and happiness of life."

The teacher's words gave me a lot of inspiration. It was a long time later that I found out from the other students that at that time, a classmate of mine had a divorce from his parents, causing that classmate to be depressed. During that time, it was our teacher who helped her in her life and studies, allowing her to smoothly enter the ideal high school.

"Sun Hao, you really don't have any talent in science at all." After school started, Qin Xuemei once again took on my supplementary mission, but this tyrannical student had no choice but to face me. It has already been a few days, and I don't even know the simplest of questions. I wiped off my sweat and said, "You can't blame me for this.

Qin Xuemei said, "You're right, but it's very difficult for you to get into a good high school like this." "Then let's give it a try." "Then it would be even harder to get into a good university." "Then, let's give it a try."

She put the book down and said, "Sun Hao, your way of thinking is very dangerous." Seeing her pretend to be serious, I couldn't help but want to laugh. I reached out to take the pen in her mouth and said, "Alright, genius, I'm not in danger. Your appearance is really dangerous. Be careful of lead poisoning." It was great to say that he was young. Earlier, he was sweating profusely because he could not solve the problem. In a moment, he would become a laughingstock.

"I say, am I stupid in your eyes?" She shook her head. "No, no, I don't think so. Sometimes, you seem pretty smart." "But I'm not as smart as you." "Isn't that very normal? There are a few people who are as smart as me. Don't use my standards to ask for your help, it will be very tiring." Beauty Qin, you aren't so arrogant in school." As the two of us were having fun, I suddenly heard a sigh mixed in with her parents' conversation in the living room. This sigh made me raise my ears to eavesdrop on their conversation, so I signaled Qin Xuemei to be quiet.

His parents seemed to intentionally lower their voice, but I still heard some things. It seemed to be related to Qin Xuemei's little brother. I asked Qin Xuemei. She didn't know at all that I had left the day after tutoring.

After a few days, when Qin Xuemei was giving me supplementary lessons, I could tell that she had something on her mind.

Her brother was called Qin Shutong and was not her uncle's biological daughter. Her uncle and aunt did not have any fertility ability, and this child was adopted in an orphanage, most of the children were born with disabilities or diseases, otherwise they would not be abandoned, but this child was not, and the people at the orphanage also said that they did not know why the child was abandoned. Qin Xuemei's uncle and aunt carried the child back as if it were a treasure.

His parents didn't think much of it, they only thought that he was tired. However, this situation continued for several days, his parents brought him to the hospital, and after seeing nothing, the doctor only ordered his children to take a rest. It could be because of the symptoms of puberty, which made them easily scorched and uneasy, which was very normal.

This time, it was not the same doctor from last time. This time, the doctor inspected the patient and found out that it was meningitis, scaring his mother to the point where she was about to cry, but after conducting an emergency treatment, her condition improved greatly. Originally, she thought that would be enough, but the day before she was about to be discharged, Qin Shutong suddenly suffered from a serious illness.

His parents had accompanied him by his side every day, and even when he slept, they didn't leave. They only treated him as if he had never been a father or mother's life, didn't say that he couldn't have children, and even if he wanted to take care of his children, he would leave. Every night, Qin Shutong's parents would put him in the middle, and every second that he looked at him would mean that Qin Shutong's only life was still breathing, and that he was getting weaker and weaker every day.

But a miracle happened. When Qin Shutong's parents woke up one morning, they were surprised to find that Qin Shutong had disappeared, and hastily got up from their bed to look for someone. Qin Shutong saw that Qin Shutong was sitting at the kitchen table eating lunch by himself, and when he saw his parents panicking, he said, "Mom and Dad, I couldn't even prepare food for you two because I was anxious to go to school."

Record of Strange News in Northeast - C174

C174

C174

Qin Shutong didn't seem to understand his own situation very well, when he saw his parents' surprised gazes, he felt very strange. Just as he was about to go out and finish eating, he was pulled back by the two elders to check on him, and after confirming that he was truly fully recovered, they hugged him and cried out.

However, anomalies happened again and again. The gentle Qin Shutong was called a parent a few days after she went to school because of a fight, but there weren't any serious consequences. After educating Qin Shutong for a few days, she was invited again, and this time, the matter was serious. He actually tricked a classmate from the next class into the water room and strangled her with a towel.

The school attached great importance to this matter, and Qin Shutong's parents took him back, hoping that he would stay home for a while to calm down. Qin Shutong's parents only thought that it was on the spur of the moment, and never believed that a child who had been raised would deliberately kill others.

His parents had told him about the matter of transferring schools. The originally quiet Qin Shutong, upon hearing these words, suddenly became very resistant, said that he did not want to transfer schools, and then did not say anything else, causing Qin Shutong's father to become angry, saying that the school no longer accepted him. There was no other way but to transfer schools, and after a moment of silence, Qin Shutong put down the bowl and chopsticks in his hands, and turned around to enter his own room. He thought that would accept this fact, just like that.

The next day, when his mother went out to buy groceries, she was shocked when she returned. Qin Shutong was pressing his father to the ground, madly beating him, the old couple had to put their lives on the line to control Qin Shutong. Since that day, they didn't dare to let Qin Shutong out, and kept him in a big iron cage.

's father, for the sake of this nephew who was not related by blood, had his heart broken and was stopped every time he wanted to take him to the hospital to see a doctor. Qin Shutong's father, Qin Fen, was a person who did not have much brains.

Just yesterday, Qin Xuemei's father received a call from his brother saying that Qin Shutong's situation was getting worse and worse, and her attacks were getting stronger and stronger. Furthermore, she couldn't even speak, and could only make a few simple sounds.

Hearing Qin Xuemei say this, I knew in my heart that this is not a simple mental illness but more like an evil ghost's body, if not, it would be impossible for her personality to change so suddenly. I made up my mind, I would tell Qin Xuemei that I want to go see her brother. "You're not a doctor, what can you look at?" I said, "If you can't trust me, you can't trust my master. My master is a famous Half Immortal. After following me for so long, treating a minor hysteria isn't too much of a problem."

Qin Xuemei looked at me suspiciously and said, "I know about hysteria, but do you really think it's that kind of sickness?" I said, "You'll know if you take me to take a look."

On the weekends, Qin Xuemei and her uncle went to her uncle's house. It could be seen that her uncle's house wasn't rich, but the poorer the family, the more likely they would run into evil things, because they knew that they had to pick the weak persimmon.

"Second Uncle, it's me." Qin Xuemei called out to him for a long time, only then did a person come out. He was not tall, yet he still walked slowly like a little old man, and he did not have much of a reaction when Qin Xuemei greeted him warmly, he observed the two of us for a while before opening the door and letting us in. From time to time, he gave me a doubtful look, which made me feel like I was on guard against thieves.

"Second Uncle, this is my classmate, he is ..." I'm a doctor, a psychiatrist." Qin Xuemei looked at me incomprehensibly. From the looks of her uncle, if I told him that I knew how to scheme against the little half-immortal, he would probably think that I was a liar that kicked me out. He would have to lie and say that I was a doctor so that he could at least believe me.

Oh, hello hello. My name is Qin Fen. This is my niece." At this time, his wife came in and saw us here. She looked at Qin Feng with a puzzled expression and said, "This is a classmate of Xuemei's, and he is a doctor. He specifically came to see our child." After the introductions, his wife chuckled twice and sat down as a form of greeting. The four of us sat together, staring at each other. No one said a word, the scene was extremely awkward.

After laughing for a while, Qin Fen then said: "About that, my wife, go pour some water." Qin Fen even scolded her for a few words, then turned his head and continued to smile at me. I'm not laughing here, not laughing, not even knowing where to put my hands and feet.

After a while, Aunt Qin came in with two big teacups, inside it was a cup of tea that was so thick it was black, she placed it on the table with a cup in her hand. Qin Fen very naturally picked up the cup on the table and took a sip, then the two of them started to smile at Qin Xuemei and me.

“Second Uncle, where’s Shu Tong?” Qin Xuemei broke the awkward atmosphere, placing the cup on the table with a “clang” sound, he said: “Right, let’s see a doctor.” Lifting our legs to leave, we hurried to keep up.

In the backyard, he took out the key and opened the door to a small, broken house at the very end. It was pitch black inside, and with a “pa” sound, he turned on the light, and under the dim light, he saw a young man, curled up in a big iron cage, with clothes all over his body. When we entered, there was quite a bit of noise, but he didn’t seem to hear us at all.

“Wake up, the doctor your sister found for you is here. Wake up.” Qin Fen shouted twice without any reaction, his mouth muttering to himself as he turned around and walked out. When he came in, he had a stick in his hand, and I thought to myself, what is he doing, he slowly walked to the side of the cage and fiercely stabbed the stick onto Qin Shutong’s body. The person in the cage roared and jumped up, knocking his head against the top of the cage and causing the cage to sway unsteadily.

It was such a thick stick that could even break a good person. I hastily went up to stop him and said, “Uncle Qin, don’t be like this, aren’t we going to treat him? If you poke him again, he is your son.” Qin Fen took away his stick, he stared at the people in the cage and said: “He’s not my son, how can he have a son who would hit my father? I don’t know where this bastard came from, if I knew, I would have taken it back for him, but if I saw him displeased, I would have given him some rat medicine and he would have died.”

The man in the cage woke up from the shock and stared at us with bloodshot eyes that seemed to be relaxed for a second, as if they were about to pounce on us at any moment, not like a human gaze, but more like the eyes of some predator, making me feel uncomfortable all over.

Qin Xuemei walked over and lightly called his name. He looked at Qin Xuemei with a face full of vigilance, not daring to come close, as if he was afraid that Qin Xuemei would hurt him. His eyes were filled with fear, and he kept on retreating.

We helped him into the room and looked at the people in the cage, I couldn’t tell that he had too much Yin Qi on him, there was a bit of Yin Qi on him, and as his movements slowly decreased, he opened his Sky Eye and found that not only was he not surrounded by Yin Qi, instead the Yang Qi was even more vigorous than normal people.

After bidding farewell to the Qin Fen couple, Qin Xuemei and I remained silent on the way back, both of us thinking about our own matters. After a long while, she asked me: "Sun Hao, did you notice anything?" I said, "I don't see anything. Maybe it's not hysteria. It's psychosis." "Impossible, my little brother was very obedient when he was young. He hasn't been around since he was young, how could he suddenly get over it?"

That night at dinner, as I watched Fool Girl fooling around with the child in my embrace, I thought in my heart about Qin Shutong. Could he really be insane?

"Stop messing around, hurry up and eat. Hao Zi, eat more pig's liver and make up your eyes." Senior sister's words brought me back from my thoughts. Just as I was about to use my chopsticks and look at the pig liver on the plate, my heart suddenly moves. Pig liver, eye nourishment, eyes ... Oh yeah, I saw a familiar feeling in Qin Shutong's eyes today. What was that?

The focus, wildness, and unrelenting feeling of staring at you closely came from his eyes. I racked my brains to recall it, then suddenly remembered, the fierce species, the fierce species I saw in the Spiritual Vein, the monsters whose bodies were covered in fur, the monsters who were nourished by the Spiritual Vein over the years, the monsters who could shed their black fur and become adults, their eyes and Qin Shutong's eyes were so similar, could it be ... Qin Shutong was a seed that had lost its feathers?

Thinking about this, I excitedly threw the bowl away, and 'bang' scared Fool Girl to the point that he couldn't laugh anymore. The child in my embrace looked at me with a face full of anger, and Senior Sister asked suspiciously: "What's wrong, Hao Zi?"

She didn't seem to believe me at all, and it's no wonder that she kept living a peaceful life. Who knows how many things there are in this world that she doesn't understand, and hasn't seen before. I made her believe me and hope that she could arrange for me to see her brother again.

Qin Shutong and Qin Xuemei are not related by blood, so there's no need to worry about Qin Fen and his wife being powerful seeds. As long as we solve the problem with Qin Shutong, there would be no danger, I don't believe that an iron cage and a small house can trap a powerful seed.

Record of Strange News in Northeast - C175

“Is it that serious?” That night, I found Qin Xuemei. I explained to her what happened to her brother downstairs and she obviously didn’t believe me much. Of course, no normal person would believe me.

I know it’s hard for you to believe, but do you think I’ve ever lied to you? Tell me the truth, your aunt and uncle are in constant danger.” When she heard my words, she hesitated, “But ...” You said Shu Tong is a... If he isn’t a monster of a human, how can I believe that? I watched him grow up from a young age, and there’s no difference between him and other people.

After talking for a while, she still insisted that her brother couldn’t be a monster. In the end, I couldn’t persuade her, so I gave up. “Fine, I know I can’t touch you. You go back, I’ll go by myself.”

“Where are you going?” she asked, and I said, “Of course I can’t just stand there and watch a seed that could burst at any time.” “Then what do you want to do?” She asked me nervously, looking into her eyes. I didn’t want to lie to her, so I turned around and said, “He’s a time bomb. What else can I do?”

“You want to kill someone?” I signaled for her to lower her voice, “What are you shouting for? He’s not a murderer, he’s definitely not a human being. It doesn’t matter if you believe me or not, in short, don’t let anyone else know about it. If I knew your reaction earlier, I wouldn’t have told you.”

Qin Xuemei was agitated, I could tell that she was trying her best to control herself. She took two deep breaths before raising her head to look at me. The waves beneath her calm words were strong, and I could feel them.

I told her a little about my background. I had already told her a bit about Li Zhu, but that was on the premise that she believed that there would be no small change in her view of the world after she said it. During my narration, she maintained an incredulous expression on her face.

She didn’t speak for a long time and only looked at me in astonishment. I knew that she wouldn’t be able to digest this in a short period of time so I stopped speaking. “I ...” “What happened to you?” “I don’t know how to put it, but I always thought that I was living in a safe and secure world. It was only today that I realized that there were so many dangers.” There are many people in this world who are protecting this kind of stability, so you don’t have to worry, just have to live a normal life like now. Think about it, even if this world is so dangerous, won’t you be able to safely arrive here from a young age? ”

When I had finished, she fell into a reverie, and after a moment said, "Yes, I haven't been in any danger at all." "Hey, then tell me, what's the biggest danger you encounter?" The greatest danger, let me see... "My parents caught me stealing food when I was young and beat me up." "You can't tell, but you can also steal food." "When I was young." "Then what did you steal?" "Medicine, take my mother's cold medicine." "Hahaha."

After I finished talking and laughed, I told her to go back. It was time to take care of her business. "I also want to go." "Don't make a fuss, it's not a fun thing to do." That's my brother, I must go." Seeing her resolute expression, I knew that it was impossible for her not to go. I could only agree, "Alright then. You can go, but you have to listen to me."

We went straight to her second uncle's house. On the way, I saw that she was a little nervous, so I said to her, "You don't have to be so nervous. Just treat it as having learned something. I'm here." She glared at me and said, "If you dare to do anything to my brother, I won't forgive you."

After arriving at her second uncle's house, just as she was about to shout, I hurriedly covered her mouth. "What are you shouting for? You can't let others hear you." "Then what should we do?" I have my ways, just watch mine."

The two of us jumped over the wall. She was quite nimble. "Sure, I didn't expect you to jump over here on your own. I thought I was going to throw you over." Tsk, do you think I know how to read books? I am my class' athlete."

The lock on the door was now extremely old. Qin Fen took out a Lockpicking Rune and covered all the locks on the door, and under his will, he felt the iron chain in his hand tremble slightly, and with a 'pa' sound, the lock opened. I opened the door and signaled Qin Xuemei to follow behind me. I pulled her in, still standing there stupidly.

I let her stand there without moving, and followed the sounds of her breathing to find the Qin Fen and Qin Fen. These two guys didn't even know that they had entered the room, and didn't have the slightest reaction at all.

"Pfft, it smells so bad." Before Qin Fen went to sleep, he also didn't know how to wash his feet. His big feet were exposed outside, and his toenails were completely black, so now I could clearly see the situation inside the house. Qin Fen and his wife were both covered in a thick blanket, lying on their backs, and Qin Fen didn't even have a pillow. I took out two Talisman papers and stuck them on their

foreheads. Instantly, the snores of the two of them disappeared and they fell into a deeper sleep. I pulled away Qin Fen's blanket and saw that guy putting the pillow on his waist.

"What are you doing? What did you post?" Qin Xuemei saw that I was sticking something on her second uncle's forehead and came over to ask me. After walking a few steps, he was immediately smelt by her second uncle's feet, "Oh my god, it's smelly, why does it smell like smelly salted fish." "Maybe they ate salted fish tonight." "What did you post for them?" I'm telling you, you don't understand either. "

The two Talisman paper were called the Forest Awakening Nightmare Talisman, they were able to cause people to fall into a deep sleep. The strength that these Talisman paper gave birth to was extremely strong, and it was difficult to wake them up from the outside world. I couldn't even wake them up from the outside world.

"Do you think the things you post will hurt them? I'm talking to you." Qin Xuemei kept on asking me, and I said, "Don't worry, it won't harm them. Look at how smelly your Second Uncle's feet are, it's obvious that his Qi Sea is in chaos with just a glance, to the point where his nose is useless. My Talisman paper can let him enter deep sleep, and fix his chaotic Qi Sea. "Is your Talisman paper so useful? Give me a piece." "You have the balls?" "No, I can't sleep well."

The two of us went out and went straight to the backyard. Under the night sky, no matter how we looked at Qin Shutong's house, it didn't look uncomfortable, it wasn't because the house wasn't nice to look at, but because the atmosphere of the house made people feel pressured. "Sun Hao, why are we here ... I'm a little scared. " Qin Xuemei's voice trembled as I consoled her, "Don't worry, I'm here." She gripped my arm tightly, making me nervous. I was regretting bringing her here. "Your little brother is locked up there. What are you afraid of." That's scary too. " she whispered.

Accompanied by creaking sounds, I pushed open the door of the small house. I muttered in my heart, where did this sound come from during the day, "Turn on the lights, Sun Hao?" I pressed her hand and she stopped talking. I perked up my ears to listen for any movement in the room, but there was not even a breath of air. Even then, I could still feel the breath of a living thing.

Qin Xuemei threw himself into my embrace, and the scene in front of my eyes made my scalp tingle. Qin Shutong stuck closely to the side of the cage, with both hands holding onto the cage, and his face also stuck to the cage, sticking too hard, to the point that the flesh on his face squeezed out a few scars, and this cage, for some reason, actually moved very far away from us. At this moment, the cage was only a few centimeters away from us, and Qin Shutong's face was only a few centimeters away from us.

I looked at Qin Shutong's pair of blood-red eyes and couldn't help but swallow a mouthful of saliva. I didn't know how it did it, but it didn't have the slightest hint of life at such a close distance, and its eyes revealed an expression of excitement and discomfort. I didn't know what that meant, I only knew that this cage was about to collapse.

Looking at the marks on the ground, it should have deliberately rolled over the cage. I patted Qin Xuemei's head to let her go, but she was so scared that she didn't dare move.

Helping her to the side, she looked at Qin Shutong, who was in the cage with a face filled with fear. Qin Shutong seemed to be uninterested in her, his pair of bright and spirited eyes was staring at me, making me feel uncomfortable.

I took out a rope and looked at Qin Shutong. I had wanted to let it out and tie it up with a rope, but looking at it now, I felt that that kind of method was a little dangerous. Furthermore, Qin Xuemei was also beside it, so I didn't dare to let it out.

"Xuemei, go out and lock the door. I won't let you open the door." I decided to stake it all, even if it's a severe species, I have the confidence to control it after activating the Fox Blood, "You ... What are you doing?" Qin Xuemei opened his big eyes wide, "Listen to me, don't worry I'll be able to handle it." "No, I'm here for you." Aiya, my young miss, you can't even stand up, who are you helping?"

I had finally managed to persuade her to get out with great difficulty, but to my dismay, I found that the iron cage's lock was indeed brand-new. I had no choice but to take out a Lockpicking Rune and carefully wrap it around the Talisman paper.

It stretched out its hand and stared at me closely, as if it was prepared to give me a blow. But I realized that the hole in the cage was too small, so it couldn't stretch out at all, I could only stretch out one finger. I then calmed down and activated the Fox Blood.

With one hand holding the rope that was as thick as a thumb, and the other hand slowly groping towards the back of my waist, just in case, I brought the Ghost Torture Stick along with me. After waiting for a while, Qin Shutong was still lying on his stomach on the side of the cage, looking at me, I can't believe, this fellow is so stupid to not realize that the cage has already been opened, right?

I walked over and pushed open the door of the cage, and the creature realized that it was free. It jumped out of the door of the cage, excited, and looked around until its eyes fell on me, its eyes wide, and it moved slowly toward me. I pointed at it, thinking about how I could tie it up, but it moved first.

It slowly bent its body down, and before I could figure out what it was trying to do, with a whoosh, a black shadow pounced over, and if it wasn't for the Fox Blood protecting me, I definitely wouldn't have been able to react. I swung it over its head, and it tilted its head, smashing into my shoulder.

Record of Strange News in Northeast - C176

C176

I was surprised by his strength. This guy grabbed me like a plaster that was stuck on my body. No matter how hard I tried to shake him off, I couldn't do it. His fingernails grabbed my arm and pulled out several red daggers.

"Scram." Although this fellow has a lot of strength, he doesn't have any brains. After being kicked by me, he was kicked out and something on the wall was knocked off. Qin Xuemei shouted from outside: "What's wrong, what's wrong, you don't need my help?" I didn't even have time to reply her. Just as I wanted to stop her from coming in, Qin Shutong pounced on me again.

This guy pounced on me and opened his mouth to bite me, but I used my arms to cover his neck. He kept on biting me, and not only was his mouth full of bad breath, even some saliva had dripped onto my body. He gave me a disgusted look and pulled out a Ghost Torture Stick Wheel, which I don't know whether it was because this guy was not resistant to beating him or because I used too much strength, but with a swing of the rod, he knocked him unconscious.

He took out a rope and tied it up in three go. This rope was made according to a special method, and was known as the Immortal Trapping Rope. The more he struggled, the tighter it became, and it was tough.

I panted heavily. Even though it didn't bring me too much trouble, it still made me sweat profusely, and looking at how it was still struggling non-stop after being tied up like a dumpling, I felt a little scared. It was just a young and strong seed, but it already made me work so hard.

"Xuemei, open the door." The Fox Blood slowly retreated. I felt my body becoming weaker as I knocked on the door. There was no movement from outside, "Xuemei, what are you doing? Open the door." I leaned on the door, clearly hearing Qin Xuemei's heavy breathing. She was obviously at the door, why didn't she open it and speak?

"Xuemei, what are you doing? Open the door!" I slammed the door hard. Suddenly, the door opened and I was thrown into the air. I almost fell down. "Why haven't you ..." I was about to complain when I saw two other people in the yard.

Qin Xuemei was obviously frightened by the two of them, and did not even know that he could open the door for me. I thought to myself that it was troublesome, it seemed that the two of them did not come with good intentions, and now that I felt weak, what should I do if the both of them suddenly attacked?

"Who are you people?" I forced myself to stand still and try my best to look strong so that I wouldn't reveal my weak side. However, I didn't know if I could hide it from these two.

"I'm going to take it with me." Behind me, there was only Qin Xuemei. She was shivering while hiding behind me, and when she saw the man pointing at her, she did not dare to reveal her head. I thought to myself, why is it so unlucky?

Normally, I might not have taken these two seriously, but for some unknown reason, ever since I returned from First Martial Uncle's place, I felt my body sinking. Especially after activating the Fox Blood, it was as if my entire body was dehydrated, and my legs were so weak that they were useless. This was a situation that had never happened before.

"What are you thinking, Uncle? I won't let you take her away." After I said that, I held the Ghost Torture Stick and pointed it straight at him, pretending to be desperate, but the man walked over without looking at me, I shouted out loud and threw myself at him, but I did not expect that the man would throw me off so quickly, with such an extraordinary strength, I could only watch as he walked towards Qin Xuemei, who knew that he would jump past Qin Xuemei, and enter the house.

After a while, he carried Qin Shutong out. Qin Shutong was still struggling non-stop, but the man was not affected at all, as if the thing on his shoulder was not a living person, but a little chicken. I realised who the two of them were, and just as he was about to leave, I said: "Are you two from the Li Clan too?"

"Yes, he's my child. He thought he could return to his normal human form, but you didn't give him the chance, so we had to take him away." "Where to?" "I don't know." "You've been observing it from nearby?"

The man pointed to the neighbor's house. "We've always lived here." I said, "Why don't you feed it yourself and give it to a stranger?" When it was born, we were not completely out of shape, so we had to do something about it. We have been around it ever since."

I said, "Aren't you afraid that it will show signs of being deadly?" The man shook his head and said coldly, "I thought it could live safely in human society, but who would've known that that illness triggered its nature, causing its condition to be revealed. When its life is threatened, it will break away from the control of its condition to fight against the threat, that's our instinct, we can't control it." I smiled wryly. "You're really naive for fantasizing about letting your child live in human society. You should know that there is an intrinsic difference between you and a human." "I have seen many species that live peacefully in human society, influenced by the influence of humans." The safety you speak of comes at the cost of the safety of humans. Have you ever thought about how humans around them are always in danger?" That's your problem. Why should I think about humans?"

He left me speechless. For a moment, I didn't know what to say. The man said, "You also don't want others to know about this, because you and I are the same. We are on the other side of this world and cannot see the light of day." After I finished speaking, I looked at Qin Xuemei who had curled up into a ball and said, "You know what I do, so why don't you kill me? The man turned his head and said, "Although this species does not belong to the human race, but I have never thought of becoming enemies with the human race." "I've seen people who were tortured to death. Do you know how miserable their deaths are?" I can only say I'm sorry, it's instinctive, I can't control it." "Then I'll help you control it."

Actually, the reason why I risked my life to talk to him earlier was because I wanted to attract their attention to myself and prevent them from harming Qin Xuemei in order to silence him. It was also to stall for time so that the Master Chang would have upper body.

Although Ghost Torture Stick did not deal any damage to monsters like Li Si, but a pure steel Ghost Torture Stick would not be able to withstand a fight like this. I did not know how long Master Chang's

strength would last, and since the Master Chang did not come with his real body, I could only end this battle quickly.

His reaction was extremely fast, and before he could even turn his head around, a hand had already blocked my wrist. I pushed the Ghost Torture Stick up, and with both hands holding onto his throat, I stabbed forward, and he grabbed onto my wrist, causing me to be unable to move at all. At that moment, a violent gust of wind blew over my head, and the woman ferociously ran over, clawing at my face.

Both of them stood up and looked at me coldly. I kept sending out psychokinesis to the Master Chang, hoping that he would give me more strength, if not I really wouldn't be able to deal with these two mature seeds. However, the Master Chang didn't seem to have any intention of transmitting any more power to me.

I tried to agitate the Fox Blood again, but the Fox Blood in my body seemed to be very tired, and did not move at all. Damn it, why do I have to do this at this time, and the two seeds in front of me cannot be a threat to my life, at least I have the confidence to run away, so logically speaking, the Fox Blood would only feel that the opponent is very strong, and would only fall asleep when they used all their strength, which is to say, they have to give up on me as their host.

Once again, the man carried Qin Shutong onto his shoulder and jumped off the wall. The woman followed closely behind, and I could only watch as they walked away, feeling the energy in my body slowly dissipating, a feeling of helplessness arose within me.

"Sun Hao..." Qin Xuemei was curled up in a corner, shivering, and it was obvious that he was quite frightened. I walked over to help her up and said, "It's alright, all of you have left." As soon as he said that, he felt dizzy and his legs went limp. In an instant, he felt like all the strength in his body had disappeared and his internal organs were all rolling around. He could not help but vomit a big puddle.

"What's wrong with you?" Qin Xuemei tremblingly tried to help me up, but her strength was too weak and she was frightened. She tried twice but was unable to help me up.

We supported each other as we walked out. Before we left, we took the Talisman papers off Qin Fen and his wife's heads, and when we took the Talisman paper away, Qin Fen's anger almost made me puke.

On the second day, after school was out, Qin Xuemei and I went to Qin Fen's house again. Before we even entered the door, we heard Qin Fen's loud shouting.

"What's wrong, Second Uncle?" Qin Xuemei asked despite knowing the answer. Her acting skills were top-notch, so I secretly gave her a thumbs up.

The two of us looked at each other, and everything was understood without words. "Then what should we do, Second Uncle and Second Aunt, you two don't need to be anxious, let's hurry up and call the police." "Yes, Xuemei is right. Call the police." Second Aunt Qin Xuemei said anxiously, "If he doesn't want to report, he can go wherever he wants to go. I'm not his father after all, so it's as if I haven't been able to feed him."

"You've been raising it for so long even if it wasn't your own child, why don't you have any feelings for it at all?" Are you still human? " Qin Fen shouted angrily, Qin Fen muttered: "You can't even blame yourself for giving birth to a child, if you could, why would you need to raise another person's child?" When Second Aunt Qin Xuemei heard this, she pounced on Qin Fen and started to kick him again and again. Feeling unsatisfied, she picked up her pillow and smashed it onto Qin Fen, "Can't you blame me?"

He even threw away the pillow, Old Liu said that this pillow could cure my illness, whether or not I can have a child in the rest of my life would depend on this pillow. You crazy woman, if you want to smash this pillow, you can do it yourself, but don't smash this pillow. He knew that Qin Fen's waist had problems, so he specially made this medicine pillow for Qin Fen so that he could sleep under his waist everyday. However, Qin Fen said that the Old Liu and his wife had also disappeared, it was truly strange.

It wasn't easy to persuade the couple, once Qin Xuemei said those good words, her second aunt just kept on crying. Qin Fen squatted on the floor and sulked, then Qin Xuemei said to me in a low voice: "It seems like the two of them will stop here, it's always like this."

When we came out of his house and looked at his neighbor's house, we always felt that something was different. This house should be Old Liu's house, the home of the two adult males, I suddenly wanted to go in and take a look.

"Come, let's go in and take a look." "That's not good. No matter what, it is someone else's." "It's fine, they left yesterday and went in to take a look." I was becoming more and more curious about the stratagems. I didn't know what I could find in their lair, but I wasn't imagining too much either.

The room was clean and tidy, and there were very few things. Other than some necessities, there was not even a speck of dust on the floor. It was really clean, and he did not know why it was so clean.

"Sun Hao, look at what this is." Qin Xuemei shouted from within the kitchen. I went over to take a look and saw a big bowl on the table, with greyish white powder inside. What is this? Qin Xuemei sniffed and said: "It doesn't have a smell." Indeed, it didn't look like food powder, and as we studied it, we couldn't think of anything.

Was it some kind of special food? Eating it could cure a hundred diseases? I dipped a little and put it in my mouth, "Hey, what are you doing? You don't even know what this is, yet you dare to stuff it into your mouth?" Qin Xuemei hurriedly stopped me.

I said, "It must have been eaten, otherwise it would have been in the bowl. I guess, when the two seeds were about to eat last night, they became aware that we were capturing their child and hurriedly ran out, forgetting about the meal. Thinking about it, it was not easy for these two, who have been by Qin Shutong's side all this time, to not be detected by anyone, they are almost like spies.

He took a piece out and put it in his mouth to taste it. It turned out to be cinders. He really didn't know what these two were thinking. Could it be that they were so poor that they could only eat cinders? This is also not food, I'm not hungry either. Spitting out the scented ash in his mouth, he said to Qin Xuemei: "This is scented dust."

"Soot? "Can it be eaten?" She looked at me in surprise and said, "You'll know when you taste it. It's good." "Go to the side, it tastes pretty good, yet you're still spitting it out."

Since he hadn't found anything useful in the kitchen, apart from the scented ashes, there were other grains as well. It seemed that the two straws hadn't reached the extent of eating scented ashes to appease their hunger.

"What do we do now?" Qin Xuemei smacked her lips as she looked at me. She still had not wiped the dust at the corner of her mouth clean, so I said, "Big Miss Qin, can you wipe the corner of her mouth first? She wiped her eyes randomly and said, "You're not the one who said that. The strychnine is a very dangerous animal. Three of them ran away. What should we do? Right, will they eat humans?"

Looking into her innocent eyes, I said, "Aren't you afraid?" "What are you afraid of?" "Those two man-eating monsters remember your appearance." "Don't be afraid." "Why aren't you afraid?" "I don't know.

"Holy Spirit, Earth Spirit, Chang Tianba, quickly appear." Ever since I went home, I have never contacted Master Chang and Master Hui, and Brother Liang didn't have the time to look for him either. It's mainly because of the tense situation in which I was studying, although Brother Hua's studies aren't as good as mine, but he has an unfathomable amount of confidence in himself. Every day he is leisurely and happy, and occasionally he even goes out to play football, maybe his thinking is different from mine.

"Master Chang, Master Chang, what are you doing? Why can't I contact you?" In fact, the only connection between Ma Xian and Immortals was through the use of a contract. Since the contract was signed, the only connection between the two was very easy, the so called chant was only support. A true almighty being has enough mental power, and with just a thought, a strong spiritual force would be released.

It took a lot of time before he managed to sense a weak signal from the Master Chang's side. He heard the Master Chang's voice in his head, "I'm very weak right now, I'll come and find you when I get better." Don't, Master Chang, I'll go find you. Where are you? " There's no sound from there anymore. Wild Immortals view their own lair as very important, and it's basically impossible for them to tell anyone else, even though Master Chang and I have a deep friendship.

"Master Hui, what are you doing?" Very quickly, I felt my body go into a state of numbness. Master Hui came over, "Why did you only just think of your Master Hui, it's not good enough for you." "Master Hui, I'm just afraid that you will forget about me." "Don't, I'm afraid you might forget." We began to brag, which was that if anyone saw it, it might feel weird, lying in bed alone, talking to himself and laughing every now and then.

“I have to go. Someone important is coming.” Just as I was speaking, Master Hui suddenly left in a hurry. Following after the softening on my body, I was unable to contact Master Hui anymore. “Master Hui, Master Hui, where did you go?”

How strange, why are they in such a hurry, and even talking about some big shot? Just as I was about to call out to the Master Hui, a light sound came from outside the window and interrupted me, as if something had landed on the roof. From the sound of it, it seemed to have landed very steadily, without any unnecessary movements.

“Brat ...” “Ah ...” Just as I was listening to the sound of the roof, I heard a sound close to my ear, and my heart almost stopped.

An old lady was hanging upside down on the roof, her head was next to my ear. Seeing that I was frightened, she chuckled and said, “Great Dairy, you don’t have to play like this. I’m too timid, so what can you do if you scare me?” The person who came was the old fox who he hadn’t seen for a long time, Third Great Grandma Hu. She jumped down after laughing for a long time, “Kid, I smell that you have a weird smell. You haven’t done anything good recently right?”

Without waiting for me to reply, a knock came from the door. “Hao Zi, what are you shouting for?” “It’s senior sister. I said,” It’s alright. I twisted my ankle just now. ” “Let me see how Wake looks like.” “No, no, no. I’m changing, it doesn’t hurt anymore.” That’s good, you’re so adult and you’re still so careless. ”

After fooling away Senior Sister, I said to Third Great Grandma Hu. “Senior Sister, why did you remember me?” She sat cross-legged on the table and fished out a cigarette pouch from somewhere and puffed. “Heh, of course I’m not so bored as to mess with you. It’s time to change your blood. Hurry up.”

So that’s how it is. I knew this old fox wouldn’t come looking for me because he had nothing better to do. “So that’s how it is. Grandmother, please wait a moment. I’ll go get something downstairs.” “Hurry up.”

I went to the kitchen and brought up a bowl. Before I even opened the door, I could smell the scent of smoke. The moment I opened the door, the room was filled with clouds and mist. Stop talking nonsense and hurry up. ” I put the bowl down. She glanced at it and said, “It’s too small. No, no. Let’s change it to a bigger bowl.”

Tap, tap, tap. She went downstairs and brought out a bowl. She looked at it and shook her head. "Too small, too small." I thought to myself, this old fox drank too much? He went downstairs and brought up a bucket. "How about this, milk?" "Yeah, that's more like it." When she finished speaking, she rolled up her sleeves and I looked at her. Third Great Grandma Hu was thin and small, and her height was still below my shoulder.

"You're not joking, are you?" She squinted at me and cut her wrist with her fingernail. Soon, bright red blood started to flow out, like an open faucet, into the bucket. It was like I didn't need any money, causing me to grin.

"Can it work? Too much milk, why don't we take a break?" The milk ignored me and let the blood flow. Soon, a large bucket of blood appeared in front of me.

"Drink it." Tai Cai licked his wound, and very quickly, it healed. Looking at the large barrel of bright red blood on the ground, I couldn't help but swallow a mouthful of saliva. "Tai Milk, this is a bit too much. How about I put it on first, I'll slowly ..." Without waiting for me to finish speaking, one hand of Tai Niu pushed open my mouth while the other hand picked up a bucket of blood and poured it into my mouth. Without waiting for me to finish speaking, one hand of Tai Niu pushed open my mouth while the other hand picked up the bucket of blood and gulped it down towards my mouth.

I covered my mouth and squatted on the floor to retch. Third Great Grandma Hu looked at the bucket and said, "It's not bad, it's pretty clean." He placed the bowl on the table. "It's your turn. Hurry up."

I cut my wrist and poured out a bowl of blood. The milk was much stronger than I could handle it, so I picked up the bowl and gulped it down. It was a bold scene, and I could see that she was also a heroine, so I wiped my mouth after drinking it and said, "Not bad, not bad, your blood is still so delicious. There are no side ingredients."

Looking at the blood-red teeth between my gaping mouth, I was a little scared. I just wanted the old fox to hurry up and leave." "You don't even know that? I came all the way here for too long. I'm not thirsty, I'm not hungry." "This old fox was going to eat and drink again. I said," "Wait, I'll go to the kitchen and see if there's anything to eat." " You have to bring the wine, I smell it. " Your nose is really good.

Master, Master, your disciple also doesn't want to steal your wine. I know that these are all your treasures, and normally you don't even want to drink them yourself, so you just take them out during New Year's Eve. Each bottle is Master's flesh and blood, and if you know that I gave my wine to someone else to drink, you might smash me with your wine bottle.

“Great Milk, see if it’s enough ...” “What are you listening to?” I brought food and wine into the room, and saw that Third Great Grandma Hu was leaning against the wall, she signaled for me to be quiet when she saw me enter, the room next door is Senior Sister’s room, what could she hear? At this moment, Senior Sister was already asleep, “What are you listening to?”

Tatiana ignored me, turning and grinding on the ground, rubbing her hands against each other, muttering, “Baby, baby.” “Too much milk, eat something.” What’s wrong with the old cunning fox? I hastily caught up to him and saw that she had snuck back into Fool Girl’s room, tiptoeing to Fool Girl’s room and peeked in through the crack in the door. Her mouth was so agape that she giggled, causing me to become nervous, “Too much milk, what are you interested in?” In the end, he ignored me and went through the gap in the door. I hastily opened the door and entered. “Aiyo, too much milk. Old man, don’t scare the child.”

Record of Strange News in Northeast - C178

C178

Third Great Grandma Hu looked at Fool Girl and the child, the corners of his mouth slowly splitting. His scarlet tongue extended out his long hair, and an unfathomable expression appeared on his face, “Supreme Milk, what’s wrong with you?” I asked.

She ignored me and licked the child’s forehead with her tongue, scaring me out of my wits. It couldn’t be that this old fox was hungry, right? It was said that wild immortals loved to eat children, not only because they were tender, but also because the baby was pure, had sufficient vitality, and the smaller the child, the better it was for them.

“Great Milk, what are you trying to do?” I was worried that she would give it to the child as soon as she got excited, so I quickly went over and held her hand. Her expression softened a little, “I’m not doing anything. Look at this child. He’s cute.” Lovely? It was not tasty, “It’s too milk. It’s too late today. Come back when you have time.”

She said reluctantly, "Well, this child reminds me of my grandson." When I turned around and left, my heart calmed down. If this thousand year old cunning fox really was determined to eat this child, then forget about me, even my master and First Martial Uncle would not be able to do anything to him.

When we walked to the door, Third Great Grandma Hu turned around and put his arm around my shoulders as he said, "Oh yeah, do you have some good wine here? Give me some." And I said, "Yeah, I'm going to..." Without waiting for me to finish speaking, the entire world suddenly became dizzy. Before I could react, I was sent flying out of the broken window.

I fell to the ground in a daze. The second floor wasn't too high, so I normally wouldn't fall that hard, but this old fox used too much strength. When I hit the ground, a hole appeared in the ground, and half of my body went numb.

At this moment, I only have one thought, this old fox finally made a move against that child, Master is right, we cannot use human standards to judge a wild immortal, at this time, from upstairs, a miserable scream came out, and then Fool Girl stuck his body out and shouted, "Murder, save me!"

I struggled to stand up and crawl up the stairs. Senior sister had also been woken up and was trying to console Fool Girl when she saw a big hole in the window of Fool Girl's house. It was from the time I flew out just now.

I thought that after knowing her for such a long time, she wouldn't suddenly fall out with me. But now that you mention it, I still view her as a human being, and now I know what it means to change one's nature so easily. Especially those thousand-year old demoness, she has long forgotten about kindness and morality.

"What's going on, Hao Zi?" Senior sister asked, and I told her where the information came from. Without saying anything further, she went back to her room to change clothes, and I said, "Senior sister, there's nothing we can do. How could she take us away?" The Senior Sister said with an unfriendly expression, "Even if we can't get it back, we still have to."

We followed the tracks on the ground for more than ten miles until we finally caught up with Madam Hu, who was walking slowly, humming a little tune as she walked, a broken branch in her hand and a bag on her back. It must be the child.

“Too much milk, return the child.” We stood not far behind her. When she heard my shout, she slowly turned her head and looked at us with a smile. “Aiyo, you dare to chase after me. This is too shocking. Looking at her smiling face which was full of creases, sweat started to roll down my back. This old fox’s personality is unstable, maybe she really can do this. When we don’t even have a corpse, how can we explain it to Master when we come back?”

“The child is ours, you can’t take it away.” I quickly pulled Senior Sister, not wanting her to anger Third Great Grandma Hu, but Senior Sister disapproved, and stared fixedly at Third Great Grandma Hu and the child on her back.

“Yours, with whom?” Third Great Grandma Hu was not angry, but smiled and asked. The senior sister said: “It’s ours, not mine and anyone else’s.”

“Hehehe, not too much. This child is even more of a beast race than I, an old fox. How could he stay with you? Doesn’t your master have some knowledge? Why not ask? Let this child live with you.”

Hearing her words, I seemed to understand the meaning behind Third Great Grandma Hu taking this child away. This child is neither a wild immortal nor a human, he is indeed a beast race, but Master didn’t say what harm this child would bring. Furthermore, after being together with him for so long, this child is basically no different from an ordinary child.

“Then what do you mean by ‘too milk’?” I mean go back. ” I just stood there not knowing what to do. Could it be that just because of a few words from her, I would be able to take the child away, but even if I didn’t let her take it away, so what? While I was hesitating, Senior Sister’s hands suddenly slapped her own neck and head.

“Senior sister ...” In a moment of desperation, the distance between the two of them closed by itself. In a moment of desperation, my Fox Blood didn’t move, and my eyes focused to the extreme, while my senior sister’s movements slowed down. Third Great Grandma Hu did not move at all, and under such circumstances, I could clearly see senior taking out the bronze sword in the air, as well as the two bright silver needles on her neck.

The needle could force out the potential in her body to the maximum. The potential of a human being is extremely terrifying, the moment it fires out, it would become so powerful that it would be scary in a short period of time, but it would cause great harm to the body, and it would also be very easy to harm oneself in this state, because in this state, the strength of the body would greatly increase. It would even give birth to the illusion that one could do anything.

In the blink of an eye, their movements had calmed down, the senior sister was already holding onto her sword and was slashing at the back of Third Great Grandma Hu's head with all her might, the silver needles on her neck were trembling because of the rapid expansion of the energy in her body, the sword was so powerful that even the rocks would shatter, and just as the sword was about to reach Third Great Grandma Hu's head, the Third Great Grandma Hu did not even look back as he casually swept the tree branch in his hand, shaking senior sister's attack away, then he turned and pointed his finger, causing the branch to fly straight towards senior sister's eyes like a poisonous snake.

"Be careful." I had already run halfway, and just when the Third Great Grandma Hu's branches were about to pierce into my Senior Sister's eyes, the scream I was about to make was already broken apart.

However, the branch still left a mark on her face. At this time, I also arrived, the Third Great Grandma Hu had a small tree branch on both sides and the two of us were busy working together, barely managing to block her attack.

One of the silver needles flew straight towards Third Great Grandma Hu, but Third Great Grandma Hu did not move or dodge. The branch in her hand tapped on the incoming silver needle and sent the needle flying. When the branch and the silver needle clashed, a metallic sound could be heard.

"Aiyo, this little girl is really energetic. It seems like I have no choice but to teach you a lesson." With that said, she rushed forward once again, the bronze sword in her hand slashing down, the fresh blood slowly caused the bronze sword to release a large amount of red light, the Yang Qi on it was stimulated by the blood Qi, revolving around the sword blade all around, a red light rushed straight towards Third Great Grandma Hu's throat.

That aura was extremely fierce and it did not seem like Senior Sister was controlling that sword. It seemed more like the sword was bringing Senior Sister along. Both of them had an indomitable aura, as if they wanted to perish together with the enemy in front of them.

However, the aura suddenly stopped in front of Third Great Grandma Hu. Half a meter in front of Third Great Grandma Hu, a wall seemed to have suddenly appeared, and an impenetrable wall blocked the way. The bronze sword and senior apprentice sister abruptly stopped, unable to advance any further.

"Hehehe, this little girl's firepower is quite good, I'll put out the fire for you." A strange smile appeared on Third Great Grandma Hu's lips. Not good, "Stop." I shouted and quickly went to stop her, but that

wall could not be passed through at all. Senior sister's body slowly floated towards the Third Great Grandma Hu.

She could only watch as Senior Sister floated over. When Senior Sister floated up to the top of Third Great Grandma Hu's head, she suddenly fell down, and Third Great Grandma Hu raised the branch in his hand. Senior Sister dropped it straight onto the branch, and the branch deeply embedded itself into Senior Sister's abdomen.

"Stop." I felt so helpless, so weak, that I couldn't even kill the person I wanted to protect the most. The Third Great Grandma Hu put her down and my senior apprentice sister fell to the ground without moving.

I thought that she would let us off on the account that Senior Sister and I are both juniors, but I never expected that she would actually be so ruthless.

Hatred, anger, it made my blood boil, killing, at this moment in my mind, I only had one thought, no matter who the person in front of me is, no matter what kind of terrifying monster she is, I will kill her. I slowly stood up under the pressure of this thought, I could feel an endless amount of power surging in my body, accompanied by a furious roar, I fiercely smashed the transparent wall in front of me, 'Bam!' The wall was broken by me, and I felt the obstruction in front of my eyes disappear.

Looking at the little old lady in front of me, the resentment in my heart reached its peak. I only had one thought, and that was to tear this little old lady into pieces. I didn't even dare blink.

With a 'whoosh', I shot the Ghost Torture Stick straight at her. The current me doesn't need a weapon, any weapon will restrict me, under my urging with all my strength, the Ghost Torture Stick shot towards her like lightning, but she didn't move at all, the Ghost Torture Stick just passed through her body and shot towards a tree in the distance. With a 'bang', I deeply embedded myself into the tree.

Even if she didn't move, I could still clearly see her movements. Indeed, the person in front of me was only a black clothed man, and under the clothes that fell to the ground, there seemed to be something squirming. I stepped forward and opened it.

As I turned my head, I saw a black shadow pouncing towards me like a hungry tiger pouncing on its prey. I took out two Five Thunder Talismans, and with the strong force of the Essence in my body, the Five

Thunder Talisman exploded. The powerful Yang Qi had scattered the black shadow and all the Yin Qi disappeared in an instant.

These two Five Thunder Symbols exploded at full power, dispersing the yin energy. The surroundings instantly became extremely quiet. I turned around and the child on the ground had disappeared.

Record of Strange News in Northeast - C179

C179

Where did she go, even the child she kidnapped. The Fox Blood on her body slowly faded, making me feel dizzy. I quickly closed my eyes and sat down.

At this time, I remembered something. Since Third Great Grandma Hu can be so ruthless, then when she came, she gave me that huge barrel of blood ... Thinking about this, I immediately became anxious. If she really did something in her blood, then I really ... Suddenly, I heard some groans. I opened my eyes and saw that my senior sister was slowly waking up.

The strange thing was, Senior Sister didn't seem like a seriously injured person. When she saw me, her expression was a little surprised. "Why are you here?" She asked, "Senior Sister, did you forget? We chased Third Great Grandma Hu here together."

She revealed a look of realization, "Yes ..." "But where is she?" "I don't know either. She ran away, so I won't talk about her anymore. Senior Sister, are you alright?" That tree branch was still brightly embedded in her Senior Sister's abdomen, and it seemed to be deeply embedded.

The senior sister looked at the branch on her body and pulled it out. "Don't ..." It was already too late for me to stop her. I saw blood spurting out from the wound. Her actions scared me. I panicked and walked over. "Senior Sister, are you alright?"

"It's fine, it doesn't hurt at all." She threw the branch far away, and her face showed a look of disgust. The blood on the wound stopped very quickly, and I found it hard to believe.

"Then let's go." "You want her to take her away?" "No," I said. I said, "At the very least, we're powerless to do anything. It's good enough that she didn't kill us. Let's go back and check on your injuries."

I thought that Senior Sister would take a long time to recover, but on the next day she would be able to walk normally, and the wound is slowly healing, and Senior Sister herself said that her body is in an unknown condition, even she doesn't know if it's good or bad. In short, the appearance of Third Great Grandma Hu has changed us a lot, Senior Sister's temperament became calmer than before, Fool Girl was depressed and depressed because of the departure of the child, I am also very worried that the child's situation will not end well in Third Great Grandma Hu's hands, I think that the child is pitiful enough, and furthermore I ...

That day, I was sitting in the shop, curled up in my master's rocking chair, watching the boring TV show. Why do you think the TV show is so monotonous now, or maybe a girl dressed up like a beauty is smiling, or maybe a man dressed like a dog, fighting all over the place. If you say that you can fight, then you can just fight one or two, and that group of people pounced on me like a group of ants, but with just a few punches, you think the audience is stupid, but there are really a lot of people who spend money on this kind of show, I really can't figure it out.

Just when I was bored to death, there was a knock on the door, and I stood up like a carp. I thought to myself: Is it Brother Hua or is it Brother Liang looking for me, or are they both here together, it's pretty good, listening to Brother Hua's nonsense is better than being bored.

The door was opened by a man who looked like a courier. He smiled and said, "Is this Master Xu's house?" I don't think so. I know Senior Sister, she basically wants to buy whatever she wants to order me to buy, if not she would be going to the nearest shop. If she could not go far, she would not go far, and Fool Girl would definitely not go far, she would not even spend money.

"Mm, yes, what is this?" "What are you doing?" I asked, and he looked around and came in himself. I asked warily.

"You must be Sun Hao right? Master Xu specifically sent this over, telling you to take care of it, do not touch it, this is a very important matter, he also said that he will be back very soon." After saying that, he took out a certificate from his chest pocket. It turned out to be from our department. "Then this ..." There's a formation set up by Master Xu here, but he didn't say anything else.

After saying that, he turned around and left. He really did come but he also left in a hurry without leaving even his name behind. However, since he is a member of his own department, I feel more at ease.

He placed the items on the table. The package was wrapped in a thick cloth, and upon opening it, it revealed a wooden box. The black and red wood was heavy, and from a glance, one could tell that this was no ordinary wood.

This wooden box did not say anything. All four sides were dead. Those who did not know what kind of solid wood it was would be. How could there be any formation array here? All that was needed was an axe.

Going to the backyard and taking out a small axe required a certain amount of control over my strength, so I told myself to be careful not to hurt the things inside, and to cut a gap in the box. It took me half a day to muster up the courage to gesticulate at the box, but the box didn't move at all, and I didn't feel any kind of feedback from the axe either.

He turned around and took out a saw. If there were more tools, it would be more convenient. Those who didn't know what would think that his master was a carpenter. There were all kinds of tools at home, but these weren't used for making furniture.

I laughed coldly at the box while holding the saw, thinking to myself, I can't take care of you, so I just pull. The sound of the saw blade hitting the box was very dry, I can't cut into the box at all.

Master, Master, you really give me a difficult problem. This piece of wood is not cooked or cooked well, it can't be stretched or pulled, it's just like a lump of elm. Ah, a lump of elm? Could this really be made from elm wood? But even if he knew what kind of wood it was made of, he still wouldn't be able to open it.

"What are you doing, Hao Zi?" The senior sister came down from the stairs and asked, "I heard that something was wrong. What are you doing with the axe? I just got Fool Girl to sleep." Senior Sister, Master sent this to me. He said that there was some formation array protecting it, so it couldn't be opened no matter what."

"If there's such a thing, why didn't Master say what it was and protected it? If you don't want to let us see it, then don't send it back. Seriously, it makes people's hearts itch." "Senior Sister, do you also want to know what this place is?" "Of course." "Do you think it might be some priceless treasure?" It looks like it, but what treasure could Master have? Look at his poor appearance, a few days ago the shop across the street asked me for money from his credit, he owes me several hundred yuan."

Yes, Master is indeed very poor. "This is a piece of wood..." "Do you think a fire will burn it?" "Oh, that's not good. A bunch of treasures inside were burnt to ashes. When Master comes back and sees them, he will definitely be angry." "Hey, what's there to be angry about? Let me tell you, maybe it's a pair of stinky shoes or socks or something." "Ah, shoes and socks, is there a need to put so much emphasis on them?" "You don't know, I've seen Master hide a pair of worn-out cloth shoes, and they look like treasures.

"I looked at this wooden box and couldn't believe that there was a pair of shoes or socks inside. If my master put the shoes or socks inside and brought them over from that far away, I'm afraid they would be rancid. Just thinking about this, I almost smell the sour taste unique to my master's stinky feet." "Pah pah! Senior sister, don't say anymore. I can even smell that smell." I said, "Burn it if you want."

We took the box to the backyard and started a fire. This wood was really strange, we burnt for a long time but still didn't burn it, the bottom was still burning, there was no change on it, is the fire too small? Senior sister and I increased the fire, this time touching it a little more, it became a little bit hotter.

"My life is on the line! How long will it burn like this for? Why does it look like a lump of ice?" I replied, "Let's wait and see." Just as he was speaking, he suddenly heard a series of cooing noises, "Hao Zi, your stomach is growling." The senior sister asked, "No, I'm not hungry." "It seems like something is making a noise, is it really not your stomach?" "It really isn't."

At this moment, another 'gu gu' sound rang out. This time, both of us could hear it clearly. It was coming from the wooden box. This scared us so much that we quickly threw it away.

"Hao Zi, you heard it too, right? This wooden box is making noises." "Senior sister nervously asked," I said, "No way, isn't this just a piece of wood?" "What is that?" "It should be the item inside the box." Oh my god, there's something inside, it's still alive ... "How terrifying."

We watched the box as it lay motionless on the ground without making a sound, and we didn't dare move. After a while, the box stopped calling. I stepped forward and gave it a light kick.

After a long discussion, both of us decided that the thing inside the box was a living thing, and not a good thing at that, or else it couldn't be sealed. "No, I think it must be a dog or something, Master Xu brought it back so that we can support it and take care of it, and play with it when we have nothing to do with it, it must be like this." said in an arrogant tone. After saying that, she didn't forget to throw a steamed bun into her mouth. Wow, the child was stolen by the Third Great Grandma Hu and she had been feeling terrible for the whole day, but now she couldn't see anything abnormal at all.

“Fool Girl, go wash the bowl. I’ll accompany you later.” The Senior Sister coaxed, “No, I’m not going. I don’t know what kind of dog is in there. I still want to play with the dog.” Fool Girl said angrily as he put down the steamed bun.

Even dogs couldn’t make a sound, let alone put it in such a small box. Now, it was definitely a living thing, but what kind of living thing could live in there? This box was sealed, not even a breath of air could be heard.

Looking at the box in front of us, both of us were at a loss. The more we can’t open it, the more curious we are. Master said that there is a formation on this box, so I will investigate what kind of formation it is.

As expected, I felt waves of energy fluctuations coming from within, and I immediately felt happy in my heart. When I was able to sense the energy flowing in, I suddenly felt a strong wave of pain, I was caught off guard and got hit by this power, and immediately I felt a sharp pain, it felt as if someone had hit me with a heavy object, and then it felt as if someone had sawed me a few times. I hurriedly retracted my hand, and looked at my body, at my chest, and at my back.

Record of Strange News in Northeast - C180

C180

“It hurts ...” Who’s hitting me?” Looking at the wound that appeared out of nowhere, I was at a loss of what to do. Senior sister was also dumbstruck as she stared at me. Obviously, she couldn’t understand the injury that suddenly appeared on my body.

The only explanation was the formation array inside the box. “This old man is really free. If you don’t want us to take a look, then don’t bring it out.” After more than two hours of fighting, we finally opened the wooden box.

As the wooden box opened in front of us, we stared at it, nervous and frightened. What the hell was this thing?

‘Goo goo, along with a loud cry, a toad appeared in front of us. This toad was really unlikeable, its body was covered with various colored pimples, red, green, purple, yellow, it looked disgusting, its eyes were

bulging, its big cheeks were pouting, and its mouth was almost as big as mine. Looking at its glory, I felt a little regretful that we had spent so much effort to open the box and let it stay inside.

“Senior sister ...” As soon as I opened my mouth to speak, the toad heard me and turned to face me. Its two large eyes were fixed on me, and I knew that the toad’s eyes could only see movement, so I did not move. When I saw it looking at me, I closed my mouth and said, “This thing is so disgusting.” The Senior Sister said in disgust.

As soon as I said that, the toad’s cheeks moved, and its large mouth opened. A stream of yellow water shot towards my face at an incredible speed, and before I could react, it was all smeared on my face. Luckily, my mouth was tightly shut, otherwise, I wouldn’t even know how disgusting it was to eat it.

That thing was sticky and tough, and its hands were wrapped in quite a bit of cloth, making me feel extremely disgusted. Seeing this, Senior Sister lowered her head and vomited without a word. She retched for a long time, but still didn’t spit anything out, causing her face to turn red and her neck to be unable to utter a single word.

“So disgusting...” Just then, Fool Girl came down. “What are you doing shouting so much for, you’re not letting me sleep.”

She came down and giggled at me. “Hey, what are you doing?” I ignored her. The big toad saw someone coming and aimed at her, making a ‘gu’ sound, which was loud enough to scare Fool Girl. When she saw the huge toad on the table, her mouth opened wide in shock, and with a ‘whoosh’, the big toad jumped into her mouth.

I saw the big toad go into her mouth just like that, and I immediately tried to grab hold of her mouth. It was useless inside, but it seems that she had swallowed it, causing Fool Girl to be completely terrified. Even her gestures and cries sounded out in fear, as I sat on the ground, thinking to myself, This is bad, this toad is my master’s treasure, and it was eaten by Fool Girl the moment I arrived, how can I explain this to my master?

Ah ...” What should I do? ” The foolish aunt said with a sad face, “I ate the big toad, wuu.” In my heart, I thought that the frog wasn’t any worse off than you, so what was there to be unhappy about? “Silly girl, don’t worry, just treat it as a snack.” He fooled around with the foolish girl, feeling extremely agitated in his heart.

'Gu gu gu ', just as I was feeling worried, a familiar voice catches my attention. Isn't that the voice of a frog? Could it be that there's another frog? I looked around but I couldn't find anything. The voice even sounded from time to time, until I finally realised that the sound came from Fool Girl's stomach.

No way, it's already in my stomach, how can I continue to scream. Fool Girl patted his belly and cried, "What should I do, I'm not married yet, I still want to get married. My god, I don't want to live anymore" Looking at Li Kui who was running around the room, crying and screaming, snot all over his face, and looking as if he wanted to drink too much, he became quite excited, "Fool Girl, don't be so excited, it won't scream later."

"Yeah, really?" Fool Girl instantly quietened down and stared fixedly at me, waiting for my explanation. "Later, when you digest it, it will stop shrieking." "Yeah, just wait until I pull it out."

The three of us waited until the sky turned dark, but we didn't hear the toad in Fool Girl's stomach anymore. We finally relaxed, it seemed that the toad had been digested by Fool Girl's stomach, and after tormenting for an entire day, it was finally time to get a good night's sleep.

"Oh my god, it's calling again. It's killing me." Just as I was sleeping soundly, the sound of a pig being butchered woke me up. Fool Girl was wailing like a ghost, some people thought that he had killed someone.

He sleepily opened the door to Fool Girl's room. The senior sister was also there, and Fool Girl was making noise on the bed with his white stomach and forehead covered in sweat.

"It's starting again ..." Senior sister looked at me helplessly and said, "Put down her clothes first. Her snow-white belly makes me feel dizzy." The Senior Sister reached out to pull her clothes, but Fool Girl refused to do so no matter what. "No, if it comes out later, how can I get out with my clothes covering me?"

Come out, come out from the stomach, what's going on with caesarean section? Fool Girl put his hands behind his back, with a look of pain on his face, he kept moaning. The senior sister asked her: "Where's the pain?" Hearing Senior Sister's words, Fool Girl was stunned for a moment, then said: "There doesn't seem to be any pain"

“What are you screaming for if you don’t love me?” I was so angry that I didn’t know what to say. Fool Girl looked at me angrily and said guiltily, “I’m always like this on TV ... “Hehehe.”

Fool Girl cried out as if he was accompanying someone else, and while shouting, he continued to lift up his clothes. Fortunately, I had quickly grabbed onto her hand, otherwise, this guy would have stripped himself clean, “You ... What are you doing?” I asked, and Fool Girl said, “No way, it’s so hot that it’s about to die.” As I said this, I tried to pull my hand as hard as I could, trying to get out of my grip as this guy had quite a bit of strength.

Just like this, the three of us played around for almost an entire night. Finally, in the early morning, Fool Girl’s stomach stopped growling, and he was so tired that he fell asleep, only then did he calm down.

The next day I went to school with a pair of panda’s eyes on my face. People were pointing at me along the way. When I finally got to school, the students around me were the same. It made me feel uncomfortable.

“Hey, deskmate, you didn’t sleep well last night ...” Ding Xiu looked at me. His eyes were about to narrow into two lines, I didn’t know what she was laughing about. Who knew that Ding Xiu would suddenly giggle while covering his mouth, the fat on his face swaying along with the laughter, causing me to feel a burst of cold sweat. Could it be that this fat lady’s brain isn’t working?

I came earlier than the rest of the students into the classroom in succession, when I passed by with a glance, with a snicker or surprise, isn’t it just a dark eye, looks like they have never seen the world before.

“Damn, you ...” “What is it?” It was unknown when Brother Hua appeared, but his face was full of surprise. I said snappily, “I didn’t sleep well last night.” If you didn’t sleep well, why did you vent your anger on your eyebrows? ”

Eyebrow? What happened to my eyebrows? I took Ding Xiu’s mirror and looked at it. Only then did I realize that the eyebrow on the left side of me had mysteriously decreased, leaving only that eyebrow there. No matter how I looked at it, it looked like a pile of fly poop, like a clown in a circus trying to be funny.

“Sure, how do you look this year? Behavior art? Isn’t that a little too weird? Even I, as a guy, am unable to keep up with your tempo now. Hao Zi, in the future, I will follow you. After saying that, Brother Hua gave me a thumbs up, full of respect for me.

Enduring the weird gazes of my classmates and teachers, I waited for school to end with great difficulty. I always thought that my skin was thick enough, but today, I realized that it was still lacking a lot.

“Sun Hao, wait for me for a while.” After school, I hurriedly walked out of the school. After leaving the campus, I heard a familiar voice behind me. It was Qin Xuemei. “Hey, what’s with those eyebrows of yours.” I said, “When you shave with a razor... “Heh heh.” I can see that shaving goes beyond my eyes. It’s almost the monthly test, so I signed up for a class. I’m going now, so you should go too.”

Actually, I wasn’t too satisfied with this kind of stuffing class. To me, this method of relying on time and a large amount of inflexible memorization to improve my knowledge level was simply too terrifying. I shook my head and said, “Forget it, I’m not going. Aiya, cut the crap. You don’t need money for the first three classes. Come with me and listen to it.

Qin Xuemei was forcefully dragged to the supplementary lessons by her, and was pretty far away from the school. As he walked, he frowned, “Wait a moment, my feet are hurting.” It’s not like me, I don’t even want to go through the two secret scriptures that Old Madame Liu left for me before he passed away. One is lazy, two is stupid, sigh, this person really can’t be compared with others, but don’t blame me completely, laziness is influenced by master, stupidity is hereditary, no matter how I look at it, you can’t blame me, “Hey, what are you thinking about?” Qin Xuemei shouted from across the road. I don’t even know when she went over.

“I really don’t want to go. How about I come with you tomorrow? Look at my eyebrows, they can’t let others laugh at me like that.” I begged her with a bitter face, but Qin Xuemei refused to listen to me, “This teacher is very amazing, you don’t even know how strong he is? I have a way.” After saying that, she took out a Band-Aid from her schoolbag and stuck it on my eyebrows. “That’s good.”

Students, you can sit here and prove that you are all ambitious. Students that aren’t ambitious, even class is a kind of torture for them, but actually, the process of obtaining knowledge should be a happy one, why would it be painful? This kind of mentality is wrong, when you overcome all the academic difficulties, won’t you all feel a sense of happiness? That classmate, that classmate is you, do you have anything to say?” The teacher was talking nonstop when he suddenly stopped and pointed at me. I said, “Reporting to teacher, I have nothing to say.”

Qin Xuemei looked at me and whispered, "Do you feel uncomfortable anywhere? Why are you constantly spasming?" Smoke? "Where did I smoke?" Your face, look at it, look at it, isn't it? " After saying that, she pointed to my left cheek, but I didn't feel anything. I reached out my hand towards my own face in confusion.
