Senior brother and master both lied down, while I was also sweating from exhaustion. Although Juul wasn't drinking, he slept very fast. Not long after he laid down, I heard him snoring.

I thought that it would be better for Senior Sister to stay away from that baby. Master said that the body constitution of that baby would easily affect others, and Senior Sister was indeed much more lively and cheerful these few days. However, after seeing Senior Brother Juul today, she became silent and cold.

I stood up and walked to the door of Senior Sister's room. I softly called out "Senior Sister." As expected, Senior Sister didn't sleep. She opened the door and walked out.

Senior sister stared at me expressionlessly. I asked with concern, "Senior sister, you don't seem to be happy today." The Senior Sister said, "It's fine, just a little tired." At this moment, a snoring sound could be heard. Senior sister scratched her head and said, "Let's go for a walk."

When we left the room, Senior Sister let out a long breath. I asked, "Senior Sister, Master said that baby will affect you. You should stay away from that baby for the next few days." The Senior Martial Sister shook her head and said, "I also know that I will be affected by that child. To be honest, it feels pretty good. It's just that reason told me that I shouldn't have done that."

I said, "Then when you saw senior brother Juul today ..." The Senior Sister muttered to herself, "I don't know either, I just feel very familiar with him." Seeing her downcast expression, I didn't know how to ask. I could only say, "Then what do you have to say to me? Don't hold it in by yourself, it's easy to get sick." The Senior Martial Sister smiled. "I know. You're really concerned about others." Seeing that my senior sister had smiled, my mood improved as I said, "It's better if you look good when you're smiling."

Senior Sister curled her lips but didn't say anything. I said, "Ai, Senior Sister, do you know where Master is bringing us to this time?" The Senior Sister replied, "I don't know." I said, "You haven't asked?" The Senior Sister said, "I don't care about that." I said, "Then what do you care?" The Senior Sister turned her head and patted my head. "That's right. What else do I care about?"

The next day, I woke up a little late. Maybe I woke up a little late due to the alcohol, but I was still in a daze after waking up in the morning. Master and the others were downstairs eating and chatting, so I only had some leftovers when I went down.

From their conversation, I knew that the team of archaeologists would either arrive today or tomorrow. They would take the initiative to contact us, and since I didn't know anything about them, I said, "I heard that this team of archaeologists is very powerful. They found many famous tombs." His Master said, "Oh, then he's a master. He's a match for me." After he finished speaking, no one spoke. For a long time, no one made a sound. Finally, his Master said, "This joke is not funny."

Other than Senior Sister and Senior Brother Jue, the rest of us were not quiet people. Sometimes, there was a hearty laughter coming from Senior Brother Ju, sometimes a baby's cry, sometimes a complaint from Senior Sister, sometimes a teacher's chatter, and sometimes a silly smile. I was extremely busy as well.

In the afternoon, Master's cell phone rang and we all sat upright, it seemed that someone from the archaeological team had called. Master answered the phone and we were all listening intently, Master coughed twice, pretending to be an otherworldly expert, and his voice became serious, "Hello, who is this?"

The sound was very noisy on the other side, as well as the sound of a car. The master yelled for a while before he replied, "Aiya, it's Master Xu, right? I'm Wang Tuo Zhang, where are you?" The voice didn't sound like that of an expert lecturer, but more like that of a peddler. I was a little disappointed. I couldn't even find my way here.

His Master spoke to him for a while, but he wasn't too sure. His Master said, "Stay there. I'll go find you." The person on the other side said, "No need, no need. I can find it." After saying that, he hung up the phone. All of us were stunned. Was this guy really an archaeologist?

After about half an hour, just as we were getting impatient, there came a knock on the door, and I hurried to open it. As soon as I opened it, I saw that there were quite a few people there, led by a man with glasses who was gentle and gentle. He was short and fat, with a smile on his face.

I hastily let them in. Master came up to me and said, "This must be Expert Wang, right?" The short and fat man said, "I am Wang Zhu Zhang, and you are Master Xu?" After they introduced themselves and sat down, the room became a little crowded.

Master and Captain Wang talked passionately, and I took the opportunity to size up these people. In addition to Wang Dazhang, there was a fellow who was about the same height as him, but obviously not fat, with thick black arms and a pair of eagle-like eyes. He looked like an expert, and beside him stood two young men, both of them were very smart, and although he wasn't very strong, he stood very straight, very spirited, and there was a woman, wearing a peaked cap, her face was hidden, and there was an old man sitting next to Wang Dazhi, probably in his fifties or sixties.

Through their conversations, Captain Wang and the others' task was to help them with the excavation work around XAL. Our job was to assist them in their role as a guide and bodyguard. Wang Tuozhang spoke very politely with a smile on his face.

Seeing that it was almost time for dinner and his master was busy cooking, Wang Tuo Zhang stopped his master and said that he needed to rest first, that he would leave in the evening and eat again in the evening. He did not expect that he would be in such a hurry and asked his master if he had a place to rest.

After a while, the senior brother said in a low voice, "This group of people are really strange. It's six o'clock and you should be sleeping." His Master nodded and said, "Yes, experts are indeed different from ordinary people." The archaeological team took up all the sleeping space, leaving only one room upstairs for the foolish aunt to carry the baby up. The master and the foolish aunt talked a lot, which basically meant that we shouldn't run around these few days, go to bed earlier tonight, strangers should not open the door, the foolish aunt kept nodding her head, and didn't know if she understood what he meant.

We sat in the lobby looking at our watches, not even daring to speak loudly, afraid to wake up the archaeologists. After waiting for two hours, the archaeologists seemed to wake up together as if they had agreed on a plan. Captain Wang looked at us happily and said, "I'm sorry, I've been waiting for so long.

Our luggage had already been packed. Captain Wang told everyone to check their luggage, and we were ready to leave.

There were two cars outside. One of them belonged to the archaeological team, and their people were sitting there while the other one was called over by Master. The few of us sat down, and Master acted as the driver.

The two cars drove on, me and Senior Sister in the back, Senior Brother Juul in the passenger seat, because he could drive, and he could always speak for Master, and Senior Brother Ji was in front of us, talking to Master. They talked a lot, but I wasn't worried that Master would drive the car into a ditch because he was too distracted by what he was saying.

I kept looking out the window, and the more I looked, the more excited I became. Senior sister, seeing me like this, said, "Junior brother, what's so good about this?" I said, "I get excited when I get in the car. Look, it's going really fast." In fact, I rarely take the bus, especially for long distances. The car always gives me a new feeling.

After walking for about an hour, we arrived at City H, Captain Wang had already booked a hotel, the dozen of us had already arranged our respective rooms, put down our luggage, and just as I was fumbling around excitedly, Captain Wang informed me from room to room that he was going to treat us to a meal. He wanted to treat us to a good meal, so the excitement along the way was quite a bit.

However, the old man did not drink much and did not have much to eat either. On the other hand, the remaining three men were quite enthusiastic, and seemed to hate seeing Senior Brother Zuyi too late, while the woman also took off her hat. She looked like a twenty-something year old student, and since she did not talk much, she took the initiative to chat with Senior Sister, seemingly not interested in other people, and did not plan to get to know them.

The short and stout man took the initiative to pull me over and sit with them. His name was Han Tieniu, and he drank a little too much, constantly asking questions and drinking as if he was drinking water. He didn't need any persuasion, and the senior advised him to take his time and not get drunk.

The remaining two men, one called Qi Jinsong and the other called Tian Bin, both of them were not very talkative but they were quite passionate. Judging from their behavior, they seemed like soldiers, this archaeological team was really complicated, after a while, the woman in their team sat over and took the initiative to talk to me and senior Juyi, she was called Li Jiannan, she looked very innocent, and kept asking questions, but I felt like I was being investigated.

When she asked how old I was, I purposely said, "I'm almost seventeen. Half an adult." However, she shook her head and said, "How can I let a child like you participate in a mission?" I was a bit unhappy. She didn't seem to notice and continued to ask me, "Are you guys Taoists? Do you all want to learn from a very young age?" I said, "I'm not a Taoist. I've been with Master for a long time, so I'll learn whatever Master teaches me." She continued to ask, "Are you guys all part of the same department? Are those mutes there too?" Moreover, senior brother Juul can't speak, but he can hear. I looked at senior brother Juul, and his face didn't look out of the ordinary, he heaved a sigh of relief in his heart and said to Li Jiannan, "He's my senior brother, and he can't speak because of an accident." Li Jiannan said, "Sorry, I'm not good with my words, don't mind it too much."

We didn't stay in the restaurant for long before Captain Wang led us back. Han Tieniu yelled, "You haven't had enough to drink, yet you're already leaving ..." I saw Wang Tuozhang glare at him, and he did not dare to continue.

C92

They set off early the next morning. The two cars sped towards the northernmost area at breakneck speed. The sounds of conversation were unceasing. It didn't look like they were here to complete a mission, but more like they were here for a tour of the city.

At noon we took a rest in a lounge, tired from the long hours in the car, went out to stretch our limbs, took a breath of fresh air, and fixed a meal in the small dining room nearby. The meal was ordinary, but the food was delicious and the eleven of us ate happily.

As we were getting in, Han Tieniu ran towards our car. He looked out and said, "I'll sit here. Our car is too crowded." Without waiting for the others to speak, he sat down next to the first senior brother.

We were too embarrassed to refuse, and he didn't mind. Han Tieniu and Senior Brother Ju chatted excitedly in the morning, but in the afternoon, I couldn't stand it anymore. I was sleepy, so Senior Sister told me to lie down and she sat down on a small stool.

"Hey, brother, what are you guys actually doing?" Han Tieniu rashly asked Ji Yi. "Taoist, you didn't watch those Taoists on TV. Do you know Lin Zhengying?" When Han Tieniu heard this, he was very surprised. "Aiyo, so everything inside was real. Then, have you guys filmed a movie before?"

I wanted to laugh, but in my heart, I thought that this guy looked to be very strong, but he didn't have many eyes. Senior brother Ju said with a serious expression, "Of course not, there was once a great director came to me and invited me to make a movie. How could I have the time to be busy all day long? Sigh, Lin Zhengying was accepted by my master, so he left after learning for a while."

Han Tieniu clicked his tongue in wonder. His master couldn't bear to watch any longer. "Brother Han, don't listen to his nonsense. Our main responsibility this time is to help you complete the mission. Nothing else is important." Han Tieniu and Brother Zu were chatting enthusiastically, truly an extrovert. While they were chatting, I fell asleep.

The dream that I had a long time ago replayed itself. This time, it was even more realistic, and the two Golden-winged Great Peng flew extremely fast in the clouds. One of them would occasionally let out a sharp cry, and from time to time, it would look back and forth, as if it was searching for something.

"Wake up, junior brother." I was woken up by someone. Even though he had woken up, he was still in a daze. He couldn't recognize the person in front of him, and he forgot where he was.

I blankly sat up and stared at the person in front of me. I only reacted after a long time. "Senior sister, where are we?" Senior Sister looked at me strangely and said, "We're about to arrive. Junior Brother, why are you in a daze? Have you caught a cold?" At this moment, I was completely awake and my head felt dizzy. Senior sister said this as she reached out her hand to touch my head and muttered, "I don't have a fever."

I don't have a fever, but actually, I don't even know where the limits of my body are right now. Last time I fought with Master Chang in the dry well for an entire night and the next day, I didn't feel tired, but after sleeping just now, I couldn't stand up and get off the carriage. It was as if I had experienced a fierce battle and only recovered after half a day.

I said, "It's fine, Senior Sister. Where are everyone?" The Senior Sister said, "They're all outside. Don't worry, they're not ready to leave either." I nodded my head and prepared to get off the car. After opening the car door, just as my foot stepped on it, my entire body suddenly fell to the ground. Senior sister rushed over to help me up.

Master, Senior Brother Wang and the members of Captain Wang's archaeological team were resting and chatting at the same place. I felt better after walking a few steps and didn't let Senior Sister support me, so Master wouldn't have to worry.

When Master saw me coming over, he threw me a bottle of water and said, "Haozi, you've slept for several hours already. You should have had enough sleep. This guy, he's already snoring."

I sat down and looked around me. It was about five o'clock and the sky was already dark. Although it wasn't cold, I couldn't wear simple clothes. There weren't any big buildings around. There was no road ahead, only an endless mountain forest.

The situation here is very steep, the car can't leave, so we can only walk step by step. But the people here are all strong and strong people, so it doesn't matter if we leave. Other than that old man and woman, I'm a little worried about them.

Who knew that the two of them weren't any worse off than other people? Especially that old man, he didn't seem clumsy at all when he carried a backpack that was as big as his, and he looked very relaxed.

I was quite familiar with this kind of terrain, and I didn't even have a goal. I didn't know if there would be any worth digging, so I moved closer to my Master and asked, "Master, where are we going?" His Master said, "Don't worry, Captain Wang said they have been preparing for this mission for seven or eight years. Although they have never been here before, they have studied this place 800 times on the computer.

After saying that, he took off my backpack and put it on his shoulder, "Haozi, why don't you look good? Are you tired?" I said, "It's okay. Maybe the air in the car isn't good." His Master muttered, "I obviously opened the window."

After walking for more than 20 minutes, we arrived at a small river. I found it strange as there shouldn't be a river here. Master asked, "Captain Wang, how do we get there?" Captain Wang said, "We have a boat. We'll take it."

Just when I was feeling curious, Qi Jinsong took out two big bread-like items from his backpack. Tian Bin took out something that looked like a cylinder and inserted it. After Tian Bin pressed on it again and again, the two big breads slowly bulged until they eventually turned into two concave mattresses.

I opened my mouth wide in shock. My master took the opportunity to pat my head and whispered, "You're quite promising. Don't look as if you've never seen anything before."

The few of us were on a boat, and the old men from the archaeological team were assigned to our side, because Captain Wang was worried that we wouldn't be able to use them. They were leading the way, and everyone's backpacks were hanging on either side of the boat, and I was amazed that their backpacks were actually floating on the water.

The boat slowly floated forward, and because there was no driving force, it moved very slowly. At a bend, Captain Wang and the old man stopped the boat, and they put it away. We continued to walk forward, and soon, there was no more road ahead, only weeds that were as tall as a person's knee.

Captain Wang looked at the navigation tool in his hand and firmly said, "It's right in front, we're almost there." Han Tieniu led the way in front while we followed behind. I really couldn't understand what this desolate mountain and wilderness had to offer.

After ten minutes, Wang Tuo Zhang shouted in surprise, "We're here." Li Jiannan took out an electronic device and slowly walked to another place. The others sat on the ground while I looked around, this is a place at the foot of the mountain with no path to the top. I didn't know what they were looking for.

This is it," Li Jiannan said, stopping in the shadows. After that, he told us to cover our ears. They busied themselves for a while, then immediately ran away, and with a loud noise, a new hole actually appeared in the ground. Captain Wang called for the few of us who were standing there foolishly to follow him, and Master muttered to himself, "There really is a way to do this." Here

We entered in a line, and after entering, we found ourselves in a different world. It was like a world on our own, and when the autumn wind was cold, there were warm gusts of wind blowing in here, as if it

was summer. All kinds of flowers, plants, trees, and trees were blooming, and the sounds of birds chirping could be heard every now and then.

For a moment, we forgot our purpose in coming here, and we were all amazed by the wonders of nature. As the first senior brother walked over, he said, "Is this real or fake? This is clearly summer." I was also surprised and didn't know what to say. A little bird actually flew over and landed on a tree in front of us. It turned its little head and stared at us.

Wang Tuo Zhang was extremely excited as he looked around. His teammates were also the same. The old man was actually crying from excitement. But, the Senior Sister was frowning as she said, "This place is so strange, it shouldn't be a good place." His Master said, "We'll just have to adapt at random. Maybe there's something ahead that's waiting for us."

Han Tieniu rolled back and forth on the grass, rolling about until his entire body was covered with unknown wildflowers. He constantly placed them on his face and greedily sniffed them, exclaiming in praise, "So fragrant, smell them."

Captain Wang was the first to recover his composure and lead us forward. His master quickly walked forward and said to Captain Wang, "Do you know where we are?" Wang Tuo Zhang smiled and said, "Of course, this is something that we have been studying for many years. We have always talked about it on paper, but we never thought that we would actually have a chance to experience it for ourselves."

His Master frowned and said, "You mean this is also your first time here?" Captain Wang said, "Yes." His Master said, "This place is so abnormal, there might be something wrong. Captain Wang, if you encounter any danger, you must listen to my commands." Captain Wang smiled and took out a small handgun from his backpack, "Master Xu, this gun can pierce through a black bear, what are you worried about?" Master stopped talking and secretly told us to be on high alert.

After walking for a while, a cave appeared in front of them. Captain Wang excitedly said, "This is the place. The Spiritual Pulse must be here." I didn't know exactly what the so-called spirit veins were, but Grandma Liu had told me that the Immortal Meridian was an extremely spiritual item. It could be a mountain, or it could be a small rock, and many of the refined wild immortals cultivate by relying on the Immortal Meridians. The Immortal Meridians have the power of immortality, so it can protect people and objects from invasion, and even by becoming an immortal, the Spiritual Vein has the intelligence of humans, and those close to it are all rare and precious treasures.

It was already a blessing for an ordinary person to be able to touch even a little bit of the immortal spiritual energy within, not to mention taking it as their own. Now that the spiritual energy has weakened, Grandma Liu had only heard of the rumors about the Immortal meridian, and she only accidentally touched it when she reached the SC level. Granny Liu has been doing good all year round to obtain a bit of the spiritual energy in return, and only by being able to increase her cultivation greatly could she interact with that thousand-year old fox, Hu Tai-shu, for example, Grandma Liu and I, had said that the Immortal meridian was not something that a human could control.

C93

The master went up and pulled Wang Tuozhang back, "Captain Wang, I know you are an expert in this field. I shouldn't have stopped you from doing anything, but I want to know what's the matter with the spirit vein you mentioned just now."

With a cold expression, Wang Tuozhang said slowly, "Master Xu, you should know that you are only responsible for assisting me. Moreover, this mission involves national secrets, so you don't have the authority to know about it." His Master was silent for a few seconds before saying, "I understand." Wang Tuozhang laughed out loud: "Hahaha. Master Xu, don't worry about it. This is what the higher-ups are saying, we can only listen to them, can't we?"

Senior Martial Brother and I looked at each other and couldn't say anything. Wang Pushang waved his hand and said, "Follow, don't fall behind."

The cave was very wide and had countless small holes on it. Sunlight shone down from the holes, so there was no need for lighting, no one knew how long it had been since animals had entered the cave, not even a trace of unnaturalness could be seen. He could feel the wind blowing back and forth, but he didn't know how far away it was.

Suddenly, my entire body shuddered and I couldn't help but shiver. Senior sister asked me, "Junior brother, what's wrong?" I said, "There was a strange feeling just now, as if something had passed by. It

was very dangerous.” “Don’t make any noise,” his Master said. “Take the opportunity to act. Make sure the archaeological team is safe.” We all nodded.

This cave is very strange, I don’t dare to circulate the Fox Blood. It will take me a period of time to recover after activating it. I’m worried that there will be danger while I’m recovering, so it isn’t a joke.

Wang Tuozhang led the archaeological team in the front and his master followed closely behind him. The rest of us followed behind, and slowly, the more we went, the darker the holes became. Han Tieniu scolded, “F * ck, why is this place so slippery? Captain, let me turn on the lights.” Wang said, “No, I don’t know how much longer we have ahead of us. We can save as much as we can.” Han Tieniu could only take out his flashlight and put it back. He squatted down to tie his shoelaces, muttering to himself. Like this, he was left at the back.

Senior Martial Brother, Senior Martial Brother, and two other Senior Martial Brothers also came. When we passed by Han Tieniu, Senior Martial Brother, he said, “Hurry, don’t be alone.” “Yes!” Han Tieniu agreed. He lowered his head and continued tying his shoelaces.

The road ahead was getting darker and more twisted. Wang Tuozhang and his Master had no choice but to slow down. At this moment, I heard someone from behind shout, “Wait for me a bit. Hey, how come you guys are so fast?” Then came heavy footsteps and heavy breathing. He didn’t even need to look to know it was Han Tieniu. The senior brother stopped and said, “Why are you so slow ...” “Holy shit, what is this?”

As soon as I heard the scream, I hurriedly turned around and saw a huge black gorilla like thing trotting towards me. I saw that senior brother was the closest, he was already a few steps away from senior brother, we were all startled, we did not need to purposely trigger it, the fox blood had already soared at its highest speed, senior sister and Ju E also quickly recovered from the fright, ready to welcome us, Ju Yi was not so lucky, before he could react, he was knocked away by the monster, his body smashing into the wall. The monster did not stop, it rushed towards us.

When I got closer, I could see that the monster was tall and big, its entire body was covered with black fur, and its face had long black fur. Its body was similar to a human’s, so I couldn’t see its facial features clearly, but from the large teeth that were baring them, it didn’t seem like a nice creature.

He took a deep breath and exhaled towards the incoming monsters. In an instant, a long pillar of fire was sent flying towards the monsters, and because the monsters were too fast, they were unable to

dodge it. The flames burned the monster until it gave off the smell of roasted rubber, causing it to scream in pain as it ran back in a flurry.

After seeing the monster run away, we let out a long sigh of relief. I said to senior apprentice brother Ju E, "Senior brother, you're really amazing. Neither I nor senior sister know how to use this Divine Flame Talisman." The Senior Sister said, "Stop flattering me. Let's quickly check on how Brother Juyi is doing." Only now did I realize that the first senior brother was still lying on the ground.

After helping him up, the first senior brother shook his head and said, "I'm fine. What was that thing just now? How strong was it?" I said, "Senior Brother, did you hear Han Tieniu's voice just now?" The first senior brother said, "Yes, I thought it was him. Where is Han Tieniu?"

This doubt could not be resolved for the time being, so the Senior Martial Brother stood up and said, "Where did Martial Uncle and Captain Wang go? Did they not hear such a big commotion?" I was about to break out in a cold sweat. Lost in this place was the worst possible outcome, because only Wang Dazhang knew where to go.

"It can't be that the archaeologists have intentionally left us behind, right? What's going on?" The Senior Sister said, "No, they have no reason to leave us behind. Besides, Master is with them." We rushed forward, hoping to catch up with our master and the rest, but after walking for a long time, we could not even see a trace of humans.

His physical strength was limited, and this place was even hotter than the outside, and his clothes were all wet with sweat. Senior brother Ju took off his jacket and wrapped it around his neck, only wearing a vest that revealed his firm muscles. His white face was covered in sweat. Senior brother Juul took out a bowl, placed it on the ground, twisted open a bottle of mineral water and poured it into the bowl. Only then did the talisman paper burn away, and the ashes slowly condensed into a straight line, pointing at the fork in the road to the left, "Come here." The three of us followed closely as Shixiong Juyi took the lead and walked forward with the bowl in his hands.

The more I walked, the quieter it became, but I suddenly became nervous. The fox blood in my body was moving erratically, and I also became agitated, adding to the heat in the cave, the nameless fire in my heart burned hotter and hotter. In the end, I couldn't hold it in any longer, so I threw the backpack on the floor and shouted, "I'm not leaving anymore."

The first senior brother stopped and said, "What are you doing? Hurry up and leave." Senior sister pulled my hand and said, "Why don't we rest for a while?" However, the first senior brother disagreed

and said in a huff, "No, we have to go." After saying that, she came over and pulled my other hand, wanting to pull me up. Seeing this, the senior sister became a bit angry and pushed her senior brother away, "What are you doing? Can't you see that junior brother is tired? If you want to leave, you can leave."

Anger had already filled my heart, and I did my best to control my emotions. As senior brother and senior sister argued, the face of the senior brother of Ju Yi turned completely red, "Is this the time for rest? We don't know how far we have been left, and our lives are almost taken, so we feel tired. That Wang Dazhang just wants to leave us behind." In the end, the Senior Martial Brother almost shouted out with a roar. The Senior Martial Sister also had an angry look on his face as she said, "If you want to leave, go by yourself. What are you shouting for?"

At that time, I didn't think too much about it. After arguing with the Senior Sister for a while, I angrily threw my bowl on the ground and said, "Fine, if you don't leave, I'll leave." After saying that, he quickly walked away, and very soon, he could no longer be seen.

The moment senior brother's figure disappeared, I immediately felt the anger in my heart disappear. I immediately calmed down and said to senior sister, "It's too dangerous for senior brother to leave by himself. Let's hurry up and follow him." Senior sister also came to her senses and nodded her head. The three of us ran in the direction that our senior brother had left in.

However, just like Master and the rest, I couldn't even find any trace of Senior Brother. I said to Senior Sister, "What happened just now, Senior Sister, did you feel it?" The Senior Sister said, "Yes, our emotions were disturbed just now. This cave is really too strange." I said, "Right now, Master and the rest of us are together, so it should be fine. The three of us can take care of each other as well. Only Senior Brother is in danger." Just as he finished speaking, he heard voices in front of him. "Junior Brother, Junior Sister, I'm here. Hurry and follow me."

I said pleasantly surprised, "It's senior brother's voice." Just as I was about to run forward, senior brother Juul stopped me and solemnly shook his head. Senior sister was also like that, and suddenly I broke out in a cold sweat. If senior brother Juyi was in front of us, he would definitely come and find us. Just now, we heard Han Tieniu's voice and a monster appeared. What is it this time?

Senior Sister took the bronze coin sword and placed the Five Thunder Divine Talisman on her left hand, indicating that we should slow down and move forward. The three of us slowly moved forward, and the voice seemed to know that it couldn't fool us.

Then I felt as if something were stroking my hair, and I jerked my head up and faced a large, dark face. Startled, my three spirits cried out, and I swung the staff at that large face.

With a “weng” sound, the stick struck empty air and the monster’s speed was extremely fast. It retreated back into the small hole on top of it at lightning speed. By the time Senior Brother Gui and Senior Sister Gui reacted, they only saw a black thing that disappeared in a flash. I said, “I don’t know, but it’s not as big as the one we just met. Otherwise, we wouldn’t be able to shrink back into that small hole.”

The holes here were crisscrossed, as if they were connected to each other. It was impossible to find the monster, and the monster was frighteningly fast. I swallowed my saliva and said, “I don’t know how many monsters there are here. It’s better not to provoke them.” Just as she finished speaking, a dark face suddenly appeared from behind Senior Sister. Just as I was about to extend my hand to warn Senior Sister to be careful of her back, I heard a piercing sound, and Senior Sister let out a scream.

The black monster seemed to have appeared out of nowhere like a ghost, and I took out a small bottle of white wine. I washed my mouth with white wine, and spat it out, and then spat it out, spraying it on Senior Sister’s wound, causing Senior Sister to frown and moan in pain. I put Senior Sister’s backpack on my shoulder, and at this moment, the enemy was in the dark, so I had to leave this place as soon as possible.

Record of Strange News in Northeast - C94

C94

I had been on tenterhooks the entire way, afraid that a dark shadow would leap out of a corner and pounce on me.

At this moment, a familiar voice rang out from the front, “Come quickly, come quickly.” The three of us quickened our pace towards the source of the voice. Senior brother Juul’s calm face was also filled with anger. After going through so many trials, the few of us didn’t have any patience left.

After a turn, there was a small black monster standing not far ahead, grinning at us and dancing with his hands and feet. I cursed in my heart, Damn you beast, watch how I catch you and take care of you.

When the little beast saw me coming towards it, he grinned and shouted, "Come on, come on!" I rushed towards it, and as soon as that little beast cried out, it turned around and ran away. I was so angry, how could I let it just run away like that? I pushed with all my might, and the more I ran, the faster I ran.

It ran really fast, like a monkey with four hands on the ground. Seeing that I was getting closer and closer to it, suddenly, my feet slipped, and my entire body fell into the sand. Before I could recover from my shock, I heard a "boom" sound from below my feet.

I landed on a large landslide, steeply sloping, and covered with sand. I skidded for a good while before I stopped, as if on a slide, and was about to stand up when I heard a shout from behind me, and I turned my head and a man slammed me out of the way, hitting me so hard I could feel the dirt all over my face.

That person helped me up. It was Senior Sister. I said, "Senior Sister, why have you come down as well?" It turned out that the moment senior sister saw me fall down, she was worried about me and also jumped down with me. It seemed that senior sister saw the moment I fell down, she was worried about me and also jumped down with me. I shook my head. The place where I had fallen, although steep and long, was full of sand. The impact hit the sand.

The Senior Sister said, "Let's go around and see if there is a way out." I nodded my head. Just as I took two steps forward, I heard a sharp shout coming from behind me. A small figure slipped down the slope. It was that little monster. When it saw that there wasn't the slightest bit of fear on our faces, it jumped around happily while making 'jiao jiao jiao' sounds from its mouth.

I cursed silently. Just as I started to walk towards it, Senior Sister grabbed my arm and my heart sank as I turned my head. I didn't know where, but I could see a large black mass of people, tall, short, fat, and thin. They looked like humans, but the black fur on their bodies and faces clearly indicated that they were in cahoots with the little monster that was luring us into a corner.

In the face of such a situation, it would be strange if she wasn't afraid. My hands were also covered in cold sweat, constantly telling myself to calm down, while simultaneously circulating my fox blood to summon Chang Tianba, this was my only chance, but I don't know why, I couldn't feel his aura, I slowly fumbled in my pocket for the Five Ghost Talismans that I had found, biting my fingers and rubbing them

on the talisman, but I didn't feel any strength on the talisman at all. I immediately felt a kind of despair that I shouldn't have been able to call out everyday. At this moment, I felt two hairs in my chest.

The monsters formed a circle around us, cheering as if to celebrate the success of their hunt. They were ugly, with protruding mouths and large yellow teeth protruding from their mouths. They had large, fat noses that faced the sky, and their small eyes shone with a greedy light.

The Senior Martial Sister whispered, "Junior Martial Brother, I will use the Sunflower Heavenly Attraction Charm later. If you can escape, find Master to save me." When she activated this rune, it would attract the nearby currents of the underground to attack the enemy. This rune's strength is extremely great, and the consumption is also extremely great, and is not something that Senior Sister can control, it is basically a forbidden book, even Master does not dare to easily use it, what she is doing is simply using her life in the fight, Senior Sister just took out the talisman and I immediately tore it into pieces. Senior Sister angrily said, "What are you doing?"

I said, "Even if you save me like this, I won't let you get away with it." The Senior Sister hurriedly said, "You're still talking nonsense. When you go out and find Master ..." Senior Sister, don't lie to me. Not to mention whether I can go out and find Master, even if I can go out, you will still be exhausted by the talisman paper.

The Senior Martial Sister's expression dimmed. "Junior Martial Brother, you're still young. One of us should be alive." I shook my head. "It has nothing to do with age. I won't leave you behind."

While we were talking, the monsters stopped talking and a tall monster walked out from behind us. This monster wasn't like the other monsters, it was covered in black fur, it was covered in gray hair, its face was not much different from the monkeys in the zoo, it was just bigger, and I could see something special in its eyes, it was the look of a human being mixed with emotion.

The gray-haired monkey came out and stared at us. I was very uncomfortable facing his extremely human eyes, and I was staring at him fiercely when a voice spoke up in my head. "You can go now."

I turned around and looked around. There was no one there, only the grey monkey in front of me. I asked in astonishment, "Are you the one that was talking to me?"

The grey monkey nodded, and I heard his voice again. "You can leave, but she has to stay." After saying that, the grey haired monkey pointed at my senior sister. Originally, I had just relaxed my nerves, but after hearing his words, I tensed up again. I said, "What do you mean by that?"

"She's going to stay and bear my child." Hearing this, I had the urge to beat this grey monkey up, but after looking at the black mass of people around me, I could only control myself. Senior clearly heard its message, so she said, "That's impossible, unless I die." The grey monkey didn't seem to feel our anger, "I won't let you die, and I won't let you leave this place."

The group of monsters let out retching sounds as they slowly surrounded us. It seemed that they were serious as they lured the little monster that was in front of me to come closer to me, making threatening sounds. I activated Fox Blood and said to Senior Sister, "Don't go too far away from me. We'll kill our way out."

I stimulated the fox's blood to its limits, the roots of my hair stood up, and my blood vessels expanded. The little monster let out a strange cry and rushed towards me, pouncing on my back, I grabbed onto its hind legs, and with all my strength, I smashed into the ground, immediately causing it to froth at the mouth and faint.

This group of monsters have been active in the underground all year round, so the Yin energy on their body is very heavy. Senior Sister's bronze sword is really a sharp weapon to restrain the Yin energy, and Senior Sister's agility makes those monsters unable to get close to us. Although I don't have a weapon, I can still deal with those monsters with the full power of the fox's blood.

After I knocked them down, I immediately stood up with a howl. As I got closer to her, a big monster suddenly grabbed me from behind and viciously threw me against the wall with a 'bang' sound. This monster had a lot of strength, even though I had the protection of fox blood, but it still caused my eyes to pop out of their sockets. When I fell onto the ground, I took out the whip that was wrapped around my waist and started running towards the front of the group.

The whip whistled as it lashed its face, making it cry out in pain before rolling back and forth on the ground. It seemed that these monsters were aware of the pain. The other monsters also stopped in their tracks when they saw the monster on the ground.

When I was young, I used the whip, but now it works perfectly well. The whip is like a venomous snake in my hand, drawing a trail of blood with it as I rushed out in the direction of my senior, a monster with its back towards me. I swung my wrist, and the whip tightened around its neck, forcefully pulling it down

onto the ground, slapping away the other two monsters with a 'whack' before coming to stand beside my senior.

When Senior Sister saw me coming over, she forced her body to relax and fell to the ground. I quickly helped her up and her face became deathly pale as a result of overexerting her power. Senior Sister smiled bitterly and said, "Junior Brother, I didn't think that we would die in such a damned place." I gritted my teeth and said, "Even if I had a breath of air, I would still bring you out."

Even with the thousand-year fox blood on my body, facing this bunch of monsters that looked like they couldn't be beaten to death, I still had a feeling that I wasn't strong enough. Gripping the whip tightly, I could only pray that my master and senior brothers could come, but I also knew that if my master and the others could find us, they would have already found us long ago. At this moment, a voice suddenly sounded in my head, "Brat, how did you make yourself look so bad?"

I was elated. "Who are you?" The old voice said, "Your memory is too bad. You almost broke my treasure, yet you still want to ask who I am." I said, "Your baby? "What treasure?"

"Brat, I saved you this time. Consider that you owe me a favor. How about it?" As if I knew who he was, I said, "Okay, take us out. I owe you a favor."

As soon as I said that, the monsters seemed to become impatient and ran towards us, roaring, the sound of heavy footsteps made the earth shake, I changed my posture and held the whip horizontally in front of me, very quickly, I could already see the teeth in the mouth of the monster right in front of me. Suddenly, a creaking sound came from behind me, with a 'hu' sound, countless big rats ran out from behind us, the endless number of rats were like a tide, in an instant, the monsters were covered with a layer of rats.

Record of Strange News in Northeast - C95

C95

C95

The rats were fat and big, and their eyes were special. They were bulging and red, and the teeth in their mouths were sharp. The monster-like monsters were gnawed by the rats until they were rolling on the ground.

In the blink of an eye, a few monsters had their throats bitten, their bodies covered in blood, once they fell on the ground, they would never have the chance to stand up again. Very quickly, a few monsters were bitten until their bones were revealed, while the rest of the monsters were rolling back and forth on the ground, constantly crying out in pain.

The rats were eating extremely fast, and even the bones were not spared. They were continuously grinding with their protruding front teeth, making sizzling sounds, and although I knew they wouldn't hurt me, I was still covered in cold sweat from the cruelty of the rats. Senior sister was hiding behind me, and her eyes were wide open.

I was finally relieved. At this moment, an old voice came from the darkness. "Brat, you finally owe me a favor. This trip was not in vain." Then an old man with a stooped body, leaning on a walking stick and wearing a hat, walked out. "Hehehe, my treasure isn't bad, right?"

His master had said that he was Great Deity Hui and his cultivation was not shallow. Furthermore, he told me to be careful of contact with the wild deities, so I composed myself and said, "Thank you, I owe you a favor. Tell me, how do you expect me to repay it?"

Great Immortal Gray chuckled and said, "There's no rush, there's no rush. I haven't thought of it yet. I'll tell you about it when I think of it. Let's consider it as us getting to know each other." The senior sister whispered to me, "Isn't he the person we saw last time? Why is he here?" Before I could reply, he said, "Little miss, you're quite bold. Do you know that those evil spirits like you? You don't even have the ability to run around. If it weren't for me, you would have already become that hairy monkey's wife." Senior sister might still be in shock and didn't say anything. I said, "Great deity, why are you here?" He said, "It's all because of you."

"Because of me?" I asked curiously. He nodded. "Yes, you took my baby and ran around. I was just too scared to know that you ran over here. I followed you." I shook the whip in my hand and asked, "Is this the treasure you were talking about?" He said, "Yeah, I thought you were going to hide it at home like a treasure. Who knew you would use it like a belt, it really hurts my heart." I said, "Then I'll return it to you." However, he waved his hand. "No need. There's no reason to take back the things I gave you. Right, I'm called Third Brother Gray, what's your name?"

I said, "My name is Sun Hao and this is my senior sister. Let's ..." Third Elder Gray interrupted me and said, "I don't care what you come here for, but I ask you, are you willing to be my Immortal?"

I never thought that this great deity Hui Da Xian would be so straightforward, and that the size of his power is directly related to the wild deity behind him. Although he seems a bit strange, at least he didn't hurt me, I don't need to worry about his conflict with Chang Tianba. I've heard that there was once a great deity Ma who brought dozens of wild deities with him.

I said, "Alright, we'll have to rely on you in the future." Gray Three laughed loudly. "Sure, sure." Walking over, we shook hands. Even if it was a contract, sometimes the relationship between people was just so amazing. One moment they were strangers, the next they could be close friends.

I asked, "Grandpa Ash, do you think we can leave this place?" Third Bro said, "Of course you can. Come with me." As we followed him, he pointed to a small hole in the wall and said, "I came in from here." I looked at the hole. The small one could only fit five or six years old, and before I could ask how I was going to get in, he whizzed and the big rats came running in a blur and started digging their heads into the hole. They bit into the hole with their teeth and soon the hole was wide open.

The three of us went in, the rats leading the way, and after about ten minutes of crawling, we finally got out. It was a sunny, spring-warm scene, and it seemed like we had come out of the cave.

The Senior Sister squinted at the sunlight and said, "They're finally out, but Master and the others are still inside." I asked Gray Three, "Master Gray, can you help me find my Master and the rest? They should still be inside the cave."

Third Elder Gray said, "It's easy. Just wait." With a whistling sound, the group of rats went back into the hole. Third Brother Hui closed his eyes to rest. Senior Sister and I were also tired, so we sat down on the ground.

After resting for a while, I felt that my body had improved a lot. It seemed that the use of fox blood was really powerful, I made a few turns, and this was the time when all living things were withered, but this place was still lush with vegetation, I couldn't help but exclaim, "This place is really strange." I looked at Senior Sister's pale face and said with some heartache, "Senior Sister, are you alright?"

The Senior Sister said, "Don't worry, I'm not that delicate. Junior Brother, why do you think this place is so abnormal?" How could I have known that at this time, Gray Three said, "This is where the Spiritual Veins are. The Spiritual Veins have the blessing of all living things. Furthermore, this is a sealed off place. This is a rare cultivation treasure."

I asked, "Master Ash, will you be cultivating here in the future?" It's really a good place to be infected by the aura of the Spirit Vein day and night. It's really good for cultivation, but good things are easy to attract jealousy and competition, moreover, Spirit Objects will definitely grow around the Spirit Vein. It's not certain if this Spirit Objects are good or bad, for example, that hairy monkey you met just now.

Hearing Third Brother Hui mention that monkey, Senior Sister also had an angry look on her face. Third Brother Hui said, "If you guys go further in, I don't want to be with you, and I don't know what will happen to you, but I don't have enough old bones to live on. If it wasn't for the fact that you have immortal karma, I wouldn't be running so far away." I asked, "What is Immortal karma?" "Immortal karma is a type of fate between you and the Immortal Clan, which also means that your fate is special. You might die tomorrow, or you might become an Immortal Cultivator, and that's the fate of those who don't die. Those who do not die will die in the jaws of a wolf pack."

I said, "Grandpa Ash, actually, we came because we have a mission. Moreover, we didn't know that this place would be so dangerous." Gray Three sneered and said, "What kind of mission is this, not a mission? Wasn't it for the sake of taking the spirit vein as one's own? The spirit vein isn't something ordinary people can control. How many people died because of this? Greed."

The Senior Sister said, "Is it because of the Spiritual Pulse, Master?" I said, "No, I know Master's character very well. He has always disregarded worldly possessions." The Senior Martial Sister smiled and said, "Yes, the old man is not that kind of person." Although Master often forced me and Senior Brother to make paper men to sell money, he said that it was his own work, it's nothing much. He took care of funerals for other people, and when he met the poor, he would at least ask for less. He said that it was a matter of doing good deeds and doing good deeds, I definitely don't believe that Master is a person who covets spirit veins.

At this moment, a few rats came out from below and ran towards Gray One and started chattering. Gray Three nodded and stood up, saying, "Brat, there are a few living people down there. They should be with you, right?"

"What does it mean to be alive?" I asked. Gray Three said, "If there are living people, there are dead people. There are two dead bodies below. They are two young men."

I was startled. Could it be that my two senior brothers were killed? I said excitedly, "That's impossible! My senior brother is much stronger than me, so I'm fine. How could something happen to them?" Third Bro said, "That's because you ran into me that's why you're fine. Alright, let's go down and take a look."

This time, Senior Sister and I will lead the way, while Third Elder Grey's group of rats will lead the way. I felt very upset, and when I thought that I might have to face Senior Brother's corpse, I couldn't help but feel sad, tears welled up in my eyes as she consoled me, "Life and death are at stake, Junior Brother, don't be too sad."

Very quickly, we reached the bottom and I jumped out, with a few rats leading the way, me and my senior sister jogged, and in front of us appeared a man's corpse, of medium height, full of muscles, wearing khaki clothes, but his head was gone, and I calmed down, not a senior brother, the two senior brothers were both dressed in white, and looking at the other corpse, we were also dressed in the same figure, and our heads were also nowhere to be seen.

The Senior Sister said, "This seems to be ... "Archaeological team." I took a closer look, it's true that only the archaeological team is wearing clothes like this, it doesn't seem to be Captain Wang Tuozhang or Han Tieniu, nor is it that old man. It can only be Qi Jinsong and Tian Bin, although we just met each other, but now that their heads are different, I am still somewhat sad.

I stood up and said to Gray Three, "Grandpa Ash, bring me to find someone else." A few rats came over and started to chat. After a while, Gray Three nodded, "Got it, got it." Bring me and Senior Sister forward.

After walking for a while, he heard someone shouting in front of him. From time to time, he heard gunshots. It seemed to be his Master and the rest. I was worried that Master and the rest were in danger, so I immediately ran after them. Senior sister also drew her bronze sword, getting closer and closer to the source of the sound. I was getting more and more excited as I kept praying that nothing would happen to Master.

A man came around a corner and bumped into me. I was caught off guard and knocked him out. He stood up in a flurry and pointed his gun at me and shouted in a frightened voice, "Who, who are you?"

Using the sunlight from the small hole above, I saw that it was Wang Dazhang. I said, "It's me, Captain Wang." Trembling, he took two steps forward. After seeing that it was me, he relaxed and put away his

gun. Trembling, he pulled me by the hand and pointed to the back. There's a big guy chasing me." I asked, "Where is my master? Where are the others?" He still said incoherently: "Bring me quickly, I beg you, take me out and I'll give you money."

Record of Strange News in Northeast - C96

C96

C96

Looking at the arrogant and despicable person before me, I am extremely annoyed. It seems that Grandpa Ash is right. Greed is truly a threat to one's life.

At that moment, I heard a rumbling sound ahead of me. The ground began to shake as well. Without much time to think, he dragged Wang Tuo Zhang and ran outside. It was really tough on him, a middle-aged man with a big belly, fat and white as a ball. He ran very seriously at this time, his belly rolling up and down, unknowingly thinking that he was an obese patient trying his best to lose weight.

Suddenly, Wang Tuo Zhang slipped and fell onto the ground. Without waiting for me to help him, he jumped up and ran two steps before saying, "I really can't run anymore." After saying that, I plopped down on the ground and didn't get up again. I went over to pull him. "Do you really want to wait here to die? Hurry up and leave."

Wang Tuo Zhang said with a tear-stained face, "I don't want to die here either, but I really can't run anymore." At this moment, the voice behind us came closer, and a huge, flat, long, black head stuck out. Its eyes were not big, and its crocodile mouth was filled with tiny, dense teeth. When it saw us, it stopped and looked at us with a probing gaze.

Then its whole body was exposed, half standing, its two legs supporting its enormous body. It had no front claws and two wings, but judging from its size, those two wings couldn't support it in the air. It had a long tail behind it, and its neck was stretched out, covered with tiny scales, and it was tilting its head to look at us, as if it were curious to see what these people were doing.

Wang Tuozhang made a 'Oh my god' sound. He kept coming closer and closer to me, all the way to my legs. I could feel his body shaking violently.

It seemed that it was this thing that had dispersed the people from the archaeological team. I asked Gray Three, "Master Ash, what do you think we should do?" Gray Three said, "It really is a spiritual object nurtured by a spiritual vein. My child will definitely receive great nourishment from it. Not bad, not bad at all." As he finished speaking, he started chanting rapidly. Soon, more and more rats emerged from the small hole, pressing on the monster from all directions.

The monster seemed to be curious about these mice, and it tilted its head to look at the ground. The mouse seemed to be afraid of the monster, and did not dare to approach it today. As soon as the monster finished its words, it stepped forward and all the mice nearby backed off a bit. The monster stepped out another leg and all the rats moved back a little bit more.

I swallowed and said, "Let's get ready to run." At this moment, the monster seemed to hear a call. Its head tilted back, and its mouth opened up as if in response. It let out two "quack" sounds, then turned around and ran away.

Wang Tuo Zhang was just panting heavily: "Hey, hey, you scared me to death." I squatted down and asked him, "Captain Wang, where is my master? Where are the rest of your team members?" "Your master and my team members were chased by another monster. We ran in the opposite direction." I said, "Then why didn't you say that earlier?" "If I had said that just now, you would not have cared about me."

Hearing his words, I got angry. What kind of person was this? I said, "You're really smart." "If you're not smart, you have to die," said Wang. The Senior Sister said, "Let's hurry up and go find Master. There's no need to waste words with him."

As the three of us walked in the direction we had come from, Wang Tuozhang shouted from behind us, "Wait for me!" I pestered him and didn't answer. He followed me slowly.

After the mouse brought us into the cave, I looked at Gray Three and asked, "Master Gray, is my master up there?" Gray Three said, "Of course, there's no one left alive here." So we went up the hole dug by the rats.

Reaching the top, Wang Tuozhang was so excited that tears were flowing down his face, but he soon calmed down. Because Third Brother Gray was looking at him with a smile, and Third Brother Gray was not looking too well. His old face was scrunched up, and his shifty eyebrows were twitching.

“Who are you? What are you doing?” Wang Tuzhang avoided his gaze. Third Elder Ash giggled and didn’t say anything. Wang Tuozhang walked over and said, “Young Master, please take me out. This is the first time we’re going through this mission. I’ll inform the higher ups when I get out.” I said, “If you’re anxious, Captain Wang, you should leave first. I need to find my Master.” “Master Xu is very skilled, so it will definitely be fine. Let’s first ...” Before you find my Master, you won’t leave no matter what. ” Wang Dazhang still wanted to say something, but seeing my cold attitude, he held it back.

Third Elder Gray walked to my side and said, “This guy’s eyes are unsettled, and his mind is unfocused. You can’t trust his words.” I nodded my head. At this moment, a series of increasingly strong tremors came over. I held my breath, closed my eyes, and raised my ears to listen. There were about three or four people behind me.

Wang Tuo Zhang also heard the voice and pulled my hand in fear. “They’re here! It’s that monster chasing us! Let’s quickly escape!” I ignored him. It was very possible that the person who had just arrived was my master. Senior sister looked at Wang Tuozhang with disgust and said, “Why are you so timid?” Third Elder Ash said with a grin, “This guy is white and fat, he’ll taste really good.” Hearing this, Wang Tuo Zhang was so scared that he didn’t dare to make a sound. I said, “Master Ash, this is the leader of this mission. We can’t eat it.” Wang Pozhang said, “That’s right, that’s right. This time, it doesn’t matter if we can bring back the Spiritual Pulse. As long as we can return safely, it’ll be fine. It’ll be fine.”

Dust flew into the air as I frowned. Why were there so many people? The sound wasn’t that loud just now. Could it be that I had misheard? The Senior Sister said, “Prepare yourself. It’s very likely that it’s an enemy.” Just as I said that, three figures appeared in front of me. I quickly went up to greet them. It was my master. The two people beside him were the archaeologist Li Jiannan and an old man.

“Master.” I shouted, and my master ran over and excitedly grabbed my hand. “Are you alright, Haozi?” she asked. I replied, “It’s fine. It’s just that our two senior brothers have separated from us.” His Master said, “We’ll talk about it when we have time. Let’s deal with this first.” Li Jiannan was no longer able to walk. She was panting heavily with both hands on the ground. When she saw Wang Gongzhang, she ran over angrily and questioned, “Captain, why did you leave the two of them behind? How are they doing?”

Wang Tuo Zhang mumbled, "At that time, I had no other choice. The two of them are protection personnel, so ..." So their lives aren't their lives? Who do you think you are?" Li Jia Nan screamed with all her might, and after she said that, she started crying while squatting on the ground: "The two of them still don't know if they are alive or dead ..." "Wu, wu, wu."

I sighed and didn't tell her the truth. "Now is not the time to cry," my master said. With that, a few people covered in blood ran over. Leading them was a burly man with a square face and fierce eyes; he was obviously not a good person. He held a gun in his hand and laughed when he saw us: "Oh, why aren't you running? Are you prepared to die here?" "With that, he raised his hand and shot.

The moment he lifted his hand, his Master had already bent his knees and shot to the left side, the bullet almost went past his clothes, the bullet did not hit his Master, but hit the arm of Wang Tuozhang who was behind his Master, Wang Tuozheng immediately howled like a pig being butchered, rolling on the ground with his arms crossed. The big man angrily cursed, then continued pulling the trigger, the gun issued a 'ka ka' sound, it seemed like there was no bullet left.

I shouted, "Who are you people?" The big guy smiled and said, "You don't know me, but I do. You must be the kid who killed me." My master came to my side and said, "He is the nephew of the great villain as I've mentioned. His name is Pei Yuanqing, and he is also not a good person." Master is referring to Pei Hongdu, the people who used to control Chang Tianba and wanted to kill me are closely related to them.

I thought about the kid with his brain eaten under the well, and my heart filled with hatred towards the person in front of me. I knew that he had done a lot of evil deeds, so I stepped forward and asked, "You and Yukiko, are you on the same team? Why did you instruct her to kill me?" Pei Yuanqing chuckled as he put down his gun and put his hands in his pockets, "I did not instruct her to kill you, she only said that you are a rare pure Yang boy, it is only useful to us, don't make a fuss, and also, Little Cang was killed by you, so what does it matter if I kill you, I still have to thank you, if you don't kill her I will have to do it myself."

As soon as his voice fell, another group of people came out from the side, led by a handsome looking teenager. Behind him were two monsters, one of which was the one that was chasing us earlier, the other was similar to it, but bigger, with long red hair extending all the way to its tail. With a flap of its two large wings, the wind whistled.

The young man's eyes were brimming with vigor as he shouted in a clear voice, "All of you trespassing into the Heavenly Palace are not good people. Kill him." With that, one of the two monsters rushed towards us while the other rushed towards Pei Yuanqing.

The monster didn't give us any time to react as it rushed over and opened its big mouth to bite me. It definitely wouldn't be a good thing if it bit me, so after dodging the attack, my master kicked it on the neck and almost knocked it down. At the same time, he shouted, "Bring the others to a safe place."

It turned out that Master had just placed a Five Thunder Divine Talisman on its foot, and at the same time kicked it, the divine talisman on its foot stuck to its neck. However, this explosion did not seem to cause any fatal damage to it, it only caused some of its scales to explode, and a few drops of blood to flow out, but made it even more crazy. It let out a wild cry, and ran towards Master with its head lowered.

He jumped up in the dry land, then kicked on Xin Man's mouth, pushing him back a good distance. At the same time, I grabbed Senior Sister's bronze sword and rushed at him, slashing it against his body with a loud crack. With a loud roar, Wu Man whipped his tail at me, and in an urgent situation, I had to put the bronze sword in front of me to block some of the force, but the huge force of the impact threw me far away.

Record of Strange News in Northeast - C97

C97

I fell to the ground and stood up with a grunt, because the Xin Man had already flapped his wings and was coming towards me. The next second, when I dodged him, the place where I fell had a big footprint on it.

Master put two Five Thunder Divine Symbols in his hands, slapping them out, and two bolts of lightning appeared out of thin air a few meters away from him, heavily smashing on his body. Even though he was covered in rough skin and thick flesh, and also had a full body of scales, he was still bombarded by Master's Five Thunder Divine Symbols, causing him to scream out miserably, not daring to confront Master directly and reveal a terrified expression.

A normal Five Thunder Divine Symbol can only cause damage to evil things, and it also needs to be stuck on the body in order to trigger the power of the Divine Lightning, and Master has already trained to a far distance from the enemy to use the Divine Lightning. Although it didn't cause any fatal damage to Xin Man, but I know that Master showed mercy, otherwise, he would have fallen down a long time ago.

Who would have thought that the black shadow would actually catch my whip with his bare hands, with such astonishing strength, that even if I used all my strength to pull it back, I was unable to pull it back in the slightest. At this time, although I didn't manage to circulate all of my fox blood, my physical fitness had already improved to the point where I could pull on a cow with all my might, and furthermore, the black shadow didn't have any support in the air, so I couldn't figure out how he did it.

The next second, the black shadow had already heavily kicked my master in the chest, and before my master could react, he was kicked to the ground in two consecutive kicks. The black shadow landed on the ground, and I could clearly see that it was the handsome young man, at the same time, he forcefully pulled the whip, almost lifting me up into the air, I could not control my body, and quickly flew towards him, he also rushed towards me, at the same time raising his right hand, I widened my eyes and raised my arm in an attempt to block his attack, but my speed and reaction speed, which I had always been so proud of, didn't have the slightest advantage.

While he was dealing with me, senior sister took advantage of the time and slapped the Five Thunder Divine Symbol on his back. She took a step back and shouted, "Explode!" The Five-Thunder Divine Symbol on his back violently exploded, and there was even a thick cloud of black smoke that appeared. Senior sister's face was pale, so she must have gathered a lot of her mental power, and the black smoke scattered, causing a huge hole to appear on his back, exposing his pure white skin, but not a single scratch on his body. The Five-Thunder Divine Symbol, which could even break the scales on Xin Man's body, exploded on his back, and there wasn't even a single scratch on his body.

The boy walked over slowly and picked up the thing that had bounced off. I could see that it was a black pill, and he threw it into his mouth and chewed it carefully, not looking at the three of us on the ground, but touching it and talking as if to comfort it. Then he took out the pill that he had been chewing for a while and put it in his mouth.

I shook my head. Although this young man's hands are heavy, my recovery ability is also very strong. It's much better now, but my face is still burning with pain. My master is holding onto his chest and coughing non-stop.

The situation on the other side was equally intense, one of the men couldn't dodge in time, so he was grabbed by the head and pulled down the head neatly. Then he swallowed the man's head, making "ka ka" sounds in excitement, and the man's headless body fell on the ground, spitting out a large amount of blood from his neck.

"F * ck, I can't take care of a beast like you." Pei Yuanqing cursed angrily. He took out a red pill and stuffed it into his mouth, chewing quickly. Then, he took out a piece of spell paper and started chanting. He spat onto the spell paper.

Noon couldn't dodge in time and was burned in the face by the fire pillar. He started to scream again and again while Pei Yuanqing laughed out loud, "Hahahaha, I'll burn you beast to death. How dare you bite me?" The young man rushed in front of him, and blew out his breath as he held Pei Yuan Qing's Fire Talisman. For a moment, the two of them were in a stalemate, Pei Yuan Qing knew that this was a powerful master, he did not dare to be careless, so he took out two God's Fire Talismans and placed them together with the burning God's Fire Talisman, and at the same time, he let out a long breath of air, and the fire suddenly soared into the sky and enveloped the young man and the young man.

Pei Yuanqing controlled the pillar of fire and charged at the boy and the mang for a full five to six seconds, until his face turned green and he was unable to supply any inner strength, before he stopped, revealing a pleased expression on his face. However, this expression was replaced by shock soon after the fire had subsided, and the boy's face was calm as water, without a single burn on his body, while the mang behind him let out two "quack" sounds, as if showing his disdain for Pei Yuanqing.

Pei Yuanqing's face was ashen, as if he was trying his best to control his anger. He pulled out a dagger and instructed his stupefied subordinates, "Attack! Kill this little bastard!" The young man in front of him was ordinary and ordinary, but the pressure he gave others was as terrifying as a tall mountain or a great sea.

Pei Yuanqing cursed as he grabbed one of his subordinates and threw it towards the youngster. However, he turned around and ran, while his subordinates hurriedly followed behind him. The youngster kicked Pei Yuanqing's subordinates away, but did not chase after Pei Yuanqing.

When we were able to stand up, I looked at the young man who was slowly walking towards us. I used all of my strength to push the fox blood from my body to the limit, and immediately, my hair stood on end as my entire body surged with vitality. My body was so light that I couldn't help but tiptoe, my muscles and bones creaking.

That youth looked at me with a trace of surprise in his eyes, but it disappeared in a flash. He then looked at my master and asked, "Why didn't you leave?"

In my current state, I had the confidence to knock him down to the ground, including those two black moons. Master came over and held my shoulder to calm me down, then said to the youth, "We are not

with them, we are here to take a look at the spirit vein.” The youth said, “Absolutely not. Your spirit veins will be tainted. Quickly go back.”

His Master said seriously, “Spirit veins belong to all things in the world, not to you. We are cultivators, and we just want to borrow the power of the spirit vein to break through our shackles. I see that at your young age, you actually have a lot of energy.” The youth was a little hesitant, “But if you take the spirit vein away, this place will lose the nourishment of the spirit vein and become dilapidated. There will still be countless lives lost here.” His Master said, “We cultivators emphasize the unity of heaven and man, harming other people’s lives is bad for their merits, I would not do that kind of thing. If you still do not believe me, then I can swear on my name.” The youth thought for a moment and said, “Swear it.” His Master raised her right hand and held her pinky with her thumb as she said, “I swear that if there is even the slightest bit of ill intent towards the spirit vein, I will die for sure and never reincarnate.” After which, he looked at the youth.

The youth seemed to have a hard time giving up. He looked at his master, then at us, and finally made a decision. “Okay, you can go in, but I won’t tell you how to get there. Also, don’t forget that promise you made just now.” Then he turned and walked away, with the two kanji behind him, soon out of sight.

When I saw that my Master had settled this matter with just a few words, I couldn’t help but give my Master a thumbs up. “Master, you’re really too tall, too high. That kid is so powerful, and you’ve already settled it.” His Master said, “Brat, if you had been too impatient to fight with him just now, I wonder what the result would have been.”

I asked, “Master, who is he? He’s so powerful.” My master said, “You still know that he’s strong, and you even dared to put on a brave front just now, I don’t know who he is, but I’m guessing that he’s an expert who relies on the spirit veins to cultivate. If you want to cultivate to a higher level, you need to have enough heaven and earth treasures to nourish your body and mind, and spirit veins are rare treasures, but this person should be a cultivator, but ...” I asked, “But what?” The Master said, “But I feel that this person’s nature is very simple, like a child who has yet to understand the world.” I said, “Isn’t he just a kid? He seems younger than me.” This person may look young, but his power is so strong that it’s terrifying. The three of us might not be his match, how could he be a teenager? Although there are experts who can cultivate to the level of a rejuvenated child, this person is still a child, and this is what I don’t understand.

The Senior Martial Sister walked over and said, “Master, what do you think we should do?” The old man sat on the side and did not say anything. The wound was not big, and the bullet had only scratched his arm, but the blood had flowed a lot. At this time, the wound had already been treated with a simple disinfectant and bandaged.

His Master said to him, "Captain Wang, looks like this mission has failed. How are you going to explain this to the higher-ups when you go back?" "I won't give up just like that," said Wang. "The spirit vein is too important to me." His Master said, "Captain Wang, take care of yourself. My two juniors' whereabouts are still unknown. We need to find them and leave this place." Wang Tuo Zhang struggled to stand up and fiercely said, "Master Xu, don't forget your status. Our department is in charge of this task. You can't be thinking of running away right now because I'm the one in charge, right?"

The Senior Sister said, "How can you not know what's good for you? Just now, without my master, would you still be standing here talking? You would have already been killed by those people." Wang Tuo Zhang chuckled and said, "I don't care about that. Master Xu, please give me a look. Do you want to follow me to find the spirit vein? Or do you want to part ways here."

C98

His Master frowned and thought for a while before saying, "Captain Wang, actually, a spirit vein is very attractive to me, but I need to find my two martial nephew first."

Wang Pozhang said, "Alright, then we'll go find your martial nephew first. Once we find him, we'll go find a spirit vein. But, don't think of trying to fool me. I'm not that easy to fool." I saw that he was very angry with me for being such a rascal, but since Master had already agreed to my request, I couldn't say anything more. The few of us packed up our luggage and walked towards the exit.

It seems like Master doesn't have a good impression of Wild Immortal. When we arrived at the underground cave, Gray Three sent out his descendants to search everywhere, we didn't dare to take any further steps, we were afraid of encountering any more unfathomable things.

After telling Master about the monsters I met that could talk with Senior Sister, Master nodded and said, "I also met that monster. We were in front of it, and actually heard Han Tienu's shout, who was

supposed to be at the back, but we didn't know why, so we didn't turn around and only focused on running ahead. Like this, we led the archaeological team and ran for a long time.

I said, "Master, you said that the monster is an old demon who has cultivated for many years. It already knows how to speak human language, so why did you let me deal with it so easily?" "I also noticed this. Logically speaking, the monsters that can talk are classified as monsters, but I don't feel any demonic or evil energy at all. I even feel some kind of aura that only humans have, and no matter how long a wild animal interacts with humans, they would not feel any human aura. This kind of aura is unique to humans, I really can't understand it." "This place is really weird," murmured Master Ash. "I think we should leave as soon as possible."

This kind of person is really lacking in humanity. In my opinion, he's just like a beast, and if we go on like this, when will we be able to find your martial nephew? This place is simply a monster, if you want me to say we should first find the spirit vein, your martial uncles might even be dead. "Wang Tuo Zhang impatiently said," Master Xu, if we go on like this, when will we be able to find your martial nephew? I was just about to speak up and teach him a lesson when my master suddenly changed from her usual calm demeanor. Usually, her eyes would not open wide as she pointed at Wang Tuozhang's nose and said, "Wang Tuozhang, I'll tell you this, if you dare speak any more nonsense, I'll throw you here. Don't think that I'm afraid of your background, or that I don't care even if you provoke me." Wang Tuo Zhang also realized that he had spoken the wrong words. Being frightened by his master like that, he immediately quieted down.

Third Elder Ash's rats came back and circled around his feet, nodding his head. I hurried over and asked, "Master Ash, have you found my Senior Brother?" Gray Three said, "I've found two people. They should be your senior brothers, right?" I said joyfully, "Then bring us there quickly."

Upon seeing us nod our heads, he recounted the events that had transpired to us. It turned out that after he and his senior sister had quarreled and left, he had walked far away in a fit of anger, and only after his anger had gradually disappeared did he realize that something was wrong with him. After Senior Brother Gui had found him, he had long realized that the situation around him was not normal.

His Master was very angry, he raised his voice and said, "You guys are talking about something that made you feel bad, probably caused by that grey monkey. Since that grey monkey can talk to you through Xinyin, it's not a problem for it to affect people's mental states, but this thing is affected by the spirit vein, its spiritual wisdom is actually opened to such a high level, sooner or later, it will be a disaster. If I can find it, I will definitely exterminate this evil creature." From the looks of it, Master seemed to have a lot of resentment towards this monster. "Since you two are safe, let's leave this place first." "Master Xu, what about the spirit vein?" His Master said, "I promise you that I won't violate the rules. You can leave first."

When we came out of the cave, everyone was exhausted, especially the archaeologists. Li Jiannan sat on the ground without saying a word, staring blankly at the ground, this series of events was really hard for a young woman to accept. Wang Tuozhang was very energetic, he kept looking at the map, but the old man still didn't say a word, and I asked him, "Master, you said you want to get rid of the monsters in the cave, when are we going?"

The Master said, "Just now, down there, I felt something around us, eavesdropping on our conversation. I think it was that monster, it probably had its eyes on Ju Yi and Ju E, if we went a little later, they would be in trouble. I just said that to scare it, this is a place they grew up in, it's not that easy to get rid of." I said, "Then if it were to go out, wouldn't it be a disaster?" The spirit vein itself is the best form of restriction for these demons. Once the spirit vein is destroyed or moved, not to mention the fact that the spirit energy in this place has weakened, the spirit vein demons will sense that the spirit energy has disappeared and they will definitely not stay here anymore. They will definitely go out to find new spirit energy, and that would be a disaster. I asked, "Is the spirit vein really that strong?" His Master nodded, and said with a grave expression, "You absolutely cannot move."

We found a secluded place to rest that night. It didn't matter if we didn't have a tent, it was no different from summer, all we had to do was lie down under clothes, and for safety's sake Master arranged for us to take turns keeping vigil.

After less than half an hour, everyone had basically fallen asleep. I started to close my eyes and rest my ears. The night was quiet, and I was still very confident in my hearing.

In order to survive, humans began to grow grains, were able to eat until they were full, and wanted to eat more. Thus, all kinds of dishes were invented, and in order to eat to their heart's content, they could treat other animals as a plate meal, thus, the market became hell, and one by one, fresh life was dismembered and sent into the body of another life as the nourishment of another life. Sadly, humans would still be pleased with their evil deeds, it was a pity that the wild deities had the ability to escape from the harm of humans, and could barely survive. I sighed. I really wanted to find someone to talk to.

At this moment, I heard a slight commotion. I quietly sat up and looked carefully. It turned out that senior brother Ju Yi had woken up. Was it to make things easier?

He stood up and looked around. When he saw me, he ran towards me. I jumped down and saw that Shixiong Juyi's expression was slightly downcast. I asked, "Senior Brother, what's wrong? Are you unable to sleep?"

He forced a smile and said, "Yes, I can't sleep." The two of us sat side by side under a tree. The senior brother said, "Junior brother, I shouldn't have gotten angry at you today. I'm sorry." I said, "How can I blame you? Master said it was caused by that grey haired monkey, and I was the one who got angry first. I should have said I was sorry." The First Senior Martial Brother didn't speak again. It was just a small matter, so why did he have to be so low. I said, "Senior Martial Brother, this isn't going to happen. Who's going to follow who?" "Hao Zi, do you really think of me as one of your own?" I was stunned before I replied, "Of course! Although this is only our second meeting, you're my Martial Uncle's disciple. You're my senior brother, so of course we'll treat you as our own person."

"Do you have the same feelings for Juul?" asked the First Brother. I nodded. "What do you think of him?" I scratched my head and said, "Senior brother Juul is unable to communicate with us. To be honest, I really don't know much about him. He should be a calm and smart person." As for the other Junior Brothers, they were just by the side of Master when we were young, and after we grew up, they gradually left. Master said that me and Ju E are suitable for cultivation, so we have always been by Master's side. Ju E is a good boy, and he treats everyone very well.

As he said this, I saw that the eyes of the Ju Family's First Senior Martial Brother had reddened. He paused for a moment before continuing, "It's a pity that such a good person would be ruined just because of a single sentence." I asked, "Senior brother, what do you mean by 'destroyed'? Isn't senior brother Juul doing fine now?" "Actually, I also don't want to say that after Juul became mute, he was very optimistic in the beginning. My master and I tried our best to accompany him, but gradually, he became more and more unwilling to communicate with others, and often sat by himself in the house until one day when he was eating, he actually vomited a tooth. My master was scared out of his wits and took him to the hospital to check, and found that his body had severely declined." Although, from the outside, it couldn't be seen that his internal organs had aged like an old man's, and he also had a severe depression.

Surprised that he was carrying such a heavy burden on his back, I continued, "From then on, I never saw him happy again. I even slowly forgot what kind of person he used to be, especially today, when he found me. That cold look in his eyes made me wonder if he was a different person." With that, the senior brother leaned his head against the tree and let out a long breath.

Record of Strange News in Northeast - C99

C99

I didn't know how to comfort him, but the atmosphere suddenly became a bit cold. After a long time, Ju Yi stood up and said, "Alright, it feels better to tell you. By the way, Hao Zi, how are you feeling?"

I said, "I'm fine. I've always been fine." The First Senior Brother laughed and said, "If there's anything to say, you must tell everyone. Don't hold it in and think about it. I'll go to bed first. The weather here is really good." With that, he staggered back to sleep.

I didn't expect that this young man who was only one year older than me would have to bear such a miserable fate. Sighing, I smiled self-deprecatingly, "I'm just laughing at myself for being not that much stronger than others, but at least we are still alive. Why should I worry about tomorrow?"

The night was peaceful and quiet, and I slept soundly. Perhaps it was because I was too tired from the day, but the spiritual energy in this place was abundant. It was also good for my sleep, so I didn't even have a dream.

In the morning of the second day, Wang Dazhang was the first to get up, excitedly getting everyone compressed biscuits and soaking them in water. This was considered better, or else it would be hard to swallow, and seeing Wang Dazhang running around, he would probably think that his Master would help him take back his spirit vein. Moreover, no one knows what kind of thing that spirit vein is, maybe this mountain is a small river, maybe even a tree.

After he distributed the food to everyone, he came over to me and handed me a biscuit. He reminded me, "Don't eat too much. This thing will expand in your stomach. It's easy to sustain." Seeing that everyone had finished eating, Wang Tuozhang excitedly ran over to his Master and said, "Master Xu, let's head out as soon as possible." His Master lightly said, "Captain Wang is right, let's go now."

Wang Tuozhang looked back and forth with the navigation tool in his hand. The technology seemed to be out of order here, and he was so angry that he almost threw it off. My senior martial sister and I were leading the way, the archaeologists were in the middle, and the two senior martial brothers were in the back.

Along the way, the birds kept chirping. I looked at those colorful birds and asked my master, "Master, do you think these birds have come to life? What are they talking about?" His Master said, "That won't be the case. Having a spiritual vein doesn't mean that all the animals nearby will grow into spirits. It's just that they will live a better life relative to one another."

After walking for a while, we arrived at an open area, and saw a small stream gurgling, and beautiful plants, I saw that the water was crystal clear, and directly drank it with my mouth. I felt that it was very sweet, and couldn't help but to fill my mouth.

The first senior brother smiled and said, "What is there not to drink? This is cleaner than running water. Look, there isn't even a single fish. If the water is clear and there aren't any more fish, then this water can't be any cleaner." Li Jiannan was amused by her senior brother's teasing. "There's still no fish in the water? Let me tell you, if there's no fish in the water, it means there's no organic matter in the water, and even fish don't like to come." His Master said, "This water is indeed clean. If you drink it, you can live for a long time." When Wang Tuo Zhang heard that, he just poured all the water in his water bottle onto the ground and started to drink. After that, he leaned onto the surface of the water and gulped it down. I couldn't help but shake my head.

I asked my Master, "We don't even have a goal, how are we supposed to find the Spiritual Pulse? Although we can feel the aura of the Spiritual Pulse, but after walking for half a day, we still don't feel much stronger than before. Furthermore, we don't know how big this place is, and we don't know how many days we'll have to look for it." His Master said, "I don't plan to be able to find him. Now it seems that only Wang Zhu Zhang has an idea about the spirit vein, so we'll play along with him. After he runs out of food, he won't be able to find him." Just as I was about to praise Master for being such a sly old fox, I suddenly heard a shout of surprise from behind me.

"Save me!" It was Li Jiannan, she was pointing to the water in panic, Wang Tuozhang was struggling in the water, I didn't even think about it, I rushed to the water's edge and jumped in, senior brother Juyi also jumped in, I dived in, I saw a slender thing holding Wang Tuozheng's ankle, dragging him downwards, that thing was like a rope, it went all the way to the bottom of the water, I was about to swim over to untie the thing on his foot, at that moment, Wang Tuozhang grabbed onto me, how could I borrow any strength from this thing on the water, I was dragged over to the shore by him.

This guy was so angry that I slapped his belly with all my might, and a lot of water came out of his mouth. After a long time, he finally recovered and Master asked me, "What's going on?" Surprisingly, there was a red mark on his ankle that seemed to have been left a long time by using a string. "Master Xu, you have to protect me, this is too scary, I'm just drinking water and suddenly something wrapped around my ankle and grabbed me down. This is too scary.

His Master said, "Captain Wang, this place is indeed scary. Why don't we go back?" "Master Xu, that's what I said. How could we just leave like that? Besides, you can't be scared off by something as difficult as doing your work, right?" Master chuckled but did not reply. It seemed that we could not stay here any longer, so we continued to walk forward.

The road was bumpy, and we were drenched in sweat when we looked up at the sun. Even the sun looked a lot more glaring, and we couldn't help but sigh in admiration, "This really isn't a place for humans, ah!" Suddenly, we saw two bare pillars, about five or six meters tall, standing side by side.

Although the noodle was not very smooth, it was definitely not something that would appear naturally. The two pillars were almost as tall as each other, with a distance of five steps between them. On top of the pillars, there were calligraphic characters written, "Sky Crossing", on top of the pillars, and "Thousand Revolutions" on top of the other pillar. I looked at my Master, who was also thinking about the words on it. After a long while, he finally said, "What do you mean?"

Wang Tuozhang excitedly ran over to his Master and asked, "Master Xu, is this pillar reminding us?" His Master thought for a moment and said, "It should be, I think the Spiritual Pulse shouldn't be too far away." Wang Tuozhang nodded excitedly, flattering, "Master Xu is still the best." After sneezing three times consecutively and uncontrollably, I felt much more comfortable in my nose. Just as I was about to lean against the pillar to rest, I suddenly felt a flurry of panic and intense heartbeats, and an extremely dangerous feeling flooded through me like a tide. In an instant, the hairs on my body stood up.

I looked around me and saw that everyone was talking and laughing, and the pillar seemed to be talking without any abnormalities. I was so shocked that I didn't dare to move my body. That kind of feeling of danger surrounded me.

The fox blood also seemed to have realized the danger. It rushed and quickly spread throughout my body. My body warmed up, and the feeling of being in an icehouse eased a lot. I hastily went to my master's side and said, "This place is very dangerous. Let's go quickly." His Master said, "What's wrong?" Just as I was about to tell my master about the feeling I had just had, I suddenly realized that the extremely dangerous feeling had disappeared without a trace. This sudden change made me wonder if I was hallucinating.

My master asked me again, "What happened, Haozi?" I told my master about the feeling I had just now. I'm naturally sensitive, especially towards evil things. My master looked around and muttered to

himself, "It's nothing." Just as he finished this sentence, he saw his Master's eyes widen, as if she had seen something extremely terrifying.

"My grandmother, what is that?" The fear in Master's words was self-evident. Looking towards Master's direction, I didn't see anything, just an empty space with uneven ground. The only thing that I could see was that the air had been oppressed, as if something was brewing.

His Master turned around and shouted with a serious expression, "Listen to my commands." Before anyone could react, his master had the three archaeologists sit back to back. Wang Tuo Zhang asked his master what was the matter, and his master only said, "If you want to live, you have to listen to me." It seems that something big is going to happen, so we didn't dare to be slow. Master told us four people to sit in a circle around the three people of the archaeological team, Master used a heavy method to tap three of our acupoints, and then wrapped them around our wrists and chest with red lines. I know that this is a way to seal the flow of yang energy in and out, but what's the reason for doing this, Master?

Then, Master drew a circle around us with his hands and chanted some incantations as he circled around us for over ten minutes. Adding the time it took to wrap the red line around us, I discovered that Master's figure was becoming more and more blurry, this is the problem of changing the Qi field. This kind of formation is called 'Feng Men's Heaven Formation', when the formation was completed, the people in the circle would not be able to see or touch the people in the circle.

I didn't know why Master suddenly used this array, but looking at Master's urgent expression, I must have realized something. I didn't dare to ask, worried that Master's distraction during the setting up of the array would affect the speed at which the array was being set up. Master walked step by step and read the words, at the same time firmly stepping on the ground. I glared at him and he stopped talking.

Right at this moment, I saw a bunch of black Qi rising from the ground behind the two stone pillars. I hastily opened my Heaven's Eye and looked down, the uneven ground began to crack open, and the black qi coming out from it became even more intense, and within the black qi, I felt an endless amount of resentment and ruthlessness, and from that black qi, I could almost hear the shrill scream coming from within the black qi. First, the black qi rising from a small piece of land, and then, it grew larger and larger, and almost all the ground in my line of sight started to crack open.

Record of Strange News in Northeast - C100

C100

C100

Looking at the dark clouds that covered the sky and came towards us, my heart leaped to my throat. I really wanted to drag Master and the rest away from here.

However, I know that there must be a reason for Master to do this, so I could only place all my hopes on Master. Senior Sister also felt an intense ghost aura coming from not too far away, "Oh god, it's so scary, what should I do?" Li Jiannan stared at them in shock and asked, "What's wrong, why can't I see what you're talking about?" I motioned for her to be quiet, but when she saw that neither of us spoke, she immediately stood up and ran out of the circle.

His master was shocked by Li Jiannan's actions and stopped setting up the array. The black fog seemed to have sensed her, and rushed towards her as if it had a life of its own. His master stomped his foot and said to me, "Haozi, go and pull her back quickly, if you go out, she's dead."

I promised, and ran out at full speed to grab Li Jiannan's hands, trying to pull her back, but Li Jiannan seemed to be unable to differentiate between friend and foe, and started kicking and biting wildly. I was angered to the point that I put her hands on my back, forcefully pulled her back, and held her down. "Earlier, I saw those black clouds floating around here. They were coming for me. Why aren't you running away? I don't want to die here.

I said, "If you don't want to die, just stay here quietly." After all, there are so many people here, and the human aura is still very strong. As Master is still setting up the formation, the black aura is hesitant at first, but soon it came rushing over at a slow speed, but without any hesitation, its momentum is astonishing, and it contains an endless amount of ghost aura mixed with the howling of the cold wind, causing people to shiver. Don't think about it, once the ghost aura gets entangled with us, we will lose our minds.

The black air came rolling in from all directions, fast as a horse, while Master was still slowly chanting in circles around us, the despair in Li Jiannan's eyes became heavier and heavier, as if she was about to collapse at any moment. Leaning against me, her body was trembling non-stop, senior apprentice sister was also nervous, she was breathing deeply, senior apprentice sister Juul's eyes were closed tightly shut, Wang Tuo Zhang's mouth was trembling, he was constantly chanting "Amitabha", the black air was getting closer and closer, and it was so thick that it could be seen with the naked eye.

The black gas covered the sky and the sky in a split-second after Master jumped in. In an instant, the entire sky turned dark, and we could only hear the howling of the wind in our ears, but this circle of people gave us a huge sense of security, and even though the black gas was enveloping us, we no longer felt the sense of despair. Furthermore, the mixed grudges within the black gas could not even come in, and I immediately felt relieved.

His Master heaved a sigh of relief. "That was close." Then, he tiredly closed his eyes. It was obvious that this formation had consumed a lot of his energy.

The black gas kept washing over our array. Fortunately, the array was controlled by Master, it was extremely stable, and under the overwhelming black gas's assault, it didn't seem to be damaged at all. My crazily beating heart calmed down, and after five minutes, the black gas could no longer feel the strong amount of people just now, and it slowly drifted away.

At this moment, a stone suddenly flew over. There was a rope tied to the stone, and at the other end of the rope was a piece of talisman paper. The stone flew towards us at an extremely fast speed. He threw Wang Tuozhang and the old man to the ground and pressed both hands against their mouths, and I realized what was going on. I turned and covered Li Jiannan's mouth and nose with my hands, and this series of actions happened in a flash.

The powerful energy that was mixed in with the explosion destroyed the formation. The black gas that had just passed, attracted by the loud noise and the sudden outburst of energy, immediately charged towards us, its momentum even greater than before.

Damn, I still haven't reacted to who framed us. Master pushed Wang Zhu Zhang and the old man towards me, I can't hide anymore, I can only meet force with force, Master quickly took out a golden talisman, it's the same talisman that was used to suppress the evil dragon back then, looks like it is indeed the time to go all out.

His Master threw a red pill into her mouth and quickly chewed it a few times before spitting it out towards the talisman paper, causing it to burn up. The upper half of the talisman paper started to burn with golden flames, and his Master held up the burning talisman paper and muttered an incantation.

“Crack!” A bolt of lightning fell beside me, and Li Jiannan, who was initially scared by me to the point of covering her mouth, bit onto my hand, causing me to release her from the pain. Her legs went limp as she sat on the ground, her master’s eyes were half closed, her legs separated as she stood still.

If it wasn’t for this bolt of lightning, we would have already been engulfed by the black air. Slowly, the frequency of the lightning falling down became slower and slower, and I saw that my master’s face had turned pale, and even my lips had turned white. This was the result of me overusing my powers to push my master’s back, so I hurried over and pressed my palm on it, closed my eyes, and continuously transferred the power of the fox blood into my master’s body.

When the two Senior Brothers and Senior Sisters saw me do this, they all came over and placed their palms on my Master’s back. Instantly, my Master’s expression relaxed, after all, my Senior Brother and Senior Sister were people who have cultivated since childhood, and I have a thousand year old fox blood in my body, so the amount of power contained within it is something that countless cultivators dream of. My Master took a deep breath, and chanted a spell.

When the golden talisman finished burning, and the last bolt of lightning fell, the dark clouds in the sky slowly retreated, and the sun once again filled the land, the surrounding area was completely devoid of any evil energy, only we were left standing. Although Master had the support of our powers, he was still unable to persevere, and his legs went limp, almost kneeling on the ground.

Master’s face was like golden paper as he panted heavily. At this moment, I suddenly heard a burst of laughter coming from behind me. My heart tightened. It seemed that the person who ambushed us had finally come out.

Ha ha-ha, pussy, what’s wrong with you?” I turned around and saw that it was Pei Jinge, who had escaped yesterday. Behind him stood a big man, he was two meters tall, with a big and round waist, like a half iron tower. He was staring coldly at us, his eyes void of any emotion, like a robot.

Pei Jin Ge laughed as he walked over, “Ai, never would I have thought that you were so capable back then, to be able to use just one of your lightning talismans and make it so far. You are old after all, and this man is not someone who can live with his own life, it seems like you and your spirit vein are not fated, this spirit vein is destined to be ours.” Upon hearing this, Wang Pozhang excitedly stood up and said, “The spirit vein is from the country. Who are you people that dares to have thoughts about the spirit vein?”

Pei Jinge said, "I've already been here for a few days, and arrived earlier than you. You have to have some sort of order, even if you were here first, it should still be mine, right?" He pointed at the man beside him and said, "Oh right, this is Mister Lu. Originally, he came from the back to look for the spirit vein, I was in front to help him, but I coincidentally bumped into you guys. If it wasn't for you guys, I wouldn't have bothered to bother Mister Lu, maybe even Mister Lu would have gotten the spirit vein." Then, he bit his teeth and pointed at us: "It's you guys, especially you, whopper. So what if I have enmity with you. You keep on pestering me. Let's see how Mr. Lu will teach you a lesson today."

With that, he looked up at the man and smiled along with him. "Mister Lu, these unlucky bastards are so annoying. You can just let them die here." Mister Lu expressionlessly said, "Our goal is just the spirit vein." Pei Jinge hurriedly said, "But if you don't kill these people, they will definitely stop us. Furthermore, that kid is someone my uncle wanted. If you bring him back, then it would be a great contribution." He pointed at me.

Hearing this, the big guy's poker face twitched twice as he stared at me. "That little brat doesn't seem to be that special. Why is the class chairman interested in him?" Pei Jin Ge laughed and said, "I don't know about that, but my uncle has long since noticed him. This kid's fate is extremely rare, if I can capture him back, my uncle's Eternal Life Divine Art might even improve."

That man nodded his head and walked towards us. From the looks of it, he seemed to want to catch a little chicken and capture me. Seeing his ill intentions, the senior brother extended his hand to stop him and said, "What are you doing, we..." Before he could finish his sentence, the big fellow suddenly turned around with his back towards his senior brother. We did not know what he meant by that, the senior brother was also stunned, the big brother almost completely surrounded him, I suddenly realized that my senior brother was not moving, he was not even blinking, I thought that this was not good, he had just raised his leg and was about to walk over, the big fellow suddenly turned around and swung his fist horizontally towards his senior brother.
