

Chapter 1223 An Unexpected Kill

Still, Unbroken Cloud was confident in himself. After all, he was a level-nine with three stars, his power formidable. Although he sensed the threat from Liam, he didn't think that he would really be unable to withstand Liam's attack.

Unbroken Cloud looked serious, determined to combat Liam's strike. He quickly wielded his shield in defence.

Condensing the special power was something he did well considering his rank as a level-nine Primogem Warrior. The cloud shield was instantaneously condensed, revealing its terrific defense.

The cloud shield, as its name implied, was a compacted shield with the characteristics of the cloud element.

As long as Liam's strike was not so sharp as to penetrate the cloud shield, it wouldn't have any impact on it, and the effect of the force would be counteracted.

However, Unbroken Cloud was ignorant of the terrific power Liam's sword of darkness wielded. He didn't know Liam's attack would exceed his comprehension.

Liam didn't realize another World Power that was present in his body infused much energy into him, giving his strike potency.

He swung his sword of darkness quickly through the air as he lunged at Unbroken Cloud.

Immediately, the indestructible cloud shield of Unbroken

Chapter 1223 An Unexpected Kill +120 Points at most

Cloud was split into two at one strike from Liam's sword.

The power in Liam's sword of darkness was so strong that it didn't stop at the cloud shield. It went further to have an impact on Unbroken Cloud by splitting him into two as well!

In an instant, blood splattered all over the battle ring.

Unbroken Cloud's split body dropped heavily to the ground.

Liam, who was only a level-eight Primogem Warrior, had achieved a great feat, killing Unbroken Cloud, a level-nine three-star Primogem Warrior!

All who beheld the scene were utterly shocked.

The scene left their mouths agape in disbelief.

Even the masters of Saint Society who watched from the sky were not left out in the shock as cold chills rushed through their spines.

They knew better than anyone else about the strength and power of Unbroken Cloud.

Aside from the Holy Lord, Unbroken Cloud was undeniably the most powerful person in the Saint Society. His prowess was known to all.

All the powerful warriors of the Saint Society were terrified after realizing that a man such as Unbroken Cloud couldn't withstand a single strike from Liam.

Since he couldn't, none of them would be able to, except for their superior, the Holy Lord.

The masters of the Saint Society helplessly turned to look at the Holy Lord, who stood beside them.

The Holy Lord of the Saint Society was shocked as well. His face even showed fear.

He even vaguely felt a trace of terrifying pressure from Liam!

Liam's recent attack sent shivers down everyone's marrows.

The Holy Lord wouldn't have been shocked if Liam was a level-nine one-star warrior and eliminated Unbroken Cloud, a three-star warrior at level nine.

But Liam was only a level-eight one-star warrior.

What a terrific leap!

Was Liam the secret weapon the leader of the Salvation Society fashioned to fight against the Saint Society?

The Holy Lord's mind was in a mess now.

In fact, Liam's victory was not a result of his strength. He had been able to do it because of the World Power.

The World Power that had supported Liam's sword of darkness was from Blue Star.

That was why Liam had been able to kill the overconfident Unbroken Cloud with a single strike.

Of course, this World Power of Blue Star also exasperated Liam with his physical strength and primogem energy.

The World Power of Blue Star was now crazily draining Liam's primogem energy as its supplement.

Liam was so drained that he began to feel dizzy. Then, he passed out.

The other members of the Salvation Society were not discouraged by this. They were still happy Liam had succeeded in killing Unbroken Cloud.

All his supporters who had helped him vie for the position of the president of the Salvation Society applauded.

They were optimistic that such a skilled man as Liam would lead the Salvation Society to a higher level if he became the president.

An elder emerged from the crowd, carefully picked the unconscious Liam from the ring, and took him to his seat, allowing him to have some rest.

The ones who had supported Orlando to become the president of the Salvation Society wore different expressions.

Seeing Liam's victory, they all went silent. Their faces grew pale.

Liam hadn't killed just any warrior. He had killed Unbroken Cloud, a guardian of the Saint Society who was at level nine with three stars!

They knew they were not as powerful as Unbroken Cloud. They would definitely die pathetic deaths if Liam decided to make them his enemies.
