

Chapter 1225 An Imminent War

When the president of the Salvation Society confronted the Holy Lord of the Saint Society, a hush fell over the crowd. A life-or-death battle began!

Members of the Salvation Society, from the elders to the ordinary crew, felt a surge of determination. They stood tall, united by courage and resolve.

With bravery and determination, they pushed back the forces of the Saint Society, gaining ground with each move.

Caught off guard, the Holy Lord staggered as the president pressed on relentlessly, forcing him to step back.

The Holy Lord's face betrayed a mix of emotions. Surprise and anger were clear, tinged with a hint of satisfaction.

His anger and surprise were understandable reactions to the sudden challenge. Yet, there was also a flicker of satisfaction because the president had finally appeared and fought with him in public.

Once he regained composure, the Holy Lord scoffed, "Well, well, I never thought you'd dare show your face again, old man! In that case, I'll eliminate all of you at once!"

The president shot back sharply, "Oh really? Are you ready to test your strength? It's hard to say who would be eliminated today. Oh, I almost forgot to share some good news! The Blue Star's world master has completely cut

off the signal. So, neither the Saint Society from the Cosmic realm nor those lurking members of the Blood Clan will send anyone here to help you. Today spells the end for the Saint Society's presence on Blue Star!"

The president's words hit like a bolt from the blue. The Holy Lord of the Saint Society seemed momentarily in a daze.

He forced himself to stay composed. His eyes glinted with malice as he said, "Even if we lose reinforcements, what does it matter? Old man, with the current strength of your Salvation Society, you can't defeat our Saint Society! There are only two level-nine and three level-eight Primogem Warriors in the Salvation Society, including you. And we have seven level-eight Primogem Warriors! Moreover, your apprentice Liam is in a coma now. You have no way to restrict me! There's no way you can turn things around! So today, it's your side that's going down!"

As the Saint Society and the Salvation Society geared up for their final clash, Shayla, Laura, and Maureen had already slipped into the Duncan family's lab headquarters.

For ordinary people, a level-six Primogem Warrior was a distant, formidable figure.

Therefore, despite Shayla and her team killing several of the Duncan family's guards, they remained undetected.

But just as Shayla led her companions to their next destination, they came face-to-face with someone unexpected: Tyler, Liam's old nemesis!

At that moment, Tyler had Yolanda on a leash, treating her like a dog.

Thanks to the Duncan family's resources, Tyler had become a level-four Primogem Warrior and gained

 +120 Points at most

Rohan's favor. And this led to his patrol duty here.

Unfamiliar with Tyler, Shayla and the others initially felt no animosity toward him.

But when Shayla saw Yolanda treated like a dog on a leash, a wave of anger surged through her.

Shayla had been treated this way by Garrett, stripped of all her dignity as a person.

So, when she witnessed this scene, those memories flooded back into her mind. And all the bottled-up fury burst forth.

Shayla's eyes burned red, her body trembling. She clenched her fists, ready to kill Tyler!
