

Chapter 1238 Shayla's And Laura's Decisions

Liam made a special trip to Invone to meet with Laura and Shayla.

He didn't keep any secrets from them and shared his plan with them.

He said, "Due to Julie and Asher's situation, I must isolate myself to train. My goal is to advance quickly to level ten of the Primogem Warrior and then head to the Cosmic realm to save Julie and Asher. Shayla, Laura... I'm truly sorry."

Liam was aware that for Shayla and Laura, with their talents, reaching level ten and entering the Cosmic realm would be a formidable challenge.

It seemed more honest to lay everything out now rather than have them wait for him indefinitely on Blue Star.

Liam continued, "After I enter the Cosmic realm, it's likely we'll never see each other again. So, please take care of yourselves. I hope you won't wait for me. We only get one life, after all. If you can move on from our relationship, it would be better for you."

Shayla and Laura were stunned by his words, and soon, their eyes welled up with tears.

In fact, they had already pondered this grim scenario, yet it was a burden too heavy to face directly, and they had spent all their time avoiding it.

But Shayla and Laura understood Liam's perspective completely.

In truth, Liam's choice was logical and thoughtful.

They were also moved by the deep bond between Liam and Julie.

Deep down, they knew if they were the ones captured by the Blood Clan, Liam would try his best to save them, too.

Despite realizing that the distance in strength between them was growing, Shayla and Laura couldn't bring themselves to agree with Liam.

Shayla's smile, devoid of its usual allure, was now tinged with seriousness and concern. "Liam, I can't imagine loving another man as deeply as I love you. You are the greatest love of my life! I won't accept anyone except you! So, I'll wait for you, always."

Laura, tears streaming down her face, added, "Me, too! Liam, I want to accompany you to the Cosmic realm! No matter where you are or who you become, I'll be by your side!"

Liam, hearing this, felt resigned.

How could he bear the thought of leaving them behind?

Yet, traveling to the Cosmic realm was bound by certain constraints.

Shayla and Laura couldn't be taken to the Cosmic realm by him.

Shayla said, "Laura and I will make it to level ten as Primogem Warriors! When we do, we'll go and find you in the Cosmic realm! Don't worry, Liam! We'll train tirelessly

on Blue Star until we're strong enough!"

Liam felt a pang in his heart. He hadn't realized how deeply Laura and Shayla cared for him.

After pondering for a moment, he offered, "I know of a place where time moves ten times slower than it does in the outside world. But it's risky. If you're willing, you can join me there to train."

Hearing Liam's words, Shayla and Laura immediately agreed with surprise.

After he had the conversation with Shayla and Laura, Liam traveled to Genesis Island to bid farewell to the president and Carlden.

He shared his intentions and upcoming plans with his master and Carlden.

Upon hearing Liam's words, both the president and Carlden nodded in understanding.

They were aware of why Liam had made this choice.

Carlden stepped forward, placed a reassuring hand on Liam's shoulder, and advised, "Liam, make sure to take care of yourself in the Cosmic realm! Your exceptional talent will surely pave the way for a promising future there!"

The president, who had come to Blue Star from the Cosmic realm, was far more acquainted with its intricacies than Carlden.

He simply retrieved a unique type of currency from his pocket and handed it to Liam. "This is what they use in the Cosmic realm. It will allow you to purchase items of equivalent value there. There's one thing I need you to know. Once you arrive in the Cosmic realm, find the Human Clan immediately and join them. You can go and

Liam, tears brimming in his eyes, felt a pang of reluctance to depart.

Yet, he was aware of the greater responsibilities that awaited him.

Stepping back, Liam knelt down, bowing deeply to the president and Carlden. "Master, Carlden, I am deeply grateful for your guidance over the years. Your kindness will always be remembered!"

Both the president and Carlden nodded, their faces warm with smiles.

After expressing his gratitude, Liam did not linger. He left Genesis Island, his gaze lingering on it for a prolonged moment.

Liam knew well that once his training was complete, his path might lead him directly to the Cosmic realm, potentially making it challenging for him to return to Genesis Island again.
