

## Chapter 1253 Baptism Of The Cosmic Realm

As Sheldon's direct disciple, Lindy's prowess must be more impressive than Liam had anticipated.

Yet, Lindy seemed indifferent to Liam's astonished look. She quickly briefed him on their upcoming plans and then led him to meet Sheldon.

Sheldon was taken aback when he discovered Liam's "Legendary"-level talent. Even as the Primogem Emperor, he couldn't help but lavish praise on Liam, his enthusiasm evident.

"I saw potential in you right away, young man. But I never imagined you'd be this remarkable! Dedicate yourself to your training. I wonder how far you'll go!" he exclaimed joyfully.

Sheldon was generous with his compliments to Liam.

He then said, "Prepare yourself, Liam. Soon, I'll escort you to the Heavenly Dragon College for the baptism of the law power in the Cosmic realm."

They traveled to the Heavenly Dragon College using the Stellar Cruiser. Then, Sheldon led Liam to a remote cultivation chamber.

These chambers were common in the Network of Human Sovereign.

Each chamber had different effects.

Some were tailored for developing specific special powers. Others could manipulate time.

In short, the capabilities of these cultivation chambers were diverse.

At first, the chamber Sheldon led Liam into didn't strike Liam as anything extraordinary.

Liam had no doubts about Sheldon's motives; he just figured he hadn't spotted anything remarkable yet.

Liam soon heard Sheldon explain, "This cultivation chamber is one of our most prized assets. It contains a kind of World Power!"

At that revelation, a spark of intrigue flickered in Liam's eyes.

Liam possessed two kinds of World Power himself.

One had been bestowed upon him by Lancy, while the other was a legacy from his father, the Human Sovereign.

Liam had not expected that World Power could hold such immense value in the Cosmic realm.

He had assumed that in such an expansive realm as the Cosmic realm, it wouldn't be so scarce.

Yet, here was Sheldon, offering him the chance to experiment with the World Power, a gesture that deeply touched Liam.

Still, Liam kept his own possession of the two kinds of World Power a secret.

After all, it was too astonishing a truth to share!

Guided by Sheldon, Liam sat down in the cultivation chamber.

Sheldon then gave further instructions. "Ease your tension and connect with the World Power in this chamber. Let it reach deep into your heart. All you need to do is to feel the World Power to cast aside some of the limitations of your Celestial Realm. We refer to this process as the baptism of the Cosmic realm!"

Liam expressed his gratitude to Sheldon.

With his advice imparted, Sheldon exited the chamber.

Once alone, Liam began to intently feel the World Power around him.

As he quieted his mind and concentrated, Liam noticed that the World Power left behind by his father was currently undergoing noticeable fluctuations.

The World Power seemed to be expanding rapidly in some way!

This unexpected discovery led Liam to think about the World Power from Blue Star.

Upon inspection, he found no changes in the World Power from Blue Star.

Chapter 1253 Baptism Of The Cosmi 🎁 +120 Points at most

After pondering for a moment, Liam realized something.

The World Power bestowed by Emperor Hoffman must have originally come from the Cosmic realm. This was the reason it was affected by the chamber's baptism.

Moreover, Liam noticed that not only his spiritual power but also his special power, primogem energy, and physical form were being enhanced by a mysterious force at this time.

It felt like he was experiencing a transformation!
