Seeing that such terrifying spark fire had been so effortlessly quelled by Liam, Shiloh could hardly contain his astonishment.

He hadn't anticipated that Liam possessed such formidable abilities!

Involuntarily, Shiloh found himself measuring his own strength against Liam's.

To his surprise, he realized that in a life-or-death battle, he would undoubtedly be defeated by Liam.

This thought made Shiloh feel somewhat relieved.

Fortunately, he had never crossed Liam since their encounter.

With a smile, Shiloh turned to Liam and admitted, "Liam, I truly underestimated you."

Meanwhile, Trudy still looked down on Liam. In her eyes, no matter how powerful Liam was, he couldn't hold a candle to her esteemed family.

Suddenly, the unexpected unfolded near Liam and the siblings.

Three spark beasts materialized around them without warning. The strength of these newly appeared spark beasts was all at the pinnacle of level ten.

At the sight of the spark beasts, both Shiloh's and Trudy's

They were already in bad shape now. Moreover, due to the significant loss of their spiritual power, they were incapable of activating the magical circle of swords anytime soon.

In a rush, Shiloh warned, "Liam, be careful! These are three spark beasts at the peak of level ten!"

Trudy faced one of the spark beasts, her eyes flickering with a hint of fear. At this critical juncture, she tugged at Shiloh's sleeve and whispered urgently, "Shiloh, let's leave! Liam is here. He can distract the spark beasts for us!"

Shiloh was shocked that Trudy wasn't thinking about how to handle the situation and survive now; she was thinking about how to betray Liam!

Liam heard every word Trudy had said.

He watched Shiloh intently, curious to see what choice Shiloh would make.

To Liam's surprise, Shiloh's face darkened. He lowered his voice and coldly scolded Trudy, "Trudy! What are you thinking about? Are you still a member of our Gibson family to abandon a friend like this? Don't even think about it! If we really can't defeat the spark beasts, I will use the prohibited skill to take them down."

Shiloh's words, meant only for Trudy, were low. But with his outstanding hearing, Liam heard them clearly.

Seeing that Shiloh's actions aligned with his words, Liam admired him deeply.

From Shiloh's serious expression, Liam could tell that he was ready to pay a significant price to defeat the beasts. The prohibited skill Shiloh had mentioned must cost a lot.

When Trudy heard that her brother was willing to use the prohibited skill for Liam, she immediately showed a look of unwillingness and said anxiously, "Shiloh! Is it really worth it to use the prohibited skill for an outsider?"

While the two argued, Liam started to fight the spark beasts with all his might.

Liam's thoughts were simple; if Shiloh could make sacrifices for a stranger like him, how could he stand by and do nothing now?

At that moment, Liam activated his Malicious Aura Domain, instantly enveloping the three spark beasts.

The terrifying Malicious Aura Domain made the three spark beasts instantly sense danger.

Then, Liam unleashed his Origin Technique, "Power of Five Elements".

A powerful force burst from Liam's body, like a torrential flood cascading down a mountain, unstoppable.

In an instant, Liam tore the three spark beasts into pieces!

Shiloh's and his sister's eyes widened in shock as they saw that the top-level-ten spark beasts didn't even have the strength to resist in Liam's hands.

Trudy was extremely stunned.

She noticed that after Liam used the Malicious Aura Domain, an intimidating aura surrounded him.

Trudy now understood how terrifyingly powerful Liam was, and she dared not speak rudely to him anymore.

But Shiloh's reaction was completely different.

After witnessing Liam's horrifying strength, Shiloh smiled at Liam sincerely. "Liam, you are really something! With your strength, you could easily secure the spark metal without our help. I want to be your friend. Why don't you come to visit our family after we submit the task?"

After going through a lot with Shiloh, Liam also recognized Shiloh's character. He knew that Shiloh was a friend worth having, so he nodded and said, "Okay! If time permits in the future, I will make it a point to visit the Gibson family."
