

## Chapter 1264 Refined Spark Metal

---

Shiloh grew visibly happy seeing Liam agree.

Afterward, he left with Trudy.

Liam parted with Shiloh and his sister but didn't leave the planetary system. He chose to go deeper into it instead.

Since countless spark beasts appeared here one after the other, Liam believed there must be a large amount of spark metal here.

Liam's body froze as a realization suddenly dawned on him.

Considering he had realized there was more spark metal, Liam felt Shiloh, being the eldest son of the Gibson family, must have realized this as well.

"It looks like Shiloh has deliberately left the spark metal to me!" Liam muttered.

Liam's impression of Shiloh elevated in an instant.

Of course, if the place contained a large amount of spark metal as he thought, he believed he indeed deserved it.

After all, if it weren't for him, Shiloh and his sister would have died here.

Liam shook his head and decided not to dwell on it. He walked deeper into the planetary system and carefully explored the place.

After searching for a while, Liam spotted a huge spark

Chapter 1264 Refined Spark Metal  +120 Points at most metal mine.

He was gladly surprised.

Along with improving his strength, spark metal could also be exchanged for points.

Liam could earn one point with ten kilograms of spark metal.

He estimated this enormous mine roughly contained at least seventy thousand kilograms of spark metal.

If he sold all the spark metal here, he would get seven thousand points.

Unfortunately, the points earned from selling items couldn't be used to upgrade his authority.

Liam understood this rule.

After all, the gaps between the Primogem Warriors were huge. The Gibson family, for instance, could enhance the younger generation's strength with the accumulated family wealth if not for this rule.

Liam carefully inspected the spark metal mine and found something unexpected.

"The refined spark metal?" he gasped in shock.

The refined spark metal was the king of spark metal.

A piece of refined spark metal was hundreds of times more valuable than a piece of spark metal.

One could earn a thousand points in exchange for a single piece of refined spark metal.

But Liam wouldn't use treasures like the refined spark

Chapter 1264 Refined Spark Metal  +120 Points at most metal to earn points.

After all, the refined spark metal could effectively hone his law power of the fire element and also amplify his spiritual power.

Therefore, Liam happily collected all the spark metal and the refined spark metal. He continued to explore the planetary system afterward.

Liam wandered around the planetary system for a while and discovered many Human Clan's Primogem Warriors on one star.

He immediately landed on the star and inspected the situation there.

The star was the remains of a fixed star that had been burned by the fire of the entire planetary system.

However, Liam discovered a hint of vitality and pressure here.

He was taken aback.

This star should have been destroyed. He was surprised to sense such vitality here.

Meanwhile, the Heart of Life fragment that had been dormant in his body for a long time suddenly stirred.

"Master, there is a fragment of the Heart of Life here!" Emer, who hadn't talked to Liam for a long while, spoke up.

Liam was thrilled to hear this.

When Liam was about to get closer to the wreckage of the star before him, he felt the pressure on his body intensify.

Fortunately, Liam's body had become exponentially strong,

Chapter 1264 Refined Spark Metal 🎁 +120 Points at most  
and the fragment of the Heart of Life provided relentless energy for him. Therefore, he could withstand immense pressure for the time being.

Considering Liam's strength, his presence here was enough to garner attention.

Just then, an old man with a kind smile approached Liam. "Young man, no need to be so stubborn. You don't have to risk your life for something unknown!"

Hearing the old man's earnest advice, Liam smiled and said, "Don't worry, sir. I'm confident in my strength."

The old man wanted to continue to persuade Liam.

But Liam wouldn't give up after knowing a fragment of the Heart of Life was here.

The onlookers all knew the old man. Seeing Liam's insistence on entering the place, they all spoke up.

"Mr. Hammond, we all know you are kind-hearted. But this guy is so ungrateful. You don't have to care about him."
