

Chapter 1479 Entering The Secret Realm

Liam was taken aback.

Caden had spoken those words to him alone.

Clearly, in Caden's eyes, Liam's life held more significance than even the law power of Nocturne, who was very important to the Human Clan.

Liam couldn't help but be moved by this. He nodded gently, acquiescing to Caden's request.

Seeing Liam's nod, Caden breathed a sigh of relief.

In his view, unexpected events could befall anyone, but not Liam.

This was not only because Liam's identity was extraordinary but also because his talent was unparalleled in the annals of the Human Clan.

Given sufficient time, Liam could become a Primogem Deity.

Caden's expression then grew stern as he addressed the group, saying, "The battleship is about to reach the entrance of the secret realm. Prepare yourselves!"

At Caden's command, Liam and the others instantly adopted a grave demeanor. Using the propulsion of their flying devices, the five swiftly exited the battleship and headed toward the secret realm ahead.

Liam surveyed the area near it, sensing the intense energy fluctuations. The powerful beings at the Primogem King level were locked in fierce combat.

The resulting shockwaves were potent enough to instantly slay any Primogem Expert whose strength wasn't stable.

Fortunately, the enemies on the battlefield were primarily focused on

the Human Clan's warriors. Moreover, the massive battleship, under Caden's control, led the enemies to believe that the Human Clan had deployed millions of new warriors to the battlefield.

As a result, the movements of Liam and his companions remained unnoticed by the enemies.

The five moved at incredible speed, almost transforming into streaks of light as they entered the secret realm.

Inside, the stark, dark interstellar battlefield gave way to the unexpected environment of the secret realm.

Contrary to Liam's expectations, it was not eerie but was instead brimming with lush greenery.

However, their mission was not to admire the surroundings.

Cataleya, with a slight furrow in her brow, spoke. "How are we supposed to find the law power of Nocturne?"

Her words brought a sudden realization to the group.

The secret realm was vast, and finding the law power of Nocturne was akin to searching for a needle in a haystack—an almost impossible task.

Caden had detailed the aura of Nocturne's law power in an email from the Network of Human Sovereign. But the enormity of the secret realm made the task dauntingly difficult.

Just as everyone was grappling with this, Liam suddenly pointed ahead and said, "I can sense a stronger presence of law power in that direction. Let's try our luck there."

Liam's words took the group by surprise. After all, they were aware that Liam's strength was considered the lowest among them. Yet, here Liam was, making a discovery when the others were at a loss.

This caused Cataleya and the others to regard Liam with newfound respect.

In truth, Liam had been deliberately ambiguous with his statement. He was actually quite certain that the law power of Nocturne was in that direction.

That area was marked by a concentration of law power, accompanied by an aura from a Primogem Emperor.

Liam's ability to discern this was not mere chance but the result of his exceptional spiritual power, which far surpassed that of ordinary cultivators at the same level. After merging with a new fragment of the Heart of Life, his spiritual power had become almost unmatched, nearing the highest level of a Primogem King.

With such profound spiritual power, it was inevitable that Liam would detect the law power of Nocturne.
