

Chapter 1483 Something Strange Ahead

Alexis' reaction was understandable. Everyone knew that in the Celestial Realm, the primogem energy crucial for cultivation was scarce, making the cultivation process dozens of times more challenging than in the Cosmic realm.

Even Alexis and Gabriela, talents born in the Cosmic realm, had taken over eighty years to become Primogem Warriors.

Their achievement was considered quite impressive within the Cosmic realm.

However, if they had attempted the same cultivation journey in the Celestial Realm, where primogem energy was much scarcer, their progress would have been significantly slower, and it was likely they wouldn't have become Primogem Warriors even after training for five hundred years.

Considering that Liam appeared to be less than a hundred years old, Alexis' awe made sense.

Liam appreciated the sincerity in Alexis' words and was about to respond when he was abruptly interrupted by a sharp voice.

"So, you ascended from the Celestial Realm. No wonder you come off as arrogant! But as someone more experienced, I must warn you. In the Cosmic realm, it's fine to show talent. However, you better not be so arrogant. Otherwise, you will face consequences!"

Liam and his companions turned to see Hilliard, who had just caught up with them.

Observing the sarcastic look on Hilliard's face, Liam didn't react angrily. Instead, he smirked and replied, "Whether it's arrogance or confidence, maybe you haven't figured it out yet."

Hilliard picked up on the confrontational undertone in Liam's words, his expression turning icy. "It seems you're quite confident in your abilities and don't take us seriously at all!"

Liam, uninterested in arguing with someone like Hilliard, merely snorted and ignored him.

Since ascending to the Cosmic realm, he had realized that the cultivators here tended to be simple-minded, perhaps due to the decades they spent immersed in cultivation.

In contrast, on Blue Star, the Celestial Realm where he was from, individuals in their teens were already mature because of worldly challenges. Over time, they grew much more adept at navigating social interactions.

Interacting with people from the Cosmic realm wasn't particularly challenging for Liam, but sometimes he felt a bit resigned. The naivety of these less worldly cultivators could be frustrating.

For instance, Joseph, whom Liam had recently defeated, had decent strength typical of a cultivator but lacked mental discipline. This made interactions with him somewhat taxing for Liam.

When Hilliard realized Liam wasn't going to continue to argue with him, he couldn't hide his frustration.

For a moment, his face was a picture of bewilderment.

Liam noticed Hilliard's expression and couldn't help but sneer internally. Still, he chose not to provoke Hilliard further.

Despite everything, Hilliard was his teammate, and in the unfamiliar secret realm fraught with unknown dangers, unity was crucial. They

needed to be wary of potential attacks from the Dremer race and other creatures lurking in the secret realm. This was not the time to foster discord among teammates.

Suddenly, Liam's expression turned serious. He quickly grabbed Alexis, who was walking ahead.

Alexis looked at Liam, puzzled.

Liam warned, "There's something strange ahead. Be careful!"
