

## Chapter 1486 Liam's Discovery

---

Hilliard soared through the air for several meters, landing with a heavy thud.

The impact left him dazed, and he struggled on the ground for a moment before finally getting back on his feet. Feeling embarrassed, he charged forward again.

Seeing this, Alexis couldn't help but feel concerned for him. "Hilliard, are you really okay? If it's too much for you, I can deal with this creature."

Hilliard, without even looking back, took Alexis' words as an insult to his strength and snapped, "Fuck off! I don't need anyone's help!"

Alexis, offering help out of kindness, was met with Hilliard's angry response, which naturally angered him. He frowned but chose to avoid any conflict within the team, not saying anything.

Watching all this, Liam noticed how Hilliard had not only refused Alexis' help but also insulted him. He shook his head slightly and muttered under his breath, "He is ambitious but not skilled enough. Too arrogant for his own good!"

That was Liam's take on Hilliard.

Despite knowing he couldn't handle the enemy alone, Hilliard had refused to consider other strategies and even lashed out at a teammate who had tried to help.

To Liam, this was the behavior of a fool.

Hilliard's refusal to accept help, despite being unable to beat the enemy, only hindered the team's progress.

They had entered the secret realm to seek the law power of Nocturne, not to waste time on a matter like this.

Hilliard, however, wasn't thinking that far ahead. All he felt was humiliation, and he was determined to prove himself by taking down the creature from the secret realm.

But with the creature's resistance to his metal law power, no matter how hard he tried, he couldn't land any real damage.

Liam stood nearby, silently observing the fight between Hilliard and the creature.

Liam had no plans to step in, especially after Hilliard's harsh rejection of Alexis' help.

But Hilliard's stubbornness was clearly holding the team back.

Just as Liam was deep in thought, his brow furrowed, and he stared intently into the distance.

At that moment, it felt as though his gaze could cut through all the barriers of the secret realm, seeing miles ahead.

His sharp spiritual power picked up a large group of the Dremer race's warriors in the distance.

At first, Liam assumed these warriors had noticed their team and were coming to launch an attack.

But then, he quickly realized they weren't heading toward his team but in another direction.

After a quick assessment, Liam concluded they were on the move to do something.

It was clear the Dremer race's team had uncovered something important!

In the secret realm, the only thing that could draw the Dremer race's

attention was the law power of Nocturne.

Liam believed this confirmed his earlier guess that the direction he had pointed to indeed led to the law power of Nocturne.

However, since the Dremer race's soldiers were closer to the destination, they were more likely to get the law power of Nocturne first!
