

## Chapter 1500 Fight Against Thousands Of Enemies

Liam's body was enveloped by a thick, black aura. It swirled around him, forming an almost tangible mist.

The raw, untamed energy of Death Power erupted from Liam's body, and at his command, it surged forth, charging towards the Dremer army ahead.

With the domain of Death Power at his disposal, Liam seemed unstoppable, ready to fight against thousands of enemies single-handedly.

The members of the Dremer army charged forward relentlessly, but the moment they came in contact with Liam's energy of Death Power, their bodies dissolved into black smoke.

Even as their fellow soldiers were reduced to black mist, the remaining Dremer soldiers continued their relentless attack against Liam.

Liam's primogem energy was rapidly depleting. If it weren't for the Heart of Life constantly replenishing his energy, he would have been overcome by exhaustion long ago.

Despite this, his situation was far from optimistic.

The sheer number of the Dremer army was pushing him to his limits. Fortunately, he possessed the powerful "Fatal Hex" ability. This ability allowed him to slay the oncoming enemies

en masse, preventing him from slipping into a hopeless predicament.

Only five minutes stood between Liam and his retreat. However, just as he felt a glimmer of relief, his attention was drawn to a new threat. A large group of creatures were emerging from the secret realm behind the Dremer soldiers.

These creatures did not engage in combat with the Dremer members. Instead, it appeared as if the creatures and the Dremer army had reached some sort of agreement, as neither side made a move to attack each other. Their one and only target was Liam.

Liam's expression darkened in an instant.

A chilling suspicion crossed Liam's mind—news of him obtaining the Stone of Five Elements must have spread to these creatures from the secret realm. This explained why these creatures had set aside their previous animosities and forged a temporary alliance with the Dremer army to launch an assault on him.

Fighting against the endless tide of soldiers of the Dremer race was already taxing for him. And now, with the addition of so many creatures in the battle, the odds looked heavily stacked against him.

All the beings from the secret realm were, at minimum, at the stage of Primogem King, with some even being level-two Primogem Kings.

Liam still retained the upper hand due to the enhanced strength from the domain of Death Power and could use the

"Fatal Hex" to take down Primogem Kings at level one.

However, dealing with level-two Primogem Kings might not be as easy.

Yet, even though he was in such dire circumstances, the thought of abandoning the law power of Nocturne never crossed Liam's mind. Nor was he willing to surrender the hard-won Stone of Five Elements just to save his life.

In the blink of an eye, the secret realm's beings were within a hundred meters of Liam. The domain of Death Power had little impact on them, barely slowing down their advance.

Liam gritted his teeth and drew out the sword of darkness. His gaze sharpened, fixed intently on the wave of enemies approaching him.

"Come on!" he muttered, his voice low. "Let's find out who will fall first!"

In Liam's grip, the sword of darkness radiated brilliant beams. As Liam swung the hilt, the beams sliced through the air, accompanied by a whooshing sound.

The beams struck the secret realm's beings at the forefront, followed by a series of explosive sounds. Then, the immense energy of the sword erupted violently.

The sheer power of the sword's energy obliterated some of the weaker members of the Dremer army instantly.

However, Liam did not relax. He knew that the real threat was posed by beings from the secret realm rather than the Dremer

soldiers.

If this strike failed to eliminate the creatures from the secret realm, he would be the one to suffer defeat.

After all, only two minutes remained until he could leave as per Caden's instructions. And leaving the secret realm now would most likely result in an ambush by Dremer soldiers outside!
