

## Chapter 1534 The Law Power Of Five Elements

---

Liam believed possessing an additional high-level law power served as a crucial safeguard for his well-being.

This time, the fusion process was far less arduous compared to his earlier attempts, during which the five elemental law powers had clashed intensely.

Although some resistance still lingered among the law powers, the energy from the Stone of Five Elements acted as a catalyst, easing the friction and enabling the elemental law powers to merge smoothly.

The fire and earth law powers were the first to merge. Despite Liam's uneven mastery of these law powers, the energy from the Stone of Five Elements made the fusion process remarkably smooth.

Liam finally felt the true marvel of the Stone of Five Elements firsthand.

Under normal circumstances, merging the fire and earth elemental law powers would have been a grueling process, demanding immense effort and taking several days at the very least.

After all, although both were part of the five elemental law powers, they lacked any inherent connection.

Yet, the Stone of Five Elements effortlessly fused these two law powers, leaving Liam in awe of its incredible power.

As the fire and earth elemental law powers merged within him, Liam couldn't help but feel a rush of excitement.

Next, he only needed to systematically apply the same process to the remaining elemental law powers, gradually uniting them into a new law

Liam finally felt the true marvel of the Stone of Five Elements firsthand.

Under normal circumstances, merging the fire and earth elemental law powers would have been a grueling process, demanding immense effort and taking several days at the very least.

After all, although both were part of the five elemental law powers, they lacked any inherent connection.

Yet, the Stone of Five Elements effortlessly fused these two law powers, leaving Liam in awe of its incredible power.

As the fire and earth elemental law powers merged within him, Liam couldn't help but feel a rush of excitement.

Next, he only needed to systematically apply the same process to the remaining elemental law powers, gradually uniting them into a new law power.

Once all the elemental law powers were fully merged into the Law Power of Five Elements, he would achieve his goal.

With the Stone of Five Elements aiding the process, the remaining elemental law powers slowly began to fuse within Liam.

The integration process took ten days, during which Liam remained in seclusion in his training chamber.

Over the course of ten days, all five elemental law powers were fully integrated, thanks to the assistance of the Stone of Five Elements.

Once the integration was complete, Liam's mastery of the five elemental law powers became evenly balanced at 9%!

After days of quiet focus, Liam's eyes slowly fluttered open.

A sharp gleam flickered in his eyes, and he ended his seclusion.

A faint smile of satisfaction appeared on Liam's face.

During his days of isolation, he had successfully mastered the Law Power of Five Elements!

With a swift motion, Liam raised his hand, and his energy channels erupted with raw power, conjuring a dazzling, multicolored elemental force that danced at his fingertips.

This swirling, multicolored elemental force was unmistakably the Law Power of Five Elements.

It had been forged by blending the five elemental law powers.

Moreover, the Law Power of Five Elements was far more potent than the sum of its individual elemental law powers, its strength magnified by their union.

For instance, the earth elemental law power, at 9% mastery, could only produce a gravitational field nine hundred times stronger than normal. But within the Law Power of Five Elements, it could produce a gravitational field eighteen hundred times stronger than normal.

This boost was phenomenal.

Liam's eyes sparkled with wonder as he carefully attuned himself to the strength of the Law Power of Five Elements, a deep sense of joy swelling within him.

With this new law power, his combat strength was set to rise significantly.
