

Chapter 1537 Meeting Everett Again

Liam's gaze locked onto his opponent across the arena. As the figure's face became clear, Liam's surprise was evident. "Everett? It's you?"

Standing before Liam was his friend, Everett.

Everett met Liam's gaze calmly, his voice tinged with resignation as he said, "I have no choice but to do this. If I hadn't lost to Chad in the draw, I'd be waiting for you in the ninth-level match. But rest assured, I'll give it my all this time. Your chance to fight Chad in the ninth-level match hinges on whether you can defeat me this round."

Liam responded with a wry smile. It was an unexpected reunion—not only was Everett here, but Chad was also here. Such a coincidence.

Liam recalled his first arena mission where he had fought both Chad and Everett. He hadn't anticipated facing them again on his second time here.

Everett had already assumed a combat stance, his expression serious.

Having previously clashed with Liam, Everett knew all too well the formidable strength Liam possessed.

In this match, he believed staying fully alert was essential for him to stand a chance against Liam.

Seeing Everett like this, Liam was initially shocked but soon realized Everett was sparing no effort.

After all, while losing to Liam wasn't embarrassing, it would still be a significant blow to someone like Everett, a genius of his caliber.

With Everett showing no signs of initiating an attack, Liam wasted no time and made his move.

A flash of golden light sparked in Liam's hand, forming a long sword from the Law Power of Five Elements.

Liam's aim this time was merely to gauge the strength of the Law Power of Five Elements. He intended not to use any other abilities.

Even so, the long sword shaped by the Law Power of Five Elements in Liam's hand emitted a profound aura.

The ethereal blade was not only sharp, characteristic of the metal law power, but also bore the solid weight of the earth law power and the intense destructive force of the fire law power.

Within the blade, there was also a subtle presence of the calming water law power and a touch of the restorative wood law power.

Such a blend of powers instantly filled the entire Human Sovereign Arena.

Everett, facing Liam, instantly recognized the distinctiveness of the law power in use.

His expression shifted to one of shock as he looked at Liam, exclaiming, "Oh my God! You've actually mastered the Law Power of Five Elements!"

Everett was aware of Liam's possession of the formidable Death Power and had come to terms with that.

After all, Liam only had one first-tier law power before, which, though surpassing what most cultivators could achieve, was something Everett could somewhat accept.

Now, however, Liam not only wielded the formidable Death Power but also mastered a second first-tier law power. How could Everett come to terms with that?

Despite his shock, Everett was internally impressed.

Liam had solidified his status as the number one genius of the Rosefinch Galaxy. In just a short span, he had developed the capability to control a

second first-tier law power, a testament to his extraordinary talent.
