

## Chapter 1539 Continuing

Liam glanced at the pop-up notification from the Network of Human Sovereign and said, "I choose to continue."

Having mastered the Law Power of Five Elements, he had come to the Human Sovereign Arena to test his limits. Stopping halfway was simply not an option for him.

As soon as Liam chose to proceed, Everett's body vanished, and in the arena, a familiar figure began to materialize.

It was Chad.

"Liam, long time no see," Chad greeted Liam with a smile.

Unlike the casual indifference Chad had shown Liam when they had first met, he now regarded Liam with respect.

Liam returned the smile with a slight nod. "Yeah, it's been a while."

Liam hadn't had much time to make friends since he had come to the Cosmic realm.

Everett and Chad were among the rare few he could count as friends, which explained his friendly attitude toward Chad.

Chad chuckled. "That match between you and Everett earlier was amazing. Honestly, I never expected you to master the Law Power of Five Elements while already wielding the Death Power. You're a monster!"

Liam smiled faintly, brushing off the praise.

Though Chad's strength in the Human Sovereign Arena was restricted to the ninth-level Primogem Expert realm, Liam knew that Chad's true power extended far beyond that—he was a Primogem King.

This meant Chad's understanding of the Primogem Expert realm far

exceeded Liam's own.

What was more, Liam knew Chad had observed his earlier battle with Everett and gained valuable insights into his control over the Law Power of Five Elements. He understood that he couldn't afford to be careless in this match.

By now, Chad had closed the distance between them, standing just a few paces away from Liam, his eyes brimming with fighting spirit.

He said, "Liam, you'd better give it your all. I want to see just how powerful the Law Power of Five Elements truly is."

Liam laughed heartily. "I will!"

As Liam's words faded into the air, Chad moved like a phantom, his figure blurring as he charged toward Liam with lightning speed.

Chad's approach was a stark contrast to Everett's passive defensive strategy. Instead of waiting for an opening, Chad took the offensive.

His earlier words had been nothing more than a ploy to distract Liam.

Liam's focus sharpened when he saw this, and he unleashed the full force of the Law Power of Five Elements. Instantly, the gravity magnetic field, amplified 1,800 times, blanketed the arena.

The crushing gravity bore down on Chad, drastically reducing his speed. While it didn't completely immobilize him, the sudden deceleration caught him off guard, forcing him to adapt mid-charge.

It was worth noting that even though Chad's strength in the Human Sovereign Arena was restricted to the ninth-level Primogem Expert realm, it still far outclassed Liam's power.

Yet, Liam's mastery over the Law Power of Five Elements created an undeniable impact, leveling the playing field.

This alone was proof of Liam's profound understanding and control of his

law power.

While Chad was secretly shocked, Liam had already approached him.

Summoning his law power sword once more, Liam brandished the blade, which now roared with intense flames. Its fiery glow radiated a crushing, oppressive aura that seemed to fill the arena.

The audience erupted into murmurs as they watched the match.

"Do you think Liam has a chance of winning this time?"

"Honestly, it's going to be tough. Chad's strength isn't something to take lightly, even with the Network of Human Sovereign limiting him to be a ninth-level Primogem Expert."

"Exactly. Liam defeating Everett, who is at the eighth level, was already incredible. But now, he is facing a ninth-level Primogem Expert. I don't think he can win this time."

The crowd was not optimistic about Liam's chances of winning.

After all, the gap in power between Chad and Liam was vast.
