

## Chapter 753 Julie's Delivery

Time flew by swiftly. After half a year, Julie was on the brink of giving birth.

This was a momentous occasion for the Hoffman family. As the due date drew near, everyone in the Hoffman family was bustling with preparations for a joyful celebration of the birth. Sergio remained in a perpetual state of contentment, relishing the happiness of expecting a great-grandson.

Over the past six months, Liam had set aside most of his professional commitments to travel across the country with Julie. They had indulged in all their desires, leading a happier life together.

After six months, the vitality of the Hoffman family had nearly fully recovered. Presently, the situation in Invone was exceptionally stable, and the Hoffman family stood at the forefront.

Having learned from their previous experience, Liam took extra precautions to ensure Julie's safety during childbirth this time. He constructed a safe house impervious to explosive threats, complete with a hidden passage leading to the outside world.

Liam had replaced all the guards surrounding their home with the most loyal ones and ensured that they were fully ready for Julie's delivery.

In the back of his mind, the fact that Rohan was still alive weighed on Liam. Even though he wasn't afraid of Rohan, he didn't want to be caught off guard by any potential attack.

On that night, Julie, nestled in Liam's embrace, was suddenly gripped by a sharp pain in her abdomen, causing her to cry out in distress.

Liam's senses snapped into action. He quickly pulled

back the covers and discovered that Julie's amniotic fluid had broken. She was on the verge of giving birth. With a worried expression, Liam pressed the button at the head of the bed. Immediately, the delivery team who had been on standby for twenty-four hours, rushed in.

For this delivery, Liam had done multiple rehearsals. At this critical moment, the skilled delivery team carefully carried Julie on a stretcher and rushed her to the safe house.

The commotion caused by these actions roused every member of the Hoffman family from their sleep. They hurriedly dressed and assembled near the safe house.

The entire Hoffman family anxiously awaited the arrival of Julie's baby. Unbeknownst to anyone, Leandro discreetly pulled out his phone in a corner and sent a message to a strange number.

"It's time to take action."

Inside the safe house, Julie lay on the bed in pain, receiving continuous encouragement from the delivery team. <sup>1</sup>

In this safe house, top-notch medical equipment was on hand, and Liam remained by Julie's side throughout. There was no better place in the world for her to give birth.

In that moment, Liam held Julie's hand tightly, offering words of encouragement. "Julie, you've got this. Our child is about to join us, and our future will be brighter."

Julie nodded. Her brow glistened with sweat and her determination became unwavering.

She was resolved to bring their baby into the world safely.

However, unbeknownst to those in the safe house, a sizable crowd had assembled outside the Hoffmans' residence.

They were comprised of various factions, all under Rohan's leadership, and included members from the Sandoval and Padilla families, alongside other smaller groups.

They had long awaited this day.

Rohan's eyes bore a fierce intensity as he said in a cold tone, "Today, success is your only option. Leave no Hoffman alive."

With a decisive wave of his hand, the firearms were loaded, and his men stormed into the Hoffmans' house.

In an instant, the deafening crack of gunfire filled the air.

As he watched his team's ruthless assault, a wicked
