

Strongest 671

Chapter 671-Frediano's Terror This was definitely not good news for the hundred countries around the world.

Frediano Jadanza had been in hiding for seven years, and now, he had reappeared.

Catherine Stevens from the Western International Arbitration Council said slowly, "Child, you can't provoke a pinnacle so easily. Do you know why?" "I don't! And I don't care!" Frediano was as cold as ever. He didn't have much to say to someone who was about to die.

Moreover, this was Lume Island!

His brother Braydon Neal's secluded cultivation place.

There must not be too much noise!

They had their own things to do.

Frediano took a step forward. His black clothes fluttered in the wind as he stepped in the air, white light appearing on his body.

These were the eight techniques!

Frediano was one of the founders of the eight king-conferring techniques.

He knew all the basic forms of the eight techniques!

Moreover, Braydon Neal had personally demonstrated eight king-conferring techniques for his younger brother at the Yin Yang Main Altar.

Frediano was about to use eight techniques.

However, in the depths of Coloured Lume Island, the powerful aura became chaotic again.

“Frediano, don’t use the eight techniques!” Braydon Neal said hoarsely.

A low growl filled with immense pain.

What had happened to Braydon?

Frediano executed the eight techniques and was actually able to resonate with the distant Braydon.

Even Frediano could sense the resonance at that moment.

Just now, Frediano seemed to have an illusion. She vaguely saw his brother, Braydon, dressed in white like an immortal, surpassing eight king-conferring techniques and becoming a supreme existence that everyone looked up to.

That moment of illusion made Frediano have the thought of surrendering.

Shock flashed across Frediano’s eyes as he hurriedly withdrew his eight techniques.

“Frediano, what’s going on with Big Brother?” Jonah asked in shock and anger.

“Eight techniques combined into one... the ninth technique!” Frediano’s thin lips moved slightly. His voice thin as she told Jonah Shaw what was going on.

Eight techniques combined into one. It was regarded as a pinnacle technique!

He had created the strongest forbidden techniaue since ancient times!

This was the idea that they had proposed back then.

However, no one had expected that their brother King Braydon, would really reach this step!

Braydon had been unwilling to enter the pinnacle realm for so long. He must have some tricks up his sleeve!

An overwhelming prodigy like the Northern King was invincible!

Invincible within the pinnacle realm!

Braydon had yet to enter the pinnacle realm, but he had used the forbidden technique of Heavenly Execution to kill Kinsley Durham, who was at the top of the pinnacle ranking.

One could imagine that once Braydon entered the pinnacle realm, he would definitely be ranked first!

Shock appeared in Jonah's eyes.

Of course, he understood what it meant to combine the eight techniques into one and create the ninth technique!

It was not just a terrifying forbidden technique.

It was also a pinnacle martial arts path!

“You can’t use the eight techniques,” Jonah said decisively. “Let me take this battle!” “Even without using the eight techniques, I can still kill a pinnacle. I can kill a pinnacle with a vitality of no more than 100 Na in one strike!” Frediano laughed lightly and attacked brazenly.

Arbitrator Catherine’s face darkened. She didn’t dare to be careless.

This was King Luminosa of the Northern Army!

A person who was conferred the title of king at the age of thirteen, now that seven years had passed, how much had Frediano grown? Would he be comparable to his brother Braydon?

No one knew!

Frediano took off the black cloak on his shoulder, revealing the sword on his waist. The sword was three feet long. The blade was black and heavy, and it was as cold as frost!

This was clearly a cold sword!

The Northern Army was founded by Braydon and Frediano.

They were the two most terrifying people in the Northern Army.

Back then, when Frediano started cultivating at the age of nine, he advanced by leaps and bounds, even Jonah Shaw and Hendrix Bailey were suppressed by him.

An existence who stepped into martial arts at the age of nine and was conferred the title of king at the age of thirteen. What kind of amazing talent was this!

At this moment.

Frediano pulled out the black sword at his waist.

The Luminosa Sword had been unsheathed!

The moment this vicious blade was unsheathed, the terrifying killing intent frightened the seagulls so much that their wings broke, and the white fish jumped out of the water.

“What a strong killing intent!” Milia exclaimed.

“King Luminosa, you dare to make an enemy of the International Arbitration Council?” Catherine faintly released her pinnacle pressure.

Frediano held the sword in his left hand and said softly, “Even the yin-yang entity is not afraid of the International Arbitration Council, not to mention the Northern Army. Today, not only will I offend you, but I will also kill you!

“I’ll kill whoever touches my brother!

“I only respect my brother!” Frediano’s eyes were as cold as lightning. His voice was like a Qilin’s roar in the sky. He held the sword in his left hand and attacked brazenly.

The moment the sword was unsheathed, Frediano’s aura was no weaker than Catherine’s!

Frediano’s sword slashed down from the sky. The seven-meter-long sword Qi was invincible!

Catherine took out her weapon in shock and anger.

It was a wide sword!

The Great Sword of the West!

The great sword came into contact with the Luminosa Sword and shattered instantly.

In terms of weapon forging techniques, Hansworth was eons above others.

Frediano broke Catherine's sword with one slash.

Catherine's expression was ugly as she retreated.

Frediano placed his right hand behind his back and held the sword in his left hand. He stepped into the sky and sighed. "The First Emperor's battle technique is indeed a bit difficult to cultivate. Otherwise, I would definitely be able to kill you with a single strike!" "The First Emperor's battle technique. Frediano..." Joshua was stunned!

He thought that he had misheard him!

Jonah was shocked. "The First Emperor's battle technique?" "The first of the five legendary battle techniques is a forbidden technique. It is one of the ten forbidden techniques!" Hendrix was shocked.

"Over the years, the yin-yang entity has dug up many graves of ancient sages." He revealed the origin of the First Emperor's battle technique just like that.

Hendrix's mouth twitched. "You dug up the grave of our ancestor, the First Emperor?" "Not me!" Frediano's eyes were filled with resentment. He was unhappy with Hendrix's interruption.

He also cared about his face. Why would he dig up the First Emperor's tomb? The First Emperor's battle technique was found in the tombs of his descendants.

It wasn't complete though!

But it was enough!

The First Emperor had stunned an entire era. He was the Qilin Lord of that era, a mighty figure who had started the Qilin ranking.

The First Emperor's battle technique was the inheritance of the First Emperor!

Frediano had actually inherited it!

The First Emperor's battle technique was a forbidden technique.

Frediano took off his black clothes, revealing his thin upper body. The skin on his upper body was covered in dense black tadpole characters. These were black runes!

They were densely intertwined!

Frediano smiled. "The six levels of the First Emperor's battle techniques all cultivate the physique, and each has its own differences. Before reaching the pinnacle realm, one needs to seal one's body and seal all of one's strength to turn it into one's foundation!

"Once you reach the pinnacle, you can transform into a dragon and soar through the nine heavens!" Frediano told them why he dared to say that he could kill Catherine with one slash.

This was because Frediano cultivated the First Emperor's battle technique and sealed his own strength, turning it into his own foundation.

The dense black runes on his body were the sealing technique used by the First Emperor.

Frediano held the sword in his left hand and smiled. "Seven years ago, I didn't abandon my martial arts. If the First Emperor's battle technique were fully unleashed, I might reach the pinnacle realm.. Now is not the right time!"

Chapter 672-Mount Tanish Official Rite Ceremony, Entering the Pinnacle!

There was a reason why Frediano Jadanza chose the First Emperor's battle technique!

Kylo's Art of the God of War belonged solely to the young master of Kylo, Braydon Neal!

Others could cultivate it, but it would be difficult to succeed.

Braydon had been cultivating the Art of the God of War for a full ten years. Not long ago, due to the poisoning of Kardo and the others from the Black Sword Association, Braydon had pushed the Art of the God of War to the third level!

Frediano's talent was stunning, but when cultivating the Art of the God of War, he had only reached the second level!

The Art of the God of War was ever-changing and extremely difficult to cultivate.

Cole Colbie, the head of the ten ruthless men of the Northern Army, had been stuck at the first level of the Art of the God of War for many years.

That was why Frediano said that the Art of the God of War belonged to his brother, Braydon.

If outsiders forcefully cultivated it, it would be difficult for them to achieve great success in the end!

At this moment, Frediano could not use the eight king-conferring techniques.

If he activated the eight techniques, he would resonate with Braydon in the distance.

Braydon's condition was extremely unstable and could not be affected.

If Frediano wanted to kill the old witch Catherine Stevens, he had to use the First Emperor's battle technique!

He didn't inherit the Nine Yin Technique or the Nine Yang Technique in the Lowell yin-yang headquarters.

However, Frediano had obtained the First Emperor's battle technique!

Of the five great battle techniques, the First Emperor's battle technique was the most respected!

Emperor Hansworth's internal cultivation technique was second!

At this moment, Frediano held a sword in his left hand. On his thin upper body, dense black tadpole runes seemed to come alive as they slowly flowed on the surface of his skin.

The moment the black symbols flowed, a terrifying aura slowly spread from Frediano's body.

It was as if a peerless ferocious beast had awakened!

It had been dormant for seven years, and now it was awake!

This was the First Emperor's battle technique.

Before the pinnacle realm, one would mainly focus on the physique and continuously seal their body to make it their foundation.

This was the way to prepare well.

On the day of success, it would probably shock the world and shine brightly!

Frediano had laid low for seven years!

The deputy commander of the Northern Army, King Luminosa.

Frediano held the sword in his left hand and said softly, "Today, I want to kill you with this sword. Can I?" "Bastard!" Catherine was a pinnacle and she had never met such a crazy person in the past hundred years.

The boys of the Northern Army were all young.

If a young man was not frivolous, then that person was not a young man!

The black tadpole-like characters on Frediano's body had already stopped flowing, but the aura on his body was black!

A black aura spread around Frediano's body.

It wasn't the yin aura unique to the yin-yang.

On the contrary, the black aura didn't give people a cold feeling. Instead, it gave off a dignified and murderous aura.

Black meant murder!

It was an extreme killing intent.

Black used to be the most expensive color in the First Emperor's era!

It was said that the First Emperor's yellow robe was black, and even the nation's flag was black!

Frediano mainly cultivated the First Emperor's battle technique, so a black aura had formed on his body!

When the black energy merged with the Luminosa Sword, the sword was completely destroyed.

Swoosh!

The sword flew across the sky like a black waterfall, transforming into a ten-meter-long sword aura!

The ten-meter-long black saber Qi flashed past in an instant!

Catherine's expression changed drastically. She could smell the scent of death. The sword in her hand was broken, so she could only use her fist to meet the attack.

The most powerful thing at the pinnacle was naturally the physique!

Although his body was strong, it did not mean that he was invincible!

The Luminosa Sword met Catherine's fist force.

The instant the two were about to collide.

Frediano said softly, "Who dares to take on any of the six layers of the First Emperor's battle technique? You've really set a precedent!" The soft voice fell.

It announced Catherine's end.

Frediano had opened the first level of the First Emperor's battle technique.

With just one level of battle technique, the sealed power in Frediano's body leaked out and merged into the Luminosa Sword.

Swoosh!

The sword instantly broke Catherine's fist force.

With just one slash, her right arm was severed!

Blood splattered across the sky.

"Ah!" Catherine screamed.

Milia and the others were shocked.

In the next second.

Frediano held the sword in his hand and slashed horizontally.

Arbitrator Catherine, a pinnacle martial artist, was cut in half by him Frediano had only used the first of the six levels of the First Emperor's battle technique!

Of the ten great forbidden techniques since ancient times, five were with the Northern Army!

Half of the ten forbidden techniques were with the Northern Army!

Braydon had mastered the forbidden technique, the Heavenly Execution!

Luke Yates had learned the Nine Yin Technique.

Frediano had mastered the sixth level of the First Emperor's forbidden technique!

The three forbidden techniques were all shocking.

There were also two forbidden techniques that were sealed in the secret database of the Northern Army. More than two people had learned them.

The two forbidden techniques were found by Skylar Neal over the years.

The Northern Army was a huge force. Outsiders didn't know how deep and strong its force was!

At this moment, Frediano held the sword in his left hand and placed his right hand behind his back. His upper body was naked, and the black tadpole-like symbols were moving. He said softly, "Pinnacle martial artists are weak!" Just these five words revealed Frediano's conceit!

He was truly terrifying!

He had inherited the First Emperor's battle techniques and was the successor of the First Emperor.

He was the descendant of the first emperor in history.

Everyone didn't dare to imagine how high his future achievements would be.

The sixth level of the forbidden technique was so terrifying that anyone who had seen it was probably dead.

Joshua Mandor gulped and muttered, "Frediano is still as terrifyingly strong as ever. He has been in hiding for seven years, but he is still so terrifying!" Frediano's fingers moved slightly, and he sealed himself again. He said indifferently, "You can't use all six layers of the forbidden technique, or you'll have to break through to the pinnacle realm!" "Why not enter the pinnacle realm?" Jonah Shaw asked.

"Why didn't you and Hendrix break through to the pinnacle realm?" Frediano smiled faintly.

Jonah and Hendrix fell silent at the same time.

The three of them looked at each other, and their eyes lit up.

Everyone had their own goals!

In the end, the three of them gave the same explanation and said in a low voice, “Mount Tanish’s official rite ceremony is when we enter the pinnacle realm!” “The Mount Tanish official rite ceremony and Big Brother’s title conferment ceremony are inevitable.” Jonah said hoarsely.

Hendrix said softly, “Look at the list of candidates prepared by the capital. Can those six pieces of trash really take the fate of the country upon their shoulders?”

“Even the Marquis Champion couldn’t carry the fate of the country back then, so how could those six good-for-nothings do it?!”

“The flesh and blood of a martial artist carries the fate of the country in place of heaven and earth. It requires great achievements, world-shocking talents, and martial talent like the Qilin Lord!”

“If you don’t have any of the three, how can you shoulder the fate of the country?” Hendrix clenched his fists, his eyes shining brightly.

These few youths were no fools!

They could almost see the future. The six people on the reserve list would not be able to shoulder the fate of the country.

At the peak of Mount Tanish, if no one shouldered the fate of the country, it would definitely cause a huge disaster!

The country’s fate would be damaged, affecting the Great Hanlon Dynasty’s one billion people.

If the country’s fate declined, it meant the end of the golden age.

The consequences were so great that Braydon would not be able to watch it happen and would definitely take action.

Jonah said softly, "The fate of the country is too heavy. Even the Marquis Champion couldn't withstand it. If Big Brother steps in to shoulder the fate of the country, we will break through to the pinnacle realm and take over the fate of the country on behalf of him!" "Nothing can happen to Big Brother!" Hendrix said softly with his hands behind his back.

If the Northern King died young, it would definitely cause chaos in the world.

The hard work of countless people would be burned to ashes.

At that time, someone would definitely take the opportunity to attack the Northern Army..

Chapter 673—Title Conferment Ceremony Imminent, Mobilizing Troops!

Without Braydon Neal's protection, the millions of Northern Army soldiers would most likely follow in the footsteps of the Ludwig Army.

This must not happen!

Jonah Shaw and Hendrix Bailey were unwilling to enter the pinnacle realm.

They were waiting for the title conferment ceremony on Mount Tanish!

The fate of the country was too heavy.

They couldn't let Braydon bear everything alone.

At that time, Jonah, Hendrix, and the others would choose to take action and bear all of this together.

“Brother Braydon’s talent and achievements are even more terrifying than the Marquis Champion. The Marquis Champion carried the fate of the country and lost 480 years of his life.” Frediano Jadanza smiled.

“Big brother is even more powerful than him. The worst outcome is that his lifespan will be reduced. At that time, the four of us will bear the burden together and each of us will lose a hundred years of our lifespan.” Frediano was calm, as if he did not care about losing a hundred years of lifespan.

Hendrix smiled lightly, “A king can live for three hundred years, a pinnacle can live for five hundred years. If we enter the pinnacle realm, it is nothing to lose a hundred years of lifespan!” As they were chatting and laughing, they completely ignored the people from the International Arbitration Council.

This was true contempt.

Frediano had never taken the International Arbitration Council seriously.

As for Jonah, this ruthless person, he didn’t even take him seriously. Going to the South Pole Prison was as easy as returning to his own home.

The South Pole Prison was where Jonah was called king.

Over there, Jonah had quite a number of stubborn and die-hard loyalists!

If he had gone to the South Pole Prison, he might have been safer.

Anyone who could become a king in the South Pole would be a terrifying figure standing at the top of the pyramid.

Unfortunately, Jonah was one of them.

“Alright, I have to go to Lowell to rebuild the Lowell yin-yang headquarters and gather the remaining yin-yang people for the Northern Army!” Frediano said softly with his hands behind his back.

“I’ll mobilize the Sanguine Army to help you!” Jonah’s Sanguine Army was divided into two groups.

The Left Army had 500,000 elites, divided into five legions. The garrison was an S-rank national top secret, and only a handful of people could access such classified documents.

The 400,000 elites of the Right Army were divided into four legions. They were transferred to the South Pole Prison by Jonah.

Over at the South Pole Prison, Jonah led the Sanguine Army and took over the place. They became kings of that area, fighting against the South Pole Prison every day!

He had long since formed the strength of an overlord!

When Jonah was ten years old, he said that when he grew up, he would open up the territory for Hansworth sooner or later.

It was obvious that he was not going to give up.

He had been thinking about this over the years.

Frediano shook his head lightly and smiled faintly. “Rebuilding Lowell’s yin-yang headquarters is not a difficult task for me. My status in the headquarters is high. Altar Master Manuel Sharp was crippled by Big Brother, and it is unknown whether he is still alive or not!

“I’m the biggest in the yin-yang headquarters now. With Charleigh and Leighton helping me, and a few others, it’s enough!” Frediano had nine hundred-cloth successors under him!

There were the yin-yang twins and the heir of the Paramita Flower.

Caleb Janes, who was wearing the rainbow python dragon robe, had been crippled!

There were also six who were hiding in the dark and only listened to Frediano's secret orders.

The few deputy commanders of the Northern Army could take on great responsibilities.

To put it bluntly, none of them were good.

In this life, the Northern Army was destined to prosper.

The northern territory would probably become a prosperous land sooner or later!

The people from the International Arbitration Council, including the pinnacle Catherine Stevens, were all killed. The rest were scared away.

Clark, the grand judge of the Western Arbitration Council, did not dare to say anything and was immediately frightened away.

Frediano rushed to Lowell to rebuild the yin-yang headquarters.

Hendrix returned to the country to deliver Braydon's secret order.

Jonah stayed on Lume Island. Even if a super pinnacle came, he could hold them off for some time.

Currently, Lume Island was no longer safe!

Outsiders knew that Braydon was in seclusion here. If anyone had any killing intents, they would come to kill him overnight.

Joshua Mandor and the Western Army under him could not stop pinnacle martial artists at all.

So Jonah stayed on Lume Island.

In the following period of time, no matter how many countries around the world discussed it, the eyes of all the forces were focused on the death of the two rulers of Banko.

Mount Tanish official rite ceremony, Northern King's title conferment ceremony.

This was something that all the countries in the world knew!

All the countries around Hansworth were acting strangely.

As the day of sealing approached, the armies of the various countries slowly approached the border.

What was the purpose of hoarding an army at the border?

The foreign countries would not allow the ceremony on Mount Tanish to happen smoothly.

They would not allow Braydon to bear the fate of the country!

Once he inherited the fate of the country, what kind of shocking genius would the hundred countries have to nurture to be able to compete with Braydon!

It was basically impossible!

Therefore, for the hundred countries, stopping the ceremony was vital.

Braydon had been prepared for such a situation, which was why he had sent out secret orders to mobilize hundreds of generals to guard the borders of Hansworth.

There was no need to worry too much about the northern territory!

With a million soldiers of the Northern Army, if the eight countries outside the border took the opportunity to start a war and wanted to break through the northern border's defense line, it would be extremely difficult!

At the four borders of Hansworth, the defense line at the north was the strongest.

Because of the Northern Army!

Next was the Ludwig defense line.

This was the defense line of the southern border. Joshua and the Western Army were guarding this place.

On the entire line of defense, the three most dangerous countries were Banko, Song and Marshland!

Out of the three countries outside the borders, the one that was targeted the most by Braydon was Banko!

The two rulers of Banko had died in the hands of Braydon.

If Mount Tanish's ceremony was a success and the other countries targeted it, Banko would definitely take the opportunity to take revenge and invade the Ludwig Islands.

At that time, Song and Marshland would definitely form an alliance with them and invade their territory together.

Just like how they had joined forces to destroy the 700,000 Ludwig Army men 40 years ago, they would once again take the opportunity to attack the Ludwig Islands and destroy the 400,000 Western Army cavalry under Joshua's command.

As for Lowell, Christopher Jenkins's Groot Army guarded the entire line of defense against the Delta Empire.

What was the Second Empire's attitude toward the Mount Tanish's ceremony?

Would they take the opportunity to cause trouble?

Everything was unknown!

But Braydon had to be on guard!

The western defense line was under Cartley Yanagi's command. He was the son of his teacher, Finley Yanagi, and Braydon's sworn brother. He guarded the Sayman Mountain Range to guard against the Zeta Empire.

The four defense lines were heavily guarded!

The defense line seemed to be as stable as Mount Tanish.

In fact, it was extremely dangerous!

Once the hundred countries invaded, they would not just send out their armies.

If things went wrong, the chaos from a hundred years ago would repeat itself!

At that time, the people would suffer again!

The people of the world were bound to be in turmoil.

At that time, it would definitely cause great damage to Hansworth.

Ordinary people could ignore these things, but Braydon and the others had to think about it carefully.

The young Northern King had a high position and held great power. He had to do his duty in his position!

This was what Braydon should do.

Unfortunately, something happened to Braydon, and he was in seclusion on Lume Island.

The arrangement of the various defense lines in the country could only be discussed by the major military leaders..

Chapter 674-Disloyalty from All Ends In the next two days, the seven elites of Hansworth were secretly mobilized.

The royal guards had also been secretly mobilized!

There was also the capital garrison that had been secretly transferred to Mount Tanish.

Within a hundred miles of Mount Tanish, all the farmers had been relocated. They had already imposed the martial law and began to set up the venue for the ceremony.

The capital garrison was responsible for protecting the capital. Now, they had been transferred to Mount Tanish.

The capital attached more importance to Mount Tanish's title conferment ceremony than anyone could imagine!

The royal guards and the Phoenix Army were mobilized as well.

As for where they would be transferred to, it was obviously a top military secret, and no information would be leaked.

The seven elites had been mobilized, and the nine departments and twenty-four divisions cooperated! There wasn't much they could do in two days.

It was July 14th, 8:10 pm.

A young man in white appeared in the sky above Lume Island. His aura was extremely unstable, but it was as if a powerful force had imprisoned him and forcefully suppressed him!

Braydon had come out of seclusion!

He chose to come out of seclusion the night before he was sealed.

Jonah Shaw, who was overseeing Lume Island, couldn't help but appear in a flash. He looked at his brother Braydon in front of him and said worriedly, "Brother, are you still suppressing yourself?" "The eight techniques have yet to be combined into one, and the embryonic form of the ninth technique has yet to appear. The strongest pinnacle martial path is still unclear, so I can't enter the pinnacle realm yet!" Braydon stood with his hands behind his back, stabilizing his aura. He was still as calm as ever.

Jonah stubbornly said, "You can continue your training. I'll guard this place. Even if a pinnacle comes, they will die." Braydon came out of seclusion overnight because he was worried and couldn't calm himself down.

Mount Tanish's title conferment ceremony was imminent!

All the countries had strange movements, and they had mobilized troops to camp in Preston.

How could Braydon break through in peace?

The Northern King was the leader of the hundred generals of the Military Department, but Braydon was hiding on Lume Island at this critical moment, cultivating in seclusion.

This kind of behavior was akin to a deserter!

Braydon had never run away in his life.

It was like this in the past, and it would be like this in the future!

“Joshua, open up a sea route and send me back to Preston!” Braydon said softly.

“Yes, sir!” Joshua Mandor transferred the supersonic fighter jet formation to escort Braydon back to Preston.

Braydon returned to Preston overnight to visit his family.

Many major events would happen during the Mount Tanish ceremony tomorrow!

The most important thing was that they were going to offer sacrifices to the Gods and attract the fate of the country!

Secondly, after the ceremony, the ban on Kylo would be officially abolished.

Thirdly, Braydon wanted to restart the Qilin ranking!

A series of major events were concentrated on Mount Tanish.

At that time, all the important figures would gather on Mount Tanish.

Braydon couldn't predict how big of a storm it would cause.

In the vast night, a fighter squadron took off. After the roar of the supersonic engine, they left Lume Island and rushed to Preston in the Central Plains.

That night, in the capital.

In the manor of the Jackel family, a gathering of the various powerful families was held for the Mount Tanish ceremony next day.

The opinions of the hundreds of families were divided!

It was the same for the aristocratic families. Because of the Mount Tanish title conferment ceremony, they could not reach a consensus!

This was because what some powerful families wanted to do was equivalent to treason!

The powerful and aristocratic families doing such a thing was not surprising at all.

They had a precedent!

There were some powerful and aristocratic families who were not that crazy.

Naturally, there were some who were unwilling to participate in this.

Of course, there were also some who had reached an agreement!

What were the powerful and aristocratic families plotting?

Outsiders didn't know!

Because they wanted to take advantage of the day of Mount Tanish ceremony to conquer lands and gain more power!

The three great entities and the Northern Army were at loggerheads!

The two sides would not rest until one of them died!

The powerful families were ambitious and wanted to control the fate of the country.

The aristocratic families wanted to control the country.

Both of them deserved to die!

However, when Sadie Dudley arrived in the capital, there were many pinnacles that had been aroused.

Almost 80% of them were from powerful families!

The martial artists of the world originated from sects!

The elite martial artists were all gathered in the aristocratic families.

Seventy percent of high-level martial artists came from powerful families.

All the martial artists in the world came from the three great entities.

Their foundation was extremely terrifying.

Behind each of them, there were pinnacle martial artists overseeing them.

In the past, outsiders didn't know about this because of the Kylo ban. None of the old things from the powerful and aristocratic families dared to show themselves.

After all, Kylo's ban was not a joke!

As the night deepened, the lights in the manors of the various powerful families lit up.

In the Neal Manor in Preston.

The fighter jets hovering in the sky slowly activated its anti-gravity device and turned off its engine before landing vertically on the tarmac.

Braydon was back!

Braydon's return in the middle of the night alarmed everyone in the Neal family.

His fourth uncle Liam Neal and his father Louis Neal had come to the Bright Hall.

The Bright Hall was an important place, and females were forbidden from entering.

Their daily discussions were all about major matters.

After all, wealthy families had many rules!

After Braydon returned.

These days, Liam had also vaguely heard the news about Mount Tanish's title conferment ceremony. He frowned and said, "Braydon, are you alright?" Braydon's face was a little pale. It was obvious that there was something wrong with his body.

His father, Louis, sighed and said, "Your mother will lose sleep again tonight when she sees you." "Dad, Uncle Liam, I'm fine. I came back tonight to tell you something." Now that things had come to this, Braydon could not hide it from his family.

There were some things that needed to be said!

“Is it about the title conferment ceremony on Mount Tanish?” Liam asked.

“Yes. Tn years ago, the capital had already started making preparations. For my twenty-year-old coronation ceremony, a ceremony will be held on Mount Tanish to attract the fate of the country to bless me. I will be given the title of Garrison King, the title of Viceroy of the Capital, and the commander of the three armies, nine departments, and twenty-four divisions.” Braydon didn’t hide anything and told him about it.

Instantly.

Even though Liam and the others had already heard the news, but now that they heard Braydon say this with their own ears, they were still very shocked!

He was granted the title of Garrison King and Viceroy of the Capital!

Commanding three armies, nine departments, and twenty-four divisions... What a terrifying power.

It was equivalent to monopolizing the country’s power!

He would be the hope of the country, to be in charge of everything and wield great power.

All the civil and military officials in the palace had to listen to his orders!

From then on, the capital palace would no longer be divided into two sections: civil officials and generals.

Both sections would listen to one person’s orders.

That was the Northern King's Order!

The capital wanted to push Braydon onto the divine altar!

Louis's eyes revealed a look of shock. He knew that his eldest son was extremely outstanding and had power over the northern desert. He had millions of loyal cavalymen under him who swore their loyalty to the death and held military power.

However, Louis really did not know that his son's power could reach this stage.

Louis and Liam were shocked.

Braydon calmly said, "I rejected the titles. The capital will have to use the list of candidates for the ceremony. There are six people on the list, two of them from each of the three great entities!" "Why would you reject the titles?" Liam's breathing quickened. No one could resist the temptation of power.

The power that everyone pursued was within Braydon's grasp.

Why did he reject it in the end?

Was it just Braydon's indifferent personality?

It was probably not just that.

Braydon explained. "If I were to be conferred the titles, the three great entities would definitely rebel. They would definitely collude with the hundreds of countries outside the borders. At that time, there would be internal rebellion and external aggression.. It would definitely lead to a disaster! "

Chapter 675-I Want to See You Being Conferred Titles!

That was the real reason Braydon Neal rejected the capital's offer to confer him titles.

It wasn't just the hundreds of countries outside the borders that were afraid of King Braydon's title!

Everyone in the four entities was afraid of Braydon's title conferment ceremony.

Once Braydon was conferred these titles, his power would be unrivalled.

Moreover, everyone in the world knew that King Braydon wanted to eliminate the four entities.

How would the powerful families and aristocratic family families dare to let Braydon hold such power?

They didn't dare to let Braydon control the country alone!

If Braydon was conferred the titles, the four entities would definitely rebel!

If they didn't rebel, the day the Northern King was conferred the titles would be the day the four entities were uprooted.

However, things were different now.

Braydon refused to be granted the titles in the capital. Everyone thought that Braydon was not obeying the capital's orders, ignored the laws of the country, and was extremely frivolous. He refused to be granted the titles on Mount Tanish several times, forcing the capital to use the list of backup candidates.

There was a total of six people on the list!

The three entities each occupied two of them!

It was precisely because of this candidate list that the three great entities were able to contribute to the Mount Tanish title conferment ceremony.

The ceremony on Mount Tanish would definitely cause a commotion in the surrounding countries.

At that time, the capital would definitely drag all the top martial artists of the three great entities into the water and make them contribute by guarding against the high-level martial artists of the surrounding countries.

Even if the capital didn't give the order, the martial artists of the three great entities would still take the initiative to help.

After all, the person they wanted the title to be conferred to was not Braydon, but one of the three great entities.

In other words, the ultimate beneficiary of Mount Tanish's title conferment ceremony was one of the three great entities.

Therefore, the three great entities would definitely contribute!

The capital was scheming, and so were the great powerful families!

Braydon was the same!

"Will you go to the ceremony tomorrow?" Liam Neal asked solemnly.

"I can't be absent. The capital has been preparing for the ceremony for ten years. Kylo and Mount Sino have waited for more than ten years to attract the fate of the country and start the pinnacle era. It would sweep away the declining energy of the age of martial arts and single-handedly started the golden age of martial arts. It will create the pinnacle era where there is an abundance of kings and pinnacles can be found easily." Braydon was very calm as he spoke of the benefits of Mount Tanish's title conferment ceremony.

However, if the fate of the country descended and no one could bear it, the fate of the country will collapse, and the world will decline.

A weak country would inevitably be invaded by enemy countries. At that time, the lives of the people would be plunged into misery. At that time, smoke would rise everywhere, and the people of the world would be in a dire state. The riots from a hundred years ago would repeat itself.

“Is it dangerous?” Louis Neal asked worriedly.

There was no need to ask this question.

Braydon entered the northern territory at the age of seven. He was assassinated day and night and lived in danger every day.

The young man in white was now the Northern King, the leader of the hundred generals in the military!

He was the number one person on the assassination list of hundreds of countries around the world.

How could there be no danger!

Braydon smiled lightly. “Dad, it’s fine. For the sake of tomorrow’s title conferment ceremony, I’ve been carrying out plans in the northern desert for ten years. If the situation worsens to an irreversible state, it won’t be difficult for me to protect Hansworth for 500 years with my strength!” Behind the ‘not difficult’ was a strong self-confidence!

If Braydon could protect Hansworth, he could protect the three provinces of the Central Plains.

If he could protect the three provinces of the Central Plains, he could protect his birthplace, Preston, from the flames of war.

Braydon had never spoken empty words in his life.

At this moment, outside the Bright Hall.

“Commander, Miss Sage and Miss Thomas are here!” Zayn Ziegler bowed and said in a low voice.

Braydon slowly turned around and looked at Xana Thomas and Heather Sage. They were in the prime of their lives, and their beautiful faces were free of the worries of the world.

Both of them were probably asleep, but Zayn brought them here.

Heather wrinkled her nose and stretched her waist lazily. She yawned and said, “Little Braydon, you’re back!” “Why are you torturing us in the middle of the night?!” Xana revealed her cute little canine teeth with a bitter look on her face. She wanted to bite Braydon to death.

She was annoyed they woke her up from her beautiful dream in the middle of the night!

“From tonight onward, the two of you will be staying at the Neal family manor. After the title conferment ceremony, you will be free again.” Braydon shook his head gently.

“Are you going to Mount Tanish tomorrow?” Heather’s eyes were filled with shock.

Braydon held her cold and soft hand and walked out of the Bright Hall. They stepped on the soft lawn of the manor and walked under the bright moonlight like a golden couple.

The two of them were silent.

Heather suddenly stopped. Her eyes were slightly red. She was like a stubborn little donkey. She refused to leave even though Braydon was holding her hand.

Braydon stopped and turned around. Looking at her stubborn and clear eyes, he couldn’t help but laugh. “What’s wrong?”

“After your title conferment ceremony on Mount Tanish, will our fate end?” Heather asked seriously.

Braydon's heart had once wavered because of this question.

Now, Heather was asking about it.

Braydon's arms were like iron hoops as he held her by her slender waist. His forehead was gently pressed against her smooth forehead. The tips of their noses touched slightly, and they could clearly feel each other's breathing.

Their eyes met, communicating silently.

Heather stomped her feet in embarrassment and asked, "Tell me! Answer my question." "Why would you think that?" Braydon stared at her.

Heather bit her lips and said softly, "It's not what I think, but everyone says that that's what will happen. Leah Flitwick even told me that if you are conferred the titles on Mount Tanish, you will be the son of Hansworth. At the age of twenty, you will step into the pinnacle realm and hold the power of the world alone!" When Braydon heard this, he looked at her quietly. He lowered his head slightly and kissed her thin lips.

Heather felt as if she had been struck by lightning. Her clear eyes were filled with surprise and shyness.

She did not understand why Braydon was acting like this tonight! In the dark night, Xana stood under the willow tree, quietly watching this scene.

She rolled her eyes and mumbled, "You dragged me here in the middle of the night just to watch the two of you show off your love?" "No peeking!" Heather pushed Braydon away and turned to Xana in embarrassment.

Braydon said softly, "So what if I'm the Northern King? So what if I'm the Garrison King and the viceroy? I'm still yours. The Braydon you know!" This sentence was the answer to Heather's question.

So what if Braydon was conferred the titles!

He was still Heather's Braydon she had known who was from the Neal family!

The fate between the two of them had already been formed in each other's mother's womb before they were born.

There was no end to this fate the rest of their lives!

Heather's eyes were slightly red, and she smiled brightly.

"It's getting late. Go get some rest with Xana. I have something to do," Braydon said softly.

"If you go to Mount Tanish, can you take me with you?" Heather's eyes were filled with hope.

"I want to see you get conferred the titles," she said eagerly.

"It's not that I don't want you to go, but tomorrow, the peak of Mount Tanish will be covered in blood. A world-shocking battle will definitely erupt. I'm afraid that even the country's ruler will find it difficult to suppress the situation." Braydon reached out and brushed her earlobe, his eyes filled with tenderness.

A hint of worry appeared in the depths of Heather's eyes. She didn't really want to go.

On the contrary, she knew very well that if she asked about the danger of Mount Tanish's ceremony, Braydon would definitely smile and not say anything about it..
