

Strongest 712

Chapter 712: Commander Sawyer Quail Greet Young Master!

After Kieran Normand descended, he released his own pressure.

The pressure of a super pinnacle released a shocking aura.

The wristwatches in the hands of the few young men from the capital garrison all exploded!

The value displayed on their watches just now instantly exceeded 1,000!

Then, 2,000 Na, 3,000 Na... 5,000 Na!

The upper limit of a normal wristwatch was 5,000 Na.

If the upper limit was exceeded, the watch would explode!

Now, Commander Kieran who was the most capable of fighting had arrived!

He was a super pinnacle with explosive combat strength!

Now that Hansworth was in its heyday, who in the hundreds of countries dared to bully Hansworth!

Kieran's vitality was as high as 6,100 Na!

This super pinnacle's strength was utterly terrifying.

Kieran landed on Mount Tanish, cupped his fists, and bowed. "Kieran Normand from the Ministry of War greets the Martial Emperor!"

"Zavier Leach of the Military Department greets the Martial Emperor!"

The tall and sturdy man, Zavier, bowed.

"Savvyer Quail of the Warrior Department greets the Martial Emperor!" Savvyer bowed elegantly.

The leaders of the upper three departments of the capital's nine departments had all arrived.

The Military Department was in charge of killing.

The Ministry of War was in charge of battles.

The Warrior Department was in charge of slaughtering!

The leaders of the three departments were all iron-blooded people.

Martial Emperor Yanagi stood with his hands behind his back. He looked at the three of them and said slowly, "I'm relieved that the three of you are here!"

"Don't worry, Emperor Yanagi. Mount Sino's Winslow Jansky, Kyo's madman Donovan Dudley, and Zento Sect's first disciple on Mount Nubis have all rushed to the four borders to stop the enemies outside the gates."

Commander Zavier released his pressure.

Crack!

The watch in the hand of a young man in the capital garrison exploded on the spot!

The third person whose combat strength was off the charts was Commander Zavier!

His vitality was as high as 5,500 Na!

It was terrifying!

“Today, I am willing to give my life to repay the favor he owes the Neal family!” Sawyer said with a humble smile.

After he spoke.

Not far away, the wristwatches in the hands of seven capital garrison young men instantly exploded!

The capital garrison guards and the others were stunned!

In an instant, their watches exploded.

Before the explosion, they saw a number.

Sawyer’s vitality fluctuation instantly exceeded 4,000 Na!

This increase in aura was even more terrifying than Commander Kieran and Commander Zavier!

The strength of Commander Sawyer was clearly particularly terrifying!

He was no weaker than the Martial Emperor!

The fourth existence with explosive combat strength.

Perhaps only he knew how terrifying his own battle prowess was.

A ruthless person who was not in the pinnacle ranking but was not weaker than Martial Emperor Yanagi!

The arrival of several peerless experts was beyond the expectations of all the foreign pinnacle experts!

The martial artist, Harland, said in disbelief, "Commander Kieran, you..."

"The pinnacle of the Alpha Empire, what can I do for you?"

Kieran looked over coldly.

What Harland wanted to say was, how did Kieran and the others' strength increase so drastically?

Winslow, the number one on the pinnacle ranking, was the sect leader of Mount Sino.

He was the publicly acknowledged number one powerhouse in Hansworth!

His vitality was only 2,000 Na!

For example, Kieran, who was on the rankings, was known to be ranked second with a vitality of 1,900 Na!

But now?

Kieran's vitality was as high as 6,100 Na!

His strength had increased several times compared to before!

Little did they know that the Hansworth pinnacle ranking had not been

updated for a hundred years.

Because of the ban by Kylo, the world's pinnacles could not reveal themselves.

The ban had suppressed the world for a hundred years.

It caused all the rankings to be ruined!

The information on the pinnacle ranking had not been updated for a hundred years!

A hundred-year-long blank period.

Such a long time was enough for an ordinary person's life.

Commander Kieran, Commander Zavier, Commander Sawyer, and the others were all pinnacles a hundred years ago. They were all healthy and uninjured.

Now that a hundred years had passed, how could their strength not improve?

What they were displaying now was their pinnacle combat strength.

From today onward, there would definitely be a huge change to the pinnacle ranking.

The moment Braydon Neal ascended Mount Tanish, the ban by Kylo was lifted automatically.

Now that the ban was lifted, the world's pinnacles that had been silent for a hundred years would be born!

The arrival of Commander Kieran and the others intimidated all the foreign pinnacles in the surroundings, and they did not dare to make any moves.

Syrus Yanagi, Tobey Lapras and Westley Hader had all arrived. They looked at their brother Braydon on the altar and saw that he had already begun to receive the fate of the country!

Beside him, Frediano Jadanza's entire body was suffused with a powerful pinnacle pressure.

Commander Zavier looked over solemnly and said in surprise, "The First Emperor Combat Technique; six layers of seals. This brat's body is hiding a power that makes my heart palpitate!"

"Interesting, even more evil than that kid!"

Commander Savvyer glanced at Harvey Lay in the distance before looking at Frediano.

Frediano turned to look at his brother Braydon on the altar. Seeing that he was fine, he said softly, "Big Brother is fine, so I can rest assured. The First

Emperor Combat Technique's third seal, open!"

Frediano had already reached the pinnacle realm!

Pinnacle martial artist, King Luminosa.

The third of the six seals was about to open.

Jonah Shaw turned around and said in a low voice, "Frediano, you've opened three in a row. Can your body handle it?"

"I'll be fine. The six layers of seals will be fully opened today, and I will kill everyone here!"

Frediano hung horizontally in the sky. The third layer of black chains around his body slowly dissipated on its own.

A monstrous pressure erupted from Frediano's body!

This fluctuation alarmed Martial Emperor Yanagi!

Everyone was shocked!

Frediano had been cultivating the First Emperor Combat Technique all these years and had sealed him six times over the years.

What did this mean?

This meant that Frediano's talent was probably not weaker than Braydon's.

He was a monster with an earth-shaking talent!

Or rather, Frediano's talent was otherworldly!

Braydon and Frediano had cultivated the Great Void of Kylo Art together.

Frediano's body had absorbed a large amount of purple Qi back then.

His talent was terrifyingly high!

Back then, when Frediano was thirteen years old, if he hadn't been attacked, with his talent, he would have reached the pinnacle realm earlier than Harvey! "Has another Northern King been born?" Commander Kieran asked warily. "This child's talent is not inferior to the Northern King!"

A modest smile hung on Commander Sawyer's refined appearance, and a hint of killing intent faintly appeared in his eyes!

He had killing intent toward Frediano?

He was the commander who was in charge of the Warrior Department!

A pillar of Hansworth!

How could he be so murderous toward Frediano?

Commander Zavier slowly said, "He cultivated the First Emperor Combat Technique and sealed himself six times in a row. His body was suppressed six times in a row. Logically speaking, his cultivation speed would be far behind his peers and no different from ordinary martial artists!"

“Once the First Emperor’s six seals are broken, the fish will transform into a dragon, stunning the world!”

Commander Kieran said slowly.

Commander Sawyer said calmly, “He has been sealed six times, yet his cultivation speed is not any slower than the Qilin sons of the Northern Army. If he can release all six seals and release myself, his true talent will not be weaker than the Northern King!”

“But he joined the yin-yang entity for seven years!”

A hint of killing intent appeared in Commander Kieran’s eyes.

It was obvious that many of the big shots from the capital were not happy with the yin-yang entity either!

On the mud-cast altar, Braydon had already begun to channel the fate of the nation into his body. He should be fully focused.

But now, he was distracted.

“Senior Kieran, don’t hurt my brother!” Braydon said.

“Kylo’s Savvyer Quail, pays his respects to the young master!”

Commander Sawyer had cupped his hands and bowed to Martial Emperor Yanagi just now.

Now, when facing the Kylo young master on the altar, he knelt down on one knee to greet him!
