Chapter 807: Northern Army Going South, Occupying Hollow Pass

“I am answering these questions because His Highness is asking. Lex, you have no right to question me!”
He was a little angry.

Who was he?

Jaziel Sherman was only second to Ian Fick in the Delta Empire, and he was the second strongest person in this hall!

The next moment!

Jaziel released his pinnacle pressure.

The Northern Army’s hidden agents were good at forbearance.

This was their characteristic.

Jaziel was no exception. In the blink of an eye, he, who was dressed in black and had a thin figure, released a terrifying pressure.

This pressure caused his black clothes to flutter and create a hurricane.

The pinnacle pressure shook the hall and swept toward the old man, Lex Sasun.

Lex was a cabinet elder of Morsby's cabinet.

He was an extremely dignified old official of two dynasties.

Unfortunately, under Jaziel's pressure, he seemed to be unable to withstand it and instantly knelt down on both knees.

Bang!

The floor shattered and Lex returned to the bottom of the stairs.

In the hall, there were many people who had brought along vitality testing devices.

The red numbers displayed on the screen reached a total of 3,200 Na!

This was the pinnacle, Jaziel!

In an instant, everyone was shocked. Even Ian was surprised. "You've broken through?"

"This is more than just a breakthrough!"

Many people below were shocked.

The martial artists of the hundred countries all over the world knew that Jaziel of the Delta Empire was an existence with a vitality of more than 1,000 Na.

To be precise, it was 1,200 Na of vitality.

But now, the strength that Jaziel revealed in front of everyone was 3,200 Na of vitality.

His strength had multiplied!

Jaziel hid his original strength.

Ian did not say a word when Jaziel humiliated Lex.

This was the means of an emperor!

Lex had exhausted all his potential, and his vitality was no more than 500 Na. How could he challenge Jaziel?

Jaziel was at his peak, and he was not even thirty years old yet.

Youth represented potential.

Before he reached a hundred years old, Jaziel's strength would improve rapidly.

In the future, he could at least achieve the conferred pinnacle realm.

He could even reach the chaos pinnacle realm.

What did this mean?

Everyone knew!

Everyone had to respect a future chaos pinnacle potential.

Lex actually questioned Jaziel?

Who gave him the courage!

In other words, Lex was not qualified enough to question Jaziel, the second most important person in the Delta Empire.

Moreover, Jaziel was not to be trifled with!

He had been in charge of the eastern region of the Delta Empire for many years and had no lack of supporters.

Don't forget that there were many factions in this hall!

It was the most sacred palace of the Delta Empire.

Those who could enter the hall were the people in charge of the various regions!

Jaziel was not alone in the Delta Empire.

On the west side of the hall, there were seven seats.

Here, those who could sit were themselves a symbol of status.

An old man who was resting with his eyes closed slowly said, "I'm afraid

Braydon Neal's strength has already exceeded our expectations!"

"A conferred pinnacle can hurt him!"

Jaziel looked at the old man and said slowly.

When the old man spoke, no one dared to interrupt.

After all, none of the seven old men on the seats had a vitality lower than 3,000

All of them were powerful pinnacles.

Jaziel could talk to him, but it didn't mean that the others in the hall could talk to him as equals.

The old man called Jerome said softly, "Can't a conferred pinnacle kill him?"

"He can hurt him. During the battle, Lord Saul held the replica of the Spear of Eternity and pierced through King Braydon's left hand with his full strength."

Jaziel's words were half true and half false.

However, his words silenced everyone present!

Who was Saul?

His title was Constant!

He was a conferred pinnacle with 30,000 Na of vitality. With his physical strength, he could punch out 1,500,000 pounds of force.

He alone could kill everyone in the hall!

One had to know that in the entire world, a true conferred pinnacle could look down upon all of humanity.

During the battle at the Broken Blade Cliff, if it wasn't for the old Daoist Giannis Zazueta's appearance, the battle would have ended.

Braydon had less than a 10% chance of winning against Saul.

The difference in strength was too great!

Unless Braydon destroyed his own foundation and used the power of vitality in his bones to kill Saul.

However, using this move was equivalent to destroying the foundation of a pinnacle!

At this moment, the old man Jerome sighed and said, "A conferred pinnacle can't kill King Braydon Neal in one strike. If it were us, we wouldn't even be able to take a single strike from Lord Saul!"

"That's why it's not difficult to understand why Braydon Neal could kill Jerry Alcott and the other 100 pinnacle martial artists alone!" The second old man from the seven seats spoke slowly.

The few old fellows had spoken to express their attitude.

They supported Jaziel!

In other words, all of Lex's doubts and guesses were without any evidence, and he was now suspecting Jaziel for no reason.

Therefore, at this moment, no one spoke up for him.

The most important point was that Jaziel had displayed his full strength.

He was not yet thirty years old, but he had a vitality of 3,200 Na. He was also the second most powerful person in the Delta Empire.

Even ten Lexes would not be able to compare to him!

Jaziel said calmly, "Lord Saul was hiding in the dark. After King Braydon killed all the pinnacles, he was about to kill Korbyn Jessen and me. Lord Saul attacked and heavily injured Braydon with a spear. The existence hidden in the Broken Blade Cliff then revealed himself!

"He's Giannis Zazueta, the hermit of Hansworth. He's a terrifying inimitable pinnacle martial artist. Everyone here knows that!"

Jaziel's words were half true and half false!

He immediately blamed Jerry Alcott of the Alpha Empire for the crime of the hundred pinnacles besieging Braydon.

Since he was already dead, the Alpha Empire would have to bear the blame.

"The people of the Alpha Empire are arrogant and ignorant," Ian said indifferently. "The fault lies with Jerry Alcott of the Alpha Empire!"

"The greatest loss in this battle was Sir Cullen's death!"

Jerome let out a long sigh.

Cullen was the inimitable pinnacle who had died under Giannis's sword.

He was an inimitable pinnacle.

He was the foundation of the Delta Empire.

The fall of such an expert was equivalent to the country's foundation being reduced by 30%.

Since ancient times, countries had always needed such experts to hold the fort.

In the hall, everyone looked sad.

Ian gathered everyone and discussed many things until dawn.

At daybreak, someone hurriedly entered the hall and said in horror, "Pinnacle

Sherman, urgent news from the border!"

Jaziel was the second most powerful person in the Delta Empire and held real power!

Someone shouted outside the hall.

Instantly, everyone turned to look at the door.

Ian slowly nodded and said, "Jaziel, let him in!"

In the next second, the sealed door of the hall opened again.

The fresh morning air rushed in with a hint of coolness.

Outside the hall, a middle-aged man in his fifties was stunned when he saw the officials in the hall.

Everyone present was a big shot.

Jaziel, who was standing beside Ian, said in a serious voice, "What's going on at the border?"

"The Northern Army is heading south, and they are occupying Hollow Pass!" The person immediately replied..
