Chapter 454 To Get Rid of the Two Kids!

Instantly, a sense of crisis rose in Jeanne's mind. She went down the stairs worryingly, not paying attention to her feet.

Suddenly, with a slip in her foot, she fell straight to the ground. Her already swollen knee was knocked on the ground, and now she was in even more pain.

But now she was even more angry, wanting to throw things and lose her temper, but she now was in the Adams family's old house and didn't dare to make a fuss even if she was angry, so she had to hold back and leave.

After getting into the car and driving away from the old house, she was finally able to release the anger that she had suppressed. When she thought of the photo in Olivia's hand, she was even more furious.

No matter what, she had to keep her current position. She was August's wife, Mrs. Adams, now and in the future!

Lucia wasn't even worthy to compete with her!

But now Lucia had Timothy and Janet, her ace in the hole! And Olivia had always wanted to have great-grandchildren. If Olivia found out the identity of these two children, Olivia would definitely take them back to the Adams family, and by then, Jeanne would be driven away probably!

Just thinking about it made Jeanne feel cold. She originally hadn't thought about how to get back at Lucia, and now that this had happened, she had to take action!

With anger burning in her chest, Jeanne took a deep breath, fished out her cell phone, and dialed a number,

"Hey, go find out where Lucia's two kids are!"

She had to get rid of the two kids before Olivia's men found them!

Soon, her phone dinged and she received a message.

She clicked on it to read it, and her brows knitted together. A few moments later, she said an address and told the driver to get there immediately.

Meanwhile, Lucia was on her way to Jennifer's Studio. Now she had arranged everything in the crew and the only thing left was to explain to Jennifer.
