Chapter 289: Elder Guo Leaving

Looking at Jiang Yu's drenched and pitiful appearance in front of her, Mo Zhu pondered quietly for a moment and replied lightly, "Alright, get out of the car. I'll get Uncle Zhang to send you home first."

She brought Jiang Yu to the car Huo Xuan had just driven over. Mo Zhu opened the car door and said to the man in the back seat, "Jiang Yu is staying at our home for a few days. Take her home first. I'll get Uncle Zhang to send me to school."

After saying this, without waiting for Huo Xuan to nod, Mo Zhu raised her hand to the girl, signaling her to get into the car. Then, she turned around and returned to Uncle Zhang's car.

When Huo Xuan heard this, he frowned with a headache. It was already very troublesome having Kang Wan living at home, and now Jiang Yu was here too. He really didn't understand what was wrong. The Huo residence wasn't a top-notch place with good feng shui. Why were all of them rushing to move in?

After Mo Zhu left, Jiang Yu sat in another seat in the back and observed Huo Xuan quietly.

Seeing the girl's soft and weak appearance, Huo Xuan thought that she had a good relationship with Mo Zhu and thought that she was just a curious sister of his fiancé. At this moment, he didn't take Jiang Yu's scrutiny seriously.

After placing the young lady at the Huo family's house, Huo Xuan received a call at the last minute to go to the company to deal with something. He took out a stack of cash from his wallet and stuffed it into Jiang Yu's hand. He opened the Huo family's door and said, "I'm sorry, I have something urgent to attend to. You should go in and rest well. I'll get someone to send you food in the afternoon. If you want to buy anything, you can go out and buy it. Or you can send a message to Xiao Zhu to inform me. I can ask someone to send it over."

As Old Guo was also at home, Huo Xuan wasn't too worried about Jiang Yu's safety. After seeing the girl nod and enter, he instructed the driver to start the car and leave the Huo residence.

After school in the evening, Huo Xuan personally drove to pick up Mo Zhu. After returning to the Huo residence, the kitchen had already sent someone to send dinner over.

As three people had suddenly moved into the house. Huo Xuan specially instructed the chef to prepare a few more dishes. In addition, because Old Guo was picky, he personally looked at the menu and chose the dishes.

After dinner, Jiang Yu obediently tidied up the table and started washing the dishes. Mo Zhu sat on the sofa, leaning lazily against a pillow and playing with her phone. After a while, she suddenly recalled the matter about the Jade-faced Guan Yin statue, so she looked around for Old Guo.

Mo Zhu stood up and walked around the house. When she saw Elder Guo smoking alone on the balcony, she quickly walked forward and pushed open the door of the balcony to the old man's side.

She raised her hand and patted Elder Guo's shoulder. Mo Zhu raised her eyebrows and asked indifferently, "Why are you smoking alone here? Is there something bothering you?"

When Elder Guo heard Mo Zhu's voice behind him, he looked at the night view outside the window in melancholy. He sighed slightly and said, "My good disciple, Master is leaving."

Just as she finished speaking, Mo Zhu frowned anxiously and asked, "You're leaving after only a few days? Where are you going?"

"I'm going to do what I didn't do back then." Old Guo took a deep breath and exhaled smoke rings slowly. There was a deep meaning in his eyes that Mo Zhu couldn't understand. "Girl, Master has done a lot of comfortable things according to his wishes in his life, but as a person who lives in the world, there are some responsibilities that can't be removed from his shoulders. Now, it's time for me to complete my mission!"

When Mo Zhu heard this, she lowered her eyes and fell silent.

She understood the hidden meaning in the old man's words. In fact, her master and grandmother were very similar. All of them had a mission that had been given to them by their families since they were born. It might take a long time or it might be short, but they had to do their best to complete these missions.

Seeing that Mo Zhu was silent, Old Guo snuffed out the cigarette in his hand and turned to look at the girl's lowered eyebrows. He smiled sincerely and said, "Girl, the proudest thing I have done coming into this world is meeting you and taking you as my disciple. I don't know when the next time we'll meet after I leave this time. Before I leave, I have something to tell you."

After a pause, Elder Guo patted the girl's shoulder. "You have to preserve the Jade-faced Guan Yin statue well. You can't let it fall into the hands of others, or the tragedy from back then will definitely happen again."

Upon hearing this, Mo Zhu looked up at Old Guo in shock. She had yet to speak! How did Old Guo know about the Jade-faced Guan Yin?

After saying this, the old man didn't stay any longer. He stood up and left the balcony. The instant he opened the door, he saw Huo Xuan waiting for Mo Zhu to come out from the corridor. He took two steps forward to the man and instructed in a low voice, "Child, I've entrusted Xiao Zhu to you.. You have to take good care of her in the future!"

Chapter 290: Mo Zhu's Constitution

Huo Xuan had already expected that the old man would leave early. He nodded respectfully and replied seriously, "Don't worry, Master. I will definitely take good care of Xiao Zhu!"

After saying this, before Elder Guo could leave, Mo Zhu chased out of the balcony. "Master, do you know the secret behind the Jade-faced Guan Yin?"

Upon hearing the girl's question, Old Guo shook his head with his back facing Mo Zhu. He sighed unhurriedly and said, "Girl, there are some things that are better left not knowing. You just have to protect yourself and keep it well. You don't have to listen or ask about anything else. Otherwise, there will be danger everywhere. You might not be able to deal with it!"

Just as he finished speaking, Old Guo didn't stay any longer. He immediately turned around and returned to his room.

After the old man left, Mo Zhu found a chair on the balcony and sat down, quietly looking at the stars outside the window.

Seeing this, Huo Xuan also sat down beside the girl.

A moment later, a cold wind blew past the half-opened window. A chill surged into Mo Zhu's body for no reason when the wind blew, causing her to sneeze violently.

Huo Xuan frowned. He took off his coat and draped it over the girl's back. He reached out and pulled Mo Zhu into his arms. "Why are you suddenly sneezing? Did you catch a cold in the water today?"

'When Mo Zhu heard this, she thought about jumping into the river in the morning to save Jiang Yu and nodded thoughtfully. "Maybe."

After dealing with that group of people in the morning, Mo Zhu wiped her body simply, dried her clothes in the car, and returned to school. She frowned slightly and felt that she might have caught a slight cold from the cold by the river before she got into the car.

Huo Xuan stood up and closed the window. Seeing that the night was getting darker, he turned to the girl and said softly, "You're tired from everything that happened today. Why don't you go back to your room and rest early!"

Upon hearing this, Mo Zhu acknowledged obediently. Unexpectedly, just as she stood up, she suddenly felt a wave of dizziness and immediately lost consciousness.

Huo Xuan took a step forward and caught Mo Zhu. He quickly carried her to the room and laid her down. Just as he placed the girl down, he turned around and left to invite Old Guo.

Not long after Old Guo returned to his room, he heard Huo Xuan knock on the door hurriedly and said that Mo Zhu had fainted. He frowned and quickly followed Huo Xuan to Mo Zhu's room.

Gently taking Mo Zhu's pulse, Old Guo calmed down and diagnosed the girl's condition. A few minutes later, he looked up at Huo Xuan seriously and said, "There's nothing wrong with this girl. She's born with a cold constitution. Every time her period comes, she will suffer a lot more pain than other girls. She might have caught a cold today and didn't recover from it."

After a pause, Old Guo put on a serious expression. "This girl is weak. Her life in the countryside has been tough and she hasn't been receiving enough nutrition. You have to pay more attention to this in the future. Watch her and don't let her touch cold water easily."

When Huo Xuan heard this, his gaze gently landed on Mo Zhu, who was lying quietly on the bed. He seemed to have recalled something and frowned as he asked, "Master, is there a way to treat Xiao Zhu's symptoms?"

Old Guo waved his hand and told Huo Xuan without any hesitation, "This girl's natural constitution is like this. She was born with it in her mother's womb. If she replenishes the nutrition she has lost over the years and nourishes her body, perhaps it can alleviate the symptoms, but it's almost impossible to cure her completely."

“Also...” Old Guo changed the topic. He stared at Huo Xuan and asked, “Has Xiao Zhu touched that thing recently?”

‘When he heard that thing from Elder Guo, Huo Xuan immediately reacted to what it was. He frowned slightly and replied, “Yes, she has been studying that jade-faced Guan Yin statue for the past two days.”

When Old Guo heard this, he sighed deeply and said, “Kid, when she wakes up, ask her to study that thing less. I won’t say anything more. Maybe everything has its own karma.”

After saying this, Old Guo instructed Huo Xuan to keep a close eye on Mo Zhu before leaving the room.

After Old Guo left, Huo Xuan quietly looked at the girl’s slightly thin face. His heart ached as he stroked Mo Zhu’s soft hand. Indeed, she felt like what the old man had said. The girl’s hand was very cold, and a heart-piercing coldness traveled from their interlocked palms into Huo Xuan’s heart.

After pondering for a moment, Huo Xuan took off his shoes and got into bed. He laid down beside Mo Zhu and pulled the blanket over the two of them. Huo Xuan placed a hand on Mo Zhu’s abdomen and slowly rubbed it.

Sensing the girl’s body temperature rising in his arms, Huo Xuan gradually relaxed and fell asleep..

Chapter 291: A Conflict

‘The next morning, when Mo Zhu opened her eyes slightly, she saw Huo Xuan’s enlarged face appear in front of her.

Thinking of what happened before she fainted last night, she frowned slightly and moved her body.

She didn’t expect Huo Xuan to wake up as well. Seeing that Mo Zhu had woken up, the man touched the girl’s hand worriedly and explained what had happened yesterday.

After hearing Huo Xuan’s explanation, Mo Zhu already understood what had happened. She rubbed her glabella and nodded. “My period hasn’t been here for the past two days. It should be because the river water was too cold yesterday morning. Don’t worry, this isn’t a big deal.”

After saying this, Mo Zhu didn't bother about what happened between her and Huo Xuan last night. She stood up, washed up, and went downstairs to eat.

In order to take better care of Mo Zhu, Huo Xuan had sent someone to deliver breakfast today. It was only when he set up the cutlery and wanted to get the rest to eat that Huo Xuan realized that Old Guo had already left. The house that the old man had stayed in had been cleaned thoroughly by him. Not a single piece of paper was left behind, it looked just like before he had moved in.

After telling Mo Zhu about this, the girl nodded in understanding. The short conversation between the two of them on the balcony last night was already considered goodbye. Old Guo had always been the type to leave as and when he liked. This was in line with his usual style.

After breakfast, Uncle Zhang drove the car to the courtyard of the Huo residence and waited for the few of them to get into the car. Jiang Yu and Kang Wan were so excited for school that once the car arrived, they carried their backpacks and sat in the last row.

A few minutes later, Huo Xuan opened the car door with his briefcase and got into the car. Seeing that the entire car was waiting for Mo Zhu alone, Kang Wan took out her phone angrily and glanced at the time before saying unhappily, "Brother Xuan, quickly ask when that girl will be able to come out. It's Monday and there is a flag-raising ceremony. If we don't leave now, we'll be late!"

'When Huo Xuan heard this, his cold gaze instantly swept across Kang Wan, who was in the back row. Unexpectedly, before he could speak, Jiang Yu's voice sounded from behind him. "If you don't want to sit in the car, you can get lost."

'When she said this, the girl's cold eyes stared at Kang Wan ruthlessly as if they were filled with poison, scaring Kang Wan so much that she trembled unconsciously.

Kang Wan had a simple understanding of Jiang Yu after she moved into the Huo residence yesterday. She was just sent to the Zhong family after she left Qingyuan Village with Mo Zhu.

Because of this, she had never taken this girl seriously. She did not expect Jiang Yu to dare to speak to her like this this morning. What was even more strange was that she, the daughter of the Kang family in Beijing, was actually frightened by the cold gaze of a country bumpkin.

No! She definitely could not lose. As Mo Zhu was Brother Xuan's fiancée, she could not touch her. Could this mere country bumpkin turn the tables?

As she thought of this, an inexplicable anger welled up in Kang Wan's heart. She berated angrily, "It was clearly that girl, Mo Zhu, who is interrupting everyone's time. I just kindly asked Brother Xuan to remind her. Why should I get out of the car?"

After a pause, Kang Wan saw that Jiang Yu was expressionless and unmoved. She then raised her eyebrows and added, "Besides, what kind of tone was that when you

spoke to me just now? Why didn't you take a piss and look in the mirror to identify yourself? Are you even worthy of chasing me out of the car?"

"shut up." Hearing Kang Wan's words, a cold glint flashed across Jiang Yu's eyes. If not for the two people sitting in the front row, she would definitely make this woman who slandered Sister Mo speechless for the rest of her life!

Seeing that Jiang Yu still dared to provoke her, Kang Wan could not hold back anymore. She raised her voice and criticized strangely, "Hey, hey, if I don't teach you a lesson, you really think I'm easy to bully, right? That's right, I heard that you and that girl, Mo Zhu, grew up in a remote mountainous area. That's not surprising, What good things can a child raised in that kind of place have?"

Just as Kang Wan finished speaking, before she could continue mocking her, Jiang Yu grabbed her collar.

Jiang Yu grabbed the girl's collar ruthlessly. Her pupils constricted and she exuded a cold murderous aura. "I dare you to criticize Sister Mo again."

At this moment, Kang Wan's collar was clenched tightly by Jiang Yu, and a glaring blood mark instantly appeared on her neck. She was so agitated that her blood vessels suddenly protruded and she panted heavily... "You!"

Chapter 292: Hidden It Well

Huo Xuan, who was sitting in front, quietly observed the two people in the back row, especially Jiang Yu, who was giving out a strong murderous aura. His scrutinizing gaze swept across the girl's face. A moment later, he retracted his gaze and said coldly, "If you don't want to wait, you can get out of the car now. If anyone makes a scene again, move out of the Huo residence."

Huo Xuan's expression was cold and his voice low, and his tone revealed a coldness that didn't allow for rejection.

Upon hearing the man's words, Jiang Yu gave Kang Wan a fierce look before letting go of the girl's collar.

Suddenly breathing in fresh air, Kang Wan could not be bothered to compete with Jiang Yu. She immediately panted heavily.

Seeing that Jiang Yu had lowered her eyes after letting go, Huo Xuan quietly observed Mo Zhu's good sister through the rearview mirror.

In his memory, before the girl moved into the Huo residence, he had seen Jiang Yu three times. Regardless of whether the girl was bullied by the Zhong family or when she

was in front of Grandma Zhang's hospital bed, this girl had always been soft and weak. Especially when she was pushed into the water by her classmates yesterday, Huo Xuan didn't expect to see such a cruel gaze in Jiang Yu's eyes.

Looking at the girl's aura and movements just now, it was definitely not something that could be trained overnight. He could conclude that this sister of Mo Zhu definitely had some hidden secrets.

'The atmosphere in the car instantly fell to freezing point. Apart from Kang Wan's soft sobbing, no one spoke.

After being threatened by Jiang Yu just now, Kang Wan could be said to be extremely afraid of her. She sniffled softly and moved away from the girl in an attempt to get further away.

Although Jiang Yu was a little unhappy with Kang Wan and Huo Xuan, she still wanted to stay in the Huo family for two more days, so she suppressed her temper and lowered her eyes coldly, not continuing to flare up.

When Mo Zhu finally carried her bag, got into the car and closed the car door, she realized that the atmosphere in the car today was very strange, especially Kang Wan who was sitting in the backseat with her eyes red. It was obvious that she had been crying for a long time before she came out.

'Mo Zhu glanced at Kang Wan indifferently and frowned as she looked at Huo Xuan and asked, "What's wrong?"

Seeing how nonchalant Mo Zhu was, Kang Wan sniffled and could not help but curse, "It's all your fault..."

Before she could finish, Huo Xuan and Jiang Yu looked up at her coldly at the same time. Kang Wan was so frightened that she shut her mouth tightly. Looking at their unfriendly gazes, she didn't dare to say another word.

Kang Wan did not speak anymore, and Mo Zhu was too lazy to speak. Uncle Zhang sensed the tense atmosphere in the car. In a few minutes, the car steadily stopped at the entrance of Jingyang High School.

Mo Zhu was not affected at all. After she calmly opened the car door and got out of the car, Jiang Yu followed closely behind her.

As if she knew that the girl was following her, she turned the corner and arrived at the Year Three school building. Mo Zhu stopped and turned around, instructing Jiang Yu worriedly, "Be careful when you return to class. If there's anything, come straight to Class Eight to look for me."

'When Jiang Yu heard the girl's concern, she immediately raised a smile and replied softly, "Sister Mo, attend class well and don't worry about me. I'll take good care of myself."

Just as she finished speaking, Mo Zhu smiled and raised her hand to stroke Jiang Yu's hair. Then, she turned around and walked towards Class Eight.

Seeing this scene in front of her, Kang Wan's eyes widened in shock. She never expected that this Jiang Yu was actually an expert at changing her appearance. She really had two different acts in front of different people. Just now, she had been so fierce to her in the car, and now she was so gentle in front of Mo Zhu.

After Mo Zhu's figure walked far away, Kang Wan turned her body and walked around Jiang Yu in the direction of Class Eight. She did not expect that just as she took two steps, she was shouted from behind by Jiang Yu, "Hey, your name is Kang Wan, right? Don't let me know that you're making things difficult for Sister Mo in Class Eight. Otherwise, be careful of your head!"

When she heard this, Kang Wan was so frightened that she did not even have the time to answer. She raised her hand and covered her head as she ran quickly towards the classroom, wishing she could leave Jiang Yu as soon as possible.

It was Monday and the day where the registrations for the Mathematics competition was confirmed. After the students had finished participating in the flag-raising ceremony in an orderly manner, the bell for preparation before class rang. The form teacher, Li Xiao, excitedly took the name list and entered Class Eight's classroom.

Stepping onto the podium, Li Xiao looked at the energetic students below the stage and said happily, "I've already compiled and printed the name list for the Mathematics competition. After you have confirmed that there are no errors, please sign your names."

(If you have problems with this website, please continue reading your novel on our new website THANKS!)

Chapter 293: Tuition Teacher

After confirming the name list, Li Xiao emphasized tutoring after school to everyone.

Unknowingly, night arrived. Just as they returned to the Huo family and had dinner, Chen Man brought a few people with her and knocked on Mo Zhu's door.

As Mo Zhu was worried about Feng Yu's condition, she had been focused on flipping through various ancient books in the room recently. She wanted to learn professional pharmacology and prepare the antidote accurately.

'When she heard Chen Man's voice coming from outside the door, she put down her book and stood up to open the door.

There were a few middle-aged men standing quietly behind Chen Man outside the door. Two of them had half their hair white, and they did not look young anymore.

Mo Zhu stood at the door and glanced at them indifferently. Then, she retracted her gaze and greeted Chen Man politely, "Hello, Auntie."

After Zhang Fen's funeral, this was the first time Chen Man had seen Mo Zhu. Looking at the girl's slightly thin face, she pulled Mo Zhu's hand and said softly, "Xiao Zhu, I haven't visited you these few days. Why have you lost so much weight! Xuan'er must have not taken good care of you. I'll teach him a lesson for you later!"

When Mo Zhu heard this, she understood that Chen Man was concerned about her. She shook the woman's hand and said with a smile, "Auntie, Huo Xuan treats me quite well."

When Chen Man heard this, she held Mo Zhu's hand and said a few words of concern. After a while, she recalled why she had come to look for the girl today. Chen Man cleared her throat and said seriously, "Xiao Zhu, yesterday, your form teacher, Li Xiao, called me and said that you had registered for some national Mathematics competition. Is this true?"

'Mo Zhu nodded and looked Chen Man in the eye as she replied, "That's right."

After saying this, Chen Man looked at Mo Zhu in understanding. Then, she turned around and pointed at the few people standing quietly behind her and said to the girl, "Xiao Zhu, these are the top Mathematics teachers your Uncle Huo specially hired for you from Beijing. I thought that since we had signed up for this, you must have good teaching resources, so I discussed with your uncle and found a few teachers for you."

After a pause, Chen Man touched the girl's hand again and reminded her sincerely, "Although Mr. Li said that you have a chance of entering the finals, Auntie feels that it's not important whether you can get good grades and go to a good school. As long as you grow up happily, Auntie and Uncle will be very happy."

After Li Xiao had called, Chen Man had more or less researched more about this Mathematics competition because it was related to Mo Zhu. Now, she naturally knew that the international competition was not easy.

Speaking of her motive for coming today, it was not only just bringing the teachers over to improve Mo Zhu's results. She was also afraid that the girl would feel too much pressure because she thought too highly of this competition or that the heavy workload would tire her.

After interacting with Mo Zhu for so long, she understood this girl quite a bit. As long as it was something that this child had agreed to, she had always taken it seriously and completed it seriously. Therefore, Chen Man had no choice but to take this matter seriously.

When Mo Zhu heard this, she lowered her eyes and frowned slightly. She was not used to the crowded environment, especially the class that was specially prepared for her. However, with Chen Man's good intentions and concern for her, she was momentarily embarrassed to reject her.

Before the girl could speak, Huo Xuan noticed a commotion in the corridor. He opened the door and walked out. When he heard Chen Man's words, he raised his eyebrows with interest. Mo Zhu was going to participate in the national Mathematics competition? How interesting. With the little girl's results, even if she were to speed up her tutoring and practice constantly till the time the college entrance examination comes, she might not be able to pass through the preliminaries.

Huo Xuan took two steps forward and stood in front of the two of them. He looked at Mo Zhu gently and said seriously, "If you want to participate in the national competition, you have to be well-prepared. The teachers hired from Beijing are better than the teachers in Cloud City. Why don't you ask them to stay and teach you for a few days?"

Since Huo Xuan had already said so, Mo Zhu naturally couldn't reject him anymore. She lowered her eyes and nodded in agreement. "Alright, I'll just study for a few days." Hearing the girl agree, Chen Man immediately turned around happily and pulled Huo Xuan downstairs. As she walked, she turned around and said to Mo Zhu, "Then I won't disturb you from your studies. Let's go down and have a cup of tea."

Mo Zhu had originally wanted to read more about the medicine in the ancient books, but after Chen Man's arrangement, she frowned slightly and turned to let the few teachers who were standing not far away enter the room.

The few of them followed Mo Zhu and sat down at the table. Then, one of the teachers, who looked to be the oldest, took out a middle difficulty paper from the briefcase he had brought and handed it to Mo Zhu. He coughed lightly and said in a low voice, "Mo Zhu, right? Take a look at this paper. We'll do a basic ability test first."

Chapter 293: Tuition Teacher

After confirming the name list, Li Xiao emphasized tutoring after school to everyone.

Unknowingly, night arrived. Just as they returned to the Huo family and had dinner, Chen Man brought a few people with her and knocked on Mo Zhu's door.

As Mo Zhu was worried about Feng Yu's condition, she had been focused on flipping through various ancient books in the room recently. She wanted to learn professional pharmacology and prepare the antidote accurately.

'When she heard Chen Man's voice coming from outside the door, she put down her book and stood up to open the door.

After a pause, Chen Man touched the girl's hand again and reminded her sincerely, "Although Mr. Li said that you have a chance of entering the finals, Auntie feels that it's not important whether you can get good grades and go to a good school. As long as

you grow up happily, Auntie and Uncle will be very happy.”

After Li Xiao had called, Chen Man had more or less researched more about this Mathematics competition because it was related to Mo Zhu. Now, she naturally knew that the international competition was not easy.

Speaking of her motive for coming today, it was not only just bringing the teachers over to improve Mo Zhu’s results. She was also afraid that the girl would feel too much pressure because she thought too highly of this competition or that the heavy workload would tire her.

After interacting with Mo Zhu for so long, she understood this girl quite a bit. As long as it was something that this child had agreed to, she had always taken it seriously and completed it seriously. Therefore, Chen Man had no choice but to take this matter seriously.

When Mo Zhu heard this, she lowered her eyes and frowned slightly. She was not used to the crowded environment, especially the class that was specially prepared for her. However, with Chen Man’s good intentions and concern for her, she was momentarily embarrassed to reject her.

Before the girl could speak, Huo Xuan noticed a commotion in the corridor. He opened the door and walked out. When he heard Chen Man’s words, he raised his eyebrows with interest. Mo Zhu was going to participate in the national Mathematics competition? How interesting. With the little girl’s results, even if she were to speed up her tutoring and practice constantly till the time the college entrance examination comes, she might not be able to pass through the preliminaries.

Huo Xuan took two steps forward and stood in front of the two of them. He looked at Mo Zhu gently and said seriously, “If you want to participate in the national competition, you have to be well-prepared. The teachers hired from Beijing are better than the teachers in Cloud City. Why don’t you ask them to stay and teach you for a few days?”

Since Huo Xuan had already said so, Mo Zhu naturally couldn’t reject him anymore. She lowered her eyes and nodded in agreement. “Alright, I’ll just study for a few days.” Hearing the girl agree, Chen Man immediately turned around happily and pulled Huo Xuan downstairs. As she walked, she turned around and said to Mo Zhu, “Then I won’t disturb you from your studies. Let’s go down and have a cup of tea.”

Mo Zhu had originally wanted to read more about the medicine in the ancient books, but after Chen Man’s arrangement, she frowned slightly and turned to let the few teachers who were standing not far away enter the room.

The few of them followed Mo Zhu and sat down at the table. Then, one of the teachers, who looked to be the oldest, took out a middle difficulty paper from the briefcase he had brought and handed it to Mo Zhu. He coughed lightly and said in a low voice, “Mo Zhu,

right? Take a look at this paper. We'll do a basic ability test first."

Chapter 294: Scoring Full Marks

'When she heard the man say that it was a paper of middle difficulty, Mo Zhu immediately raised her hand to take the paper.

She looked up lightly and roughly at the questions on the paper. Mo Zhu raised her eyebrows, casually picked up a pen from the table and started answering them.

She had thought that the intermediate level was very difficult. Looking at the examination questions that could be answered instantly with ease, the girl was slightly doubtful of Beijing's teaching standard. How could this be considered a little difficult?

Under Mo Zhu's diligent writing, she filled up the entire paper in a few minutes. When she looked up and handed the paper back to the teacher in front of her, everyone looked at her in disbelief.

This was especially true for an old scholar wearing glasses standing beside the middle-aged man. He had personally set this test paper. He had spent a lot of effort to retrieve many high-quality Mathematics questions from the Internet and then changed the numbers and added many new questions.

The old scholar looked at Mo Zhu in shock. Then, he lowered his head and began to seriously examine the answer that was hastily written on the girl's paper. He found that there was not a single question done wrongly in the entire paper.

The old scholar trembled as he took the exam paper from the table and said excitedly, "All correct, the answers on the paper are all correct."

After hearing his words, a man in a suit sitting quietly on the other side of the desk coughed lightly. Then, he took out another test paper from his bag and gently placed it in front of Mo Zhu. The man said, "Student, do this one next."

'The man's name was Luo Nan and he was a special-class Mathematics teacher of Beijing University. Although he was not the oldest or most qualified person in the group of people who came today, he had been a Mathematics genius since he was young. Back then, he had even gotten first place in Mathematics during the college entrance examination and was the only person in the country who had gotten full marks. After choosing to stay in Beijing University to teach, he nurtured many potentials for the country every year.

The paper that he had handed to Mo Zhu just now was a high difficulty test that the Mathematics department of Beijing University had prepared for the graduate students

who were going to graduate this year. The questions had been released a few days ago. Now that he saw that Mo Zhu had such potential and could successfully solve so many questions in such a short period of time, he could not help but want to take out this set of questions to test this young lady's true standard.

Mo Zhu had noticed Luo Nan just as he entered the room. Although this man had been sitting quietly on the chair without saying a word, just by looking at his aura and his confident appearance, she could tell that he was definitely very accomplished in the field of mathematics.

Nodding her head lightly, Mo Zhu took the test paper and picked up the pen again. She roughly glanced at the paper again and instantly saw the difference between this test paper and the previous one. Besides the obvious difference in difficulty that is being reflected in this test paper, it had also been designed very cleverly, be it the question format or the usage of knowledge.

After browsing through all the questions on the paper and having a rough idea of what was going on, Mo Zhu started answering the questions. About ten minutes later, she put down the pen in her hand and handed the paper in front of her to Luo Nan. After taking a closer look at the answer on the Mo Zhu paper and combining it with the girl's state when she was doing the questions just now, Luo Nan looked at a student in surprise for the first time, and she was just a high school student.

He picked up the red pen and finished marking the papers for the girl according to the answers in his memory. Luo Nan's eyes widened in disbelief. Just like before, there was not a single question wrong in the entire paper.

One had to know that even if a graduate student from Beijing University did this test, he might not be able to get 60 marks. He did not expect that in a small place like Cloud City, there would be a student like Mo Zhu who was talented in Mathematics. Luo Nan had heard of the Mathematics Olympiad organized by Country H this time, No matter which country organized this competition, a group of elite high school students would be nurtured every year and sent to Beijing University.

When he heard that the competition system had been changed this year and a few quotas were specially given to Jingyang High School in Cloud City, he had originally been biased against the students of such a small city. Although Jingyang High School's enrollment rate had not been low in the past two years, he had always felt that the educational resources in Beijing were the best. This kind of opportunity should not be given to the cities below it.

Even yesterday, when Chen Man and Huo Tao came to invite him personally, he had sneered at this daughter-in-law of the Huo family. He felt that with Mo Zhu's results, she couldn't even touch the threshold of such a large-scale competition. Thus, there was no

need for them to specially invite teachers to tutor her.

He did not expect that when he came to take a look today, he would be slapped in the face. Not only did the girl solve the questions quickly, but her accuracy was also very high. He could not help but sigh. Every generation was better than the previous. Cloud City was really filled with hidden talents!

Chapter 295: Successful Research

Luo Nan turned his gaze to the last big question on the test paper and frowned slightly without batting an eyelid. This question was set by two other special-class teachers from Beijing University, and it was also the most difficult question in the entire test paper.

Looking at the two to three steps Mo Zhu had used to solve the question and the correct answer that she had scribbled at the end, Luo Nan was a little puzzled. He asked curiously, "Student, what kind of solution did you use for this question?"

Through the simple steps that Mo Zhu had written on the entire test paper in order to answer the question, Luo Nan could already tell that the girl in front of him had her own unique way of solving the questions. There were some solutions that he could not even think of.

Upon hearing Luo Nan's question, the other teachers who were sitting quietly by the desk also stood up and surrounded her with curious expressions. They knew that Mo Zhu had completed two papers with perfect accuracy in half an hour, and everyone wanted to hear the girl's novel way of solving the questions.

When Mo Zhu heard this, she raised her eyebrows and placed the pen on the last question. She followed the steps she had written on the paper and started to explain lazily, "This question is actually very simple in terms of decomposition. Firstly

Two minutes later, everyone was attracted by the girl's unique solution to the question. They immediately returned to their respective seats and took out the test questions from the bags they had brought along with them to start their actual combat research. A wave of discussion sounded in the small room.

"So this question can be answered in this way. It's too amazing. I have to study this new idea properly."

"I didn't expect that this method could be used in any type of questions. When I return to Beijing, I'm going to teach this method to the students. Using it to solve the questions

will definitely save a lot of time during various examinations.”

Seeing that everyone was doing the questions and discussing, Mo Zhu raised her hand and gently knocked on the table twice. She said lightly, “Teachers, I have something to do now and I have to go out. Why don’t I come back for tuition another day?”

Luo Nan had changed his seat with someone else and was sitting beside Mo Zhu. When he heard the girl’s words, he stopped calculating and waved at Mo Zhu before replying, “We’ll tutor you another day. We’ll tutor you another day. Mo Zhu, if you have anything on, go ahead and busy yourself. Don’t worry about us!”

When Mo Zhu heard this, she looked helplessly at the excited teachers, stood up, and left the room.

‘When she arrived downstairs, she saw that Chen Man was alone in the living room, watching television and drinking tea. She looked up and asked softly, “Auntie, where’s Huo Xuan?”

Chen Man heard Mo Zhu’s voice from behind and turned her head happily to wave at the girl. “Xiao Zhu, Huo Xuan had something on and went to the company with Xu Huan. Did the teachers give you a break? Come over and chat with me.”

Mo Zhu obediently walked to the sofa and sat down. Although she looked like she was casually drinking tea with Chen Man, she was thinking about the methods and ratio of the Ten Thousand Aged Pine Snow Herb that should be used for various poisons that she had seen in the ancient books just now.

Seeing the girl thinking about her own matters in a daze, after a while, Chen Man seemed to have thought of something. She picked up the teacup on the coffee table and took a sip gently before saying softly, “Xiao Zhu, do you have anything else to do after school tomorrow? I have a good friend in Beijing named Ming Mei. She had told me for a long time that she wanted to see you. Now that she’s staying in the old mansion, I’ve returned to Cloud City. I thought that if it’s convenient for you, why don’t we have a meal tomorrow night?”

Upon hearing this, Mo Zhu could not reject Chen Man’s request. She thought for a while and decided that there was nothing she had to do tomorrow. She nodded and replied, “Alright, Auntie. I’ll listen to your arrangements.”

“Good, good. Our Xiao Zhu is so obedient.” Chen Man touched Mo Zhu’s hand in satisfaction.

The two of them chatted on the sofa for a few more minutes. A moment later, an idea suddenly flashed across Mo Zhu’s mind. She had thought of a new research method for Feng Yu’s medicine. She immediately stood up and informed Chen Man. Then, she took a pile of the Ten Thousand Aged Pine Snow Herb from the cabinet, pushed open the kitchen door and walked in.

The development process this time was smoother than the previous times. Because of the Meng family's supply, Mo Zhu increased the use of the Ten Thousand Aged Pine Snow Herb, and added other herbs to supplement the medicine; it did not take long for her to develop a pill that was twice as big as the last time.

Seeing the pill form in the pill furnace, Mo Zhu picked open the lid of the furnace and gently picked it up with a small forceps. She placed it under her nose and smelled it. Both the color or smell of this pill was identical to what was recorded in the ancient books. Seeing this, Mo Zhu nodded in satisfaction..

Chapter 296: Background With Negative-Meaning

The next day after school.

As Chen Man had not sent the location of the hotel over, Mo Zhu took Uncle Zhang's car back to the Huo residence.

Just as she entered, the few teachers that Chen Man had invited from Beijing yesterday surrounded her. They brought Mo Zhu to the study and handed her a handwritten Mathematics paper.

Seeing Mo Zhu sit down beside the table, the old scholar cleared his throat and took the initiative to say, "Mo Zhu, this test question was specially set by the few of us after a day of careful research. Take a look and see if you can solve these questions. If any questions are too difficult for you, you can skip them and do the next ones."

Mo Zhu pinched the space between her eyebrows helplessly. Since Chen Man had not sent her the location and she had nothing to do, she picked up her pen and started answering the questions calmly.

The few papers that the teachers had written this time were much more difficult than the two papers yesterday. They had combined the Mathematical Olympiad questions that had been held by various countries over the years and had integrated much knowledge into difficult questions.

Therefore, Mo Zhu took much longer than yesterday to solve the questions. Seeing that the girl had only completed half of the questions in half an hour, Luo Nan smiled in relief. He had set half of the questions for today and he was still confident in the questions he had set.

Just as everyone was silently observing Mo Zhu while she was doing the questions, the study door was suddenly pushed open from the outside. Instantly, Huo Xuan's face appeared behind the study door.

Because he was a little busy at the company today, he didn't have time to rush to the school gate to pick Mo Zhu up from school. When he heard from Uncle Zhang that the little girl had returned to the Huo family, he remembered Chen Man's dinner arrangements and specially returned to the Huo residence to pick Mo Zhu up for dinner.

Just as Huo Xuan stepped into the study, he saw that the ground was filled with papers with miscellaneous algorithms. He looked up at Mo Zhu, who was sitting beside the study table and doing the questions seriously. He bent down and casually picked one up to look at.

Huo Xuan had grasped the Mathematics knowledge of high school and university very well. He could understand most of the algorithms on the paper and the steps to solve the questions. With Huo Xuan's level, he could even roughly deduce the answer to the questions from the data on the paper.

Huo Xuan lowered his eyes and quietly looked at it for two minutes. He seemed to have thought of something and frowned slightly. He clenched the paper in his hand unhappily as anger welled up in his heart. If he remembered correctly, the solution formulas listed on the algorithm paper were very difficult. Although he couldn't tell what level of student had the ability to solve this question, he was certain that this wasn't high school knowledge.

Huo Xuan raised his eyes and coldly looked at the teachers at the table who were staring intently at Mo Zhu as she did the questions. He unconsciously rubbed his palms. Great, the Huo family had spent a lot of money to specially hire teachers from Beijing to tutor the little girl. He didn't expect these teachers to deliberately use these questions to humiliate her despite knowing that Mo Zhu's standard was not high!

Thinking of this, Huo Xuan couldn't help but clench his fists. He was just about to ask what was going on when his phone suddenly rang in his pocket. He frowned slightly and took out his phone to take a look. The phone number on the screen showed that the caller was Xu Huan.

Xu Huan called not long after the two of them parted. Realizing that something urgent might have happened, Huo Xuan immediately turned around, pushed open the study door, and walked out.

He swiped the answer button and Xu Huan's anxious voice came from the other end of the phone. "Brother Huo, bad news. The company's protection system has been hacked again."

After a few seconds of pause, Xu Huan quickly added, "Besides that, the other party had added something to our internal office webpage this time..."

Upon hearing this, Huo Xuan's eyes instantly turned cold. He quickly asked, "What did they add?"

“They’ve added a red background picture. Our programmer has already tried to change it a few times, but unfortunately, the other party is too powerful. They can’t crack the person’s Internet address.”

Xu Huan’s voice sounded a little depressed. Before he called Huo Xuan, he had already instructed the staff to change the Internet address in advance. However, no matter what they did, they couldn’t find out how the other party had hacked into the system, so they couldn’t change the background of the page at all..

Chapter 297: Surrounded by Danger

When Huo Xuan heard this, he lowered his eyes and pondered for a few seconds. After a moment, he instructed coldly, “Take the administrative computer in my office and come to the Huo residences to look for me immediately. I’ll see what they want to do personally!”

When Xu Huan heard this, he agreed quickly. Then, he quickly hung up the phone, brought the laptop Huo Xuan often used in the office, and rushed straight to the Huo residence.

Xu Huan stepped on the accelerator and brought Mo Wu to the Huo family. Just as the two of them arrived at the door, Huo Xuan opened the door and took the laptop from Xu Huan.

He quickly walked a few steps to the sofa and sat down. He turned on his computer and directly used his account to log into the company’s internal system. When he looked at it, it was indeed exactly as Xu Huan had described. There was a huge blood-red background picture on the webpage, making one feel a little physiological discomfort at a glance.

Seeing Huo Xuan’s grave expression, Mo Wu took two steps forward and asked, “Young Master, who do you think caused this incident? Is it the same group of people who attacked our system last time?”

Huo Xuan raised his hand and pinched his glabella. His pupils constricted slightly. “If I’m not wrong, it should be the same group of people.”

After a pause, the man added coldly, “The other party hacked into our system last time and obtained the top-notch statistics of the company. Although he brought us a lot of losses, he hasn’t released the information to the world after so long. It’s the same this time. Just changing the background of the webpage doesn’t affect the normal operations of the Huo family’s company. The various signs are enough to prove that his motive isn’t the Huo Corporation.”

Upon hearing this, Xu Huan seemed to have understood something. He frowned and said unhappily, "Brother Huo, according to your analysis, that person's motive is you! After all, everyone knows that ever since you recovered, your second uncle has no real power left. The person in control of the Huo family now is you. Did your cousins find someone to do this for the Huo family's business?"

When Huo Xuan heard this, he glanced at Xu Huan as if he was looking at a fool and explained helplessly, "They're not from the Huo family. If my siblings from the collateral branches had the ability, the Huo family would have been gone from my hands long ago."

Upon hearing the man's words, Xu Huan also vaguely felt that it made sense. He raised his hand and touched his chin. He followed Huo Xuan's words and asked, "Then who could it be? Brother Huo, quickly think about whether you've offended anyone recently. Someone with such ability shouldn't be a small character!"

At this moment, Mo Wu added, "Yes, Young Master, I think Young Master Xu is right. The other party's skills are so high, but our people haven't found any traces of him after so long. If we're targeted by such a person, be it the company or the Huo family, it's a big deal that can't be underestimated!" Huo Xuan frowned coldly and rubbed his palms impatiently. He replied angrily, "In the past few days, other than going to the office, I've been at home. Who can I offend!"

He recalled their recent itinerary ever since they returned to Cloud City. Firstly, they were busy with the funeral after Grandma Zhang passed away. Then, everyone went to Qingyuan Village to pick up the things left behind by Grandma Zhang. After they returned from Qingyuan Village, Old Guo came to the Huo family.

Ever since Old Guo came, he would wake up early and cook seriously every day. Then, he would send Mo Zhu to school before going to the company to deal with the documents. After picking Mo Zhu up from school at night, he had also been busy in the study discussing business overseas and participating in video conferences non-stop. In that case, where did he have the time to offend others?

When Xu Huan heard Huo Xuan's words, he said worriedly, "Brother Huo, regardless of whether we've offended someone or not, we have to investigate this matter as soon as possible. Our enemies are in the dark, and if this goes on, we'll definitely be at a disadvantage!"

After being reminded by Xu Huan, Mo Wu also wanted to say something important. He frowned and added, "Young Master, Mo Qi sent news from Southeast Asia this morning. Our people have been being ostracized by the families there. If we don't deal with this matter soon, I'm afraid we won't be able to keep the territory we've fought so hard for!"

"Besides that, the people below said that the mastermind who had been secretly investigating that incident back then had already sent someone to sneak into Beijing to

look for the child who had survived from the Jiang family. Based on the speed of that group of people, if they find that child first, I'm afraid it won't end well for them!"

Upon hearing this, Huo Xuan knocked on the table lightly. He lowered his eyes and thought quietly for a while before instructing coldly, "Continue sending orders to the Love Pavilion. You have to let Almighty K accept the orders personally. As long as he's willing to appear, we'll definitely be able to find him. Tell Cheng Yi that as long as K is willing to accept the orders, we'll agree to whatever price he offers.."

Chapter 298: Can't Teach Her Anymore

'When Xu Huan heard this, he frowned and replied helplessly, "Brother Huo, we've already given the Love Pavilion quite a number of orders, but for some reason, Almighty K is just not accepting our orders. Besides, we offended Cheng Yi when we went to the Love Pavilion to search in order to capture Black Tiger. I think he won't even be willing to look at our orders now."

Huo Xuan's eyes turned cold again. "Then continue placing orders until K accepts them."

After pausing for a few seconds, Huo Xuan pinched his glabella and raised his hand to instruct Mo Wu, "Let Mo Qi think of a way to hold on for a while longer for the matter in Southeast Asia. Send someone to Qingyuan Village to find if there are any photos of the child from back then. If we can find the photos, even if the Love Pavilion doesn't accept our orders, we have a glimmer of hope of finding her."

"Yes, Young Master." Mo Wu received the mission and turned around to leave the Huo family.

Huo Xuan was annoyed by these matters and felt uneasy. He raised his hand to turn off the computer and looked at the hanging lamp on the ceiling of the living room in a daze. He said worriedly, "After Mo Wu is done investigating that child, please bring someone to Beijing to investigate that group of people personally. If they and the various families are peaceful and quiet and not intending to take any action, transfer our people to Southeast Asia to reinforce Mo Qi."

When Xu Huan heard this, he nodded in agreement. After that, he also fell into a daze like Huo Xuan.

A few minutes later, Huo Xuan's phone suddenly vibrated imperceptibly. He calmly took out his phone and looked at it. It was the location of the hotel sent by Chen Man.

Thinking that he still had to bring Mo Zhu to a gathering tonight, Huo Xuan suppressed these worries in his heart. After instructing Xu Huan to wait in the living room, he turned

around and went upstairs to inform Mo Zhu to prepare to leave. At the same time, a few teachers beside the desk surrounded Mo Zhu and began to seriously review the exam papers that the girl had just finished answering.

As the few of them had worked together to prepare the papers in advance, everyone had prepared an answer for the questions they had set.

Luo Nan was the first to take a step forward and quickly wrote on the papers on the table with a red pen. As expected, Mo Zhu had gotten another perfect score for the questions he had set.

After everyone had finished marking the exam papers, it was finally the turn of the bespectacled old scholar. He bent down slightly and carefully checked the questions he had set. A moment later, he pushed his glasses in disbelief and exclaimed.

Last night, when he was setting the questions, he did it differently from the other teachers. Others had set questions that could be answered within the limits of everyone's ability, but he had chosen the questions from many of the difficult past national competitions in the information he had brought with him. Even he could not solve the questions without looking at the correct answer.

The old scholar stared at the paper in front of him that was filled with the correct answers. He did not expect this ordinary high school student to solve all these problems in such a short time.

Following the line of thought on Mo Zhu's answer sheet, the old scholar immediately understood the question that he originally could not solve at all. Furthermore, when he followed the girl's steps in solving the question, he could even infer and design questions of the same difficulty.

The old scholar looked at Mo Zhu in surprise and asked with a trembling voice, "Student, where did you learn such an extraordinary solution to the questions? Have you self-studied higher mathematics knowledge before?"

'Mo Zhu's methods and thoughts were very strange. In just these two days, the few teachers present could not break them into very detailed pieces. As for whether these could be incorporated into the teaching system and solve more general questions, they had to spend a lot of time and come up with a large number of questions to specially study them after they returned to Beijing.

Upon hearing the old scholar's sudden question, Mo Zhu put down the pen in her hand and played with the small eraser on the desk in boredom. She replied lightly, "Apart from the knowledge in the textbooks issued by the teachers in school, I didn't learn anything else. As for how to solve the questions, they were all thought up at the last minute when I was answering the questions."

'When the old scholar heard this, he looked up and looked at the surrounding people. He said in a low voice, "Mo Zhu, with your current mathematics level, I'm afraid the few of us can't teach you much. In that case, why don't we end the tutoring session here?"

After saying this, Mo Zhu raised her eyebrows and her eyes darkened. Thinking that she finally did not have to continue solving questions, she smiled lightly and replied, "Alright, then I won't send you off."

Chapter 299: Hiring a Few More

After quickly packing up everyone's things, Mo Zhu followed the teachers and was about to go downstairs when she bumped into Huo Xuan the moment she opened the door.

Seeing the teachers walk out one after another with the backpacks they had brought yesterday, Huo Xuan thought of the calculation papers he had seen in the study just now. He frowned and stopped Luo Nan, who was walking in front of him. He said in a displeased tone, "Mr. Luo, didn't we agree in advance that the teachers would stay in the Huo family to focus on teaching Mo Zhu how to solve the questions before the Mathematics competition starts? Are you unwilling to teach her just because our Xiao Zhu's foundation is bad?"

In order to not embarrass the teachers from Beijing, Huo Xuan deliberately didn't mention that they had given Mo Zhu all sorts of difficult questions on purpose.

Upon hearing Huo Xuan's words, Luo Nan also frowned and replied, "Young Master Huo, we don't understand what you're saying. It's not our fault for leaving at the last minute. Mo Zhu's condition really doesn't match the information Mrs. Huo gave us. We can't teach her. We really can't teach her at this level!"

When Huo Xuan heard this, he quickly wanted to refute, "Teachers, no matter how bad Xiao Zhu's standard is, as teachers, you should be able to teach her without discrimination. Youa€™"

Unexpectedly, before he could finish, he was interrupted by another teacher. "Young Master Huo, please stop talking. We really can't teach her!"

After saying this, before Huo Xuan could say anything, the few of them resolutely opened the Huo family's door and walked out.

After everyone left, Huo Xuan reprimanded with a furious expression, "How are they going to be a teacher in the future if they go back on their words like this? If they have promised something, they have agreed to it. No matter how bad the students' results

are, they shouldn't just stop teaching!"

He turned to look at Mo Zhu, who was standing at the side with innocent eyes. Huo Xuan calmed his heart and patted the girl's shoulder to comfort her. He said softly, "Don't be discouraged. Since these teachers aren't willing to teach you, I'll find a few better ones for you."

Upon hearing this, Mo Zhu's eyes darkened and she glanced at Huo Xuan before asking angrily, "Do you have to hire a teacher for me? Have you been too free recently because you have nothing else to do?"

Huo Xuan was a little puzzled by the girl's sudden cold attitude. He was about to say something more, but before he could, Mo Zhu turned around and walked downstairs. As she walked, she asked, "Didn't Auntie say that there's dinner tonight? Has the location been sent over?"

Recalling that, Huo Xuan came back to his senses and nodded. He echoed, "The location has been sent to my phone. See if there's anything else you want to bring, Let's pack up and prepare to leave."

When Mo Zhu heard this, she took her coat from the sofa and went straight to the entrance to change into her shoes. She turned to look at Huo Xuan and said indifferently, "There's nothing to bring, Let's go."

After saying this, Mo Zhu pushed the door open and walked out without looking back. Seeing the girl's unhappy expression, Xu Huan stood up from the sofa and took two steps forward to Huo Xuan. He scratched his head and asked, "Brother Huo, what's wrong with Little Bamboo? Did you make her angry?"

'When Huo Xuan heard this, he suddenly raised his hand and patted Xu Huan's head. "Hurry up and catch up. Cut the crap."

At this moment, not only were Mo Zhu and the others rushing to the hotel, but Chen Man had also instructed the driver to drive to the Ming family's old mansion to pick Ming Mei up.

The two of them sat in the back seat. Just as the driver started the car, Chen Man received a call from Luo Nan.

Seeing the caller ID, Chen Man thought that something had happened to Mo Zhu. She frowned and raised her hand to answer the call. She did not expect that just as she picked up the call, Luo Nan would bluntly say that the few of them could not teach Mo Zhu and did not even give her a reason. After saying this, he hung up the phone.

1

Chen Man was silent for a while, not understanding what was going on. Then, she picked up her phone and called back to ask the teachers why they were unwilling to continue teaching. However, for some reason, the other party had rejected her call.

Seeing that the call was hung up for no reason, Chen Man berated angrily, "Why are these teachers so irresponsible? I came from afar and spent a lot of money to invite them from Beijing to teach Mo Zhu. How can they just stop teaching as and when they want? They didn't even give a reason for it."

Chapter 300: Worried About Mo Zhu

After pausing for a few seconds, she added in exasperation, "No, I have to talk to Huo Tao about this when he comes back. Look at the teachers he found for Xiao Zhu. They're too irresponsible!"

Ming Mei, who had been sitting quietly at the side, heard Chen Man's words and guessed that it might have been because of the Mathematics competition that had angered Chen Man. She touched the woman's hand comfortingly and said with a smile, "It's fine if the teacher doesn't teach her. Just hire a new one for her."

When Chen Man heard this, she held Ming Mei's hand and nodded in agreement. "Of course, we have to hire a new teacher for our Xiao Zhu. When we go back tonight, I'll discuss it with Xuan'er personally and see if there are any teachers in Cloud City who teach well. We'll invite them over first and make do with it. I'll definitely search for more when I go back two days later. I'll invite another batch from Beijing and bring them over."

Ming Mei looked up at Chen Man and sighed with a smile. "I didn't expect you to be so concerned about your little daughter-in-law."

"Xiao Zhu is my daughter-in-law. Of course, I will take good care of her." Thinking that she would be able to see Mo Zhu and eat dinner with her later, Chen Man's tone instantly became happy.

Upon hearing Chen Man's words, Ming Mei seemed to have thought of something and touched her hand worriedly. She said lightly, "Xiao Man, I know that you love and care for your daughter-in-law sincerely, but have you thought about it? With the Huo family's current situation, once she really enters the family, there will definitely be danger everywhere!"

After a pause, Ming Mei sighed lightly again. "I heard from my husband that ever since Xuan'er got better, most of the Huo family's businesses have returned to him. Of course, it's a good thing that the Huo family is developing well under Xuan'er's control,

but it's completely different for this girl. The better the Huo family is developing, the more people with ill intentions will covet it. The power in the family is seized, and there are annexions outside the family. I don't know if Mo Zhu can deal with both the internal and external problems."

For a long time, Chen Man had been quietly protecting Mo Zhu in the Huo family. She thought that as long as she was around, she would definitely be the one supporting the little girl. However, after being reminded by Ming Mei today, she had to admit that these words made sense. She couldn't protect Mo Zhu forever. As the woman beside Xuan'er and the officially married wife of the Huo family, Mo Zhu would face all of these sooner or later.

Chen Man lowered her eyes quietly and thought for a while. She followed Ming Mei's words and asked worriedly, "You're right. What should we do now? We have to let Xiao Zhu have some social experience in advance. She will naturally understand more after seeing more."

When Ming Mei heard this, she smiled and continued holding Chen Man's hand. "Let's ask the girl what she likes or wants to do first. If she doesn't want to study, then stop. Focus on developing a hobby. No matter what she does in the future, she should first make some achievements and let everyone see her in a different light. After she stabilizes her position in the Huo family, she can improve her other abilities step by step."

After hearing Ming Mei's words, Chen Man nodded and agreed happily, "That's a good idea. Alright, let's do it this way. I'll ask Xiao Zhu what she likes later. With the Huo family as her backing, we don't have to be afraid that the child won't be able to do well."

The two of them chatted and laughed along the way. Not long later, they arrived at the entrance of the hotel. Because the Huo family's residences were relatively close to the hotel, when the two of them pushed open the door of the private room, Huo Xuan and the others were already waiting in the private room.

Seeing Chen Man bring Ming Mei in, Huo Xuan pulled Mo Zhu forward and took the initiative to introduce her to the girl. "This is Auntie Ming, my mom's good friend." Upon hearing Huo Xuan take the initiative to introduce her, Mo Zhu immediately greeted politely and obediently, "Hello, Auntie Ming."

When Ming Mei saw this, she looked up at the fair, tender, and very beautiful girl in front of her in a daze. The more she looked at Mo Zhu, the more she liked her. She took two steps forward and grabbed the girl's hand. She said with mixed emotions, "This girl is really polite. She's also very good-looking. The more I look at her, the more I like her!"

After saying this, she carefully observed Mo Zhu's graceful speech and actions in front of the elders. She nodded in satisfaction and looked at Chen Man as she added, "I really like this girl. Sigh, if only my family had a son too. That way, we can still compete fairly with Xuan'er. Maybe if he likes Xiao Zhu, she will become my daughter-in-law!"

'When she heard this, Chen Man pursed her lips unhappily. "Then you have to work harder. When you give birth to a son, you might get a chance to talk to my granddaughter."

Ming Mei had only one daughter in the family. Although Ming Mei's daughter liked children, she had only given birth to one after so many years.

"Although I don't have a son, I have a nephew. Look at you, you only care about your son and you're not helping our Huan'er to look for someone else.."
