

Summoner 1001

Chapter 1001: Blood Ray (1)

This wasn't difficult for Yun Feng at all. With the Dragon Palace, it wasn't a problem for her to send as many people as possible. There were no other hints on the notification board. Yun Feng looked carefully again and confirmed that she didn't miss anything. She retracted her gaze. The three contracted Magic Beasts turned into three beams of light at the same time and entered their Rings of Contract. Yun Feng was about to send Qu Lanyi, Mu Canghai and Mo Changge to the Dragon Palace, when Mo Changge had already walked to the Teleportation Array on the far right.

"Mo Changge, what are you doing?" Qu Lanyi shouted, but Mo Changge didn't stop. Yun Feng narrowed her black eyes slightly. At this moment, Mo Changge had already walked to the edge of the teleportation array on the right. He turned his handsome face slightly and raised his peach-blossom eyes at everyone.

"It's not easy to have a chance to be free. I certainly have to walk around." After saying that, Mo Changge had already stepped into the Teleportation Array! He occupied the center of the Teleportation Array and the light of the Teleportation Array instantly rose!

In the light, Mo Changge slowly disappeared. He chuckled at Yun Feng. "Don't worry. We'll meet again."

"Mo Changge!" Qu Lanyi roared anxiously. This kid was indeed here to cause trouble for Yun Feng! Yun Feng immediately swung her mental strength and was about to drag Mo Changge out, but she was bounced back by the light around the Teleportation Array!

Mo Changge's body had already disappeared with bursts of light! You Yue was dumbfounded when he saw this scene. This man was too reckless... Yun Feng gritted her teeth. He was truly a troublemaker!

Now that Mo Changge had disappeared in the teleportation array on the right, Yun Feng was faced with a choice. Should she chase after Mo Changge or go back with You Yue? The Yun family needed the Thousand Snow Hall, so they certainly couldn't let anything happen to Mo Changge. Yun Feng gritted her teeth. Could he not be obedient?

Seeing the complicated expression on Yun Feng's face, You Yue also knew the conflict in her heart.

"Feng, go after him. If you catch up with him, come to the floating island together. The Teleportation Array between the three islands is quite convenient. Remember to come to the You family to find my brother."

Yun Feng's black eyes glittered. How could she let You Yue go back alone? She had to watch him return to the You family safely herself! However, Mo Changge... "I'll go after him." Mu Canghai, who had a cold face, said as he looked at Yun Feng deeply. "Go with him. I'll go after him."

"Mu Canghai..." Yun Feng looked at him in surprise. A smile appeared on Mu Canghai's cold handsome face. "I'll be at ease if Qu Lanyi stays with you. I'll go after that troublesome guy and bring him back to you." After saying that, Mu Canghai had already stepped into the Teleportation Array on the right. Instantly, the light of the Teleportation Array rose again. "Be safe," Mu Canghai whispered. Instantly, his body had already disappeared from the Teleportation Array.

You Yue was stunned again with a complicated feeling in his mind. He could feel how that cold and handsome man felt about Yun Feng just then. His sister was surrounded by so many outstanding men. This was truly... complicated. You Yue couldn't help but feel a bit self-mocking. Why was he feeling so complicated? Strictly speaking, he and Feng weren't related by blood, right? Wasn't he being too self-conscious?

Mu Canghai disappeared quickly and didn't even give Yun Feng a chance to reject him. Qu Lanyi couldn't help but sigh. "You can let him go after Mo Changge. You don't have to worry about Mu Canghai's strength. When he finds Mo Changge, they should come to the You family to find you."

Yun Feng nodded with complicated feelings. Mu Canghai would go after Mo Changge, so she and Qu Lanyi would be the only ones left on this trip. Yun Feng sent Qu Lanyi directly to the Dragon Palace. Seeing that Qu Lanyi suddenly disappeared, You Yue didn't say anything. He certainly knew that Yun Feng had hidden herself well.

"Brother, let's go." Yun Feng smiled warmly. You Yue nodded. The two of them held each other's hands gently and stood in the Teleportation Array. The moment the Teleportation Array was opened, light surrounded the two of them from all directions. An obvious power of spatial distortion gradually formed. Yun Feng knew that the passage to space had already been opened.

Mental strength surged out of her body quickly and wrapped around You Yue firmly. Yun Feng didn't know if the spatial teleportation this time would be like last time, but she had to take necessary protective measures. After all, You Yue hadn't reached the Lord Level yet.

The power of distortion in space had already dragged the two of them into it. Yun Feng held You Yue's hand tightly and slowly closed her black eyes. The two of them disappeared slowly in the light and the hall returned to peace again.

The teleportation this time was several times smoother than Yun Feng thought. It should be said that she had nothing to worry about at all. In a daze, it seemed that she had already arrived at her destination after a while. The moment Yun Feng's feet touched the ground, she understood that the teleportation this time had already ended.

There were good and bad spatial channels. The spatial channel Ling Tiansu tore with his life last time was full of instability, and the Teleportation Array Yun Feng used this time was obviously a few levels higher. Its stability couldn't be compared and it wasn't dangerous at all. If every spatial teleportation was like Ling Tiansu's last time, nobody would dare to use the Teleportation Array anymore.

Yun Feng opened her eyes. First of all, she wanted to see if You Yue was with her. After finding that You Yue was safe and sound, Yun Feng immediately let Qu Lanyi out of the Dragon Palace. Space teleportation didn't affect the Dragon Palace at all. It was quite strange.

"It seems that we've arrived in the Central Region." After coming out of the Dragon Palace, Qu Lanyi looked around at the scenery. Yun Feng was the same. There was a green and lush forest around, as if the place where they were teleported out was a bit too remote.

"It seems that the place where the Spatial Teleportation Array is connected is random." Yun Feng looked around at the scenery and came to a conclusion. If it wasn't random, they should have appeared in a place with people, or at least a village. And now, they were in the wilderness.

“It’s good that it’s random. It’s better if there’s no one here. It suits us.” Qu Lanyi chuckled. Yun Feng also nodded and turned around to look at You Yue. “Brother, are you in a hurry to go back to the You family?”

“Feng, do you have any thoughts right now?”

Yun Feng nodded and looked at the dense forest with her black eyes. Even though she didn’t know where she was, nobody came to disturb her. It was indeed suitable for their current situation. “I do have some thoughts. We’ve already arrived in the Central Region right now. With our current strength, we’re at the bottom. Even though I don’t care about power and status, strength can’t be completely ignored when we move around the Central Region.”

Chapter 1002: Blood Ray (2)

After experiencing so many things on the East Continent and the West Continent, Yun Feng deeply understood that only the strong had a world that belonged to them.

Yun Feng continued, “Besides, after reaching the Lord Level, the path of cultivation definitely can’t be like before. If you want to make a breakthrough and cross this level, you must find a new path. It’ll definitely be a new world above the Lord Level! Brother, when you go back to the You family, you certainly can’t be at the peak of the Monarch Level right now. You should at least reach the Lord Level. What do you think, brother?”

You Yue chuckled and rubbed Yun Feng’s head with his big hand. “Alright, we’ll listen to you. A breakthrough in strength is indeed urgent.”

Yun Feng nodded happily. “This place is rarely visited and is also a quiet place. It’s suitable for cultivation. We’ll cultivate here until the day we break through!”

You Yue agreed, but thinking of the long cultivation time, he couldn’t help but feel a bit emotional. “I guess it will already have been a few decades when we walk out of here?”

Qu Lanyi burst into laughter. “Don’t worry. It won’t take so long. It’s hard to say between us, but with Fengfeng’s talent, it won’t take so long at all.”

You Yue also burst into laughter. “You’re right! My sister is too talented. Everyone will probably be shocked!”

Yun Feng also smiled. She didn’t know how long it would take to leave this place. She was certain that she would definitely break through to the Lord Level when she left this place. She was only at the early stage of the Lord Level right now. How could she cross this path successfully? This was a challenge for her.

The three of them decided to make a breakthrough here, so they certainly had to find a place suitable for cultivation. They looked around and found a rather hidden place, which seemed to be the nest abandoned by a giant beast. It was an extremely hidden cave in the mountain. The cave was covered with licorice and the air was very cold and dry. The three of them agreed that this was the best place for cultivation. They immediately decided to stay here and entered a cultivation state.

After entering the Lord Level, the path of cultivation would be even more difficult. Even if the elemental density on the tenth level of the Dragon Palace was much higher than that in the outside world, this help to Yun Feng became smaller and smaller. After entering the cultivation state, Yun Feng felt more and more clearly that the elemental density in the air of the Central Region was several times higher than that on the East Continent and the West Continent! In other words, the elemental density in the air of the Central Region was almost the same as that of the Dragon Palace!

Yun Feng was surprised at this. In other words, the speed of cultivation in the Central Region was several times faster than on the East Continent and the West Continent! No wonder there were many masters in the Central Region. No wonder the Lord Level was only at the bottom! Yun Feng cultivated by communicating and fusing her mental strength with the various elements in the air, so that she could reach a more unified level. The higher the concentration of elements in the air, the more powerful Yun Feng's mental strength was!

However, the Lord Level couldn't be crossed easily just based on this. After reaching such a level, she had to put in more effort for every step she took. Yun Feng knew this very well. Even if the elemental density in the air was very high, it was still too slow for her!

Time passed quickly. The three of them cultivated in the cave quietly. Qu Lanyi was surrounded by a faint light element, while You Yue was a warrior. A layer of fighting energy covered the surface of his body clearly, while Yun Feng was surrounded by elements of five colors, looking extraordinarily gorgeous!

If anyone saw Yun Feng, they would definitely be shocked. The five elements kept circling around Yun Feng harmoniously. The elements were close to each other, forming a five-color halo around her. The sky outside had already darkened, but the cave was full of colors.

Half a year had already passed silently. In this half year, the three of them were still in a state of cultivation where their usual physiological needs had become very small. It was enough for them to circulate their energy around their bodies. In this half year, the cave had been in a state of silence. The three of them sat with their eyes closed and the expressions on their faces seemed calm and natural, but there were changes happening quietly in the cave.

On the originally smooth walls of the cave, a kind of yellow color gradually seeped out after half a year. This yellow color was very light and very faint, but it was very bright. It was as if they saw sunlight when they saw it. This bright yellow color even emitted a faint light in the dark! Naturally, the three people, who had been closing their eyes, didn't notice this yellow color seeping out at all, but as time passed, the three of them also felt something.

Yun Feng was the first to notice. As time passed, Yun Feng felt more and more clearly that the elemental density in the air increased with time. Even though the increase was extremely small, the effect accumulated increased day by day. Yun Feng's own cultivation speed was also increasing constantly, making her feel unprecedentedly comfortable! After half a year, Yun Feng had already crossed the mid-stage of the Lord Level. Her cultivation speed could be said to be advancing by leaps and bounds!

Another late night. The black eyes that had been closed opened quietly and a glint of light flashed through them. The five colors around Yun Feng quietly faded. Yun Feng saw that Qu Lanyi and You Yue

were still cultivating on the side. Nobody disturbed them. Yun Feng stood up quietly and saw the changes in the cave with one look.

“What... are these?” Yun Feng looked at the changed cave wall in surprise. The yellow color that seeped out of it was especially obvious in the dark, emitting a faint yellow halo. The yellow color oozed out of various places on the wall. Yun Feng walked to the side of the wall curiously and touched it gently with her finger. A golden solution was scraped off by Yun Feng. The moment she touched it, Yun Feng clearly felt the powerful elemental energy contained in the golden solution!

“The elemental energy is so dense!” Yun Feng looked at the golden solution on her finger in shock. After a while, something even more shocking happened. The golden solution directly seeped into Yun Feng’s body through Yun Feng’s finger!

Yun Feng immediately felt that the powerful elemental energy in the golden solution instantly reached inside her body and the mental strength in her spiritual space swallowed all the elemental energy like a hungry beast!

Chapter 1003: Blood Ray (3)

Yun Feng immediately closed her eyes and sat on the ground. She sneaked into her spiritual space and saw the situation inside. After her surging mental strength swallowed this elemental energy like a tide, it emitted a faint yellow color. Then, this yellow color began to move on its own, as if it was stirring Yun Feng’s mental strength slowly. Yun Feng felt more and more clearly that her mental strength became purer under the stirring of the yellow solution!

Yun Feng didn’t do anything else. She observed quietly. The golden color gradually merged with the tide of her mental strength. Through stirring on its own, the golden color also became thinner and thinner, until it completely merged with the ocean of Yun Feng’s mental strength in the end. At the same time, Yun Feng felt that her strength suddenly rose by a level!

Before absorbing the golden solution, Yun Feng’s strength was at the mid-stage of the Lord Level. After absorbing the golden solution, just a little bit, Yun Feng’s strength took a huge step forward! Her strength had improved so much in such a short period of time!

Yun Feng opened her eyes and looked at the golden solution seeping out of the wall. Her heart couldn’t help but heat up and she didn’t try a second time. Yun Feng knew very well that she couldn’t be greedy for anything that could accelerate the speed of her strength advancement. If she took too much of it all at once, there might be bad consequences. Yun Feng searched in the dimension container and soon found a small bottle. She tried to collect all the golden solution into the small bottle. Yun Feng found that the total amount of golden solution on the wall was only a few millimeters high. This amount was too small.

After Yun Feng removed the golden solution and put it into the bottle, the elemental density in the air obviously weakened. Yun Feng looked at the golden solution in the bottle. So, the elemental density in the air was related to it? Looking at Qu Lanyi and You Yue, who were still cultivating with their eyes closed, Yun Feng opened the bottle again and put it on the ground. Instantly, the elemental density in the air changed again. Yun Feng chuckled and closed her eyes to continue cultivating. After the baptism

of the golden solution, the purer mental strength made Yun Feng's cultivation speed obviously increase. It was just a matter of time before she broke through the Lord Level!

Another year passed in the blink of an eye. A year and a half had passed. The cave was still quiet, but the momentum around the three of them changed obviously. Under the special effect of the golden solution, Yun Feng had already soared to the peak of the Lord Level in just a year and a half, and You Yue had already broken through to the Lord Level. In comparison, Qu Lanyi's situation became unbelievable. The light elements around his body flickered. There were even a few times when dark elements appeared and intertwined with the light elements, causing an intense collision. Qu Lanyi's closed face also showed a hint of pain from time to time.

After Yun Feng collected the golden solution last time, it quietly seeped in again. After a year, the golden color had already been covered with a faint layer and the elemental density in the cave had already reached a quite high level. The three of them continued to immerse themselves in cultivation, but an uninvited guest soon broke the peace.

A black shadow flashed to the entrance of the cave like the wind. Its slender body stretched to the ground and its greedy breathing was rough and unpleasant. When the eyes of the black shadow saw that there were other people in the cave, strong anger suddenly burst out!

"How dare you, human! How dare you steal my things!"

A furious roar swept over with a gust of wind. Yun Feng suddenly opened her black eyes and flipped her hand. Mental strength surged out of her body and directly blew away the wind completely! Seeing that the attack was resolved, the black shadow immediately roared furiously and pounced forward, running towards Yun Feng. Yun Feng's body immediately flashed to the side, avoiding the slender body of the black shadow. When the two of them brushed past each other, Yun Feng reached out her hand unexpectedly and grabbed the slender tail behind the black shadow fiercely. She pulled hard and a fierce force burst out of her transformed slender body. The black shadow was thrown away by a force! However, its body flipped agilely in the air and stuck to the wall just like that!

"Feng! What's wrong?" This sudden movement immediately woke You Yue up. When he opened his eyes, he saw Yun Feng trembling with a slender black shadow. The next second, this black shadow was thrown away by Yun Feng.

Yun Feng didn't answer You Yue's question. Instead, she looked at the animal lying on the wall like a gecko. It was daytime, but the cave was extremely hidden. There wasn't much light here. Yun Feng was also in a daze. "Sizzle..." The sound of licking flashed, accompanied by a huge friction. Yun Feng only saw the slender black shadow stick out its tongue and lick the wall greedily. Yun Feng's black eyes darkened. Was it talking about the golden solution?

After licking it, the black shadow arched its body slightly and then swooped down like lightning, as if it was flying. This time, its target wasn't Yun Feng, but Qu Lanyi, who was still closing his eyes after such a huge commotion!

Yun Feng cursed in her mind. Qu Lanyi must be at a critical moment. Otherwise, how would he not open his eyes after such a huge commotion? However, this black shadow was even faster than before. Yun

Feng couldn't reach out in time. At this moment, those closed eyes suddenly opened. They were bloody red and emitting blood light!

His eyes, which were as red as blood stones, opened in an instant. They were red! After seeing these blood eyes, the slender black shadow trembled and turned around in the air, trying to escape! The corners of Qu Lanyi's mouth curled up and a glint of fierceness flashed through the depths of his blood eyes!

"You want to leave after disturbing me?"

He quickly extended his fair hand, and a ball of thick black color that was as dark as the night jumped out of Qu Lanyi's hand. It swallowed the slender black shadow like the mouth of a beast! Yun Feng couldn't help but feel shocked when she saw this scene on the side, while You Yue turned pale. He... He was a dark-element mage!

"Ahhh! Let me go! I'll leave immediately! I apologize. I shouldn't have come here. You're a magnanimous person. Please forgive me!" The slender black shadow was wrapped in thick dark elements and screamed miserably. Qu Lanyi, on the other hand, smiled coldly. His blood-red eyes made him look extremely charming!

Chapter 1004: Level Up, Level Up, Level Up (1)

"You..." Looking at Qu Lanyi's appearance at this moment, You Yue didn't know what to say. He leaned towards Yun Feng and tried to shield her behind him. Feng's fiancé was a dark-element mage. Everyone knew that there were very few good people among dark-element mages. Anyone who was a dark-element mage wasn't a good person! Besides, his eyes turned red. You Yue intuitively thought that Qu Lanyi was too dangerous.

Yun Feng gently pushed You Yue away and shook her head at him silently. Then, he walked forward and wanted to grab Yun Feng anxiously, but Yun Feng dodged. Qu Lanyi looked up at Yun Feng, who was walking towards him, and couldn't help but put on a charming smile. He extended his hand at Yun Feng, asking her to hold it.

Yun Feng glanced at Qu Lanyi's face. She felt that he seemed to have changed a bit. Yun Feng was most familiar with him, who had the advantage of light elements. Even though he was also frivolous at that time, he always seemed gentle and warm. However, when the dark elements had the advantage, he exuded an invisible charm. A kind of evil surrounded him faintly, especially those blood-red eyes.

Yun Feng held Qu Lanyi's hand. Qu Lanyi chuckled and waved his hand. The thing wrapped in the dark elements was casually thrown aside. The slender black shadow was wrapped in the dark elements and wanted to escape after being thrown away, but the dark elements pressed it firmly. The slender figure struggled desperately in the dark elements, but it was useless in the end.

"You've made a breakthrough?" Through their hands, Yun Feng clearly felt an unfamiliar powerful force filling Qu Lanyi's body. Qu Lanyi smiled. "You know that my strength has always been unstable."

Yun Feng raised the corners of her mouth helplessly. That was indeed the case. Qu Lanyi's true strength would only be shown when the dark elements had the upper hand. Right now, his strength must have

broken through the Lord Level. Thinking of this, Yun Feng couldn't help but smile. He had walked ahead of her.

"What's the level above the Lord Level?" Yun Feng asked. Qu Lanyi pursed his lips and smiled, but didn't answer. Instead, he slowly closed his eyes. His aura instantly changed. The power that was overflowing just then gradually shrank. When he opened his eyes again, those blood-red eyes were already gone.

"It's meaningless for me to tell you the level above the Lord Level. Isn't it better to experience it yourself?" Qu Lanyi smiled casually. Yun Feng thought for a moment that it was indeed the case. She wasn't far from this level. She had to experience everything herself to know what it was like.

Seeing Qu Lanyi's obvious change, You Yue was greatly puzzled in his mind. What was wrong with that man? His strength was extremely unstable. He was still so strong just then, but he was much weaker now... The moment the thing that was thrown on the ground turned black, the dark elements around Qu Lanyi were eliminated at the same time. It was still struggling desperately and couldn't react for a moment, but then it immediately stood up and rushed towards the entrance of the cave without caring about its life!

"Did I allow you to leave?" Qu Lanyi said casually without even looking up. The black shadow that had already reached the entrance of the cave immediately froze and didn't dare to move a step!

Sunlight shone in from outside the cave at this moment, shining on the black shadow and allowing Yun Feng to see what it was clearly. It had a slender body and the appearance of a gecko, but its body was colorful and very gorgeous. There was also a slender tail behind it. At this moment, it was patting the ground at a high frequency, looking extremely anxious in its mind.

"You said we touched something that belongs to you just then. Is this it?" Yun Feng walked over and shook the bottle on the ground in front of it. This thing's eyes suddenly widened like a pair of lightbulbs and it looked at Yun Feng with an extremely fierce gaze.

Seeing that its expression changed so much, Yun Feng asked, "What's this golden solution?"

The thing that looked like a gecko glared at Yun Feng fiercely and didn't say anything. Seeing that, Yun Feng sneered and raised her foot, stepping on it fiercely. Her target was that slender tail!

"Ahhh!" The thing whose tail was stepped on shouted fiercely. It immediately turned around and was about to bite Yun Feng, but when it glanced at Qu Lanyi on the side, it was completely stiffened again. It could only endure the pain of its tail being stepped on and didn't say anything.

Seeing that it wasn't talking, Yun Feng exerted her strength again. The thing's entire body twitched a few times after being stepped on. In the end, it couldn't help but say, "I... I'll talk, I'll talk! This is the Golden Cauldron Fluid!"

"Golden Cauldron Fluid?" Yun Feng was quite unfamiliar with this name, and so were Qu Lanyi and You Yue. While the three of them were confused, the thing immediately turned around and bit its slender tail off fiercely. Its body turned into a black shadow and quickly darted out of the cave, disappearing.

"You're quite fast at escaping." Yun Feng let go of her foot. The long tail that had been bitten off still twitched a few times and finally collapsed on the ground. The three of them looked at the wall that was

covered in the golden solution. “When I was practicing, I clearly felt that my speed became faster towards the end.” You Yue mumbled. “It seems that it’s related to the Golden Cauldron Fluid.”

Yun Feng flipped her hand and took out the notebook left by her master. This notebook was a precious treasure. Yun Feng flipped through it. Even if she had time in the past, she had only read a small part of it. The things her master recorded here were too vast and complicated, and there were many types. There were many things that Yun Feng didn’t finish reading. She flipped through them and searched carefully. Qu Lanyi and You Yue didn’t disturb Yun Feng. They were still studying the so-called Golden Cauldron Fluid.

“Golden Cauldron Fluid, Golden Cauldron Fluid...” Yun Feng searched for the Golden Cauldron Fluid as she flipped through the pages. Even though her master was knowledgeable, there was still too little information about the Central Continent after all. It was still unknown if the Golden Cauldron Fluid would appear here.

“Golden Cauldron Fluid... Found it!” Yun Feng’s black eyes glittered. In the description of the herbs in the notes, her master had a special column, and the name of the Golden Cauldron Fluid happened to be in this special column! Yun Feng immediately read it carefully. The Golden Cauldron Fluid was the juice produced by the Golden Cauldron Tree. It had the effect of accelerating the cultivation speed. If it was added to the potion, the effect of the potion would be increased several times. However, the Golden Cauldron Fluid wouldn’t be produced voluntarily. It could only be produced under special conditions.

Chapter 1005: Level Up, Level Up, Level Up (2)

There were only a few sentences about the Golden Cauldron Fluid, but they explained the main point. Yun Feng gained some knowledge about the Golden Cauldron Fluid. She put away her master’s notes. Qu Lanyi turned around and smiled. “Have you come to a conclusion?”

Yun Feng nodded. “The Golden Cauldron Fluid is the juice produced by the Golden Cauldron Tree. I think the cave we’re in happens to be near a Golden Cauldron Tree. The greatest effect of the Golden Cauldron Fluid is to increase your cultivation speed. You must’ve felt it.”

“This thing is probably something many powerhouses dream of.” You Yue sighed. He was deeply touched. If one cultivated in an environment with the Golden Cauldron Fluid, their cultivation speed would increase so much. If they directly absorbed the Golden Cauldron Fluid, what kind of speed would that be? Would they jump a few levels all of a sudden?

“This thing is also something many pharmacists dream of,” said Yun Feng with a smile. Qu Lanyi’s black eyes glittered. “The Golden Cauldron Fluid is also effective on potions?”

Yun Feng walked around the stone wall and looked at the faint layer of golden color. “If the Golden Cauldron Fluid is added to the potion, it’ll increase the effect of the potion by a few times. You can imagine how crazy the pharmacists will be. However, this thing shouldn’t be common. The Golden Cauldron Tree won’t produce this liquid itself. It must be catalyzed under certain conditions. Even if someone finds the Golden Cauldron Tree, it’ll be useless if they don’t know the method.”

“Since the Golden Cauldron Fluid appeared here, does it mean that we unconsciously fulfilled this specific catalytic condition?”

Yun Feng shook her head and didn't agree with You Yue's conclusion. “That's not necessarily true. Whether this specific catalytic effect has anything to do with us remains to be verified.”

“However, in any case, the Golden Cauldron Fluid appeared after we came. This cave was very cold before and there were no traces of the Golden Cauldron Fluid on the walls. That thing probably knew that the Golden Cauldron Tree was nearby. It also dug this cave. The place he chose was quite hidden, so that nobody would find it. Unfortunately, even if it dug this cave, it probably didn't find anything.” Qu Lanyi couldn't help but laugh mockingly. “That thing said that it belongs to it. I should've killed it.”

You Yue was shocked by the coldness in Qu Lanyi's words and couldn't help but look at him again. Qu Lanyi didn't care about You Yue's gaze. He looked at the layer of faint golden color on the wall. “Since the Golden Cauldron Fluid only appeared here after we arrived, it's a gift from the heavens. We want to know if the activation condition is related to us. It seems that we have to take it for ourselves.”

Yun Feng smiled helplessly. That was indeed her intention. If the Golden Cauldron Tree was nearby and the activation condition was related to them, Yun Feng certainly wouldn't let go of this gift. If the activation condition had nothing to do with them, Yun Feng wouldn't think about anything else. Those who were capable could get it. Besides, the Golden Cauldron Tree was a creation of heaven and earth and didn't belong to anyone. It was understandable for Yun Feng to get it.

The three of them immediately collected the layer of shallow solution on the wall of the cave. There was only a small part of it in total. Yun Feng looked at the golden solution flowing in the bottle and couldn't help but exclaim, “There's very little Golden Cauldron Fluid produced. It's truly a rare thing.”

In order to find out if the activation condition was related to them, Yun Feng put away the small bottle. There was already nothing on the wall of the cave. The three of them sat in the cave quietly and didn't do anything. After staying for a few days, the wall of the cave was still empty and the Golden Cauldron Fluid didn't show any signs of oozing out.

“It seems that the Golden Cauldron Tree has nothing to do with us,” said You Yue. Yun Feng and Qu Lanyi, on the other hand, smiled. They didn't think so in their minds. They wouldn't know if it had anything to do with them until they made a move.

“Brother, let's enter cultivation mode.” Yun Feng smiled at You Yue casually. You Yue also nodded and closed his eyes, entering cultivation mode again. Qu Lanyi and Yun Feng, on the other hand, waited and observed quietly. A day had passed, but there was still no reaction on the stone wall. Then, Qu Lanyi entered cultivation mode. After a day, there was still no reaction on the stone wall.

Two days later, You Yue and Qu Lanyi opened their eyes. Qu Lanyi looked at Yun Feng. “It seems that the key is you, Fengfeng.”

Yun Feng pondered for a few seconds and finally closed her eyes. After entering the cultivation state, five colors gradually oozed out of Yun Feng's body and kept circling around her, forming an unusually bright halo. You Yue couldn't help but feel a bit dumbfounded. Five colors. This sister he acknowledged was indeed extraordinary!

At the same time, the stone wall that had been silent also changed quietly at this moment! A day later, a faint golden color seeped out of the stone wall that originally had nothing, and the Golden Cauldron Fluid appeared again!

Seeing the Golden Cauldron Fluid that seeped out of the back of the stone wall, Qu Lanyi couldn't help but smile. "As expected, it's natural for Fengfeng to get this item."

You Yue widened his eyes and looked at the stone walls around curiously. As Yun Feng cultivated for more time, the light golden solution seemed to seep out endlessly. The elemental density in the entire stone wall changed drastically, as if the Golden Cauldron Fluid was reflecting with Yun Feng's five-color halo!

Yun Feng opened her black eyes. She clearly felt the change in the concentration of elements in the air around her and knew that the Golden Cauldron Fluid had appeared again. Right now, she was 100% certain that the catalytic conditions of the Golden Cauldron Tree were related to her!

"The specific catalytic condition of the Golden Cauldron Tree seems to be based on many elements." Qu Lanyi touched his chin and said, "Fengfeng, you have five elements. The Golden Cauldron Tree must've been greatly nourished, or the Golden Cauldron Fluid wouldn't have seeped out so much."

Yun Feng stood up and looked at the bright Golden Cauldron Fluid on the wall. The corners of her mouth curled up. "Since the activation condition is related to me, I must get this Golden Cauldron Tree!"

You Yue touched the stone wall of the cave and frowned slightly. "This looks like a complete mountain from the outside. I don't see any plants that look like trees."

Qu Lanyi wiped his chin with his finger. "It seems that there's another world behind this stone wall. If the Golden Cauldron Tree grows near this stone wall, there must be a hollow area. If you want to find the Golden Cauldron Tree, you have to break this stone wall. It's an extremely skillful job to break the stone wall."

Chapter 1006: Level Up, Level Up, Level Up (3)

Yun Feng was about to use the fusion of elements to break the stone wall, or try using her pure physical strength, but after Qu Lanyi's reminder, Yun Feng immediately gave up the idea. It wasn't difficult to break the stone wall, but the problem was that she didn't know the exact location of the Golden Cauldron Tree. If she couldn't control the power well and destroyed the Golden Cauldron Tree, it would be a waste of effort.

"Then what should we do? Do we have to dig a passage with our bare hands?" You Yue said, while an idea flashed through Yun Feng's mind! A passage! That's right. As long as a safe passage was dug on this stone wall, a small area wouldn't affect anything at all.

"It's indeed very difficult. If there's something that can open a channel to the minimum, it'll be great," said Qu Lanyi in a low voice. Yun Feng immediately closed her eyes and searched in the storage container. Finally, she found the little thing she almost forgot in a corner.

Yun Feng flipped her wrist and opened her black eyes. She was holding a smooth little beast that was emitting a little luster in her hand. This was the Ultimate Crystal Beast Yun Feng caught in the Yun Palace! The Ultimate Crystal Beast was taken out by Yun Feng, looking very confused. It rubbed its half-closed eyes with its two short front limbs and opened its mouth wide to yawn very loudly. After this yawn, the Ultimate Crystal Beast suddenly sneezed. At the same time, an ultimate ore spurted out of its mouth and fell on the ground.

You Yue was completely shocked when he saw this scene! What was that? The thing it spat out was an ultimate ore, right? Was the ultimate ore in its stomach?! Qu Lanyi bent down and picked up the ultimate ore. He examined it carefully and couldn't help but praise, "A high-quality ultimate ore. This little thing isn't bad."

The Ultimate Crystal Beast yawned lazily again. It raised its little head and glanced at Yun Feng in a daze, not knowing what she wanted it to do. Seeing how confused it was, Yun Feng couldn't help but bend her finger and flick its smooth forehead fiercely! The Ultimate Crystal Beast immediately shivered and looked at Yun Feng with dissatisfaction in its big watery eyes.

Seeing that it had already woken up, Yun Feng pointed at the wall above the cave. "Open a passage for me and I'll let you go back to sleep."

The Ultimate Crystal Beast let out a tiny whimper in dissatisfaction and its smooth little body twisted a few times. Yun Feng looked at its unwilling look in amusement and immediately pulled a long face. "It's fine if you don't help. I don't mind feeding you to Meatball."

Speaking of Meatball, the Ultimate Crystal Beast suddenly shivered and nodded crazily, as if it was thinking of Meatball's unusually sharp teeth and its habit of eating ultimate ores. It wasn't that Meatball wasn't interested in the Ultimate Crystal Beast. In fact, it was quite interested. If Yun Feng weren't here, Meatball would probably have swallowed it already.

Seeing that the Ultimate Crystal Beast was so scared, Yun Feng couldn't help but feel amused. It was so scared when Meatball was mentioned. It seemed that it had met its nemesis. Yun Feng loosened her hand and the Ultimate Crystal Beast's body flew to the stone wall. It sniffed it a few times with its little nose and aimed at a spot with its little claws, slapping it hard.

At first, You Yue was still worried if this Ultimate Crystal Beast would work. After all, the thickness and hardness of the stone wall were quite impressive and it was digging in the middle of the mountain. This little beast didn't seem to have any attacking power at all and its body was so small. Could it really work with it?

However, You Yue's doubts were soon dispelled. The stone wall was like a piece of sand and mud in front of the Ultimate Crystal Beast. The Ultimate Crystal Beast dug it with its little claws and easily opened a passage. It was extremely fast and didn't use any strength at all. The Ultimate Crystal Beast worked very hard, as if it was showing Yun Feng how loyal it was. It even turned its little head to look at Yun Feng from time to time, fearing that she would send it into Meatball's mouth.

The Ultimate Crystal Beast dug very quickly. A passage had already appeared on the stone wall and kept extending inside. The entrance of the passage was also big enough. It wouldn't be a problem for the three of them to crawl in. Qu Lanyi looked at the passage that was quickly formed and couldn't help but

smile. "I didn't expect this little thing to be useful at this moment. I thought it only knew how to spit ores."

Yun Feng chuckled. "I fought with it in the Yun Palace back then. The armor made of ultimate ores was quite hard. Ultimate ores are like steamed buns in front of this little thing, let alone such a stone wall."

Qu Lanyi suddenly thought of Meatball. It had extremely sharp teeth that could chew ultimate ores easily. "It'll probably be easier if Meatball is here. It'll be a pity if we don't use those sharp teeth."

Yun Feng curled her lips. Meatball was still sleeping soundly. She couldn't bear to wake it up. The Ultimate Crystal Beast hadn't been used since she put it in the bracelet last time. Apart from producing ultimate ores every day, it was time for this little thing to come out and move around. It didn't make sense to not use good things.

You Yue looked at it in surprise, while Qu Lanyi and Yun Feng were talking in a low voice. After a while, the passage had already extended very deep. The Ultimate Crystal Beast couldn't be seen anymore. Qu Lanyi couldn't help but ask, "Aren't you afraid that this little thing will run away?"

Yun Feng chuckled. "It knows better than anyone that staying with me is the safest."

Qu Lanyi raised his beautiful brows. "Yes, indeed. It is the safest to stay with Fengfeng."

Yun Feng's cheeks were a bit hot because of this teasing remark. At this moment, a vague cry came from afar. Then, a slightly chaotic sound came from the passage. The Ultimate Crystal Beast suddenly flew out of the passage and went straight into Yun Feng's arms. Yun Feng caught it steadily and held its smooth little body.

The Ultimate Crystal Beast raised its little head and looked at Yun Feng with its big watery eyes, as if it was asking for credit. It looked at the passage behind it with its little head, trying to tell Yun Feng that it had already dug the passage. Yun Feng smiled in satisfaction and touched its smooth little head with her hand. "Not bad."

The Ultimate Crystal Ore Beast's big eyes glittered a few times and it looked at Yun Feng pitifully. Yun Feng chuckled. "Don't worry. You won't be eaten." The Ultimate Crystal Ore Beast was suddenly relieved. Yun Feng sent it into the bracelet space again. She looked at the passage it had dug with her black eyes and her heart was burning.

Chapter 1007: Level Up, Level Up, Level Up (4)

"Let's go," whispered Yun Feng. She entered the passage first, followed by Qu Lanyi. You Yue was still in shock, but seeing that the two of them had already entered, she followed them closely. Yun Feng lowered her body and walked in the passage. It wasn't easy for the Ultimate Crystal Beast to expand the passage like this. After all, it was so small. The passage kept extending backwards and it was dark in the passage. At this moment, Qu Lanyi's light elements served as the light source. The three of them walked carefully and finally came to the end of the passage.

On the other side of the passage was a rather vast area. After Yun Feng came out of the passage, she was attracted by some strange sights. This was a cave that looked like a place of stalactites. There were

stones of all sizes protruding in the cave. These protruding stones were more like small pedestal. An extremely short tree grew on each pedestal. The length of the tree was only as long as a human arm and front limbs. It could be said to be mini. Looking around the cave, there were more than twenty such mini trees. They were all rooted firmly on the protruding stones and the roots were fused into the stones.

“This is the so-called Golden Cauldron Tree?” You Yue looked at the twenty or so short trees in front of him and couldn’t help but feel dumbfounded. These were the Golden Cauldron Trees? They were too small. They were completely different from what he imagined! Qu Lanyi and Yun Feng were also a bit surprised. If the Golden Cauldron Tree really looked like this, it would indeed make people’s jaws drop. It was too short. Was the Golden Cauldron Fluid really secreted by such a tree?

“We’ll know if it’s true or not after we try.” Yun Feng whispered and immediately closed her eyes to enter the cultivation state. Five elements gradually oozed out of Yun Feng’s body, forming a layer of five-color halo around Yun Feng. At this moment, the twenty or so trees in the cave suddenly emitted a faint luster. The bark of the trees instantly became transparent. Qu Lanyi and You Yue both widened their eyes and saw clearly that the bright golden solution was flowing under the transparent bark! All the twenty trees were the same!

“Magical, truly too magical...” You Yue looked at the twenty or so glowing trees in front of him. They were originally ordinary just then, but they seemed to have transformed at this moment. They echoed with the five-color light source around Yun Feng’s body and the golden solution kept flowing slowly, flowing down through a few slender tree roots!

Yun Feng opened her black eyes. The moment the five-color halo disappeared around her, the twenty or so Golden Cauldron Trees also lost their luster in an instant and returned to their normal appearance. Qu Lanyi chuckled. “It’s as if they were made for you.”

Yun Feng’s red lips curled up. Her five elements had become a special condition for activating the Golden Cauldron Fluid when she was cultivating. This was indeed made for her. How many five-element talents could there be in the world? The Golden Cauldron Tree and Yun Feng’s cultivation could be said to complement each other.

“It’s better for us to cultivate here. I guess our cultivation speed will be several times faster than before.” Qu Lanyi looked around at the twenty or so trees around. Yun Feng nodded. She had the same thought. She walked to a Golden Cauldron Tree and observed it carefully for a long time. The Golden Cauldron Fluid should be flowing out of the roots and seeping into the stone wall on the lower level. These roots had already grown inside the stone. If she wanted to take the Golden Cauldron Trees away, she would have to dig out the stone together.

This was also an extremely skillful job. The Ultimate Crystal Beast that Yun Feng put into her space bracelet just then was taken out again. This time, it didn’t look confused. It looked at Yun Feng with its big eyes. Yun Feng pointed at the short trees around and gently tapped the little head of the Ultimate Crystal Beast with her finger. The Ultimate Crystal Beast immediately nodded and jumped with its smooth little body, starting its digging.

After a while, the Ultimate Crystal Beast dug out ten Golden Cauldron Trees with stones and roots. The roots of the Golden Cauldron Trees that were dug out intertwined with the stones that grew and clung

to them. These roots even grew into the stones. The complicated and slender roots showed a faint golden color, like fur, tiny and abundant.

Yun Feng casually took out some bottles and put the stones of the roots of the ten Golden Cauldron Trees at the mouth of the bottle. The stones were stuck at the mouth of the bottle and the Golden Cauldron Tree stood steadily above the bottle, while the fluffy roots under the stones spread out in the bottle.

Qu Lanyi couldn't help but smile when he saw what Yun Feng did. "You're quite thoughtful. If it were me, I would take the entire trees away."

Yun Feng smiled. "What I need is just the Golden Cauldron Fluid. I have to put the Golden Cauldron Trees back to their original place. After all, every thing has its purpose. They grow here. Just let them stay here."

You Yue only felt quite shocked in his mind as he listened on the side. People in the world were all greedy. If it were someone else, perhaps they wouldn't be as broad-minded as Yun Feng. She only wanted what she wanted and didn't want anything else.

There were a total of twenty-two Golden Cauldron Trees in this cave. Yun Feng dug out ten of them, while the remaining twelve were still there. The three of them started cultivating again. Under the stimulation of Yun Feng's five elements, the twenty-two Golden Cauldron Trees emitted a faint golden light. The golden solution in the bark flowed out along thousands of slender roots. The fluid of the ten Golden Cauldron Trees Yun Feng dug out all flowed into the bottle Yun Feng prepared.

Time passed slowly. It would take a long time to collect the Golden Cauldron Fluid, and Yun Feng happened to be moving towards the Lord Level and above during this period of time. The cultivation speed of her mental strength after fusing with the Golden Cauldron Fluid increased rapidly and she cultivated in this environment full of Golden Cauldron Trees. Yun Feng's results could be said to have increased by more than a thousand miles a day.

In the blink of an eye, another half a year had passed. The Golden Cauldron Fluid was still flowing. The twenty or so Golden Cauldron Trees in the cave was still shining. And under Yun Feng's extraordinary cultivation speed, she had also reached the edge of the peak of the Lord Level that she still yearned for!

It had already been two years since she entered the Central Continent. She had reached the peak of the Lord Level in two years. This speed shocked those powerhouses! Yun Feng felt the peak of the Lord Level and her heart was surging. She knew that she had already touched the threshold. She was only one step away from the peak of the Lord Level!

Chapter 1008: Level Up, Level Up, Level Up (5)

The three contracted Magic Beasts in their contract rings also felt Yun Feng's change. They couldn't help but feel delighted! "Master has reached the peak of the Lord Level in such a short time. This speed... is truly monstrous." Little Fire couldn't help but click its tongue. Even if he had the potential of a mutated Magic Beast, it was really nothing compared to its master.

“Brother Fire, Master has always been like this. You should be mentally prepared.” Lan Yi chuckled. The three contracted Magic Beasts could communicate with each other very conveniently. Yaoyao’s cheerful voice came. “Xiao Feng is the best!”

“Of course. Master must be the most awesome!” Little Fire burst into laughter with indescribable joy in its words. As a contracted Magic Beast, it felt deeply proud from the bottom of its heart to have such a master!

At this moment, an extremely mysterious feeling instantly descended. The three contracted Magic Beasts immediately understood that Yun Feng was already breaking through the threshold! The breakthrough to the Lord Level might be at this moment! “Brother Fire, Yaoyao! Let’s focus and stay with Master!”

Yun Feng, who was focused on cultivating, was completely immersed in an extremely mysterious situation at this moment. She felt like she had become a floating worm in the world, completely integrated into this world. Even though she closed her eyes, she could still feel the vastness of the world, as if she had crossed thousands of miles with the flow of air and could see everything in the world.

What was the sky and what was the earth? Yun Feng asked herself. The answer gradually appeared in her mind. At this moment, Yun Feng was like a chrysalis that was ready to move. She wanted to break free from this thick shell. The five-color halo around her instantly emitted light and revolved quickly around Yun Feng’s body!

At this moment, the spiritual space in Yun Feng’s body was undergoing a huge change! Her mental strength was emitting five different bright colors and they were only intertwined in Yun Feng’s spiritual space. As the five-color halo outside spun faster, the spiritual space also maintained the same spinning shape. The five colors mixed extremely harmoniously and stirred slowly in her spiritual space. As they kept stirring, even purer mental strength was quietly born inside!

The five colors gradually fused together, and the purer mental strength broke through the soil of the five colors quietly like a sprout. One, two, three... As it spun, the sprout of the soil kept breaking through at an immeasurable speed!

Yun Feng, on the other hand, continued to immerse herself in her understanding of the world. There was a door in front of her and this door was the end of the road in front of her. Yun Feng knew that as long as she could push this door open, there would definitely be another world behind it!

“This path hasn’t reached the end...” Yun Feng looked at the door in front of her and mumbled. Then, she pressed her hand against the door firmly and took a deep breath fiercely. She exerted strength in her hand. She wanted to push open the door. She wanted to see the world behind the door!

The five-color halo around Yun Feng suddenly spun. It was fast at the early stage! The Golden Cauldron Trees in the cave also felt Yun Feng’s elemental fluctuation and secreted the Golden Cauldron Fluid even faster. The two of them circulated constantly, causing the elements in the cave to be surprisingly dense. At this moment, the five-color mental strength in Yun Feng’s spiritual space was spinning crazily. Young shoots appeared crazily on this soil and finally occupied this spiritual space in an instant!

“Crack!” As if a shell was broken, Yun Feng only felt that the door in her hand made a sound. Under her strong force, the door gradually gave up resisting. “Crack! Crack!” Another sound came. When the door

was pushed open, Yun Feng also felt that the layer of restraint around her body was gradually disappearing. Yun Feng put on a smile with her red lips and exerted strength with her hand!

“Crash...” The door was completely pushed open and the cocoon was completely opened at the same time. A pair of charming wings extended proudly from the cocoon, glittering with five dazzling colors!

The moment Yun Feng’s mental strength finally broke through the barrier, it surged out of her body like surging waves. Qu Lanyi and You Yue opened their eyes. Both of them were woken up by the huge commotion. The mental strength that Yun Feng surged out crazily then returned to Yun Feng’s body again. Qu Lanyi’s eyes were full of joy. It seemed that Fengfeng had successfully broken through.

The girl’s eyelashes moved slightly. Then, she slowly opened her black eyes. The five-color halo slowly disappeared and turned into a beam of light that flashed through the girl’s eyes. At this moment, Yun Feng finally understood that the world was much larger than she imagined. There were too many places in the vast world that she hadn’t reached. A wider horizon made her yearn for it. The world above the Lord Level was indeed wider!

“Feng, you’ve broken through?” You Yue looked at Yun Feng excitedly. Yun Feng nodded. “Yes, Second Brother. I’ve broken through to the Lord Level.”

Qu Lanyi chuckled and looked at Yun Feng attentively. “Fengfeng, how strong are you right now?”

After breaking through the Lord Level, the division of strength above the Lord Level naturally entered Yun Feng’s mind. Above the Lord Level was the King Level, above the Lord Level was the Emperor Level, and above the Lord Level was the God Level. After crossing the Lord Level, the strength would be purer and the division of strength would be more precise. The Lord Level was like a watershed. The difference between the Lord Level and above wasn’t as simple as the level. The vagueness and precision of the strength were also huge differences.

The strength levels below the Lord Level were determined by the beginner, intermediate, advanced and peak levels. However, the four levels above the Lord Level were all divided more precisely. Grade 1 to Grade 9, this also allowed the powerhouses who had reached this level to know their positions more clearly.

Yun Feng adjusted the aura around her and smiled with her black eyes. “Grade 2 of the King Level.”

Qu Lanyi’s black eyes glittered. “Grade 2 of the King Level. If other people know about your speed, they’ll be so jealous that they’ll vomit blood. You’ve just broken through the Lord Level and you’ve already reached Grade 2 of the Lord Level.”

You Yue didn’t really understand, but he knew that the King Level must be above the Lord Level. “Feng, congratulations!”

Yun Feng smiled gently. She wasn’t satisfied with a Grade-2 King yet. There were probably a lot of people in the Central Region who were at Grade 2 of the King Level. If she stepped into the Central Region with such strength, the road wouldn’t be so easy. Qu Lanyi seemed to have seen through Yun Feng’s thoughts. “Fengfeng, it seems that you’re not very satisfied.”

Chapter 1009: Level Up, Level Up, Level Up (6)

You Yue was stunned. She wasn't even satisfied with the Lord Level! His sister was truly stubborn!

Yun Feng looked up and gazed outside through the layers of stone walls. After a long time, she smiled lightly. "Of course I'm not satisfied. When I get out of here, I'll reach Grade 5 of the King Level!"

The target Yun Feng set for herself was to reach Grade 5 of the King Level. Even if this level couldn't do whatever it wanted in the Central Region, it didn't have to listen to most people. The Lord Level was the lowest level in the Central Region and the King Level was a level higher than it. A Grade-5 Lord Level was equivalent to a watershed in the Lord Level. There was a different level between those above Grade 5 and those below Grade 5. A Grade-5 King was a genius among geniuses, considering Yun Feng's age.

Yun Feng didn't set her status very high because of this. She had always been certain that there was always someone better than her. Once a person set his position too high, his vision would definitely become narrower. In the end, he would be confined in a small circle and couldn't move forward. Until one day, when someone kept surpassing him behind him, he would understand that he had already fallen from this high position fiercely.

No matter when, even though Yun Feng's current talent couldn't be described as just astonishing, she still maintained a humble attitude. Even though her head was raised, she never raised it high. Even though her speed was faster than others, her every step was more steady than others. Yun Feng knew very well that what she had to do along the way was persistence.

The Grade-5 King was just a temporary goal she gave herself. Yun Feng didn't know if the headquarters of the Yun family was in the Central Region. If it wasn't in the Central Region, it would be in the Inner Area. If her strength stopped just like that, she wouldn't be able to report to the headquarters of the Yun family. The King Level, the Emperor Level, the God Level... Yun Feng saw her way very clearly. She had to keep moving forward and would never stop!

Qu Lanyi had always been the person who understood Yun Feng the best. He certainly knew what the goal in her mind was, so he certainly supported Yun Feng's decision completely. You Yue only smiled. This cultivation place was truly rare at the moment. It was good to continue cultivating here for a while. It wouldn't be too late to go back to the You family after his strength increased a bit. Perhaps he could help.

The three of them continued cultivating in the cave. Under the stimulation of Yun Feng's five elements, the Golden Cauldron Fluid flowed out of the Golden Cauldron Tree slowly but endlessly. Even though there wasn't a lot of the Golden Cauldron Fluid produced by the ten Golden Cauldron Trees Yun Feng plucked, it was still very effective together.

Practicing in peace was something the three of them had been doing at the moment. Such unique conditions certainly couldn't be easily created. They couldn't cultivate here forever, so the three of them took this opportunity to focus and work hard to improve their cultivation speed to reach a higher level.

Another year passed in the blink of an eye. In this year, the strength of the three of them had mostly increased in this cave. You Yue's strength had already reached the final stage of the Lord Level. If it weren't for the Golden Cauldron Tree, he would probably have needed more than ten years to reach the final stage! Qu Lanyi's situation was unknown. His strength had never been measured accurately on him.

He was the only one who knew the level he had reached the best, and Yun Feng was moving towards the fifth level of the King Level!

The cave was purely quiet every day. There was only the long and even breathing of the three of them. The five-color halo around Yun Feng changed slightly again today. Every time she reached the next level of the King Level, the color of the halo around Yun Feng would become deeper. At this moment, the color of the halo was much deeper than before, which meant that Yun Feng was about to step on a new level of the King Level!

“There’s a cave here!” A rather young voice suddenly sounded from outside, echoing clearly in the cave. Qu Lanyi and You Yue, who were cultivating in peace, opened their eyes at the same time and looked at Yun Feng at the same time. At this moment, Yun Feng was still immersed in cultivation. The five-color halo surrounded her constantly and the color was gradually deepening. Qu Lanyi whispered, “It seems that Fengfeng isn’t far from becoming a Grade-5 King.”

You Yue couldn’t help but feel shocked in his mind after hearing that and a sense of pride also rose faintly. Soon, some complicated footsteps came from the cave. It seemed that someone had entered the cave where Yun Feng and the others used to stay. You Yue couldn’t help but frown. “What if the entrance of the cave is discovered?”

Qu Lanyi stood up and walked to the edge of the cave. He chuckled. “I’ve already sealed it. These few people aren’t qualified to open it.”

You Yue couldn’t help but look at Qu Lanyi deeply. This man was so meticulous. The cave was sealed in advance. If it were him, he wouldn’t have considered the possibility that someone would discover this cave at all.

In the cave where Yun Feng and the others had been, a few young men walked in one after another. There were a total of four people, two men and two women. The two women who found the cave earlier looked like they were in their twenties. Among the two young men who came into the cave later, one of them was seriously injured. Half of his clothes had already been stained with blood and his face was very pale. The other young man carefully helped him in, looking like he was drenched in sweat.

“Junior Brother Luo Xing, carry Senior Brother Kui to the hay quickly!” A woman shouted anxiously. The other woman quickly went up to help, while the woman who spoke spread the hay again in a hurry. The young man, who was covered in blood, finally lay on the hay. The other three couldn’t help but heave a sigh of relief.

“That bastard ambushed us!” said the younger girl, gnashing her teeth. “If Senior Brother Kui didn’t notice it in time, we would’ve been eaten by that bastard!”

“We were useless. Otherwise, Senior Brother Kui wouldn’t be like this...” The younger and older woman said. Her voice sounded quite steady. She looked at the pale young man on the ground with a painful look and was indescribably anxious in her mind.

“Senior Sister Hua Ling, what should we do now? Senior Brother Kui looks like this. Will he...” The young man called Luo Xing couldn’t help but shut up. The youngest girl immediately shouted, “Luo Xing, can you shut your mouth? Don’t say that! How can anything happen to Senior Brother Kui?”

Chapter 1010: You're Unjust and I'm Unjust (1)

"Alright, Yu Xia! Stop arguing. The first thing we should think about right now is how to keep Senior Brother Kui safe!"

"Humph!" The woman called Yu Xia turned her head around, while Luo Xing raised the corners of his mouth awkwardly and looked at the young man on the ground solemnly. "Senior Sister Hua Ling, will it be effective to use potions?"

Hua Ling shook her head helplessly. "We didn't bring many potions with us this time. Besides, the level of the potions isn't effective on the current Senior Brother Kui at all... We must have a higher level of Life Potion."

"A higher-level Life Potion..." Luo Xing mumbled. Yu Xia was already impatient. "Where can we find a potion maker in this place? Besides, it's such a high-level potion!"

Hua Ling and Luo Xing were also moved after hearing that. Right, where could they find a pharmacist in such a place? Where could they get the Life Potion? The two of them glanced at the young man, who was covered in blood. "What should we do? If something really happens to Senior Brother Kui, how can we explain when we go back?"

Hua Ling frowned with pain in her eyes. "What should we do... What should we do now..."

Their conversation spread to the inside of the cave without missing anything. You Yue and Qu Lanyi both listened quietly. You Yue couldn't help but turn around and look at Qu Lanyi. "You're a light-element mage. Aren't you going to help them?"

Qu Lanyi, on the other hand, raised his brows and glanced at You Yue mockingly. Then, he sneered. "What do you think I am? A philanthropist? What do their lives have to do with me?"

"You..." You Yue was stunned. He really couldn't imagine that a light-element mage would have such a personality. It was clearly a piece of cake, but he wasn't willing to do it? Was he going to let someone die in front of him?

"I don't care about anyone except Fengfeng." Qu Lanyi's thin lips curled up and he gave You Yue an unusually cold smile. The coldness in his eyes directly reached the bottom of You Yue's heart. You Yue knew that this man was telling the truth. He indeed didn't care about anyone except Feng.

You Yue's lips moved, but he didn't say anything else in the end. He couldn't help these people at all with his own ability. Besides, if he appeared, this place would be exposed. He didn't know if he would cause trouble for Feng, but he knew that it was useless even if he went out. The only light-element mage here who could save people was unwilling to do anything. There was nothing he could do.

In the cave outside, the young man who fell on the ground seemed to be in an even worse situation. The other three people were even more anxious. "Senior Brother Kui, please be fine..." Luo Xing was so anxious that his forehead was covered in sweat, dripping drop by drop. Hua Ling, on the other hand, frowned hard and didn't know what to do. At this moment, Yu Xia, who was extremely frustrated, raised her head and looked around, which surprised her.

“Look! What’s that golden thing on the wall?” Yu Xia stood up and ran to the stone wall, staring at the layer of faint golden color on the wall. Her subconscious told her that it was a rare thing. If it weren’t for a coincidence, she probably wouldn’t have been able to see it in her entire life.

“Why do you care about that? Senior Brother Kui’s situation seems to be even worse!” Seeing that Yu Xia could still focus on something else, Luo Xing couldn’t help but feel enraged. “If you hadn’t slacked off, how would that bastard have had a chance to sneak attack? Senior Brother Kui was ambushed because of you!”

Hearing Luo Xing’s accusation, Yu Xia suddenly turned around and gritted her teeth. “If you weren’t so useless and you were able to help Senior Brother Kui at all, Senior Brother Kui wouldn’t have been injured so badly! Luo Xing, you useless loser!”

“What did you say?” Luo Xing immediately stood up and glared at Yu Xia with anger in his eyes. Yu Xia was already frustrated after being scolded by Luo Xing just then, as if she was the one at fault. Naturally, the anger in her heart rose again. “What did I say about you? I said you’re a useless loser!”

Hearing that, Qu Lanyi and You Yue simply sneered. “People like to push the blame to others to show how innocent they are.”

You Yue frowned and didn’t say anything. He really didn’t expect the heated argument between these few people to develop to this point. Besides, the content was really about pushing the responsibility away from each other. Nobody cared about that seriously injured Senior Brother Kui anymore.

“Shut up, both of you!” Hua Ling, who couldn’t stand it anymore, suddenly shouted. The two young people panted heavily and finally shut their mouths. “What time is it right now? Senior Brother Kui is seriously injured and can’t wake up. You’re still in the mood to argue here! Everyone is responsible. None of you can escape!”

Yu Xia twisted her body angrily and turned around. Out of sight, out of mind! Luo Xing, on the other hand, blushed in embarrassment and squatted down again. “Senior Sister Hua Ling, should we inform the elders... If the elders come, Senior Brother Kui will be saved!”

“Are you an idiot, Luoxing? Notify the elders? Do you want us to be punished? It’s not like you don’t know that Senior Brother Kui is the elders’ favorite disciple. If anything happens to him, we won’t be able to get away!”

“You can’t ignore Senior Brother Kui’s safety just to avoid punishment. Don’t forget that you would’ve been dead without him!” roared Luo Xing angrily. Yu Xia blushed and couldn’t say anything. Hua Ling, on the other hand, looked worried. “I lost my Sound Badge when I was running. Senior Brother Kui’s Sound Badge seemed to have fallen when he fought with that animal. I checked just then, but there’s nothing.”

Luo Xing immediately collapsed. “If something happens to Senior Brother Kui, the elders will probably go crazy...”

At this moment, Yu Xia’s attention was all on the once faint golden color. She touched it curiously with her finger and her eyes immediately widened! This, this is... Yu Xia quickly turned around and looked at the two people behind her. Luo Xing and Hua Ling’s gaze were both fixed on the severely injured young

man and they didn't have time to think about anything else at all. Yu Xia immediately searched and finally found a small bottle, collecting all the light golden color that seeped out of the stone wall.

"If I go back and give this thing to the elders, I'll be fine, right..." Thinking of this, Yu Xia couldn't help but smile. She couldn't help but collect faster, but the amount of Golden Cauldron Fluid was extremely limited. After collecting for a long time, she could only collect two millimeters high in the end. Yu Xia immediately roared angrily, "What? There's only so little. How can this be enough?"
