

Summoner 1221

Chapter 1221 Learning About the Yun Family (2)

The old man couldn't help but feel shocked. This was a high-level ore! He immediately glanced at Yun Feng and the others again. This little girl was wearing simple clothes, but she had her own temperament. He originally thought she was a descendant of an ordinary rich family, but he didn't expect her to give him a high-level ore right away! Who exactly was she?

Yun Feng chuckled. "Thank you, senior." She thanked him again and was about to leave. The old man stood there and thought for a while before he suddenly said, "You three young people, wait!"

Yun Feng and the others stopped. The old man sighed softly. "I was blind just then and my attitude towards you was a bit bad. However, we can't accept this high-level ore. Even if we do, it'll cause an unexpected disaster."

Yun Feng frowned. Seeing that the old man and the little girl were indeed wearing shabby clothes, she thought for a moment and said, "If high-level ores are too eye-catching, what do you think of the foundation ores? Is the place where you can exchange ores in Twilight Village?"

!!

The old man was startled and then shook his head. "I know you have good intentions, but forget it. We won't be able to dig out ores in this place. Since you're going to Twilight Village too, let's go back together."

Qu Lanyi raised his brows. "Are you a villager of Twilight Village?"

The old man nodded and walked forward with the little girl and Yun Feng. "You three seem to be outsiders?"

Yun Feng chuckled. "You're right, senior. It's indeed our first time here."

The old man sighed. "Things change really quickly. I think the three of you are all extraordinary. You'll definitely let your family enter the Inner Region again."

Yun Feng and the others didn't say anything. The old man didn't ask anything else. The little girl stuck her head out next to her grandpa. Yun Feng smiled at her kindly. The little girl blushed inexplicably and hid behind her grandpa again. She quietly stuck her head out and smiled at Yun Feng shyly.

On the way to the Twilight Village, Yun Feng had already made up her mind. Even though she was anxious to find the headquarters of the Yun family when she first entered this unfamiliar area, she couldn't expose the fact that she was a member of the Yun family easily. Since the Yun family was attacked by someone, she had to see clearly who was behind it. By then, she wouldn't let anyone go! Yun Feng's name couldn't be exposed for the time being. It was better to use Feng Yun.

"We're here." The old man pointed ahead. A small village was right ahead. The old man brought Yun Feng and the others close to Twilight Village. Some villagers didn't ask anything when they saw Yun Feng and the others, but when they saw the old man, they all whispered, "How was it? Did you find any ores? Today is the deadline. That scum of the Zhou family came again today..."

The old man smiled wryly and didn't say anything. He just waved his hand and led Yun Feng and the others forward. "The coachman's place is ahead. You can go there, but if you want to go to the city, you must have a pass, or you won't be able to enter."

"A pass?" Yun Feng raised her brows. The old man nodded. "If you want to live a good life, you can only do it in the city. People like us can't enter at all."

"Old man, where can we get the pass?" asked Qu Lanyi. The old man chuckled. "With your strength, you should be able to get it easily. There are announcement boards outside every city. There are conditions on how to get the pass. As long as you satisfy them, someone will give it to you."

The old man turned around and was about to leave with the little girl. At this moment, a group of people walked over from the front. Seeing the old man, they suddenly shouted with an extremely ear-piercing voice, "Old man! Are you tired of living? Where are the low-level ores? Today is the last day. If you still can't hand them over, don't blame me for being rude to you!"

The old man immediately put the little girl behind him. "Young Master Zhou, our family can't take out ten low-level ores at all. Even if I sell myself, I won't be able to get so much. Do you think you can give me a few more days? I..."

"Bah!" The young man in the lead walked over casually and spat on the ground fiercely. Yun Feng couldn't help but frown when she saw that. "You old thing! I can forgive you! But let me play with her for a few days first!" The young man suddenly dragged the little girl behind the old man out. The little girl was immediately frightened to tears. "Grandpa, grandpa!"

The old man wanted to go forward and save his granddaughter, but the young man pulled the little girl forward fiercely. "Damn it, you old thing who doesn't know what's good for her! It's her fortune that I like this stinky girl! You should be thankful. Hahahaha!"

"Wait!" A voice suddenly sounded. The young man turned around and was still holding the little girl's arm firmly in his hand. The little girl's arm was immediately swollen and her face was full of tears. She looked at Yun Feng with tears in her eyes, which made people pity her indescribably.

"Who are you? How dare you talk to me like that?" The young man looked at the person who spoke. When he saw Yun Feng's face, a hint of heat suddenly burst out of his heart. Compared to the stinky girl in his hand, this beauty was certainly more to his liking. The greed and dirty thoughts in the young man's eyes made Yun Feng's eyes turn cold. "Let go of her."

The young man smiled mischievously. "I can let go of this stinky girl. However, beauty, you have to accompany me for a day. How about that?"

"Shameless people are invincible." What Qu Lanyi said made the young man enraged. "Who do you think you are? How dare you say that to me?"

"Let her go. I'll give you however many low-level ores this old man has to pay." What Yun Feng said made the young man frown abruptly. The old man looked at Yun Feng. "Miss, you don't have to..."

Yun Feng chuckled. "Senior, you've done me a favor. I certainly have to repay you."

The old man's eyes glittered. Yun Feng glanced at the young man. "I said, let go of this little girl."

The young man didn't want to let go at first, but he could only let go under the pressure of Yun Feng's gaze. The little girl immediately ran behind the old man and hid. The young man finally looked at Yun Feng in the eyes. After sizing her up a few times, he knew that Yun Feng didn't look like someone to be trifled with. He was quite smart.

"Low-level ores? This old man hasn't handed over the ores he's supposed to hand over for years! Let me calculate. There should be a hundred mid-level ores at least!"

"Nonsense! I clearly..."

Yun Feng waved her hand and asked the old man to stop talking. She glanced at the young man with her black eyes. "A hundred mid-level ores?"

Chapter 1222 Learning About the Yun Family (3)

The corners of the young man's mouth curled up. "A hundred mid-level ores. I'll make this stinky girl the target of my thirsty brothers today if any is missing!"

The little girl was immediately frightened to tears again. The old man's face was even paler. Robbers! Despicable, shameless robbers! How dare they ask for so much!

Yun Feng sneered with her red lips. She flipped her wrist and casually threw two high-level ores to the young man's feet. The young man couldn't help but widen his eyes when he saw that. Those were... high-level ores! The eyes of the lackeys behind the young man also brightened when they saw that. High-level ores!

"One high-level ore is to pay off the amount of ores the old man is due for, while the other is for you to kowtow and apologize!"

The young man immediately turned pale after hearing that. Should he pick up the two high-level ores that fell on the ground? If he did, he would obviously be insulted by her. If he didn't... Those were high-level ores! It was already good enough for this small village to have mid-level ores, let alone high-level ores!

Qu Lanyi and Mu Canghai both looked at the young man with a cold smile. They would only get themselves dirty if they dealt with such a person. Didn't he like to ask for an exorbitant price? Then, they would humiliate him fiercely with what he wanted! The villagers of the Twilight Village were also attracted by the commotion. This was a rare good scene. Not only was this scum of the Zhou family tyrannical here, but he had also ruined so many good girls of other families. The villagers of the Twilight Village hated him in their minds. Now that there was a good show to humiliate him, they certainly had to watch!

The young man looked at the villagers that were gradually gathering around and was even more embarrassed in his mind. He glared at the old man fiercely with his eyes. Old man, you have guts! Let's see how I deal with you after this person leaves! The young man casually picked up a high-level ore on the ground and then looked at the other one reluctantly. In the end, he couldn't help but pick it up. "Old man, I'll spare you today! We'll see about that in the future!"

After putting away the two high-level ores quickly, the young man left quickly with his group of people. Yun Feng looked at his back coldly and had already thought about the matter in her mind. The villagers

watching the drama immediately burst into laughter. Their laughter was extremely mocking. The young man's face turned red and pale as he quickly ran away dejectedly.

"Miss, you..." The old man sighed. Yun Feng walked over and touched the little girl's tear-stained face. "It's fine. I still have something to ask of you. Can we go to your home?"

The old man was startled and finally nodded. The people watching around were still discussing. Yun Feng and the others had already left behind the old man. Mu Canghai frowned and whispered, "Even though Yun Feng helped them out, she also started trouble."

Qu Lanyi sneered. "The reason why the scum of the Zhou family is so arrogant is certainly because there's someone up there. Fengfeng has seen through this. Besides, how can she just stand by and do nothing? If it were me, I probably wouldn't care. However, with Fengfeng's personality, do you think she'll ignore it?"

Mu Canghai chuckled. "I know, but sometimes, you can help someone once, but you can't help them forever."

"This isn't something Fengfeng should worry about. She simply has a kind heart. If the person being helped thinks he's safe from now on, it's meaningless to help."

Mu Canghai was silent for a long time and didn't say anything else. The old man led the three of them to a very dilapidated yard. "We're here. Even though this place is a bit dilapidated, it's still habitable." The old man smiled a bit reluctantly. Yun Feng didn't say anything and simply walked in. She picked a place and sat down. The old man was about to make a pot of tea, but Yun Feng stopped him. The little girl ran somewhere else to play.

"Old man, can you tell us the situation here in detail? Why are you handing over the ores? Who stipulated this?"

The old man heaved a long sigh. "Who stipulated this? Of course, it's the hierarchy. I only regret that we don't live in the area under the Yun family's jurisdiction... Otherwise..."

"In the area under the jurisdiction of the Yun family?" Yun Feng's heart suddenly became hot. The old man nodded. "Yes, there are ten cities in this area. Each city has an attached area. There's certainly a large family in the city that's responsible for the area. Our Twilight Village is under the jurisdiction of Jiang City, where the Jiang family is located, and the Zhou family is the Jiang family's lackey. That's why they're so arrogant in the Twilight Village."

Ten cities... It seemed that the situation in this area was more complicated than imagined. Since the Yun family was in charge of an area, it seemed that their status in this area wasn't low.

"Old man, judging from your tone just then, you seem to be looking forward to living in the territory under the jurisdiction of the Yun family?" Qu Lanyi asked with a low smile. The old man chuckled forlornly. "I'm afraid everyone in the ten cities thinks so. The people in the territory under the Yun family are harmonious and peaceful. They won't hand over ores at all. The Yun family is unbiased and treats the people extremely well. Who doesn't want to live there?"

Yun Feng was touched in her mind after hearing this. This was the Yun family... The Yun family that did things openly and was upright! She had always been proud of this surname. The obsession in her mind

along the way was also because of this family bond. Up till now, the Yun family indeed didn't let her down at all! It was worth it to do everything for such a family!

"So, among the ten cities, other than Yun City, which is under the jurisdiction of the Yun family, the other nine cities all have the practice of handing over ores regularly?" Qu Lanyi frowned. The old man sighed again. "That's right. So, the Yun family did this for the good of the people, but they also made a lot of enemies for this. Many people in the other nine cities don't like the Yun family. Not to mention the other cities, just Jiang City alone has already hated the Yun family to the bone."

Yun Feng's eyes darkened. What the Yun family did was indeed making enemies for themselves, but the Yun family had its own persistence. They wouldn't change just because of someone else. They would never demean themselves! The Yun family was just so stubborn...

"It seems that the Yun family isn't doing well right now." Qu Lanyi glanced at Yun Feng worriedly. The old man sighed again. "That's right. Even though the Yun family is ostracized from the circle of power, its strength and background aren't comparable to other families at all. I'm truly puzzled. Why did such a family come out of the Inner Region?"

Yun Feng clenched her fists. Other people wouldn't understand, but she did! She understood everything that the Yun family suffered! She understood the sorrow of the Yun family!

"Senior, the families in the Inner Region are also changing constantly, right?" Mu Canghai said. This was also the question Yun Feng wanted to ask the most. The old man nodded. "Although I don't know much about this, it's a big deal. It seems that the families in the ten cities have a selection every once in a while. The top families will enter the Inner Region again and some families in the Inner Region will be ostracized."

Chapter 1223 Learning About the Yun Family (4)

"Humph. It sounds quite fair." Qu Lanyi sneered. Yun Feng said, "Senior, do you know what kind of selection it is?"

The old man smiled awkwardly. "Miss, I'm just an old man in a small village. How would I know about such a thing? I don't even have a chance to see it."

"It's fine." Yun Feng smiled gently. Indeed, this question was a bit difficult for the old man. There was certainly no need to ask him such a question. She would know the answer sooner or later! However, before that, she had to figure out how many families in the ten cities were cruel to the Yun family. Some were open and some were dark.

It didn't matter if the enemy was standing in the open. She was just afraid that someone would stab her in the back!

"Oh, right, right. Even though this is a small place, the selection is a sensational event. I heard that the selection this time seems to be advanced!"

What the old man said suddenly reminded Yun Feng of something. No wonder the Yun family only had two years left! No wonder time was so tight. The selection had been advanced! Qu Lanyi pondered secretly. "It seems that there's only less than six months left."

Less than six months... That was enough. Before she returned to the headquarters of the Yun family, she must find out all the enemies in the open and in the dark! Yun Feng's mind darkened. The worst-case scenario was nine against one...

"Old man, it seems that we'll stay here for a few more days. We won't disturb you, will we?" Yun Feng smiled. The old man was startled and certainly understood Yun Feng's intention of protecting him. He couldn't help but feel touched in his mind. "Miss, of course we won't disturb you. Thank you so much..."

Yun Feng shook her head and couldn't help but smile as she looked at the little girl who was having fun on the side. The old man wanted to go to Yun City so much. This time, she would take them to Yun City and let them live a peaceful and prosperous life! Yun Feng stayed in Twilight Village for a few days for the time being. Firstly, it was to prevent the scum of the Zhou family from being ruthless again. Secondly, it was to find out some information she wanted to know. However, she had never thought that the scum of the Zhou family would be so eager as to come that night.

The night was quiet. Yun Feng and the others certainly didn't need to rest. Having cultivated to this point, their physiological functions could already be regulated at will. It wouldn't be a problem even if they didn't sleep or rest for a few months. Yun Feng originally wanted to go out for a walk at night, but she didn't expect someone to have already come to visit.

"Go in and search quietly! When you see that old guy and that stinky girl, tie them up and take them out quietly. Let's see if I'll torture them to death! If we meet that woman during the day, find if she has a space ring! She'll definitely have a lot of high-level ores since she took out high-level ores so easily. If we can get them and offer them to the Jiang family this time, the Zhou family will definitely rise steadily!"

Yun Feng and the others heard the whispers outside the door without moving at all. Yun Feng sneered and waved her hand, instantly locking the space around the old man and the little girl. Yun Feng stood in the sky and looked at the few people who were sneaking with coldness in her black eyes.

"Fengfeng, killing these people will dirty your hands," said Qu Lanyi coldly. Mu Canghai said, "I'll deal with them."

Yun Feng curled her lips and smiled. "No need. They worked so hard to find me. I certainly can't let them down." After saying that, she had already flashed down from the sky. Qu Lanyi shook his head and chuckled dotingly, watching the show from the sky with Mu Canghai.

"Young... Young Master, they're gone!" The few subordinates searched around and didn't see anything. The scum of the Zhou family was stunned. "They're gone? How is that possible? Are you all blind?"

"Young Master, they're really gone. There's no one here!"

The scum of the Zhou family couldn't help but frown. That wasn't right. It would make sense if those three people left. If that old fool and that stupid girl left, it was impossible for him not to notice them! How could they be gone? The scum of the Zhou family was full of anger during the day and wanted to torture the old man and the little girl fiercely at night. Now that he didn't find them, he was even more enraged. He pushed away a group of lackeys and strode in. "F*ck, I don't believe that the two of you can grow wings and fly away!"

“Hey, what are you looking for?” A voice sounded. The scum of the Zhou family suddenly turned his head to the side and saw Yun Feng walking out slowly from the corner. The moonlight shone on her body and she immediately looked beautiful, but there was a hint of fear in his eyes.

“You’re still here?” The scum of the Zhou family said in a low voice. Yun Feng chuckled. Her clear black eyes glittered like gems in the night. “How can I leave without you?”

The scum of the Zhou family immediately took a step back after hearing that. “What are you trying to do? I, Zhou Zhigao, am the Young Master of the Zhou family. The Zhou family is the right-hand man of the Jiang family! If you hurt me, the Jiang family won’t let you go. It’s useless no matter how many ores you have!”

Yun Feng looked at the funny and terrified expression on Zhou Zhigao’s face. Her expression didn’t change and she was still smiling gently. Seeing Yun Feng’s attitude, Zhou Zhigao couldn’t help but feel even more scared in his mind. “Let me tell you! The Jiang family is one of the families in the ten cities. This is the territory under the jurisdiction of Jiang City!”

“So what?” Yun Feng asked lazily. Zhou Zhigao immediately shouted in embarrassment, “If you dare to touch the members of the Jiang family, the family behind you will be beaten up like that rotten Yun family! You...” Zhou Zhigao’s voice was suddenly stuck in his throat. Yun Feng’s face was already gloomy at this moment. Those glittering black eyes were like a nightmare, making Zhou Zhigao speechless!

“What did you say just then? That it’s useless no matter how many ores I have? That I can’t lay a hand on you, Zhou Zhigao, scumbag?” Her beautiful facial features were covered in frost. Yun Feng looked at the pale Zhou Zhigao in front of her. She didn’t do anything, but he couldn’t move anymore!

“You... Go attack her...” Zhou Zhigao shouted with a tremor in his voice, but he realized that the lackeys behind him had already run away without a trace. Zhou Zhigao cursed them in his mind. They were all a group of losers! His heart was beating like a drum. He wanted to run away, but he couldn’t move at all!

“Scumbag Zhou, the Yun family isn’t something a lowly person like you can talk about! Also...” Yun Feng suddenly smiled as a red ring appeared on her hand. Zhou Zhigao’s eyes widened and his mouth opened wide when he saw this! “S-S-Summoner...”

Chapter 1224 Learning About the Yun Family (5)

“Roar...” The roar of a wild beast spread throughout the entire night sky, alerting all the villagers of Twilight Village. The huge body of the Fire Cloud Wolf appeared and its wolf eyes that were glittering with killing intent stared at Zhou Zhigao, who was trembling. Zhou Zhigao was stuttering with a trembling voice right now and he couldn’t say a complete sentence!

“I don’t just have ores.” Yun Feng lowered her black eyes. The Fire Cloud Wolf had already opened its mouth wide and pounced on the dumbfounded Zhou Zhigao. Instantly, flames rose everywhere!

Zhou Zhigao’s screams were completely swallowed by the giant red fire. In the end, only his burnt body was left on the ground. Little Fire glanced at him in disdain. “Master, I feel disgusted dealing with such scum.”

Yun Feng chuckled. What Zhou Zhigao said just then convinced her a lot. The Jiang family of Jiang City had already attacked the Yun family! Yun Feng slowly walked out of the yard and looked at the cold

moon in the bright night sky. Little Fire jumped next to Yun Feng. Yun Feng whispered, "Little Fire, Twilight Village seems a bit cold tonight."

!!

Little Fire grinned and showed its shiny wolf eyes. "So, what do you think, Master?"

Yun Feng looked in a certain direction and her red lips curled up. "Of course, we have to add fuel to the fire and warm Twilight Village up."

The next day, the old man and the little girl woke up and found that Yun Feng and the others had already left. Looking at the few glittering ores on the table, the old man's heart tightened. He hated himself for sleeping so soundly last night. As soon as he stepped out of the door, he heard the news that spread overnight in Twilight Village. The Zhou family, which had been domineering in Twilight Village because of the Jiang family, had already turned into ruins last night! Everyone died in this inexplicable fire!

The old man was shocked after hearing that. He couldn't help but look at the few ores in his hand. His eyes glittered and a beautiful face appeared in his mind. Girl, who exactly are you?

The area outside of the circle of power was very vast. In this vast area, there were branches of families of all sizes and countless villages scattered on it. However, in terms of real strength, these ten cities were each controlled by a large family. This large family also governed the relevant areas around their respective cities, as if they were autonomous. They had absolute autonomy. The ten cities didn't interfere with each other, but they couldn't guarantee that they would be friendly with each other.

The relatively larger families in this area had a lot of mobility. Some families could reach the sky in a single step through the selection, and there would certainly be families in the Inner Region that were ostracized because of this. It could be said that the status of the large families in the ten cities was also flexible. No family would rather stay in such a place forever. The large families all wanted to enter the Inner Region, especially those families that were ostracized from the Inner Region.

Some of the families in the Ten Cities were controlled by families that were ostracized in the Inner Region, while some were born and raised in this area. These local families certainly didn't take the families from the Inner Region seriously and also looked down on these families from the bottom of their hearts. To put it bluntly, they thought they were better than such families. The Jiang family in Jiang City was such a local family.

The Jiang family was born and raised in this area and their roots were also here. Naturally, they had much better strength, connections and even background than outsiders. The Jiang family had lived in this area for at least a few centuries and it had grown larger after generations. The thoughts that hadn't been stirred in the last few centuries were also stirring right now. The Jiang family thought very highly of their own people in the selection this time. They thought that the Jiang family would definitely be able to squeeze into the Inner Region this time. Once they squeezed into the Inner Region, they would certainly be above others!

When the Master of the Jiang family was looking forward to the start of the selection this time, news came very soon. The Zhou family of the Twilight Village had been exterminated overnight. This news made the Master of the Jiang family frown slightly. The Zhou family of the Twilight Village was just a dog

of the Jiang family. The Jiang family didn't suffer any loss even if they were exterminated. As for dogs, there would certainly be another one if one of them died.

After hearing that, the Master of the Jiang family only waved his hand indifferently and didn't take it to heart at all. After the person who reported the news retreated, a young man slowly walked in from outside. His body figure looked extremely gentle and beautiful, with a feminine feeling. Even though his facial features were those of a man, he exuded a feminine aura. Even when he spoke, he sounded exactly like a woman.

To put it bluntly, he was a real sissy.

"Father, do you know the news about the Zhou family of Twilight Village?" The man said as he sat on the chair on the side. His form and movements were exactly the same as those of a woman. He even curled his fingers slightly.

The Master of the Jiang family, who was sitting in the main seat, glanced at the young man and could only sigh in his mind. If the person in front of him wasn't his son, one of the main figures of the Jiang family in the selection this time, he really wanted to slap him to death! His son was clearly a man. How did he become like this?

"Jianping, can't you change your clothes? How can you wear clothes that only women wear all the time?"

Jiang Jianping chuckled and put his hand in front of his lips. "Father, I've said it many times. I like it."

The Master of the Jiang family could only take a deep breath through his nostrils and suppress the anger in his heart before he said, "I know about the Zhou family. It's just a dog that died. You don't have to take it to heart. You have to focus on preparing for the selection right now. By then, the Jiang family will depend on you!"

Jiang Jianping chuckled again. "Father, don't worry about that. However, I found out something unusual about the cause of the Zhou family's extermination overnight."

The Master of the Jiang family raised his brows impatiently. If the Zhou family was dead, so be it. Why was his son so persistent? "What other reason can there be? If they're dead, so be it!"

"Father, the people of Twilight Village heard the clear roar of a Magic Beast that night."

"What did you say? A Magic Beast!" The Master of the Jiang family looked surprised. How could there be a Magic Beast in that small Twilight Town? That wasn't a place where Magic Beasts appeared at all! There shouldn't be a Magic Beast in Twilight Town at all. It was impossible for it to break in by mistake!

"Yes, it's definitely the sound of a Magic Beast. Then, the Zhou family was destroyed in a fire. Don't you think it's a bit strange, father? Also... a few unfamiliar faces came to Twilight Village that day."

Chapter 1225 Just Tricking You (1)

"Strangers?" The Master of the Jiang family suddenly narrowed his eyes. Jiang Jianping nodded and touched his clothes slowly with his curled finger. "Three complete strangers appeared in Twilight Village, followed by the appearance of a Magic Beast, and then the Zhou family was destroyed..."

The Master of the Jiang family narrowed his eyes fiercely as a fierce light flashed through. "So, one of these three people must be a summoner!"

"It's hard to say, but I'm afraid these three people didn't come with good intentions." Jiang Jianping said in a girlish manner. The Master of the Jiang family pondered carefully for a while. "Go to the Twilight Village and ask about the appearance of those three people carefully. Then, search the territory of Jiang City. We must find those three people!"

Jiang Jianping got up and smiled softly. "Don't worry, father. I've already made arrangements."

The Master of the Jiang family nodded and suddenly thought of something with a smile on his face. Jiang Jianping, who was about to leave, couldn't help but ask curiously, "Father, do you have good news?"

The Master of the Jiang family nodded. "I just got the news that the Yun family doesn't seem to have enough people for the selection this time."

"Really?" Jiang Jianping couldn't help but feel delighted after hearing that. The Master of the Jiang family burst into laughter. "Humph! They can't even gather enough people. I'd like to see how the Yun family participates in the selection! They're ostracized and they're still putting on such a superior attitude. They can forget about entering the Inner Region for the rest of their lives!"

Jiang Jianping also burst into laughter and his body couldn't help but sway a few times. "Don't worry, father. After the Jiang family is elected to the Inner Region this time, we'll certainly have a chance to vent our anger on the Yun family."

The Master of the Jiang family's mouth cracked open with a hint of viciousness. "By then... the Jiang family won't be the only one to take revenge!"

The Master of the Jiang family and Jiang Jianping didn't know that the people they were looking for had already come close to Jiang City. After leaving the Twilight Village, Yun Feng and the others ran straight to Jiang City. At this moment, the three of them were standing in front of the gate of Jiang City. As the old man said, people had to have a pass to enter the city. People who didn't have a pass couldn't enter at all, even if they snuck in. Yun Feng investigated slightly and found that there was a Grade-4 Emperor Level expert among the people guarding the city!

The fifth elder once told Yun Feng that she couldn't go to the Inner Region without reaching Grade 8 of the Emperor Level. The Inner Region that the fifth elder was talking about should be within the circle of power, but not outside the circle of power. Yun Feng, who was at Grade 8 of the Emperor Level, could be considered a first-rate powerhouse here.

There was a building next to the city gate where people came and went. There was a huge and eye-catching noticeboard next to the building. Many people were crowding in the front and discussing, looking very lively. Yun Feng and the others stood far away, but they could see what was on it clearly. When the three of them saw the eye-catching notice posted on it, they were a bit surprised.

"I didn't expect the Jiang family to be so fast." Mu Canghai frowned slightly. There were portraits of the three of them on it. They could be said to be lifelike.

“I thought the Zhou family was just a dog of the Jiang family, but it seems that they had some status,” said Qu Lanyi sarcastically. Yun Feng chuckled. “The Zhou family was indeed a dog in the eyes of the Jiang family, but the death of this dog meant something, so the Jiang family has to be vigilant.”

Qu Lanyi raised her brows and looked at Yun Feng. “Are you saying that the Jiang family found something from the fire that night?”

Yun Feng smiled gently. “I don’t know what the Jiang family found out, but they’re faster than I thought. It seems that it’s difficult to go in with our original appearances.”

“That’s simple.” Qu Lanyi smiled and casually took out the Thousand Shadows Masks that was as thin as a cicada’s wing. Yun Feng smiled. With this good thing, she could save a lot of trouble. Mu Canghai glanced at the two of them. “I’ll use space blockade then.”

“No, even though we don’t know the details of the Jiang family, there must be powerhouses since they can control this city. Even though your current strength is equivalent to Grade 7 of the Emperor Level, you should be careful.”

“Aren’t there only two masks?” asked Mu Canghai in confusion. Qu Lanyi sneered. “Do you think I didn’t prepare anything when I left home? Of course, I had to be well-prepared just in case.” As soon as he said that, he took out another mask. Yun Feng couldn’t help but click her tongue. One mask was already very good. How many did he take out? Was this thing mass-produced in his family?

Seeing the surprise in their eyes, Qu Lanyi couldn’t help but laugh. “I only have three.”

The three of them put the masks on their faces. Accompanied by a cooling feeling, three completely unfamiliar faces appeared, hiding their original appearances without leaving a trace. Other people wouldn’t notice that Yun Feng and the others had masks on their faces at all. Looking at each other’s unfamiliar faces, the three of them nodded and then walked towards the sign.

People in front of the noticeboard were all pointing at the notices of Yun Feng and the others and discussing enthusiastically. The three of them, who had already changed their appearance, stood aside extremely calmly and couldn’t help but laugh in their minds. A lot of information was pasted on the noticeboard. Yun Feng glanced at it briefly. There were a few criteria for getting a pass on it. Once one reached a certain level of strength, they would automatically get a pass. There was also the professional standard. Yun Feng smiled playfully. It said that summoners could get a pass no matter their strength level.

“The Jiang family has put a lot of thought into it,” said Qu Lanyi coldly. “Every summoner gets a pass? Do they want to rope in all the summoners?”

Yun Feng couldn’t help but sneer. The Jiang family was quite cunning. She looked at the other conditions. They were nothing more than doing errands for the Jiang family to accumulate points in exchange for a pass. This was immediately eliminated by Yun Feng. She didn’t have any time to work for the Jiang family. She didn’t want to expose her strength, let alone work for the Jiang family, and she couldn’t expose her identity as a summoner. Yun Feng only had one choice right now and it was also the one she was most willing to accept, which was to hand over the ores.

The three of them walked to the building on the side. This was where everyone exchanged for passes. Some people kept going in and out with a disappointed look, while some came out with their passes with joy on their faces. Yun Feng pushed the door open and entered. There were three parts in the building. One was for the strength standard, one was the mission report office, and the third was the place where ores were handed over.

Many people were in front of each counter. Yun Feng glanced around and saw that none of them were summoners. There couldn't be many summoners even if the Jiang family offered such good conditions. Summoners weren't like carrots and cabbages that could be seen everywhere.

Chapter 1226 Just Tricking You (2)

Yun Feng directly walked to the place where the ores were handed over. The person in front had just turned around and left with a gloomy face. Apparently, his ores weren't enough. Perhaps because Yun Feng was too young and she had an extremely ordinary face at this moment, she didn't attract attention when she walked up. The receptionist looked at her lazily. "You want to exchange ores for a pass? If you don't have enough ores, don't embarrass yourself. Just like that person just then, he still went back dejectedly and wasted my time."

"How many ores does a pass cost?" asked Yun Feng. The receptionist lazily pointed to the side. "It's written here. Can't you read it yourself?"

This attitude was indeed a bit lazy and arrogant, but Yun Feng didn't take it seriously at all. Mu Canghai and Qu Lanyi were the same. The three of them looked over at the same time. A pass cost thirty high-level ores.

Thirty high-level ores? Yun Feng, who had countless ultimate ores, didn't care about that at all. However, this was a huge amount for other people. Who would be able to take it out if they didn't have the support of their family?

"Three passes," said Yun Feng. The receptionist raised his eyes lazily. "Three? That's ninety high-level ores. Show me your ores first, not one less. Of course, don't even think about writing an IOU. Don't tell me which family you're from. No family in Jiang City is bigger than the Jiang family."

"Cut the crap. I said three passes." Yun Feng looked at the receptionist coldly. The receptionist was frightened by her gaze and couldn't help but sit straight. "Tsk! Take out your ores. I want to examine them!"

Yun Feng flipped her wrist and took out an ultimate ore. Once the ultimate ore appeared, the pure energy it emitted shocked everyone. Also, the dazzling light from the surface of the ultimate ore made it like a dazzling gem, making it impossible for people to look away!

"F*ck! An ultimate ore!" Someone exclaimed. Those who didn't notice immediately turned around and looked over. Instantly, everyone here fixed their eyes on the ultimate ore in Yun Feng's hand!

"Damn it, it's really an ultimate ore! They can even take out such a thing, which shows that these people aren't ordinary people!"

"If I have an ultimate ore, I'll be rich!"

Countless exclamations sounded. The receptionist was already dumbfounded. He looked at the ultimate ore in Yun Feng's hand dumbfoundedly and couldn't say anything. Yun Feng curled her lips. "One ultimate ore is equivalent to a hundred high-level ores. That's enough. As for the remaining ten high-level ores, keep the change."

After saying that, she casually threw the ultimate ore away. The receptionist immediately jumped up and took it in a hurry, fearing that it would fall on the ground accidentally. Damn it, it was really an ultimate ore, a real ultimate ore! It seemed that he had underestimated her this time!

"Miss... Here are three passes!" The receptionist immediately took out three passes at an extremely high speed. Yun Feng took the three passes in her hand and turned around to leave without another word. Everyone couldn't help but watch her leave. Then, they immediately burst into an uproar. The receptionist, on the other hand, looked at the ultimate ore in his hand dumbfoundedly and still hadn't come back to himself.

In the mansion of the Jiang family, Jiang Jianping was sitting on a chair lazily and flipping through a book with his curled finger. After a while, someone rushed in. "Second Young Master!"

"Hm, how many people got the pass today?" Jiang Jianping asked softly as he changed his posture comfortably. He was very feminine.

"Second Young Master, only three people got the pass today. They got it by handing over the ores!"

"Oh? They're quite generous." Jiang Jianping chuckled and scratched his face with his finger. The person looked up and then lowered his head. "Second Young Master, they didn't hand over high-level ores."

"If not high-level ores, is it an ultimate ore?" Jiang Jianping laughed loudly. Even the Jiang family didn't have many ultimate ores. They only had less than a hundred of them. How would anyone casually exchange an ultimate ore for a pass? He would believe that someone offered ninety high-level ores, but as for ultimate ores... that was impossible!

"Second Young Master, those three people did hand over an ultimate ore!"

"What?" Jiang Jianping suddenly raised his brows. "Ultimate ore? Did those three people really hand over an ultimate ore?"

"Absolutely. The ultimate ore have already been put in the warehouse."

Jiang Jianping suddenly fell silent. He leaned against the back of the chair again and was silent for a while. "Bring those three people to the Jiang family immediately! I want to see who they are. They're so extravagant!"

"Yes, sir!"

Yun Feng and the others easily got the pass and entered the city, which made many people who couldn't enter the city extremely envious. After entering the city, Yun Feng looked at the pass in her hand carefully. Even though it was called a pass, it was actually a jade pendant. However, there were some surnames engraved on the back of the jade pendant, including the word "Jiang."

“This pass is quite interesting.” Qu Lanyi played with it for a while and looked at the surnames of the families engraved on the jade pendant. Yun Feng nodded. “It seems that these families are on the Jiang family’s side. Even this pass should be acknowledged by all of them.”

“The three families and the Jiang family are on the same side. There are four openly hostile families.” Mu Canghai glanced at them and said. Yun Feng nodded. “It’s fine if there are four families in the open, but there are still five who are uncertain about their attitude towards the Yun family. That’s the most urgent thing.”

“The Yun family should know what people think of them, right?” Qu Lanyi raised his brows, but Yun Feng shook her head. “Maybe they do, maybe they don’t. In this world, anyone can stab you in the back.”

Qu Lanyi and Mu Canghai were both silent. Yun Feng smiled gently. “Of course. I believe in you. As long as I, Yun Feng, believe in someone, I never have any doubts!”

Qu Lanyi curled his lips and smiled, while Mu Canghai looked at Yun Feng seriously. In Yun Feng’s mind, not everyone could become friends with her. Some people only acquaintances. Some people needed her to put on an act. Some people were people she had to treat with sincerity. These were the friends she recognized!

Chapter 1227 Just Tricking You (3)

Yun Feng didn’t acknowledge many people, including Mu Xiaojin, Gong Tianqing, You Yue, Mu Canghai, Qu Lanyi who had been by her side along the way, and of course, the young man who stood in front of her when she was young, Ze Ran. She heard that he went out for training alone and she didn’t know how he was doing right now. Of course, there was also Uncle Flirtatious. This Golden Dragon was very unique and protective of her.

Along the way, Yun Feng met all kinds of people. Not everyone could be her friend. She would only treat them as real friends when she acknowledged them.

“Guys, the Second Young Master of the Jiang family invites you.” Suddenly, someone walked in front of them and blocked their way. Yun Feng looked up and glanced at them. Even though the few people in front of her looked polite on their faces, their words and actions carried a meaning that the three of them couldn’t say no.

Yun Feng raised her brows. “The Second Young Master of the Jiang family? The three of us have just arrived. We don’t seem to have any grudge against the Jiang family.”

“Haha, don’t misunderstand. The Second Young Master of the Jiang family just wants to meet you. That’s all. Please.” Yun Feng and the others chuckled. Since someone wanted to meet them, they might as well meet him. She happened to want to meet the members of the Jiang family too, so she could find out more about them along the way.

The Jiang family’s mansion was located at the highest place in Jiang City. Looking down from the top of the Jiang family, the entire Jiang City could be seen, making it look like an emperor’s palace. Yun Feng smiled in her mind. Only petty families valued this feeling of dominance so much. The three of them looked at each other and tacitly restrained their auras to the lowest level. Even if outsiders investigated, they would only think that the three of them were ordinary people with ordinary strength.

They followed the person who came to invite them all the way into the Jiang family. Yun Feng and the others didn't have any other expressions when they saw how imposing the Jiang family's mansion was, as if they were used to it. The person who led the way glanced at them from the corner of his eye and couldn't help but exclaim in his mind. Even though these three people weren't very strong, their family background should be pretty good.

"Guys, we're here. The Second Young Master is waiting inside." The person said and left. Yun Feng looked up and was a bit surprised. If it was a Young Master, why did this room seem so feminine? This was clearly a place that only a Young Lady would stay.

"Guys, come in." The voice came. Yun Feng couldn't help but shiver. Was this a man's voice? It sounded like neither a man nor a woman!

Qu Lanyi frowned in disgust. Mu Canghai couldn't stand it either. Yun Feng pushed the door open and a gaudy fragrance assailed her nostrils. She saw a pink figure leaning against the chair lazily. Yun Feng stepped into the room and clearly felt a probing aura. She glanced at it with her black eyes and relaxed her body for the other party to test her. The pink figure suddenly smiled, as if very satisfied with the result of the test.

"You paid so much. You must be from a large family. Are you from one of the ten cities? Have a seat." He waved his thin white arm in an artistic manner. Yun Feng and the others sat down. Qu Lanyi and Mu Canghai didn't want to say anything at all. Yun Feng chuckled. "Second Young Master Jiang, we're just from a small place. We're going out this time to see the selection convention."

"Oh, I see. You're from a small place. May I know your name?"

Yun Feng raised her red lips. "Feng Yun, this name is really not worth mentioning. As for them, they're my companions."

Jiang Jianping glanced at them. He couldn't see anything special about Qu Lanyi and Mu Canghai, so he didn't think much of it. As soon as Yun Feng reported her name, she heard noise outside the window. She sneered in her mind and already knew what the Second Young Master of the Jiang family was thinking.

Jiang Jianping didn't have any interest in the three people in front of him at all in his mind. They were just ordinary people. Perhaps, as they said, they came from a small place and could only pay ultimate ores to save face. Jiang Jianping was originally a bit sensitive about the name Feng Yun. Feng Yun... wasn't it Yun Feng in reverse? Was she from the Yun family? If she was really from the Yun family, she must be courageous to dare to step on the Jiang family's territory!

Jiang Jianping said a few words casually and there was a slight movement outside the window. Jiang Jianping's gaze changed slightly as he sent Yun Feng and the others away. Yun Feng didn't say anything as she pushed the door open and walked out. She glanced around with her black eyes and saw someone not far away who thought he was unseen with the space blockade.

The three of them passed by that person. Yun Feng flipped her hand and her mental strength surged out cleverly, directly passing through the space barrier and hitting that person. That person was directly hit and looked up at Yun Feng in shock, while Yun Feng glanced at him with her black eyes. "The weather today is pretty good."

Qu Lanyi and Mu Canghai both chuckled. The three of them walked out just like that. The person who was beaten was extremely shocked and didn't understand the situation. He touched his chest and his head was in a mess. What was going on? Those three people were so weak that they couldn't see him at all, but what was with the attack just then?

"Come in!" Jiang Jianping's voice came from inside. The man calmed himself down and entered the room. "Second Young Master, Yun Feng isn't in the Yun family. I've done some research. The Feng family isn't among the famous families."

Jiang Jianping only grunted in disdain after hearing that and waved his hand. "You may leave. They're really just some small fries."

The man thought for a moment and didn't say what happened just then. He got up and left. Jiang Jianping touched his lips. "The Jiang family is determined to win the selection this time!"

Yun Feng and the others walked out of the Jiang family and didn't look back again. Qu Lanyi chuckled coldly. "The Second Young Master of the Jiang family is a real transvestite. He's a coward who's neither a man nor a woman."

"Yun Feng, what do you plan to do?" Mu Canghai asked on the side. Yun Feng chuckled and glanced at the noisy hotel on the side with her black eyes as she walked over. "Of course, I have to find someone to ask what the selection convention is. Also... If anyone defames the Yun family, I'll certainly defame them back fiercely!" She took out the so-called pass and looked at the four names of the families engraved on it. Yun Feng sneered. Since the Jiang family was the leader, she would certainly shoot the bird that sticks out.

The hotel had always been a lively place and the place where a lot of information came and went. Many people came and went from here every day. If they wanted to know something, this was certainly the best place. They could get the information they wanted without asking.

Yun Feng and the others walked to the main hall of the hotel. As one of the ten cities, there were certainly a lot of people coming and going in Jiang City. The main hall had already been filled with people and there were only a few empty seats. Yun Feng walked to a seat in the corner and sat down. The buzzing discussion in the tavern immediately entered her ears.

Chapter 1228 Yun Xiang Appears (1)

"I heard that the selection convention has begun early. I wonder which of the ten cities will be able to enter the Inner Region this time!"

"That goes without saying, brother. Look at whose territory you're standing on. Of course, it's the Jiang family in Jiang City!"

People around immediately burst into laughter. Even though the Jiang family was in charge of Jiang City, freedom of speech was here. Even if someone was from the Jiang family, it was fine as long as they didn't go too far and didn't publicly criticize it. Immediately, voices of doubt came out.

"I don't think so. Even though the Jiang family is very strong, the other families aren't weak either! The contest this time will be interesting!"

“In my opinion, there might be a group of dark horses!” This attracted the attention of many people. A dark horse? What other dark horses could there be?

“Hahahaha! You’re not talking about the Yun family as a dark horse, are you? Hahahaha!” A man immediately burst into laughter. His laughter immediately caused everyone to laugh. They mocked the man endlessly. “Are you stupid? How can the Yun family be a dark horse? Hahahaha!”

Yun Feng’s expression didn’t change when she heard the laughter. She was still sitting there steadily. Mu Canghai couldn’t help but feel a bit angry after hearing that. The coldness around his body also surged at this moment. Qu Lanyi glanced at him as he moved his hand. “What are you doing?”

Mu Canghai’s black eyes were burning with anger. “How dare they slander the Yun family like this... Qu Lanyi, aren’t you angry?”

Qu Lanyi glanced at Yun Feng and put on a cold smile. “What’s there to be angry about? When the result of the contest is out, someone will certainly sew his mouth shut.”

Mu Canghai was stunned for a moment before he barely suppressed the anger in his heart and sat down quietly. Yun Feng said, “It’s fine. You don’t have to be angry with such rumors. I know the Yun family very well in my mind.”

“However, what these people said reflects the Yun family’s current situation.” Qu Lanyi’s voice was deep and his eyes were a bit gloomy. Yun Feng didn’t say anything and continued to listen quietly. Since these people were discussing the selection convention, she couldn’t miss the important information.

“However, the advancement of the selection this time is unexpected. These large families will definitely be in a fix!”

“That’s right. It’s so much earlier all of a sudden. They’ll definitely be worried.”

“The date of the selection has been moved forward. I wonder if the content will change.”

This question made Yun Feng’s black eyes light up. It was here. The most important information!

“Change of content? I don’t think so... But I can’t be sure. The content of the selection convention was decided by the big shots of the Inner Region. Even though it was the same the last few times, I don’t know if there will be any new tricks this time...”

“You’ll know when you see it!”

“F*ck! Do you think you can go to see it just because you want to? Who do you think you are?”

Yun Feng frowned after the topic was changed. She thought she would get some important information, but she didn’t. Qu Lanyi whispered, “Fengfeng, nobody knows the details of the contest better than the families participating in it.”

“You mean...”

Qu Lanyi chuckled. “Of course, we’ll go back to the Jiang family. This time, we must listen carefully and don’t miss a single word.”

Yun Feng smiled. Right, the Jiang family must know the content of the selection. It would be great if they could find out everything in one go. The three of them immediately left the hotel silently. Nobody noticed the three people who came and went in a hurry. They walked to a remote place near the Jiang family's mansion. Yun Feng pulled everyone into the Dragon Palace. This time, she certainly had to sneak into the Jiang family to be safe. Even though Yun Feng was at Grade 8 of the Emperor Level, there must be powerhouses inside the Jiang family. Everything had to be the most appropriate. If they were discovered, it would be troublesome.

After thinking about it, the Dragon Palace was the safest. Nobody would notice the existence of the Dragon Palace at all, especially after the Dragon Palace changed its appearance. Who would notice a tiny speck of dust in the air? The three of them entered the second level of the Dragon Palace and the sounds from the outside world came in clearly. The only drawback of the Dragon Palace right now was that they couldn't see the images. It would be perfect if they could see the images from the outside world. However, there were still five levels that hadn't been refined. There might be this function.

The dragon-shaped jade pendant emitted a faint glimmer and then turned into a speck of dust in the air. Yun Feng controlled it to immediately attach to a servant who went in and out of the Jiang family. According to the memory not long ago, Yun Feng finally found the room where Jiang Jianping was staying. Nobody noticed that the dust in the air was quietly entering Jiang Jianping's room and then attached to Jiang Jianping's body.

"Second Young Master, the master is looking for you." The voice came into the Dragon Palace and Yun Feng's red lips curled up. It seemed that they came at the right time.

"Got it." Jiang Jianping's neither male nor female voice sounded. He stood up and flicked his clothes to smoothen the wrinkles. When he was about to move out, he suddenly stopped. Jiang Jianping looked around vigilantly. What happened? At that moment, he felt like he was being monitored...

Jiang Jianping looked around carefully again. In the end, he didn't find anything fishy. He could only walk out of the door suspiciously all the way to the main hall of the Jiang family's mansion. Qu Lanyi sneered. "Jiang Jianping is quite vigilant. As a man, his intuition is too keen."

Yun Feng sat on the ground leisurely. "It's fine. He won't notice us. We just need to listen to him at ease. Of course, the details of the selection convention and... the Jiang family's arrangements."

Jiang Jianping walked all the way to the main hall of the Jiang family's mansion. Many people greeted him respectfully when they saw him. Yun Feng had already heard dozens of greetings in the Dragon Palace along the way. It could be seen that even though Jiang Jianping wasn't a good person, his status in the Jiang family was so high that he must have strength or some special ability. He should also be one of the contestants of the Jiang family this time.

"Jianping, you're here." As soon as Jiang Jianping stepped in, the Master of the Jiang family's voice came out. Jiang Jianping nodded and glanced at them in surprise. "Why are they all here?"

The Master of the Jiang family glanced at his son, who was neither a man nor a woman, and pointed to the side. "Sit down. I have something important to say."

Chapter 1229 Yun Xiang Appears (2)

Jiang Jianping nodded and walked to the side to sit down. The Master of the Jiang family asked someone to close the door. Then, he waved his hand and immediately sealed the space. The young man opposite Jiang Jianping chuckled when he saw that. "Master, you even used the space blockade. You also called us all here. You must have something important to say."

The Master of the Jiang family nodded. "Just in case. We have to be careful."

Yun Feng couldn't help but smile after hearing this. They were careful, but it was in vain, wasn't it?

"Master, just say what you want to say." A rigid voice came. The Master of the Jiang family nodded and finally said, "Just then, the content of the selection convention this time was out. There were some changes."

"Changes?" Jiang Jianping looked up. The others were also a bit confused. "Master, the content has never changed in the past. This time, not only has the time changed in advance, but even the content has changed. What exactly is the Inner Region playing at?"

"Be careful with your words." The rigid voice sounded again. The young man who spoke just then glanced at him and didn't say anything else.

The Master of the Jiang family sighed with impatience flashing through his eyes. "The Inner Region said that they want to measure the overall strength of the family and not focus on any aspect, so they changed the content."

"Why are they so pretentious? Do those big shots in the Inner Region have nothing better to do? Wouldn't it be better to deal with them by force? Of course, whoever has the strength will enter. Isn't it obvious?"

"Alright, Jiang Wu! Remember not to let anyone hear you!" Master Jiang immediately scolded. Jiang Wu breathed out angrily with his nose, still furious.

"Master, what exactly changed?" Jiang Jianping asked slowly on the side. A hint of viciousness flashed through the eyes of the Master of the Jiang family before he said, "The strength arena, the potion arena, and... the Magic Beast arena!"

"The Magic Beast arena?!" The few young people present were all extremely surprised. Yun Feng and the others in the Dragon Palace were the same. The Magic Beast arena? It was easy to explain strength and potion, but what... were they competing in the Magic Beast arena?

"The Inner Region didn't tell the details of the Magic Beast Arena, but it must be related to Magic Beasts... Not only that, but you'll have to hand over a hundred ultimate ores if you want to enter the selection this time!"

"A hundred ultimate ores! Are the people of the Inner Region so poor that they're taking advantage of us?"

The Master of the Jiang family didn't say anything, but his face was extremely gloomy. They wanted ultimate ores! A hundred of them! Even though the Jiang family could afford them, their hearts ached! How much effort would he have to put in to get back a hundred ultimate ores? It seemed that those people in the Inner Region would suck blood from them this time!

“A hundred ultimate ores?” Qu Lanyi smiled playfully. Yun Feng frowned. A hundred ultimate ores was an astronomical number for the Yun family right now! The other cities had exploited the citizens. Even if they didn’t take a lot from each individual, it would be enough after such a long time. As for the Yun family... However, with her here this time, ultimate ores certainly wouldn’t be a problem!

The Master of the Jiang family glanced at the few young people. “There’s less than half a year to go. Nothing can go wrong in this half year! We must make a breakthrough in every aspect! It’s fine to give them a hundred ultimate ores. If we can enter the Inner Region, we’ll be able to get them back sooner or later!”

After saying this, the Master of the Jiang family asked the few young people to go back first. Yun Feng, who was hiding in the Dragon Palace, was a bit frustrated. She couldn’t see the scene outside and could only hear voices. These few people should be the candidates of the Jiang family for the selection this time. It would be easy if she could know their names.

“Wait a moment.” The few young people were about to disperse, but Jiang Jianping stopped them. At this moment, they had already walked far away from the main house. Yun Feng sneered. Jiang Jianping, you gave me a good opportunity. She flashed out of the Dragon Palace. Yun Feng was in her own space blockade. She saw clearly that there were only four young people in front of her, including Jiang Jianping. These four people were all comparable in strength and were all at Grade 5 of the Emperor Level.

Grade 5 of the Emperor Level should be a good result for them. That was why they could become the best among the young people of the Jiang family and also the candidates that the Jiang family’s master valued. Hearing what Jiang Jianping said, the other three people all turned around with an unpleasant look. “Jiang Jianping, what’s the matter?”

The person who spoke was a young man with an unusually fierce tone. Yun Feng recognized this person. His name was Jiang Wu.

Jiang Jianping raised his eyebrows. “There’s certainly something.”

“If you have something to say, say it quickly. I don’t have time.” A cold and stiff voice sounded on the side. Yun Feng looked over and saw that it was an extremely ordinary-looking young man that couldn’t be found in a crowd. The only difference was that there was a very strong aura of herbs around him. Yun Feng knew that he was a pharmacist of the Jiang family.

Jiang Jianping glanced at the ordinary-looking young man coldly. “Jiang Cheng, did your three-star master potion succeed?”

Jiang Cheng glanced over with a stiff gaze. “If you weren’t here to waste my time, I think I would’ve already done it.”

Jiang Jianping’s face couldn’t help but darken, but he didn’t say anything. He glanced at the next person. “Jiang Jianping, don’t look at me. I don’t have anything for you to worry about.” The person who spoke twisted the ring on his hand with his finger. Yun Feng glanced at him and her black eyes darkened slightly. That person was a summoner!

Jiang Jianping gritted his teeth so hard that they made creaking sounds. "Jiang Shenyu, don't think that I won't dare to do anything to you just because you're the only summoner of the Jiang family!"

"Hm, I'll wait to see what you can do to me!" Jiang Shenyu glanced at him mockingly. "If it weren't that my Magic Beasts aren't of the highest quality, the master wouldn't have looked at a tamer like you at all, transvestite!"

"You..." Jiang Jianping unconsciously curled his finger again. It was obvious that the outstanding members of the Jiang family were having internal strife. Yun Feng saw everything on the side and couldn't help but sneer in her mind. It was simply wishful thinking to talk about unity in a large family that was scheming against each other.

Yun Feng flipped her wrist gently and the Golden Cauldron Fluid appeared. A smile flashed through Yun Feng's black eyes as she took out a few more things and added a drop of Golden Cauldron Fluid to each of them. Yun Feng opened one of the bottles and threw out two drops of red liquid. Looking at the bright, round red ball, Yun Feng moved her finger gently. The Fire Essence Origin Life Fluid with the addition flew out of Yun Feng's hand like lightning and directly pounced on the skin on the back of Jiang Wu and Jiang Cheng's necks!

Chapter 1230 Yun Xiang Appears (3)

Jiang Wu only felt that some liquid seemed to be dripping on his neck. He quickly wiped the back of his neck with his big hand and didn't find anything, so he didn't think much of it. He didn't know that the Fire Essence Origin Life Fluid had already penetrated his skin and entered his body quickly.

Jiang Cheng also did the same. He touched it and didn't find anything, but he still couldn't help but feel puzzled in his mind. He felt that something was wrong, but he couldn't tell where it was.

Yun Feng sneered and then opened the second bottle. The liquid inside turned completely transparent after absorbing the Golden Cauldron Fluid. Yun Feng did the same. Two drops of transparent liquid directly seeped into Jiang Shenyu and Jiang Jianping's bodies quickly. After doing all this, Yun Feng returned to the second level of the Dragon Palace.

"What did you do? Why are you so happy?" Qu Lanyi walked over and asked. Yun Feng shook the two bottles of potions in her hand with a delighted smile. Qu Lanyi knew one of them, but he didn't know the other. However, he soon understood what Yun Feng was doing.

"I only need to collect the fruits in half a year." Yun Feng looked at the two bottles of liquid in her hand. The Fire Essence Origin Life Fluid had the effect of corroding fighting energy to begin with. After adding the Golden Cauldron Fluid, it was even more effective! If such a liquid melted into the body of a warrior, the consequences as time passed could be imagined! The other bottle of liquid was certainly for mages with mental strength as the foundation! It was also effective on summoners, corroding mental strength!

Since she wanted to trap the Jiang family, she certainly had to be thorough and considerate so that nobody would notice. They had to wait until the last moment. By then, even a Zenith Heaven Golden Immortal probably wouldn't be able to save the four outstanding descendants of the Jiang family!

"It seems that it's useless when the four members of the Jiang family find out in half a year. Fengfeng, according to your estimation, how much will their strength fall in the next six months?"

Yun Feng smiled. "I've already been very careful not to let them notice. Naturally, the corrosion won't be obvious, but as time passes, their strength will drop by two grades in half a year."

"Two grades?" Qu Lanyi touched his chin with a smile. "That's already your limit, but it won't be easy for them to make up for it in the future."

Yun Feng curled her lips. "We can leave Jiang City now."

Mu Canghai walked over and looked at Yun Feng with his strange eyes. "Are you going to the other three cities that are on the same side as the Jiang family?"

Yun Feng shook her head. "No need. The four cities led by the Jiang family certainly follow the Jiang family's lead. If the Jiang family falls, they'll certainly be gone. There's nothing to be afraid of."

Mu Canghai nodded. Qu Lanyi raised his brows. "The next step is to visit those who aren't on the same side as the Jiang family. If there are any neutral families, be careful."

Yun Feng nodded. That's right. Neutral families were just a group of weeds that fell with the wind. They would certainly side with whoever was stronger. The ten cities might not all participate in the selection this time. Even though everyone wanted to participate, not every family could take out those hundred ultimate ores. The weaker families certainly had to rely on the large families. If the leading families became successful, they would certainly have a lot of benefits, like the three families on the same side as the Jiang family.

The neutral families could be fought over, but they were not very important.

Yun Feng was most worried about the families that supported the Yun family. They might also have evil intentions towards the Yun family. If that was the case, it would really be difficult.

The three of them immediately left Jiang City after coming out of the Dragon Palace. Yun Feng's attack was unnoticed. In half a year, it would probably cause a storm in the Jiang family. There were still five cities that she didn't know about. Yun Feng and the others immediately decided to set off for the nearest city. It was a coincidence that the four families that were with the Jiang family were all located around the Jiang family. Excluding the four cities, Wu City was the closest.

They were so close to the Jiang family's base and didn't join it. It was obviously not wise to support the Yun family with such a geographical location. The Wu family should be neutral. Since they were neutral, Yun Feng and her companions should be able to go inside with the Jiang City's pass in their hands. As expected, after the guard saw the passes in Yun Feng and the others' hands, he first sized up the three of them and then let them enter the city.

The overall area of Wu City was much smaller than that of Jiang City. Yun Feng and the others stayed in Wu City for about a few days and figured out the situation of the ten cities.

Among the ten cities, the Jiang family and the Bai family had the most power. The Yun family should also be counted as one of the them, but their family had declined and couldn't be ranked among them right now. Right now, two of the ten cities were dominating. Three of them were attached to the Jiang family, but none of the families were attached to the Bai family, because the Bai family and the Yun family were on good terms.

This made many families extremely confused. The Bai family was an existence that could compete with the Jiang family in every aspect, but they had to be on good terms with the Yun family. What was the use of being on good terms with such a declined family? The other four families couldn't make up their minds, so they didn't get close to either side. The four families became neutral families. Since none of them stood out, the neutral families remained neutral.

After learning about this situation, Yun Feng was more or less relieved in her mind. She finally knew that the Yun family wasn't alone. If it was really a one-on-nine situation, it would be tricky! However, the Bai family, which was so powerful, was on good terms with the Yun family. Yun Feng couldn't help but doubt the motive of the Bai family. Such a family wouldn't lower themselves to be on good terms with a declined family, unless they wanted to get something from the Yun family, such as the power of the bloodline of a summoner!

She couldn't hurt anyone, but she must be vigilant against others! Especially in such a situation where the Yun family was facing internal and external troubles, she had to be more vigilant no matter how good an outsider looked. The Yun family's specialness and the summoner bloodline the Yun family had were existences that others couldn't understand and were fanatical about in their minds! Imagine if this bloodline was completely stimulated and the people who had this bloodline all awakened and became summoners, then... the family that got this bloodline would be the top existence in this world! Nobody could surpass them!

What a crazy bloodline power that people wanted day and night! Otherwise, those people wouldn't have targeted the Yun family!

Even though Yun Feng was vigilant, she also hoped that she was thinking too much about everything at the same time. The Bai family might not have such thoughts about the Yun family. She was just being paranoid... However, she would only understand the taste of everything after experiencing it herself!
