

## Summoner 131

### Chapter 131: Shocking the Audience (1)

“Zheng Ran, are you mad? If something happens to this mage, how can you explain it?” Kai’s face was full of anger. Zheng Ran didn’t take what he said seriously and allowed this young mage to make trouble... This... The kid was immature. Couldn’t he understand that even at his age?

“Explain? Who do I need to explain to? Yun Feng is a member of the Mercenary Union. Even if I have to explain, I just need to explain to our President.” Zheng Ran looked cold as Kai’s expression also changed slightly. He knew that he talked a bit too anxiously just then. He was very annoyed and impatient, but things had already developed completely uncontrollably and he could no longer stop it anymore!

Kai stared at the ring firmly and hoped that the three members of the Evil Wolf Mercenary Group were just idiots. If not... How would a level-6 mage be able to beat such a lineup?

“She’s beating her head against the wall. How foolish!” Kasa looked at Yun Feng as a fire of anger and also deep jealousy rose in her heart. She looked at Murong Yuntian next to her with her beautiful eyes and was even more furious when she found that his eyes were also attracted to Yun Feng.

“Isn’t she just a mage? Hm!” She mumbled softly. Kasa glared at Murong Yuntian a bit angrily, but Murong Yuntian ignored her. His black eyes only stared at that petite body. Would she... win?

What Zheng Ran said confirmed the sudden addition of a battle. The three Commanders of the Evil Wolf Mercenary Group were all smiling ferociously. They had been choking with resentment for a long time. And now, they finally had a chance to vent their anger.

“We must torture her harshly to get even with her.” The man with a scar smiled cunningly as he looked at Yun Feng opposite him and said with a deep voice, licking his lips gently with his tongue.

“Yun Feng, it’s not a big deal for young people to be impetuous, but you must learn a lesson if you don’t know your place!” The Commander of the Evil Wolf Mercenary Group looked at Yun Feng with crazy viciousness and cruelty in his eyes like those of a wolf. Yun Feng slowly curled up the corners of her lips and gently shook her head. “I’ve seen many people who talk a lot of nonsense. It wouldn’t change much counting you in.”

The expressions of the three Commanders of the Evil Wolf Mercenary Group immediately changed slightly after hearing that and the viciousness in their minds became even stronger. “We’ll let you take advantage of us with your words right now. After a while, you’ll know how it feels when you can neither live nor die!”

The judge looked at both parties carefully. The three Commanders of the Evil Wolf Mercenary Group were fierce and vicious, while Yun Feng was calm and relaxed.

“The Red Maple Mercenary Team should also send out three people, to be fair.” The judge reminded them. Zhao Mingqi and Wang Ming then yelled down the ring. “My Lady, let us do it!”

Yun Feng slowly turned around. “Do you want to die coming up here? Don’t worry. I’ve already arranged everything in my mind. You just need to watch the battle from down there.”

Zhao Mingqi and Wang Ming were both anxious after hearing what she said. She was really planning to fight with the three Commanders by herself? How could she do that? This, this, this... This is too reckless!

However, the judge couldn't say anything since Yun Feng had already decided. In fact, he also understood after thinking carefully. Even though Zhao Mingqi and Wang Ming were both level-6 warriors and had a weapon with six holes and six crystals, there was still a huge gap between them and the three Commanders of the Evil Wolf Mercenary Group. There was a watershed between level 6 and level 7!

Members of the Red Maple were extremely worried, but Yun Feng wasn't at all. Her strength had already reached level 7 right now. Together with the power of her body, which was comparable to that of a level-6 Magic Beast, it would be very difficult for the three people in front of her to beat her.

When a mage, who was proficient in using magic, fought with warriors of the same level, the mage would be at an absolute advantage, as long as the warriors couldn't get close and make attacks!

The three Commanders of the Evil Wolf Mercenary Group all burst into laughter when they saw Yun Feng standing on the opposite side alone. "Why? Do you really think you can beat us with your level-6 power?"

Yun Feng smiled slightly and didn't say anything as the short wand appeared again in her hand. The three Commanders of the Evil Wolf Mercenary Group couldn't help becoming alert after seeing it. Yun Feng closed her eyes gently and the blue water element surrounded the wand. The six Magic Beast Crystals emitted dazzling light abruptly. When the light flashed, the giant python yesterday that was a few meters long showed up again!

"Sizzle..." The giant python stuck out its tongue with evilness in its wide-opened eyes. Its transparent blue body wriggled slowly, carrying the coldness that could freeze the air.

"Haha, why? You want to beat us just by yourself and a snake? Aren't you too confident with yourself?" Greedy Wolf's scar couldn't help becoming more ferocious after seeing this. A level-6 mage with a giant snake wanted to defeat the three of them? How ridiculous!

Yun Feng shook her head and a beaming smile appeared on her gorgeous face. "Tut-tut, a competition must be fair after all. Since there are three of you, we should certainly have the same number of participants as well."

"I'll see where you can find the third one. Hahaha, you aren't praying for reinforcement, are you? Haha..." The Deputy Commander with faded scars all over his face held his belly and laughed loudly with a mocking look. However, his throat slowly became dry as he laughed and his breath suddenly sped up. His pupils shrank gradually and he felt like his heart was about to jump out of his chest. She... What... What is that?

"Ignorant people, just shut your mouth." Yun Feng said indifferently as she closed her eyes again and spun the wand in her hand. Dazzling light burst out of the six crystals on the wand again, hurting everyone's eyes!

When the light disappeared, everyone's pupils shrank severely. Looking at the fiery red animal next to Yun Feng, their breath seemed to be completely stopped at this moment!

"What's that thing next to my Lady?" Wang Ming stared at the red wolf in front of him dumbfoundedly. A scorching temperature came right at him, which made him take a few steps back subconsciously.

Zhao Mingqi was also startled when he saw this. His eyes wandered between the giant blue python and the huge red wolf, and he couldn't stop looking. Zhao Yan clenched his fists and swung fiercely. "Fuck, my Lady is truly awesome!"

"That's... That's the fire element. Right, that's the fire element..." Kasa rushed to the railing quickly and her body was stuck out a few meters. Her big eyes stared formly at that entirely red animal next to Yun Feng. Kasa couldn't be more familiar with that element fluctuation. She was a fire-element mage. How would she not know what that was?

### **Chapter 132: Shocking the Audience (2)**

"A double-element mage. Oh God, she's a double-element mage!" Kasa mumbled. Her breath had already become messy. She couldn't believe the scene she saw in front of her eyes. A double-element mage, there hadn't been any double-element mage at Masang School of Magic the last few centuries and there was one here, in the Mercenary Union!

Kasa was extremely frustrated when she thought of the fact that Yun Feng belonged to the Mercenary Union. She thought Yun Feng was just a talented genius on the road of magic, but it turned out she was a double-element mage!

If the teachers at Masang School of Magic knew that there was a double-element talent in the Mercenary Union, how would they react? Not only Masang School of Magic, when the Karan Royal Family knew about this, her father might even come to poach her away in person!

Double-element mage... Yun Feng wasn't only a double-element mage. She was a five-element genius!

Zheng Ran, who had been smiling on the side since the beginning, couldn't help but feel a bit shocked. Looking at the blue and red giant beasts next to Yun Feng, he chuckled softly. Zheng Ran's eyes were full of surprise. The Mercenary Union had never had a mage before, and when they did, they got an absolute treasure. A double-element mage... Haha, kid, you truly astonished me. If the President sees this, his jaw will definitely drop in shock.

At this moment, Murong Yuntian's handsome face, which rarely had any expression, was covered with enthusiasm. His heart that rarely had fluctuations also thumped a few times at this moment. Murong Yuntian gently put his hand on his chest. His heart was still racing excitedly. Yun Feng... Murong Yuntian said this name softly. He had never thought that the girl that made his heart pound right now had already gone past him.

A blue giant python, a red giant wolf, these two enormous beasts stood on both sides of Yun Feng and let out a beastly growl. "Since you said the competition should be fair, it'll certainly be three against three." Yun Feng raised the corners of her mouth and swung the wand in her hand. The blue python opened its huge mouth that was full of sharp teeth. "Sizzle..." The giant wolf also opened its mouth wide fiercely. "Roar..."

The roar of the two giant beasts brought the audience to the verge of going crazy. Everyone was shouting with a flushed face and some were looking at everything happening in front of them dumbfoundedly. "Fuck, what's that red thing..."

"Fuck, you don't know? It's magic. The mage of the Mercenary Union is a double-element mage!"

"Holy shit! This world is crazy. The Red Maple Mercenary Team will definitely win!"

The three Commanders of the Evil Wolf Mercenary Group all felt a chill in their hearts when Yun Feng performed double-element magic. They had never thought she would be a double-element mage!

"What should we do?" Greedy Wolf asked the Commander softly as he stared at Yun Feng opposite him with viciousness in his eyes. Two giant beasts and one mage, such a lineup was difficult enough for them to deal with.

"Don't panic! Even though mages have impressive magic, don't forget that their bodies are weak! When one of us gets close to her body, then..."

The Commander of the Evil Wolf Mercenary Group stayed cool-headed in such a dangerous moment. He was quite something. He could still analyze the situation so calmly, which showed that his mind was stronger than that of normal people. The other two Deputy Commanders were enlightened after hearing that and the tension and anxiety they had earlier also disappeared. The weak body of a mage wouldn't be able to withstand a few punches from a warrior. Once they could get close to this mage and attack her, she... Hm, she would become disabled even if she didn't die! On such a ring, what could the others do after they killed a mage? Nobody could say anything!

The three of them made up their minds and they all had their own job. Their fighting energy surged out in a blink and they also took out their weapons. Just like those of the members of the Evil Wolf Mercenary Group who fought just now, their weapons had four holes and four crystals as well!

A smile slowly appeared on Yun Feng's face when she saw this. She suddenly pointed her wand forward as the giant python and giant wolf jumped up. The blue snake dashed forward fiercely, while the giant wolf hopped with fiery red light slashing through the sky!

"Beasts, let me take your life!" A loud shout came. The two Deputy Commanders of the Evil Wolf Mercenary Group rushed towards a beast each and started fighting with the giant python and the giant wolf respectively. Yun Feng watched everything happening before her eyes with a smile. "I'll play with you nicely."

The Commander of the Evil Wolf Mercenary Group saw the opportunity and he dashed forward with his weapon. His level-8 fighting energy struck through the air with the momentum that could split mountains and crack the ground, like a hard axe. The wind it caused also made people's skin painful!

"Water shield!" Yun Feng shouted. When the level-8 fighting energy was coming at her quickly, a light blue shield spread abruptly and blocked in front of Yun Feng firmly. The weapon of the Commander of the Evil Wolf Mercenary Group hit the surface of the shield, creating layers and layers of ripples. The Commander was slightly shocked. His level-8 fighting energy dissipated! Level-6 magic, how... how was this possible?

“Fire arrow!” The fire element formed an arrow that penetrated the water element shield terrifyingly. The expression of the Commander of the Elemental immediately changed drastically after seeing this. He raised his weapon and put it in front of his chest to block the arrow!

“Clang!” The fire arrow clashed against the weapon hard, creating some sparks. The Commander of the Evil Wolf Mercenary Group was also forced to take a few steps back. A heat then spread from his weapon to his palm and the burning sensation in his skin immediately hit. The Commander instantly mobilized his level-8 fighting energy to his hand to stop the burning sensation.

So strong... The Commander of the Evil Wolf Mercenary Group narrowed his eyes and looked at Yun Feng. Was this the power of a mage? If the warriors didn't break through her magic defense, they wouldn't have a chance to attack at all! The magic of mages wasn't limited by distance as well. They were completely at a disadvantage in the current situation!

He turned around and looked at both sides. The two Deputy Commanders were entangled with the two giant beasts and weren't at an advantage at all. The giant beasts formed by magic didn't have a concrete body! The attacks of the two Deputy Commanders didn't work on these two beasts at all and even put them in an extremely difficult situation instead.

The Commander of the Evil Wolf Mercenary Group didn't launch any attack by himself. Attacking blindly would only waste his power. Mage wasn't a profession that had no weakness at all! Looking at the layer of light blue shield in front of Yun Feng, the Commander of the Evil Wolf Mercenary Group narrowed his eyes viciously. The mental strength of a mage was also limited! And this was a weakness that mages couldn't avoid no matter what!

### **Chapter 133: Shocking the Audience (3)**

“She used magic simulation twice. The consumption of her mental strength is too high... If I'm right, that water shield should reach its limit soon... Such a strategy that doesn't take mental strength into account is truly reckless and stupid!” Kasa was standing on the platform. She was definitely the one who was most familiar with mages and she also had a deep understanding of the consumption of magic. As the level of mages increased, more mental strength was also required to perform high-level magic. Level-6 magic simulation was a magic that consumed more mental strength. It was fine if Yun Feng simulated only one giant beast, but she was simulating two! The existence of these two giant beasts was entirely supported by Yun Feng's mental strength. Even if she was an outstanding mage, this should be her limit!

Other people would certainly envy a double-element mage, but it was indeed much harder for a double-element mage to practice. The limit of mental strength limited the frequency and time of the mages' use of magic. Mages weren't omnipotent!

“Bang! Bang!” As if they were verifying this, the two simulated giant beasts let out a muffled sound and a cloud of blue and red mist exploded in the air immediately. Looking closely, the two giant beasts that were still roaring on the ring had already vanished!

“She has reached the limit!” Kasa yelled. Murong Yuntian next to her felt his heart tighten. He held the railing tight, looking like he was ready to rush out anytime.

“They... They’re gone? Where are those two beasts?” The audience couldn’t help but look dazed when they saw that the two giant beasts disappeared. Some of them rubbed their eyes, as if everything that happened just then was like a magnificent illusion.

The Commander of the Evil Wolf Mercenary Group smiled ferociously. Watching the blue shield in front of Yun Feng disappear slowly, the viciousness at the corners of his mouth gradually grew stronger as well. Right, this was the best time to attack!

“Yun Feng, you’ll not be able to return today!” The Commander of the Evil Wolf Mercenary Group rushed forward and he swung the weapon in his hand again quickly. His level-8 fighting energy spread completely. Even the air around was faintly vibrating with a buzzing sound!

Yun Feng slowly lifted her face and a smile also appeared at the corners of her mouth gently. Looking at the blade flashing towards her, she didn’t seem to be avoiding it at all. She knew he was waiting for this moment, and so was she!

“My Lady!” Wang Ming, Zhao Yan and Zhao Mingqi down the ring all shouted anxiously when they saw this scene. Wang Ming jumped up and was about to run up there, but Zhao Mingqi pulled him back. “Commander Zhao, let me go. My Lady is in danger!” Wang Ming yelled. Zhao Mingqi exerted his strength and pulled Wang Ming back. “If you go up the ring, you’ll break the rules! My Lady will lose!”

Hearing this, Wang Ming stomped his foot fiercely and a pithole was created underneath him! He could only look at the ring with anxiousness and frustration on his face, watching the level-8 warrior back Yun Feng into a corner!

If there was no way out, why should she still find a way?

Yun Feng put up a smile on her lips and her slender hands suddenly clenched into fists. Hearing the scattered sound of the wind and shouts around, and the faint buzzing sound that came in the air, her small body dashed forward and her fist went straight out!

“Boom!”

A muffled sound exploded in the air. The Commander of the Evil Wolf Mercenary Group only felt a severe pain in his chest like his flesh was ground. His eyes turned red and his eyeballs were about to pop out of the eye sockets!

He lowered his head slightly and saw that the little girl, who should have been slashed by him, appeared in front of him and her slender fist had already punched into his body all of a sudden!

“That’s... That’s impossible!” The Commander of the Evil Wolf Mercenary Group said these few words. A fist punched into his level-8 warrior body. Which level was this power at? She was a mage. How...

The same smile was still at the corners of Yun Feng’s mouth. She slowly lifted her little face and looked into the eyes of the Commander of the Evil Wolf Mercenary Group, which remained wide open after he died. “There’s nothing impossible in this world!”

“Clang!” The Commander of the Elemental suddenly knelt on the ground as the weapon in his hand slid onto the floor, creating a deep, loud noise. Yun Feng in front of him slowly retracted her hand and looked at the blood on her hand with her black eyes. She narrowed her eyes slightly as the tiny fire

element surrounded her fist. After a while, the back of her hand that was covered with blood already looked like before. All the blood had evaporated. After simulating two giant beasts and using magic, she could still continue using magic with ease. What a terrifying mental strength this was!

Everyone was dumbfounded and the whole square was in silence. They even held their breath. The two Deputy Commanders of the Evil Wolf Mercenary Group suddenly collected themselves and looked at the Commander who died kneeling on the ground, shouting into the air sorrowfully!

“He’s... He’s dead... What exactly happened just then?” Kasa looked at the dead level-8 warrior kneeling on the ground and felt a chill down her spine. What exactly happened when the two of them had contact just now? Why did he die just like that?

“Yun Feng’s punch penetrated his body.” Murong Yuntian standing next to her said coldly. This made the expressions of Fitch, Kai and Zheng Ran change. The three of them certainly saw that scene just now very clearly. The astonishment in their minds couldn’t be described in words anymore!

“Yuntian, that’s impossible! She’s a mage. How would she be able to punch into the body of a level-8 warrior? Have you heard of a mage whose strength is comparable to that of a warrior? This is absolutely... absolutely impossible! She must have used magic at a close distance at that moment. This must be the case!” Kasa said quickly. Perhaps she was trying to dispel the doubts, the astonishment or even... the fear in her mind!

The others also remained silent and they all looked at Yun Feng with a deep gaze. How could they possibly believe what Kasa said? The truth was right in front of their eyes!

Yun Feng was a mage, but she killed a level-8 warrior with her fist directly!

“This... This...” Kai mumbled while sitting in his seat. This kid had given him too much shock, so much that he couldn’t believe it and dared not to believe it anymore!

“She’s a warrior and should be at level 7!” Murong Yuntian said with certainty again. Everyone’s expression changed abruptly. There was only one thought in their minds. It turned out someone who was both a warrior and a mage truly existed!

### **Chapter 134: Surrendered, All Surrendered (1)**

“Yun Feng, give me your life!” The eyes of the two Deputy Commanders of the Evil Wolf Mercenary Group couldn’t help turning red when they saw their Commander die kneeling on the ground miserably. A loud, furious shout came out of their throats. Blue veins appeared on both of their necks and the weapons in their hands also vibrated violently. That was the fierce infusion of their fighting energy!

“Argh!” An endless roar broke out in the air and also broke the silence just now!

“My Lady!” Wang Ming jumped up as he watched the two level-7 warriors attack Yun Feng at the same time. They were so fast that nobody could dodge at all!

Yun Feng lifted her black eyes and she suddenly swung her hand forward fiercely, shooting out a beam of dazzling light from her palm. The man with faded scars on his face, who jumped into the air and took a slash with his weapon, screamed. He fell onto the ground from the sky messily like a broken kite and Yun Feng’s short, delicate wand was impressively in his chest with half of it already pierced deep inside!

Penetrating his heart with a wand!

“I’ll kill you!” The terrifying scar on Greedy Wolf’s face immediately became extremely ferocious. His face that wasn’t so ugly before also became like a demon from hell at this moment. Blood-thirst and viciousness burst out of his eyes!

Yun Feng didn’t stop her movement. She immediately made a rapid turn and looked straight at Greedy Wolf’s extremely ferocious face!

“You want to kill me?” Yun Feng said coldly as she avoided the sword that Greedy Wolf slashed sideways. Her hand reached towards the dead Deputy Commander on the side and the wand that had originally been pierced deeply into his body suddenly vibrated slightly, shooting over from the dead body!

“Plop!” She caught the wand, which carried warm blood and a light pungent smell of blood, with her hand. This undoubtedly made Greedy Wolf more furious. Two of the top elites of the Evil Wolf Mercenary Group were killed in a heartbeat by this kid, who seemed to be completely harmless, in front of him! He couldn’t accept this no matter what and the resentment in his mind wouldn’t go away if he didn’t kill her!

“Fire flame.” Yun Feng whispered as a bright red flame burnt in her palm. The fire in her fair palm grew larger and larger. People around couldn’t help but gasp when they saw this scene. Magic, Magic again!

“That’s impossible! She still has the mental strength to use magic? How... How is that possible?” Kasa stared at the scene in front of her eyes firmly and was a bit startled. Didn’t the two magic simulations and the few water-element and fire-element magic earlier consume her mental strength? Hadn’t the disappearance of those magic shown that her mental strength had reached the limit? Even a high-level powerhouse couldn’t possibly restore their mental strength and use magic again in just a few seconds!

Unless... her mental strength had reached an unbelievably powerful level! Such a thought came to Kasa’s mind. After that, she shook her head and immediately denied herself. Someone from the East Continent... How would someone from the East Continent, who was born with physical restrictions, have such powerful mental strength?

“This kid did it on purpose...” Zheng Ran narrowed his eyes and looked at Yun Feng’s moves. Thinking about the two magic beasts that suddenly disappeared just then, it didn’t seem like her mental strength had reached the limit as Kasa said. Instead, the kid kept another card up her sleeve...

Greedy Wolf on the ring saw the jumping fire element in Yun Feng’s palm and his eyes widened, as if his eye sockets were about to crack! “She can’t be using magic again...” Greedy Wolf murmured as a high temperature then came right at him. His heel landed on the ground abruptly and spun at a high speed. A small pithole was created on the ground by Greedy Wolf’s movement. Greedy Wolf’s eyes were full of fear. This was too creepy, too... frightening!

Yun Feng watched Greedy Wolf run with coldness in her black eyes. “How many times do I have to tell you that there’s nothing impossible in this world? Go!” As Yun Feng shouted, the jumping fire element in her palm that was eager to move suddenly turned into a ferocious beast’s head and the faint growl of the beast burst from the flame!

“Argh!” After a scream, Greedy Wolf’s entire body was swallowed by the ferocious beast’s mouth. The smell of his body being scorched by the fire came and a few more gentle popping sounds could be heard. The moment the red flame disappeared, Greedy Wolf was nowhere to be seen!

This flame devoured everything of Greedy Wolf, leaving no residue at all!

The throats of the audiences became even tighter at this moment. The cheers from earlier had already disappeared right now. Only pairs of eyes flashing with madness and astonishment, and mouths that couldn’t be closed, were left!

Yun Feng’s petite body stood on the ring with two lifeless dead bodies next to her. One was lying, the other was kneeling, and the last one had already vanished completely from the world!

“The... The... The Red Maple Mercenary Team... wins!” The judge’s announcement ended the battle. The few members of the Red Maple Mercenary Team showed a completely dumbfounded look. Wang Ming had one leg on the edge of the ring, while Zhao Mingqi and Zhao Yan were also hung on the side of the ring. Yun Feng’s neat and clean attacks just then made the three of them totally stunned.

When the judge announced the result with a tremor in his voice, the three of them finally had a feeling of realization. They won. The Red Maple Mercenary Team won!

“Yay! We won. We won!” Zhao Yan was the first to cheer. At this moment when everyone was in silence, Zhao Yan’s loud cheers were like the fuse. In a blink, people who remained quiet earlier all shouted their heads off again!

“Red Maple! I support you! I’ll follow you from now on!”

“Me too!”

“Me too! I’ll follow you!”

Wang Ming and Zhao Mingqi felt like they were waking up from a dream and they both burst into laughter.

Hearing the hearty, cheerful laugh on the side of the Red Maple Mercenary Team, she lifted her little face and looked at everyone, who was cheering and shouting for them around the square. A great passion rose in her heart and the back of her small body also seemed more upright and towering!

“She’s a talent...” Kai looked at Yun Feng and said softly. His eyes were full of excitement. The Karan Royal Family must get her, they must!

Zheng Ran looked at Yun Feng with a smile and shook his head. “No, she is a genius, a powerful genius...”

### **Chapter 135: Surrendered, All Surrendered (2)**

Kai turned around and glanced at Zheng Ran with an extremely complicated look. Would the Mercenary Union let go of such a person? His mind was immediately shrouded in a layer of thundercloud. Kai’s black eyes gazed at Yun Feng again as he clenched his fists on the sides of his body silently. No matter what conditions she made, the Karan Royal Family would give it all this time!

The Mercenary Level Assessment Convention this year finally ended. Some were happy and some were sad. The competitions every year were amazing, but the ones this year made people's hearts hot out of excitement!

The Red Maple Mercenary Team, which was supposed to lose their strength and be downgraded to the two-star level, showed one miracle after another in the level assessment this year. The addition of that mage greatly increased the strength of the Red Maple Mercenary Team all of a sudden. The wand with six holes and six crystals that made people jealous... Legends were made one by one and a resounding name was engraved in everyone's mind, the Red Maple Mercenary Team!

Meanwhile, the base camp of the Red Maple Mercenary Team had become a sea of joy! The faces of every mercenary were covered with pride and pleasure! From now on, the Red Maple Mercenary Team wouldn't be a three-star mercenary group anymore. Four-star, the Red Maple Mercenary Team had already become a four-star mercenary group!

"My Lady, there's a long queue outside the Red Maple Mercenary Team... That's truly..." Zhao Mingqi looked at the queue of mercenaries outside the door of the Red Maple Mercenary Team and was extremely delighted and emotional in his mind. The Red Maple Mercenary Team made a huge splash in the level assessment this year and they caught everyone's attention. After the convention ended, the mercenaries followed them like crazy, like bees to honey.

Yun Feng also looked at the long queue outside, the end of which couldn't be seen at all, a bit speechlessly. She was truly stunned by the enthusiasm of the mercenaries. It turned out their appeal could be so terrifying...

"It's all because of my Lady! The Red Maple Mercenary Team will become famous this time!" Zhao Yan looked outside and said with an indescribable pride in his tone. Thinking of his attitude towards Yun Feng at the beginning, Zhao Yan was still feeling embarrassed. If it weren't for Yun Feng, how would the Red Maple Mercenary Team have such glory? Without Yun Feng, the Red Maple Mercenary Team might have been downgraded to a two-star mercenary group...

"No, the Red Maple Mercenary Team also has its own charisma. This is good. The power that the Red Maple Mercenary Team lost can be restored very quickly." Yun Feng smiled lightly as Zhao Mingqi nodded after hearing that. Once the level assessment ended, Wang Ming immediately led some of his men to the Shiny Plains. According to the rules, since the Evil Wolf Mercenary Group lost, their level-4 mineral veins would naturally belong to the Red Maple Mercenary Team as well!

Wang Ming took his men to take over the mineral veins. Then, the Red Maple Mercenary Team would have four mineral veins they got from the four five-star groups and two from the Evil Wolf Mercenary Group right now. They had already gotten a total of six mineral veins!

In the entire Mercenary Union, even the five-star groups didn't have as many mineral veins as Yun Feng! No five-star group on the Shiny Plains would dare to fight over the territory with the Red Maple Mercenary Team. It wasn't that they had nothing else to do! The level assessment this time made the status of the Red Maple Mercenary Team soar, becoming second only to the five-star groups. Even though their strength was still a bit weaker than that of the five-star groups, the Red Maple Mercenary Team was undoubtedly the uncrowned king in terms of popularity!

There was suddenly a commotion in the long queue outside. The mercenaries lining up all made way automatically. Yun Feng and the others certainly saw this scene as well. When she saw several people coming over from afar, the corners of her mouth curled up and she went up there to greet them.

“Mr. Zheng Ran.” Yun Feng gave a sweet smile. Her innocent, childlike face looked very cute and sweet when she smiled. Nobody would have thought that such a little girl would be able to take down a four-star mercenary group!

The Evil Wolf Mercenary Group could be said to be existing in name only at the moment. Their few senior members were already dead. Although the remaining members weren't weak, they would only be extremely embarrassed street rats that everyone wanted to beat in the three-star level, where different kinds of people jumbled up, due to the bad reputation of the Evil Wolf Mercenary Group in the past, the decrease in their level, and the loss of all their original property.

Zheng Ran came in with a smile. Kai and the others were certainly behind him as well. They had caught many people's attention along the way. Everyone knew that these strangers were people who showed up on the platform together with their Vice President, so their identities wouldn't be ordinary.

Yun Feng glanced over the few of them with indifference in her eyes. She didn't focus on them and she gazed back at Zheng Ran again. Once Zheng Ran entered the house, he looked around. “Hm, the Red Maple Mercenary Team should move to the four-star area tomorrow. That's what you won.”

Zhao Mingqi and Zhao Yan were both thrilled when they heard that. Did the Vice President of the Mercenary Union come here in person to congratulate the Red Maple Mercenary Team? That was such a great honor! And all this happened because of the presence of their Young Lady!

“Let us talk on the second floor.” Zhao Mingqi said as he glanced at the few people behind Zheng Ran. He knew that they all had a superior status. Zheng Ran looked at Kai and Kai nodded.

“Kid, you really surprised me.” Zheng Ran and Yun Feng walked side by side. One of them was the Vice President of the Mercenary Union, the other was a mercenary registered under the Mercenary Union, but their backs didn't make people feel like there was a gap between them. Both of them were champions!

Kasa sized up the furnishings in the house of the Red Maple Mercenary Team with her big eyes and pursed her lips a bit disdainfully. Her eyes were full of contempt. Zhao Mingqi certainly saw her expression and his face couldn't help but flush slightly. The furnishings of the Red Maple Mercenary Team were very simple and they had always been thrifty. They had never thought they would have such a glorious day, so the furnishings seemed a bit ragged looking at them right now.

Murong Yuntian looked around and said in affirmation, “This place is pretty nice.”

Zhao Yan burst into laughter after hearing that. He had quite a good impression on Murong Yuntian. When he was about to put his hand on Murong Yuntian's shoulder, he felt a trace of coldness surging out of Murong Yuntian's back all of a sudden. Murong Yuntian turned around and looked at Zhao Yan with coldness in his black eyes. Zhao Yan lifted the corners of his mouth with embarrassment as he retracted his hand.

The few of them walked to the second floor. Zhao Mingqi opened a door to let them enter. Zhao Yan also wanted to follow them inside casually, but Zhao Mingqi pulled him out.

“Father, why did you drag me out?” Zhao Yan asked in confusion. Zhao Mingqi closed the door carefully and took his son to somewhere far away before speaking softly, “Those aren’t someone people of our level can have contact with.”

### **Chapter 136: Surrendered, All Surrendered (3)**

After hearing that, Zhao Yan couldn’t help but frown slightly. He then smiled at ease. “Father, why did those strangers come to the Red Maple Mercenary Team?”

Zhao Mingqi pondered as the corners of his lips curled up and a strong sense of pride shot out of his eyes. “What else can it be? They’re here for our Young Lady for sure.”

After everyone sat down in the room, Zheng Ran and Yun Feng happily chatted in a low voice. Kai and Kasa looked anxious on the side, while Murong Yuntian and Fitch seemed calm. After all they couldn’t be regarded as members of the Karan Royal Family.

“Ahem!” Kai coughed a few times softly when he saw that Zheng Ran wasn’t introducing him. Zheng Ran gazed over and looked like he had just noticed Kai.

“Right, Yun Feng, I still haven’t introduced this man to you. This is...”

“You don’t have to introduce him to me. If I’m right, this must be someone from the Karan Royal Family. Am I right?” Yun Feng smiled as she gazed at Kai. Kai felt a bit embarrassed to be looked at by such a kid. He collected his mind quickly. “That’s right. I’m Kasa’s uncle, the brother of the current Emperor, Prince Kai.”

Yun Feng’s expression didn’t change a bit after hearing that. Kai was a bit frustrated when he saw this. Wouldn’t an ordinary person normally be shocked and feel flattered after knowing their dignified status, not to mention she was just a kid?

Kasa wasn’t surprised anymore. Yun Feng still dared to attack her after knowing she was the princess of the royal family. This was already enough to prove that Yun Feng didn’t take the Karan Royal Family seriously.

“Why are you here to see a small mercenary like me, Prince Kai?” Yun Feng asked softly. Zheng Ran sat there with a smile and didn’t say anything else.

When Kai heard this, he felt like this was his chance to rope Yun Feng in. “I came here on behalf of the Karan Royal Family this time. Yun Feng, your strength should be invested in a greater future, instead of... What I mean is that the Karan Royal Family needs you!”

Kasa looked at Yun Feng with a proud face, as if she was waiting to see Yun Feng’s surprised expression. Her identity as a princess might not be enough, but this was the prince! Wasn’t it enough for the prince to come for her in person?

Kai and Kasa both had the same expression. They were both members of the royal family, so they would certainly have the same face. Yun Feng didn’t say anything after hearing that. Kai couldn’t help feeling startled. He glanced at Kasa, while Kasa smiled a bit embarrassedly.

“Yun Feng, Uncle Kai came here on behalf of the royal family! If you have any request, just tell him!”

Kai nodded approvingly. It was indeed a bit inappropriate for a Prince to say this. Yun Feng only chuckled when she heard what Kasa said. “Is the Karan Royal Family trying to poach me away?”

Kai burst into laughter after hearing that. “You can also say so. Talents like you are highly desirable everywhere.”

Yun Feng retained her smile when she heard this flattering remark. She glanced at Zheng Ran who was sitting next to her. “Mr. Zheng Ran, what do you think?”

Zheng Ran chuckled happily. “The Mercenary Union doesn’t restrict the freedom of mercenaries. If you want to go, you certainly can.”

Kai couldn’t help feeling delighted after hearing this. He thought he would have to put in some effort to poach someone from Zheng Ran, but it seemed that it was quite easy right now.

Yun Feng looked at the excitement in Kai’s eyes with coldness in her mind. She didn’t have any good feelings towards the Karan Royal Family at all! The Yun family were their slaves? Perhaps they were in the past... And yet, from now on, from the moment Yun Feng took responsibility for everything of the Yun family, they were nobody’s slaves anymore!

Kai gave Kasa a signal when he saw that Yun Feng still hadn’t said anything after a long time. Kasa understood what Kai meant. She started spitting out a large number of offers, like promotion in rank and position, money and jewelry, houses and men, everything.

Yun Feng sat there unmoved and her eyes didn’t even blink. Murong Yuntian showed a smile at the corners of his mouth when he saw this. “If these things still don’t interest you, what do you want?” Kasa asked. Yun Feng looked at her. “The Karan Royal Family may not be able to give me what I want.”

Hearing this, the faces of Kasa and Kai couldn’t help but darken. What couldn’t the Karan Royal Family offer? The entire Karan Empire belonged to the Karan Royal Family. The only thing they couldn’t give her was the authority in their hands, the throne high above!

“Yun Feng, this is an invitation from the royal family. We came here with sincerity. Don’t you disrespect us.” Kai immediately looked cold. Even though you’re a rare genius, even though the Karan Royal Family really needs you, we can’t let you mess around and make requests randomly. The tolerance of the royal family also has a limit!

Yun Feng’s lips curled up and she shook her head with a smile. “If the Karan Royal Family can’t give me what I want, I can only thank you for your kindness.”

Zheng Ran next to her had a smile in his eyes as he listened. He curled up his lips at Kai cunningly like an old fox. Kai was so enraged that he almost stomped his feet. Luckily, his dignity as a member of the royal family stopped him, or he would truly lose his demeanor.

“Your Highness, I’ve done what you requested, but Yun Feng rejected you herself. You should also give up.” What Zheng Ran said made Kai widen his eyes. He glanced at Yun Feng a bit reluctantly and finally made a “hm” sound. However, he got over it as he pondered in his mind. Masang School of Magic would

definitely not let go of such a mage. Since she would definitely be admitted to Masang School of Magic in the future, she would be under the Karan Royal Family by then as well!

Thinking of this, Kai was also relieved. The most important thing right now was not to fall out with her. If not... there would be a huge problem.

Kai had just stopped trying to poach Yun Feng when Fitch suddenly chuckled. Zheng Ran looked at him. "Fitch, don't tell me that you want to take her away from me as well?"

Fitch smiled joyfully after hearing that and he stared at Yun Feng with his glistening eyes. She had reached such a level at this age. How could the School of the God of War let go of this seedling?

"Haha, nobody would let go of such a good seedling!"

Kai was even more thrilled when he heard this. If the School of the God of War of the Karan Empire got her, she would also be under the Karan Royal Family! "You're right, Fitch. This kid will have a great development in the School of the God of War with her potential."

#### **Chapter 137: Surrendered, All Surrendered (4)**

Yun Feng glanced at Fitch as she found it hilarious. "Why should I go to the School of the God of War?"

Fitch chuckled. "Of course, to learn and practice to be a warrior!"

Kasa couldn't help feeling a bit anxious after hearing this. "No! She's a mage. She belongs to Masang School of Magic!"

Fitch was embarrassed after hearing this and his heart started pounding, but he was unwilling to give up just like that. Yun Feng watched these people fight over her quietly and had the impulse to roll her eyes.

"I'm not going to the School of the God of War!" Yun Feng said as Kasa looked at Fitch with arrogance. Fitch was a bit discouraged, while Murong Yuntian gazed at Yun Feng with his black eyes. "Why?"

Everyone was confused. Kasa then said, "Because she'll certainly go to Masang School of Magic to learn magic!"

Murong Yuntian didn't look at Kasa at all. He just looked at Yun Feng. Kasa couldn't help but flush in embarrassment and she glared at Murong Yuntian in dissatisfaction. However, Murong Yuntian kept ignoring her.

"It's very simple. I'm not a warrior." What she said astonished everyone!

"You are." Murong Yuntian said this in certainty. The others were also a bit dumbfounded after hearing her reply. How would she have such strength if she wasn't a warrior? How would she be able to fight directly against the fighting energy of a level-8 warrior and kill him with a punch if she wasn't a warrior? Who would believe that she wasn't a warrior?

Yun Feng smiled speechlessly. "My Qi meridians have been damaged. It's true. If you don't believe me, you can see for yourself."

Right after Yun Feng said this, several powers surged tentatively from all directions. Yun Feng also let them feel out generously and she saw how shocked they were as expected.

There wasn't any fluctuation of fighting energy. There was no fighting energy in her body at all!

"This... This..." Fitch was stunned and he didn't know what to say. He sized Yun Feng up back and forth with his eyes as Yun Feng smiled. "So, why should I go to the School of the God of War if my Qi meridians are damaged? To be a decoration?"

"Then, what's with your strength?" Murong Yuntian was also astonished, but the fact was right in front of him. He had to believe it!

Yun Feng opened her mouth wide and gave a beaming smile. "It's just the result of me training my body harder than the others."

Everyone's face darkened after hearing this and the voice of the ancestor also sounded in Yun Feng's mind, "You kid..."

Kai didn't succeed in recruiting Yun Feng this time, but he was in a pretty good mood, because Masang School of Magic wouldn't miss Yun Feng with her identity as a mage. So, he didn't have to worry about anything as well.

The second day after the level assessment ended, Kai and the others were about to go back. Before they left, Kai said to Yun Feng with a smile that she should visit the Imperial Capital more when she had time. Yun Feng didn't say anything. The few of them then returned with a complicated feeling. This trip to the Mercenary Union must be an unforgettable memory for each of them.

The news that the Red Maple Mercenary Team defeated the Evil Wolf Mercenary Group didn't only spread in the mercenary world. The Murong family, which had a close relationship with the Evil Wolf Mercenary Group, also received the news immediately.

"What did you say? The Evil Wolf Mercenary Group was downgraded?" In the Murong family in Park City, Murong Shuli was stunned after hearing the news. He immediately got up and couldn't believe it.

"Yes, yes, yes..." The person who came to report the news was startled. The fierceness of Murong Shuli's level-6 fighting energy made him a bit breathless and he panted there desperately with a flushed face.

"Is this true? Is the source reliable?" A decent man with fair skin spoke from the side. Even though he was already over forty years old, his body was well-maintained. His face was so smooth that there were no wrinkles at all. If it weren't that his facial features looked mature and seemed to have experienced many vicissitudes of life, people would really think he was just a twenty-year-old man.

"Y-Yes... I've just received the news..."

The decent man with fair skin waved his hand and the person who brought the news immediately left. Only Murong Shuli, who looked shocked, and this decent looking man, who was thinking deeply, were left in the house.

"Father, if this is true..." The man spoke. Murong Shuli slowly sat in his seat again. "If this is true, the Murong family will have to consider changing to a new group."

The Murong family was also a cruel master. Although the Evil Wolf Mercenary Group and the Murong family had a partnership, both parties never trusted the other 100%. Since the Evil Wolf Mercenary

Group had fallen from power right now, the Murong family immediately wanted nothing to do with them and wanted to find another good group to inhabit!

Another day had passed and the news had been reliably confirmed. Murong Shuli's face also darkened completely and that decent looking man with fair skin was still sitting next to him. After a while, the man spoke, "Father, the strength of this suddenly rising Red Maple Mercenary Team soared. They will definitely be an outstanding group in the Mercenary Union in the future. Compared to the Evil Wolf Mercenary Group, the Red Maple Mercenary Team is a bit more reliable."

Murong Shuli frowned. "Ze, you're right, but the strength of this Red Maple Mercenary Team, which has just risen, isn't so stable yet. What if..."

Murong Ze smiled and shook his head. "We can know from the news that the Red Maple Mercenary Team has really stolen the show this time and is extremely popular right now in the Mercenary Union. We'll only benefit from working with such a mercenary group."

Murong Shuli pondered carefully for a while. The notorious reputation of the Evil Wolf Mercenary Group had made the Murong family suffer from quite a lot of losses. And because of their vicious means of doing things, the Murong family had always treated this partner as a hidden danger. Both parties might be connected in their interests, but their minds weren't simple.

"You're right. Ze, you should make some arrangements."

Murong Ze nodded. Something came to Murong Shuli's mind again. "I heard that Yuntian attended the level assessment this time. That kid has been away for more than a decade, but he doesn't miss home at all."

Murong Ze smiled with a hint of frustration and bitterness. "Yuntian has been away from home since he was small. It's normal that he doesn't miss home. I guess my son isn't involved in too many romantic relationships either."

Murong Shuli nodded. "Ze, about our cooperation with the Red Maple Mercenary Team, you must satisfy the other party and show our sincerity."

Murong Ze smiled and nodded. "Don't worry, father."

### **Chapter 138: Let's See How You Regret It (1)**

The Mercenary Level Assessment Convention this year had an unexpected winner, the Red Maple Mercenary Team which astonished everyone else. There were also other mercenary groups that have advanced to the four-star level in the three-star mercenary group challenges, but no one cared about these mercenary groups that also deserved to be graduated, under the halo of the Red Maple Mercenary Team.

The momentum of the Red Maple Mercenary Team was as high as the sky and was unstoppable. After moving into the four-star area, the base of the Red Maple Mercenary Team became more than two times larger. With the only level-6 mage in the Mercenary Union and six mid-level mineral veins, the Red Maple Mercenary Team immediately became the leader among the four-star groups. Although the Red Maple Mercenary Team was new to the four-star level, their status had already been deeply rooted in people's minds and couldn't be shaken!

The Red Maple Mercenary Team had already gained back the strength they lost during that brutal fight. Besides, due to the mid-level ores, the overall strength of the Red Maple Mercenary Team was also increasing steadily and had already become one of the top among the four-star groups.

Normally, mercenary groups that had just entered the four-star level must work hard for a period of time before they could stand firm among the four-star groups. This was a process that every four-star group must go through, but not the Red Maple Mercenary Team. The few four-star mercenary groups that rose to the top relying on their strength all came to the Red Maple Mercenary Team to establish a relationship with them right after they moved into the four-star area, like they were as close as brothers who wore the same pair of pants.

The treatment the Red Maple Mercenary Team got made those mercenary groups, which had just risen to the four-star level and still had to work hard, so jealous that their eyes turned a bit green.

However, even though they were envious and jealous, nobody dared to provoke the Red Maple Mercenary Team easily anymore right now.

With a level-6 mage, six mid-level mineral veins and a group of elite members with a weapon with six holes and six crystals each, wouldn't they just embarrass themselves if they provoked the Red Maple Mercenary Team?

Yun Feng had been at ease these days. The level assessment had already ended and everything of the Red Maple Mercenary Team was on the right track. She wanted to go out and gain some experience at first, and had never thought that she would stay on the Shiny Plains for such a long time. In these three months, Yun Feng became the backbone and the mental support of the Red Maple Mercenary Team. With Yun Feng here, the hearts of the mercenaries of the Red Maple Mercenary Team were all full of enthusiasm.

Meanwhile, Yun Feng was in her room and Meatball was released again. It was swinging its claws while gnashing its teeth at Yun Feng. Yun Feng looked at how dissatisfied Meatball was with a smile as she poked its chubby body with her finger. "Alright, I'll be getting out of here soon. I'm sorry for keeping you inside this period of time."

Meatball put down its claws after hearing what Yun Feng said, but it still pointed its butt at Yun Feng angrily. Yun Feng smiled speechlessly and poked Meatball's butt with her finger. Meatball swept the back of Yun Feng's hand with its fluffy tail as Yun Feng picked it up with one hand and swayed it side to side. It seemed that Meatball was still pissed and it pointed its little butt at Yun Feng.

Yun Feng was speechless. She was thinking how she should tell Zhao Mingqi that she was leaving. It was time for her to go out and gain experience. She believed that they would understand as well.

"My Lady." Zhao Mingqi's voice came from outside the door. Yun Feng got up and walked to the door, while Meatball quickly rushed to Yun Feng's shoulder and leaned against Yun Feng's cheek with its fluffy body. Yun Feng smiled. This little thing was truly interesting.

She opened the door and saw Zhao Mingqi standing outside. When Zhao Mingqi saw Meatball on Yun Feng's shoulder, he couldn't help but feel startled and his eyes immediately widened. This was the first time Meatball showed up in front of Zhao Mingqi. It was indeed surprising that a Magic Beast appeared here.

“My Lady, this... this is...” Zhao Mingqi looked at Meatball and didn’t know what to say. Their Young Lady had already given them a lot of surprises, and now another one? A Magic Beast? Their Young Lady had a Magic Beast!

Yun Feng smiled. “Uncle Zhao, what’s wrong?”

Zhao Mingqi subconsciously looked at Yun Feng’s hand. Yun Feng also knew what Zhao Mingqi was thinking. Zhao Mingqi’s thought was right. She was a summoner, but a summoner who didn’t like to wear the Ring of Contract.

Zhao Mingqi looked away, but his gaze also stayed on Meatball for a while before he said, “My Lady, someone came to see the Commander of the Red Maple Mercenary Team.”

Yun Feng smiled. “Uncle Zhao. You’re the Commander of the Red Maple Mercenary Team. Why did you come to find me?”

Zhao Mingqi smiled in embarrassment. When Yun Feng just came to the Red Maple Mercenary Team, he could still treat himself as the Commander. And yet, after going through so many things, Yun Feng was the one who took the Red Maple Mercenary Team to their current height step by step. Like every other member, Zhao Mingqi had recognized Yun Feng as the real Commander of the Red Maple Mercenary Team in his mind!

Yun Feng also knew what Zhao Mingqi was thinking. She really had no intention in taking the position of Commander, but it was now impossible for her to reject it. “Who came for the Red Maple Mercenary Team?”

Zhao Mingqi smiled happily when he heard Yun Feng ask this question. Even though their Young Lady didn’t admit that she was the Commander of the Red Maple Mercenary Team, she would definitely step up as the leader when something really happened to the Red Maple Mercenary Team.

“It’s someone from Park City. He said he’s from the Murong family.”

Meatball on Yun Feng’s shoulder suddenly gnashed its sharp teeth at this moment. Zhao Mingqi was startled when he saw this. He thought what he said pissed this fluffy little thing off and he quickly stepped back as he was worried that Meatball would attack him abruptly. Yun Feng gently caressed Meatball’s body with her finger and smoothed its hair. Under Yun Feng’s comfort, Meatball finally calmed down.

The Murong family... Yun Feng gave a playful smile. It seemed that the decline of the Evil Wolf Mercenary Group made the Murong family lose the tree that shaded them from the sunlight. And now, they had to find another tree. She had never thought the Red Maple Mercenary Team would become the second choice of the Murong family.

Zhao Mingqi only kept smiling when he saw that Yun Feng wasn’t talking. He didn’t really understand what Yun Feng meant. He just waited on the side quietly. Yun Feng pondered for a second. “Who came for us?”

“It’s just someone who delivers the message. He said the members of the Murong family are waiting at the tavern in Ge Yuan.”

Yun Feng nodded. Not everyone could enter the Mercenary Union and the Murong family couldn't possibly get in whenever they wanted either, so they could only send someone here to deliver the message. Yun Feng thought for a while. "Postpone this. Let us just finish our business first."

### **Chapter 139: Let's See How You Regret It (2)**

Zhao Mingqi also nodded after hearing that. He didn't want to respond to the Murong family either. What Yun Feng said spoke Zhao Mingqi's mind. After Zhao Mingqi left, Yun Feng returned to her room and sat on her bed to think about the invitation from the Murong family. The more she thought about it, the more she found it interesting.

"Kid, are you going to take the Murong family down a notch?" the ancestor chuckled and said. There was a teasing smile on his handsome face.

Yun Feng nodded. "Of course. He came for the Red Maple Mercenary Team, but the Red Maple Mercenary Team has no reason to respond to him. Just let him wait. We must act in a lofty attitude."

Meatball on Yun Feng's shoulder wiggled its little butt with a complacent look. The ancestor also burst into laughter and said that Yun Feng was really smart. Yun Feng gave a big smile. Murong family, since you came here yourselves, don't blame me for humiliating you.

Everyday life in Ge Yuan was busy and anxious. People who lived here had a very fast pace of life. Besides, since there were many mercenaries traveling in and out, Ge Yuan also had a restless environment.

In the largest tavern in Ge Yuan, Murong Ze had already been waiting here for more than five days. In these five days, he changed from being calm at first, to being anxious afterwards and being fretful right now. He was fretful not only because he was about to use up the money he brought this time due to the level of consumption here. What made him more anxious was that there hadn't been the slightest news coming back from the Red Maple Mercenary Team.

Murong Ze had already paced the room more than a few hundred times back and forth. He was about to wear a hole in the floor of the room. This shouldn't be like this. He'd sent someone to invite the Commander of the Red Maple Mercenary Team every day. They should write him a letter no matter what and give him a reply to tell him if they were coming or not! And now, great, his invitation fell on deaf ears. He didn't even know if he should leave and could only stay here... In order to maintain his facade, he rented the most expensive room. He couldn't just keep waiting here day by day!

"Knock, knock!" Someone knocked on the door. Murong Ze took a deep breath and adjusted his mind as he went to greet his visitor. When he opened the door, the attendant of the tavern was standing outside of the door and looking at Murong Ze with a smile.

"Mr. Murong, we've already prepared the information you need. Please have a look." The tavern attendant gave Murong Ze a thick stack of documents. The smile on Murong Ze's face immediately turned into disappointment as he took the documents casually. The attendant then left after saying goodbye.

Murong Ze returned to the desk with the thick stack of documents in his hands and threw them onto the desk. When he was about to continue pacing the room, the information on one of the pages caught his attention.

The evaluation of the combat strength of the Red Maple Mercenary Team: Has the only mage who has joined the Mercenary Union in the last few centuries, level 6. The strength of the whole group is maintained between level 4 and level 6.

This made Murong Ze's eyes pop out immediately. He stared at the first part firmly. Level-6 mage... "A level-6 mage, the Red Maple Mercenary Team has a level-6 mage!" Thinking of this, Murong Ze's heart started to burn out of excitement. If he could establish a relationship with the Red Maple Mercenary Team, the Murong family would also bask in the light of the level-6 mage of the Red Maple Mercenary Team because of this relationship!

What kind of benefits and effects could a level-6 mage bring? It would be an inestimable future! If the Murong family could have such assistance, their future development... Thinking of this, Murong Ze was so enthusiastic that there was a raging storm in his heart. He must build a bridge between the Murong family and the Red Maple Mercenary Team, he must!

It had been five days. Someone in the Red Maple Mercenary Team announced every day that a man was here to invite the Commander of the Red Maple Mercenary Team and Zhao Mingqi also sent that person away patiently every time. He didn't really understand why their Young Lady was doing this. If she didn't want to go, she could just reject the invitation, but he didn't say so. She just sent the messenger back. It was truly a bit difficult to see through their Young Lady's mind.

Yun Feng started patiently playing this waiting game with the Murong family. Murong Ze was staying in the most expensive tavern. After receiving the news, Yun Feng kept putting off replying to the invitation. It had already been ten days now. Murong Ze still didn't seem to be leaving. Yun Feng also understood that it was meaningless for her to keep doing this. The Murong family must have found out something about the Red Maple Mercenary Team through a certain channel. If not, they wouldn't have held onto the Red Maple Mercenary Team and waited till the end.

The next day, someone came again. Zhao Mingqi was about to ask him to leave again patiently, but Yun Feng came over. "Uncle Zhao, if the other party is so sincere, we may just as well meet him."

Zhao Mingqi was relieved, and so was the man who delivered the message. He had been annoyed these few days. And now, he had finally done his job.

"My Lady, are you coming with me tomorrow?" Zhao Mingqi asked Yun Feng. Tomorrow was the day he was meeting Murong Ze. Yun Feng nodded. "Uncle Zhao, you're the Commander of the Red Maple Mercenary Team. I'm just going to join in the fun."

Zhao Mingqi smiled speechlessly. Their Young Lady never claimed credit for herself. It seemed that the members of the Yun family all liked to ask other people to work for them... Thinking of one of the two founders of the Red Maple Mercenary Team, the summoner of the Yun family, Zhao Mingqi smiled wryly. Luckily, their Young Lady didn't leave the second day. Ah...

The next day, Yun Feng and Zhao Mingqi came to Ge Yuan Tavern at the agreed time. Since the Mercenary Union was a semi-closed world, people in Ge Yuan didn't really know the mercenaries. The two of them didn't catch anyone's attention when they walked in the crowd.

After arriving in Ge Yuan Tavern, a staff member soon came to lead the two of them to Murong Ze's room. When Murong Ze opened the door, Yun Feng saw the enthusiasm and excitement that flashed on his handsome face.

Murong Ze was very passionate when he looked at Zhao Mingqi and he immediately invited him in. When he saw Yun Feng, he couldn't help feeling confused. "Commander Zhao, this is..."

Zhao Mingqi smiled. "This is my niece. I'm taking her with me this time. Mr. Murong, you wouldn't mind, would you?"

Murong Ze lifted the corners of his mouth. You've already brought her here. If I say I mind it, are you going to kick her out? Looking at Yun Feng's innocent face, Murong Ze also pondered in his mind. It wasn't a big deal for this little girl to hear what they were going to talk about. She wouldn't understand much anyway. Thinking of this, Murong Ze also put this aside.

"Haha, of course. Little girl, have a seat!" Murong Ze smiled at Yun Feng. Yun Feng didn't even bother to look at him. She found a chair herself and sat down. Murong Ze was startled when he saw this. Seeing that Zhao Mingqi wasn't going to rebuke Yun Feng, he also put her rudeness behind him casually.

### **Chapter 140: Let's See How You Regret It (3)**

"Commander Zhao, first of all, congratulations to the Red Maple Mercenary Team for advancing to the four-star level successfully. It's truly something to celebrate." Murong Ze smiled elegantly, while Zhao Mingqi nodded with a smile. He was a bit frustrated. Where exactly did the Murong family come from? They came all the way here to establish a relationship with the Red Maple Mercenary Team?

"Mr. Murong, I don't like going around the bush. You can just tell me what you want." Murong Ze's expression changed slightly after Zhao Mingqi said this. He had prepared a huge number of kind words, but he couldn't say any of them right now.

"Well... Being straightforward is good. I like talking to straightforward people as well!" Murong Ze burst into laughter and changed his roundabout strategy. Yun Feng watched with coldness in her eyes. There were indeed many tricksters in the Murong family. They talked accordingly when they met different people. They were really professional in sucking up to someone.

"Commander Zhao, since you're so straightforward, I'll just cut the crap. It's simple. The Murong family wants to work with the Red Maple Mercenary Team. You can set any conditions."

Murong Ze said as he looked at Zhao Mingqi with a smile. Zhao Mingqi subconsciously gazed at Yun Feng and wanted to ask their Young Lady for her opinion. To be honest, the Mercenary Union didn't allow mercenary groups to work with families. Even though there wasn't a regulation that was clearly stated, it had become a rule in private. The Mercenary Union strove to establish a clear boundary with all parts of the Karan Empire. Of course, there were groups that didn't treat rules seriously like the Evil Wolf Mercenary Group. And after experiencing the benefits, the Murong family also ignored this rule of the Mercenary Union and thought they could take down the Red Maple Mercenary Team with their

favorable conditions. You can set any conditions. What reason do you have for not cooperating with me?

Zhao Mingqi saw Yun Feng lowered her face and didn't declare her stance, so he couldn't help smiling. "Mr. Murong, I'm afraid... we can't work with the Murong family."

Murong Ze seemed to have known that Zhao Mingqi would say this. The smile on his face didn't diminish at all. "Don't say no yet, Commander Zhao. We can discuss it together."

Murong Ze also had one thought in his mind. Most mercenaries were like that. They were the kind of people who would risk their lives for money. As long as they were given absolute benefits, all of them would yield! However, Murong Ze was wrong. The Red Maple Mercenary Team was an exception!

"Commander Zhao, money isn't a problem. Look..."

"Mr. Murong, that's not what I meant. It's the problem of the rules of the Mercenary Union."

Murong Ze couldn't help but smile after hearing that. "Rules are set by people, so they certainly can be changed as well. I can assure you that our cooperation won't bring any problem to the Red Maple Mercenary Team. Everyone's just taking what we need."

"Taking what we need? How are we taking what we need?" Yun Feng suddenly looked up and asked Murong Ze. Murong Ze felt a bit strange and he couldn't help frowning. Being questioned by a kid, he couldn't really accept it in his mind.

Zhao Mingqi looked at Yun Feng. Yun Feng was sitting in the chair with the fingers of her hands interlaced. The maturity she showed at this moment was surprisingly comparable to that of the two men in front of her. Murong Ze narrowed his eyes and observed her for a while, realizing that the kid before him wasn't as simple as he thought.

"The Murong family will provide the Red Maple Mercenary Team with all the necessary conditions, intelligence, tools, and other things. You should know the relationship between the Mercenary Union and the Karan Royal Family. It's very inconvenient to be a mercenary in the Karan Empire."

Yun Feng didn't say anything. She just looked at Murong Ze, while Murong Ze continued, "Of course, the Murong family isn't a charity. The Red Maple Mercenary Team only needs to give 5% of your ores to the Murong family."

The Shiny Plains, which produced the most amount of ores, was occupied by the Mercenary Union. The best way to get ores quickly was to establish relationships with the mercenary groups but it was really difficult for people outside to do so. If they could establish a partnership with a mercenary group, they would be able to earn quite a huge amount of income with just the ores. 5% was already considered as a small percentage.

Yun Feng remained silent and Zhao Mingqi certainly had nothing to say as well. The atmosphere fell silent all of a sudden. Murong Ze thought the Red Maple Mercenary Team wasn't satisfied with this condition, so he immediately smiled at Zhao Mingqi. "Commander Zhao, this is of course a condition made in the past. It doesn't apply to the Red Maple Mercenary Team."

When Zhao Mingqi heard this, he also pondered in his mind and finally understood slightly. His face couldn't help but darken. "Mr. Murong, you mean?"

Hearing what Zhao Mingqi said, Murong Ze thought there was still hope for the negotiation to continue. He raised his voice slightly and had already become so enthusiastic that he didn't see Zhao Mingqi's expression. "What I'm saying is that if your level-6 mage can do something for the Murong family..."

Zhao Mingqi immediately banged on the back of the chair hard with a sullen look and the back of the chair shattered to pieces in an instant. Murong Ze froze for a second. He didn't understand why Zhao Mingqi had such an attitude.

"Commander Zhao, what's wrong?"

Zhao Mingqi didn't say anything. The anger in his mind was already burning. You want my Lady to be a coolie for you and use her as an exchange condition. Fuck you! Don't even think about it!

"No, I won't agree to this!" Zhao Mingqi replied. Murong Ze was a bit upset after hearing this. Logically, the Murong family would get the short end of the stick if they gave up the condition of the ores in exchange for the mage, but Zhao Mingqi still wasn't satisfied with it!

"Commander Zhao, that mage is a member of the Red Maple Mercenary Team after all. Don't you even have the authority to command a member of your group?"

Zhao Mingqi's face became even darker after hearing this. Murong Ze was trying to anger him on purpose. If this person was Tuoba Gang, he would probably have agreed to Murong Ze's request.

Yun Feng listened on the side quietly. She had a new understanding of the tactics of the Murong family again and she couldn't help but snicker, "Mr. Murong, I think you didn't listen carefully. Uncle Zhao said no."

Murong Ze glanced at Yun Feng. "You don't know anything, kid."

Zhao Mingqi almost couldn't repress his anger anymore as he sat there. Even though he had never had any relationship with the Murong family before, he didn't want to establish any relationship with them starting from this moment!

"Mr. Murong, I think this will end here." Zhao Mingqi got up with a sullen face. He felt like his Young Lady had been greatly humiliated and he only wanted to beat up this arrogant man in front of his eyes harshly.
