Chapter 141: Let's See How You Regret It (4)

"Commander Zhao! We don't need much. We just want that mage to help us. How difficult is that?" Murong Ze was worried that the negotiation would be over when he saw Zhao Mingqi leaving, so he immediately softened his tone. Zhao Mingqi slowly turned around. "That mage is right here. Mr. Murong, you should just ask her yourself."

Murong Ze was startled. She was here? That level-6 mage? He looked around. When he saw Yun Feng, his pupils shrank abruptly. "She..."

Zhao Mingqi clenched his fists and said with a sullen expression, "That's right. She's the level-6 mage of the Red Maple Mercenary Team."

Even though Murong Ze had been through a lot, he couldn't keep his calm expression at this moment either. This kid in front of him was a level-6 mage? What the hell!

"I'm sorry for not recognizing you. Please excuse my rudeness." He was indeed a member of the Murong family. His speed of improvising could be seen. He was still looking disdainful earlier, and now, he suddenly became extremely respectful.

Yun Feng smiled and stood there without changing her expression, letting Murong Ze size her up back and forth. Murong Ze was so surprised that his heart was like a stormy sea, constantly rolling and roaring!

She became a level-6 mage at such an age. No wonder the Red Maple Mercenary Team could rise to become a four-star group and could shine in the level assessment this time. It was all because of the presence of this mage!

"What's your name? Do you mind telling me?" Murong Ze smiled very humbly. After all, he was just a senior in front of a level-6 mage. Even a level-8 warrior had to yield if he was asking a mage for help.

The smile at the corners of Yun Feng's mouth slowly became wider and was full of coldness. "The Murong family also knows my name."

Murong Ze was delighted in his mind and his face was also full of joy after hearing that. The Murong family knew? Perhaps her family were old friends of theirs? Or someone else? If the Murong family has some relation with this mage, everything would be easier!

"My Lady, are you the daughter of a friend of the Murong family? Judging by your age, you'll definitely have a promising future. I wonder if you're already engaged?" Murong Ze really thought he had a chance. He was already starting to build a relationship with Yun Feng. It wasn't bad for this level-6 mage to marry his talented son. It was quite a perfect match.

"Why? What do you mean, Mr. Murong?" Yun Feng asked. Murong Ze chuckled even more happily after hearing that. "My Lady, do you know Murong Yuntian?"

Yun Feng smiled. "Yes, of course."

“Haha, Yuntian is my son. My Lady, if you don’t mind, my son is a fine-looking man and he can be considered quite a match for you.”

After hearing that, Yun Feng couldn’t help feeling sad for Murong Yuntian at the bottom of her heart. Murong Yuntian, how miserable is your life? You didn’t know you were engaged when you were still in your mother’s womb, and now, your father wants to arrange another engagement for you again without you knowing. Saying that you’re a puppet seems to be the most appropriate.

“If your son is so outstanding, there must be a lot of girls who like him. Why did I hear that Master Murong is engaged?”

Murong Ze became slightly embarrassed. “Don’t get it wrong, my Lady. That was just a silly arrangement made by the older generation. I’ll be honest with you. My son did have an engagement before he was born, but it has already been canceled. The family my son had an engagement arrangement with was the declined Yun family. Hm! The members of the Yun family should think about whether their status is enough for Yuntian! The girl who used to be engaged with my son, Yun Feng, isn’t capable at all and she wants to climb onto the Murong family. She’s dreaming! Don’t worry, my Lady. The engagement has already been canceled. Yun Feng of the Yun family has nothing to do with the Murong family!”

Zhao Mingqi widened his eyes as he listened to the side. What? Their Young Lady had such a relationship with the Murong family? The anger in his mind also burnt more fiercely. Murong Ze’s belittling words and disdain completely angered Zhao Mingqi. He really wanted to punch him, but he couldn’t make a move because his Young Lady wasn’t doing anything either. He could only repress his anger and wait for his Young Lady’s instructions.

Yun Feng stood there quietly with the same smile at the corners of her mouth. “So, does Yun Feng of the Yun family really have nothing to do with the Murong family?”

Murong Ze nodded. “Don’t worry, my Lady. She truly has nothing to do with us! Right, I still haven’t asked your name yet.”

Yun Feng smiled and looked at Murong Ze’s flattering face. She gazed down slightly as the smile at the corners of her mouth turned cold. “Mr. Murong, my name is Yun Feng. Yun Feng from the Yun family in Chunfeng Town!”

The world stopped, truly stopped at this moment. Murong Ze stood there with a stiff face. The smile on his face had now turned into an expression that was uglier than crying. He looked at Yun Feng in front of him with eyes, which were glittering with unknown emotions. Nobody could tell how much regret and how much anger there was.

Murong Ze moved his mouth, but he couldn’t make any sound at all, like a duck with its throat stuck, looking extremely hilarious.

“What... What did you say...” After a while, Murong Ze finally regained his voice. He felt like the world was spinning. She said she was Yun Feng, Yun Feng from the Yun family in Chunfeng Town. The person whom he kept belittling was her?! The declined Yun family, their status that wasn’t enough for the Murong family, Yun Feng who wasn’t capable at all... This... This... This... He really gave himself a slap in his face harshly!

Yun Feng looked at Murong Ze's speechless face and smiled coldly as she got up. When Zhao Mingqi saw Yun Feng stand up, he quickly went over. "My Lady, we..."

Yun Feng waved her hand. The fact that she was Yun Feng was already enough to make the Murong family extremely regretful. Just let them experience the taste of it! Yun Feng pushed open the door and was about to walk outside.

"Wait!" Murong Ze collected himself like he realized something. Seeing Yun Feng leaving, he shouted with an extremely anxious look that had a trace of embarrassment, frustration and regret.

"Why? A lowly person who isn't good enough for the Murong family like me, tickles your fancy again, Mr. Murong?" Yun Feng turned around and said coldly to Murong Ze. Murong Ze flushed and felt extremely regretful!

Chapter 142: Set Off Again (1)

Who would have thought the daughter of the Yun family, Yun Feng, would be a mage? Who would have thought she would be so successful in the Mercenary Union? Who would have thought she could reach level 6 at such a young age?

If he had known about these things, the Murong family would be the one who wasn't enough for Yun Feng! If they had known, they would never have canceled that engagement even if they died. They would hold onto this tree, the Yun family, even if they died!

However, now, the engagement had been canceled and what he said earlier also cut off the slightest relation between the Yun family and the Murong family. There was truly nothing left!

"Well... Yun Feng, we can negotiate for the sake of the older generation..." After pondering for a while, Murong Ze could only make use of their connections. It was fine before he said this, but after he did, Yun Feng's face completely darkened. "For the sake of the older generation? Mr. Murong, you're talking about the relationship of the older generation with me? What did the older generation of the Murong family do? When Murong Ran came to Chunfeng Town arrogantly, she yelled in front of my father, saying how lowly and down-and-out the Yun family is and that we're not good enough for the Murong family! Why? Are we good enough for you now?"

Murong Ze stood there with his old face looking red and pale. Thinking about his savage, wayward and useless daughter, he truly didn't know where to vent his anger. He didn't want to send her to cancel the engagement at first, but his father just spoiled her. She said she wanted to go and his father really allowed her to. Thinking of what Murong Ran once said, Murong Ze even had the intention to choke her to death. He was also blaming the old man of the Murong family, his father, in his mind.

"Well... Well..." Murong Ze was speechless because of what Yun Feng said. He was so embarrassed that he didn't know what to say. They were the ones who despised the Yun family, and were also the ones who wanted to hold onto them right now... The Yun family used to have a marriage arrangement with the Murong family. If the Murong family didn't cancel the engagement, how would they be like this now... Murong Ze gritted his teeth. Who could he complain about? Who could he blame? He was also one of the people who supported canceling the engagement. The Murong family really barked at the wrong tree this time! They missed a cash cow!

“Let’s go. I’ll walk myself out.” Yun Feng glanced at Murong Ze coldly and saw his struggles and regret as she strode out. Zhao Mingqi looked at Murong Ze in disdain and despised what the Murong family did. If it weren’t that Yun Feng didn’t say anything, he would have punched Murong Ze already. He was looking to be beaten saying things like that about their Young Lady!

After walking out of the tavern, the ray of warm light shone from the sky and landed on Yun Feng’s face warmly. This beam of light seemed to shine into the bottom of her heart, dispelling the small piece of darkness lurking inside. The anger in her mind was finally released. The corners of Yun Feng’s mouth slowly curled up. This matter was finally settled.

Murong Ze rushed back to Park City where the Murong family was located with a sullen face. After Yun Feng left, he didn’t stay in Ge Yuan any longer. When Murong Ze returned to his home in Park City, he ran into his father’s room without saying anything. Murong Shuli was also sitting there anxiously. Apparently, he was worried about this trip as well. Seeing Murong Ze back, Murong Shuli immediately started asking him about the trip in concern.

“How was it, Ze? How did things go?”

Murong Ze made a “hm” sound furiously and sat in the chair with resentment all over his body and his face. Murong Shuli was a bit confused when he saw this.

“How did things go? Hm! Father, do you know who the real leader of the Red Maple Mercenary Team is?”

Murong Shuli shook his head. How would he know? “Who? Is the matter not dealt with?” Murong Shuli had always believed in Murong Ze’s communicative ability. He never had to worry when Murong Ze dealt with the family’s matters.

“You know this person too, father. Her relationship with the Murong family...” Murong Ze gritted his teeth when he said this and he was so enraged that his eyes turned a bit red. When Murong Shuli heard this, he thought it was an old friend of the Murong family and he was immediately delighted.

“An old friend of the Murong family? Isn’t that even better? Things should be much easier!”

Murong Ze burst into laughter. Murong Shuli couldn’t help but frown as he looked at Murong Ze acting like this. “What’s wrong with you, Ze? Why are you acting so weird after you came back?”

Murong Ze smiled wryly with deep powerlessness in his tone. “Father, the real leader of the Red Maple Mercenary Team is Yun Feng, Yun Feng of the Yun family in Chunfeng Town!”

“What did you say?” Murong Shuli’s eyes popped out instantly and he also got up at once. He looked at Murong Ze with an astonished face, as if Murong Ze was making a huge joke.

“Not only that, the level-6 mage of the Mercenary Union is also with the Red Maple Mercenary Team and Yun Feng, that kid, is the level-6 mage!”

“Clap!” The armrests of the chair were crushed to pieces by Murong Shuli out of agitation. The scraps and residue flew out of his hands. Murong Shuli widened his eyes firmly as blue veins appeared on his arms!

What did he do? What did he do? He canceled the engagement arrangement with the Yun family and shut a level-6 mage out of his door!

“Father, the Murong family suffered a huge loss this time. We truly suffered a huge loss... It won't help even if we feel regretful. That little girl trapped me into saying a lot of unfeeling things to cut off the last bit of relation between the Yun family and the Murong family. And Xiao Ran, the provocative words this useless girl said to the Yun family when she went to Chunfeng Town last time have already made Yun Feng feel disappointed with the Murong family!”

Murong Shuli couldn't hold his anger any longer. Half of his face flushed. He was so agitated that he couldn't even say a word. This was a mistake, but who was going to make up for this mistake?

Murong Shuli suddenly seemed a few years older and he slumped into the chair. “It's my fault. It's all my fault...” He murmured. If he didn't cancel the engagement, Yun Feng would have been the daughter-in-law of the Murong family. She became a level-6 mage at such a young age. Wasn't such a talent amazing? However, what had they done? They rejected such a genius! They threw her away by themselves!

Murong Shuli also smiled wryly and he looked into the eyes of his son, Murong Ze. Both of them had the same thought in their minds. The Murong family was the one who wasn't enough for the Yun family right now. They wouldn't be able to get back this daughter-in-law even if they begged the Yun family. The members of the Yun family were insistent. They would never change anything they said easily!

Chapter 143: Set Off Again (2)

“I just hope that Yun Feng doesn't hold any grudge against the Murong family...” Murong Shuli said after a while. When Murong Ze heard that, he smiled wryly and shook his head.

“Father, do you think that girl still has the Murong family in her eyes right now?”

Murong Shuli's face darkened when he heard that and he seemed to be a few years older again. Other than the talented Murong Yuntian, the Murong family had nothing else at all right now. The development of Murong Ran as a mage would never be able to compare to Murong Yuntian's development, but Murong Yuntian had already left the Murong family and had no feelings for the family. The Murong family really wasn't in a position to look at Yun Feng again.

Something suddenly came to Murong Shuli's mind and his face was full of anger. “When Xiao Ran comes home again, I'll keep her under confinement!” Thinking of Murong Ran's personality and her sharp tongue, Murong Shuli was truly regretful. If he had sent someone else to the Yun family back then, there might still be turning back right now. However, there was no “if” for anything at all.

Murong Ran, who had already gone to Masang School of Magic, had no idea that her willfulness back then made the Murong family lose a treasure that they could have had that others would envy for a few lifetimes.

After dealing with the Murong family, Yun Feng returned to the Mercenary Union. Things here had ended and she should also embark on a new journey. After all, even if she spent all three years here, she wouldn't have any improvement.

Little Fire had already contacted Yun Feng a few days ago. The three level-7 masters, who went to attack her sullen father, had already been dealt with easily by Little Fire. Since Little Fire had been hiding for too long, Yun Feng allowed it to go around alone during this period of time. It wouldn't be too late for her to inform Little Fire when she confirmed her next training location and ask it to meet her there.

What she had to do right now was certainly to say goodbye to Mr. Zheng Ran of the Mercenary Union. Although Yun Feng didn't need anyone's permission to leave, it was a matter of politeness. After all, Zheng Ran had been very nice to her and the Red Maple Mercenary Team. She should tell him about it before she left.

Yun Feng talked to Zhao Mingqi for a bit and went to the core area of the Mercenary Union alone. It was certainly very smooth along the way. After the level assessment, Yun Feng could be considered as a popular figure in the Mercenary Union. Everyone knew her and she caught people's attention wherever she went. After all, she was the only level-6 mage who was so young in the world! And she was even a member of the Mercenary Union. This was an even greater glory!

Yun Feng came all the way to Zheng Ran's office. When she was about to knock on the door, Zheng Ran's voice sounded, "Yun Feng, come in."

Yun Feng smiled. She didn't know how powerful Mr. Zheng Ran was, but he shouldn't be someone simple if he could be the Vice President of the Mercenary Union.

She pushed the door open and entered. Zheng Ran was sitting behind the desk, looking at Yun Feng with a smile, as if he had already known that she was leaving. Yun Feng wasn't surprised at all. Zheng Ran was a powerful figure, so he would certainly know what she was thinking.

"I'm here to say goodbye to you, Mr. Zheng Ran." Yun Feng smiled and cupped her hand in the other at Zheng Ran. Zheng Ran looked at Yun Feng and got up with a smile.

"Are you leaving for training?"

Yun Feng nodded. "It's a bit too relaxing here. I originally came out for training, so it's time for me to set off now. All matters of the Red Maple Mercenary Team are already on the right track. I don't need to worry about them anymore."

Zheng Ran looked at Yun Feng in satisfaction. It was rare to have someone with such a mature personality at a young age. This kid was an outstanding person who could do great things. If she continued developing with such talent, she might even surpass those old guys one day.

"Yun Feng, you're at level 7, right?" Zheng Ran asked with a smile. Yun Feng nodded and replied honestly, "I'll be honest with you, Mr. Zheng Ran. I've indeed reached level 7 already."

"Great, great. You're really outstanding." Zheng Ran nodded and walked to Yun Feng, patting her small shoulder with his big hand. He gazed at Yun Feng with affection in his gentle eyes, like an old man looking at a younger generation who was about to leave for a long journey.

"Be careful when you're out there. Keep an eye on everything!"

Yun Feng froze for a second, then spread the corners of her mouth and smiled. "Don't worry, Mr. Zheng Ran. I'll take care of myself."

Zheng Ran nodded. "About your talent as a mage, I know that I can't keep you here. Masang School of Magic won't let go of a genius like you and that's where you should go. It's a place where you can get beneficial help for your magic. The Mercenary Union isn't selfish enough to ruin your future in order to own you. You can rest assured."

Yun Feng nodded. "Mr. Zheng Ran, since I've already joined the Mercenary Union, I'll certainly be one of you. This is something that will never change! But I must go to Masang School of Magic as well. My brother is studying there. About the Karan Royal Family behind Masang School of Magic, you don't have to worry about it, Mr. Zheng Ran."

Zheng Ran nodded. All he wanted was just Yun Feng's words. Nobody would be willing to let someone like Yun Feng leave, but she wasn't withdrawing from the Mercenary Union, which made Zheng Ran feel gratified. Zheng Ran's hand moved slightly as a gorgeous ring appeared in front of Yun Feng. Zheng Ran then put it in Yun Feng's hands.

"This is a gift from the Mercenary Union and me. It's always better to bring something with you when you go out. You'll find everything you need inside."

Yun Feng didn't try to be dramatical. She just took the ring and felt that Zheng Ran was really worried about her. Yun Feng smiled. "Mr. Zheng Ran, don't worry. I'll be careful. I'll be back after three years!"

Zheng Ran burst into laughter as he caressed Yun Feng's head with his big hand. "Alright, I'll wait to see your results after three years."

Yun Feng also laughed. Even though there was a huge difference between the age and strength of the two of them, they imperceptibly became closer at this moment.

After walking out of the Mercenary Union, Yun Feng went straight to the base camp of the Red Maple Mercenary Team in the four-star area. Seeing the base that was more than two times larger than the former one of the Red Maple Mercenary Team, Yun Feng was also content in her mind. The red maple at the entrance was unusually dazzling. Yun Feng walked inside and found that everyone was gathering in the main hall on the first floor when she pushed the door open, as if they were waiting for her.

Chapter 144: Set Off Again (3)

"What are you doing? Uncle Wang, why are you back?" Yun Feng looked at the few hundred mercenaries in the main hall, and Zhao Mingqi and Zhao Yan in the front. Wang Ming, who was supposed to be on the Shiny Plains, had also rushed back.

"My Lady, you're leaving. How can I not come back?" Wang Ming said, while the look on everyone's face became gloomy. Yun Feng couldn't help but feel deeply frustrated when she saw that this group of energetic men all had a bit of sorrow on their faces at this moment.

"Why are you looking like you're at a funeral? I'm just going out for training for a few years. It's not like I'm never coming back!" Yun Feng said speechlessly. The others were a bit shocked after hearing what she said.

"Fuck! Zhao Yan, didn't you say that my Lady isn't coming back?"

"Yea, you made us so sad!"

Zhao Yan stood there with a flushed face and he was too embarrassed to look at Yun Feng. He was also stunned just then. Facing the blame from other mercenaries, Zhao Yan couldn't help mumbling, "I thought so too, okay? My father said that. He said my Lady is leaving. How would I know that she's coming back? Fuck, who hit me?"

The sorrow and depression in the minds of the few hundred people were swept away. They all became spirited again one after another. Wang Ming caressed the back of his neck and burst into vigorous laughter after a while. "Hahaha, I told you my Lady will be back. It made me worry for nothing!"

Zhao Mingqi stood there a bit embarrassedly. He guessed that Yun Feng wanted to leave and thought she would never come back after that, causing such a huge misunderstanding.

The silent main hall became extremely lively. The mercenaries were all delighted that Yun Feng would come back and the poor Zhao Yan was still being chased by the others as he yelled, "My Lady, help me!"

Yun Feng watched Zhao Yan being chased and beaten with a smile and she could feel how happy these people were. Thinking that there was such a large group of people waiting for her and missing her here, Yun Feng's heart felt warm.

Yun Feng waved her hand gently and the mercenaries, who were shouting just then, immediately quieted down. Zhao Yan also got rid of the other people's chase. Yun Feng smiled and looked at everyone in front of her as she said softly, "It feels so good to be missed by you."

The eyes of all the mercenaries turned red after hearing that. They were all people who lived a dangerous life. Nobody understood their suffering, their tiredness, their difficulties, and they also rarely had warm moments like this. And yet, Yun Feng was different. She should be spoiled and protected by them at such a young age, but this little girl stood in front of them to shelter them from the storm and solve all the problems for them!

"My Lady, what you said makes me feel terrible..." Wang Ming said with a hoarse voice. Even though he knew that Yun Feng would return, he was still a bit sad thinking that he wouldn't be able to see her for several years.

"My Lady, when are you coming back?" Zhao Yan couldn't help asking. He gazed at Yun Feng firmly with his eyes, as if he wanted to engrave her in his mind.

"Three years. I'll be back after three years." Yun Feng said loudly. One of the mercenaries took the lead and shouted as all of the others shouted as well, "We'll wait for you to come back, my Lady!"

Yun Feng burst into laughter. She laughed so hard that her eyes became a bit teary, so hard that some kind of crystal clear liquid seemed to have dropped. Zhao Mingqi held Yun Feng in his arms with a smile and caressed her little head gently with his big hand. Wang Ming also gazed at Yun Feng with affection in his eyes. At this moment, Yun Feng let go of all her responsibilities and burdens. She was just that little girl, the little Young Lady in their minds.

The next morning, Yun Feng saw a huge group of people in the main hall as soon as she came downstairs. She smiled slightly and speechlessly wondered why they had to make such a big fuss. "Uncle Zhao, you don't have to walk me out. I can go by myself." After several times, Yun Feng finally declined

these people's kindness. Wasn't it a bit too high-profile if these few hundred people sent her all the way out?

Zhao Mingqi could only give up as he couldn't change Yun Feng's mind. He just kept telling Yun Feng to be safe. Yun Feng smiled and nodded as she listened to everything Zhao Mingqi said. When Zhao Mingqi finished talking, he glanced at Wang Ming, who then took out a waistband from the bag on his waist and gave it to Yun Feng.

"I can't take it." Yun Feng immediately gave him the waistband back after seeing that. It was a dimension storage. This waistband must be valuable. She couldn't take it.

"My Lady, you have to take this! You'll need a lot of things when you're outside and storage will also be necessary! I spent a few thousand ores to get this! If you don't take it, I'll just throw it away!"

Yun Feng shook her head speechlessly. Uncle Zhao was really willing to spend a few thousand ores to get this... She could only take the waistband and put it around her body. This was the sincere kindness from the Red Maple Mercenary Team. If she didn't accept it, they would be heartbroken.

Everything had already been prepared. It was time for Yun Feng to leave. These tough guys also couldn't bear to part with Yun Feng at this time. "My Lady, come back faster." Zhao Yan stepped forward and looked at Yun Feng deeply. Yun Feng nodded as she waved at these people at the gate. "Go back! Wait for me!"

Yun Feng turned around and left dashing and smartly, bidding farewell to the door of the Red Maple Mercenary Team, bidding farewell to that flaming red maple. She didn't look back. Until she walked out of the yellow line of the area of the Mercenary Union, she finally turned around slowly and gently took off the mercenary badge of the Red Maple Mercenary Team on her chest, putting it in her bracelet.

She would be back three years later. She hoped that the Red Maple Mercenary Team wouldn't let her down as well... Looking at the straight road ahead of her, Yun Feng smiled and walked forward. Her journey was now about to begin again.

After stepping out of the northern gate of Ge Yuan, Yun Feng took Meatball out of the bracelet. Meatball was a bit thrilled when it came out. It knew that it really didn't have to be locked up anymore and it yelled happily, "Nana! Nanana!"

Hearing Meatball's joyful sounds, Yun Feng was also delighted. Could she be considered rich this time? She had already got three dimension storages, which were difficult to find in the world, including one bracelet, one ring and one waistband. She still hadn't seen the things inside the storages Zheng Ran and Zhao Mingqi gave her up till now, but there was no rush.

With the same mind, Yun Feng soon reached Little Fire. Little Fire sounded very happy. "Master, what's wrong?"

Chapter 145: Set Off Again (4)

Yun Feng smiled. "Are you very happy to go around this period of time?"

"Hahaha, of course. Master, you suffocated me too much. With your permission this time, I must go completely crazy!"

“Hm, that should be enough for you. I’ll give you half a day to catch up with me.”

“Master, are you kidding me? Half a day?”

Yun Feng curled up the corners of her mouth with an evil expression, while Meatball on her shoulder also looked ferocious. “There’s no room for discussion. If you can’t catch up with me in half a day, I’ll continue to keep you inside.”

Yun Feng cut off her thoughts and burst into laughter. The last word Little Fire yelled was “master.” It should have relaxed enough during this period of time. If a Mutated Magic Beast couldn’t catch up with her in half a day, then she should also lay Little Fire off.

“Let’s go! We have to try to make it unable to catch up with us. Haha!” Yun Feng gave a hearty laugh. Meatball jumped and flipped its body on Yun Feng’s shoulder and rubbed its fluffy fur against her face. Yun Feng moved her legs as her body flashed, turning into a beam of light that dashed straight ahead.

Rays of warm sunlight shone on the dense woods, forming mottled shadows on the ground. A small figure with an innocent face and gentle, gorgeous facial features, was sitting under a giant tree and resting lazily. Yun Feng was sitting there relaxingly at this moment. Feeling that the distance between her and Little Fire was getting shorter and shorter, the smile at the corners of her mouth became even wider. A Mutated Magic Beast was indeed something.

Yun Feng looked at the ring and waistband. She knew that she shouldn’t show people her property, so she put the ring and the waistband away. Since she didn’t have anything to do right now, she was thinking to see what was inside.

Yun Feng took out the waistband Zhao Mingqi gave her. She slightly closed her eyes and saw the things stored inside the waistband. There were truly all sorts of things, including food, necessities and clothes. There was really everything, things that were very useful. Yun Feng smiled. He prepared quite thoroughly. Looking at the side, there was a small hill of ores!

Yun Feng blinked. This hill had at least a thousand mid-level ores! Looking at the pile of glittering ores, Yun Feng smiled speechlessly. These people of the Red Maple Mercenary Team were really worried that she wouldn’t have enough clothes to keep warm and enough food to eat. These ores were enough for her to use for more than a decade even if she splashed out.

After looking at the waistband, Yun Feng put it back into the bracelet and took out the ring Zheng Ran gave her this time. She gazed at this small ring. Was there also some food and clothing in it?

She shook her head gently. Mr. Zheng Ran didn’t have the qualities of a babysitter. Yun Feng closed her eyes and the things stored inside the ring. When she saw these things clearly, she couldn’t help but feel astonished. The Vice President of the Mercenary Union was indeed extraordinary. He was so generous with his gifts!

Yun Feng closed her eyes and focused as a bright white jade that was the size of a hand appeared on her palm. “Kid, Zheng Ran is quite generous. That’s a Sound Transmission Jade that only the members of the royal family and powerful heavy hitters can have. You can’t even buy it with money.” The ancestor’s voice sounded and he chuckled. Yun Feng caressed this cold little stone with her hands. She knew that

this was like a communication device. As long as the information of a person was recorded inside, she would be able to contact that person wherever she was.

Yun Feng put the Sound Transmission Jade back as she closed her eyes to search again. The space in the ring wasn't really large, but the things were all valuable. There was also a small pile of ores in the space of the ring. Judging by the quality, these should be high-level ores.

"High-level ores..." Yun Feng couldn't help lifting the corners of her mouth speechlessly as she looked at the hundreds of high-level ores. Mr. Zheng Ran could really take out more than a hundred ores all at once. Yun Feng searched again. There were a few thumb-sized ores lying quietly on the sides of the small pile of high-level ores. These ores were glittering faintly, as if there was an extremely violent energy inside.

Yun Feng opened her eyes and looked carefully at the stone lying on her palm. The ancestor suddenly sounded excited. "Kid, Zheng Ran is really nice to you. He's even willing to give you ultimate ores."

What? Ultimate ores? Yun Feng couldn't help but widen her eyes as she looked at this thumb-sized stone. There had never been any ultimate ore found in the Shiny Plains and the yield of ultimate ores was miserable low. It was already pretty good to have one in the royal family. And now, Mr. Zheng Ran gave her a few all at once... She could break through the advanced level. The energy of these ores could take her up a whole level!

Yun Feng calculated carefully. If she absorbed the energy from all four pieces, she would be able to reach at least the Commander Level!

The Mercenary Union had never found any ultimate ore, so these must be Mr. Zheng Ran's personal property. Zheng Ran really gave it all out. Even though his heart ached a bit, Yun Feng was worth treating like this. Ultimate ores were things that everyone was crazy about, comparable to their enthusiasm for the Magic Beasts, but Zheng Ran gave her a few at once, which was quite a huge fortune.

If Yun Feng was willing to sell one of them, she wouldn't have to worry about her living her entire life.

The stone in her palm was glittering with faint luster, as if it carried a strong sense of temptation. Yun Feng had been gazing at the ultimate ore for a long time and she couldn't put it down. She didn't notice that Meatball on her shoulder that had always been very lively suddenly quieted down. As it stared at the ultimate ore in Yun Feng's hand with its big grape-like eyes, shining light surged in its eyes and its mouth also opened slowly, looking like it was about to drool.

"Swish!" Yun Feng felt that the weight on her shoulder became lighter. A black shadow flashed in front of her eyes and came quickly right at her palm. Yun Feng subconsciously clenched her fist tight, but the ore on her palm had already vanished in just a blink. The black shadow just then also turned back into Meatball's chubby body, landing on Yun Feng's knee. It was holding that ultimate ore with its little claws underneath the fluffy fur.

"Meatball, give it back!" Yun Feng thought Meatball was fooling around again. She reached her hand out and asked this little thing to hand over the ultimate ore. Meatball made a few "hm" sounds as it held the ultimate ore with its claws and stared at it firmly with its black and glistening eyes. In the end, it opened its mouth and swallowed the ore all at once!

Chapter 146: Crazy Things (1)

When Yun Feng saw that, she immediately picked up Meatball's body with her hands. She lifted its chubby body up by the back of its neck and shook violently side to side. "Meatball, spit it out. It's an ore. You can't eat it!"

Meatball's mouth was bulged and it couldn't hear what Yun Feng said at all. The ore seemed to be making some soft sounds in its mouth. Meatball let Yun Feng shake its body as it moved its mouth slightly and swallowed the ore completely.

"Open your mouth. Let me see!" Yun Feng looked nervous. She squeezed Meatball's little face and exerted herself to open Meatball's mouth. Meatball looked at Yun Feng in discontent, but it also let her. Once Meatball's mouth was open, Yun Feng was a bit startled. She thought Meatball was a docile kind of Magic Beast, like the harmless, ornamental species. And yet, there were so many teeth, which looked unusually sharp, inside its little mouth!

Yun Feng quickly glanced over it. The ultimate ore was nowhere to be found and she then released it. Meatball's body rolled on Yun Feng's knee with a content look, as if it was full. It even burped!

Yun Feng frowned as she gazed at Meatball on her knee and pondered, When Meatball stood up again, its fluffy tail hit the back of Yun Feng's hand and it looked at Yun Feng with its huge, bright and watering eyes. The corners of Yun Feng's mouth couldn't help but twitch.

"Do you still want to eat?"

Meatball quickly nodded as Yun Feng's face darkened. What species exactly did this Magic Beast that followed her belong to? Were there Magic Beasts fed on ores? However, nothing was too strange in the world of Magic Beasts. Meeting such a species was quite an unusual encounter for her.

Yun Feng pondered. There were four ultimate ores. One was eaten by Meatball and there were three left. It seemed that Meatball had a huge appetite and one couldn't satisfy it. However, she couldn't give it these three as well. They might still be useful in the future. Yun Feng wanted to keep two for her brother and father. Once they absorb the energy inside, their strength would also rise up a level!

Yun Feng swayed her hand and a mid-level ore appeared in her palm. She shook it in front of Meatball and found that there was a sense of dissatisfaction in Meatball's huge eyes. It directly twisted its body and pointed its butt at Yun Feng. Yun Feng was startled. It looked like it wasn't interested in this mid-level ore at all.

Yun Feng put the mid-level ore back as she waved her hand and a high-level ore appeared in her palm. Meatball turned its head around slightly and glanced at the high-level ore. Yun Feng handed the high-level ore to Meatball and it slowly took the ore with its little claws, putting it into its mouth a bit reluctantly. Those eyes seemed to be complaining to Yun Feng.

Yun Feng smiled. It seemed that high-level ores were the minimum standard for Meatball. If this was the case, she wouldn't be able to feed it... Where could she find high-level mineral veins and ultimate mineral veins?

"Meatball, do you want to eat me out of house and home..." Yun Feng asked speechlessly and felt a bit powerless. That high-level ore was swallowed by Meatball at once. Its little body jumped on Yun Feng's

shoulder again and rubbed against her face like it was pleasing her. Yun Feng didn't know what to say. Was it fawning on her? Why did it think that she looked like someone who had ultimate ores back then?

"Kid, if Meatball is fed on ores, it must have a special connection with the mineral veins as well." What the ancestors said made Yun Feng's eyes brighten. She swayed Meatball's body in front of her eyes with her hand and said, "Do you know where I can find mineral veins?"

Meatball glanced at Yun Feng as its little head nodded. Yun Feng was immediately delighted. Meatball knew where to find mineral veins! With its personality, the mineral veins it found would either be high-level or ultimate ones!

"Is there no ultimate mineral veins on the Shiny Plains?" Yun Feng swayed Meatball's body. She knew just by thinking about it. If there were really ultimate mineral veins, Meatball would have rushed there.

Meatball's little head nodded again. It didn't like being picked up by Yun Feng like this. It swung its body to get rid of Yun Feng's fingers agilely as it returned to her shoulder.

Meatball's ability was like a gift from heaven. It was really difficult to find a mineral vein, but with Meatball, Yun Feng didn't have to do it herself. She would definitely find mineral veins just by following Meatball's instructions. Those would even be high-level or ultimate mineral veins!

This meant that for Yun Feng, mineral veins that hadn't been mined were like wild flowers and grass on the road, which she could see clearly anytime!

If people knew about Meatball's ability, they would probably risk their lives to take it away... Yun Feng smiled. This little thing followed her back then and she didn't think too much. She had never thought that it would have such a powerful ability. She poked Meatball's head gently with her finger. If it didn't have this power, it would really be impossible for her to find food for it by herself.

Yun Feng put her attention back to the space in the ring and searched again. Then, a scroll appeared in her hands. There were three words written on the surface of the scroll, Beast Taming Technique.

"Zheng Ran was quite thoughtful. He even gave you such a thing. Kid, Zheng Ran really treats you well."

Yun Feng looked at the scroll in her hands. She already knew by the name what this "Beast Taming Technique" was used for. However, Mr. Zheng Ran had never thought that she was a summoner and she didn't need this at all, but she still felt warm in her heart.

"The Beast Taming Technique is a secret technique humans invented. People created such a secret technique because they can't understand the Arrays of Contract of summoners but they also want to control the Magic Beasts. Although it can be used to tame Magic Beasts, it'll also cause the Magic Beasts to lose their combat power completely and they can only be people's mounts or pets."

Yun Feng nodded. The ancestor seemed to be a bit sorry and heartbroken when he explained. Summoners had a special relationship with Magic Beasts. Once they contracted with a Magic Beast, it would be their companion of life and death. However, these tamed Magic Beasts were different. They had completely lost their original power, like a lion with its teeth and sharp claws shattered that it could only be a giant cat. This was in fact a kind of deep humiliation for the Magic Beasts.

“Not many people know about this secret technique. People become beast tamers and use Magic Beasts as their mounts just to fulfil the selfish desire of humans. They’re no different from horses. Kid, you don’t need this, but this can also be considered a great boost for the future development of the Yun family.”

Chapter 147: Crazy Things (2)

Yun Feng nodded. As the Yun family developed, they must have a momentum that was stronger than the others! If members of the Yun family each had a Magic Beast as their mount. How glorious would that be?

Yun Feng had no idea that even the Karan Royal Family had just a few Magic Beast mounts and they even spent a lot of effort and money on them. If the members of the Yun family truly had one each, the Karan Royal Family would probably be jealous as well.

She put the Beast Taming Technique back again. She didn’t need this right now. After sitting for a while longer, she felt that Little Fire was very close to her. Yun Feng stood up in satisfaction and flicked the grass on her body off. Suddenly, she found that there were a few other auras, apart from Little Fire’s!

“Little Fire, have you been followed?” The minds of Yun Feng and Little Fire were connected, so she immediately contacted it.

“Those few fucking humans keep chasing after me along the way. Master, you gave me only half a day. How would I have time to deal with them? I just can’t believe they followed me all the way here.” Little Fire said in annoyance with impatience in its voice. If it weren’t for Yun Feng’s order, it would have dealt with these people first!

Yun Feng smiled. “It’s alright. You don’t have to mind those people.”

Little Fire made a “hm” sound and sped up even more. After a while, Yun Feng saw a beam of dark red light flashing towards her. Little Fire only made soft sounds when its body touched on the ground and its robust body jumped gently, rushing towards Yun Feng.

“Little girl, run!” A loud shout sounded, followed by a wave of powerful fighting energy. Little Fire was annoyed. It swayed its tail hard and broke up the wave of fighting energy rushing towards it. Its body was already standing before Yun Feng without hesitation.

Yun Feng narrowed her eyes and saw three people dashing over swiftly from nearby. Two of them were level-6 warriors. It seemed that they made the attack just then to protect her?

“Swish, swish, swish!” Three figures immediately showed up, two men and one woman. They looked like they were all in their twenties and they looked at Yun Feng with different expressions. The two young men both seemed nervous when they saw that Little Fire was standing in front of Yun Feng.

“Little girl, don’t move. We’ll take care of this animal!”

Yun Feng didn’t move. She raised her eyebrows slightly and looked at the three of them as she remained calm. That woman glanced at Yun Feng quite impatiently. “What are you doing? Catch this Fire Cloud Wolf!”

“But if we make a move, that little girl...”

“Do you want to die? That little girl came here to dig her own grave. It’s none of our business! I want that Fire Cloud Wolf. I want it to be my mount!”

Little Fire suddenly roared. What the woman said deeply humiliated it and stripped it of its dignity. “Roar...” A heat wave with dots of fire shot to the three people at a high speed. The two men used their fighting energy to form a shield immediately, barely resisting Little Fire’s attack. When the heat wave passed, the three of them were out of breath.

“What are you waiting for? Catch it!” The woman seemed to be enraged. She pointed at Little Fire and shouted with anger on her face. Little Fire’s claws penetrated deep into the ground and it had already showed the sharp teeth in its mouth. It was just that Yun Feng didn’t instruct it to make a move, or it would have torn the woman’s throat to pieces right away!

Yun Feng looked at them with coldness in her eyes. If she was truly a little girl who accidentally came here, she would probably have died immediately. This woman didn’t take people’s lives seriously at all. She only cared about her own desires. Such a person... was like trash, which was disgusting to look at.

“I want that too!” When the woman saw something, her eyes brightened. She stared at Meatball on Yun Feng’s shoulder firmly. That greedy gaze made Meatball’s fur stand on up and it growled at the woman as it gnashed its teeth.

The two Magic Beasts next to Yun Feng were a bit irritated and those two men also didn’t know how to react after hearing that. That Magic Beast apparently belonged to the little girl. How were they supposed to take it?

“Kid! I saved you once. Give that little thing on your shoulder to me!” The girl said arrogantly and didn’t notice how obedient Little Fire was in front of Yun Feng. If Yun Feng was really a normal person, how would she still be able to stand there and talk right now? The few people here would probably have been in Little Fire’s stomach.

“Saved me once? When did you see that I needed your help?” Yun Feng smiled coldly with a trace of disdain on her little face. She needed this woman to save her? They were the ones who should be asking for help.

“Do you know who I am? How dare you talk to me like that?” The woman’s face turned cold and her gaze also became vicious gradually when she looked at Yun Feng.

“Who are you? Tell me.” Yun Feng stood there with a relaxed look. Little Fire stared at these people in front of it with its fierce eyes. It was just waiting for Yun Feng’s order to tear these three people apart.

“I’m the daughter of the City Lord of Ge Yuan! Kid, don’t force me to be harsh on you...”

Yun Feng directly yawned. The fierceness on the woman’s face froze in embarrassment, while the faces of the other two men also twitched slightly. Yun Feng patted Little Fire’s head casually. “Let’s go. How boring.”

Little Fire groaned in annoyance. It glanced at the three of them reluctantly with its vicious eyes and it followed behind Yun Feng. The three people couldn’t help but feel dumbfounded. What was wrong with that Fire Cloud Wolf? What was its relationship with that little girl? It followed her so obediently just like that!

“Stop!” The woman shouted as the two men next to her also reacted. The two of them then ran past the woman and chased after them, stopping in front of Yun Feng.

“Is there anything else?” Yun Feng asked lazily. She was also a bit annoyed. The woman stared at Yun Feng firmly and glanced over to her hands, as the two other men. When the woman saw Yun Feng’s empty hands, she seemed to be relieved.

“Kid, I can’t believe such a small child like you can be a beast trainer. I’ll offer you a satisfactory price. I want these two.”

Little Fire and Meatball immediately looked like they couldn’t tolerate it after they heard what she said. The air around Little Fire abruptly rose to a nearly distorted temperature, showing how enraged it was right now.

Yun Feng caressed Little Fire’s head and squeezed its ear. The temperature around Little Fire slowly dropped, but it was really furious. Fuck, this woman wants me to be her mount? You want a Mutated Magic Beast to be your mount? Do you think you’re God?

Chapter 148: Crazy Things (3)

Yun Feng hadn’t spoken and the woman was a bit impatient. “You’ll definitely be satisfied with the price I offer. Didn’t you tame Magic Beasts just for money? Why are you acting like you’re above everyone else?”

Yun Feng smiled. For money? She could be considered richer than the Karan Royal Family right now, but a woman wanted to give charity to her and even insisted even though she didn’t want it. How interesting.

Yun Feng directly walked past the three of them and pretended like she didn’t see them at all. There was only one word that could describe her feelings when she talked to these brainless people, exhausted.

“Kid, are you forcing me to kill you?” The woman shouted coldly, while the two men next to her also sent out their fighting energy. As her servants, they also had no other choice. Yun Feng slowly turned around when she felt the wave of fighting energy from the two level-6 warriors. She looked at the complacent expression on the woman’s face. The woman might have thought that she was afraid.

“Little girl, do you think you’re really impressive just because you tamed these Magic Beasts? Do you think you’re a summoner? A tamed Magic Beast is just a kitty that doesn’t have any power. How dare you mess around with me? If you’ve realized the truth, make a deal with me obediently. If you insist on rejecting me, I can just steal them from you. Don’t blame me for anything that happens to you by then!”

The woman said this loudly. She thought Yun Feng would be able to read the room, but Yun Feng still looked the same and directly ignored her, walking past her again. The woman flew into a rage out of humiliation and she yelled fiercely, “Kill her!”

The two warriors froze for a second, then immediately rushed forward and slashed at Yun Feng. Before the two of them could attack Yun Feng closely, a furious roar echoed around this area, “Roar... Don’t you dare hurt my Master!”

Little Fire opened its mouth abruptly as a dark red flame gushed out all of a sudden. The two warriors were terrified. The dark red flame struck them like lightning and burnt them quickly along the surface of their bodies!

“Argh!” The loud screaming sound of the two warriors resounded in the sky. The woman had already turned pale when she saw this scene and she sat on the ground as she trembled!

Yun Feng took a step forward and caressed Little Fire’s head with her little hand to tell it that it could calm down. She spun her little hand as the blue, cold water element appeared in the air, putting out the dark red fire on the bodies of the two warriors. The two men, who had already been half-burnt, fell on the ground at their last gasp, groaning softly.

The woman watched Yun Feng come over as she leaned backwards messily with both her hands and feet and gazed at Yun Feng with fear in her big eyes. “You, you, you, you...” After saying this many times, she still couldn’t say the second word. At this moment, she really wanted to bite her tongue to pieces. Wouldn’t a Magic Beast tamed by a beast trainer lose all its original powers? What was wrong with this one? Perhaps it wasn’t tamed? How would it stay next to her so obediently if it wasn’t tamed?

The woman didn’t have the foggiest idea what was happening. She just kept moving backwards, backwards and backwards again... She completely stopped when she reached the root of a tree and couldn’t step back anymore.

Yun Feng looked at the woman, her pale face and the fear in her eyes condescendingly. There was disdain in her mind and she slowly waved her fair hand. “Why? Do you have a question?”

The woman nodded subconsciously. At this moment, she could only express herself with movements, like a baby who had just been born. Yun Feng spread the corners of her mouth wide and gave a very cold smile. Her black eyes were like a bottomless lake, which gave people a chill that penetrated their bones when they looked at those eyes.

“Who told you that a summoner must wear the Ring of Contract?” What Yun Feng said made the woman’s pupils shrink abruptly! A summoner, she was... she was... a summoner!

“No, no, no...” The woman’s lips shook and she couldn’t say a complete sentence. Yun Feng lifted the corners of her mouth and ignored that woman as she patted Little Fire’s head with her little hand. She didn’t go far before she suddenly looked back and put up a mischievous smile on her face. “I was just joking just now...”

The woman’s face immediately turned pale and there was no color of blood at all. Her body was completely paralyzed there and she could only watch Yun Feng walk away slowly, accompanied by a giant wolf, until she couldn’t see Yun Feng anymore.

“Master, why didn’t you let me kill them?” Little Fire followed Yun Feng behind and complained all the way in discontent. This time, Yun Feng didn’t put Little Fire back in the ring anymore and it was very happy, but it was still a bit annoyed in its mind when it thought about those people just then.

Yun Feng smiled as she squeezed Little Fire’s ear. “Kill them. Get your hands dirty.” Meatball made a few sounds on Yun Feng’s shoulder and seemed to agree with her. Little Fire glanced at Meatball and

gnashed its teeth in dissatisfaction, as if it was saying to Meatball, "If you make any noise again, I'll eat you with one bite."

One human and two Magic Beasts walked ahead slowly, gradually entering the area located north of Ge Yuan, while an exceedingly raging storm started in Ge Yuan.

"Are you serious?!" In the mansion of the City Lord of Ge Yuan, an earth-shattering shout came. The City Lord looked at his messy daughter in front of him, who had just come home, with a sullen face. The news she brought back completely changed the expression of the City Lord of Ge Yuan.

A summoner! A summoner appeared in the Karan Empire!

As the City Lord of Ge Yuan thought about this, his hands couldn't help but shake. He started circling the room, while his daughter stood there silently, losing the arrogance she usually had completely.

The City Lord of Ge Yuan began thinking swiftly in his mind. What should they do? What should they do? Should they report this to the Karan Royal Family? No, definitely not! If this summoner truly showed up in Ge Yuan and they let her go, the Karan Royal Family would exterminate his family completely out of anger!

The Karan Royal Family had been looking forward to finding a summoner for many years. Like infertile parents who yearned for a child, they wanted a summoner like crazy. If something went wrong, the Karan Royal Family would mercilessly burn him to ashes with their anger!

"Are you the only one who knows about this?" The City Lord narrowed his eyes and looked at her daughter. The woman nodded without saying a word. Perhaps she still hadn't calmed herself from the shock she suffered just then up till now.

The City Lord rubbed his chin and paced the room more than a few hundred times. He then finally stood still as his eyes glittered. "We can't let anyone else know about this, until we find that summoner!"

Chapter 149: Crazy Things (4)

Yun Feng went all the way ahead. After walking through a woodland, she saw a giant, bottomless crack and some scorching energy came from the vertical sides of the crack. Yun Feng walked over and stood on the edge of the crack, feeling the heat waves that came right at her. "What's this place..."

"Kid, this is the Great Crack, the Road of Death." The ancestor's voice sounded. Yun Feng looked at this wide, bottomless crack in front of her. The land around it was barren without even a blade of grass.

"Nana!" Meatball's body quivered and it suddenly flipped down from Yun Feng's shoulder. Yun Feng only saw Meatball's body turn into a black line, dashing straight down the crack swiftly!

"Meatball, come back!" Yun Feng's mental strength immediately formed a long whip that rolled over to Meatball's little body, but Meatball was extremely fast. Yun Feng's mental strength missed it!

That chubby body instantly disappeared in the crack, as if it was swallowed by an open mouth! "Damn it!" Blue water element quickly enveloped Yun Feng's body as she also rushed down to the crack. "Kid, what are you doing?" The ancestor couldn't help but yell in shock. Yun Feng chuckled and looked at the crack in front of her with her black eyes. The heat waves and high temperature that came right at her face were slowly neutralized by the water element.

“What am I doing? Of course, something crazy!” As she spoke, her light blue body jumped inside fiercely, while Little Fire followed her behind. It looked up and roared excitedly, as its dark red body jumped inside without hesitation. It was indeed an extremely awesome thing to have such a Master!

“Kid, how are you feeling right now?” Billowing heat waves were rolling around Yun Feng. Ever since she went into the Great Crack, she felt like she had entered a world of pure steam. If it weren’t for the water element that protected her, her body would probably have evaporated in a blink!

“I’m fine... Just a bit suffocated...” Yun Feng replied in difficulty and kept moving forward. A misty world was in front of her eyes. Hot steam rolled and roared around her. This crack was indeed the Crack of Death. If someone fell in, it would be weird if that person wasn’t steamed to death!

“Little Fire, are you alright?” Yun Feng turned her body to the side and asked. Little Fire followed Yun Feng closely and growled in excitement. “I’m fine, Master. There’s abundant fire energy here. I’m very relaxed!”

What Little Fire said made Yun Feng relax her eyebrows slightly. She was worried about Little Fire as the water element couldn’t envelop it. She had never thought that the insanely high temperature here would make Little Fire feel extremely comfortable. A Mutated Magic Beast was indeed different.

“That’s good. Where exactly did Meatball go?” Yun Feng went all the way deeper and just felt like this crack was so deep that there wasn’t an end. Besides, the temperature rose higher and higher. The water element around her also made a series of sounds as another new light blue layer covered Yun Feng’s body. Luckily, Yun Feng’s mental strength was strong enough. If not, she wouldn’t be able to escape being steamed to the point where only her bones were left, when she got deeper.

“Will Meatball be cooked?” Little Fire gloated. Yun Feng immediately knocked its head. Little Fire whimpered aggrievedly and didn’t say anything else.

Yun Feng searched in the mist intently. Meatball’s body was so small and its moving speed was so weirdly high. How was she supposed to find it? Besides, Meatball didn’t have a special connection with Yun Feng, unlike Little Fire. As Yun Feng’s contracted Magic Beast, Little Fire’s mind was connected to Yun Feng’s. In such a situation right now, finding Meatball was as difficult as looking for a needle in a haystack.

“Little Fire, go search that side. I’ll take this side.” Yun Feng said. Even though Little Fire didn’t really like Meatball, it wouldn’t disobey Yun Feng’s order. It nodded as its dark red body dashed to one side quickly.

“Water Arrow!” Yun Feng shouted with a deep voice. The blue water element in her hand quickly formed an arrow and shot ahead abruptly from her palm. There were bright blue ripples flowing on the level-7 Water Arrow. It flashed swiftly into the white mist in front of Yun Feng. However, the mist immediately swallowed the level-7 Water Arrow in a blink, like a vicious beast!

“Water element doesn’t work...” Yun Feng pondered quietly in her mind. The water element around her body clashed with the white mist, making some “magnetic” sound like a beast bellowing in pain.

“Fire Arrow!” Yun Feng shouted again as the red fire element appeared in her palm, forming a giant arrow. The temperature around her seemed to sense the fire element and became even more active. The ancestor suddenly yelled at this moment, “Retract the fire element!”

Yun Feng felt the sudden rise of temperature around her and the water element that enveloped her body seemed to have evaporated in an instant. She swayed her little hand abruptly as the red fire element immediately dissipated and the temperature dropped again, like a vicious beast quieting down obediently.

“What was that...” Yun Feng felt that unbelievable moment. If she moved a bit slower, she might have turned into ashes in one second just then!

“Kid, the temperature around here should be the closest to the fire element. If I’m right, the origin of the Great Crack should be the source of the release of the fire element! What is it inside that can fill the entire crack with such a high concentration of fire element? It’s really unimaginable...”

What the ancestor said made Yun Feng look slightly nervous. The Great Crack was filled with white mist, which was very likely to be the direct result of the contact of the extremely dense fire element and water in the air!

The contact kept the water element in the air in the state of white mist and at such a high temperature constantly. What creatures inhabited deep in the Great Crack... She truly had no idea.

No wonder Little Fire was so comfortable here. The fire element in this place was so rich. If she attacked with fire magic, the consequences would be unimaginable!

“Kid, the fire element here isn’t the ordinary fire element. The one here devours fighting energy!”

Chapter 150: Mysterious Man (1)

What the ancestor said made Yun Feng look completely cold. Devouring fighting energy? What kind of domineering fire element was that? Imagine when a high-level warrior came here, what would the consequences be? The fighting energy in his body would be devoured like crazy and he would die right away!

No wonder this place was called the Road of Death. For the Karan Empire where 80% of the population were warriors, what else could this place be if not the Road of Death?

When the fire-element mages came here, they would directly immolate themselves as soon as they mobilized the fire element! Besides, without the support of strong mental strength, which of the mages of the other elements would dare to risk their lives to come here? If it weren’t that Meatball rushed straight down, even Yun Feng wouldn’t have risked her life and jumped in.

“Even if the fire element doesn’t work, I don’t believe that none of the five elements can break through this!” Yun Feng tightened her little face as the wind element immediately appeared in her palm. However, the wind element also disappeared in the white mist like the water element did.

Next was the purple thunder element. This was the first time Yun Feng used the thunder element. While she was about to use it, the ancestor stopped her. “Kid, the thunder element is close to the fire element. Don’t use it.”

Yun Feng took a deep breath. If these four elements didn't work, there was only one element left, an element that was known for its defensive power, the strongest element, earth element!

"Earth Hammer!" Yun Feng shouted abruptly as yellow elemental force appeared in the air around her and gathered gradually in her hand, forming a giant hammer eventually. Yun Feng held the giant hammer tight with one hand and swung it at the white mist in front of her swiftly and fiercely!

"Break it!" Following Yun Feng's shout, the Earth Hammer was like a beam of dazzling yellow light flashing in the world of scorching white mist, and this world that had only white mist was torn apart!

"It's working!" Yun Feng watched as the white mist in front of her was torn. Her heart burnt in excitement and she swayed the hammer harder with her hand. Although the white mist only split for a second and it came back together again like healing even more quickly, this was enough for Yun Feng!

Meatball, where are you... If you sense my mind, make some noises. Just shout! Yun Feng swayed the Earth Hammer and moved forward through the torn white mist with difficulty, as she searched for Meatball with anxiousness in her eyes. She was stepping on bumpy ground. Yun Feng didn't know which way to go at all. She just hoped that she could find that little chubby body.

"Nana!" A loud and clear voice seemed to shatter the confusion. Yun Feng's eyes immediately brightened. Meatball's shout was like a shining beacon in the night sky, showing Yun Feng a clear way!

"Little Fire!" Yun Feng yelled with a soft voice, while Little Fire also sensed Yun Feng's mind immediately. They both rushed over to the place where Meatball's voice came from, from their own location!

Yun Feng kept swaying the Earth Hammer in her hand like a warrior fighting with her life on the battlefield. She had only one thought at this moment. When she saw Meatball, she must beat its little butt!

"Roar!" A roar came. "Master, over here!" Little Fire's voice sounded. Yun Feng sensed Little Fire's location and immediately moved and ran over. She kept slashing her way through. The white mist in front of Yun Feng's eyes seemed to be even thicker. A completely white world appeared ahead of her and she couldn't see anything else!

"Master, get on my back!" Little Fire said. Yun Feng didn't hesitate at all. She looked at that blurry giant beast in the white mist as her body hopped onto Little Fire's back. Its elegant, robust body jumped abruptly in the white mist, like a red carp that jumped out of the water. As Little Fire jumped, Yun Feng only felt scorching heat on both sides of her cheeks, followed by a cool breeze!

When she opened her eyes again, what she saw was a totally different scenery!

"This is..." Yun Feng looked at the cave in front of her and slightly looked back. The entrance of the cave was still surrounded by white mist that was so thick that it almost condensed into solid. However, it was cold inside the cave, as if there was an invisible boundary that separated this place from the outside world!

On a stone the size of a fist in the center of the cave, Meatball's entire chubby body was stuck on it. There were glints of greed in its black eyes and its little claws clung onto this stone firmly, as if it was about to swallow it.

Yun Feng didn't care about anything else. She went forward and picked Meatball's body up, shaking it fiercely. "Why did you run away?"

Meatball seemed to feel Yun Feng's anger. Its tail gently patted the back of Yun Feng's hand a few times, like it was pleasing her. However, Yun Feng ignored it completely. She lifted Meatball's body with her hand and smacked its chubby butt harshly.

Meatball didn't scream. It just widened its big watery eyes to complain about Yun Feng's violent behavior silently. In fact, the moment Yun Feng saw that Meatball was safe, all her anger had been gone. Nothing was better than this little thing being okay.

She tossed Meatball's body up gently and it spun agilely in the air, directly landing on the stone it had been lying on just now. Its grape-like eyes let out brighter and brighter light, as if it was holding a delicious feast.

Knowing that Meatball was alright, Yun Feng also started looking around the place carefully. This cave wasn't large. Apart from the stone that was the size of a fist, there was a tree, which seemed to be covered with fire, standing nearby. The branches that stuck out had a weird radiance. It was like a burning fire when Yun Feng looked at it!

"That's..." Yun Feng walked a few steps closer. In this cold cave, that tree was surrounded by a scorching temperature. Even though the heat was only contained on the surface of the tree and didn't affect other areas, Yun Feng could feel how active the fire element inside was. It was extremely terrifying!

A flaming red tree had been buried underground. Yun Feng realized that the fire element outside must have come from this tree... "Ancestor, what's this?"

Yun Feng dared not to get close to the tree easily and only stood around it, while Little Fire was next to Yun Feng, drooling with its glittering black eyes, which were as bright as Meatball's when it saw the stone.
