

## Summoner 1421

### Chapter 1421 It's This (1)

Master Tu scolded her outside again. He suddenly swung his fishtail and opened the door, walking to the long table in the inner room in a hurry. Master Tu immediately touched a few parts with his finger gently. The box Yun Feng opened the second time bulged. Master Tu opened it in a hurry. When he saw that it was empty, his expression changed drastically!

"It's taken away... It's taken away!" Master Tu mumbled. He didn't notice that there was another person hiding in this space at all. That was Yun Feng. Yun Feng carefully hid herself with the space blockade and watched Master Tu's movements and expression from a close distance. Seeing that Master Tu was so dejected, Yun Feng looked at the thing in her hand firmly in confusion.

Master Tu proved that this thing was extraordinary. Besides, the young man appeared to fight for this thing. If this thing was so precious, why would Si Wen put it in such a remote place? Or... did Si Wen, the king of the merfolk, not know that this thing existed?

The thing in Yun Feng's hand suddenly became energetic and struggled fiercely. Its entire balled body seemed to be about to spread out. Yun Feng almost lost her balance and didn't catch it. More and more mucus was secreted on its body, as if it wanted to escape. Yun Feng's fingers were slightly extended by the thing. Two long whiskers extended out and fluttered slowly in the air through Yun Feng's fingers. Yun Feng looked at the two almost transparent whiskers and suddenly thought of something.

She had come into contact with so many Magic Beasts, but only one of them had a whisker. Was this one also... Yun Feng clenched her fists and stuck the two whiskers outside. The thing she was holding seemed to be very angry and started twisting violently. The force of the twisting was so strong that Yun Feng couldn't hold it anymore!

!!

Yun Feng's shoulders sank slightly. She knew that Meatball came out of the bracelet space. Meatball didn't make a sound when it came out. Its body only floated to a place in Yun Feng's hand and it bared its sharp teeth at that thing. Yun Feng obviously felt that the thing that was struggling fiercely just then suddenly stopped moving and immediately became quiet and obedient.

Meatball's little nose twitched. It glanced at Yun Feng with its big eyes and then jumped back to Yun Feng's shoulder. Its little body rubbed against Yun Feng's a few times and flashed back to Yun Feng's bracelet space. Yun Feng smiled helplessly. Meatball was really something. She didn't expect the species of the Sea Clan to be so afraid of it too.

The palm of her hand finally calmed down and Yun Feng was also relieved. At this moment, Master Tu's face was full of worry. He obviously didn't know what to do. In the end, he suddenly shouted, "Capture that kid! Capture him at all costs! Seal the city gate immediately. Don't let anyone leave the city even if they have a compass!"

Yun Feng's face darkened after hearing that. If they sealed the city gate, it would take a while longer, but it didn't matter. Anyway, the focus was on that kid at this moment. She didn't feel pressured at all. Even though the city gate was sealed right now, she still needed the compass. She stuffed the thing in her

hand into the bracelet space. With Meatball here, that thing should be very obedient. A gust of dark wind rose gently and floated past Master Tu. It was so gentle that it was very difficult for Master Tu to notice it. The dark wind passed, but Master Tu still didn't have any reaction. The dark wind quickly floated out of Master Tu's house and landed in a remote corner outside. Yun Feng came out of the sealed space and chuckled as she looked at the compass in her hand. She put the compass away. Yun Feng was about to step forward when she heard a voice next to her.

"You got the thing? You're quite smart!"

The smile on Yun Feng's face faded slightly. She slowly turned around and saw the young man she met just then leaning against the wall, looking at Yun Feng with anger and embarrassment in his black eyes, but he didn't attack immediately. Yun Feng raised her brows. "You're quite something." He could get rid of so many people and come back for her in such a short period of time, which showed that he was determined to get the thing in her hand.

"Cut the crap! Where's the thing? Hand it over!" The young man stood straight and looked at Yun Feng fiercely, but Yun Feng was puzzled. "The thing? What are you talking about?"

"Don't pretend to be mute! You cunning thief, give that thing to me, or I'll teach you a lesson!"

Yun Feng sneered. Did this kid really think that she would be controlled by him? The reason why she was restrained by him in the room was firstly because he seized the opportunity and secondly because she didn't want to make too much noise. Yun Feng's concession seemed to make this young man think that he could really dominate Yun Feng. He couldn't help but sound a bit arrogant.

"You want to teach me a lesson?" Yun Feng chuckled. "Up to you. I don't know what you're talking about. If you want it, you can go back there." Yun Feng ignored the young man after saying that and turned around to leave. The young man bit his lips and suddenly attacked angrily. His fingers instantly transformed into unusually sharp beast claws that pounced on Yun Feng!

"If you don't give it to me, I'll take it from you! I'll take your life too!" Viciousness flashed through the young man's face. He didn't show any mercy with his beast claws and stabbed towards Yun Feng's back with all his strength, planning to take Yun Feng's heart out of her body in one go. However, Yun Feng raised her arm and turned her body slightly. Her hand quickly transformed and blocked the young man's hand in front of her!

"What?" The young man looked at the beast claw that blocked his way and Yun Feng's demonic eyes in shock. The young man gritted his teeth and exerted his strength again in disbelief, but he found that Yun Feng's beast claw grabbed his firmly. He couldn't move at all no matter how hard he tried!

"Damn it!" The young man roared furiously. Yun Feng smiled coldly. "If you pester me again, I'll crush your hand immediately!"

The young man's face turned pale. Feeling the terrifying power from Yun Feng's claw, he couldn't help but feel a bit scared in his mind. It turned out that she wasn't weak. She was much stronger than him! Seeing the fear in the young man's eyes, Yun Feng finally let go of the claw and glanced at the young man before she turned around and left.

Looking at Yun Feng's back that was getting further and further away, the young man clenched his fists and gritted his teeth. She clearly took that thing away, or those merfolk guards wouldn't have chased after him so closely! She even looked like she didn't know anything! The young man thought for a while and suddenly chased after Yun Feng. Since she wasn't willing to hand it over, he wouldn't let it go!

## Chapter 1422 It's This (2)

After everything was settled, Yun Feng sealed the space around her and took out the thing that had already shown its original form in the space of the bracelet. Meatball also jumped out onto Yun Feng's shoulder, glancing at it with its big eyes in disdain, as if it didn't like it.

The thing that was originally curled up and couldn't be seen clearly had already spread out completely at this moment. Its two almost transparent whiskers fluttered slowly. Its short and fat body and the scales on its body were glittering faintly. Yun Feng only needed one look to know what it was.

When Yun Feng first came to the Endless Ocean, she was looking for something that could resurrect Mu Canghai. One of them had "grass" in its name, but it was actually the whisker of some kind of member of the Sea Clan. This member of the Sea Clan was called You Yan. The one in front of her looked like a smaller You Yan no matter how she looked at it. To be exact, it was You Yan's young form.

There were very few members of the Sea Clan like You Yan and their whereabouts were unpredictable. Nobody had seen it at all. Besides, ever since You Yan was so shameless last time, Yun Feng didn't have a good impression of it. At this moment, this young You Yan looked at Yun Feng curiously with its big eyes, as if it wanted to come over and get close to her. However, because of Meatball, it shivered and twisted its body, looking at Yun Feng pitifully.

It wasn't strange for You Yan to appear in the territory of the merfolk, but where exactly did this young You Yan come from? Why did Master Tu hide it so carefully, fearing that someone would notice it? He even blocked the city gate after it was gone... What exactly did this You Yan represent?

!!

Many question marks appeared in Yun Feng's mind. She only felt like she had walked into a mystery. And that young man. Did he know that You Yan was in the box? Was he looking for this or something else?

While Yun Feng was thinking, the space blockade suddenly fluctuated violently. An aura passed through the space blockade and drilled in. Then, a suction force immediately sucked the young You Yan over! "Humph, this thing will be mine sooner or later!"

Yun Feng was a bit shocked when she heard this voice. It was that young man! His strength was below hers, but he could penetrate her space blockade! Yun Feng's black eyes darkened as she got up and chased after the young man's aura. The young man ran in the front at an extremely fast speed and Yun Feng chased after him relentlessly. The city gate was sealed and the security was a bit stricter right now. The young man certainly didn't have the ability to break out by force. He could only keep circling the city, but he couldn't get rid of Yun Feng no matter what. In the end, he could only find a remote corner and stop.

The young man roared angrily and made a strange sound, as if it was the voice of his original form, the Sea Clan. Yun Feng raised her brows and looked at the young man. The young man looked at Yun Feng angrily. "This thing is mine!"

Yun Feng chuckled. "What do you want this You Yan for?"

The young man was stunned. He suddenly opened his palm and widened his black eyes! Yun Feng saw the young man's expression and knew that this wasn't what he wanted. The young man squeezed it furiously. The poor young You Yan struggled in pain a few times and looked at Yun Feng pitifully with its big eyes. Yun Feng's black eyes darkened. "If it's not what you want, give it back to me."

"It's you! You must've swapped it!" The young man roared. Yun Feng looked very upset and her black eyes were cold. "I'll say it again. Give it to me!"

"Hand over the thing you swapped!" The young man squeezed the young You Yan fiercely again. The short and fat body of the young You Yan struggled fiercely and its two transparent whiskers also moved violently a few times. Yun Feng narrowed her black eyes. "I don't know what you want. I've never swapped anything."

"Nonsense! You're so cunning. You must've taken my things!" Seeing that Yun Feng cared about the fat thing in her hand, the corners of the young man's mouth curled up unconsciously. Yun Feng saw that the young man insisted on that. She didn't have much patience left. Not giving it to her? Sure!

Mental strength surged out of her hand and turned into a long whip that curled towards the young man's wrist, attacking abruptly like a long snake at a high speed. The young man's black eyes glittered and his body swayed slightly. Yun Feng's mental strength directly missed!

"Your speed isn't enough at all," said the young man proudly, but Yun Feng sneered. Meatball on her shoulder opened its mouth and jumped up, turning into a beam of bright light that pounced on the young man. The young man was startled and was a bit surprised by Meatball's speed. His body was also the same as before. Coldness flashed through Meatball's big eyes and its mouth full of sharp teeth had already opened. Its chubby little body swayed slightly along the young man's trajectory in an instant and bit his wrist fiercely with precision!

"Argh!" The young man exclaimed and immediately let go. The young You Yan in his hand quickly swayed its body and rushed towards Yun Feng with all its might. Yun Feng held the young You Yan firmly with one hand and felt that this poor kid was already shivering.

The white light flashed again and Meatball had already returned to Yun Feng's shoulder. The young man looked at Meatball in disbelief with his black eyes and covered his bite wound with his other hand.

"What's that?"

Meatball wiggled its little body proudly and glanced at the young man in disdain. Yun Feng looked at the wound on the young man's wrist that Meatball bit open without hesitation and her black eyes were slightly cold. "If you keep pestering me, your wrist won't be the only one that gets bitten next time."

The young man's face darkened and he glanced at Meatball in fear. "I won't give up! I'll definitely follow you! Until you hand that thing over!" After saying that, his body flashed and he directly disappeared. Yun Feng pondered. That guy treated her space blockade as if it were nothing. Who exactly was that

young man? This thought flashed through her mind and she threw it away. That young man had nothing to do with her at all. She didn't want to be involved in his business that would surely cause trouble in the Endless Ocean.

After a few days of consecutive lockdowns, the city gate was opened again. Master Tu probably couldn't find anything and had no choice but to open the city gate. This was an important city in the border area of the merfolk. If it was kept sealed like this, it would certainly attract Si Wen's attention. Master Tu certainly couldn't let the higher-ups know. The city gate was opened again in such a helpless situation.

#### Chapter 1423 Partners (1)

The opening of the city gate was definitely good news for Yun Feng. Once she left the territory of the merfolk, that bounty order would be useless to her. She was going deeper into the Endless Ocean this time, and the merfolk couldn't find her.

The members of the Sea Clan, who were anxiously waiting to leave the city, all surged out. The streets in the city were a bit crowded. Yun Feng slowly moved forward between the members of the Sea Clan. She glanced at the other members of the Sea Clan and suddenly found that the compasses in their hands were very different from hers. Yun Feng looked carefully. Even though the shape was the same, the patterns on it were completely different. Her compass seemed to be a bit special.

Yun Feng turned the compass she got from Master Tu around and finally saw a line of tiny words on it. "Royal Property". Yun Feng's face immediately darkened. It was for the royal family! If she used this compass, wouldn't she alert Si Wen and the two elders of the Red Finned and the White Finned, who wanted to kill her?

The crowd kept moving forward. Yun Feng's mind raced. Even though it was a bit dangerous to show this thing, it was also feasible. It depended on how she composed herself. Soon, it was Yun Feng's turn. After the person in front showed the compass, the guard examined him carefully before letting him out. It was Yun Feng's turn. Yun Feng showed the compass. The guard next to her immediately changed his expression with a lot of respect and even fear on his face.

"You are..."

!!

Yun Feng said with a sullen face, "I don't have much time."

The guards on both sides nodded in fear and trepidation. When they were about to let Yun Feng out, they found two human legs on Yun Feng's lower body. "Wait! What's wrong with your lower body?"

Yun Feng raised her brows. "If you have any questions, just ask Si Wen."

The guards on both sides immediately let her go after hearing that and didn't ask anything else. Yun Feng took the compass and put it away, walking out of the city gate step by step. The guards on both sides watched her leave with a respectful look. They only heaved a sigh of relief after she left.

After leaving the city, Yun Feng was also relieved. Luckily, she didn't cause any trouble. It was quite successful. Meatball came out of the bracelet and jumped on Yun Feng's shoulder, looking very happy.

Yun Feng couldn't help but chuckle softly when she saw its cute expression. She looked at the vast endless sea in front of her with her black eyes and smiled deeply. The trip to this sea had just begun.

After coming out of the territory of the merfolk, the world was even larger. Yun Feng didn't go forward recklessly. Instead, she controlled her speed to a certain extent and moved forward carefully. The Endless Ocean could be said to be the territory of Magic Beasts. Magic Beasts had a strict division of territory. Yun Feng had only seen the merfolk in the Sea Clan. The merfolk should be one of the more docile ones. Yun Feng didn't know anything else at all. Even her master only said a few words about the Endless Ocean. She would have to rely on herself for the exploration of the Endless Ocean this time.

Yun Feng kept moving forward and observed the situation on the way as she walked. She should be passing through an empty sea. There were no traces of any races stationed here, but there were a lot of traces of battle. Some bones were revealed, which showed how fierce the battles here were.

While Yun Feng was observing, she vaguely heard a sound not far away. She didn't intend to pay attention to it at first, but the sound was gradually coming this way. Yun Feng immediately hid behind a very lush seaweed. The sound was getting closer and closer. Yun Feng looked carefully and her black eyes darkened. It was that young man?

At this moment, the young man was fighting with two members of the Sea Clan. Compared to the young man's skinny body, these two members of the Sea Clan were obviously much taller and stronger. The characteristics of the Sea Clan were even more obvious. Their skin was extremely rough and they were covered in a lot of scales. The young man seemed to be a bit enraged when he fought with the two members of the Sea Clan. Even though he could resist, he obviously didn't have the chance to attack.

Yun Feng frowned suspiciously. How exactly did this young man come out of the merfolk's territory? Was it a coincidence that they met here, or had he been following her? Yun Feng glanced at him with her black eyes. No matter what happened, she didn't intend to be nosy. She immediately left and heard a voice shout, "Hey! Don't go!"

Yun Feng sped up after hearing that, but a trident slashed out of nowhere. Yun Feng's body tilted slightly and she narrowly dodged it. The young man had already run over and the two members of the Sea Clan behind him, who were obviously completely enraged. Yun Feng's face darkened. The young man chuckled. "It's useless even if you want to clear your name right now. You're on the same boat as me!"

Seeing the anger in the eyes of the two members of the Sea Clan, Yun Feng knew that she had been set up. Looking at the young man's slightly complacent expression, Yun Feng's red lips curled up. She suddenly turned around and left the young man alone, running forward abruptly!

The young man was startled. He obviously didn't expect Yun Feng to run away instead of attacking. He quickly chased after her. The two members of the Sea Clan behind him followed him angrily. Yun Feng only felt frustrated when she heard the angry shouts of the Sea Clan behind her. Before her exploration began, there was already a sticky tail! She couldn't get rid of it no matter what! A hint of killing intent suddenly surged from the bottom of her heart and the young man had already caught up with her. "Hey! How about a deal?"

Yun Feng didn't say anything with a cold face. The young man continued, "You have something I want and I have something you need."

Yun Feng sneered. "Do I need you?"

Yun Feng raised her brows. This young man saw it very clearly. She was a human being and didn't have any map of the Endless Ocean. Yun Feng knew a bit about the dangers of the Endless Ocean. It would certainly be great if she had a guide.

"I don't have what you want." Yun Feng's black eyes darkened. The young man obviously didn't believe her. "You don't have to emphasize that anymore. I can show you the way, but you must give me that thing!"

Yun Feng frowned. She already said that again and again, but this kid wouldn't listen. Fine, what could she do if he was certain that she had it? He came to her voluntarily, so she wouldn't suffer a loss. Seeing Yun Feng's expression, the young man's black eyes brightened. He turned his head and glanced back. "Since we've reached an agreement, let's deal with the two behind first."

Chapter 1424 Partners (2)

Yun Feng suddenly stopped, and so did the young man. "Let me tell you, those two members of the Sea Clan are..."

She suddenly opened her slender hand and her Grade-3 God-Level mental strength surged out like waves. It roared and pounced forward, while the two members of the Sea Clan behind were directly sent flying by Yun Feng's mental strength!

"God Level... Grade 2." The young man looked at the two members of the Sea Clan who were sent flying with a dumbfounded look. He widened his eyes and looked at Yun Feng. Her strength was so... powerful!

Yun Feng curled her lips. "What are you looking at? Let's go."

The young man looked at Yun Feng's figure as she moved forward and his black eyes darkened. She definitely didn't have an ordinary identity. Her purpose for coming to the merfolk was very likely the same as his. She must have the thing he wanted!

!!

After traveling in the Endless Ocean for a few days, the young man and Yun Feng walked together and he roughly explained the South Sea area. The Endless Ocean was roughly divided into four areas, namely east, west, north and south. The merfolk were located at the edge of the southern area. The area of each area was extremely vast and there were dozens of species of the Sea Clan living there. According to the young man, if one didn't know the tricks, one might cause a lot of trouble and couldn't get rid of them.

After hearing that, Yun Feng only felt that the distribution of forces in the Endless Ocean was much more complicated than that on land. No matter how big or small the race was, every Sea Clan had their own territory. Their widespread branches in this sea area were really intertwined like tree roots and she couldn't tell them apart in a short period of time. What the young man said was just a general idea. Yun Feng understood that the real situation was more complicated and troublesome than what he said. It seemed that it was a lot easier for her to travel with him. It wasn't bad.

Yun Feng also learned the young man's name. His name was Luo Teng. Yun Feng didn't say anything after hearing this name and also told him her name, Feng Yun. As for their races, the young man and Yun Feng both kept quiet. They knew that they wouldn't get an answer even if they asked, but the young man had once said that Yun Feng's aura was special. Yun Feng smiled gently and didn't intend to talk about it.

Along the way, the young man would tell Yun Feng whenever they passed a place along the way. In just a few days, they had already passed the territory of no less than five tribes. Under the guidance of the young man, they didn't encounter any trouble. Yun Feng thought in her mind that this young man was indeed very familiar with this place. He must be from one of the tribes here.

"You're going all the way north. Are you going to the north?" asked the young man. Yun Feng chuckled. "Sort of."

"What do you mean by sort of? You're really ambiguous." The young man raised the corners of his mouth. "Which Sea Clan are you from? Do you all talk like this?"

Yun Feng curled her lips and didn't say anything. The young man looked at her deeply. "You must give me what we agreed on. If you violate your promise, I'll definitely make sure you can't walk out of this sea!"

Yun Feng raised her brows and flashed forward. She didn't have what he wanted to begin with, but he insisted on following her. How could he blame her? Let him be. When the time came, she would see if he had the ability to stop her. Yun Feng looked at the surrounding area. Most of the tribes she encountered along the way were mid-level and low-level. It seemed that the huger races were still further inside, closer to the center.

"What's the largest Sea Clan in the North Sea?" Yun Feng asked. The young man said, "There are two major Sea Clans in the North Sea that are equally matched. One is the Chiwen Tribe and the other is the Chiyuan Tribe." After saying that, disdain flashed through the young man's face. Yun Feng raised her brows and asked, "You don't seem to care for these two tribes."

The young man snorted. "The Chiwen and the Chiyuan have always been arrogant because they're close relatives of the Dragons. They've been domineering in the North Sea. Every time they fight for territory, they'll cause trouble for the other tribes. These two tribes don't like each other and treat each other as sworn enemies. They have to fight every time they meet."

Chiwen and Chiyuan... Yun Feng said, "So, they're close relatives of the Dragons. No wonder."

"There's only a little bit of Dragons' blood their bloodline. They're not related to the Dragons at all! They really take themselves too seriously!" The young man's tone was extremely disdainful. Yun Feng chuckled after hearing that. "You're quite angry with them."

"Most members of the Sea Clan in the North Sea are dissatisfied with them." The young man looked a bit gloomy. Yun Feng didn't say anything. The young man glanced at her. "If you keep going north, you'll have to enter the territory of these two races. Be careful by then."

"Why? You're not coming with me?" Yun Feng glanced at the young man. The young man's black eyes glittered. "I won't enter the territory of these two races even if I die."

Yun Feng curled her lips. It seemed that the relationship between this young man and the two tribes wasn't purely resentment. Fine, this had nothing to do with her. She might be able to find something on the territory of these two races when she came to the Endless Ocean. She had to visit these two races.

Yun Feng didn't say anything and the young man didn't ask anymore. The two of them moved forward. The deeper they went, the slower they were. The young man seemed even more careful. The young man's body flashed into a dense seaweed. Yun Feng glanced at him suspiciously. Luo Teng waved his hand. "What are you looking at? Come here!"

Yun Feng approached and hid behind the seaweed. The two of them were very quiet. Seeing the suspicion in Yun Feng's eyes, the young man whispered, "There'll be a good show soon. If I'm right, those two races should be fighting again."

Yun Feng looked over with her black eyes, but she still couldn't see or hear anything. After waiting for a while, as expected, sounds came from afar and they instantly got much closer. The corners of Luo Teng's mouth curled up proudly. "Hm, as expected, they're fighting again."

In the distance, dust kept moving over. Yun Feng looked carefully and saw that there were really two different kinds of Sea Clan fighting. One of them ran forward in a sorry state and counterattacked from time to time, while the other chased after them aggressively.

Yun Feng and Luo Teng watched the drama quietly in the seaweed. The battle between the two groups of Sea Clan was very fierce. One of the parties was covered in blood. The other party, who had already seen the blood, seemed to be even more excited. The strength of both parties wasn't low. They had all reached the God Level! Yun Feng couldn't help but feel a bit surprised in her mind. The depths of the Endless Ocean couldn't be underestimated. There were probably a lot of people at the God Level.

Chapter 1425 Chiwen and Chiyuan

"They seem to be coming for us." Yun Feng narrowed her black eyes and looked at the party that was fleeing in panic. Those people were running in the direction where they were hiding. Luo Teng's face darkened and he cursed softly, "How unlucky!"

Yun Feng's black eyes glittered. She couldn't expose the existence of the Dragon Palace easily in the Endless Ocean. Right now, she could only be discovered. Luo Teng quickly looked around. "Luckily, this is the public sea and not the territory of any race. Nothing will happen even if we meet them. Let's go!" Luo Teng's body flashed and he had already jumped out of the seaweed quickly. Yun Feng immediately followed him when she saw him. Two black shadows suddenly appeared from the seaweed. The fleeing party was immediately shocked and wanted to attack without thinking. Seeing that, Luo Teng quickly shouted, "We're just passing by!"

However, the party that escaped in panic was already like a frightened bird. It didn't matter if the strangers were passing by or not. They immediately attacked. Yun Feng's black eyes glittered and she immediately threw out her mental strength, colliding with the energy of the attack abruptly. The seawater shook fiercely a few times and resolved most of the force. The few people who attacked were stunned and looked at Yun Feng in surprise.

Yun Feng glanced at them coldly with her black eyes and turned around to leave. However, a voice suddenly rose. "Miss, please wait!"

This was a very weak voice. Yun Feng couldn't help but look sideways. The odds of such a weak voice among the Sea Clan seemed to be very low. The Sea Clan was usually very strong and their voice also sounded much thicker. Luo Teng raised his brows and looked over. A petite figure walked out from behind those Sea Clan members. Compared to the other Sea Clan members, she was too petite. She only reached the chests of the other Sea Clan members. Her muscles and body were far inferior. She should be the weak type among the Sea Clan. And those eyes of hers were silver!

!!

"The prophet of the Chiwen Tribe?" Luo Teng sounded very shocked. The few members of the Chiwen Tribe immediately became vigilant and looked at Luo Teng furiously. A prophet? Yun Feng sized up the petite woman in front of her carefully. Her eyes didn't seem to be moving.

A faint smile appeared on her fair face. "You're right."

"How can a prophet leave the Chiwen Tribe?" asked Luo Teng in shock. The few Chiwen Sea Clan members immediately roared in dissatisfaction, "Outsiders can't ask about our clan!"

Luo Teng's face darkened, but the petite Sea Clan member shook her head. She sounded extremely calm. "You're right, but there's a reason."

Luo Teng raised his brows. "Hm, the prophet is important to you people, but it's nothing in my eyes."

"Kid, what did you say?" The few members of the Sea Clan were immediately enraged. Yun Feng glanced at Luo Teng and said indifferently, "Rather than stopping me, you should use this time to escape."

The petite girl of the Sea Clan smiled lightly and looked at Yun Feng with her silver eyes. "There's something on you that you can hide from others, but not from me."

Yun Feng's face darkened. The aura of the Sea Clan in her body filled her entire body. Besides, this was the ancient power. How could she see through it so easily? "Oh? Why don't I know what it is?"

The girl chuckled and pointed at her eyes. "I can see a lot of things with these eyes, including some things in your body."

Yun Feng's black eyes darkened. The feeling of being seen through made her extremely uncomfortable. How much did this girl see? Did she see the red eyes in her body clearly?

The girl smiled. "How about making a deal with me? You won't suffer a loss."

Luo Teng sneered. "Prophets have always been full of nonsense. You don't have to believe them."

The girl chuckled. The few members of the Sea Clan next to her were so angry that their faces and ears were already red. If it weren't for the girl, they would probably have attacked Luo Teng immediately. Seeing that Yun Feng was silent, Luo Teng couldn't help but shout loudly, "You don't believe her, do you?"

Yun Feng's black eyes glittered as she looked at the girl's unhurried look. How much did she see? If she really made things up, Yun Feng would suffer too much if she believed it. The girl seemed to see Yun Feng's hesitation and chuckled softly. "Do I really have to tell you clearly?"

Yun Feng sneered and suddenly approached the girl. The few members of the Sea Clan immediately wanted to attack, but the girl stopped them. Luo Teng also exclaimed when he saw Yun Feng suddenly approach. Yun Feng ignored them and looked at the girl's silver eyes. "What exactly did you see?"

Yun Feng's black eyes darkened and the corners of her mouth suddenly curled up as she looked at the pair of silver eyes in front of her with an obvious smile. The girl of the Sea Clan in front of her was obviously a bit more cunning than she thought. Even though she looked slim and weak, this girl actually saw everything, or she wouldn't have come to her to get through this crisis.

"Your words and heart are far different from your appearance." Yun Feng left the girl's side without retreating. The girl chuckled. "This can be considered a compliment for me. How about it? Do you accept my suggestion?"

Yun Feng raised her brows. Her identity had already been seen through. If her human identity was exposed in the Endless Ocean, would she still have a place to move? All the Sea Clan would probably put down their conflicts for the time being and deal with her. She wouldn't be able to move an inch. She might even lose her life here.

"Do I have a choice?" Yun Feng said coldly. The girl chuckled. "I'm not threatening you. You'll benefit too."

"Hey! Do you really believe what the prophet said?" Luo Teng walked over and looked at Yun Feng in disbelief. "You can't believe what the prophet said! They've always talked glibly just to achieve their goal!"

The girl and Yun Feng ignored what Luo Teng said. The two of them stared at each other for a while. Yun Feng said, "I'll help you beat the Sea Clan that's chasing you."

Luo Teng's eyes widened abruptly. "You really believed her!"

The girl pursed her lips and shook her head. "Not only that, but you must also escort me to the clan safely."

#### Chapter 1426 Escorting the Prophet (1)

Yun Feng's expression turned cold. This girl's request was too much. Just because she promised to help didn't mean that she would do everything for her. Besides, what if she was accidentally seen through when she arrived at the Chiwen Tribe? The girl seemed to know Yun Feng's unwillingness and said, "Don't worry. Nobody can see through it except me, and I won't let anyone hurt you."

Luo Teng frowned on the side. "Let me tell you. Both Chiwen and Chiyuan aren't easy to deal with. Once you enter their territory, you'll definitely be unable to protect yourself."

"It seems that I don't have a choice this time," said Yun Feng coldly. The girl smiled. "Your help will be rewarded. You can ask a question. I'll give you an answer."

Yun Feng was stunned, and so was Luo Teng. The girl looked at Yun Feng with her silver eyes with a peaceful expression. "Any questions?"

The girl nodded. "Yes, any question."

!!

“Humph, any question is fine, but whether she knows the answer or not is another matter.” Luo Teng said in disdain on the side. Yun Feng glanced at him and then looked at the girl. “I can escort you into the clan, but I don’t want to be involved in any trouble.”

The girl nodded. Seeing that the two of them reached an agreement, Luo Teng couldn’t help but complain in a low voice on the side, saying that Yun Feng was so stupid that she didn’t believe what he said. Yun Feng turned around and glanced at him. “I’m going to escort her back to the tribe. Are you coming?”

Luo Teng was shocked. He would rather die than go to the territory of these two races, but if he didn’t go with her this time, he wouldn’t be able to get back what she had! Luo Teng glanced at the girl and the people around her. That thing couldn’t be exposed in front of the prophet. It seemed that he had to go with her this time!

“Of course I’m going!” Luo Teng gritted his teeth and said as he glanced at the girl angrily. The girl was obviously relieved to hear their answer. The moment they reached a consensus, the pursuers behind them also arrived as expected.

“Miss... I’ll leave them to you,” said the girl. Yun Feng nodded. A few members of the Sea Clan chased after them aggressively and instantly surrounded everyone. Seeing the two strangers, Yun Feng and Luo Teng, they couldn’t help but open their mouths and smile sinisterly. “There are two more people who want to die. We’ll finish them off with you so that we don’t have any trouble in the future!”

Yun Feng raised her red lips and her hand immediately transformed. Strange scales quickly covered her entire arm and her slender fingers turned into sharp claws that glittered with cold light. A deep and distant aura burst out of her body. The few members of the Sea Clan chasing her were a bit afraid. This was an aura they weren’t familiar with and there was a faint pressure. Did she come from another sea?

The few members of the Sea Clan who were chasing after them looked at each other. The person in front of them couldn’t be someone they couldn’t afford to offend from the other seas. If that was the case, they would cause trouble. However, they were just short of killing the prophet this time. If they couldn’t kill her, their efforts would be in vain.

“You aren’t from the South Sea Region, right?”

Yun Feng raised her brows. “I’m indeed not.”

“Since you’re not from the South Sea Region, it’s better for you not to interfere with the matters here.”

Yun Feng chuckled. The aura in her body obviously made these Sea Clan members a bit afraid. If she was really a member of the Endless Ocean, she certainly wouldn’t interfere. However, she was a human being right now. Since she had already made a deal with the girl, she couldn’t go back on her words.

“If your target is her, it’s related to me.” Yun Feng glanced at the few members of the Sea Clan. The faces of the few members of the Sea Clan immediately darkened. If that was the case, it was impossible to negotiate. The sound of bones twisting and colliding came from the sturdy bodies of the few members of the Sea Clan. A few forces surged out of these few members of the Sea Clan. These few members of the Sea Clan weren’t weak. They were a bit tricky to deal with.

The few guards next to the girl protected her carefully. Luo Teng looked at Yun Feng rather nervously. Was she really fine? She was fighting a group! The girl's guards looked at Yun Feng's slender back and couldn't help but curl their lips. "My Lady, are you really sure she can resolve this crisis?"

The girl chuckled as her silver eyes seemed to glitter. "She'll be fine. Without her, we wouldn't have been able to escape this crisis."

"If you insist on interfering with things you shouldn't interfere with, we don't have to show mercy!" The few members of the Sea Clan shouted fiercely as the energy fluctuation rushed towards Yun Feng fiercely, causing the seawater to shake violently. Yun Feng's body flashed and she faced it like a gust of wind. The two waves of energy collided fiercely and the water of the Endless Ocean surged a bit!

The cold sharp claws slid across the seawater like beams of light and shooting stars. Yun Feng's sharp claws, which had already transformed, were astonishingly fast. The members of the Chiwen Tribe were dumbfounded. The few people who doubted Yun Feng just then immediately gasped. They were being chased in such a sorry state. However, she had the upper hand against so many people!

The difference between her and them wasn't just a little!

"Damn it, she's too difficult to deal with!" The few members of the Sea Clan who were chasing her twisted their facial features. Even if they worked together, they didn't get any advantage at all. Yun Feng's strength was greater than theirs and she was just as fast. She was also fast when they sped up. No matter how fast they were, she would be faster than them! Didn't she have a bottom line?

At this moment, Yun Feng was like a bottomless pit in front of these few members of the Sea Clan. They couldn't see the limit of her strength at all!

The few members of the Sea Clan looked at each other. They wouldn't have any advantage at all if they continued fighting like this. With her here, they wouldn't be able to gain any advantage at all. It seemed that they could only let the members of the Chiwen Tribe leave just like that! Damn it! Such a troublemaker came out of nowhere, making all their efforts go to waste!

"The Chiyuan Tribe will remember you! If you step into the territory of the Chiyuan Tribe in the future, you'll definitely die without a burial place!"

#### Chapter 1427 Escorting the Prophet (2)

The few members of the Sea Clan quickly retreated. There were still lingering energy waves, but their bodies had already retreated quickly. Yun Feng didn't have any intention of chasing after them when she saw them retreat. The few ferocious members of the Sea Clan retreated in such a sorry state, which surprised the members of the Chiwen Tribe even more. They had to retreat in the end after chasing them all the way. The Chiyuan Tribe suffered a huge loss this time.

Luo Teng was greatly surprised as he watched on the side. He felt Yun Feng's strength again. If it were him, he would only be able to run. He didn't expect her to let those few members of the Sea Clan escape in such a sorry state!

"Miss, thank you." The girl walked up and smiled at Yun Feng. Yun Feng's arm returned to its original state as she looked at the girl. "My name is Feng Yun."

The girl was stunned for a moment and chuckled. Yun Feng looked around. "How far are we from the territory of the Chiwen Tribe?"

The few guards next to the girl immediately said with a much more respectful tone, "That's still quite far away from here."

!!

"If that's the case, we should set off as soon as possible to avoid any trouble," said Yun Feng. The girl agreed and the group immediately set off. Luo Teng couldn't help but come close and say in a low voice, "You helped the Chiwen Tribe just then. The Chiyuan Tribe has already regarded you as an enemy."

Yun Feng chuckled. "The Chiwen and the Chiyuan are like fire and water. Rather than being neutral, it's better to let one of them become your backer."

Luo Teng looked at Yun Feng in shock. "Didn't you say you don't want to be involved in any conflict?"

Yun Feng looked at the back of the girl of the Chiwen Tribe and her black eyes darkened. "I don't have a choice right now. I have to be involved even if I don't want to."

She didn't want to get involved in anything in the Endless Ocean at first, but reality wouldn't be peaceful just like that. The appearance of the prophet of the Chiwen Tribe disrupted everything. Even though Yun Feng was afraid that the girl would spread her human identity, there was another reason why she was determined to escort the girl back to the Chiwen Tribe, which was that the girl had promised her.

Yun Feng didn't know the ability of a prophet, but if she could be called a prophet, she must have a unique ability. Besides, the Chiyuan Tribe chased after her persistently just to kill her. It could be seen that this girl occupied an extremely important position in the Chiwen Tribe.

The prophet would give her an answer. Yun Feng was tempted by this condition. She came to the Endless Ocean not only to find the map fragment, but also, more importantly, the method of resurrection!

They were still quite a distance away from the territory of the Chiwen Tribe. Yun Feng was very careful along the way, but the few members of the Chiyuan Tribe shouldn't follow her anymore. After all, they didn't get any advantage last time and wouldn't do anything anymore. Even so, Yun Feng was still very cautious. This prophet of the Chiwen Tribe was more valuable than she thought.

The situation in the other seas wasn't clear. In the South Sea alone, there were prophets among all the large and small tribes here. The prophet was like the spiritual pillar of this tribe. The prophet had a special ability. Naturally, their proficiency in this ability wasn't the same. The prophets of the two tribes, Chiwen and Chiyuan, were the strongest in the South Sea. In comparison, the prophet of the Chiwen Tribe was even stronger! In other words, the girl in front of them was the most powerful prophet in the entire South Sea! It could be seen how important her status was in the Chiwen Tribe!

Prophets usually didn't make promises easily, or rather, they didn't say them easily. The accuracy of their predictions was based on the strength of their abilities. After learning everything, Yun Feng understood that since the girl in front of her said so, it meant that she must know the answer.

“If you know that you’re so important to the Chiwen Tribe, why did you come so far away?” Luo Teng said in disdain on the side. His words were full of mockery. “If you’re so precious, shouldn’t you stay home?”

Yun Feng glanced at Luo Teng. He seemed to dislike the prophet very much. He had been picky about them. Did this kid have some grudge against the prophet?

“Kid, what’s with your tone? Show some respect!” The guard of the Chiwen Tribe said unhappily. His muscles bulged as he looked at Luo Teng fiercely. Luo Teng snorted and glanced over. “Feng Yun, don’t blame me for not reminding you. She might just have an undeserved reputation.”

“Kid, I think you want to die!” The guard of the Chiwen Tribe was about to rush forward without another word, but the girl stopped him with a casual hand gesture. Yun Feng looked at Luo Teng, who was covered in thorns, and said coldly, “If you enter the Chiwen Region with such an attitude, I won’t collect your corpse even if you die.”

Luo Teng was stunned. He knew that Yun Feng wouldn’t care about his life and death. He immediately grunted angrily and didn’t say anything else. Even though the thorns all over his body were still there, it was fine if he didn’t say anything.

The girl was startled. The corners of her mouth curled up slightly and she didn’t say anything else. The few guards on the side were immediately enraged in their minds. The prophet was respected in the Chiwen Tribe and her status was only below that of a king. Yet, she was disrespected again and again. Even though Feng Yun saved them, so what? This attitude was too arrogant! Especially that kid. If the prophet didn’t stop them, they would have killed that little bastard on the spot!

They didn’t say anything along the way. Yun Feng originally wanted to escort the prophet back to the Chiwen Tribe as quickly as possible, but she had to consider the prophet’s own situation. The prophet could be considered an anomaly of the Sea Clan. She was very weak. The strength of this teenage prophet of the Chiwen Tribe had just reached the Lord Level. In this area deep in the Endless Ocean, if she was left alone, she would only be killed.

Yun Feng guessed secretly along the way. The Chiwen Tribe was willing to let her out and she didn’t have many guards with her. What exactly did they want to do by going so deep into an area so far away from the tribe? Did the prophet set out to find out something? In short, it should be a secret of the Chiwen Tribe, or they wouldn’t have been willing to let the prophet out. Yun Feng suddenly thought of the map fragment. Four pieces were left in the Endless Ocean. Perhaps there was even more in the four seas. The map fragment in her hand was obtained by chance somewhere underground of the merfolk, which meant that there were no more map fragments in the South Sea area. If the Chiwen Tribe sent the prophet out for the map fragment this time, it would explain why they were so secretive and so far away.

#### Chapter 1428 The King of the Chiwen Tribe

If the large tribes in the Endless Ocean were all secretly looking for the map fragment... Yun Feng’s black eyes darkened. The difficulties she would face wouldn’t be just a little. If she wanted to snatch things from these tribes, she had to have some capabilities, and it was extremely important to take the initiative.

After spending a few days, they didn't encounter any danger along the way. It was very smooth. The guards of the Chiwen Tribe were greatly relieved. "Ma'am, we'll reach the tribe in a while. Don't worry, ma'am."

The girl nodded with a smile. Luo Teng couldn't help but roll his eyes on the side. His lips moved slightly, but he didn't say anything. Yun Feng was expressionless on the side and followed them all the way forward. "Ma'am, it's just ahead!" The few guards all shouted happily. Yun Feng's black eyes darkened and her body suddenly flashed in front of them. The few guards immediately surrounded the girl behind and looked at Yun Feng vigilantly and anxiously. "What are you doing?"

Luo Teng also approached curiously. Was she going back on her words? However, they were already at the edge of the territory. If anything happened, it might alarm some people in the territory of the Chiwen Tribe. By then, it would be difficult to deal with.

Yun Feng looked at the girl. "I've already done what I promised you. When are you going to fulfill your promise?"

!!

The girl chuckled. "I can't answer your question right now. I need to return to the Chiwen Tribe and rely on some medium to give you an answer."

Yun Feng raised her brows. What a cunning girl. It seemed that this girl didn't want her to escape unscathed at all. "You mean, I'm going to follow you into the Chiwen area?"

The girl smiled again. "It seems that this is the only way, unless you give up the question in your mind."

Yun Feng's face darkened. The girl looked at her with a smile. The corners of Yun Feng's mouth curled up. If the girl insisted on asking her to follow, why should she be afraid? She must get the answer to the method of resurrection. Rather than spending a lot of time searching, it was certainly best to get the answer directly.

"Think carefully!" Luo Teng shouted anxiously. Yun Feng turned around and glanced at him. "If you don't want to follow me, just wait here."

"What?" Luo Teng widened his eyes. Even though this place was a distance away from the territory of the Chiwen Tribe, it was still a border area. If he lingered here for a long time, the members of the Chiwen Tribe wouldn't let him go... Luo Teng gritted his teeth. "Of course I'll follow you!"

Yun Feng made way for them. The guards protected the girl and walked forward, vigilant against Yun Feng. The girl said softly, "Don't worry. With me here, the Chiwen Tribe is the safest place for you." The few guards were extremely surprised after hearing that. They couldn't help but look at Yun Feng with a different thought in their eyes. Yun Feng chuckled and didn't say anything else as she followed the girl forward. Luo Teng gritted his teeth and followed her closely. After the few of them walked a distance, they officially stepped into the territory of the Chiwen Tribe.

As soon as she stepped in, a few figures arrived like the wind. Yun Feng couldn't help but sigh that the Chiwen Tribe seemed to be so strict. Such a small noise caught so much attention. When the few figures approached and saw that it was the prophet, they immediately knelt on the ground. "Ma'am!"

Yun Feng glanced over. The appearance of the Chiwen Tribe was quite similar to that of humans, except that there was a layer of extremely sharp scales on the curves of their cheeks that extended to their necks and elbows. Their knees were covered with protruding bone spurs.

The girl nodded and said indifferently, "There's no need to alarm the king. I'll go back myself."

"Yes, ma'am!" The few people who rushed over said in unison as they looked at Yun Feng and Luo Teng. "Ma'am, these two are..."

The girl's expression was cold and there was an indescribable elegance in her coldness. "Are you qualified to ask about the people around me?"

The few people who rushed over immediately lowered their heads. "Ma'am, we didn't mean that."

The girl didn't say anything else. She turned around and said, "Follow me."

The few Chiwen clansmen kneeling on the ground didn't dare to raise their heads again. Yun Feng understood in her mind that the prophet indeed had a high status in the Chiwen clan. She brought her and Luo Teng in with just a few words and didn't allow anyone to question her. This was good. It saved a lot of trouble and she would be able to move around the Chiwen clan much more smoothly in the future.

"I couldn't see through them at all. What about you?"

"Someone who can follow her must be extraordinary. However, I'm curious. Why did she go out this time? Isn't the king worried that she'd be in danger?"

"Why do you care so much? Just do your job!"

The few clansmen said a few words to each other and dispersed again, doing their job wholeheartedly. Yun Feng followed the girl and entered the Chiwen area without any obstruction along the way. It didn't take long for her to reach the capital in the center of the Chiwen Tribe through a special method. Naturally, they could enter the capital without any obstruction. However, the appearance of Yun Feng and Luo Teng, the two outsiders, who were right next to the prophet, caused an uproar.

The area where the prophet was assigned to was in the royal palace in the center of the capital. In a remote corner of the royal palace, the moment Yun Feng followed the girl into the royal palace, a loud voice had already arrived as expected. "You're back!"

The girl stopped slightly and waited there with a faint smile on her face. Yun Feng also stopped and looked forward with her black eyes. She saw a tall and sturdy figure walking over from ahead. The figure was muscular and his skin was very dark. His glittering black eyes were extremely sharp. His strength... should be far above hers.

"Your Majesty." The girl smiled and called out. When that figure approached, Yun Feng finally saw his facial features clearly and was shocked!

The facial features of the male of the Sea Clan in front of her, who looked very similar to humans, were very protruding, giving off the same rough feeling as his entire body. Especially those eyes. The closer she got, the more Yun Feng could feel the sharpness in those eyes. As expected of the king of the Chiwen Tribe. Just his gaze gave people endless pressure. What Yun Feng cared about was the tiny color

at the corners of the eyes. When the man walked over, a faint light would flash at the corners of the eyes. Yun Feng didn't care at first, but when he got closer, she found that the thing that emitted the faint light was exactly the same as the golden mole next to the corners of Er Lei's eyes! However, the color was different. Er Lei's mole was golden, but the one at the corners of the eyes of the king of the Chiwen Tribe was light purple.

#### Chapter 1429 Endless Journey (1)

Yun Feng narrowed her eyes. The king of the Chiwen Tribe also had a mole at the corners of his eyes. She had seen a lot of members of the Chiwen Tribe along the way, but the king was the only one who had a mole at the corners of his eyes. Besides, the location of this mole was almost the same as Er Lei's. It was just that the color was different... Was there a blood relation between the king of the Chiwen Tribe and Er Lei? Er Lei had always believed that he was a member of the Dragons and the Chiwen Tribe also believed that they were close relatives of the Dragons. The two of them more or less overlapped and they both yearned for the bloodline of the Dragons.

Yun Feng had never seen the original form of the Chiwen Tribe. Would Er Lei's funny original form be close to that of the Chiwen Tribe?

Sensing Yun Feng's observation, the king of the Chiwen Tribe glanced over very sharply. The moment he saw Yun Feng, his expression changed abruptly! A pressure immediately surged out of the man's body and pounced at Yun Feng like waves, as if it was about to destroy the world!

Luo Teng was shocked when he saw this. He suddenly grabbed Yun Feng's arm and wanted to turn around and escape. He shouted, "I told you not to believe what the prophet said! Let's go!"

Yun Feng quickly retreated, but she stared at the eyes of the king of the Chiwen Tribe with her black eyes and didn't give in at all! The king of the Chiwen Tribe suddenly narrowed his eyes, as if he was very unhappy with Yun Feng's direct attitude. His aura suddenly increased again and Yun Feng's black eyes darkened!

!!

"Your Majesty, wait!" The girl suddenly rushed out at this moment and stood in front of Yun Feng firmly with her arm. Seeing that, the king of the Chiwen Tribe immediately stopped attacking and stared at the girl with a gloomy face. "How dare you take this human into the territory of the clan!"

Yun Feng was shocked. She had been discovered?! Luo Teng was also dumbfounded. As expected of a king. He saw through Yun Feng's identity completely with one look! The girl looked shocked and was a bit surprised that Yun Feng's identity had been seen through. She frowned and said, "If it weren't for her, I would have died in the hands of the Chiyuan Tribe and wouldn't have been able to come back here."

The king of the Chiwen Tribe frowned after hearing that. The viciousness in his eyes didn't subside at all when he glanced at Yun Feng. "Even so, I can't let her live! Humans who trespass on the Endless Ocean must die!"

Fierceness flashed through the black eyes of the king of the Chiwen Tribe and the killing intent in his eyes was obvious! Yun Feng's heart sank. It seemed that she had to fight!

“What if I say that she’s the key to getting that thing?” The girl suddenly raised her head and shouted. The king of the Chiwen Tribe was immediately shocked. He quickly stopped attacking and stared at the girl firmly. “You said she’s the key?!”

The girl lowered her arm and looked straight at him with her silver eyes. “Exactly. Otherwise, I wouldn’t have brought a human back here.”

Yun Feng raised her brows. Luo Teng wanted to say something, but he still shut his mouth tight. Who cared what kind of key she was? It was fine as long as it could make the king of the Chiwen Tribe not attack them!

The king of the Chiwen Tribe glanced at Yun Feng with an extremely complicated expression. His eyes glittered again and again. In the end, he suddenly turned around after thinking for a long time. “I’ll take what you said to be true. Since she’s the key, that thing will definitely be obtained by the Chiwen Tribe! If we can’t...”

The girl’s face darkened. The king of the Chiwen Tribe said coldly, “By then, I won’t even let you go.”

After saying that, the king of the Chiwen Tribe turned around and left with big steps. His body soon disappeared from everyone’s sight. The girl heaved a sigh of relief. There were beads of sweat on her cheeks and she was still frowning tightly. She couldn’t figure out how Yun Feng exposed her identity.

“Didn’t you say that nobody would notice it except you?” Luo Teng walked over and said. The girl frowned and said, “That’s the truth... I can’t figure out how the king found out.”

“Humph!” Luo Teng glanced at Yun Feng. “Trust her, and you’ll die here sooner or later!”

Yun Feng raised her brows. “If it weren’t for what she said just then, you and I wouldn’t be standing right now.”

“I was negligent. Perhaps the king has an ability I don’t know about. I really didn’t expect him to see through you at a glance.” The girl smiled apologetically at Yun Feng. Yun Feng said, “What you said just then should more or less be true.”

The girl was startled. In the end, she pursed her lips and didn’t say anything else. Luo Teng was immediately anxious after hearing that. “You want to use us!”

“I just have a vague feeling. I’m not sure.”

Yun Feng’s face darkened. “You lured me in because of your vague and uncertain feeling.”

The girl blushed. “I’m doing this for the Chiwen Tribe. Of course, I can’t let go of any possibility... Besides, we have a deal. You won’t lose out.”

Yun Feng sneered. “What you said just then made me suffer a lot. It’s impossible for me to leave the territory of the Chiwen Tribe right now. I’m getting involved in an unknown matter. I’ll more or less be in trouble in the future.”

The girl frowned. “I’ll talk to the king...”

“And tell him that what you said just then was just an excuse in a moment of panic? Then, that king would kill us in a fit of anger?” Luo Teng said on the side. The girl didn’t say anything else and her face also darkened a bit. Yun Feng glanced at Luo Teng and Luo Teng grunted angrily. “Let’s talk about this later. It’s time for you to fulfill the deal between us.”

The girl looked up. “Sure. Come to my place with me. I’ll certainly tell you the answer.”

Yun Feng nodded and followed the girl into the royal palace with Luo Teng. They came to a very remote and quiet corner. There was a small building standing here. Looking at it from afar, it looked mysterious. After the girl came here, the guards behind her all retreated automatically. Only Yun Feng and Luo Teng followed her in. After stepping in, Yun Feng obviously felt a comfortable aura that slowly floated in the space. Even Luo Teng was much quieter.

“Come on.” The girl led Yun Feng to a room, but Luo Teng was blocked outside. There was nothing inside the room, except for a huge mysterious pattern on the ground, like an array. The girl sat in the center of the array, while Yun Feng sat outside the array. The girl slowly closed her eyes. “What do you want to ask?”

Chapter 1430 Endless Journey (2)

Yun Feng was silent for a few seconds and finally said, “The method of resurrection.”

The girl suddenly opened her silver eyes and glanced at Yun Feng in shock. Then, she closed her eyes again. “With your current ability, you can’t succeed at all. Even so, do you still want to ask?”

The resurrection method that humans couldn’t control? It must be fundamentally different from the resurrection with the dark elements. “It’s fine. Just tell me.”

The girl sighed softly. “The resurrection technique is an ancient secret technique that can resurrect dead souls. There are a few requirements for the resurrection technique. Firstly, the person who uses the resurrection technique must be strong enough to withstand the power of the resurrection. Secondly, you must have the complete soul of the person to be resurrected. Thirdly, there must be a substitute.”

“A substitute?”

!!

The girl opened her eyes. “There are many ways of resurrection in the world, but you have to pay a price no matter which one it is. The method of resurrection you want to ask is the most expensive. If you want to resurrect a complete soul, you have to replace him with another one.”

Exchanging a soul for a soul? Yun Feng was stunned. “Is there a requirement for the substitute?”

The girl said, “The strength of the substitute soul determines the strength of the reborn.”

Yun Feng’s mind brightened. In other words, if she used a God-Level soul to replace her brother, her brother would also be a God-Level powerhouse after his rebirth! She thought the resurrection method would be very complicated and required a lot of steps and things. Now, it seemed that as long as she could find her brother’s remnant soul and find a powerful replacement, she could resurrect her brother!

“The resurrection technique is unnatural. If you use it forcibly many times, you’ll kill yourself in the end.” Yun Feng understood what the girl said. Thinking back, after Senior Yao Guang resurrected Mu Canghai, his body was weak to a certain extent and he still hadn’t recovered completely. It could be seen that it took a huge amount of energy to operate the resurrection technique.

Yun Feng already knew in her mind that what she had to do next was to search for the remnant soul of her brother and find a powerhouse’s soul as a substitute. What she gave her brother must be of a higher level. It was difficult for Yun Feng to hunt such a powerhouse. She could only rely on luck.

Now that she had a clear idea of her own business, Yun Feng was much more relaxed in her mind. “My question has been resolved. Now, it’s time to talk. What exactly is the thing you and the king of the Chiwen Tribe were talking about?”

What Yun Feng said immediately made the girl much more vigilant. “Why are you asking this? Our deal is over. I’ll certainly think of a way to get the king to let you go.”

Yun Feng raised her brows. “What can you do? You’ve already said it. How can you take it back? Have you forgotten what your king said today? If you can’t get that thing, even you might die.”

The girl bit her lips gently. It was obvious that she didn’t want to reveal anything. Yun Feng chuckled. “We’re both on the same boat right now. If your king can’t get that thing, he won’t let me go. I don’t have a lot of time to waste here.”

The girl looked at Yun Feng, who said coldly, “Since you said I’m the key, you won’t be able to find anything if I don’t cooperate.”

“I’ll tell you! However, you can’t tell anyone!” The girl said anxiously. Yun Feng nodded, and the girl finally continued, “There’s been a rumor in the Endless Ocean. There’s a mysterious map that contains a major secret of the Endless Ocean. There are different opinions about what this secret is, but all the rulers of the Sea Clan believe that as long as they get this map, they’ll get mysterious power and can even unite the Endless Ocean! However, this map has been divided into many parts. Some have already been taken from the Endless Ocean to the human world, some have been lost in unknown places, and four are hidden in the Endless Ocean.”

It was indeed a map fragment. Yun Feng thought to herself. This map was coveted by human powerhouses and the Sea Clan of the Endless Ocean. It seemed that all the powerhouses were focused on the small map fragments. A large group of people would probably be alarmed when a map fragment appeared.

“You want that map fragment? The reason why you left the Chiwen Tribe was also for that map fragment?” Yun Feng raised her brows and asked. The girl nodded. “That’s indeed the case. There was news of the map fragment not long ago. To ensure that nothing went wrong, the king sent me there secretly, I didn’t know that it wasn’t the case until I arrived.”

Perhaps the Chiyuan Tribe deliberately spread the news to lure the Chiwen Tribe into taking the bait, or perhaps the message was true but they were late. In short, the Chiwen Tribe failed this time.

Yun Feng thought to herself. If the map fragment was still with the merfolk, the merfolk would be exterminated sooner or later. Si Wen wouldn’t let such a thing happen. But it was enough to show how

fanatical the two races were about the map fragment. Four pieces existed in the Endless Ocean, which was divided into four areas. It was very likely that there was a map fragment in each of the areas. The fragment in the South Sea was undoubtedly in the merfolk's territory. Now that the map fragment was in Yun Feng's hand, it meant that she had to leave the South Sea if she wanted to find another piece.

"You want to leave the South Sea and go to another area?" Yun Feng raised her brows and asked. The girl nodded. "I had the same plan at first, but the Chiyuan Tribe will definitely think so too and try to stop me. However, with you here, I'll more or less have more confidence."

Yun Feng thought to herself that she had the same goal as the Chiwen Tribe. Accompanying the prophet to search for it was also the only chance to leave this place. It depended on whether the king of the Chiwen Tribe would let her go. Thinking of the king of the Chiwen Tribe, Yun Feng remembered the mole at the corners of his eyes. "What does that mole at the corners of the eyes of the king of the Chiwen Tribe represent?"

The girl chuckled. "You should see that among all the members of the Chiwen Tribe, only the corners of the king's eyes have this mole. This mole is the king's symbol."

Yun Feng was stunned. The light purple mole was the mark of the king. What did the golden mole next to the corner of Er Lei's eye represent? "If there's a golden mole at the corner of his eye, what would it mean?" Yun Feng asked softly. The girl smiled. "A golden mole?" The girl stood up from the ground and glanced at Yun Feng with her silver eyes. "A golden mole only appears on the ancient demon dragon. Are you telling me that you've seen one?"
