### Chapter 1471 The Willing Takes the Bait (1)

“But you still know the information, don’t you?” Ao Jin narrowed his eyes and looked at the know-it-all, who burst into laughter. “I certainly won’t do anything risky. The more I know, the more trouble I’ll have. Even though the business I’m in is dangerous, I know how to survive.”

“If you don’t know the information, how can you tell if it’s true or not?”

“Tut-tut, you don’t have to worry about that. I can guarantee my credibility. I’ve been in this industry for so many years and no customer has ever said that the information they bought from me is fake!”

Ao Jin’s face suddenly darkened. “You know about the Dragons too?”

Yun Feng and Er Lei glanced at the know-it-all. They both wondered if Ao Jin would slap him to death if he said he knew.

“You must be joking. Sir, the Dragons! How can I find out anything about them? My information is only limited to the Endless Ocean. As for the other races elsewhere, there’s certainly nothing! Unless the Dragons come to the Endless Ocean themselves!”

“So, as long as they’re in the Endless Ocean, you can find out anything?” Ao Jin’s face became even gloomier. The know-it-all glanced at him suspiciously. “I’m afraid I can’t tell you. After all, it’s a secret of this business.”

The sound of grinding teeth came from Ao Jin’s mouth. Yun Feng quickly said, “Did you get information just for business?”

The know-it-all was immediately a bit upset. “There are certainly rules in this business! We don’t know the information we’ve gathered, so we certainly won’t think about it. However, you customers should know why you’re buying this information!”

Yun Feng couldn’t help but heave a sigh of relief in her mind. The know-it-all continued, “Are you buying or not? It’s impossible for you to get information from me for nothing! I’ve seen all kinds of powerhouses. There are many people who want to steal information from me. In the end, they got nothing!”

He was in this business, and yet he was still living very well so far. He certainly had his own means. Escaping was probably already a necessary skill and he was the best at it.

“I want to buy a few pieces of information,” said Yun Feng. The know-it-all immediately looked delighted. Even though these few people made him feel a bit strange, he would be a fool if he didn’t do business. “I’ll tell you the price in general. For example, geographical locations, such as where something is and how to get there. Such general information is level-5 information. If you have too many questions in this category, I suggest you buy a map directly. It’ll be more cost-effective.”

Er Lei and Ao Jin were a bit dumbfounded after hearing that. He was too good at making business! Yun Feng was also a bit helpless. “If it’s about a commoner or something trivial, or if you want to find someone, under the premise is that he’s from the most ordinary Sea Clan, such information is at level 4.”

“The important officials of the Sea Clan, who are a bit nobler than the civilians, and the powerful tribes. The information about them is all at level 3.”

“The information of the dominating royal families of the Sea Clan is at level 1. There’s also a level called special level. The information of special level is priced separately without any discount. Don’t even think about bargaining with me. The price of the information will be determined by ores. Level 5 is one ultimate ore, level 4 is ten, level 3 is thirty-five, level 2 is a hundred, level 1 is a hundred and fifty...”

“F\*ck, you’re robbing us openly!” Er Lei roared and the know-it-all glanced at him casually. “It’s not as bad as you say. Aren’t you in a hurry? Otherwise, you wouldn’t have come to me. Isn’t there a saying? Don’t find us for information you can find out yourself.”

The price given by the know-it-all wasn’t something ordinary people could afford. Yun Feng also realized that it was really difficult to move in this world without ores. Luckily, she didn’t have to worry about ultimate ores and could afford to spend them. Otherwise, she would really be at a loss.

“What’s the special information you’re talking about?” Yun Feng wanted to know about Blood Souls and map fragments. These certainly weren’t in the five categories.

“There are two types of special information. One is the top secrets we got, and the other is that your own request. We’ll help you find out. The price of the first one is alright, but the second one... Five hundred ultimate ores are the base price. You’ll pay the same price again after we find the information.”

Looking at the glittering eyes of the know-it-all, Yun Feng chuckled. “Let me ask you. If you want to win a sea that belongs to you in the North Sea, what should you do?”

Ao Jin’s golden eyes glittered. The first question Yun Feng asked wasn’t about herself, but about him, which made Ao Jin very touched. It proved that Yun Feng had been thinking about the Dragons. Ao Jin didn’t have any ores at all, so he certainly had to rely on Yun Feng.

“Hm... This is a normal problem. You’re at level 5.” The know-it-all pulled the abacus in his mind. “It’s very simple. Use your strength to drive away the original tribe wherever you like. After you succeed, it’ll certainly be yours.”

The know-it-all glanced at Yun Feng suspiciously. “Do you think this is another sea? This is the North Sea! If you want to do this peacefully, can’t you just find an empty place and occupy it?”

“In the North Sea, where are the most uninhabited places?” Yun Feng then asked. The know-it-all responded with a sly smile. “This is your second piece of information. In the North Sea, there are quite a lot of wilderness areas. A race can be expelled at any time and a place can be occupied at any time. Everything depends on the strength of the race. Let me think... If you want to live in this sea for a long time, the areas occupied by those big shots are certainly more suitable.”

“Get to the point!” Ao Jin was a bit impatient. The Dragons had to settle down in the Endless Ocean, so they certainly couldn’t just be casual. They certainly had to find a good place to survive.

“There are a lot of perfect areas suitable for long-term survival in the North Sea, but they’re all occupied by a few powerful races right now. They occupy almost all such areas, while the other races can only fight for territory in second-rate and third-rate areas. This is also the reason why there are constant

conflicts in the North Sea. The few powerful races don't need such a large area at all, but they have the strength. Even if they occupy the extra areas, the other tribes can only swallow their anger."

#### Chapter 1472 The Willing Takes the Bait (2)

"What if I take a fancy to the territory they occupy?" Yun Feng raised her brows. The know-it-all burst into laughter. "Of course it's simple. Take it back! If you have the strength, go and fight them one-on-one. If the tribes who occupy that territory can't do anything to you, they certainly don't have the strength to take it back. However, I have to remind you again. In the North Sea, the largest number of Sea Clan members treat the territory as an honor. The territory they occupy more or less represents how high the position of the Sea Clan is in the North Sea."

Ao Jin listened quietly on the side, as if he was digesting what he said. Yun Feng felt that the rules of the North Sea were more suitable for the Dragons. The Dragons were greedy by nature. They wanted everything whether it was owned or not. Their personalities could be useful here. Everyone was stealing anyway. Nobody would say anything. The rule here was that if you had the strength, you would get it. If you got it, it would be yours.

Er Lei nodded after hearing that. He walked to Ao Jin and patted his shoulder, saying something to him in a low voice. Ao Jin's cheeks twitched a few times with an inexplicable weird look in his eyes.

"You just asked about level 5 information now. The explanation just then was for free." After saying that, the Know-it-all looked at Yun Feng with anticipation. Yun Feng didn't let him down. After asking Uncle Ao Jin what he cared about, she certainly had to ask him the information she wanted.

"Do you have any information about the map fragment here?"

The expression of the know-it-all immediately changed after hearing this and he looked at Yun Feng in shock. Yun Feng curled her lips. It seemed that she asked the right person this time.

"The information about the map fragment belongs to the first category of special information. Since you've asked about the map fragment, you should know that there are four pieces in the Endless Ocean. How many do you want? If you want all four of them, I can give you a 5% discount."

Yun Feng's eyelids twitched fiercely. That was quite smart. A 5% discount? She had already got two of the four map fragments of the Endless Ocean, so she certainly only needed the remaining two. "I've already learned the details about two of them. I want the two from the North Sea and the East Sea."

The know-it-all's eyes glittered and he chuckled. "In that case, the price won't be cheap. The North Sea and the East Sea's fragments are the hardest to get. Two pieces of information. A thousand ultimate ores."

"I'll blast you to death!" Er Lei was immediately enraged after hearing that. He threw a lightning bolt with both hands! A thousand ultimate ores. Did they think Yun Feng was a money tree?!

Yun Feng sneered. She didn't have to worry about ultimate ores, but she certainly couldn't let him play with her like she was an idiot. The know-it-all reached out and agilely dodged Er Lei's attack, saying, "A thousand. I'm honest. If you're dissatisfied, find someone else."

"A thousand is indeed a bit expensive. Don't take me for a fool." Yun Feng's black eyes were cold. The know-it-all knew that what he asked for just then was a bit too much. She thought for a while and said, "950 then. I've already reduced the price a lot. I can't reduce any more! Find someone else if you can't accept it!"

Er Lei still wanted to say something, but Ao Jin stopped him. Yun Feng said, "I still have something I desperately want to know. If you can give me this information, I'll give you three thousand ultimate ores together. How about that?"

"Haha, customer, don't trick me. Let's hear what you want first. What if I suffer a loss?"

Yun Feng chuckled and stared at him with her black eyes. "Let me ask you. Have you heard of the name Blood Soul?"

Er Lei and Ao Jin were startled. She had indeed asked about Blood Souls! The know-it-all was stunned, and then his face suddenly darkened. "What Blood Soul? I've never heard of it."

"No, you do." Yun Feng suddenly narrowed her eyes. "What I want is information about Blood Souls! I can give you as much as you want!"

The know-it-all's face darkened. Unlike his sneaky look just then, the atmosphere suddenly became much more solemn. In the end, the know-it-all shook his head decisively. "I don't have any information about Blood Souls here. I won't do your business. Just treat what I provided earlier as a gift from me."

Seeing that he was so against it, Yun Feng knew that he must know something! It didn't matter if he didn't tell her. He would tell her sooner or later!

"You're not saying because you're afraid of them?" Yun Feng raised her brows. The know-it-all had a sullen face. "If you ask about the Blood Souls, you certainly know what kind of organization they are. I don't want to get involved with them at all. If you need information about them, you'll have to find out by yourself."

"Swish..." The body of the know-it-all suddenly flashed and turned into a black shadow, flashing out abruptly, disappearing in an instant. "I'll chase after him!" Er Lei said as he was about to fly out, but Yun Feng shook her head indifferently. "Let him run. I'll know what I want to know sooner or later." The Finger Spiritual Jade appeared. Looking at the constantly flashing light spot on it, Yun Feng put on a meaningful smile.

The know-it-all thought that Yun Feng would let him go just like that. After all, there was no grudge between them. He had only set them up once at most, but he told them a lot of information for free later on. That was enough to make things even! However, he didn't expect Yun Feng to not give up until she got the information about the Blood Soul this time! The know-it-all didn't admit defeat easily. The two parties continued to play a game of cat and mouse, seeing who would run out of patience first.

The know-it-all thought that Yun Feng used some special method to catch up with him. He checked his entire body carefully along the way and didn't find anything. After using all kinds of methods, he was shocked to find that Yun Feng would still find him. No matter where he was, Yun Feng was like a ghost, everywhere! He couldn't get rid of her at all!

The know-it-all didn't do anything except hide and run crazily along the way. Yun Feng's pursuit delayed a lot of his business. He couldn't do any business at all. In the end, the Know-it-all realized very seriously that if he let Yun Feng follow him again, he would starve himself to death sooner or later!

"I'm impressed by you, kid! Come out! I'll give you the information you want, alright?" The know-it-all sat on the ground. At this moment, he had already run to an unknown remote corner in the North Sea. He was truly a bit tired from running. He shouted weakly and sat on the ground, panting hard.

Chapter 1473 The Willing Takes the Bait (3)

"Thank you." Yun Feng's voice floated from not far away with a hint of joy. The know-it-all glanced at her rather resentfully. "What the hell? Why can't I get rid of you?"

Yun Feng chuckled. Er Lei and Ao Jin snickered when they saw how messy he was. He had been chased relentlessly along the way until now. Wouldn't everything be fine if he had said it back then?

"Let me take a breather and I'll tell you everything you want to know! My lady, don't chase me anymore!" The know-it-all sat on the ground and waved his hand while panting. It was obvious that he didn't know what to do with Yun Feng anymore. Yun Feng walked over with a faint smile. "You won't lose much. I won't let you return empty-handed."

The know-it-all was more or less a bit comforted when he heard this. "Not many members of the Sea Clan know about the Blood Souls in the Endless Ocean. They're very secretive, especially in a place like the North Sea. They're a force that's too low-profile. If it weren't for a coincidence, I wouldn't have known that such a group of forces existed in the Endless Ocean."

"What are they doing in the dark? Where did you find them?"

The know-it-all took a deep breath. "How would I know what they're going to do? I only found them that time and haven't found them since, which shows how good they are at keeping secrets. People like us can't find out anything about them. We bumped into them last time because we were looking for information about the map fragment."

Map fragment... Did the Blood Souls come to the Endless Ocean for those four pieces? If they really came for the map pieces, why didn't she encounter them? Shouldn't the Blood Souls be even more impatient? So, they should've shown up in Sanglong Canyon!

"Be more specific! Where exactly did you meet them?" Ao Jin asked a bit angrily. There was an irreconcilable grudge between Yun Feng and the Blood Souls! There was also a grudge between Ao Jin and the Blood Souls! If he could find the exact location of the Blood Souls' base here, he would definitely raze it to the ground in one go! He wouldn't let any of them go!

"Let me think... That was a long time ago. At least two to three years... I remember that it was near... the territory of the Chili Tribe."

Chili? Yun Feng raised her brows and explained everything. "There's the Chiwen and the Chiyuan Tribe in the south and the Chili Tribe in the north. However, the Chiwen and the Chiyuan are just nothing. It's said that the Chili Tribe is the branch that inherits the most dragon bloodline. Relatively speaking, the dragon bloodline in their bodies is the purest. They even look similar to the dragons!"

Yun Feng chuckled. So what if they were similar? How could they compare to a real dragon?

“Right, didn’t you ask about the map fragment just then? The map fragment in the north is in the hands of the Chili Tribe. The territory occupied by the Chili Tribe is also the largest and most suitable for long-term survival in the North Sea.”

After hearing that, Yun Feng had already made a decision in her mind. She had to go to the Chili Tribe for everything.

The know-it-all gave Yun Feng all the information she wanted to know and saved Yun Feng a lot of trouble. If it weren’t for the Know-it-all, it would have taken a lot of effort for her to know this information. In the end, Yun Feng gave the Know-it-all five hundred ultimate ores and the Know-it-all accepted them with tears streaming down his face. His heart ached. He only got five hundred ultimate ores for such important information. What a huge loss!

Even though there were only five hundred of them, he was relieved and couldn’t help but feel satisfied. As long as that little madam didn’t hold on to him anymore, he wanted to do business!

Regarding the information about the map fragment, the Know-it-all tried to trick Yun Feng, because the information about the map fragment in the East Sea was as good as nothing. It was all rumors. The only information Yun Feng knew about the map fragment at the moment was the one held tightly in the hands of the Chili Tribe in the north.

The three of them ran towards the territory of the Chili Tribe. Er Lei seemed to be in a good mood. “Hahaha, isn’t the Chili Tribe proud of the bloodline of the Dragons? If Ao Jin goes there, won’t he be worshipped? Haha!”

Yun Feng and Ao Jin didn’t think so. Even though the Sea Clan of the Endless Ocean was proud of their Dragon bloodline, it had nothing to do with the current Dragons. They were proud of the Dragons who lived in the Endless Ocean a long time ago, not the current Dragons.

The ancient bloodline of the Dragons was also different from the current bloodline of the Dragons. Ao Jin himself learned from the huge dragon bone in the Sanglong Canyon that the bloodline would change over time. The power in the bloodline of the current Dragons was obviously much thinner and weaker. It couldn’t compare to the bloodline of the Dragons of the Endless Ocean a long time ago at all! This also made Ao Jin feel too much pressure in his mind. The Dragons had returned to the Endless Ocean, but it was very likely that they wouldn’t be able to restore the original prosperity.

“After all... the Endless Ocean should be the root of the Dragons. I didn’t expect the Dragons to be like this when I came back.” Ao Jin said with a strong sense of helplessness. Not only was the power of the bloodline of the Dragons thin and weak right now, but there were also conflicts and even betrayals among the Dragons! The attack of the Blood Souls and the betrayal of the Dragons made the Dragons have no choice but to leave the Dragon Valley and find another home. All of this gave Ao Jin countless pressure. Yun Feng wanted to comfort him, but she didn’t know where to start. She had a lot of questions about the changes in bloodline as time passed.

Yun Feng couldn’t help but think of the Yun family. The summoner bloodline of the Yun family didn’t seem to be restricted by this rule. It seemed that as long as it was stimulated, this bloodline would

awaken. Once it was awakened... the summoner bloodline would erupt with astonishing power! For example, Yun Feng and the second summoner born in the Yun family, Yun Qingchen.

What about the other three families apart from the Yun family? Were they like the Yun family? Or were they gradually declining? At least, Yun Feng was certain that any of the four ancient families in the human world was slowly fading in the current of time. Whether they could return to the peak again depended on their ability.

#### Chapter 1474 The Willing Takes the Bait (4)

Both Ao Jin and Yun Feng knew that the identity of a Dragon didn't mean anything when they went to the Chili Tribe this time. The members of the Chili Tribe might not even care about Ao Jin's identity as the Young Master of the Dragons. They were proud of the ancient Dragons. In their eyes, the current Dragons were nothing at all.

Er Lei thought this trip would go very smoothly, but under the influence of Ao Jin and Yun Feng's serious expressions along the way, Er Lei's expression also slowly became serious.

The area where the Chili Tribe lived was near the center of the North Sea. There were a lot of resources around this area, which was very suitable for the Sea Clan to survive here for a long time. Even though the surrounding area was not bad, it was far inferior to the area occupied by the Chili Tribe. Yun Feng didn't intend to go straight to the Chili Tribe. Too many things had converged here. Yun Feng planned to figure out the situation here first.

The people of the Chili Tribe weren't the only ones who lived in the large area occupied by the Chili Tribe. Some other members of the Sea Clan attached to the Chili Tribe were also lucky enough to live here. They listened to everything the Chili Tribe said and followed their lead. On two sides of the territory of the Chili Tribe, there were two large tribes, the Chaoling Tribe and the Qitun Tribe. These two races were the largest tribes after the Chili Clan. There were also some small races around them.

Yun Feng and the others walked around the territory of the Chaoling Tribe and the Qitun Tribe. Naturally, they visited the small tribes that were attached to them and asked about the relationship between the three major forces. The Qitun Tribe and the Chaoling Tribe both had a huge grudge against the Chili Tribe, because the Chili didn't just occupy the most comfortable place to live, but also occupied all the rich resources nearby. These resources couldn't be used up at all for the Chili Clan, but they occupied them all.

Even though the Qitun Tribe and the Chaoling Tribe had a certain amount of resources, they were far from enough for them. They would fight for it with their own strength. Even if they could get the resources, the resources would be taken away sooner or later. The Qitun Tribe and the Chaoling Tribe certainly had greater ambitions. Originally, the two forces wanted to join forces, but because of their geographical location, these two forces could only work hard and couldn't fight together.

Chili was domineering, but it didn't dare to touch these two forces easily. There were constant conflicts between the three big tribes, but most of them were between Chili and the other two tribes. The Qitun Tribe and the Chaoling Tribe were on the same side for the time being, but once Chili stepped down, the relationship between the two races would be unknown.

The three major forces kept each other in check in such a wonderful way. Even though there were conflicts, they lived like this for a long time. However, there were endless undercurrents and they would cause shocking waves sooner or later.

The focus of Yun Feng and the others was on the Chili Tribe. The map fragment was in the hands of the Chili Tribe. The Blood Souls had once appeared here and the living area of the Chili Tribe was what the Dragons needed the most. The most important thing was to take down the Chili Tribe and let the Dragons replace them. Naturally, after the map fragment was taken, the investigation of the Blood Souls could be more at ease. They might be able to find the secret base from here!

The simplest way to take down the Chili Tribe was to use the Qitun Tribe and the Chaoling Tribe. As long as these two races had a chance to unite, they would definitely do something to the Chili Tribe. By then, Yun Feng only had to sit on the mountain and watch the tigers fight, reaping the benefits. After sorting out everything, what Yun Feng needed to do was to sprinkle a few handfuls of sand in this already turbid lake and stir it fiercely!

After observing in the dark for a long time, Yun Feng and the others didn't act rashly. After all, even though Qitun Tribe and Chaoling Tribe had hated Chili for a long time and wanted to attack it again and again, the two races were both afraid and couldn't completely unite in the end. However, the communication between the two races was endless, especially between the powerhouses of the two races and the members of the royal family. If they wanted Qitun Tribe and the Chaoling Tribe to unite, they had to know what they were afraid of. Once Yun Feng knew what they were afraid of, she would certainly be able to deal with it.

Yun Feng observed carefully for a long time and figured out which route most of the members of the two royal families used to visit each other, especially the young people of the two royal families. They seemed to prefer to visit each other, but they were escorted by powerhouses every time, fearing that the Chili Tribe would suddenly attack.

"It seems that another member of the royal family has come out of the Qitun Tribe." Ao Jin looked into the distance with his golden eyes and said to Yun Feng next to him in a low voice. Yun Feng chuckled. "Uncle Flirtatious, I might have to trouble you this time."

Ao Jin chuckled. "It's no trouble at all!"

Yun Feng smiled and looked ahead with her black eyes. "What level of powerhouses are escorting them this time?"

"Four Grade 4 Emperor Level experts... They're easy for me."

Four level-5 Emperor Level experts. This was the first time Yun Feng saw so few powerhouses escorting them. "It seems that our chance is here." Yun Feng's red lips curled up. "Er Lei, just help Uncle Flirtatious. Don't be reckless."

"Got it! Ao Jin, let's go!" Er Lei roared excitedly. Ao Jin flashed and flew over. Yun Feng stood there and looked into the distance. After waiting quietly for a while, Er Lei's familiar voice sounded in her mind. There was a smile at the corners of her mouth. "Swish..." Her slender body flashed and she ran forward. Her chance was here!

“Boom, boom, boom...” The deafening sound of thunder came from a distant area from time to time! The lightning bolts slashed the sky and directly shattered the ground! A few figures kept colliding in the sky, letting out fierce battle sounds. The wild roars of beasts filled the entire sky!

“My Lady, don’t worry about us. Run!” The powerhouses roared and resisted the pressure in front of them. They only felt that their scalps were a bit numb! It was dragon breath! “My Lady, they’re from the Chili Tribe! Run! Run!”

“My Lady!” A powerhouse immediately turned around and pounced in front of the woman, taking all the damage for her. His body staggered and he directly fell from the sky to the ground! “Uncle Liao!” The woman roared anxiously as she looked at the two rough men in the sky with hatred in her beautiful eyes.

Chapter 1475 The Willing Takes the Bait (5)

“The Chili Clan... The Chili Clan...”

“Hm! My Lady, go! Go!” Without one powerhouse, the other three powerhouses were obviously helpless under the pincer attack of Ao Jin and Er Lei. The three of them were all determined to die. They couldn’t let their Young Lady be hurt at all!

“Don’t even think about hurting my Lady!” The three powerhouses roared as they pounced on Ao Jin. Ao Jin, who had transformed into an uncle, sneered and threw out a few dragon breaths fiercely, knocking the three of them aside. Er Lei burst into laughter on the side. “That’s all the Qitun Tribe can do. They’re really making a mountain out of a molehill by sending us here!”

“The Chili Tribe...” The three powerhouses barely stabilized themselves. They knew that it was already impossible for them to escape unscathed today. Even if they died, they had to buy time for their Young Lady to escape safely!

The woman looked at one of the unconscious powerhouses on the ground. She had nowhere to vent the anger in her heart. Hearing the shouts of the other powerhouses, she gritted her teeth and planned to escape quickly. However, Ao Jin sneered. “You want to escape? Impossible!” He threw out a dragon breath that went straight behind the girl. The girl had already felt the huge pressure coming. She immediately stopped hesitating and ran with all her might, but Ao Jin’s dragon breath was chasing her relentlessly!

!!

“My Lady!” The three powerhouses were all shocked when they saw this and wanted to help her. Er Lei’s few thunderbolts successfully stopped the three of them. “It’s impossible for you to save her! Hahahaha!”

Faster! She had to be faster! Faster! The pressure behind became stronger and stronger, and the distance was getting closer and closer! The woman ran forward crazily, but found in despair that she couldn’t escape! Was she going to die in the hands of the Chili Tribe worthlessly?!

“Bang!” There was a fierce collision. The woman staggered and fell into a warm embrace. She couldn’t help but feel extremely sad in her mind. She didn’t even have a chance to escape. Was this destined?

"I've bumped into a battle again. How unlucky!" A beautiful voice sounded in her ears. The woman thought that what awaited her was the feeling of death that was caused by the fierce pressure, but nothing happened after waiting for a long time. A pair of slender arms pushed her away. The woman looked up and saw a pair of rather impatient black eyes.

"My Lady, please make way."

The woman was shocked! She suddenly turned around and saw that something seemed to be dispersing in the air, and the pressure that was chasing her just then was gone! Was it her?! The woman turned around again and the impatience in her black eyes increased. The person pushed her away gently and strode forward.

"Wait, wait!" The woman rushed forward and grabbed the arm of the person in front of her firmly. She couldn't let her go no matter what! Only she could resolve her current predicament!

"What are you doing?" An impatient voice sounded. The woman immediately said, "Do me a favor. You won't suffer a loss!"

The person slowly turned around and raised her brows with a cold look. "Help you? I still have my own business."

"Only you can help me! I'm a member of the royal family of the Qitun Tribe. You won't suffer a loss if you help me this time!"

The person turned around impatiently and shook off the woman's hand. Seeing that, the woman immediately pestered her again. Looking at the three powerhouses in the sky, who were getting weaker and weaker, she was extremely anxious in her mind! "If you don't help, don't even think about leaving this place today!"

"The royal family of the Qitun Tribe is quite shameless."

The woman bit her lips hard and grabbed the arm in front of her desperately. She wouldn't let go, not even if she died!

"Boom..." A thunderbolt suddenly fell from Yun Feng's ear, only a few centimeters away from her body! The woman exclaimed, while Yun Feng looked at Er Lei in the sky with a darkened face and said telepathically, "Er Lei, you threw it quite accurately!"

"Hahaha, don't worry. Everything is under control! I won't hurt you at all!" Er Lei's cheerful voice came. It was obvious that he was a bit too excited this time.

Yun Feng looked up and met Ao Jin's eyes. Ao Jin's eyes glittered and he suddenly shouted, "They're our only targets. We'll give you a chance, or we'll kill you too!"

Yun Feng raised her brows and sneered. "I have nothing to do with them to begin with. Suit yourselves!"

"You're related to us! How can you leave us in the lurch?" The woman rolled her eyes and shouted loudly. Yun Feng's face immediately fell after hearing that! Ao Jin, who was in the sky, burst into laughter and threw a dragon breath at Yun Feng!

Yun Feng's black eyes gradually turned cold. She suddenly shook off the woman and attacked! Violent mental strength surged out of her body and collided fiercely with Ao Jin's dragon breath! "Poof!" Ao Jin's dragon breath was completely shattered and dispersed in the space! A glint of admiration flashed through Ao Jin's golden eyes. It had been so many years since they last met. This girl had become much stronger!

Seeing Yun Feng's move, the woman immediately knew that she couldn't let her go. The hearts of the three powerhouses who were already at a disadvantage in the sky brightened when they saw Yun Feng's move! Their savior was here! If this person could help them, this crisis would certainly be resolved!

"Again, I have nothing to do with them," said Yun Feng coldly. Ao Jin and Er Lei, on the other hand, burst into laughter and said the lines they had prepared for a long time. "It doesn't matter anymore! You're the same as them. Don't even think about leaving this place today!"

"Really?" Yun Feng sneered as she suddenly jumped to the sky and stood in front of Ao Jin and Er Lei. The three of them looked at each other, conveying a meaning that only they understood. Yun Feng looked at the three powerhouses of the Qitun Tribe and the Young Lady, who had already panicked, from the corner of her eye. Her red lips curled up at an angle that they couldn't see. Very good. All the fish had already taken the bait.

"If that's the case, I don't have to stand on ceremony with you," said Yun Feng. Ao Jin and Er Lei also smiled thoughtfully. The three of them reached out their hands in tacit understanding and three fierce forces collided fiercely in the area under their control!

"Boom!"

The three powerhouses and that Young Lady watched nervously. A wave of power spread out fiercely in the sky, creating an inexplicable wind. After the wind, Yun Feng was the only one in the sky. The three powerhouses and that Young Lady suddenly heaved a sigh of relief. Yun Feng saw their expressions.

Chapter 1476 The Willing Takes the Bait (6)

Retract the net!

"You can't leave!"

A few figures quickly stood in front of Yun Feng. Yun Feng looked at the three powerhouses of the Qitun Tribe who were injured in the battle just then and raised her brows. She glanced at the other one who was lying on the ground and hadn't gotten up yet. "You can't stop me."

The three powerhouses looked very embarrassed. That Young Lady quickly walked over. "Madam... Please don't leave yet."

Yun Feng didn't say anything. To hold the fish firmly in her hand, she had to play hard to get. Her attitude was just right. "As I said, I'm just passing by. Your business is none of my business."

"Although it has nothing to do with you, madam, you've already been involved! The people who attacked you just then were from the Chili Tribe. As long as they think you're related to us, they won't let you go!" That lady quickly said and paid close attention to Yun Feng's expression. Seeing Yun Feng frown, she immediately said again, "Madam, you can't stay out of it anymore. Since we implicated you,

the Qitun Tribe will definitely help you. Rather than facing the danger of the Chili Tribe from time to time in the future, it's better for you to join the Qitun Tribe..."

The three powerhouses looked at their Young Lady in admiration. Yun Feng chuckled, but the coldness on her face didn't diminish. "It's very difficult for them to kill me."

"Yes, there's no doubt about your strength, but it's difficult for you to resist the entire Chili Tribe alone, isn't it?"

Yun Feng looked at the woman in front of her deeply. Seeing that Yun Feng seemed to be swayed, the woman said with joy on her face, "Master, you saved my life this time! The Qitun Tribe won't mistreat you!"

"Who are you in the Qitun Tribe? Can you speak for them?"

The woman chuckled. "I'm the royal princess of the Qitun Tribe and the only princess. You can call me Yanran."

"If you're a princess, why are there only four powerhouses following you?"

Yanran was a bit embarrassed. Yun Feng raised her brows and understood that the Qitun Tribe must be hiding something. "It's fine if you don't tell me. I'm not interested in knowing."

Yanran heaved a sigh of relief. "The Qitun Tribe will definitely treat you well, madam. The Qitun Tribe will definitely repay you for saving our lives this time!"

Yun Feng glanced at her, but she knew in her mind that this scene was very successful. These fishes couldn't escape the net she set up anymore. "You said that the Chili Tribe is rude and unreasonable. I'll have endless trouble in the future."

"So, you're on board?"

Yun Feng nodded softly. The other three powerhouses were all relieved. Yanran immediately said, "What's the purpose of your trip, madam? Why don't you visit the Qitun Tribe first?"

Yun Feng looked at the three powerhouses in front of her and nodded with a cold face. She certainly knew what Princess Yanran was thinking. One of the four powerhouses was dead and the other three were also seriously injured. If anything happened again, they wouldn't be able to resist at all. They only used her as a shield when they dragged her along.

The three powerhouses of the Qitun Tribe quickly helped the person on the ground up. The person on the ground hadn't reacted, but his aura was still there. Yun Feng glanced at the guy. Uncle Flirtatious seemed to have hit him a bit too hard, but fortunately, he survived.

"My Lady, should we take him away?" The three powerhouses looked at their companion with heartache. Yanran also looked conflicted. Should they take him away? What were the chances of survival? The journey to the Qitun Tribe was still very far. If anything happened again, they wouldn't be able to take care of him.

"Madam, what did you say just then?" Yanran looked at Yun Feng excitedly. Yun Feng said, "I said, there's still hope."

“Madam! Can he really be saved? Really?” The other three powerhouses asked with excitement on their faces. The four of them were good brothers who had grown up together. They would really feel bad if they abandoned him here. They were also extremely upset in their minds, but they didn’t expect this madam to say that there was still hope!

Yun Feng glanced at these people and more or less felt a bit apologetic. After all, she was the one who directed this scene, not the Chili Tribe they thought. She twisted her wrist gently and a bottle of perfect three-star Master Level Life Potion appeared in Yun Feng’s hand. The members of the Qitun Tribe all widened their eyes when they saw this. They couldn’t believe that this powerful lord was also a pharmacist!

Yun Feng threw the potion to the three powerhouses. “Drink it. He’ll be fine.”

The three powerhouses filled the Life Potion into the guy excitedly. After a while, the unconscious powerhouse slowly opened his eyes. “Uncle Liao, you’re awake!” Yanran shouted excitedly. Hearing Uncle Liao’s weak reply, she was completely relieved.

“Now that you’re awake, let’s go.” Yun Feng said casually as she looked at Yun Feng gratefully. Yun Feng waved her hand. “There’s no need to say anything else. I don’t want to get into trouble again. Hurry up.”

Even though Yun Feng’s expression was cold and her words were cruel, there was warmth in the ears of these members of the Sea Clan. After all, Yun Feng saved them and even saved the life of their companion. The three powerhouses supported their companion, who was gradually getting better, along the way to the territory of the Qitun Tribe. Everyone was much more relaxed along the way. They were worried that the Chili Clan would chase after them, but they didn’t expect there to be no waves along the way.

Naturally, it had to be peaceful. This was all a show directed by Yun Feng.

Along the way, Princess Yanran was even more enthusiastic about Yun Feng. Someone who could casually take out such a high-quality potion was definitely not an ordinary powerhouse. She was even so generous. Of course, Yun Feng also revealed that she was a pharmacist, which surprised Princess Yanran even more. If she wanted to be valued by the Qitun Tribe, she had to show some real strength.

After returning to the Qitun Tribe safely, Yun Feng finally felt that what Princess Yanran said wasn’t a lie at all. The moment they arrived, the royal family of the Qitun Tribe was stirred and they immediately came out to welcome her. It was obvious how much they doted on Princess Yanran. Yun Feng was lucky enough to see the members of the royal family of the Qitun Tribe. As expected, they were all males. Yanran was truly the only princess among the younger generation.

Chapter 1477 How Could It Be Her (1)

“Sister, you’re back!” The few youngest members of the younger generation rushed forward and hugged Yanran tightly. Yanran was also excited. The members of the younger generation were all gathered. Even though they all looked extremely anxious, it was hard to say what they were really thinking.

“You must be the powerhouse who saved Yanran.” The king of the Qitun Tribe looked very friendly and his words were quite soft. Yun Feng nodded and glanced at a female standing next to him. She sized Yun Feng up with suspicion in her eyes, which was very disrespectful.

“How should I address you?”

“I’m Feng Yun.”

“You don’t seem to be from the North Sea.” The female, who had been observing Yun Feng for a long time, finally said with a much sharper tone. Yun Feng chuckled. “I live in the south.”

“Which tribe are you from? Why did you come to the North Sea?”

Yun Feng raised her brows and didn’t say anything. The king of the Qitun Tribe coughed. “Alright, what are you doing?”

“Your Majesty, even though she saved Yanran, everything happened too coincidentally. Why did a person from the South Sea come all the way to the north? And she happened to save Yanran? She...”

“Master Feng just happened to pass by. Besides, I was the one who forced her to come to the Qitun Tribe. Don’t use your tricks on Master Feng. Don’t you feel embarrassed?” Yanran walked out and looked at the female who spoke coldly. Her words were sharp. The person who asked just then only looked angry and didn’t say anything else.

“Master Feng, don’t feel offended. There’s always such a paranoid person in every race.” Yanran smiled at Yun Feng lightly. Yun Feng nodded. From what she said just then, it could be seen that Yanran’s status in the race was truly inexplicably high. She shouldn’t just be a simple princess.

“Sister, what Mother said is not entirely wrong, right? This Master Feng’s appearance is too coincidental.” The tallest member of the younger generation said coldly. “It’s fine to say that it’s a coincidence. I met Master Feng by chance, or I wouldn’t be standing here alive!”

“It’s good that Yanran is back. Nothing else is important. Master Feng, can you stay in the clan for now?” The king of the Qitun Tribe waved his hand and stopped the argument, chuckling at Yun Feng. Yun Feng nodded. Yanran raised her head and said loudly, “Father, can you let Master Feng stay with me?”

“Well...” The king of the Qitun Tribe was obviously a bit unwilling. Yun Feng raised her brows. Was he afraid that she would hurt Yu Yanran? “It’s fine. Any place will do. I won’t be here for long.” Yun Feng rejected her and Yanran chuckled. “Then you’ll live near me. Master Feng, you’re my savior.”

Yun Feng saw that the other members of the royal family seemed to have doubts in their minds. The king of the Qitun Tribe also said reluctantly, “Since Yanran asked, I have no reason to reject her. Master Feng, please stay in the clan for a few more days.”

Yanran chuckled and took Yun Feng’s arm. “Master Feng, I’ll lead the way for you. Let’s go.”

Yun Feng didn’t say anything and let Yanran hold her hand. She followed her inside. From the corner of her eye, she saw the complicated expressions of the royal family of the Qitun Tribe. Question marks rose in her mind one after another. The royal family of the Qitun Tribe lived on a very wide ground. Every member of the royal family lived together. It could be said that there were very few members of the Sea Clan in the Endless Ocean who lived alone. They almost all lived in groups. It was very difficult for them to survive in this sea area unless they lived in groups.

“Master Feng, you don’t have to worry about that. Just pretend you didn’t hear anything.” Yanran let go of Yun Feng’s arm and stepped back slightly. Yun Feng glanced at her. “It’s fine. I didn’t hear anything.”

Yanran chuckled. "Just tell me if you need anything, Master Feng. Nobody will disturb you during your stay in the clan. Don't worry, Master Feng."

Yun Feng raised her brows. "Are your words more powerful than those of your king?"

Yanran smiled even more happily. "Madam, you just don't understand the Qitun Tribe members. Females are rare among the Qitun Tribe members."

Yun Feng raised her brows. Females of the Qitun Tribe were indeed rare, but it wasn't that there weren't any. However, she could see that Yanran was different. It seemed that the princess of the Qitun Tribe she "saved" this time was not as simple as she looked. It seemed that if she wanted to earn the trust of the Qitun Tribe, she only needed to get Yanran's trust.

"Master Feng, this is your place. I live very close. Just tell me if you need anything."

Yanran smiled happily. "Alright, I'll call you Feng Yun and you'll call me Yanran."

Yun Feng nodded and turned around to walk in. Yanran, on the other hand, watched Yun Feng leave with a smile. After she walked in, a special expression flashed through her face. For the future of the Qitun Tribe, she needed Feng Yun very much. Very much.

By accident, Yun Feng hit the bullseye.

Ao Jin and Er Lei couldn't appear again. Yun Feng was alone. During the two to three days of observation of the Qitun Tribe members, as Yanran said, none of the Qitun Tribe members came to disturb her. Or rather, none of the Qitun Tribe members came to the area where Yanran lived. After Yanran returned to the Qitun Tribe members, she often walked around. The Qitun Tribe members were quite respectful to her. The Qitun Tribe members were indeed very close to the Chaoling Tribe. Yun Feng observed in the dark and found that the interaction between the two races was very close. They often interacted. Perhaps when she met Yanran, she had just returned from the Chaoling Tribe.

The two races had a close relationship, but they only interacted with the senior members of the royal family. Other people couldn't know what they were talking about at all and they had quite strict protection measures. However, all of this was child's play for Yun Feng. After successfully entering the territory of the royal family, she certainly had to seize the opportunity.

"Feng Yun!" Yanran's voice sounded. Yun Feng looked up. "You seem to be in a good mood today."

Yanran chuckled. "I'm fine. Are you used to living here? Is there anything you need?"

Yun Feng shook her head. "Everything's fine. It's rarely peaceful."

"That's good." Yanran looked at Yun Feng and seemed to want to say something, but hesitated. Yun Feng raised her lips. "What do you want to say?"

Chapter 1478 How Could It Be Her (2)

Yanran smiled. "You saved my life. What can the Qitun Tribe do for you? Just tell me."

Yun Feng raised her brows. "It was just a coincidence. If there's really anything you can do for me, it's to avoid the pestering and harassment of the Chili Clan."

Yanran sighed and became serious. "The Chili Tribe... How can the Qitun Tribe be their match right now?" Yanran raised her head and looked at Yun Feng deeply. "The Qitun Tribe lacks a powerhouse like you."

Testing? There was a smile in Yun Feng's eyes. "There are a lot of powerhouses of the Qitun Tribe. I'm a loner. I don't like to get involved in such a complicated matter."

"Haha, you're right. Otherwise, you wouldn't have traveled alone." Yanran smiled again, as if she didn't remember her invitation just then. Yun Feng cleverly avoided it, which made Yanran a bit discouraged in her mind. At this moment, a servant walked in. "My Lady, everyone is here. You're the only one left."

"Tell them I'll be right there."

The servant left. Yanran smiled in embarrassment. "I'm really sorry. It seems that I have to leave."

"It's fine. If you have anything to do, go do it." Yun Feng smiled lightly. Yanran got up and left. Looking at Yanran's back as she left, Yun Feng waited for a while in peace. Her body suddenly flashed and she had already entered the Dragon Palace. The Dragon Palace directly turned into a speck of dust and floated out of the house, following Yanran's way of leaving. After catching up to Yanran, she agilely attached herself to her clothes and everything was fine.

"How was it? Did it go well?" As soon as Yun Feng appeared, Ao Jin asked rather nervously. Yun Feng nodded. "It went quite well. The Chili Tribe successfully took the blame. Even though some people in the Qitun Tribe suspected it, they were all suppressed by Yanran."

"She shouldn't be as simple as a princess." Ao Jin frowned. Yun Feng agreed. "Indeed. The King of the Qitun Tribe isn't the most revered one. On the contrary, Princess Yanran is the one who secretly contacts the Chaoling Tribe."

"It seems that we hit the nail on the head!" said Ao Jin happily. Yun Feng also smiled. Indeed, they had hit the nail on the head this time. It didn't take much effort. Ao Jin was slightly stunned when he saw Yun Feng's smile. "Kid, you weren't injured in that battle, were you?" Even though Ao Jin controlled his strength, he was still afraid that he would hurt Yun Feng. Yun Feng shook her head with a smile. "I'm fine. Don't worry."

Ao Jin nodded as his golden eyes glittered. The two of them suddenly fell silent. Yun Feng was observing the movements outside the Dragon Palace carefully, while Ao Jin stared at her firmly. "I've never asked. How's Uncle Yun? Did my Golden Dragon Blood burden him?"

Yun Feng pursed her lips. "Father is fine. If it weren't for Uncle Flirtatious's blood back then, I'm afraid he would've lost his life... With the help of Qu Lanyi's light elements, the fusion of the blood went very smoothly. The only thing my father is worried about right now is that he's getting younger and younger."

"Haha, I didn't know that the fusion of the Golden Dragon's blood into a human body had such an effect!"

Yun Feng looked up at Ao Jin's handsome facial features. Ao Jin hadn't changed at all after so many years, as if time didn't leave any traces on him. "Uncle Flirtatious hasn't changed at all."

Ao Jin looked at Yun Feng thoughtfully. "Kid, you've changed a lot. You've grown taller... and you're even prettier."

Yun Feng was a bit embarrassed. This was the normal growth process of humans. Why did Ao Jin sound like a father lamenting about his daughter? Ao Jin suddenly thought of Qu Lanyi and gritted his teeth again. Yun Feng heard the clear sound of teeth grinding and glanced at Ao Jin suspiciously. Ao Jin managed a smile and walked aside.

"Qu Lanyi... The next time I see you, I'll definitely not let you have it easy!"

Yun Feng watched Ao Jin walk to the side and mutter something. She frowned slightly. What was Uncle Flirtatious talking about? Somewhere, a pair of eyes, which had been closed, instantly opened. Scarlet and pure black kept intertwining in the eyes. Someone pressed his eyes gently with his slender fingers. When he opened them again, the scarlet color was completely gone, only pure black.

"It's still a bit difficult..." Qu Lanyi sighed softly. He looked at his hand. There was already a red pattern in his palm, circling like a tiny dragon. Its slender red body slowly spread up his wrist and disappeared under his clothes.

The speck of dust formed by the Dragon Palace stuck to Yanran's clothes, but Yanran didn't notice it at all. When Yanran walked to a hidden place and spoke, the sound outside clearly entered the Dragon Palace. Yun Feng immediately understood what was going on after hearing that.

"Yanran, you're finally here. We've been waiting."

Yanran chuckled and sat down. "Uncle Jiu, you're too kind. It's my fault for making you wait."

"It's great that you're here. You're not too late!"

"Thank you for your understanding, uncles," said Yanran politely. Then, everyone began to discuss the matter. Yun Feng heard everything clearly in the Dragon Palace. As expected, the Qitun Tribe and the Chaoling Tribe had been thinking of joining forces to resist the Chili Tribe for a long time and had been planning in secret. However, there were always obstacles to the cooperation between the two races, especially due to the geographical location of the Chili Tribe, which made these two races a bit helpless.

"If we want to resist the Chili, the two races must join forces. This is the trend."

"Indeed, but our races are too far apart. It's not easy for us to join forces. There are many factors, or we wouldn't have dragged it out until now. Luckily, Yanran, you're fine, or we would've lost our backbone."

The Chaoling Tribe and the Qitun Tribe both expressed their opinions. Yun Feng listened carefully. Many times, what Yanran said would be highly agreed with. Besides, Yanran had indeed considered everything. She did have the demeanor of a leader, but this wasn't the only reason why she was valued.

"There are all kinds of disadvantages. There's also a lot of resistance to cooperation between the two races. In the past, we didn't take action because we had too many worries and missed the best opportunity."

Chapter 1479 How Could It Be Her (3)

“Yanran, but we’ve already missed the best opportunity. If we want to attack again, we must be more careful.”

“You’re right. Yanran, you must have had some idea.”

Yanran chuckled. “That’s right. I do have some thoughts.”

“Princess Yanran is quite calm.” Ao Jin walked over and said in a low voice. Hearing the various sounds that came in, Ao Jin also had a different opinion of Yanran. Yun Feng nodded. “It seems that it depends on Yanran if the two races can truly cooperate and attack together.”

As expected, Yanran didn’t let Yun Feng down. “The geographical location cannot be changed. This is also the biggest obstacle to the alliance of the two races. However, I’ve had a different opinion during this period of time. Everything has its pros and cons. The position of the Chili Group blocks the possibility of the two races joining forces, but it also gives us a chance to attack from two sides at the same time!”

“However, even if the two races attack from both sides, the strength we have to resist the Chili Tribe is still our individual strength. We can’t join forces at all!”

“It’s impossible to join forces, so there’s no need to consider the path of alliance!” Yanran raised her voice. “Since it’s impossible for the two races to join forces, we can only take the path of pincer attack. Of course, this path is full of dangers and unknowns. Once we attack, we must succeed. If we fail, both races will fall miserably.”

There was silence for a long time. Alliance was the best way, but it was obvious that this road had already reached a dead end. It was useless to think too much. “She’s quite bold. Success in one try... How can the Chili Tribe be so easy to deal with?” Ao Jin curled his lips on the side, but Yun Feng chuckled. “Uncle Flirtatious, have you heard of this?”

“What?”

“A thousand-mile dam may be destroyed by an ant nest.”

What Yanran said perfectly confirmed what Yun Feng said. The pincer attack relied on their own strength, but at the same time, if there were internal divisions among the Chili Tribe, they would certainly be able to get twice the result with half the effort! If they wanted to defeat the Chili Tribe in one attack, the separation from the inside was the most important and indispensable part.

“Our two races have already nurtured a lot of powerhouses in the past few years and we’ve also roped in a lot of them secretly. This can be considered a precaution.”

“It’s not enough. The power of the Chili Tribe has developed a lot over the years. We should always prepare more!” Yanran said. “Luckily, Feng Yun is here this time, or I’m afraid I would have lost my life.”

“Speaking of which, who exactly is Feng Yun? The other young people of the Qitun Tribe said that she’s no more than twenty years old! Perhaps she’s trying to get close to us on purpose...”

“That’s not the case. The four powerhouses of the clan and I have seen her strength with our own eyes. It’s absolutely true.” Yanran’s serious voice sounded and the doubts didn’t appear again. “In that case, the Qitun Tribe will definitely recruit such a master! She’ll be a great help in the future!”

Yanran smiled helplessly. "I tested her a while ago, but she didn't seem to have any intention."

Ao Jin looked at Yun Feng suspiciously after hearing that. "Kid, why don't you accept her request?"

Yun Feng shook her head with a smile. "You'll never cherish what you easily get."

Ao Jin looked at Yun Feng thoughtfully as the voice from outside came in. "Yanran, you invited her in person, but she doesn't appreciate it? It seems that she's another arrogant person. It's fine if we don't have her! She's not the only powerhouse. Won't we be able to get other powerhouses?"

Yanran smiled helplessly. "Uncles, Feng Yun isn't an ordinary powerhouse. Her strength is only one of the reasons. What I value more is her other identity."

"Haha, the Sea Clan isn't like humans. There are too few pharmacists in the Sea Clan, just like summoners among humans!"

"Uncles, Feng Yun is a pharmacist."

The scene was silent. Then, there was a huge discussion. "Such a young pharmacist, how strong can she be?"

"That's right, Yanran. If her pharmaceutical skills aren't high, it's useless for you to recruit her!"

"If they want to invite you, why do they have to criticize you like this?" Ao Jin said unhappily. Yun Feng chuckled. This was the first time she knew that there were so few pharmacists in the Sea Clan. However, she had indeed never met a pharmacist along the way to the Endless Ocean. The Sea Clan seemed to value potions more than the human world. Yun Feng thought that she had a higher chance of winning this way.

"When Uncle Liao was injured, Feng Yun gave him a three-star master-level perfect-quality Life Potion." This made the scene quiet again. "A three-star master-level potion... And it's even of perfect quality... Did she do this on purpose to attract your attention..."

"That's not the case." Yanran shook her head gently. "I specially asked Feng Yun a lot of things about pharmaceuticals and she answered them fluently. According to her reply, she has a lot of understanding and experience in pharmaceuticals and she's not unfamiliar with some high-level potions!"

After a short silence, discussions broke out again. "So, Feng Yun is a real pharmacist!"

"If the Qitun Tribe can recruit this pharmacist, they'll really be like a tiger with wings!"

The person who spoke was a member of the Chaoling Tribe. There was more or less envy and jealousy in his eyes. There were so few pharmacists. Only a few powerful races had them. Even though they had one too, theirs wasn't so strong... He was truly envious. Why did the members of the Qitun Tribe meet her?

Yanran chuckled. "Of course we have to recruit her. If we can't do it once, we'll try again! She'll be tempted one day!"

Yun Feng smiled after hearing this. She couldn't ask for more if the Qitun Tribe members wanted to recruit her. Her ultimate goal was to start this war. Since Yanran was interested, she must give her a push.

"It's not difficult to recruit powerhouses. The real difficulty is how to divide the Chili Tribe from the inside."

"That's right. If the division doesn't succeed, it's useless no matter how many powerhouses we recruit. The Chili Tribe is too powerful. It's difficult for us to..."

"You're already discouraged before you do anything?" Yanran said with a smile. The others all smiled helplessly. "Yanran, it's not that we're discouraged, but it sounds a bit impossible to split up the Chili... Besides, who should we send to do this?"

Chapter 1480 How Could It Be Her (4)

"It's certainly impossible for the people of our two races to do that. The Chili Tribe has already been on guard against us. We don't have a chance to take action at all! Perhaps we would have already been dealt with by the Chili Tribe before we did anything!"

"Only outsiders can do this. Even though some of the powerhouses we recruited are outsiders, I'm afraid... none of them dares to take over this matter."

"Indeed. The outsiders don't care about anything between our races. They're just hired thugs."

Yanran was silent. This matter was indeed very difficult to deal with. Should she disguise herself? However, if she wanted to split up the Chili Tribe, she would definitely have to contact some high-level powerhouses. The disguise would definitely be seen through, and those outsiders would definitely not take over this matter... Yun Feng suddenly flashed through Yanran's mind and she smiled. Feng Yun would definitely not be willing.

"If only Feng Yun could help." Someone suddenly said. Yanran smiled helplessly. "If I didn't beg her, she wouldn't have come to the clan. She didn't want to get into any trouble at all."

"I'm not asking her to do it, but I heard that there's a Transformation Potion that can change one's appearance and characteristics and transform one into other races!"

"Really?!" Yanran immediately looked delighted. If that was the case, that would be great!

"I've only heard about it. Yanran, you'd better ask Feng Yun."

"If Feng Yun can make the Transformation Potion, these problems will be solved!"

"Yes, definitely!"

"I'll ask her right now!" Yanran suddenly got up. Hearing what she said, Yun Feng quickly controlled the speck of dust formed by the Dragon Palace to leave Yanran's sleeve and float out slowly. The Dragon Palace moved very slowly and Yanran walked much faster in a hurry. It was too late to return to her room! Yun Feng thought for a moment and directly flashed out of the Dragon Palace. Since she couldn't go back, she might as well meet her by chance.

“Feng Yun! Why aren’t you in your room?” Yanran saw that Yun Feng wasn’t far ahead and immediately rushed over. Yun Feng slowly turned around. “It’s boring to stay inside too long. I’m coming out for a walk.”

There was a faint blush on Yanran’s cheeks as she looked at Yun Feng with her eyes. Yun Feng raised her brows. “You seem to have something to say?”

Yanran nodded and looked around before lowering her voice. “I heard that there’s a potion called the Transformation Potion that can transform oneself into another race. Is there really such a potion?”

Yun Feng glanced at Yanran suspiciously. “Why are you asking this? This potion shouldn’t be very useful for you, right?”

Yanran was truly delighted after hearing that! There was really such a potion! “Feng Yun, do you know how to make this potion?”

Yun Feng raised her brows. Seeing Yun Feng’s expression, Yanran immediately knew in her mind that she would! “I need this potion. Can you help me make it? Tell me what materials you need!” Seeing that Yun Feng didn’t say anything, Yanran was enlightened. “If you have any request, just ask!”

Seeing how anxious Yanran was, Yun Feng said unhurriedly, “There’s always a rule when I make potions. If someone asks for it, they must tell me their purpose, or don’t even think about it.”

Yanran bit her lips and smiled in embarrassment. “Well... I’m not afraid that you’ll laugh at me if I tell you. I’m going to the Chili Tribe to meet someone, but I can’t go in at all with the relationship between me and the Chili Tribe, so... I did everything I could to find this method. You must help!”

Yun Feng chuckled and looked at Yanran’s pleading eyes. She sighed that her acting skills were indeed not bad. “The materials needed for the Transformation Potion aren’t complicated. It’s just that there must be something from the Chili Tribe, such as scales, fur, anything.”

“I can get such a thing.” Yanran nodded. Yun Feng said again, “This potion can only last for three days.”

“Three days? Just three days?” Yanran was shocked. Yun Feng nodded. “Three days are enough for you to meet them.”

Yanran was stunned for a moment. Then, she said a bit awkwardly, “Can you make more? If we talk for too long, there might be unexpected situations.”

Yun Feng was quite straightforward. “Of course.”

“That’s great!” Yan Ran was suddenly relieved. She was extremely gratified by Yun Feng’s straightforwardness and she was even more grateful to Yun Feng. “You’ve helped me again this time. If there’s anything I can help with, just tell me.”

Yun Feng was silent for a while and said, “I haven’t thought of it yet. I’ll tell you when I think of it.”

“Alright! Then I’ll prepare what you need right now. The faster you make the Transformation Potion, the better. Is that okay?”

“As long as the materials are ready, I can start anytime.”

“Alright! I’ll prepare them right away!” Yanran said as she turned around and was about to leave, when Yun Feng suddenly said, “You said you were going to... the Chili Tribe?”

Yanran turned around. “Yes, why?”

Yun Feng was silent for a few seconds and her red lips curled up slightly. “To be honest, I’ve never seen what the Chili Tribe is like. In the south, I heard that the Chili Tribe in the north is closer to the Dragons. The Chiwen Tribe and the Chiwen Tribe can’t compare at all.”

“Well... There’s actually nothing to see. It’s just that... their real body looks more like a dragon.” Yanran’s explanation was very weak. Yun Feng chuckled and glanced at Yanran with her black eyes. “Why don’t we go together?”

Yanran was speechless. How could she refuse? No. “Well... Of course!” Looking at Yanran’s forced smile, Yun Feng smiled lightly. “Just send the things you prepared to me. I’ll inform you when the Transformation Potion is ready.” Yun Feng turned around and left after saying that. Yanran could only look at her back dumbfoundedly. She needed Feng Yun’s help. Only she could make the Transformation Potion. How would she dare to reject her request? However, if she wanted to go with her this time, would it affect her plan?

Yanran frowned and thought for a while. They might as well split up after arriving at the territory of the Chili Tribe. Feng Yun shouldn’t have any objections. Right, let’s do that!

Yanran gave Yun Feng the things from the Chili Tribe in the shortest time possible. Yanran directly carried back a corpse of the Chili Tribe for Yun Feng. Yun Feng pulled out a tuft of fur and a few scales and threw the corpse aside. She didn’t see the true body of the Chili Tribe. Magic Beasts wouldn’t show their true bodies after death. They would be in the same state after death. If they were in a transformed state before death, it would be the same after death.
