

## Summoner 191

### Chapter 191: Wind Magic Beast, Lan Yi (3)

As Yun Feng spun the wand in her hand, a pale purple color suddenly appeared on the tip of the wand and that purple color was unusually vicious, letting out beams of light that looked like tiny snakes, twisting and roaring constantly!

More and more purple elements gathered around the wand gradually and claps of thunder also sounded faintly in the space around the wand!

Lan Yi's body that was constantly flying in the air, suddenly paused for a second, then he hid himself at a faster speed. Did he see it correctly? That human was using the thunder element. Together with the three elements he saw just then, she knew four, four elements!

"Old man, do you see that? The girl is a four-element summoner. Hahaha!" The young man laughed loudly, while the owner of the old voice went silent and then chuckled. "Yao Guang, I guess I'll lose to you this time."

Yun Feng closed her eyes as the wand in her hand had already been covered by the thunder element gradually. Vague sounds of thunder came from the wand and Yun Feng's eyes suddenly opened!

"Thunder!" Yun Feng whispered softly as the thunder element on the wand burst out. Twisted lightning shot out of Yun Feng's wand abruptly like raging dragons, filling the entire space in an instant!

"Bang! Bang!" Claps of thunder sounded in the sky and lightning faintly appeared like many thin, long snakes.

Yun Feng opened her eyes and looked at the fierce thunderbolts in the entire space as her red lips curved slightly. Lan Yi was really fast, but the speed of the thunderbolts were rapid!

"Clap!" A lightning struck in the sky suddenly. Lan Yi's body that was flying in the air stopped right there abruptly. Yun Feng's lips curled up and gave a smile as she pointed the wand in her hand again. "Fire Arrow." The red fire-element arrow shot towards Lan Yi with a whooshing sound. Lan Yi narrowed his blue eyes and he immediately dodged, avoiding the arrow quickly. His body turned into a shadow, while another thunderbolt struck in the sky again!

"Bang, bang, bang, bang!" Several thunderbolts struck at Lan Yi and he finally panicked. The speed that he had always been proud of couldn't do anything at all at this moment!

Lan Yi dodged in panic, while Yun Feng stood right there with the wand in her hand and pointed it at Lan Yi, who stopped because of the thunderbolts. Fire Arrows shot out consecutively one after another! Even though they didn't injure Lan Yi, he wasn't doing well either! The situation of the two of them immediately reversed. Yun Feng was now the person who was controlling the battlefield!

The young man, who was watching the battle on the side, couldn't help but sighed. "This little girl is truly unpredictable... Lan Yi is going to lose in her hands. Haha, I've only met a few people who have mastered four elements, but this is the first time I've seen someone with such a level at this age!"

Lan Yi kept dodging in panic, as if he also understood that his speed didn't give him an advantage at all in this sky that was covered with lightning and with the suppression of the earth element. If he continued to consume his energy like this, he would be the one who lost!

Lan Yi's body suddenly stopped and the smile at the corners of Yun Feng's mouth became even wider after seeing this. She raised the wand in her hand abruptly as she heard the thunder element make a loud noise all of a sudden!

"Bang!" A thunderbolt that was as large as a human being struck at Lan Yi's head, flashing directly towards his body! Lan Yi narrowed his blue eyes abruptly and the patterns that extended from the side of his handsome face to the inside of his body immediately released dazzling light! Yun Feng narrowed her eyes slightly. When she opened her eyes again, she found that Lan Yi already looked totally different!

He still had that handsome face, that blue mysterious pattern and that slim, slender body. What was different was that there were two pairs of giant blue wings on Lan Yi's back.

"Whoosh, whoosh..." The two pairs of giant blue wings suddenly wrapped around Lan Yi and the surface of the wings also emitted strong green light, forming a green halo around Lan Yi's body!

"Bang!" A thunderbolt struck on the green halo fiercely, as Lan Yi's body and his wings shook slightly. The color of the green halo became paler, withstanding the attack of the thunderbolt.

Yun Feng stood right where she was a bit speechless as she looked at those two pairs of giant blue wings on Lan Yi's back. Those two pairs of wings were quite beautiful. They weren't entirely blue, but blue and white mixed together, forming a magical pattern on those wings!

Lan Yi looked at Yun Feng deeply with his blue eyes and the two pairs of giant wings on his back flapped gently, making the sounds of wind. Lan Yi was also quite shocked that she could force him into such a situation. This... was truly unbelievable!

"Lan Yi, are you a Magic Beast?" Yun Feng looked at Lan Yi and asked softly. Lan Yi froze for a second, as if he understood what Yun Feng was thinking in her mind. A smile appeared on his handsome face again as his giant wings flapped on his back.

"That's right! I'm a Wind Magic Beast."

The enthusiasm in Yun Feng's mind immediately became stronger and the passion in her bones was ignited in an instant. Even though she had no idea what kind of Magic Beast he was and didn't really know his personality, she would take him!

Yun Feng licked her lips gently as she looked at Lan Yi with a smile in her black eyes and suddenly pointed at him with the wand in her hand. "I'll take you!"

Lan Yi was startled and the smile at the corners of his lips became wider. "You want to contract with me?"

Yun Feng looked at Lan Yi and those two pairs of giant wings on his back, such an abnormal speed, such a rapid attack. If she wasn't a multi-element mage, how would she be able to resist it?

“If you want to contract with me, tame me first!” Lan Yi suddenly spread his wings. Those two pairs of giant wings opened wide in front of Yun Feng and the patterns drawn on the wings were also shown completely before her!

That was a four-winged giant Magic Beast with a lion head and an eagle body. He was gazing at Yun Feng with his lion eyes and his beast mouth opened, as if he was growling softly!

“Ha!” he shouted loudly. The patterns on his wings seemed to come to life and the gaze of those eyes were fierce. Thousands of light balls abruptly gathered on his wings, ready to shoot out!

#### **Chapter 192: Wind Magic Beast, Lan Yi (4)**

“Kid, defend yourself quickly!” The ancestor’s words suddenly pulled Yun Feng’s sanity back. Yun Feng waved her wand abruptly as light shone again. “Earth Shield!”

The shield formed by the Earth Shield protected Yun Feng firmly in front of her. Layers and layers of Earth Shields kept stacking up. Seeing Yun Feng’s defense, Lan Yi’s wings suddenly flapped and thousands of green light balls dashed towards Yun Feng like shooting stars!

“Boom, boom! Bang, Bang!” The Earth Shields were attacked by thousands of green light balls and they shattered immediately layer by layer. A green aura enveloped Yun Feng’s entire body, wrapping her inside completely!

“That boy is through...” The young man with gray eyes moved his body and wanted to stop Lan Yi, but the owner of the old voice said slowly, “Lan Yi only concedes to people who can beat him. If that human can’t even defeat him, how would she be the person we’ve been waiting for?”

The young man pondered for a while. In the end, his body floated back again and he stared at Yun Feng firmly with his gray eyes. Kid, don’t let me down.

Yun Feng only felt like the world around her was filled with green wind elements. A hundred green light balls shot towards her and her earth-element defense was broken through again!

This is the so-called big move... Yun Feng thought in her mind as she waved the wand in her hand continuously. Earth Shields appeared again. Facing thousands of attacks at the same time was also overwhelming for people with extremely powerful mental strength like Yun Feng!

The thunderbolts in the sky weren’t helping either at this moment and the earth element also had just a little inhibitory effect. However, when Lan Yi showed his giant wings, this inhibitory effect became so tiny. This was a very powerful Magic Beast! When facing Yun Feng’s four-element magic attack, he could still force Yun Feng into such a situation. Powerful, too powerful!

Yun Feng looked at Lan Yi’s body high in the sky through the green light as the enthusiasm in her body surged. She must contract with him, she must!

Yun Feng waved the wand in her hand as the earth element immediately formed a small platform in front of Yun Feng. “Kid, what are you doing?” The ancestor’s voice sounded in her mind. Yun Feng’s move was undoubtedly no different than committing suicide. However, Yun Feng smiled with her red lips and looked fearless!

Her small body hopped and stood onto the platform, exposed in the attacks of thousands of wind elements!

“Tut! This girl is crazy!” The young man couldn’t help growling deeply after seeing this scene, while the owner of the old voice chuckled. “This human is really interesting...”

“Old man, if you’re not doing anything, I will!” The young man swung his black sleeves as he looked at Yun Feng who didn’t care about her life, but the force he swung out bounced back gently. The young man looked viciously in the air. “Old man, if something happens to that girl, I’ll turn your home upside down, until I drag you out!”

“Yao Guang, calm down. Look.”

The young man immediately turned his head over and saw Yun Feng, who was standing on the platform, suddenly jumped up and rushed towards Lan Yi fiercely under the attacks of thousands of wind elements!

“You...” Lan Yi couldn’t help but feel startled when he saw Yun Feng dash towards him without caring about her life. Yun Feng gave a smile with her gorgeous facial features as countless green light balls rushed towards Yun Feng’s body. Yun Feng clenched her fists tight and swung her arm fiercely to the side!

“Bang!” The wind elements all shattered under Yun Feng’s punch!

Lan Yi’s pupils shrank fiercely. He watched Yun Feng crush the attacks of his wind elements as the green light balls flew towards her continuously, with a surprised look! This was impossible. How was it possible?

Meatball suddenly jumped up on Yun Feng’s shoulder and raised its little head as it yelled, “Nana!” Lan Yi felt like a body flew out of the green light abruptly. That beautiful little face with a confident smile immediately appeared in front of him face to face!

“Bang!” Yun Feng’s fist punched Lan Yi’s chest fiercely as Lan Yi’s body trembled and his wings flapped several times abruptly. He landed on the ground and the thousands of attacks of the wind elements immediately disappeared!

Yun Feng’s body landed on the ground gently as she waved the wand in her hand and all the elemental force dissipated instantly. The space was still the same. There were no other changes, except for the cracks all over the ground and pieces of rocks that came out.

Yun Feng slowly walked to Lan Yi and looked at Lan Yi, who was lying on the ground with astonishment on his face at this moment, with her beautiful, glittering eyes. “Am I qualified to be your Master now?”

Lan Yi flapped the two pairs of giant wings on his back slightly and they disappeared in an instant. His skinny body got up from the ground as he looked at Yun Feng from above with a smile in his blue eyes.

“Of course, Master.” Lan Yi slowly knelt on one knee and lowered his head slightly. The blue pattern on his cheek was shown in front of Yun Feng, looking very elegant.

Yun Feng curled up her lips and smiled. It was something very glorious and proud when a summoner’s strength was recognized and could convince a Magic Beast.

Yun Feng's mental strength spread from the inside of her body and the slightly slimy mental strength slowly covered Lan Yi's area with energy. Lan Yi didn't resist at all. He knelt there quietly, waiting for Yun Feng to contract with him.

"Array of Contract, open!" Yun Feng shouted with a deep voice as a five-color Array of Contract appeared on the ground underneath Lan Yi abruptly. The five tips of the Array of Contract were shining with different colors. The red color of the fire element was the brightest, while the other four colors were slightly dimmer.

When Lan Yi saw the five-color Array of Contract, he couldn't help but feel shocked. Five colors? He thought she was at most a four-element summoner at first. He didn't expect her to be a five-element summoner!

Lan Yi felt gratified and excited. This Master he found was the right one!

"That kid is a five-element summoner. Tut-tut, I didn't expect that. I didn't expect that..." The young man watching the battle on the side exclaimed continuously after seeing Yun Feng's Array of Contract, while the owner of the old voice also remained silent, as if he was in shock.

### **Chapter 193: Level (1)**

Yun Feng looked at Lan Yi in the center of the Array of Contract. The contract this time was much more convenient than the first time. Little Fire wanted to deceive her and escape the first time, but Lan Yi was willing to do it this time!

"Wind Contract, appear!" As Yun Feng shouted with a deep voice, the five-color Array of Contract slowly became purely green. The green wind element kept surging in the Array of Contract, enveloping Lan Yi's entire body.

"I'm drawing up a contract. From now on, you'll be my beast. Contract!" Yun Feng said these words in her mind. When she opened her eyes, a glint of green light flashed through, like a dazzling shooting star.

Different from Little Fire's master-servant contract, the contract between Yun Feng and Lan Yi was an equality contract. Lan Yi's heartfelt admiration made Yun Feng choose to give him a freer contract. Even though Little Fire was also extremely obedient right now, he used to be irritable and ruthless at the beginning, so Yun Feng couldn't rest assured.

The Array of Contract slowly disappeared underneath Lan Yi's body, while Yun Feng also had a strange feeling. Her connection with Lan Yi had already become closer. Once a summoner contracted with a Magic Beast, their minds would be connected.

A wisp of pure green color slowly flowed out of Lan Yi's body and turned into a green thread, twining around Yun Feng's finger. Yun Feng watched the strand of wind element wrap around her finger slowly. In the end, a green light shone and an entire green ring appeared on her finger with eight tree marks on the surface of the ring.

A level-8 contracted Wind Magic Beast, Lan Yi!

“Master.” Lan Yi looked at Yun Feng with a smile. Yun Feng nodded as she glanced at the green Ring of Contract on her finger and felt weirdly content. The second Magic Beast she contracted was in the Dragon Palace. This was something she had never imagined no matter what.

“Kid, congratulations.” After the space shook slightly, the young man, who had been hiding to watch the battle, showed up and he sized Yun Feng up with his gray eyes in satisfaction.

“Thank you, Senior. I’m just lucky.” Yun Feng smiled humbly as the young man let out a weird laugh and glanced at Lan Yi. “This boy can be your ride. Don’t humans like to show their authority and dignity? Lan Yi can help you with that.”

Yun Feng pondered in her mind for a second. The totem on Lan Yi’s wings should be his original appearance, a Magic Beast with four wings, a lion head and an eagle body. If she really rode him back to the human world, the entire East Continent would probably be stirred.

“Lan Yi, what Magic Beast is your original body?” Yun Feng asked as Lan Yi answered, “A Griffin.”

“Kid, don’t underestimate Lan Yi. Griffins are the kings among the eagles. The number of wings a Griffin has also determines how pure its blood is. As far as I know, Lan Yi is the only one with two pairs of wings among all the Griffins.”

Lan Yi didn’t say much, but Yun Feng knew what that meant. Even though Lan Yi wasn’t a Mutated Magic Beast, he was the kind with strong ability in terms of type and was also the only Magic Beast with four wings among the Griffins. He could also be regarded as a rare species!

“Kid, the Griffins rarely show up in the world. I know very little about this species. You’re lucky that you can meet a four-winged Griffin here!” There was strong jealousy in the ancestor’s words. Even though he probably had some unexpected encounters as well when he was powerful, he had never experienced something like Yun Feng did, meeting the Young Master of the Dragons in reality, then being taken to Dragon Valley, followed by the Dragon Palace, and finally contracting with a four-winged Griffin!

Yun Feng smiled. She indeed had huge blessings. She entered the Great Crack by accident this time, but it surprisingly brought her so many opportunities.

“Human, since you’ve already defeated Lan Yi, you can enter the ninth level.” The old voice came again and Yun Feng became serious. Lan Yi stood next to Yun Feng as he glanced at her, “Master, don’t worry.”

“Kid, you’re helping the outsider already?” The young man burst into laughter and said to Lan Yi in a teasing tone. Lan Yi turned around with frustration in his blue eyes. “Uncle Yao, you should say some good words.”

The young man laughed weirdly and didn’t say anything else. One of the ten doors was opened. Yun Feng looked at the white world inside the door as the enthusiasm in her mind surged slightly once again.

“Master, let’s go.” Lan Yi whispered next to Yun Feng. Yun Feng nodded and walked to the front of the door with Lan Yi standing next to her. A gentle light then dragged both of their bodies into the door.

“Bang!” The door slowly closed and made a slight noise after the two of them got in. The young man looked at the closed door as he mumbled, “Little girl, it’s not over yet. It’ll depend on you now.”

Meanwhile, on Yan Yu and Xiao Ling's side, both of them entered two doors and were dragged inside by two beams of light. The two of them were certainly holding hopes in their minds, wishing that they could go to the mysterious ninth level. If they truly got into the ninth level, they might be able to make up for the things they lost. Who knew what treasures there were on the ninth level? Perhaps those treasures were even better than what they got before!

The two of them were nervous and excited at the same time. Thinking of that mysterious ninth level, thinking of the treasures that were possibly there, the enthusiasm in both of their hearts surged!

"Swish!" The white light around them had already disappeared completely. Xiao Ling and Yan Yu both couldn't wait to open their eyes, but what they saw were each other's faces and they also saw the moment when the hope on their faces turned into disappointment at the same time.

"We're out." Xiao Ling looked at Yan Yu speechlessly, and Yan Yu looked back at her. Both of them gazed at the Dragon Palace that was so close to them but they couldn't enter, as they felt anxious in their minds.

"Do you think that human can enter the ninth level?" Yan Yu stared at the Dragon Palace firmly while frowning. He looked up, as if he wanted to see the scenery up there. However, the Dragon Palace was so towering that it went into the sky, so he couldn't see anything at all.

Xiao Ling frowned and stood there. She was the most frustrated right now. Even though she didn't return with empty hands, she could only take one thing out. She felt like she suffered great losses just thinking about it! Also, her weapon was taken away by Yun Feng as well. This was what made her most furious. She and Yan Yu could be considered fully loaded along the way, but who would have thought that they would lose all the treasures on the eighth level? Who exactly made such a rule? Wasn't that person trying to stop the Dragons from taking the things in the Dragon Palace?

## **Chapter 194: Level (2)**

The more Xiao Ling thought about it, the more it felt wrong. Logically, all the treasures in the Dragon Palace should belong to the Dragons. Such a rule was harmful and not beneficial to the Dragons at all! This was an invisible restriction on the Dragons! Also, Yun Feng was a human being. When humans entered the Dragon Palace, why would there be rules for them as well? Did the former owner of the Dragon Palace know there would be humans coming here?

Strange, really strange...

"Xiao Ling, what are you thinking? What should we do now? We can neither get in nor get out!" Yan Yu's fiery temper appeared again when he saw Xiao Ling frown and stand there without talking. This trip hadn't been going well already, and now, so many things were taken away from them. Yan Yu was more furious than ever! However, what could he do even if he was furious? The invisible barrier was there. He wasn't dumb enough to dig his own grave again!

"What else can we do? Can't you use your brain and think? Other than just staying here and waiting for her to come out, what else can we do?" Xiao Ling was also annoyed. Her weapon was taken by Yun Feng and she only got one treasure. Xiao Ling was even more furious than Yan Yu at the moment. Yan Yu flushed and forcibly repressed his anger. He also understood that the two of them shouldn't fight in such a situation.

“Alright! I’ll wait for Yun Feng to come out here! If she dares to take more than one treasure from the Dragon Palace, I’ll make her spit them all out!” Yan Yu sat on the ground and crossed his legs, staring at the Dragon Palace. Xiao Ling also sat down. The two of them could only wait here now. The time limit was one month. She didn’t believe that Yun Feng wouldn’t come out!

The two of them had nothing they could do. They could only wait here like this. Yan Yu still wanted Yun Feng’s dimension container, while Xiao Ling wanted to take back her own weapon. Both of them were kind of united at this moment. In this enclosed space, they both calmed their minds and used this time to practice.

\*\*\*

After Yun Feng and Lan Yi entered the door, a gentle light kept dragging the two of them forward. Apart from the white light, Yun Feng couldn’t see anything else. After a while, the light disappeared and Yun Feng looked up again. This was an extremely vast square, but there was nothing on it.

Empty? There was nothing on the ninth level?

Yun Feng looked at the empty, enormous square in front of her and raised her eyebrows gently. “Lan Yi, do you know anything about the ninth level?”

Lan Yi shook his head. “Master, I know nothing about it.”

Yun Feng knew Lan Yi wasn’t lying when she heard this. She slowly glanced over all the places of the square. Apart from a vast ground, there was really nothing on the walls around.

Strange, really strange.

Logically, it was impossible that there was nothing on the ninth level. If there wasn’t anything, why should there be the ninth level? There must be some mystery on the ninth level. Or the things on the ninth level were hidden?

“Kid, look at the walls.” The ancestor’s voice came to Yun Feng’s mind. She looked over. The four walls around the square were made of black stone. Their surface was smooth and had no damage at all, which showed that no one seemed to have been to this place. Yun Feng walked as she observed carefully. After going one around, she finally noticed something special.

On the walls that surrounded the square, there were seven very special marks in seven different directions, including fire, leaf, water drop, lightning, small mountain, the sun and skeleton. These seven special marks didn’t seem very special at first glance, but they were so conspicuous after looking carefully.

Yun Feng also understood after glancing over them. These seven special marks represented seven different elemental forces, corresponding to each of them respectively. The seven marks engraved on the walls must have their own uses. They couldn’t possibly be just decorations.

Yun Feng slowly closed her eyes, while Lan Yi looked at her quietly from the side with deep appreciation in his blue eyes. Mental strength surged out of Yun Feng’s body slowly. When the mental strength penetrated into the space, Yun Feng discovered that the elemental force in the space was unusually strong!

Her heart pounded. Yun Feng's mental strength and the five types of elemental forces she could see communicated closely and slowly penetrated each other. Yun Feng suddenly opened her eyes and looked at the fire mark as her mental strength rushed forward with the fire element, covering the fire mark slowly.

If she was right, this was the key to unlocking the secrets of the ninth level!

"Buzz!" The fire mark let out a subtle buzzing sound. The fire mark that was covered by the fire element then suddenly shone and was completely ignited!

Yun Feng's eyes brightened. The leaf, the water drop, the lightning and the little mountain all lit up one after another! The five lighted marks on the walls shone on each other, looking gorgeous in an instant! At this moment, the locations of the seven marks suddenly changed. The five lighted marks occupied five corners of the square respectively and five beams of colorful light shot out of the five marks all of a sudden, illuminating the center of the vast square!

Yun Feng narrowed her eyes and looked at this scene in front of her. After the five beams of colorful light shot out, they all disappeared all of a sudden. The marks that were lit up became dark again. What was different was that a circle array full of dots of light appeared on the vast square on the ninth level. Yun Feng looked at the array as her heart moved, as if something was calling her in the dark.

Yun Feng gave it a thought as Lan Yi turned into a beam of green light, flashing into the Ring of Contract. Meatball on Yun Feng's shoulder also got closer and leaned against Yun Feng's cheek even more, bending its little body slightly.

Yun Feng walked into the Teleportation Array. She didn't know where this array would send her, but she knew that the person that set up this Teleportation Array would definitely not hurt her.

She stood inside the Teleportation Array as dazzling light burst out of the array abruptly. Then, Yun Feng's body immediately disappeared from the ninth level and the array also vanished after that. The ninth level was still empty and silent, as if nobody had ever come here.

Yun Feng's body seemed to be passing through a crack. She held her breath and focused. Her mind dared not relax or wander at all and was preparing for any sudden situations that might happen, so her body was constantly in an extremely tense condition.

### **Chapter 195: Level (3)**

Such a situation lasted for a while and Yun Feng's body was still being pulled constantly. She even thought her mind would be ripped away. She fiercely bit her lips to keep her head extremely clear by using pain. Finally, when she felt like she couldn't stand it anymore and that her mind was about to be extracted from her body, all the tearing disappeared.

"Successor, congratulations for coming this far to the tenth level of the Dragon Palace."

A voice sounded in Yun Feng's ears. Yun Feng was shocked. The tenth level? The Dragon Palace had the tenth level? After a dazzling light, a whole new space appeared in front of Yun Feng's eyes.

This was a small space that was only a dozen square meters large, but there were more than a dozen stone tables inside and different things were put on the stone tables. These things were all surrounded by a faint halo.

Yun Feng glanced over. There were all kinds of things on the dozen tables. Before she could look at them carefully, the voice sounded again.

“Successor, since you’ve arrived on the tenth level of the Dragon Palace, it means that you’ve passed the tests I gave you and also met my requirements, so you’re qualified to inherit some of my things.”

Yun Feng looked at the things on the stone tables. Who exactly was the owner of this mysterious voice? Would it be... that summoner?

The voice continued speaking, “There’s one catalogue on these dozen stone tables that records information about different kinds of Magic Beasts with their pictures and descriptions. There’s also a chorography that records the cultures and detailed maps of all the places on the Vast Continent.”

Yun Feng could already be completely sure after hearing this. The owner of this voice was undoubtedly that summoner!

“A hundred ultimate ores, a thousand high-level ores, these ores are all put in the storage ring.”

Yun Feng slightly widened her black eyes. A hundred ultimate ores! Oh God, a thousand high-level ores! This summoner is too rich!

“One Lord-Level Magic Beast Crystal, five Monarch-Level Magic Beast Crystals, fifty Commander-Level Magic Beast Crystals, a hundred level-9 Magic Beast Crystals, two hundred level-8 Magic Beast Crystals, three hundred level-7 Magic Beast Crystals, these crystals are all stored in the storage ring.”

Yun Feng’s body trembled slightly when she heard this. He was indeed generous, truly incomparably generous. The lowest level of the Magic Beast Crystals was level 7 and there were three hundred of them! And there were five Monarch-Level Magic Beast Crystals! A Lord-Level Magic Beast Crystal as well!

How powerful exactly was this summoner? Even a Lord-Level Magic Beast could be killed in his hands?

“Kid... Amazing, really amazing...” The ancestor was extremely stunned. That was such a huge amount of stuff. Even if she just took out a level-7 Magic Beast Crystal and put it on the market for sale, that would cause a raging storm of hunger. If a Lord-Level Magic Beast Crystal appeared in the world, what would it be like?

However, Yun Feng knew that she wouldn’t be dumb enough to let everyone know about the Lord-Level Magic Beast Crystal. She understood that an innocent man would get into trouble because of his wealth. If she let other people know that she had a Lord-Level Magic Beast Crystal, even Magic Beasts would hunt her down till the end, let alone humans.

Glancing at those two rings, Yun Feng knew this wasn’t over yet...

“Up till this point, you must be very surprised in your mind. Successor, if you want my stuff, kneel and bow to me three times respectfully, and call me Master with all your heart.”

Yun Feng curled her lips and smiled. Was this summoner also someone who cared about rules? Yun Feng had already had respect for this summoner who could contract with a dragon in her mind, so she knelt on the ground respectfully and bowed with her head touching the ground three times firmly as she yelled loudly in the space, "Master, greetings!"

"Good! If you didn't bow to me or say that with your heart, you would be thrown out of the Dragon Palace and would never be allowed to enter again. You're quite sincere, kid. I got myself a pretty good apprentice."

Yun Feng smiled and got up from the ground. Since she was also a summoner, she also had considerable longing and yearning for this summoner in her heart, just like how she felt about her ancestor. And yet, her ancestor was also very interested in this summoner and spoke highly of him. He was happy that Yun Feng could inherit the treasures of such a person.

"Lan Yi is the first present I give you. Have you got it?" The voice sounded like he was smiling. Yun Feng nodded. She certainly knew that this voice wasn't really having a conversation with her. Everything might be messages left by that summoner.

"You can take the rings with the ores and Magic Beast Crystals." As soon as he said this, the faint halo around the two rings disappeared. Yun Feng came forward and picked the two rings up with her hand.

"As for the other things, they're not quite useful for you with your current strength. When your strength reaches a certain level, I'll surely give them to you."

Yun Feng nodded. If she couldn't bring out the original level of those things with her strength, she would rather not have them. It wouldn't be too late to use them again when her strength increased to that level.

"Now, what I'm trying to tell you is that everything in the Dragon Palace belongs to me, not the Dragons." The voice came and Yun Feng was startled. What? The Dragon Palace was owned by this summoner?

"Since I have quite a close relationship with the ancestor of the Dragons I contracted with, I left this Dragon Palace in the Dragons' hands for its years of company and I also added all kinds of restrictions, allowing the members of the Dragons to only take one thing away each."

Yun Feng finally realized it and also understood everything a bit. No wonder there were such strange rules. No wonder the ninth level would look like that. Even if Yan Yu and Xiao Ling were lucky enough to be on the ninth level, they wouldn't have any idea what to do either.

"Now that you're my apprentice, the Dragon Palace also has its owner. Once you successfully refine the Dragon Palace, the stone for opening the Dragon Palace will certainly lose its use."

Yun Feng nodded. It certainly wasn't easy to refine the Dragon Palace. With her current strength, it was probably impossible for her to do so.

#### **Chapter 196: Level (4)**

“Take the catalogue and the choreography. They’ll be very useful for your future practice.” The voice sounded as the halo around the two books also disappeared slowly. Yun Feng walked over and put them away carefully. With the strength and insights of this summoner, this was a great invisible asset!

“As for the other things, just leave them here for now. Since you’re able to come in here, it means that you and the Dragons have a good relationship and they’ve also told you some information about me. What I need to tell you right now is that I’m not dead.”

Yun Feng’s heart shook immediately. He wasn’t dead! Her Master wasn’t dead!

“With enthusiasm, I tried to take down a Fantastical Beast back then and was indeed injured, but I was framed by someone. Even though my life was no longer in danger, I was imprisoned by them.”

Yun Feng narrowed her black eyes abruptly. Master was framed by someone? It seemed that the people who dared to frame Master must be something as well... Master was imprisoned. For what? It must be because Master was useful to these people!

“Take this jade pendant.” The halo disappeared again and an entirely white jade pendant flew to Yun Feng. Yun Feng grabbed it immediately and held it in her hand. Coldness seeped into her palm while the surface of the jade pendant shone with a faint luster.

“Apprentice, I don’t know how long I’ve been trapped and I have no idea if I can find a suitable inheritor for these things. Now that you’re here in this place, it’s kind of a blessing for both of us. If you don’t have the ability, I won’t force you to take this risk. If you have the ability and the heart to do it, you’ll be able to contact me when you manage to open the jade pendant.”

Yun Feng held the jade pendant in her hand tight and could hear the deep frustration and sorrow in her Master’s words. How long had he been imprisoned? A thousand years? And in these thousand years, no human beings had ever come in here, except for her!

Her Master was suffering and being tortured somewhere in an unknown place. Since she accepted the inheritance he gave her, since she called him Master, she should bear this responsibility, carry this morality and do something that made her worthy of this heritage!

“Master, don’t worry. I’ll definitely practice hard and get you out, I will!”

“After entering here, the only way out is through arrays.” The voice came again. Yun Feng saw an array with faint glitters appear in a corner in the space. She didn’t walk over, because she knew things wouldn’t possibly be so simple.

“Being able to become my apprentice, you must be talented, but you can’t have an arrogant personality either. So, stay here and focus on practicing. The array can only be opened when you reach the Commander Level. Take care.”

The voice didn’t come again after saying this. Yun Feng shook her head speechlessly. The Commander Level... It seemed that she would be here for a while.

On the most mysterious tenth level of the Dragon Palace, the tenth level that no humans or creatures had ever entered, a slim person was sitting cross-legged with her eyes closed. Her curled eyelashes cast

a thin layer of shadow on her cheeks and her entire body was in an extremely peaceful state. Mental strength slowly moved around her, constantly mingling closely with the elemental forces in the air.

Yun Feng had already been practicing here quietly with her eyes closed for almost a month. Ever since the moment she closed her eyes and started practicing, she had known that the concentration of the elemental force in the small space on the tenth level was a few hundred times higher than in the outside world. Practicing here was a huge opportunity for a mage!

Yun Feng hadn't been practicing here for a whole month and there were already signs that her strength in the early stage of level 8 was about to enter the mid-stage. Reaching the mid-stage in less than a month was something impossible for a mage, especially for mages on the East Continent, and nobody would possibly believe it if they were told about it. However, Yun Feng did it.

Yun Feng felt her mental strength change slowly and felt delighted. With such a speed, it shouldn't be difficult for her to reach the Commander Level in a year and a half!

Yun Feng focused on practicing and tried to work hard to reach the Commander Level in a year and a half wholeheartedly. She had never thought that her speed of breaking through the levels had gone beyond people's knowledge!

After reaching the advanced level, practicing became more difficult and required hard work, and it would take thousands of hardships to break through to an even higher level. Normal people would need a few years to go from level 7 to level 8 and an even longer time to go from level 8 to level 9. The rise within level 9 was also extremely hard. People who were at the peak of level 9 were mostly middle-aged people of around 40 to 50 years old or elderly people of 60 to 70 years old. As for the Commander Level, it was even more difficult. Some people might even be stuck at the peak of level 9 forever. Even though there was only one step between the peak of level 9 and the Commander Level, this step was as hard as climbing up into the sky!

Even if a level-9 powerhouse was at the peak stage, this powerhouse would have no power to fight back at all when facing a Commander-Level master, as soon as the Commander-Level master waved a hand. That was the difference!

For the current East Continent, although there was a slight difference in the strength of the four empires, it was also quite balanced. Take the Karan Empire as an example. There were indeed Commander-Level powerhouses. Without Commander-Level powerhouses, how would the Karan Royal Family be able to sit firmly in this position of imperial power?

However, most Commander-Level powerhouses were for praying and threatening. All four empires had Commander-Level powerhouses and a basic balance was maintained in terms of the number. The reason why the four empires could be so peaceful was because of the mutual suppression of the Commander-Level powerhouses.

Now, on the tenth level of the Dragon Palace, another Commander-Level powerhouse was about to appear in the world!

The longer Yun Feng practiced, the more she felt comfortable, and she lost track of time gradually, and also forgot about the fact that there was a month time limit for the exploration of the Dragon Palace. With this Teleportation Array, she wouldn't have to worry about being trapped in the Dragon Palace and

being unable to get out. The jade pendant Ao Jin gave her was also stored in her bracelet quietly and hadn't been touched even once.

Yun Feng kept practicing slowly on this side, while Yan Yu and Xiao Ling, who had been waiting outside the Dragon Palace, couldn't wait any longer. Both of them had already been outside the Dragon Palace for almost a month. They both waited calmly at first. Then, Yan Yu got a bit impatient in the middle, while Xiao Ling was still very calm. However, when it was almost the end of one month, Xiao Ling couldn't remain calm either.

### **Chapter 197: Reaching the Commander Level (1)**

"Yun Feng still hasn't come out. What exactly is going on? Perhaps she has already gone out?" Yan Yu looked at the Dragon Palace in front of his eyes and gritted his teeth fiercely. If she had really gotten out, he wouldn't be able to reconcile to it!

Xiao Ling also remained silent. She bit her lips and couldn't say a word. There were only two days left before the one-month time limit ended, but Yun Feng was still nowhere to be seen. What exactly happened on the eighth level? What did it mean by humans having their rules? Did she choose the right door and enter the ninth level?

Thinking of this, Xiao Ling's heart felt like it was being gnawed by thousands of ants. It was unbearably itchy because she really wanted to know the answer, but there was nothing she could do. Anger then rose gradually in her mind. "We'll keep waiting! We're not leaving until the last moment!"

Yan Yu also made up his mind and sat back down on the ground after hearing what Xiao Ling said. He would continue waiting. He didn't believe that Yun Feng would still not come out when the time limit was up. If she didn't come out, she would be trapped in the Dragon Palace!

Both of them continued waiting patiently, looking like they would stay until the last moment. Their faces were full of anger and they were extremely frustrated. Meanwhile, Yun Feng was practicing quietly with her eyes shut on the tenth level and her strength was also increasing silently.

Finally, it was the day of the one-month time limit!

Yan Yu and Xiao Ling opened their eyes and looked at the Dragon Palace in front of them that still didn't have any movement. Both of them were enraged. "She must have gone out earlier!" Yan Yu gritted his teeth and looked at Xiao Ling furiously. "It's your fault! If you didn't stop me, I would have taken her things already, better than not being able to get anything now!"

Xiao Ling was also speechless. Thinking of the weapon that was taken away, how could she feel good? If she knew earlier, she would have allowed Yan Yu to do whatever he wanted! She wasn't sure what the real situation was right now. What if she stayed in the Dragon Palace? It was alright if she got out. If she didn't, it would be fine if she just died. However, if she was alive, wouldn't everything in the Dragon Palace be in her possession?

Thinking of this, a hint of viciousness suddenly flashed through Xiao Ling's beautiful eyes. Her hands immediately turned into dragon claws with black glitters. Yan Yu's expression couldn't help changing when he saw this. "What are you doing?"

Xiao Ling rolled her eyes at Yan Yu. "What are you afraid of? I won't do anything to you. It's just pretend! It'll be fine if Yun Feng has gotten out of here. If she stays in the Dragon Palace and the other members of the Dragons know about it, it's not going to end well for both of us! Originally, if we could take enough treasures out, that would also make it up, but you and I have only one treasure each right now. It's hard for us to escape punishment!"

Yan Yu frowned and also turned pale when he thought about the elder of the Red Dragons, Yan Ting. "What should we do now?"

"What should we do? Of course, we have to create some illusions. You and I risked our lives and fought desperately to get the treasures, while Yun Feng... It doesn't matter if she's gone out. As long as we say the same thing and make her the scapegoat, all the Dragons will see her as an enemy. And if she isn't out, hm..."

Yan Yu also pondered in his mind at this moment and kept up with Xiao Ling's speed. "Are you saying that we'll just let her die here if she's not out?"

"Hm! It's none of our business whether she's dead or not. We just need to let the members of the Dragons know that she died here!"

"Hahaha, the most evil woman's heart. Xiao Ling, this is just right for you. I always thought that the Black Dragons were protecting her. I didn't expect you to change sides." Yan Yu looked at Xiao Ling with a bit of sarcasm in his eyes. "Didn't the Black Dragons claim to be the noble ones? Why are you like this now?"

Xiao Ling flushed and was a bit embarrassed. "I won't offend someone who never offends me! She took away my weapon. Even though grandpa asked me to take care of her, I've done that as well. Nobody owes anyone anything!"

Yan Yu grunted coldly. Xiao Ling was still hiding her thoughts and he didn't have the energy to expose her anymore. It couldn't be clearer who was thinking what at this moment.

The blush on Xiao Ling's face slowly faded and she swung her black dragon claw at Yan Yu fiercely. A few wounds immediately appeared on Yan Yu's arm as blood oozed out.

"Why are you still standing there? Attack me quickly!" Xiao Ling calculated the time in her mind. They dared not go out at the last minute. If their Young Master couldn't hang on until that time, the two of them would be trapped here and it was uncertain when the Dragon Palace would be opened again next time!

Yan Yu also took out his weapon without hesitation and attacked Xiao Ling viciously. Xiao Ling watched Yan Yu swing his spear as she gritted her teeth. Great, Yan Yu. You're taking revenge on me at this moment. Wait until we get out of here!

Yan Yu wielded the spear in his hand hard and didn't hold back at all when he attacked Xiao Ling. After a harsh attack, there were wounds on Xiao Ling's body and blood also oozed out of the corners of her mouth. She stood there with a pale face, looking like she had gone through a fierce battle.

"You're ruthless!" Xiao Ling glared at Yan Yu viciously, as Yan Yu burst into laughter. "I only did what you asked. You asked me to attack you and I just fulfilled your request."

“Cut the crap! Let’s go.” Xiao Ling glanced at Yan Yu in disdain. If it weren’t that both of them were members of the Dragons, they would probably have killed each other.

Yan Yu nodded with a smile at the corners of his mouth. Both of them took out the jade pendants that Ao Jin gave each of them at the beginning and crushed them fiercely with their hands. The jade pendants immediately shattered as a beam of golden light instantly surrounded their bodies. Yan Yu and Xiao Ling looked at the Dragon Palace in front of their eyes with sorrow one last time. Two beams of golden light flashed and the two of them disappeared completely from in front of the Dragon Palace.

“Phew...” Rapid panting sounds came from the space and Yan Yu and Xiao Ling ran out of the entrance of the Dragon Palace in panic.

“Xiao Ling! Yan Yu!” The elders of the Black Dragons and the Red Dragons, who had been waiting outside anxiously, got up quickly and ran to pick up their descendants. Seeing how messy the two of them looked with injuries all over their faces, the elders were all a bit worried.

## **Chapter 198: Reaching the Commander Level (2)**

“How was it?” Yan Ting asked Yan Yu softly. Yan Yu immediately took a deep breath to make himself look even more panicky and suddenly knelt on the ground.

“You...” Yan Ting looked at Yan Yu with a hint of shock in his eyes. Yan Yu lowered his head and took out the treasure he got from the Dragon Palace. Yan Ting’s eyes immediately brightened after seeing it!

“I failed in doing what you asked me, elder. I only got one treasure from the Dragon Palace!” Yan Yu had been lowering his head since the beginning and he went silent after saying this. Yan Ting reached his hand out and took the treasure, putting it in his hand for a closer look carefully. He was very content and greed flashed through his eyes. It wasn’t true to say that Yan Yu didn’t let him down. If he could bring one back, he should have been able to get more!

“Alright, you’ve done your best. Get up.” Yan Ting put away the treasure and said to Yan Yu. Yan Yu also got up as he glanced at the Black Dragons.

“How many did the Black Dragons get?” Yan Ting also glanced over. If the Black Dragons got more than they did, they would really be embarrassed.

“Elder, don’t worry. The Black Dragons also got one treasure, the same as us. But what’s more interesting is that Xiao Ling lost her weapon.” Yan Yu couldn’t help but chuckle when he said this. After all, they gained more this time.

“Really? Haha, that’s pretty nice. I’ll see how Old Qi gives me his attitude.”

Xiao Ling was taken to the Black Dragons’ side by her grandpa. Elder Qi didn’t ask her what she got from the Dragon Palace. Seeing how messy his granddaughter looked, together with the few frightened people who came out earlier, Elder Qi had been worried. After looking closer, Elder Qi’s expression couldn’t help but change.

“Where’s Yun Feng? Why isn’t she with you?”

Xiao Ling bit her lips gently and resentment rose in her mind. Even though she deliberately injured herself, the wounds weren't fake! It wasn't a big deal that her grandpa didn't care about her, but why did he ask about Yun Feng who took her weapon? Damn it!

"Grandpa, I failed to do what you asked me." Xiao Ling said softly as she handed over the treasure she got. Elder Qi didn't even look at the treasure and his eyes that were full of vicissitudes only stared at Xiao Ling.

"What exactly happened to Yun Feng?"

The resentment in Xiao Ling's heart grew stronger, but she didn't show it on her face at all. She only said softly, "She's... dead."

"What did you say?" Elder Qi immediately widened his black eyes and looked at his granddaughter with a surprised face. Xiao Ling couldn't help but lift her head. "Grandpa, if you don't believe me, you can ask Yan Yu! The situation in the Dragon Palace is much more dangerous than we thought. That powerful sound wave attack directly killed her..."

Xiao Ling slowly lowered her head, while Elder Qi's eyes gazed at his granddaughter for a long time. He only felt a chill in his heart. That human was dead? If that was the case, Young Master...

Elder Qi couldn't help but move his gaze to Ao Jin. After seeing Xiao Ling and Yan Yu, Ao Jin thought he would see Yun Feng as well, but nobody came out again! At this moment, Ao Jin's handsome face had turned as dark as charcoal and his anger also surged out slowly.

"Young Master!" Elder Qi immediately rushed over when he saw that and Yan Ting's face also darkened. His body also flashed and stood next to Ao Jin. His fierceness that grew stronger and stronger in the air had already made many members of the Dragons uncomfortable. This was caused by Ao Jin's dragon pressure!

"Young Master, the time for opening the Dragon Palace is almost up. Please don't push yourself too far." Yan Ting said on the side. Ao Jin didn't say anything. He just grunted coldly.

"I don't need you to teach me what I need to do!"

Yan Ting's expression changed and he immediately went silent. Elder Qi watched on the side and was so scared that he dared not say a word. After a while, the passage to the Dragon Palace slowly faded. Anxiousness surged out of Ao Jin's golden eyes once he saw that. Kid, where are you? Come out! Come out now!

The passage got darker and darker, as Ao Jin's face darkened even more and the dragon pressure that came out of his body got stronger. Many members of the Dragons clutched their bodies and fell on the ground in pain one after another.

"Young Master, please calm down!" Elder Qi barely resisted Ao Jin's dragon pressure and shouted loudly.

Ao Jin watched the passage disappear slowly. The entrance to the Dragon Palace had been closed completely, but Yun Feng still wasn't out. This also meant that she would be trapped inside forever, or she had died already.

Any one of these two results would make Ao Jin enraged. The moment the passage to the Dragon Palace disappeared, Ao Jin turned around abruptly and reached his arms out, and Xiao Ling and Yan Yu's messy bodies flew towards Ao Jin from two directions at the same time!

"Young Master!" Elder Qi and Yan Yu immediately shouted after seeing that. Ao Jin's fierce golden eyes suddenly brightened and Elder Qi and Yan Ting were knocked away by two invisible forces!

"Tell me! What exactly happened to that girl?" Ao Jin grabbed Xiao Ling and Yan Yu, holding one of them in each hand. The other members of the Dragons remained silent. The Young Master of the Dragons was enraged. This anger wasn't something ordinary people could withstand.

Yan Yu's expression suddenly changed. Xiao Ling immediately spoke ahead of him after seeing this, "Yun Feng is dead!"

"What did you say?" Ao Jin's pupils shrank abruptly and the hand he used to grab Xiao Ling tightened. Xiao Ling felt breathless and she yelled as she struggled, "Yan Yu and I barely survived that terrifying sound wave attack, but Yun Feng died right there!"

Yan Yu also calmed his mind at this moment and constantly nodded at Ao Jin. "Young Master, Xiao Ling is right. The others crushed the jade pendants when they were about to die, but Yun Feng is a human being. Humans don't have a strong body. She..."

Yan Yu looked at Ao Jin's pale face as he spoke with a lower voice and completely lost his voice in the end. Ao Jin's hands suddenly loosened and both of them fell on the ground messily. Ao Jin slowly closed his eyes, thinking about what those people who escaped from the Dragon Palace said. The terrifying sound wave attack was indeed something. Two members of the Dragons already died inside... That kid was only at level 8. Even the powerful bodies of the Dragons couldn't withstand the attack, so how would she be able to resist it... This was his fault. This was all his fault...

### **Chapter 199: Reaching the Commander Level (3)**

Ao Jin stood there quietly as sorrow spread through his body gradually and there was devastation on his handsome face.

Xiao Ling bit her lips and fell on the ground. She was very upset when she saw Ao Jin's expression, but she dared not say anything. As long as Ao Jin believed that Yun Feng was dead, as long as the members of the Dragons believed that Yun Feng was dead, it would be enough!

The golden wings suddenly spread on Ao Jin's back and flapped fiercely as Ao Jin's body flew high up in the sky. "Young Master, where are you going?" Elder Qi couldn't help yelling loudly when he saw that Ao Jin was leaving.

Ao Jin's body stopped in the air for a second. "I'll kill whoever stands in my way!" A furious dragon roar came in the sky. Ao Jin flapped his golden wings hard and his entire body turned into a golden shooting star, disappearing in front of everyone.

Seeing Ao Jin believe in them, Xiao Ling and Yan Yu were both relieved. Elder Qi looked in the direction where Ao Jin left very worriedly, then glanced at his granddaughter, Xiao Ling, and heaved a silent sigh.

The Dragons suffered quite heavy casualties in this exploration, but it was still something to celebrate that they didn't return with empty hands. For the Dragons, Yun Feng's death wasn't a big deal. There was already a lot of opposition from the Dragons when Yun Feng entered the Dragon Palace. They just didn't show it because of the pressure from Ao Jin. Now that they heard that Yun Feng died inside, they were all relieved. They were all unwilling when they thought about the treasures in the Dragon Palace being taken by a human.

The Dragons became peaceful again very soon and tranquility had also been restored in Dragon Valley. Yun Feng's death drifted away slowly like wind, leaving no trace at all, except for the Young Master of the Dragons who vanished once again.

On the secret tenth level of the Dragon Palace, everything was very peaceful and Yun Feng's practice was going smoothly. However, she had never thought that she was already considered dead in the eyes of the Dragons. As time passed, Yun Feng's strength was constantly improving. In just a year, her strength had risen to the peak of level 9 in this space that had such strong elemental forces!

Yun Feng's appearance had also changed significantly with the increase of her strength. Her body and face that originally had traces of youth had completely changed. Her fully grown body had an elegant, perfect curve, while traces of immaturity had already disappeared from that little face, glittering with a beautiful, bright light.

Yun Feng closed her eyes firmly as her beautiful hair hung behind her. Her soft hair fluttered gently and her skin was bright and fair, like a peeled egg. Her clear huge eyes were covered by her eyelids, so the smoothness inside couldn't be seen. Her curled eyelashes cast a thick shadow on her cheeks, while her moderately thick eyebrows stretched gently. There was a tiny smile at the corners of her red lips and her little face contained a kind of beauty that couldn't be concealed, which astonished people from the bottom of their hearts.

Meatball on her shoulder also quieted down completely. In this year, Meatball seemed to have entered a dormant state as Yun Feng focused on practicing. It just leaned right on Yun Feng's neck and its entire fluffy body crouched on Yun Feng's shoulders. It was so quiet that it was like a decoration.

Suddenly, the eyelashes of the beauty shook slightly and Meatball also woke up in an instant, turning its huge grape-like eyes around and rubbing its body against Yun Feng's cheek a few times.

"Nana..." Its soft sound echoed in this space that had been silent for a year as Yun Feng opened her eyes slowly. Two glints of sharp light flashed through her black eyes abruptly and her eyes became a bit clearer. An invisible dignity was also released from her body.

The peak of level 9, this was Yun Feng's current strength!

"You had quite a good rest." Yun Feng woke up and felt Meatball rubbing its body against her cheek constantly. She picked up Meatball's little body and the two of them looked at each other. Meatball's huge eyes were full of flattering expressions. Yun Feng reached her fingers out and flicked Meatball's forehead. Meatball's big eyes immediately showed a kind of grievance, while Yun Feng, who was in a good mood, burst into laughter.

"Kid, the speed at which your strength increased surprised me." The ancestor's voice also sounded at this moment. Yun Feng pressed her lips and smiled. "Ancestor, I've entered the peak stage of level 9

now and I seem to have felt the feeling of entering the Commander Level faintly. I've been here for a year. If I don't speed up, I'll probably miss the exam of Masang School of Magic."

"Haha, kid, with your current strength, you're more than enough to be a consultant for those teachers!"

Yun Feng smiled. She didn't know how many mages on the East Continent could reach level 9, but it was really rare. If she could reach the Commander Level... It would undoubtedly be a waste of her talent if she entered Masang School of Magic to learn magic. However, Yun Feng's brother, Yun Sheng, was in the magic school. They hadn't met each other for three years and she really missed him. Besides, she must confirm whether Murong Ran had done anything to her brother in these three years. The members of the Yun family didn't bully anyone, but it didn't mean that they would let others bully them!

Thinking of her brother, Yun Sheng, Yun Feng also became slightly excited. Almost there. She had already touched the step that led to the Commander Level. She just had to wait for an opportunity next.

Another month of meditation practice had passed. Yun Feng was waiting for her chance to get to the Commander Level wholeheartedly and her mental strength also became more concentrated, communicating more closely with the elemental forces in the space. Under constant communication, her mental strength suddenly underwent substantial changes!

Was it starting?

Yun Feng became nervous. She knew that the opportunity she had been waiting for was here! The opportunity for her to cross the peak of level 9 and reach the Commander Level was finally here!

Her mental strength that was constantly becoming more concentrated moved slowly. The mental strength that was originally spread all over like sea water started to gather. The water-like mental strength was imperceptibly divided into pieces and each piece was slowly coming to the center. Yun Feng looked at the changes happening in her spiritual space curiously. Her heart and her mind merged into one and she dared not zone out at all.

The gathering process was a slow and long process. Another month had passed, but Yun Feng wasn't annoyed at all. She calmly kept herself in a state that was the most relaxed. Countless pieces of divided mental strength gradually gathered together and the water-like mental strength had now turned into countless water drops! Each water drop had a different color and all the water drops turned into five distinct colors. Yun Feng felt the changes in her spiritual space in shock. All the little water drops in five different colors floated in her spiritual space, looking magnificent at first glance!

#### **Chapter 200: Reaching the Commander Level (4)**

"Kid, congratulations for entering the Commander Level!" The ancestor's words made Yun Feng's lips curve up slowly. Her smile grew wider and she clenched her fists tighter, feeling the purer energy in her body. The Commander Level. Was this a leap from quantity to quality? Even though those water drops were very small, the energy that was released was incomparable to that of the past!

Looking at the shiny Teleportation Array in the space, Yun Feng slowly got up as her beautiful hair fluttered slowly behind her. Meatball also looked very excited. "It's time for us to go back."

Looking around the small space slightly, Yun Feng put the catalogue of the Magic Beasts and the chorography of the Vast Continent into her bracelet and sorted out the things she had. First, the

ancestor's bracelet, then the storage ring full of Magic Beast Crystals and one full of ores that her Master gave her. After that, there was the storage ring Mr. Zheng Ran gave her before she left and the storage belt full of mid-level ores and food that the Red Maple Mercenary Team prepared for her.

She already owned so many storage containers and the things inside were all expensive. The property Yun Feng had right now was enough to compare to all the assets a royal family had. After all, her Master left a hundred ultimate ores for her and nobody knew if the royal family had ultimate ores or not. And those incredible Magic Beast Crystals, those Lord-Level Magic Beast Crystals, were something that could make people terrified by just thinking about it!

Yun Feng glanced over everything. She could give the storage belt back to the Red Maple Mercenary Team. After all, these things that the Red Maple Mercenary Team prepared for her were also a huge amount of assets for them, but this amount of assets was already very small for Yun Feng right now. She must give this storage belt back to the Red Maple Mercenary Team.

As for the ring Mr. Zheng Ran gave her, Yun Feng only smiled. Even if she wanted to give it back, Mr. Zheng Ran might not want it. How would a powerhouse let you return things that they gave you? Thinking of this, Yun Feng forgot about the idea of giving the ring back to Mr. Zheng Ran.

There were still a lot of things on the tenth level, which were probably all precious treasures. However, these things might not be useful for Yun Feng right now, because the layer of faint halo on those things still hadn't disappeared. Even if she wanted to take them, she wouldn't be able to.

After settling everything, Yun Feng stood in that light circle and the light circle suddenly let out a dazzling light when it sensed Yun Feng's current strength.

"Apprentice, being able to reach the Commander Level is an accomplishment, but don't be complacent. You still have a long road ahead of you. Practice with your heart and be humble."

Master's voice came again and Yun Feng kept everything in her mind. "The process of reaching the Commander Level is also the process of refining the Dragon Palace. After achieving the Commander Level, you've only refined the passage of the Dragon Palace. If you want to refine the entire Dragon Palace, your current strength is still far from enough."

Yun Feng understood it. She certainly knew that even if her strength had reached the Commander Level, it was totally impossible for her to refine this Dragon Palace and she had never had such a thought at all either. However, if she had refined the passage of the Dragon Palace, did it mean that she could enter the Dragon Palace anytime she wanted?

As Yun Feng pondered in her mind, she felt that a dragon-shaped jade pendant appeared faintly in the light of the array. Yun Feng grabbed it with her hand and could even feel the coldness that came from it.

"This jade pendant is the key to the passage of the Dragon Palace. When you put your mind on this jade pendant, you'll be able to come here. You can only go in and out of all the levels freely after you finish refining the Dragon Palace completely."

Master's voice sounded again. Yun Feng put the dragon-shaped jade pendant into her bracelet. With this dragon-shaped jade pendant, she would be able to come here to practice conveniently whenever

she had time. Practicing here was a few hundred times better than practicing outside and the speed of advancement was incomparable compared to that on the outside world!

“Apprentice, you must keep going steadily on your practicing path. Even if you’re extraordinarily talented, you can’t rush. I hope that you can succeed. Don’t let me down.”

Yun Feng clenched her fists. “Master, don’t worry. I’ll surely remember what you taught me and move forward one step at a time. I’ll definitely work hard to improve my strength and help you get out of there!”

The voice didn’t come anymore. Yun Feng only felt that the light in the array shone brighter and brighter. She knew that she was about to be teleported outside and the enthusiasm in her bones surged slightly. Where would this array send her...

“Swish!” A burst of light appeared! Yun Feng, who was standing in the array, immediately disappeared. The space on the tenth level became silent and empty.

On the eighth level of the Dragon Palace, the young man, who had been closing his eyes, suddenly opened them wide as a glint of light flashed through his gray white pupils. “Old man, that girl got out.”

The owner of the old voice didn’t make any sound for a long time. After a while, “Hm, let’s see how she goes in the future. I hope she won’t disappoint us.”

The young man laughed weirdly and closed his eyes again. “Just wait. I hope that little girl won’t keep us waiting for too long...”

Unlike the Teleportation Array on the ninth level, the one on the tenth level was very peaceful. While Yun Feng was being teleported, she didn’t feel uncomfortable at all. Gentle light and air currents kept dragging her body. When the light in front of her eyes disappeared, Yun Feng rubbed her eyes gently and Meatball on her shoulder also arched its body. Yun Feng opened her eyes, looking at the scene in front of her.

This was a wilderness forest. There was no sound anywhere and it was extremely quiet. A few birds flew by sometimes. When they sensed Yun Feng’s aura, they flapped their wings rapidly and flew away with a terrified look.

Yun Feng looked around. This was a totally unfamiliar place. She had no idea where this was. This Teleportation Array wouldn’t send her to another country, would it? If that was really the case, she would be in great trouble!

No matter what, let’s just get out of this forest first! Yun Feng made up her mind as Meatball on her shoulder rubbed against her cheek for a long time. Yun Feng picked Meatball up and looked at its huge eyes, while Meatball gazed at Yun Feng with a hint of sorrow in its eyes.
