

Summoner 21

Chapter 21: Make Do (1)

Thinking of this, Yun Feng stopped abruptly and didn't go further. The few level-5 Magic Beasts running towards her also felt that Yun Feng suddenly stopped and were a little shocked. However, at this point, they couldn't let this human leave alive. She had gone to the verge of the outermost area of the Foggy Forest. Magic Beasts in the central area had probably sensed her energy. If they couldn't kill her, they would be the ones who died!

The three level-5 Magic Beasts released their energy and the elemental force around them also surged out in a heartbeat, turning into several balls of colored light that sped towards Yun Feng's direction.

Yun Feng waited where she was quietly. In less than a dozen seconds, the three Magic Beasts arrived. Yun Feng's mental strength was still exploring around and she discovered that all other Magic Beasts near her disappeared when these three Magic Beasts kept running after her. She couldn't sense a single element.

Yun Feng pouted and slowly retrieved her mental strength. She took a deep breath and stared in front with her black eyes. Three powerful energies came right at her face. They were here!

"Swish! Swish! Swish!"

Three sounds of air braking suddenly came around Yun Feng. In a blink, the three level-5 Magic Beasts of the outermost area of the Foggy Forest all gathered here. Yun Feng looked over with her black eyes and got a rough idea about them.

A Gale Wolf, a Purple Electric Leopard and a Fire Cloud Wolf. Two out of the three Magic Beasts were at the early stage of level 5, while the last one was at the peak of level 5. Yun Feng couldn't help but feel relieved. If they were all at the peak of level 5, she would rather run than fight with them.

Not only did she have to become a brave person, but also a wise person who analyzed the situation. If she fought with those stronger than her, they wouldn't think she was courageous. They would only think that she was stupid.

The three Magic Beasts looked at each other and then stared at Yun Feng fiercely with their three pairs of eyes. The strange thing was that the three Magic Beasts didn't take action immediately. They were locked in a stalemate with Yun Feng instead. Yun Feng remained still and the three Magic Beasts also didn't move at all.

Magic Beasts would only be able to speak human languages when they reached the advanced level, but those below the advanced level were also extremely intelligent and smart. They weren't dumb at all. The fact that Yun Feng could get so deep in this place by herself proved that she must have certain strength.

When the three Magic Beasts saw Yun Feng, they were a little surprised. They could never imagine that the person who came here would be a little human girl!

Magic Beasts were much more careful than humans. Even though they were stunned by Yun Feng's appearance, they dared not to let down their guard. The elemental force of the three Magic Beasts enveloped their bodies. They were feeling out Yun Feng. Although Magic Beasts weren't afraid of humans, they were terrified of a profession born in mankind, the summoners!

When Magic Beasts encountered powerful summoners, they couldn't even escape. They would enter a contract with the human summoners and become tools that humans could use anytime they wanted. This was totally humiliating to the Magic Beasts! Countless Magic Beasts were under the command of the summoners. Normally, a Magic Beast that had contracted with a summoner would be teased by all other Magic Beasts, as it was tamed by the weak humans!

The three Magic Beasts didn't take action because they wondered if Yun Feng was a summoner. Humans that entered the Foggy Forest all had the same goal, to hunt and kill Magic Beasts! However, the three Magic Beasts hadn't found any smell of blood along the way, which was enough to prove that this little girl didn't come to the Foggy Forest for killing. If she wasn't here for killing Magic Beasts, who else would she be, other than a summoner?

After living on the East Continent for a long time, the Magic Beasts in the Foggy Forest might be the luckiest ones among the others. There were very few summoners on the East Continent or they could be said to have gone extinct right now. The Magic Beasts didn't have to be worried that they would be enslaved, as there were no summoners on the East Continent!

And yet, Yun Feng showed up here out of nowhere, which made the heartstrings of the three Magic Beasts, which had been relaxed for a long time, tighten. It wasn't that there had never been a summoner on the East Continent, but it was already a century ago. If there was a summoner, he would definitely show up in the Foggy Forest, since the Magic Beasts in the Foggy Forest were the greatest temptation for a summoner.

The three Magic Beasts tightened their bodies and stared into Yun Feng's eyes. They all mumbled in their hearts. Was she a summoner? If she was, should they kill her or escape?

The Fire Cloud Wolf at the peak of level 5 was surrounded by fire elements. It looked like a fire ball burning constantly from afar. Its sharp claws were releasing waves of heat and those fiery eyes were glittering with doubt and confusion.

After the three Magic Beasts tried to feel the girl out, the result still made them skeptical. The girl in front of them didn't have any fluctuation of mental strength around her. Any summoner would have more or less some fluctuation of mental strength, but the girl in front of them had none. Even so, the three Magic Beasts were still not at ease. They felt like the little girl in front of them, whom they should be able to smash with their claws, seemed inexplicably dangerous.

The intuition of the Magic Beasts was right. Yun Feng already had perfect control of the power of the elements. If she wanted, she could easily contract with these three Magic Beasts in front of her, as if they were some little chicks. They wouldn't even have the opportunity to fight back. Yun Feng wanted to retrieve her mental strength, but even the Magic Beasts couldn't sense it.

The three beasts and the girl looked at each other weirdly. Yun Feng didn't seem nervous at all. She stood there at ease, as if she was waiting for the Magic Beasts to attack first.

The hearts of the three Magic Beasts were pounding. They wanted to run away, as the little girl in front of them was too creepy, so creepy that they felt uncomfortable! And yet, when the three Magic Beasts thought about the consequences of letting the little girl into the central area, they forgot about the idea of escaping.

Even if she was a summoner, how many elements could she master at such a young age? How would she be able to fight with the three beasts? If they could smash her to death, they might be able to eliminate one summoner and that was something huge for the Magic Beasts! If she wasn't a summoner, there would be no threat to them at all. Warriors and mages wouldn't frighten the Magic Beasts. Besides, there were three level-5 Magic Beasts here this time. Even if the person in front of them had level-7 abilities, she would still be thinking how she could escape.

Once the three Magic Beasts made a decision in their minds, the fierceness they were repressing earlier suddenly surged. Three colors, red, green and purple, rushed out of their body. The level-5 Magic Beasts were ready to attack!

Yun Feng wasn't afraid at all when she saw this. Her red lips curled up slowly instead and she looked at the three Magic Beasts full of viciousness before her. Yun Feng patted her clothes casually.

Chapter 22: Make Do (2)

"I need to test my abilities anyway. Even though you're only level 5 Magic Beasts, I can barely make do with you."

"Roar..." An angry roar resounded around the outermost area of the Foggy Forest. All low-level Magic Beasts stayed in their nests and trembled. Even though the roar came from far away, it was enough to scare them. Apart from the place where Yun Feng was, there wasn't even one Magic Beast anymore in the outermost area of the Foggy Forest. They all went into hiding.

"Why isn't there even one Magic Beast? The Foggy Forest is nothing more than this!" An arrogant voice sounded. At the border of the Foggy Forest, several people slowly entered. A short teenage girl and a tall teenage boy were walking in the front, followed by three level-5 warriors behind them, who seemed to be their servants.

The teenage boy looked at the Foggy Forest silently and couldn't help but frown skeptically. Although Magic Beasts weren't usually seen everywhere in the Foggy Forest, it wouldn't be so weirdly quiet like today!

"Let's go a bit further." The teenage boy smiled slightly at the teenage girl. The girl pursed her lips with a reluctant look as she kept murmuring, "Hm, it's just a normal forest."

The boy didn't say anything else, but he looked much more alert. He gave a signal to the servants behind him with his eyes. The three level-5 warriors immediately understood and they all entered a heightened state of alert.

This weird silence was like the fake calm on the ocean. If they weren't careful enough, they would be crushed to pieces by a giant beast lurking under the ocean. The teenage boy felt a bit of a headache.

People in Chunfeng Town knew how dangerous the Foggy Forest was. There were Magic Beasts everywhere. However, this lady who visited Chunfeng Town wanted to come here, saying that she wanted to enrich her knowledge. The young boy only came with this capricious girl unwillingly under the pressure from his father.

However, the boy had already made a decision in his mind right now. Something must be happening inside the Foggy Forest. If they still didn't see any Magic Beasts as they went deeper, they should immediately evacuate!

If it wasn't for Yun Feng, people who entered the Foggy Forest like them would be able to encounter level-4 Magic Beasts. How would it look like there was no one here? There should be some tough battles when they swaggered into the Foggy Forest like this. Due to the burst of anger and fierceness when the three level-5 Magic Beasts gathered, all other Magic Beasts below level 5 could only stay in their nests and dared not move at all, which was why these people could walk inside so easily and why that girl said that this was just a normal forest.

At the border of the outermost area and central area of the Foggy Forest, the three level-5 Magic Beasts had already started attacking. In the middle of the fiery red eyes of the Fire Cloud Wolf of the peak level 5 was a black vertical line, making it look wicked and abnormal. After letting out a roar, it rushed towards Yun Feng with fierce heat waves surrounding its fiery red body, and its sharp claws with burning red elements hit Yun Feng's head!

Yun Feng's black eyes darkened and the muscles and cells inside her small body suddenly increased, pushing her body's energy and defensive power to the maximum. Looking at the sharp claws coming towards her, Yun Feng's body slightly moved to the side. She clenched a fist abruptly the moment the Fire Cloud Wolf came down and fiercely punched the front of the Fire Cloud Wolf's body with the power of a level-5 warrior.

"Roar!" The beast growled. The red light ball was knocked to the side messily by Yun Feng's fist, colliding with a tree trunk. The tree shook violently. "Crack!" As the Fire Cloud Wolf slowly slid down, the tree it hit cracked in the middle!

The body of the Fire Cloud Wolf fell on the ground in a mess. Its limbs and body were twitching slightly. Those red eyes were full of fear. It wanted to stand, but its body had just been punched. The punch broke through its elemental defense and directly hit its body!

The body of the Magic Beasts was much sturdier than that of humans. Not only because they could use their own elements to wrap their body to form a defensive shield, but also because Magic Beasts were originally much stronger. If it was a person that Yun Feng punched just then, that person would have already become meat sauce right now.

One was down after a punch!

The Purple Electric Leopard and the Gale Wolf were a bit dumbfounded when they saw how miserable the Fire Cloud Wolf was. The Fire Cloud Wolf was the most powerful one among the three beasts. It had reached the peak of level 5! However... it was knocked down by a little girl with a punch! This human was a warrior, but how would a warrior have such terrifying power?

Perhaps... She was an advanced-level warrior? Only advanced-level warriors could be so terrifying and strong. The Purple Electric Leopard and the Gale Wolf looked at each other and didn't know how to react to this guess. The little girl in front of them was so small. An advanced-level warrior? Even Magic Beasts like them weren't that insane, let alone the weak humans!

This little girl must have some secret ways to increase her strength in a short time. That must be it!

The two Magic Beasts were thinking to watch the Fire Cloud Wolf deal with the little girl. They had never thought that the Fire Cloud Wolf would be defeated by her with a single punch. The two Magic Beasts couldn't help but feel a little frustrated and the gaze when they looked at Yun Feng also became bloodthirsty!

"Looks like I'm still being underestimated." Yun Feng shook her head when she felt the energy of the two Magic Beasts, which was advancing instead of retreating. It seemed that beating the dog before the lion was useless. The two Magic Beasts still wanted to rush forward. If that was the case, she would just play with them.

Yun Feng smiled as she reached her hand forward. A ball of green elemental force gathered on her palm. The green wind element was unusually active and was ready to move. The two Magic Beasts immediately widened their beast eyes once they saw this. A... A mage!

Yun Feng waved her small hand gently. The wind element in her hand turned into an arrow and shot towards the two Magic Beasts. The Gale Wolf, which also belonged to the wind element, was thrilled. It was also a Magic Beast of the wind element, so the attacks of the wind element wouldn't cause too much harm to it. If this mage also practiced the wind element, she would become food in its tummy!

The Gale Wolf dodged slightly and the surface of its body was enveloped with the wind element. Its wolf eyes looked at Yun Feng in disdain and it immediately opened its mouth wide, flashing towards Yun Feng with an incomparable speed!

It was confident that the wind element could hardly cause any harm to it, so what did it have to be afraid of? Even the Fire Cloud Wolf couldn't take down the little girl. It looked like she was destined to die in its hands. Thinking that it might become the leader of the outermost area, there was more viciousness in the wolf's eyes!

Chapter 23: Battle

"Hm!" Yun Feng grunted. There was a glint of coldness in her black eyes as she watched the Gale Wolf pounced on her. When the Gale Wolf saw Yun Feng's gaze, its heart couldn't help but tremble. Should it... not rush forward?

Yun Feng reached her hand out and some active elemental force appeared on her palm again. The Gale Wolf immediately widened its eyes when it saw the pulsing elements. Its eyes looked like they were about to crack. Those... Those were red fire elements!

Yun Feng smiled slightly like a little devil, waiting for the arrogant prey to pounce on her. The fire elements on her hand sent out waves of heat. The fire element was brutal and had astonishing attacking

power. The Gale Wolf seemed to have foreseen what might happen to it. Its flashing body wanted to change the course. However, how would Yun Feng let it go?

The fire elements in her hand suddenly jumped up and turned into a giant beast head in a blink. The closed fiery eyes opened abruptly with rage and bloodthirst inside! The Gale Wolf wanted to escape, but it had nowhere to run anymore. The beast head made of fire, opened its mouth wide and swallowed the Gale Wolf's body. In a heartbeat, the Gale Wolf turned into a mass of ashes without even a chance to roar, leaving a green Magic Core on the ground.

In the blink of an eye, one of the three level-5 Magic Beasts was lying on the ground half-dead and another one had completely turned into ashes. Yun Feng looked up and stared at the totally frozen Purple Electric Leopard.

Once the Purple Electric Leopard saw Yun Feng's gaze, it immediately ran away without looking back at all. It escaped into the outermost area of the Foggy Forest like crazy. The heart of the Purple Electric Leopard trembled. If it continued to stay here, nothing else would happen to it, except for dying! That wasn't a human girl. She must be transformed from a human master. She must be! The Purple Electric Leopard ran for its life and disappeared in a blink.

Yun Feng couldn't help but laugh. It escaped once it knew it couldn't beat her, which was quite smart. She lowered her body and picked up the green Magic Core. Yun Feng took a look at it. A level-5 Magic Core should be able to be sold at a good price. Great. She put the Magic Core into the bracelet as she walked to the half-dead Fire Cloud Wolf slowly. At this moment, the Fire Cloud Wolf really wanted to be like the Purple Electric Leopard, but its body couldn't move even if it wanted to run.

The Fire Cloud Wolf lying on the ground right now was in despair and it also regretted being so reckless. If it knew this was how it would end, it wouldn't take the risk even if it might be punished by the Magic Beasts in the central area. There were many powerful Magic Beasts in the central area. Even if they let the little girl in, she wouldn't be able to get out alive. Ah, it was too late to regret it.

Yun Feng looked at the Fire Cloud Wolf quietly for a while, but didn't do anything in the end. She turned around and walked away. When Yun Feng disappeared into the central area of the Foggy Forest, the Fire Cloud Wolf felt a bit frustrated. Why did that human leave just like that? Based on how fierce she was back then, she should have killed it. The Fire Cloud Wolf couldn't think of a reason after pondering for a long time and it just lay there half-dead. Its wolf eyes were full of emotions of being a survivor. After being emotional for a while, a voice sounded. "It's a Magic Beast, a level-5 Fire Cloud Wolf!"

The Fire Cloud Wolf slightly lifted its head. When it saw someone coming, its face twitched uncontrollably. Fuck, why did it have such bad luck? One human left and a group came!

The ones talking were that teenage boy and the others who entered the Foggy Forest and a level-5 warrior responsible for finding a path was the one who exclaimed. When he saw a level-5 Fire Cloud Wolf on the ground, he subconsciously yelled in shock. The body of the level-5 warrior immediately tightened once he saw that the Fire Cloud Wolf was looking at him. The fighting spirit in his Qi meridians instantly gushed out and he was ready to fight anytime.

“A level-5 Fire Cloud Wolf! Where is it? Where is it?” The teenage girl shouted and came over immediately, pushing the servants that stood in her way. A fiery red Fire Cloud Wolf then showed up in front of everyone.

“That’s true! A Fire Cloud Wolf!” When the girl saw the Fire Cloud Wolf, she yelled loudly right away and seemed extremely excited. She wanted to go forward and take a look, but the young boy stopped her.

“Although the Fire Cloud Wolf is severely injured, I can’t guarantee it won’t attack us with its remaining energy.” The boy glanced over the Fire Cloud Wolf with a cautious look. If it wasn’t seriously injured, they would have already been attacked by it.

“Since it’s severely injured, I don’t think it’d do anything looking at its brain-dead look.” The girl pursed her lips in dissatisfaction, as if it was just a harmless animal lying before her instead of a level-5 Magic Beast. The girl was either too naive or too stupid.

The warrior servants and the young boy didn’t say anything after hearing what she said. This lady had never experienced anything and she had been living a pampered life. The possibility of Magic Beasts appearing in front of humans was always low. Other than Chunfeng Town, humans in the other places of the Karan Empire had miserably low chances of seeing a Magic Beast.

Now that the girl saw a real Magic Beast, it was understandable that she would be so curious. She pushed away the young boy’s hand which blocked her way. The teenage girl walked over with an indifferent look. The boy’s face couldn’t help but turn dark and he could only follow right behind her with the servants. If his father didn’t request him to do so, he would never wander around the forest with this arrogant and willful woman!

The girl walked to the Fire Cloud Wolf. She was in fact thrilled and scared in her mind. She had never seen a Magic Beast in her life. Apart from what her father asked her to do, there was one most important reason why she had to come to the Foggy Forest this time when she visited Chunfeng Town. She lived in a big city. Although she had seen Magic Beasts at some auctions, they were all some gentle breeds. She had never seen the Fire Cloud Wolf lying in front of her. She even thought that it would be awe-inspiring if the Fire Cloud Wolf could be her pet! The other young masters and young ladies would definitely be jealous of her.

The girl thought and had automatically planned to make this Fire Cloud Wolf her pet. She was giving a sweet smile, but in the eyes of the Fire Cloud Wolf, she was just a dumb and weak human. If it wasn’t that it was injured and didn’t bother to deal with her, she would have been smashed by its claws a long time ago.

“Fire Cloud Wolf, you’ll be my pet from now on!” The girl said loudly to the Fire Cloud Wolf. The others couldn’t help but wanted to laugh. That was a level-5 Fire Cloud Wolf. Who were you to make it your pet?

Once the Fire Cloud Wolf heard her, hostility surged out of its eyes. It might be a humiliation for a Magic Beast to be contracted with a human summoner, but they still had a bit of dignity left. However, if it was treated as a pet by a normal weak human, that would be the greatest humiliation of all time!

Magic Beasts could yield to human summoners, but for the others, how would they take these lowly, weak humans seriously?

Chapter 24: Attendant

Fire elements immediately surged out of the Fire Cloud Wolf's body and went towards the girl. Even though it was severely injured, it could still kill this ignorant human easily!

The girl had no idea that her arrogant declaration had made the Magic Beast feel deeply stripped of its dignity. She could make a level-1 Magic Beast her pet, but a level-5 Fire Cloud Wolf would never become a human's pet even if it had to die!

"Watch out!" The young boy and the few warrior servants shuddered with fear. The boy's body flashed and he dragged the girl backwards immediately, dodging the Fire Cloud Wolf's dangerous attack. There was a layer of cold sweat on the boy's forehead. Wasn't this girl too arrogant? If the Fire Cloud Wolf wasn't severely injured, they would have been running for their lives right now, let alone making it a pet!

The girl was startled by the sudden attack. After getting to safety, a strong resentment and rage surged in her heart. How dare the beast attack her! It was already its greatest honor to be her pet, but it dared to attack her!

Some humans were ignorant and complacent. They thought they were superior, but they had no idea that they were miserably weak in the eyes of the Magic Beasts. The Magic Beasts didn't even bother to care about the grace they offered.

Among all the humans, the Magic Beasts would only lay eyes on the summoners and nobody else.

"That beast attacked me! Then, I'll just kill you first! The Blade of Earth!" The girl pushed the boy's arms away and released the mental strength in her body. A ball of yellow elements immediately appeared in her hands. The girl was a mage and had even reached level 3!

The ball of earth element in her hands kept expanding. In the end, it smashed the injured Fire Cloud Wolf following a shout of the girl. When the earth element got closer to the Fire Cloud Wolf's body, it only felt sorrow in its mind. A level-5 Magic Beast died in the hands of a level-3 mage. If it wasn't injured by that little girl, how would it die here like... a loser?

The ball of earth element fell from the sky fiercely and it turned into a stone blade, stabbing deeply in the Fire Cloud Wolf's body. The Fire Cloud Wolf died just like that in the hands of the teenage girl. It could be said to be the most miserable one among the dead Magic Beasts.

"Hm, just an animal. It died in my hands after all!" The girl grunted in disdain and completely regarded herself as a master who could hunt a level-5 Fire Cloud Wolf. The others felt embarrassed for the girl's arrogance when they heard what she said. Let alone killing the Fire Cloud Wolf, if it wasn't severely injured, how would a level-3 mage like her be capable of hurting the Fire Cloud Wolf a bit?

"Clean up the animal. Let's go deeper!" The girl said. The young boy gave the servants a hand gesture with an upset look. The Magic Core of the Fire Cloud Wolf had been taken out. A level-5 Magic Core was worth quite a large amount of money.

Seeing the girl still want to keep going further, the young boy immediately said no without thinking about it.

“No? Why not? This Foggy Forest isn’t that special? Where are the powerful Magic Beasts? I don’t see any!”

The girl’s savage words made the young boy look not so good. Everyone in Chunfeng Town knew how dangerous it was deep inside the Foggy Forest. He didn’t want to risk his life for a willful, ignorant girl!

“If the Fire Cloud Wolf wasn’t injured by someone, we would have had to escape. There are countless Magic Beasts stronger than the Fire Cloud Wolf living deep inside the Foggy Forest. We can’t go in there!”

The girl was also a little shocked when she heard that. Seeing that the young boy’s face darkened, she knew that she was too willful and she no longer forced them to go further. However, she didn’t want to go back like that as well. The boy was frustrated. Since this was his father’s request, he could only continue wandering around the outermost area of the Foggy Forest with this lady.

When Yun Feng entered the central area of the Foggy Forest, she spread her mental strength and felt the obvious difference between the central area and the outermost area. Level-5 Magic Beasts, which were the ones with the highest level in the outermost area, were only at the bottom in here. Under the detection of Yun Feng’s mental strength, the lowest level of elemental force was level 5 and there weren’t many of them. A few were level 6 and she couldn’t detect the rest anymore.

Yun Feng was very cautious along the way. She sensed fewer elements, which meant that this place was dangerous. There were too many Magic Beasts with a higher level than she was. If they encountered each other, there was nothing she could do, except for running.

“Kid, what’s the highest level you detect right now?” The ancestor’s voice came. Yun Feng smiled gently and carefully identified the levels. She then replied, “Two level-6 elements, a fire element and an earth element.”

The ancestor nodded contentedly. Level 6, such a talent was enough to defeat everyone else. Even he in the past wouldn’t be able to catch up with her at all.

“Which one do you want to contract with, kid?”

Yun Feng smiled. She had already had an answer in her mind. A Magic Beast of the earth element had astonishing defensive power, but its speed and attacking power were too weak. Her body was comparable to that of a warrior. In the real battle earlier, even the Magic Beasts couldn’t cause her much harm. A Magic Beast of the earth element was in fact worthless to her. However, a Magic Beast of the fire element was different. Its violent attacking power was what Yun Feng needed. If that Fire Cloud Wolf back there wasn’t so careless that she could injure it seriously, she would have had to put in more effort to really fight with it.

After making her decision, Yun Feng mobilized the wind element and her body flashed like a shadow, speeding towards the direction of that fire element!

Not many humans would go into the central area of the Foggy Forest, since most Magic Beasts here were at level 5 to level 7. Magic Beasts were much more powerful than humans of the same level, which made humans feel greatly threatened. Even if a level-7 warrior met a level-6 Magic Beast here, he wouldn't be confident that he could kill it. If he encountered a level-7 Magic Beast, he had no other choice but to run.

Nobody would take the risk and be willing to become a meal in the belly of the Magic Beasts. So, apart from people who were obsessed with money, those, who could enter the central area through the outermost area, were either desperadoes that didn't care about life and death, or one other type of people, the summoners!

However, the summoners rarely showed up. The possibility was lower than one over ten thousand. There hadn't been any summoners on the East Continent in the last two centuries, so the Magic Beasts living in the Foggy Forest could be said to be the most pleased ones. Without the threat of the summoners, other humans were nothing at all. If some high-level people really came, a move from the few Magic Beasts deep inside the Foggy Forest would be enough to frighten them.

Chapter 25: Mutated Fire Cloud Wolf (1)

So, Magic Beasts in the central area of the Foggy Forest could live comfortably. They didn't have to worry about being hunted by humans like those low-level Magic Beasts in the outermost area. They could feel very safe here.

When a black shadow flashed through the dense forest and created rustling sounds in the leaves, some gentle Magic Beasts that were eating grass couldn't help but look up in shock. They looked around with a glint of fear in their big gentle eyes. What just went past? They couldn't see it clearly!

The few herbivorous Magic Beasts looked around alertly, then finally gave up eating and ran away. "Rustle." Sounds came from the trees again and the few herbivorous Magic Beasts had already disappeared.

The panic of the herbivorous Magic Beasts spread quietly in a short period of time. Many Magic Beasts had noticed that black shadow and there was a trace of fear in the hearts of the Magic Beasts, as they could smell that there wasn't any smell of a Magic Beast on that black shadow. If it wasn't a Magic Beast, then it must be a human! A human entered the central area of the Foggy Forest!

In a heartbeat, the sky above the central area of the Foggy Forest was covered by thunderclouds. What did it mean to have a human in the central area of the Foggy Forest? It meant that this human was either a powerhouse or a summoner! Thinking that there might be a summoner, all the Magic Beasts couldn't help but tremble. They didn't want to be contracted to a summoner. They didn't want to lose their freedom!

While the Magic Beasts in the Foggy Forest were all a little terrified, Yun Feng was flashing through the trees with a frustrated look. The wind element truly helped her move at a speed comparable to that of a gust of wind, but she still couldn't catch up with that fire-element Magic Beast with this speed. Even if she sped up with all her power, she could only maintain a constant distance with it. This made her

frustrated and excited at the same time. If she couldn't catch up with that Magic Beast, it meant that the beast was very impressive. A powerful Magic Beast was something Yun Feng needed!

Her body moved even faster and she turned into a black line that flashed through the greens, feeling the fire element constantly. Yun Feng dared not to slow down at all. Suddenly...

"Hm? It stopped?" Yun Feng felt that the fire element didn't move anymore and she was slightly confused. The ancestor's anxious words also made Yun Feng realize immediately that Magic Beasts weren't less intelligent than humans. Magic Beasts were even more cunning. Perhaps... She had been discovered!?

Thinking of this possibility, Yun Feng instantly restrained her mental strength, but still spread a little out to detect the position of the Magic Beast. She didn't move forward quickly anymore and couldn't make any sound. Now that the Magic Beast had already stopped and didn't seem like it was moving, what she could do right now was to sneak up on it!

She moved as lightly as a cat. Her body strengthened by the mysterious energy played a powerful role at this moment. Yun Feng found that her body was strong not only in a way that her energy was powerful, but more importantly, her control of the energy had already reached a meticulous level. For example, a warrior could break a giant rock with a punch, but could also hold a feather steadily, alternating between gentle and strong freely.

Yun Feng felt the subtlety of this energy now. Her body was unusually light and didn't even make a sound when she walked. This also made Yun Feng a bit relieved. The hearing of Magic Beasts was too sensitive. Even the sound of wind and grass was enough to alert them. When summoners wanted to contract with a Magic Beast of the same level, it was impossible for them to go head to head with it. The most effective way was a sneak attack!

Yun Feng slowly moved forward. She met a few gentle Magic Beasts eating grass on her way. The herbivorous Magic Beasts didn't notice Yun Feng at all. This made Yun Feng relieved. She walked slowly like that for a long distance and got closer and closer to the fire element.

Luckily, the fire-element Magic Beast really didn't move anymore, but just stayed right there.

Yun Feng soon felt the raging fluctuation of the fire element. She could identify the Magic Beast's location without using her mental strength. Feeling the rage of the fire element, Yun Feng felt extremely thrilled. This Magic Beast was very powerful!

"You have pretty good luck, kid... With such an elemental fluctuation, this Magic Beast should be the most powerful one at this level."

What the ancestor said delighted Yun Feng. If she wanted to contract with a Magic Beast, she definitely had to find the most powerful one, or the contract would be totally meaningless! In Yun Feng's heart, she didn't really want to replace the Magic Beast. Once she successfully contracted with one Magic Beast, that Magic Beast would belong to her after all. Even if the Magic Beasts didn't have any good impressions on humans, they would certainly develop feelings for each other after getting along for a long time.

Yun Feng slowly got closer. When she could finally see the Magic Beast clearly, she stopped and quietly hid somewhere behind the dense tall grass to observe it carefully.

If she wanted to make a sneak attack, she had to observe the Magic Beast carefully and find its weaknesses. Without adequate preparation, attacking it would undoubtedly be the same as committing suicide.

When the Magic Beast entered Yun Feng's eyes, she couldn't help but widen her eyes slightly. The Magic Beast in front of her had an entirely dark red wolf body. It was a Fire Cloud Wolf!

The Fire Cloud Wolves weren't a rare breed among the Magic Beasts. Due to the fierceness and small number of fire-element Magic Beasts, the Fire Cloud Wolves were still a bit special, but it wasn't rare. Even if there wasn't even one in a hundred Magic Beasts, there were dozens of them in a thousand. However, the Fire Cloud Wolf in front of Yun Feng was different from the ones she had seen before. She even fought directly with a Fire Cloud Wolf earlier. That fiery red body was bright and shiny as a fire. Yun Feng wouldn't remember it wrong. However, the one before her right now...

"Kid, this isn't a normal Fire Cloud Wolf. Your luck is truly extraordinary. This Mutated Fire Cloud Wolf is a very rare breed. There might not even be one out of ten thousand Fire Cloud Wolves."

Yun Feng was shocked. A Mutated Fire Cloud Wolf! She encountered a mutated Magic Beast! She was indeed extremely lucky!

There were also mutated breeds among Magic Beasts, but they were as rare as summoners in humans. It wasn't that a person would be able to become one whenever he wanted to. Mutated Magic Beasts were the same. The rarity and preciousness of mutated breeds made summoners fascinated. It would be a great achievement if a summoner could contract a mutated Magic Beast! Not only because of the power of the mutated Magic Beasts, but also because of their dignity and pride among the other Magic Beasts!

However, how would a mutated Magic Beast let a summoner put shackles on it so easily? Up till now, apart from several legendary, powerful summoners on the continent, no one else had ever contracted mutated Magic Beasts successfully.

Chapter 26: Mutated Fire Cloud Wolf (2)

The attacking power of mutated Magic Beasts was astonishing. The most obvious characteristic was that they didn't have only one type of elemental force but various! Normal Magic Beasts had the power of only one element and Fire Cloud Wolves belonged to the fire element. However, this one in front of Yun Feng was completely different!

Apart from the fiery red faintly mixed with some darkness, which made it look a little evil and heavy, the dark red wolf was also covered with astonishing fierceness and the temperature of its fire was three to four times higher than that of a normal Fire Cloud Wolf!

Yun Feng's heart shook slightly when she saw it. As a person who already had perfect control of the elemental forces, she had noticed that this Mutated Fire Cloud Wolf didn't only have the attribute of the fire element, but also the attribute of darkness!

Darkness, such a rare elemental attribute! The smile on the corners of Yun Feng's mouths kept expanding. She was happy with her luck. While she was thinking what she should do next, she suddenly felt a furry touch on her legs. Yun Feng's face changed abruptly. Something got close to her silently and she didn't notice it!

Yun Feng dared not to move her body. She immediately turned her head and looked behind her. When she saw the thing sticking on her legs, she was completely dumbfounded.

Yun Feng blinked a few times. That fluffy thing right next to her legs also blinked a few times. Yun Feng's eyebrows slightly moved several times. When exactly did this little thing start following her? And... how did it get so close to her?

Meanwhile, the furry thing standing next to Yun Feng's legs had a round body like a meatball. Its entirely white fur was soft and its fluffy tail twined around Yun Feng's ankle. When it noticed that Yun Feng saw it, its grape-sized eyes rolled a few times and its little nose also twitched slightly several times. Its small claws, which used to hide inside its meatball body, stretched out and moved a little, as if it was trying to please Yun Feng.

Yun Feng was a bit stunned. What was this... Why did this little thing appear suddenly under such a situation right now? Yun Feng couldn't move, because if she did, that Mutated Fire Cloud Wolf would certainly discover her. And if it discovered her, she would have a much lower chance of winning!

Yun Feng didn't know what to do. She knew that this little thing was harmless, so she just let it be. As long as it didn't affect her, letting such a little thing hang on her leg wouldn't hinder her much.

Thinking of this, Yun Feng didn't put her attention on this meatball anymore. She immediately started observing that Mutated Fire Cloud Wolf with all of her heart again. In the meantime, the Mutated Fire Cloud Wolf seemed to be focusing on something. If not, with its vigilance, it wouldn't possibly be so inattentive and relaxed that it couldn't even notice that someone was getting close to it.

Yun Feng waited patiently for a long time. She was waiting for the moment when the Fire Cloud Wolf relaxed. Even though the Fire Cloud Wolf didn't discover her, the fire elements around its body were moving abnormally, which showed that this Magic Beast was very vigilant about the surroundings.

Yun Feng gradually noticed that the Fire Cloud Wolf was looking somewhere at the root of the tree. Judging by the activity level of the fire elements on its body, it seemed that it was a little emotional. The fire elements were much more active than they were before. Perhaps... it was guarding something?

Yun Feng thought as she felt a heat wave coming towards her. The fire elements around the Fire Cloud Wolf's body suddenly surged in a blink! Yun Feng was startled. She thought the Fire Cloud Wolf discovered her. When she was about to retreat, she felt the thing hanging on her leg let go. With a flash before her eyes, a black shadow flashed out at an extremely high speed. Yun Feng was shocked. She then saw that it was that meatball!

Yun Feng wanted to grab that meatball back, but she surprisingly found that its speed was so high that she couldn't catch it at all. She only saw a black shadow flash through the air. The meatball was rushing straight towards the Fire Cloud Wolf!

Yun Feng was dumbfounded. She wanted to stop this change but couldn't. "Roar!" The Fire Cloud Wolf suddenly roared to the sky angrily. The dark red elemental force around its body immediately surged, as if something made it enraged.

Yun Feng knew that she couldn't stay here any longer at the moment. Although she didn't understand what was wrong with the meatball, she didn't have time to think about it. She merged the wind elements with her mental strength. Yun Feng's body then spun and she was about to leave, but something she couldn't imagine happened again!

"Swish..." A black dot flashed towards her fiercely. Yun Feng couldn't see clearly what it was. She blinked tight and that black dot had already arrived before her!

"Nana!" The meatball looked at Yun Feng with its grape-like eyes and let out sounds like "na." It was holding a crystal clear fruit with its little claws. The fruit was unusually red and Yun Feng could see clearly that it was full of strong and pure energy of the fire element!

"Nana!" The claws of the meatball moved forward. Its round body perched on Yun Feng's shoulder in a blink and it rubbed against Yun Feng's face with the white fur on its body. Yun Feng truly had no idea how to react. What was this little thing doing? Was it... pleasing her?

"Roar..." The furious roar of the Fire Cloud Wolf sounded. Yun Feng's face tightened and she instantly took dozens of steps back. She only felt a high-temperature heat wave coming right at her face. Then, she found that the spot she was standing at just then already had a dark red giant claw. Yun Feng avoided it with a narrow escape. When she lifted her head, she looked into the vicious eyes of the Fire Cloud Wolf!

Yun Feng was startled. Those eyes weren't flaming red, but black, pure black like ink!

The Fire Cloud Wolf saw that its claw didn't smash anyone. It slightly narrowed its black eyes. After feeling the fluctuation on Yun Feng, a trace of hideousness flashed through its pure black eyes.

"A summoner?" The Fire Cloud Wolf spoke the human language. Yun Feng was surprised. It turned out a Mutated Fire Cloud Wolf could already speak human languages at level 6. It even saw her identity as a summoner, so it was indeed powerful.

Summoners were probably the ones Magic Beasts hated the most. Yun Feng immediately felt the viciousness and anger on the Fire Cloud Wolf's body. She had the reason to believe that this Mutated Fire Cloud Wolf really wanted to kill her.

However... Yun Feng slightly smiled. The Fire Cloud Wolf was shocked. It had never thought that under its fierceness, this human could still smile so indifferently and didn't look frightened at all!

"Mutated Fire Cloud Wolf, you're mine." There was a confident smile on the corners of Yun Feng's mouth. Fighting was the only way for her to increase her power and give herself the most direct and substantial improvement. She wanted to contract it and make it the first Magic Beast that belonged to her!

Chapter 27: You Are Mine

“Human, you think you can do that?” Fire Cloud Wolf shouted at the sky furiously. The fire elements and darkness elements immediately burst out and enveloped the Fire Cloud Wolf’s body in a heartbeat.

The temperature in the space around it increased abruptly. The grass and trees seemed to be a bit overwhelmed by the high temperature and they started burning one another another.

“Human, go to Hell!” Its mouth opened wide. The sharp teeth inside glinted with pale light. In a blink, a few dark red fireballs at a high temperature shot out from the Fire Cloud Wolf’s mouth, like some powerful cannonballs. They flashed towards Yun Feng fiercely and exploded right where she was!

“Boom, boom, boom!” The sound from the explosion of the fireballs resounded around the entire forest. After the fireballs exploded, the heat wave quickly swept between the trees like the sound waves. “Crack, crack, crack!” In a blink, All the trees around Yun Feng and the Fire Cloud Wolf were bent and broken, and were then burnt by the fire. The green forest had turned into a bare land at this moment.

The Fire Cloud Wolf narrowed its eyes to see where Yun Feng was. It knew the power of its fireballs. Even if she was a powerhouse above level 7, she wouldn’t be able to resist its attack, not to mention that she was just a little girl!

The smell of smoke and burnt vegetation lingered for a long time. As the smoke became thinner and thinner, the Fire Cloud Wolf finally widened its narrowed eyes and incredulousness could be seen!

How... How was that possible?

Apart from scorched ground, nothing else was where Yun Feng had been. Even the trees around her didn’t survive. And yet, after the smoke gradually lifted, Yun Feng was still standing there and she had never moved a bit!

There was a layer of light blue shield covering Yun Feng’s body. The shield had faint ripples moving on it, and the fireball attack from the Fire Cloud Wolf was completely blocked by it. Right at that moment, the magic of the water element had been comprehended by Yun Feng!

The Fire Cloud Wolf looked at that transparent blue shield dumbfoundedly. The fierce, dark red fire around its body immediately weakened a little. A mage, a level-6 mage! How... How was that possible? How old was that little girl? A level-6 mage!

It was reasonable that the Fire Cloud Wolf was astonished. To humans or Magic Beasts, Yun Feng’s power was something unimaginable. She was a level-6 mage who was younger than ten. Now only that, her body was also as strong as that of a level-5 warrior. And not only that, she was even a summoner!

The Fire Cloud Wolf narrowed its black eyes again and it didn’t look at Yun Feng as arrogantly as it did before. The temperature of the dark red fire on its body rose slightly. The Fire Cloud Wolf was shocked. When did such a being appear among the humans?

“Human, tell me your name!”

A Magic Beast would only ask a human opponent’s name when it felt that the person was of the same level as it was, but such a situation was rare. Humans were weak in the eyes of Magic Beasts. How

would a powerful race care about the names of people from a weak race? However, powerhouses among humans were exceptions!

The beautiful girl smiled through the light blue shield. That smile carried incomparable arrogance! Her thin lips slightly opened and she spat out two words, "Yun Feng."

"Yun Feng..." The wolf eyes of the Fire Cloud Wolf shrank abruptly, as if it had remembered this name. It removed its claws, which were covered with fire, slowly from the scorched ground. The light blue shield in front of Yun Feng dared not relax at all. Even though Yun Feng was determined to win, she understood that the Fire Cloud Wolf before her was a mutated Magic Beast. They had just fought for a bit and the place where they were had completely changed.

A lush forest turned into a scorched land in a blink of an eye!

The meatball on Yun Feng's shoulder didn't seem to be afraid at all. Its soft body rubbed hard against her face. Yun Feng really didn't know if she should laugh or cry. She was fighting with a mutated Magic Beast right now and this meatball still looked so relaxed. They were both Magic Beasts, so maybe it wasn't scared of a mutated Magic Beast?

"Nana!" The meatball let out some sounds again. Yun Feng immediately looked nervous. She couldn't be distracted at this moment. She better put this meatball... aside.

Yun Feng had made a decision. She pulled the meatball, which was constantly rubbing against her cheeks, from her shoulder. With a thought, the Bracelet of Dimension appeared. Yun Feng casually threw the meatball inside the Bracelet of Dimension which then vanished.

The Fire Cloud Wolf and Yun Feng confronted each other for a while. Both of them kept thinking about the strength of the other party. The Fire Cloud Wolf twisted and turned in its mind. It was certain about the fact that this little girl in front of it was a level-6 mage, so it might be no match for her in terms of magic. If it wasn't carefully enough, it might truly become a Mage in chains that lost all its freedom. Thinking of this, the caution in the Fire Cloud Wolf's heart grew higher.

Summoners and mages were the same. They were all opponents with strong mental strength. Thinking of this, a glint of thought flashed through the eyes of the Fire Cloud Wolf. It might not be stronger than her in magic, but if they fought hand-to-hand, this little girl would lose under its hands, undoubtedly!

The mouth of the Fire Cloud Wolf slowly curled up. Yun Feng also smiled lightly. How would she not know what this mutated Magic Beast was thinking? Fighting hand-to-hand? Haha, if she were other summoners or mages, this might indeed be her weakness. However, when the method was applied to her, this Fire Cloud Wolf would be destined to be disappointed.

"Kid! If you want to contract with me, I'll give you the chance and play with you!"

A smile flashed through Yun Feng's mind when she heard this, but her face remained expressionless. Her light blue shield was still here. Facing a Magic Beast, she couldn't let down her guard at any time, unless she thought she had lived too long.

"Play with me? Sure! Tell me how we should play."

The Fire Cloud Wolf saw that Yun Feng didn't reject the offer and it knew the little girl had fallen into its trap. There was a touch of pride in its heart. "We're both not allowed to use magic. If you can withstand three attacks from me, I'll let you contract me. What do you think?"

Yun Feng smiled joyfully. This Fire Cloud Wolf seemed to think that everything was going as it planned. That was great. She could paralyze the enemy and make a final attack in the end. The effect would be even more unexpected!

"Alright, no problem."

Yun Feng's quick reply made the Fire Cloud Wolf extremely thrilled. It knew this little girl was a human with no experience in life at first glance. She didn't know that this was originally an unfair condition at all. However, the Fire Cloud Wolf was afraid that Yun Feng would regret. If the girl discovered its plan and they had to fight with magic, there wouldn't be a great chance that it would win.

Chapter 28: Contract, Mutated Fire Cloud Wolf (1)

"Kid, take down your shield and I'll take down my elemental force." The Fire Cloud Wolf first removed the elemental force that enveloped its body, but its body was still covered with dark red glitters after taking down the elemental force. The red and black fur was very shiny and charming.

"Okay." Yun Feng nodded and also took down the water element shield in front of her.

A human and a beast abandoned all their magic and were about to fight with their bodies in the most primitive way!

Once the Fire Cloud Wolf saw Yun Feng take down the light blue water element shield, a hint of darkness flashed deep in its eyes. The little girl was destined to pay a price for underestimating her enemy and for her stupidity as well!

"Wait!" The Fire Cloud Wolf, which was about to attack, was a bit shocked. It looked at Yun Feng. Yun Feng said slowly, "Please remember, if I withstand three attacks from you, you'll have to contract with me voluntarily."

Hearing what she said, the Fire Cloud Wolf felt a bit strange in its mind, but after a second thought, this little girl before it was a mage. With that weak body, a mage would be killed under its claws after one attack, let alone three. By then, it would be able to smack the little girl to death and this condition would certainly not stand anymore.

"I'll keep my promise!" The Fire Cloud Wolf said as it tightened its back legs. Its strong muscles immediately bulged, and filled the beast's body with wild power! "Kid, take this!"

A gust of wind blew in front of Yun Feng. She only felt a heat wave coming towards her, but she couldn't open her eyes. When she could see clearly, sharp claws with glitters of coldness were already pouncing on her!

The body of the Fire Cloud Wolf jumped from its original spot like an arrow and sped towards Yun Feng fiercely, like a flash of light. Following a howl, its five sharp claws appeared in the air with glints of coldness!

Kid, go to Hell!

The sharp claws of the Fire Cloud Wolf smacked down with fierce power. It looked at Yun Feng with a hint of pity in its eyes. This little girl was destined to become meat sauce under its claws!

Yun Feng's black eyes darkened slightly. She didn't move her body or dodge. She stood right there to face the attack like she wasn't scared of death at all. The fire in the heart of the Fire Cloud Wolf burnt more fiercely when it saw this. What an arrogant human. She thought that she could withstand this attack with her own body. Since she couldn't wait to die, it would make her dream come true!

"Bang!" A muffled noise exploded in the air. The claws of the Fire Cloud Wolf had already smacked down and Yun Feng's body was pressed into the ground by the fierce force!

"Poof!" Blood sprayed out of Yun Feng's mouth and splashed onto the scorched ground. The dots of dark red blood were eye-catching.

Meanwhile, Yun Feng's black eyes were full of stubbornness and persistence. Her body shook vigorously and her organs almost shattered. A level-6 mutated Magic Beast was indeed something. If her body wasn't transformed by that mysterious power which made it unusually strong, she would have become mashed meat after this attack, even if she was a level-6 warrior!

"Kid, how are you feeling?" The ancestor's caring voice came. Yun Feng reluctantly twitched the corners of her mouth. How was she feeling? She only felt like her body was about to crack. She could barely take the first attack from the Fire Cloud Wolf, but there were two to go. It looked like she had overestimated her power.

Even so, Yun Feng wasn't planning to give up. She was determined to get this Mutated Fire Cloud Wolf!

The black jade pendant around Yun Feng's neck suddenly released dots of light. When Yun Feng thought that her body was overwhelmed, she felt that the mysterious energy went into her body again, as if it was the most powerful potion that healed all the injuries on her body caused by the attack!

Yun Feng was thrilled and her confidence rose a hundred times. Her black eyes even carried a smile. When the Fire Cloud Wolf saw that its attack didn't hurt her a bit, it couldn't help but become enraged. This kid was indeed a little strange. Its attack didn't injure her at all! There was no need to rush. Two attacks to go. It could definitely finish her!

Without giving Yun Feng any time to take a breather the Fire Cloud Wolf attacked from the side. Yun Feng's body flashed. The completely healed body moved at a high speed and she blocked the Fire Cloud Wolf's sharp claw when it was about to touch her body.

After the second attack, she still wasn't injured!

The wolf eyes of the Fire Cloud Wolf widened immediately and its pupils narrowed. Its eyes carried a sense of viciousness. Apparently, this Mutated Fire Cloud Wolf felt greatly stripped of its dignity since Yun Feng wasn't harmed at all.

"Still one more attack. Please proceed." Yun Feng smiled lightly. With the strong healing power the black jade pendant gave her, she wouldn't be worried at all even if she had to fight with it for a whole day, not to mention three attacks! This battle, she, must win!

Yun Feng had truly gone through something very unusual. If it weren't for her transformed body, if it weren't for that black jade pendant, she would probably have been smacked to death by this Mutated Fire Cloud Wolf.

"Roar!" The completely furious Fire Cloud Wolf roared to the sky. Its dark red tail swept fiercely, creating gusts of wind. This swept the dust on the ground up into the sky. Yun Feng's sight immediately became blurred and she lost her vision, but her other senses were still clear. Yun Feng gently stepped forward with her toes and her body danced in the wind nimbly like the sand flying in the air. Once the Fire Cloud Wolf saw her avoid the third attack easily, its heart sank and it immediately knew that it caught a Tartar¹.

It narrowed its eyes slightly. In the end, it pressed into its back legs and turned into a beam of dark red light, flashing forward! What a joke. It wouldn't give its own freedom away for that ridiculous condition and be contracted by a human. No way!

Yun Feng looked at that beam of light as the corners of her mouth curled up and she sneered. It wanted to run? The wind elements immediately merged with Yun Feng's mental strength and her body also rushed out of the sand fog, chasing after the flash of light!

The Fire Cloud Wolf kept running. It was so fast that its body almost couldn't be seen. It ran as it felt astonished at the same time. Who exactly was that little girl? How could a mage have such a strong body? It was a pie in the sky! She was a freak!

Feeling the energy chasing behind it, the Fire Cloud Wolf's body froze and its limbs that were about to speed up again gradually became slow. "Roar!" It roared with reluctance to admit defeat. The Fire Cloud Wolf only saw a dazzling light slowly emit from below it and some powerful mental strength gushed out from an array with complicated patterns, enveloping the Fire Cloud Wolf's entire body tightly preventing it from moving at all!

Chapter 29: Contract, Mutated Fire Cloud Wolf (2)

Yun Feng stood aside quietly and watched the Fire Cloud Wolf being trapped by her Array of Contract. The corners of her mouth finally lifted. She yelled with a low voice, "Array of Contract, open!"

Beams of light shot in all directions! Terrifying mental strength gushed out and swept the Foggy Forest like huge waves. In a blink, all the high-level Magic Beasts lifted their heads in fear and looked in one direction with glitters of astonishment and panic in their eyes!

In the deepest place of the Foggy Forest, an old man sitting cross-legged on the ground like a stone statue slowly opened his eyes. He looked at a direction in the Foggy Forest with a glint of confusion in those eyes that were full of vicissitudes of life and wisdom. The old man slowly stood up. "A summoner..."

"Sir, you..." A brawny middle-aged man suddenly rushed over. When he saw that the old man was focusing and staring at a distant place, his throat couldn't help but tighten and he couldn't even say a word.

A hint of interest flashed through the old man's sentimental eyes. In the end, his body swayed gently under the middle-aged man's stunned gaze and he immediately vanished like air.

"Sir, sir!" The middle-aged instantly looked terrified when he saw this and yelled anxiously. He was about to move and chase after the old man, but an old voice came.

"It's alright. I'll have a look."

The body of the middle-aged man froze abruptly and he didn't move anymore for a while. He only bowed deeply to the air with a respectful and fearful look. "Okay, sir. Goodbye."

Meanwhile, Yun Feng had no idea that her contracting had caused a panic in the Foggy Forest and had also stirred someone deep in the forest. The five-color Array of Contract in front of Yun Feng was spinning with beams of light and colors, shining with five dazzling lights.

"Five colors? This kid is pretty impressive..." A voice sounded right above the space where Yun Feng was, but Yun Feng didn't hear it and didn't notice that someone appeared above her head studying her Array of Contract with interest.

"Fire Contract, appear!" As Yun Feng yelled with a low voice, four colors in the five-color Array of Contract gradually disappeared. Red fire energy filled the Array of Contract and the Fire Cloud Wolf in the center of the array was like a trapped beast. The flame-like red fire elements surrounded its body, as if they were an invisible net that blocked all of its exits.

"Roar! Roar!" Although the Fire Cloud Wolf, which was unwilling to surrender, was enveloped by the fire elements, it still didn't give up. It couldn't resign itself to being chained up by a human! It was a mutated Magic Beast. How could it just give into it? This damn human!

Watching the Fire Cloud Wolf struggle in the array, Yun Feng sneered. She had a deal with it. If she withstood three attacks from it, it would volunteer to be contracted. She had never thought this thing would run away!

Since the gentle way didn't work, she would do it the hard way!

Yun Feng waved her hand fiercely. Some red chains then burst out of the five corners of the Array of Contract, flashing towards the Fire Cloud Wolf in the center of the array like fire dragons.

"Aowooo!" Following a wail, the Fire Cloud Wolf was surrounded by five fiery red chains. Its body couldn't help it as well and it was pressed on the ground. Even if it had some strong powers, it wouldn't be able to escape its fate of being contracted, unless someone obstructed the process.

The old man watching in the air was very interested. Yun Feng's five-color Array of Contract was one of the things that astonished him, but what was more shocking was that he smelled a familiar energy on this kid.

Lights burst out of the old man's sentimental eyes, sweeping Yun Feng's body up and down. His eyes carried a sense of excitement. In the end, he started chuckling.

"Kid, you seem to have a very powerful fortune. This is truly surprising..." The old man whispered as he looked at the kid who was only nine years old. He couldn't help but feel a little shocked. Thinking of that familiar energy, the interest in the eyes of the old man became deeper, even with a hint of ridicule.

The Fire Cloud Wolf in the Array of Contract had already been pressed onto the ground by the red chains. This powerful mutated breed among the Magic Beasts also seemed a little messy at the moment. Yun Feng looked at those shameful black eyes of the Fire Cloud Wolf coldly. She focused and closed her eyes, as if she was communicating with the Fire Cloud Wolf's consciousness.

"I'm drawing up a contract. From now on, you'll be my beast. Contract!" Yun Feng murmured at the bottom of her heart as she opened her black eyes. A glint of red light flashed through her black eyes like a fiery red shooting star.

There were two kinds of contracts, the master-servant contract and the equality contract. Yun Feng chose the former one. Originally, Yun Feng didn't plan to choose the first one, as humans and Magic Beasts were all equal in her mind. And yet, after fighting with the Fire Cloud Wolf, Yun Feng found that some Magic Beasts couldn't be treated with an equal identity. When both parties were equally treated, it was only because the strong pitied the weak. Only a strong person was qualified to do so and she didn't have such a qualification right now.

Besides, the Mutated Fire Cloud Wolf was a mutated Magic Beast, which should be in the most outstanding group among the fire-element Magic Beasts. There would rarely be Magic Beasts that could surpass it, so it wouldn't be necessary for Yun Feng to replace it so the master-servant contract was the best choice for Yun Feng.

As the final step of contracting was completed, the original vicious and unbending energy of the Fire Cloud Wolf slowly became gentle. The resentment in those black eyes also dissipated gradually. A plume of fire energy slowly flowed out of the Fire Cloud Wolf's body, coming towards Yun Feng with a hint of darkness.

Once the fire energy mixed with some darkness touched Yun Feng's finger, it immediately twined around the finger and formed a ring. The red ring had a hint of faint black and it was firmly put on Yun Feng's finger.

"This is..." Yun Feng looked at the ring on her hand. The Array of Contract slowly disappeared. And as the chains also disappeared, the Fire Cloud Wolf stood up from the ground and walked to Yun Feng obediently. "Master."

The contracted Fire Cloud Wolf didn't lose its original intelligence. It just didn't have the thought of disobeying Yun Feng. This was the mandatory function of the master-servant contract. The Magic Beast would obey the summoner's orders completely. Even if the summoner asked it to kill itself, it wouldn't have any doubt.

Yun Feng nodded. Her gaze was still focusing on the ring on her finger. There were six flame marks engraved on the surface of the ring. "Kid, this is the Ring of Contract." The ancestor's joyful words sounded.

"The Ring of Contract?" Yun Feng was shocked. There was even a ring after contracting a Magic Beast?

Chapter 30: The Ring of Contract

“The Ring of Contract is a symbol for summoners. Only summoners can have the Ring of Contract! Once you successfully enter a contract with a Magic Beast, the Ring of Contract will be formed. The color and appearance of the ring are determined based on the element type the Magic Beast belongs to. The Ring of Contract is also a medium for summoners to summon their Magic Beasts and the Magic Beasts usually live inside the Ring of Contract.”

Yun Feng nodded and carefully digested the ancestor’s words. The Ring of Contract was like an identity. People who had a Ring of Contract were undoubtedly summoners. Looking at the ring on her hand, Yun Feng made a decision in her mind.

“Fire Cloud Wolf, I’ll call you Little Fire from now on. That’s it for now. Take a rest first.”

“Yes, Master.”

The body of the Fire Cloud Wolf flashed and it turned into a beam of flaming red light, disappearing in Yun Feng’s Ring of Contract. After the Fire Cloud Wolf got inside, Yun Feng surprisingly pulled the ring off her finger and casually threw it into the bracelet! The ancestor was shocked by this move and the eyes of the old man who had been watching her in the air also popped out.

“What an interesting kid...” The old man mumbled. Watching Yun Feng, he only felt that this child was truly interesting. She put the Ring of Contract away. No summoners had ever done this throughout history. Being able to become a summoner was something that made people crazy. Nobody had ever thought about hiding their identity like this, except for Yun Feng!

Facing the ancestor’s surprised look, Yun Feng smiled. She certainly had considered it and didn’t do such a move randomly. The identity of a summoner was indeed superior, but she didn’t want everyone to know about it right now. She was too weak at the moment. Although she already had very few rivals among her peers after reaching level 6 at this age, when facing those real powerhouses, she was a weak being who could be smacked to death with a single slap!

The Yun family had once been glorious, but Yun Feng had no idea how much danger was hidden under the glory. However, it didn’t mean that she was ignorant. The Yun family suffered from an unprecedented blow after they declined. They moved back to Chunfeng Town from the Imperial Capital, which showed how many enemies they had. When they were glorious, the enemies wouldn’t be foolish enough to face them, but once they declined, those vile faces all appeared.

She had to carry heavy responsibilities along her journey. She must bring the Yun family back to the peak again, or even higher than before. However, this was under the premise that she survived, so she had the life and time to grow sufficiently!

An eaglet wasn’t terrifying. What was terrifying was a grown male eagle! Yun Feng had no idea what many disasters it would cause if her strength was exposed, but she did know that it was best for her to lay low at the moment.

The identity of a summoner was her biggest trump card. The later she used this trump card, the better. Perhaps when she encountered some truly powerful enemies, she would also be able to catch them off guard!

The trip to the Foggy Forest ended perfectly. The corners of Yun Feng's mouth also curled up slightly into a smile. She flashed away and disappeared, speeding towards the outermost area of the Foggy Forest.

After Yun Feng left, the old man in the air slowly appeared. He looked at the direction where Yun Feng left with his eyes that were full of vicissitudes of life, then a smile flashed through. "The East Continent is about to be lively..."

In the outermost area of the Foggy Forest, the crazily running Purple Electric Leopard stopped a bit messily and kept panting. It huddled on a giant tree, still feeling a bit frightened.

Three level-5 Magic Beasts, one was dead and one was injured in a blink. The Purple Electric Leopard was a bit terrified just thinking about it. If it escaped one step slower, it wouldn't have ended up any better than the Gale Wolf!

Thinking of the miserable look of the Gale Wolf when it was swallowed by that fire beast, nothing was left, not even a hair! Only the Magic Core!

The Purple Electric Leopard shivered. It only felt like it was truly unlucky and lucky at the same time. There were only three level-5 Magic Beasts in the outermost area of the Foggy Forest. The others were all under them. And now, one of them died and one was injured. Only the Purple Electric Leopard was safe. Thinking of the half-dead Fire Cloud Wolf, Purple Electric Leopard was thrilled. It looked like it was going to become the boss of the outermost area of the Foggy Forest!

In this regard, the Purple Electric Leopard should thank Yun Feng. It was already difficult for the Purple Electric Leopard to catch up with the Fire Cloud Wolf, which had reached the peak of level 5. If Yun Feng didn't attack then, the Purple Electric Leopard might never be able to become the leader of the outermost area of the Foggy Forest its entire life.

While the Purple Electric Leopard was feeling emotional for surviving a disaster and feeling happy for becoming the leader, it suddenly narrowed its eyes. The sound of grass moving came from a few hundred meters away. The Purple Electric Leopard lightly jumped down from the giant tree with its soft paws, making no noise when it landed on the ground. A hint of viciousness flashed through its eyes. It was a group of humans!

The Purple Electric Leopard already felt upset losing to Yun Feng today. It was also embarrassed and angry after being scared away by a human. Now that a group of humans suddenly appeared in front of its muzzle, its Magic Beast's bloodthirsty character rolled out and its desire for killing surged.

Among this group of humans, the strongest one was only at mid-level 5. They couldn't pose any threat to the Purple Electric Leopard at all. A Magic Beast was much more powerful than humans of the same level. Unless the humans had higher levels, they wouldn't have the power to fight back at all.

Weak humans, you're right about time! I'll vent my anger on you!

"What? There are only some level-1 or level-2 Magic Beasts. How boring!" The girl's complaint sounded in the forest. The eyebrows of the young boy walking next to her pulsed several times and he remained silent, while the few servants smiled wryly and had no idea how they should explain to this Young Lady. The Foggy Forest was truly fucking weird today!

The Magic Beasts seemed to have become cowards. They only saw a few low-level Magic Beasts along the way. Apart from that severely injured Fire Cloud Wolf, those usual level-3 and level-4 Magic Beasts couldn't be seen at all!

"Master, let's go back." One of the servants felt something wrong. All the Magic Beasts seemed to have disappeared all of a sudden. The entire outermost area of the Foggy Forest was weirdly quiet. This was definitely not a normal situation!

The young boy frowned. He had been really vigilant along the way and he felt that there was something wrong with the Foggy Forest today. After hearing what the servant said, the young boy also nodded and said to the bored girl, "We should get back. The condition of the Foggy Forest is a bit abnormal. It's usually not that quiet and there are normally not that little Magic Beasts..."

"What? Go back? I came all the way here thinking I can have a look at the mysterious and dangerous Foggy Forest people talk about. It turns out it's just a normal forest. What kind of shit is this? I came here for nothing!" The girl lost her temper and the others could only smile. They really had no idea what to say. The most important thing right now was to take her out of there.
