

## Summoner 211

### Chapter 211: Going Home (4)

"Feng, you're back." Yun Jing moved his body and slowly got up. Yun Feng smiled as she rushed forward abruptly, running into the arms of her extremely awkward father. She put her arms around his wide chest and her entire body snuggled into this absolutely warm and safe harbor.

Even though she wasn't the real Yun Feng, she had become Yun Feng and this was her father, her serious, rigid father who always thought about her!

Yun Jing's body trembled abruptly and froze right there, as he felt his daughter run into his arms. Yun Feng buried her little face in her father's wide chest and whispered, "Father, I'm home."

A smile slowly appeared on Yun Jing's rigid and serious face. Yun Feng didn't see it. She only felt that her father was caressing her hair slowly with his huge hands with extreme warmth.

When the old butler outside the door saw such a warm scene, tears welled up in his eyes and he carefully closed the door to give the father and daughter some space. Once the old butler turned around, a servant ran over quickly and whispered in the old butler's ears. The old butler frowned slightly. Even though he didn't want to interrupt the sweet moment of the father and daughter, there was nothing he could do.

"Master, members of the Murong family are here."

Yun Jing's body froze slightly and Yun Feng was also a bit furious. Such a rare moment of warmth was interrupted by someone just like that... Yun Feng moved her body away from her sullen father's chest and saw that her father's expressions didn't look quite good.

"Again?" Yun Jing mumbled softly, while Yun Feng frowned. She thought the Murong family was just here to try their luck this time. She didn't expect that this wasn't the first time already? Thinking of how she embarrassed the Murong family in Ge Yuan last time, Yun Feng also understood that the Murong family still didn't seem to have given up. A disdainful smile appeared on Yun Feng's lips. Didn't the Murong family say that they didn't want anything to do with the Yun family at first? Great, they wanted to be thick-skinned and eat their words now?

"Father, since they're already here, it'll be our problem if we refuse to meet them. Let's see what they want." Yun Feng said softly. Yun Jing looked at his fully grown daughter deeply. What else did they want? They definitely wanted to bring the cancelled marriage arrangement back to life!

When Yun Jing was about to speak, the butler's voice came again. "Master, members of the Mei family are also here, waiting outside the door."

Yun Jing and Yun Feng were both shocked after hearing that. Alright, it was fine that one family was here, but now, two families came together for the fun. Yun Feng didn't have any good impression of the Mei family either. During the Yun family's most difficult time, the Mei family had always acted like they were moral and neutral. And now, it would be too thick-skinned of them if they wanted to climb onto this tree of the Yun family.

After hearing this, Yun Feng chuckled softly. "Father, just let the two families wait outside for a while." Yun Jing frowned slightly. "It's not so good."

Yun Feng smiled as she grabbed her father's arm and shook it affectionately. "We're finally reunited with each other. Father, don't you miss me?"

Hearing this, a hint of embarrassment flashed through Yun Jing's old face. He wasn't really good at being tender. He replied with a "hm" and froze there, not knowing what to say.

When Yun Feng saw this awkward, sullen father, her heart was filled with warmth. Her father must have missed her in these three years. Compared to her big brother who went to study at Masang School of Magic, she, who went out to experience alone, should be the one her father missed the most. Yun Feng also started talking to Yun Jing about some things she had gone through over the last three years. As Yun Jing listened, he forgot about the two families waiting outside the door.

The courtyard of the Yun family was very small, countless times smaller than the one in the Mei family, the large family in Chunfeng Town. However, the most important economic lifeline in Chunfeng Town was in the hands of the Yun family. The more money they had, the more capable people who came to work for them. They didn't come for anything else, but for the Young Lady of the Yun family, who rose to fame in the Mercenary Union.

Most people who worked for the Yun family wanted to meet Yun Feng. That mage, who had already become a legend in the Mercenary Union, made the Yun family shine even brighter and more glorious.

Meanwhile, there were four people, two groups with two people each, outside the door of the Yun family. They were looking at each other with a slightly unfriendly gaze of deep exploration. The members of the Mei family who came here were their leader, Mei Ran, and the talented young man they were most proud of, Mei Bing. And those who came from the Murong family included their leader Murong Shuli and his eldest son, Murong Yuntian's father, Murong Ze.

"I never thought the leader of the Murong family would come visit in person. Haha, what a pleasure to meet you." Mei Ran looked at Murong Shuli with a smile and said very peacefully. Murong Shuli also gave a slightly stiff smile, looking very uncomfortable.

After losing the Evil Wolf Mercenary Group, the Murong family's business suffered a drastic decline and their status in Park City also kept falling. In the past, the Murong family was one of the top families in Park City, but now, they couldn't even speak in Park City. They thought they could establish a relationship with the sleeper, the Red Maple Mercenary Team in the Mercenary Union, but who would have thought that the real leader of the Red Maple Mercenary Team was Yun Feng?

After that, someone, who had a misbehaving mouth, dug out the marriage arrangement between the Murong family and the Yun family. Everybody in Park City knew about it right now. Some people even said that the Murong family took the initiative to cancel the engagement. This behavior was ridiculed by countless people. Everyone in Chunfeng Town also knew that this wasn't the first time the Murong family came here. They visited the Yun family to make their relationship better and see if they could establish a marriage arrangement again. However, they had never thought that Yun Jing would be so stubborn. The Murong family still hadn't succeeded after coming a few times. So this time, the leader of the Murong family came in person.

“Haha, why is the Mei family here this time?” Murong Shuli glanced at Mei Bing behind Mei Ran. Mei Bing had already grown into a handsome young man over the last three years and his facial features carried an energetic temperament, which made people feel delighted. In these three years, his strength had also increased. At eighteen years old right now, he had already reached the level of a level-6 warrior.

“What else can we do here? The Mei family is here at the Yun family for the same purpose as the Murong family.” Mei Ran glanced at the two members of the Murong family with disdain in his mind. The Murong family did this to themselves, and now they wanted to turn the tides. How would it be so easy?

Murong Shuli and Murong Ze both couldn’t help turning pale. Even though Mei Ran didn’t say anything, he also said everything. Murong Shuli couldn’t keep a straight face. He glanced at Mei Bing. “Hm, how can this kid compare to Yuntian?”

Mei Bing’s face flushed. He certainly knew what kind of a figure Murong Yuntian was. After all, he had entered the School of God of War. Murong Yuntian was one of the top students in the School of God of War and Mei Bing knew he couldn’t compare to him, but he couldn’t be ridiculed like that either!

“Hm, even if Murong Yuntian is outstanding, so what? This bridge is already broken. Do you still want to cross the river?” Mei Ran looked cold and his tone no longer sounded polite.

“Whether you can cross the river depends on your ability! If you’re not capable enough, even a bridge can’t help you.” Murong Ze said softly, while the faces of Mei Ran and Mei Bing darkened. Mei Ran also had regret for the Mei family’s neutrality. If he had known what the Yun family would become today, he wouldn’t have stayed neutral. He could directly climb onto this tree!

They kept being cautious, and in the end, they were the ones who were trapped.

“As you said, whether we can cross the river depends on our ability.” Mei Ran said coldly and ignored the Murong family. The Murong family also gave a cold smile and stopped looking at the members of the Mei family.

Among the four people from the two families, two of them were old men who had experienced countless things, one was a middle-aged man who was already a father and had a meticulous mind, and one was an eighteen-year-old adult with quite a mature mind. At this moment, they were all standing in front of the door of the Yun family, looking at each other childishly and unpleasantly like kids that were throwing a tantrum.

At this moment, the door opened. The old butler showed up at the entrance with a smile as the four people all gazed at him. “Sorry for keeping you waiting... Master asked me to invite you in. Master Murong, please,” the old butler said.

The entrance of the Yun family wasn’t huge. It was a space that could only fit one person and a half. The faces of the two members of the Mei family darkened after hearing this, while the two people from the Murong family entered with their heads held high like roosters.

“Thank you, butler.” Murong Shuli and Murong Ze bowed to the butler while cupping their hands in the other, then glared at the two members of the Mei family and finally entered with a smile. “Master Mei, please.” The butler also smiled gently at Mei Ran. Mei Ran replied with a “hm” and walked in with an upset look. Mei Bing was a young man after all and was thin-skinned. Such an obvious difference in their treatment made him a bit overwhelmed.

“Grandpa, let’s go home!” Mei Bing walked behind Mei Ran and whispered. He didn’t have any special feelings for Yun Feng. This girl’s talent surprised him and left him in awe three years ago, but admiring her was one thing. The obvious difference in treatment from the Yun family pissed him off a little. The Murong family didn’t want the Yun family, but the Yun family still treated them like this. This was really...

“Xiao Bing, calm down!” Mei Ran said softly. A hint of repressed anger flashed through Mei Bing’s face and he didn’t say a word anymore. The four of them followed the butler and walked to the main hall of the Yun family. Once they got in, they all exclaimed in surprise at the same time. The teenage girl standing next to Yun Jing was Yun Feng! She was back!

The reason why the Murong family and the Mei family came to the Yun family so many times was because they couldn’t admit defeat, and most importantly, they wanted to meet Yun Feng. If they could see Yun Feng, it was worth it even if they had to come so many times!

Yun Feng glanced over the four of them with her black eyes and directly walked forward, smiling at one of them. “Mei Bing, it’s been a while. How are you?”

The two members of the Murong family immediately turned pale like they had eaten mud. Yun Feng’s greeting made Mei Ran’s face brighten up in an instant. This was truly the so-called turning of the tides. Seeing the expressions of 70% annoyance and 30% frustration of the members of the Murong family, Mei Ran was thrilled from the bottom of his heart.

Mei Bing looked at the teenage girl, who had apparently grown up, in front of him a bit dumbfoundedly and he immediately felt short of breath. Three years ago, she still looked like a little girl. Although her face at that time was already beautiful, it wasn’t comparable to her face now. It had just been three years and she had completely changed...

“Yun... Yun Feng...” Mei Bing said as he gazed around Yun Feng’s body. She was just twelve years old at the moment? But her appearance right now was already as mature as how he looked. That face was even so pretty that he spaced out. In just three years, a young, innocent little girl had turned into a perfect swan!

“Haha, I can’t believe Yun Feng and Xiao Bing are friends.” Mei Ran burst into laughter and looked at the two young people happily, as he glanced at the two members of the Murong family complacently. As expected, he saw the dim and embarrassed faces of the members of the Murong family.

“I’m flattered, Master Mei. We’re just acquaintances.” Yun Feng smiled lightly as she looked at Mei Ran. Mei Ran’s smiley face immediately froze and the two members of the Murong family were full of enthusiasm again at this moment.

“You’re only acquaintances. I see. Yun Feng and Yuntian aren’t just acquaintances.” Murong Ze smiled and said. He glanced at Mei Ran and saw the embarrassment on his face.

Yun Jing remained silent. He knew clearly what the four people in front of him were thinking about in their minds. These two families wanted to take his daughter, but they weren't qualified enough!

"Master Murong, what you said is quite interesting. They're indeed not acquaintances. The Murong family and the Yun family really have no relation at all right now." Mei Ran said with a smile. Apparently, he wanted to embarrass the Murong family. Murong Shuli immediately pulled a long face. He was the one who led to such an awkward relationship between the Murong family and the Yun family. If he didn't send Murong Ran here to cancel the engagement back then, this wouldn't have come to such a situation. If he didn't cancel the marriage arrangement, Yun Feng would still be his granddaughter-in-law at this moment... And the Red Maple Mercenary Team would be in his hands... Ah! It was already useless to regret it now.

"Masters, why are you here?" Yun Jing interrupted the argument between the two families and looked at the four people who had evil intentions. Yun Jing's serious and rigid face made the members of the two families unable to make any flattering remarks.

"Nothing, we only came by for a visit." Mei Ran smiled and said. Since they were all in Chunfeng Town, it was reasonable for them to come for a visit, but it was interesting that he was bringing Mei Bing here as well.

### **Chapter 213: You're Looking for Trouble (2)**

Murong Shuli scolded in his mind, "Shameless! Bah! Here for a visit? Why don't you look at yourself, the Mei family? You want to establish a connection with the Yun family? Even Mei Bing isn't qualified."

"Haha, Master Yun, we're just here for a visit this time." Murong Shuli smiled as he cupped his hand in the other. Murong Ze next to him also said with a smile, "Yun Jing, we're similar in age. I must learn from you more. You have such an outstanding daughter."

Yun Jing smiled. Even though he knew it was just a flattering remark, he was still very happy and very proud in his mind. "I'm flattered. Murong Yuntian is also a pride."

Hearing this, Murong Shuli immediately went along with it. "Right, these two kids are both outstanding and they should have a common language. Old people like me have a generation gap with them. Haha!"

Murong Ze also burst into laughter on the side. He didn't care anyway. Since he came thick-skinned, he should just try his best to make the relationship between the two families more affectionate and a bit closer.

Mei Ran stood aside and watched the two members of the Murong family, rebuking them for being shameless in his mind.

These two families were truly the pot calling the kettle black. They wouldn't be able to go far.

Mei Bing stood there without saying a word as he sized Yun Feng up carefully with his eyes. There was only shock in his mind. Three years ago, he couldn't detect Yun Feng's strength, and it was the same three years later!

Mei Bing had already known clearly in his mind that whether it was three years ago or three years later, Yun Feng's strength was above his! He suddenly felt like there was no place for him to stand. He was the

pride of the Mei family, but he saw how small he was in front of Yun Feng. How could he be called a genius like this?

About what his grandpa was thinking, Mei Bing didn't even dare to think about it. With his strength and appearance, how would he deserve such a girl? The one who was really a match for her might truly be the peerless talent in the Murong family, Murong Yuntian!

"Speaking of young people, Xiao Bing is also considered one. The two young people should communicate more. Don't you think, Xiao Bing?" Mei Ran said with a smile, while Mei Bing replied frustratedly on the side and couldn't lift his face up.

Yun Feng really wanted to roll her eyes in her mind when she saw Mei Ran and Murong Shuli's looks. These two families were really thick-skinned enough. One of them cut off their relationship with the Yun family and wanted to have connection with them again right now while licking their faces, and the other one stuck to their neutrality and wanted to become a fence-sitter at this moment.

Yun Feng didn't have time to chat with them anymore. She still had a lot of things to tell her father and she hadn't shown Lan Yi, which she contracted with, to her father yet.

"Masters, I've just come back today and still haven't gotten the time to talk to my father yet. I wonder if you're willing to give us some space." Yun Feng said with a smile. She just didn't say, "Goodbye, I'll not walk you out!"

The expressions of the members of the two families froze as Murong Shuli mumbled, "I've just got here..."

Yun Feng then said with a smile, "Master Murong, didn't you say that you only came here for a visit just then? You've already visited, haven't you?"

Some words were stuck in Murong Shuli's throat. This was indeed what he said, but was purely a polite remark! Seeing this, Mei Ran also understood that Yun Feng was sending them away, so he didn't want to embarrass himself either. He immediately cupped his hand in the other in front of Yun Jing. "If that's the case, we'll go first! Yun Feng, take some rest. Come to Grandpa Mei's home for a visit when you have time."

Yun Feng smiled and nodded. He was even calling himself Grandpa Mei now. "Sure, I'll definitely drop by when I have time."

Mei Ran left with Mei Bing first with a smile. The two members of the Murong family seemed very embarrassed. Park City was some distance away from here and they couldn't just go back there either. Besides, the Murong family was in a mess right now. They finally found some time to come for a visit. How could they just leave without talking more?

"Yun Feng, since the Mei family is gone, we'll also stop saying flattering remarks. About the marriage arrangement, look..."

Yun Feng raised her eyebrows, while Yun Jing's face also darkened. Murong Ran's arrogant look back then was still deeply imprinted in Yun Feng's mind up till now. Those aggressive words and that provocative look, these were something she wouldn't forget, and couldn't forget!

“Master Murong, I’ve already made it very clear. Didn’t Murong Ran bring the message back? The Yun family is the one who doesn’t want this marriage arrangement anymore, not the Murong family.”

“Well...” Murong Shuli’s face turned paler again, while Murong Ze next to him frowned and said gently, “Yun Feng, child, don’t be so impulsive. Yuntian is also a talented young man who matches you. This is only beneficial and has no harm to the Yun family...”

“Haha, beneficial and harmless? Whether it’s beneficial or not isn’t told by someone. Facts prove everything. Regarding the current situation of the Murong family, let me borrow what Murong Ran said back then. How would you deserve the Yun family? Why don’t you look at yourself in the mirror?”

Murong Ze and Murong Shuli both looked furious. This truly sounded like something that the girl, Murong Ran, would say. “That unfilial girl, that unfilial girl...” Murong Ze was so angry that he gritted his teeth and Murong Shuli was extremely regretful. He shouldn’t have sent Murong Ran here. It was his fault!

“Also, what did the Murong family do when my brother participated in the magic exam back then? Do I still need to talk about it?” Yun Feng’s voice became colder. Members of the Yun family never liked flattering people or putting on faces. They meant whatever they said. No matter what kind of a family the Murong family was today, as long as they were upright, the Yun family would think that they were worthy of the word “integrity!” The Murong family couldn’t compare to the Yun family today, so the Yun family wouldn’t say anything about the marriage arrangement either!

However, what did the Murong family do? They sent someone to humiliate the Yun family harshly and canceled the engagement. Fine, then cancel it! This wasn’t all. They even did such despicable things during an important magic exam. If Yun Sheng wasn’t accepted into the magic school, how much would the Yun family lose?

Just because of what the Murong family did during the magic exam, Yun Feng wouldn’t take the Murong family seriously. It was already pretty good that she didn’t beat them up fiercely, but they even wanted to establish a connection with the Yun family. Don’t even think about it! Dreaming!

“That...” Murong Ze glanced at his father, Murong Shuli, speechlessly, while Murong Shuli also looked down with an embarrassed face. This happened because he indulged Murong Ran back then. He had never thought it would lead to such a result today. Regretful couldn’t be used to describe Murong Shuli’s mood already.

### **Chapter 214: You’re Looking for Trouble (3)**

“That’s enough! You don’t need to say anything else. The Yun family sees everything clearly and knows it well in our minds. Gentlemen, please leave!” Yun Jing said in a stiff tone at this moment. He didn’t know that something like this happened to his son! Yun Jing, who was still expressionless in front of the Murong family, looked upset right now. After seeing this, Murong Shuli and Murong Ze knew that they couldn’t save this relationship anymore.

“Alright, we’ll go first then.” Murong Shuli said reluctantly and walked away with Murong Ze in despair. After the two of them were gone, the old butler shut the door. Yun Jing looked sullen. “Feng, did someone do something during Sheng’s exam?”

Yun Feng smiled. "It was already three years ago. The Murong family didn't want Brother to pass the exam, but the storm was weathered. Those evil thoughts couldn't possibly succeed."

Yun Jing nodded with a hint of warmth in his eyes when he gazed at Yun Feng. His daughter must have helped Sheng, or Yun Sheng wouldn't have possibly been accepted to the magic school.

"Right, father, I brought you some gifts!" Yun Feng gave a sweet smile at Yun Jing, while Yun Jing's expression also eased a little. "What did you get me?"

Yun Feng smiled as she flipped her hand and a few ultimate ores appeared on her palm. Yun Jing's pupils shrank abruptly. He stared at those crystal clear ores on his daughter's palm and was a bit speechless.

"Father, I've had a lot of experiences in these three years. I'll tell you about it slowly later on. These few ultimate ores are the gifts for you." Yun Feng walked forward and put the ultimate ores in Yun Jing's hand. Yun Jing's body trembled slightly. He had never seen ultimate ores in his entire life!

This gift was indeed too expensive! A strong sense of pride rose from the bottom of Yun Jing's heart. Looking at the thousand years of development of the Yun family, his daughter wasn't only the second summoner of the family, she even had ultimate ores! He could take such a glory down to Hell and show it off even after he died!

"Good, good..." Yun Jing murmured as he looked up at Yun Feng. "Feng, one is already enough for me. You should keep these." Yun Jing took one and gave Yun Feng back the rest of them. However, Yun Feng chuckled. "Father, don't worry about it. I still have a lot. When I get to the magic school, I'll give Brother a few as well!"

Yun Jing also felt a bit relieved when he heard this. His daughter was so outstanding. Yun Jing thought he could now enjoy his later years peacefully. Haha, these three years of time polished his daughter into such a beautiful girl, and it gave him a peace of mind.

"Feng, tell me what you've been through in the last three years." Yun Jing sat down, while Yun Feng sat next to him and slowly started telling her father about her experiences in these three years. Even though Yun Jing didn't show many changes emotionally, Yun Feng saw the undulating waves in his black eyes clearly.

She gave it a thought as the green Ring of Contract appeared in her hand. When Yun Jing saw the Ring of Contract of a different color, his heart pounded fiercely. His daughter had already given him too many surprises, too many, too many...

"Lan Yi, come out." Yun Feng said softly as a beam of green light flashed in front of Yun Feng. Lan Yi's handsome face and slender body slowly appeared in the light. Once Lan Yi showed up, Yun Jing felt a powerful energy coming right at him. He immediately mobilized his level-5 fighting energy to resist it barely. When Yun Feng saw this, she instantly enveloped her father's body with her mental strength to ease the power.

"Master." After Lan Yi came out, he called Yun Feng "Master" respectfully. Yun Feng smiled speechlessly. "Why are you and Little Fire the same? Can't you be a bit low-profile when you come out?"

After hearing that, Lan Yi pondered silently and finally nodded. "I'll do as you say, Master." The powerful energy around Lan Yi's body disappeared. Yun Feng then took back her mental strength as Yun Jing looked a bit better as well.

"Father, this is the second Magic Beast I contracted with, wind-element Lan Yi. Its original form is a four-winged Griffin. Lan Yi, this is my father."

Yun Feng wasn't planning to keep anything from her father. Lan Yi was a bit shocked when he heard Yun Feng tell someone else about his original form so directly, but he understood after knowing that the level-5 warrior in front of him was his Master's father. He nodded at Yun Jing and didn't say anything else. The Magic Beasts Yun Feng contracted with were so respectful to Yun Feng, but it didn't mean that they would have such an attitude towards her family as well. Perhaps they would be a bit more polite, but Yun Feng was still the person they would obey from the bottom of their hearts.

Yun Jing looked at the young man with a beautiful blue pattern on his face and thought about the pressure he couldn't stand at all just then. Even though he didn't really understand what a Magic Beast like a four-winged Griffin represented, he also knew that the Magic Beasts his daughter contracted with wouldn't be too simple.

"Feng, which level have you reached now?" Yun Jing looked at his daughter deeply as Yun Feng smiled. "Father, I've already reached the early stage of the Commander Level."

Yun Jing immediately breathed tensely! The early stage of the Commander Level... What kind of a concept was that... That was a talent that only the royal family was qualified to have! His daughter had already reached such a level at this age. That was truly...

Yun Jing sat there with excitement on his face and his eyes became a bit warm with tears. He remained silent for a few seconds, then mumbled softly, "Great, really great..." Seeing how emotional her sullen father was, Yun Feng's heart also ached a little.

Her father's helpless look when she first transmigrated here, the pain that made him want to die with the enemies, the words her father said in the ancestral hall, to the gratified and excited look right now, everything was worth it. Everything happened silently and completely changed because of Yun Feng!

Yun Feng kept telling her father about her experience in the last three years. When she mentioned her mysterious Master in the Dragon Palace, she also told her sullen father without hiding anything that when she could connect with her Master, she would definitely do everything she could to save him, no matter how troublesome and difficult it was!

Yun Jing only remained silent for a few seconds, then finally nodded and gazed at Yun Feng with a gratified look. "You should indeed do that. Feng, you've really grown up."

#### **Chapter 215: You're Looking for Trouble (4)**

Yun Feng smiled. No matter how strong and successful she was, in her father's eyes, she was just a kid, a kid who needed her father's protection.

Yun Feng finished talking about the last three years for now and asked her father about the situation of the Yun family in these several years. When she asked him why there was a long queue at the door of their house, Yun Jing was slightly delighted.

“These people came for you, Feng. Nine out of ten people the Yun family took in want to see you. Will you consider meeting them?”

Yun Feng blushed. What was this... “It’s not all because of me. The Yun family is worthy for them to work for! Father, if I’m right, the Yun family can be considered as having our own self-defense force, right?”

Yun Jing nodded. “The conduct of these people is pretty good. They aren’t crafty and fawning. They’re the housekeepers and the gofers of the Yun family right now.”

After saying this, Yun Jing’s eyebrows gathered towards the middle again. “People of the Karan Royal Family once came and said that they wanted the Yun family to move back to the Imperial Capital.”

Yun Feng frowned hard when she heard this. She forgot that apart from the two thick-skinned families, the Murong family and the Mei family, the Karan Royal Family, the most thick-skinned one, was also in the battle. Move back to the Imperial Capital? They had already given an olive branch to the Yun family already?

Yun Jing glanced at Yun Feng. “Feng, don’t worry. I’ll take root in Chunfeng Town at ease. I’m already very satisfied with the achievements the Yun family has today.”

Yun Feng could see the longing in Yun Jing’s heart, longing for the Yun family to return to the time when they were powerful, to the glorious scene when the ancestor was here. However, her father repressed his feelings and rejected the kindness of the Karan Royal Family, choosing to stay in this small Chunfeng Town stubbornly. Everything he did was for her, so that she wouldn’t become a pawn used by the Karan Royal Family!

“Father, I promise you I’ll definitely bring the Yun family back to our heyday. We won’t be controlled by anyone, and we won’t be bullied by anyone!”

Yun Jing sighed deeply and nodded. Traces of time flashed through his middle-aged face immediately. The tiny wrinkles glowed warmly in the sun and every one of them warmed Yun Feng from the bottom of her heart.

“Will you stay at home for a few days? There should still be some time before the exam of Masang School of Magic.”

Yun Feng smiled. “Of course, I’ll stay at home for as long as I can... Right, father, do you remember Ze Ran?”

Yun Jing nodded. “Of course, I remember. After you left, that kid always came to find you and asked me if you were doing well. He also got into the School of God of War last year. That kid seems nice. He’s pure and also very upright.”

Hearing Yun Jing compliment Ze Ran, Yun Feng couldn’t help but feel shocked. Her sullen father rarely complimented people, so it was truly not easy for him to compliment Ze Ran so much.

Ze Ran got into the School of God of War one year ago? Haha, he should have pretty good strength. Thinking about that boy who liked to stand in front of her to protect her three years ago, Yun Feng wondered what he looked like now...

If there was a chance, they should be able to meet again, right...

Yun Feng shook her head and suddenly found that her father had been looking at her, which made her startled. "Father, why are you looking at me?"

Yun Jing didn't say anything, but he glanced at Yun Feng with a deep meaning. Yun Feng was scared by his gaze and immediately became uncomfortable. "Um, I'll go out for a walk. I haven't been back for three years. The town has changed quite a lot. I'll go out first!" Yun Feng said goodbye to her father quickly, but felt like his gaze saw through her like an X-ray.

Lan Yi was still standing on the side silently, but Yun Feng forgot to take him with her in her panic. Lan Yi shook his head as his body flashed and immediately disappeared from this space, going after Yun Feng.

When Yun Jing saw Lan Yi's high speed, he couldn't help but widen his black eyes. His daughter was truly impressive!

"Master." Lan Yi yelled. He was already next to Yun Feng. When Yun Feng saw Lan Yi, she finally remembered that she almost forgot about him. "Do you want to go for a walk with me or go back?"

Lan Yi smiled. "Of course, I'll go for a walk with you."

Yun Feng nodded. She wanted to see Chunfeng Town, which had changed a lot in the last three years. The two of them walked on the street. Yun Feng's beautiful face and body figure attracted the gaze of many young men, while Lan Yi's handsome face and the special, gorgeous pattern on one side of his cheek caught the attention of a huge number of girls. Young boys and girls followed the two of them around, but they only watched from the side and none of them dared to come forward.

After all, the two of them looked really matched and very very harmonious when they walked together. The men and women, who had admiration for them, were also aware that the two were made for each other and none of them were good enough for them.

Yun Feng didn't care about other people's gaze at all, while Lan Yi even ignored them completely. The pubs, hotels and even some stores on both sides of the street all had the word "Yun" of the Yun family, which showed that the Yun family was kind of the top boss in Chunfeng Town.

There weren't a lot of people on the street. Under the situation where there weren't many people, if there was a small dense crowd, it would catch people's attention very easily. Yun Feng didn't want to be nosy, but it was a different story when seeing that a small crowd was gathering in front of her family's business.

"What kind of a clothing store are you? What's wrong with this shirt? It's already broken as soon as I wear it. Are you deceiving people?" A slightly piercing voice shouted on the street without restraints, which attracted many onlookers around. Yun Feng and Lan Yi also went over. The two of them flashed in the crowd and came to the front.

Yun Feng then finally saw what kind of a person was yelling on the street clearly. A woman with a body like a barrel was standing there. Her skin was fair and the blue veins under her skin could be seen clearly, which looked a bit ferocious and terrifying. She was apparently wearing a shirt that was much smaller than her size and a hole was already torn on the side of the shirt by her fat body. The woman put one hand on her waist as she pointed at the store in front of her with another.

“Did you see that? This is what the Yun family called a credible store! What kind of credibility is this? The shirt has already broken as soon as I put it on. With such credibility, why are you still selling clothes? You should just close down the store!”

### **Chapter 216: You’re Looking for Trouble (5)**

A few people around also made some roaring sounds. Yun Feng immediately understood that this person must be here to ruin the store.

“Miss, speak with your conscience! This isn’t a shirt of your size, but you insisted on putting it on and even said that it’s the problem of our credibility. You’re unreasonable!” The owner of the store came out and commented on the matter at issue. He had never thought that this barrel-like woman would be even more fierce.

“What do you mean not my size? My size has always been this one! The clothes I got from another store are perfectly fine, but why did the shirt from the Yun family’s store break?”

“You... truly making trouble out of nothing!” The owner of the store looked at the woman and felt like he really couldn’t reason with her. What he said became the last straw. The barrel-like woman then shouted, “What? You’re the one who’s unreasonable and you even scolded me! Are you a moral person? How dare you scold me? Why don’t you look at yourself in the mirror to see if you’re qualified to do so?”

A few level-4 warriors walked out of the store and stood in front of the woman. “We’re just making arguments based on facts. You’re the unreasonable one. Why are you still making a fuss? We’ll just give you back your money if you want. Please leave now.” One of the warriors said with an upset look as he gazed at the woman in front of him with an impulse to slap her hard. If it weren’t for the rules of the Yun family, he would have already done it.

The barrel-like woman wasn’t afraid at all, but crossed her arms in front of her chest instead. A ripping sound came and her shirt was slit open again on the side. The lumps of fat on her waist were all exposed.

“Everyone, look carefully. The things that the Yun family sells aren’t credible at all and they even want to beat their customer right now. You want to fight? Come on. You think I don’t have help, do you?”

The barrel-like woman waved her hand as a few ruffians walked out and stood next to her. The warrior who spoke just then immediately looked anxious. “The Yun family has their rules. We can’t get into a fight easily. When did we say that we’re going to beat you? Don’t sling mud on us!”

“I’m slinging mud on you? Alright, I’ll sling mud on you today. You beat me. Why? I’m going to fight back now. So what?”

People around were angry, but they dared not to say anything. Yun Feng stood there. This woman was truly the most shameless person in the world. She had already taken this sentence to the extreme and it was hard for anyone to surpass her.

“This ‘Fat Lady’ who wants to sling mud on people, which family are you from?” Yun Feng asked loudly and lazily among the crowd. The barrel-like woman immediately glanced over as the crowd made way. Yun Feng took a few steps forward and stood out with an elegant temperament and outstanding

appearance, which left everyone in awe. Looking at this barrel-like woman again, she was so ugly that they were speechless.

The barrel-like woman immediately flushed when she saw Yun Feng. She turned her body and only heard another tearing sound of the shirt. "Hm! Which family are you from, ugly woman? I'm the Young Lady of the Bai family, Fat Pig Bai. How come you don't know me? You bumpkin!"

Fat Pig Bai... After hearing this name, Yun Feng couldn't hold back her joy. Lan Yi also walked out and glanced over the body of Fat Pig Bai with his blue eyes. Fat Pig Bai's face inexplicably blushed immediately when she saw Lan Yi. "Young Master, what I said doesn't include you..."

Yun Feng raised her eyebrows. Was this woman boy crazy right now? "Fat Pig Bai. You deserve this name. The name matches you very much." Yun Feng said with a smile. Fat Pig Bai's face turned even redder. She wanted to keep her ladylike side, but it was difficult for her to repress her anger.

"You... tell me your name. Which family are you from?"

Yun Feng's red lips curled up and her infinite elegance was immediately shown. She walked in front of the few warriors, stood still and uttered every word loudly with a clear voice!

"Let me tell you who I am. I'm Yun Feng!"

The few warriors all gazed at Yun Feng at the same time and some of them couldn't help shouting, "Young Lady!"

The few guarding warriors of the Yun family all looked at Yun Feng with incomparable surprise and astonishment in their eyes. Most of these outsiders who came to the Yun family were here for Yun Feng. They wanted to see this Young Lady, who was known as a legend in the Mercenary Union. They had never thought they would be looking at her right now!

People around also started discussing and they looked at Yun Feng with surprise and admiration in their eyes. "Yun Feng is the Young Lady of the Yun family, isn't it?"

"Yeah, I heard that she's called a legend in the Mercenary Union..."

"Oh God! It turns out she's such a pretty girl. I really can't believe it."

People around discussed, while Fat Pig Bai and the few ruffians next to her were looking confused. "What Yun Feng, Yun Wu? I've never heard of her!" Fat Pig Bai said in disdain as her body leaned forward and another tearing sound came from her shirt again. another hole was created.

Such a nice shirt was put on Fat Pig Bai's barrel-like body. It was truly terrible to look at. The lumps of fat on her body couldn't wait to squeeze out, which was extremely disgusting.

The crowd around couldn't help but chuckle softly after hearing that. How famous was the Young Lady of the Yun family? She was someone who could carve out a niche in the Mercenary Union. How could she not be famous? How could this Fat Pig Bai not know such a person? This only showed that she knew very little.

"What are you laughing at? Is Yun Feng very famous? Even if the Yun family is famous, they're only famous in Chunfeng Town! How famous can Yun Feng be? If you're capable enough, be famous in the

Karan Royal Family as well!” Fat Pig Bai yelled as she looked at Yun Feng with a provocative gaze. Yun Feng raised the corners of her mouth. She didn’t bother to talk to such a person at all. Even saying one word was a humiliation to her.

“My Lady, you don’t have to care about this kind of person. Just let her shout like a vixen.” A warrior said and smiled at Yun Feng with admiration at the bottom of his eyes. The other warriors also agreed after hearing that and asked Yun Feng to ignore this woman. It would lower their Young Lady’s worth if she talked to such a person!

“You’re all looking down on people! The Yun family is only capable of doing this. Smash it! Smash everything for me!” Fat Pig Bai pointed forward with her arm. The blue veins under her fair skin bulged, looking extremely ferocious. Fat Pig Bai glanced around and saw Lan Yi standing next to Yun Feng.

### **Chapter 217: The Yun Army (1)**

“Young Master, please step to the side a little. I don’t want to hurt you later!”

Lan Yi looked cold and directly ignored this crazy woman. Fat Pig Bai blushed after seeing that and fire almost spouted out of her eyes when she looked at Yun Feng. “Smash, smash, smash! Smash a mess!”

The few ruffians next to her immediately shouted after hearing what she said as they rushed forward with something like a hammer, dashing over.

People around all moved away. Weapons had no eyes. They might hurt themselves! The crowd scattered, but Yun Feng stood there without moving at all. The few warriors, who were the guards of the Yun family, looked cold. “How dare you run wild in the Yun family’s place?” Fighting energy suddenly burst out of the few warriors and they rushed forward with weapons.

It turned dark in a blink. The warriors were all at level 4, but these few ruffians didn’t have a low level either. There was surprisingly a tie between them. Fat Pig Bai stood aside and yelled as she looked at the few of them who were in a stalemate, “Why are you fighting? If you want to fight, go inside the store!”

The corners of Yun Feng’s mouth curled up cold when she heard that. The dumb pig still had a little bit of IQ. This group of ruffians also understood immediately after hearing that and they were about to enter the store. Yun Feng’s red lips curved up coldly. The store owner behind her quickly said, “My Lady, you should step back!”

Step back? With Yun Feng’s current strength, these people were all nothing! They wouldn’t even have scum left when she waved her hand! She didn’t attack immediately because the Yun family had their rules. If the other party didn’t take the initiative to attack, the Yun family couldn’t hurt people deliberately either. It didn’t matter now. Since they had already started fighting, she couldn’t just stand there anymore.

Yun Feng’s body moved suddenly as an invisible mental strength surged out from the inside of her. The ruffians, who wanted to rush into the store, were knocked away by the energy. Their bodies were like broken kites, creating a trace in the air and landed very far away as they screamed.

“Argh!” The screams of the ruffians came from very far away. Seeing this scene, a few drops of cold sweat couldn’t help appearing on Fat Pig Bai’s forehead. What just happened? Why... Why were they knocked away? They even fell so far away!

The few level-4 warriors all looked at Yun Feng in awe. Their Young Lady had made a move! This attack was indeed extraordinary. Their Young Lady didn't make any movement at all and those people were already knocked away completely. One word to describe her, cool!

Fat Pig Bai stood there alone and was at a loss. She was still a bit confident to pick a fight just then with those few people, but she was the only one left right now. What else could she do?

"You... You... Just wait! The Bai family... The Bai family won't let you go!" Fat Pig Bai pointed at Yun Feng and yelled loudly again. The onlookers around all had a look of contempt on their faces. Fat Pig Bai flushed and wanted to slip away without saying anything.

"You think you can leave whenever you want? What do you think the Yun family is?" Yun Feng's voice came. Everyone only felt as if their eyes blurred and the few warriors saw that their Young Lady was already blocking Fat Pig Bai. The warriors couldn't help but exclaim, "What a high speed!"

Fat Pig Bai looked at Yun Feng who was standing in front of her and her face flushed right away. "What do you want? Do you want to fight? Fine, come on. Let's fight! The Yun family likes to take advantage of their power to bully people!"

Yun Feng gazed at the woman, who looked like she needed a biff, in front of her. She really wanted to slap the woman several times fiercely, but she held back. She wouldn't give this woman any excuse to say anything bad about the Yun family, even though she truly wanted to beat this fat pig up.

"Why? Are you guilty? If you're guilty, get out of my way quickly!" Fat Pig Bai looked at and glanced at Yun Feng arrogantly. Yun Feng had no idea where her arrogance came from.

Yun Feng smiled. "I can get out of your way, but you have to give me back the thing that belongs to the Yun family!"

"What thing? I didn't take anything that belongs to the Yun family. Don't try to slander me there!" Fat Pig Bai stared at Yun Feng with an indignant look. Yun Feng chuckled softly as she reached out abruptly, sliding a few times at Fat Pig Bai's body. Everyone only heard, "Swish, swish, swish!"

Fat Pig Bai only felt a gust of wind blowing towards her and landed on her body. Then, she noticed that the tight shirt suddenly loosened. Fat Pig Bai lowered her head and took a look. She couldn't help feeling stunned!

"Argh!" Fat Pig Bai screamed as she clutched her body. The shirt that had already been torn but could still cover her body had now turned into pieces, falling onto the ground lightly. Fat Pig Bai wasn't wearing anything inside!

People around turned away a bit embarrassedly, while some burst into laughter. All of their eyes were full of ridicule. Fat Pig Bai flushed in embarrassment and she quickly covered her important parts with her hands. In fact, it was the same no matter if she covered her body or not. Nobody would look at that barrel-like body at all. To be honest, even if she let other people see her body openly, they wouldn't show her respect and look at her.

Fat Pig Bai looked at Yun Feng embarrassedly and furiously. "You... You..."

Yun Feng sneered and looked at her. "The shirt on your body belongs to the Yun family, so you certainly can't take it away. Alright, you can leave now. Please."

Yun Feng made way with a dignified look, while Fat Pig Bai stood there. She was so furious that her body trembled violently and she couldn't say a word. If she was still in the mood to pick a quarrel with Yun Feng at this moment, her brain must really have been hit by a pig.

"Yun Feng, just wait!" Fat Pig Bai said this fiercely as she covered her body and left awkwardly. Everyone else only saw a ball of white flesh shaking and running away.

When the farce was over, Yun Feng shouted, "The Yun family has a rule. Kindness is always returned tenfold! The Yun family has a good temper, but it doesn't mean that we allow people to provoke us casually! Whoever wants trouble with the Yun family will have to go through me first!"

The hearts of people around them tightened and they got a new understanding of the low-key and gentle style of the Yun family. The Yun family had always been low-profile. Even though their development was so rapid in these three years, they had never used that as an advantage to suppress others. And yet, being low-profile didn't mean they could be treated like a pushover! The Yun family was easy-going, but that didn't mean that you could say whatever you wanted!

## **Chapter 218: The Yun Army (2)**

This Fat Pig Bai from the Bai family, who came out of nowhere and acted recklessly, was the first one. She was stripped naked by Yun Feng and she probably wouldn't have the dignity to meet anyone again from now on.

Even though the few level-4 warriors wanted to stay longer with Yun Feng after the onlookers left, they had their own job as well and they didn't want to disturb their Young Lady, so they quickly returned to their posts. Yun Feng walked to the store owner. "The Bai family? What family is that?"

The store owner first grunted in disdain, then started explaining, "My Lady, the Bai family is a new rich family that has only appeared in recent years. They became rich by selling vegetables, so they aren't educated at all!"

Yun Feng nodded. No wonder. A Young Lady from a family with a little background wouldn't look like this and wouldn't be dumb enough to provoke the Yun family, not to mention being dumb enough to talk to her like that. If this wasn't picking a fight, what was it?

"Master, that woman won't cause any trouble, will she?" Lan Yi whispered on the side. He really wanted to rush forward and beat the woman up just then, but Yun Feng didn't command him to do so, so he could only stand right there.

Yun Feng smiled coldly. "She can't cause any trouble, but if the leader of the Bai family is as dumb as she is, it'll be a different story."

Facts proved that the leader of the Bai family wasn't at the same level as Fat Pig Bai. When Fat Pig Bai ran home to her father to cry and complain in embarrassment and anger, Fat Pig Bai's father was still quite smart and he didn't become enraged yet. He asked Fat Pig Bai about the cause and result of the incident carefully as Fat Pig Bai told him about it. Of course, she made her look innocent like she was the victim. However, Fat Pig Bai might be a pig, but her father wasn't. Although his daughter came home

pitifully and messily like a weeping beauty, Fat Pig Bai's father knew this incident was definitely caused by his daughter.

When her father asked Fat Pig Bai which family she offended, something unexpected happened to Fat Pig Bai. Her father slapped her a few times fiercely. After that, he said to Fat Pig Bai with a flushed face, "I can't wait to slap you again several more times. As long as we can quell the Yun family's anger, they can do whatever they want to you! You fool who only knows how to make trouble!"

The other members of the Bai family dared not to say anything. Fat Pig Bai was beaten and scolded, looking aggrieved and confused. Her father shouted furiously again, "Do you know who the Yun family is? That's the boss of Chunfeng Town! Do you think you can get away after offending the Yun family? You fool! Why do I have a child who can't be trusted? Seize her. Don't let her get out of the door again!"

Other people dared not say a word at all. They immediately dragged the dumbfounded Fat Pig Bai away, while the leader of the Bai family pondered and couldn't sit tight due to nervousness. He sent someone out to get information about the farce that happened outside of the Yun family's store today. The news came to the ears of the leader of the Bai family vividly. That was totally different from what Fat Pig Bai said!

The leader of the Bai family couldn't just sit there anymore. He immediately prepared some things and spent some money, then went to the Yun family to apologize. Especially when the leader of the Bai family thought that the Young Lady of the Yun family was the one who made a move, he even felt like he was walking on thin ice.

The Bai family was a bit anxious and messy, while the other small families like the Bai family also got a warning. When they looked at the Bai family, they were all gloating and enjoying the show, and were also glad that their families didn't have such an idiot. If not, they would really be in great trouble.

The leader of the Bai family came several days in a row and finally got something from the Yun family. This incident had already passed. Just watch Fat Pig Bai carefully. The leader of the Bai family was completely relieved. When he returned home, he even issued an order, not allowing Fat Pig Bai to get out of the door of their family, like she was held captive.

Even though things had been solved, the name of the Yun family was spread to the hearts of every family in Chunfeng Town through this incident. Whoever thought that the Yun family could be bullied by anyone because they had always been low-profile and easy-going was wrong. All the small families remembered what Yun Feng said in their hearts.

Whoever wants trouble with the Yun family will have to go through me first!

They weren't dumb. Only those whose brains were hit by a pig would provoke the Young Lady, who was known as the legend in the Mercenary Union. Since then, the status of the Yun family in Chunfeng Town had been consolidated completely. No one dared to say anything bad about the Yun family again. Chunfeng Town, which had always had balanced strength, finally went into a situation where one family dominated the town. And the Mei family dared not say no.

Yun Feng stayed at home for a few days and went out to see the operation of the Yun family's businesses every day. Whenever she came to a place, the warriors guarding the store would come out immediately, fighting and rushing to meet Yun Feng. Yun Feng spent three days finally inspecting all the

stores of her family. Each store had four to five warriors of different levels. They were mostly between level 4 and level 5, with the highest being level 5.

Overall, the strength of the guards was already the most powerful in Chunfeng Town. Which family didn't hire guards with money? People only vied to be the guards of the Yun family. This was a huge advantage for the Yun family. However, the level of the guards was too low in Yun Feng's eyes!

It was enough when they were in Chunfeng Town, but it was far from enough for the Yun family's future! The Yun family wouldn't possibly stay in Chunfeng Town forever. Their road was very long, and if these guards kept being on such a level, it just wouldn't work!

After three days of inspections, Yun Feng had had a preliminary assessment of the moral standing and personality of the guards. These people were cheerful and free. They also obeyed the rules of the Yun family and wouldn't break the rules easily. After Yun Feng's preliminary assessment, these guards basically passed. The top attributes that the guards of the Yun family needed were loyalty and obedience.

The Red Maple Mercenary Team could certainly mobilize some people to the Yun family to be their guards, but they had their own business as well. Now that the Red Maple Mercenary Team had become a four-star mercenary group, they must be very busy. Although Yun Feng hadn't returned yet, she already knew by thinking about it.

The Red Maple Mercenary Team had their own business to do, so it wasn't practical to deploy their manpower. It was better to gather these people and improve their overall strength. Yun Feng thought about the large pile of ores in her storage space. The Red Maple Mercenary Team gave her a small mountain of mid-level ores back then. The Yun family had only at most a hundred guards right now, so getting a hundred mid-level ores wasn't a big deal for Yun Feng.

### **Chapter 219: The Yun Army (3)**

Even though Yun Feng had ores of a higher level, she didn't trust these people completely. She still needed time to see if they were reliable or not. There was always a greedy side in human nature. If Yun Feng showed them too much of her astonishing wealth, she wouldn't be able to stay here if someone was up to something bad. It was very difficult to be on guard all the time.

After preparing a hundred mid-level ores, Yun Feng also gathered the hundred people quickly. When those hundred people heard that their Young Lady was calling them over, they immediately rushed to the Yun family at the highest speed. The yard of the Yun family seemed a bit crowded when there were a hundred people standing there. However, these hundred warriors all waited silently when they arrived, not looking anxious or impatient at all. This was also the first test Yun Feng gave them.

Yun Jing knew what his daughter was thinking as well. As the Yun family's business grew stronger, they would have contact with all kinds of people and would encounter rivals and people who disliked them. A guard team was something necessary for every developed family and it also represented the dignity of the family. So, some large families would spend a lot of money on their guards and look for masters desperately.

After a while, Yun Feng and Yun Jing walked out of the house and all the warriors shouted respectfully when they saw Yun Jing, "Master!"

Yun Jing nodded. Even though these warriors looked at Yun Feng with admiration in their eyes, the sullen Yun Jing was still the boss of the Yun family. They must be respectful to Yun Jing. Yun Jing looked at his daughter next to him. "I think I don't need to introduce to you who she is."

These warriors all looked a bit thrilled and yelled at Yun Feng at the same time, "My Lady!"

Yun Feng nodded as she glanced around slightly and finally spoke slowly with a clear, powerful voice, "You all volunteered to become the guards of the Yun family. I express my deep gratitude for everything you did for the Yun family in the last three years. Thank you for taking care of the Yun family!"

What Yun Feng said was like a spring rain in the hearts of this group of warriors. They indeed volunteered to come here, but the Yun family treated them quite well, so they certainly wanted to do their best with all their hearts! Being guards was to work for a family with the salary the family paid them. They were just security guards at best and couldn't be regarded as part of the family after all. None of the families had ever said "thank you" to their guards, because in the minds of the families, these guards were only doing their job.

However, her "thank you" made the eyes of these warriors flood with tears. It turned out there was someone who remembered them. It turned out someone would actually say "thank you" to them.

"My Lady, this is something we should do!" A warrior shouted with a hoarse voice as the other warriors said one after another, "Yes! That's right. It's something we should do! It's our job to protect the Yun family!"

Yun Feng nodded and Yun Jing also gazed at his daughter with a gratified look. She successfully made these warriors loyal to the Yun family with just one sentence. His daughter had really grown up. She was even better at winning people's support than him.

"You treat the Yun family like this. The Yun family certainly won't treat you badly either! Since you're the guards of the Yun family, you're indispensable to us. You must know that the Yun family can't possibly stay in Chunfeng Town forever. The Yun family will move forward again and reach a higher peak!" There was strong confidence in Yun Feng's gorgeous smiley face. The confidence seemed to have infected everyone. All the warriors were enthusiastic and honored when they heard that!

"You're right, my Lady! The Yun family will surpass everyone!"

"That's right. With my Lady here, it's difficult for the Yun family to not surpass the others. Don't you think so?"

Everyone then replied "yes" at the same time. Yun Feng smiled, while a glint of pride flashed through Yun Jing's eyes. His daughter was his biggest pride, the Yun family's biggest pride!

"If you all have the confidence, then prepare for this eventually! Your levels are between level 4 and level 5 right now. You may think it's already enough for now, but your strength is far from enough for the future!"

All the warriors frowned after hearing this. They also thought that what Yun Feng said was right. They were only at level 4 to level 5. If their strength remained at this level as the Yun family developed in the future, they couldn't protect anyone at all!

“My Lady, we know that too, but it’s too hard... to reach another level.” A warrior said, while the others nodded one after another. They were a group of normal people who didn’t have money. They all relied on their strength to reach their current level, which was already pretty good. If they wanted to further improve their strength, they must absorb energy from ores, but they couldn’t even afford the ores of the lowest level!

Yun Feng smiled. “Don’t worry. The Yun family still needs your protection in the future, so we certainly won’t forget about you.” Yun Feng took out the mid-level ores she had already prepared. A hundred mid-level ores were put there while glittering with clear light. The eyes of all the warriors popped out when they saw the mid-level ores!

Those... Those were mid-level ores! Oh God, there should also be dozens of them in such a small pile! How much did they cost?

“Take one of these ores each. It’s for expressing the Yun family’s gratitude for what you did in these three years!” Yun Feng said as she issued an order. Someone immediately came to distribute the hundred mid-level ores.

The warriors, who got the mid-level ores, were all extremely thrilled. They kept fiddling with their own ore and couldn’t put it down. When they absorbed the energy in the mid-level ores, they could rise a total of two levels! Breaking through two levels directly! Such an advancement was something they dreamed of!

“My Lady, how... how much do they cost?” A warrior asked carefully. Yun Feng smiled, while Yun Jing replied, “Don’t ask how much they cost. Just take them.”

This made the warriors feel excited in their minds. Even though some families also put a lot of money on their guards, the money was only for certain individuals. Normal people like them couldn’t get any benefits at all... There really weren’t many families as generous as the Yun family, giving each of the guards a mid-level ore. Such a family could be considered rare!

“I’ll follow my Lady for the rest of my life and do my best to protect the Yun family!” A warrior shouted with his face flushed, looking very excited. The other warriors also yelled, “We’ll protect the Yun family with our lives!”

#### **Chapter 220: The Yun Army (4)**

Yun Feng and her sullen father looked at each other. If you treated them with all your heart, they would also be sincere to you. These were all mutual.

After getting the mid-level ores, these hundred warriors were undoubtedly loyal to the Yun family. If they didn’t feel grateful for the Yun family’s passion for them, they didn’t even deserve to be humans. Yun Feng’s act also consolidated these people’s sincerity and initially established a Yun Army for the Yun family.

Another five day had passed. The strength of the warriors, who absorbed the energy in the mid-level ores, had certainly increased a level, rising from the original level 4 or level 5 to level 6 or level 7 abruptly. This caused quite a huge furor in Chunfeng Town!

Level-4 and level-5 warriors weren't rare, but level-6 and level-7 warriors were already considered masters! In just a few days, almost a hundred masters sprung up. All the families in the entire Chunfeng Town couldn't help but exclaim, "The Yun family! The Yun family! The Yun family!"

Apart from the Yun family, who else could be so generous? With so many powerful guards, just ten of them could already level a small family. The small families were all sincerely anxious. They were worried that they would be exterminated in a night. However, these hundred masters behaved themselves. Even though their levels had risen, they only kept the stores of the Yun family safe as usual and didn't cause any trouble deliberately, acting very low-profile. Of course, this was also an order issued by the Yun family.

After the tension in Chunfeng Town passed, it became peaceful again. The other families were also deeply impressed by the Yun family's bearing. Other families would have become arrogant and domineering if they had such a powerful guard team. Who else could be as low-profile as the Yun family?

Some people of the Mei family saw the Yun family's glorious development and couldn't help but shake their heads and sigh. Mei Ran also looked gloomy and regretful. If the Mei family was on the Yun family's side back then, they would probably be successful together right now as well.

Due to the rise of the Yun Army, the Yun family's top position in Chunfeng Town couldn't be replaced anymore. Only those large families in a first-class city could compete with the overall strength of the Yun Army. Except for being in a small town, the scale of development and bearing of the Yun family were undoubtedly on an equal footing as those of a large family.

Things at home had almost settled so Yun Feng was relieved. Apart from the Yun Army, everything else was managed by her sullen father, so she really had nothing to worry about. She left a few ultimate ores for her father. Yun Feng originally wanted to give him some Magic Beast Crystals as well, just in case. However, her sullen father rejected them. The reason was that those were things that her Master gave her and she shouldn't give them to other people so easily.

Yun Feng nodded. She thought that her sullen father was right, so she also stopped thinking about it. After finishing everything she could do, the Yun family had nothing she needed to worry about anymore. Yun Feng stayed in Chunfeng Town for another few days and enjoyed some rare father-daughter time. Although her father was still awkward and looked sullen when the two of them were alone, Yun Feng was still very happy.

Yun Feng stayed for a total of twelve days at her home in Chunfeng Town. She calculated the days. She still had to go to the Red Maple Mercenary Team, so it was time for her to leave now. She told her father about it. Although Yun Jing didn't say anything, his facial features became much stiffer again. Yun Feng smiled. "Father, I'll come back again with Brother next time."

Yun Jing nodded. Yun Feng stood in the yard of their house as the green Ring of Contract appeared in her hand. "Lan Yi, come out." Yun Feng said softly. The handsome young man, Lan Yi, immediately showed up in front of Yun Feng.

"Master, are we leaving again?" Lan Yi smiled and asked Yun Feng. Yun Feng nodded. Lan Yi understood and a blue aura immediately enveloped his entire body. When the light disappeared, a beautiful and

powerful Griffin appeared in the Yun family's yard. Lan Yi's body was kind of huge. Luckily, the Yun family's yard wasn't small either and could barely fit him.

"This... This is..." Yun Jing was dumbfounded when he saw Lan Yi's original form. Yun Feng burst into laughter as she hopped onto Lan Yi's back. "Father, I'll take good care of Brother when I get to Masang. Don't worry! Lan Yi, let's go!"

As Yun Feng yelled, Lan Yi flapped his enormous wings abruptly, creating gusts of strong wind. He kicked his giant claws from the ground fiercely and a beam of blue light flashed directly into the sky!

Yun Jing narrowed his eyes slightly and watched that beam of blue light sweep across the sky, flying out of Chunfeng Town in a blink. Thinking that Lan Yi's original form was a Magic Beast like that, thinking that his daughter could tame such a Magic Beast, Yun Jing was indescribably thrilled in his heart!

His daughter would become the biggest pride of the Yun family and would even surpass the ancestor of the family!

The blue light in the sky flashed at an extremely high speed. Every time Lan Yi flapped his wings, his body would dashed a huge distance forward. He was so fast that it couldn't be described. Yun Feng looked at Park City that appeared in front of her eyes after a while and was in awe of Lan Yi's speed again.

The beam of blue light flashed through the sky above Park City, attracting the attention of many people, especially some teachers from Masang School of Magic. The powerhouses in Park City also looked up at the blue line one after another.

"What... is that? It's so fast I can't even see it clearly!" A level-7 warrior mumbled, looking very serious. If it was someone coming to Park City, such a way of appearance would be too ostentatious!

The other powerhouses also had the same thought in their minds. Luckily, the blue light flew past Park City and went east. Everyone was then relieved slowly. However, the few teachers from Masang School of Magic looked serious. They weren't people who hadn't seen the world. Masang School of Magic was a place that even the Karan Empire had to respect. What weird things had they not seen? They certainly had some guesses about the beam of blue light that flashed through in their minds.

"Mr. Ted, is that... a Magic Beast?" A teacher said with a tremor in his voice. Fitch, who came to Park City to supervise the exam, also frowned tightly. That was indeed a Magic Beast. Where did this Magic Beast come from? Or was it someone's mount? It was okay if it was the latter case, but if it was the former case...
