

## Summoner 241

### Chapter 241: What Is So Special About a Double-Element Mage (5)

Everyone stopped breathing!

“Level... Level... Level-6 stone. Did you hear what Yun Feng said? The level-6 stone!”

“Fuck, do you think she’s pretending?”

“I don’t think so. When she lifted the stones, it looked effortless. Her strength may have really reached level 6...”

“I think she’s pretending. How would the double-element mage’s talent be worse than hers?”

“You can’t be sure about that. I have faith in the members of the Yun family!”

There were heated discussions among the audience and two different parties were formed. Mi Lingli also heard them clearly. She smiled coldly with disdain in her eyes. “Stop pretending. If you continue to pretend, you’ll make a fool of yourself.”

Yun Feng only raised the corners of her mouth and ignored Mi Lingli. Ted was a bit dumbfounded after hearing the question, but he really prepared it. It could be said that he prepared it especially for Yun Feng! He originally thought he wouldn’t need to use this level-6 stone, but it really came in handy now!

Ted took out a stone and slowly put it on the table, explaining to everyone that it was a level-6 stone. The audiences were stirred again. They all shouted and asked Yun Feng to lift the stone.

In the cheers, all kinds of gazes gathered on Yun Feng, contemptuous, disdainful, skeptical, anticipated, believing. Under different complicated gazes, Yun Feng only put up a gentle smile slightly as elegance appeared on her gorgeous facial features.

Her mental strength wrapped around the surface of the stone tight and the level-6 stone rose slowly, but surely, before everyone’s eyes. It stopped steadily in front of Yun Feng in front of the eyes that were about to pop out!

Mi Lingli was dumbfounded, completely dumbfounded. She looked at the level-6 stone in shock. Watching it float constantly in front of Yun Feng, her lips shook so much that she couldn’t speak. There was even a trace of panic in her eyes!

“Mi Lingli, it’s your turn.” Yun Feng put the stone down and glanced at Mi Lingli. Mi Lingli had a wolf by the ears right now. The crowd also looked at her with anticipation, hoping that this double-element mage wouldn’t let them down. And yet...

“I lost!” Mi Lingli shouted with her face flushed. Everyone glanced over and she was almost drowned in the countless gazes.

Some people in the crowd started cheering, some pouted in disdain, some even scolded loudly, saying that double-element mages were nothing. Mi Lingli stood on the stage extremely embarrassedly. She was famous now, but with a totally different scene.

“Xiao Feng is the best!” Mu Xiaojin cheered loudly with joy in her huge eyes. The candidates also applauded Yun Feng. Everyone was shocked by Yun Feng’s performance!

Mi Lingli couldn’t bear the attack of thousands of words and gazes anymore. She turned around and wanted to leave, but what Yun Feng said made her legs freeze right there.

“Mi Lingli, shouldn’t you slap your own mouth?”

Once she said this, the expressions of the teachers of Masang School of Magic couldn’t help changing slightly. Mi Lingli was a double-element mage. There would be a lot of trouble if she was humiliated in front of everyone else! Besides, no matter how talented Yun Feng was, she wasn’t as precious as a double-element mage!

“Kid, can you show me some respect?” Ted came over with a smile. How could she ask Mi Lingli to slap her own mouth in front of so many people?

Yun Feng smiled. “Mr. Ted, since you said that, I can certainly show you some respect, but I’ll only do so once.”

Ted frowned slightly. This kid really abhorred evils as deadly foes. Mi Lingli was so arrogant and domineering. She must have offended this kid, otherwise how would this kid refuse to let her go?

The Vice Principal still wanted to meet this kid. If she didn’t show him respect, by then...

Ted pondered for a while. “Kid, she’s a double-element mage after all. This...”

Yun Feng smiled. “A double-element mage?” Hearing that Ted was protecting her like this, Mi Lingli also stood upright. She didn’t look as fearful as she was just then and started to become arrogant again.

Ted smiled in embarrassment. He had always liked Yun Feng, but the current situation really wasn’t easy to deal with... Yun Feng burst into laughter abruptly as she waved her hand hard. An ice blue giant python and a dark red giant wolf then appeared in front of everyone’s eyes!

The giant python hissed and the giant wolf howled!

“What’s so special about a double-element mage?”

The exam of Masang School of Magic this year was much more amusing than any other year. Towards the end of the exam, the two candidates that had the biggest chance of winning competed with each other, which made people constantly excited. Although the winner wasn’t that double-element mage in the end, people still found it very enjoyable. And yet, they had never thought that the move made by the top student of the exam would make everyone’s jaw drop and their eyes pop out completely!

In the huge area that was protected by the transparent level-6 magic shield on the central square, an entire giant, ice blue python and a giant, dark red wolf appeared on the left and right of a teenage girl!

“Hiss...” There was a blue line in the eyes of the giant python. Its entire body carried an extremely freezing temperature and those terrifying snake eyes stared at Mi Lingli, who had already become dumbfounded like a retarded person. “Aowww...” The fiery red giant wolf on the other side howled at this moment. It raised its neck, opened its dark red enormous mouth and howled at Mi Lingli!

“This... This... This...” Ted was also a bit stunned. He felt like what his heart endured today was truly as much as everything he had endured in the last few decades! A double-element mage, this kid was a double-element mage!

The other few teachers of Masang School of Magic were completely frozen as well. They looked at the two giant beasts on the left and right of Yun Feng in disbelief as they rubbed their eyes. One of the teachers murmured, “What’s wrong with the kids nowadays... They don’t tell anyone about their strength and just hide it. They really make teachers like us fearful...”

All the candidates in the venue were completely astonished when they saw this scene! Their jaws dropped in shock. Even though Mi Lingli was also a double-element mage, she had never shown her power before. She hadn’t reached level 6, so she couldn’t use the simulation magic that only level-6 mages knew either!

### **Chapter 242: A Life for a Life (1)**

On the level of magic, Yun Feng was stronger than her. On the attainments of magic, Yun Feng was stronger than her. And on the momentum and stealing the limelight, Yun Feng was still stronger than her!

“Did you see that? Another double-element mage!” After a deadly silence, a shout suddenly came from the crowd. After that, everyone shouted their heads off. Some of the audience were disgusted by Mi Lingli’s arrogant attitude. She looked down on people because of her identity as a double-element mage, and now? Yun Feng was also a double-element mage. Mi Lingli, a person who lost in level, strength and momentum, was no longer a treasure!

A wave of applause came and the shouts shook the sky! Park City was completely stirred at this moment! Even though this was the exam of Masang School of Magic, Yun Feng could be considered Park City’s pride after all! Only such a humble girl deserved to be the first. Only she truly deserved the identity as a double-element mage! Mi Lingli should move aside as quickly as possible!

Mi Lingli’s rare, treasurable identity as a double-element mage became completely useless at this moment. When you weren’t the only one anymore, what awaited you was the embarrassment left by pretending to be arrogant and the inability to get out of the awkward situation.

Mu Xiaojin and Mu Canghai were the most surprised ones. They were different from other people. Other people thought that Yun Feng was a double-element mage, because she had only shown water-element and fire-element magic. And yet, Mu Canghai and Mu Xiaojin knew that Yun Feng was also an earth-element mage!

Mu Xiaojin covered her mouth with her little hand abruptly, so she wouldn’t shout. Her huge eyes were full of excitement and pride. Yun Feng was a dear friend in Mu Xiaojin’s heart. She knew that Yun Feng wasn’t just a double-element mage, but a three-element mage. She wanted to cheer hard, but she had to try her best to control herself.

Mu Canghai gazed at that girl, who was shining bright, for a long time. She had such a gorgeous face, a confident expression and manners that surpassed everything. Mu Canghai couldn’t look away even after a long time. That radiant girl was the only thing he saw in his eyes.

Deafening cheers came like raging waves. Ted smiled abruptly. "Hahahaha, you kid hid your strength really deep."

Yun Feng smiled as she glanced at Mi Lingli, who had a pale face at this moment, and she waved her little hand again. The two giant beasts then immediately disappeared, leaving only blue and red elements floating gently in the air. After which, they completely dissipated.

Non-professionals came to watch the fun, while the professionals knew the ropes. The crowd watching the exam felt a bit sad because the two giant beasts suddenly disappeared before they could appreciate them carefully. However, the teachers from Masang School of Magic were completely stunned by what Yun Feng did.

She waved her hand and the level-6 magic simulations vanished completely? How strong was Yun Feng's control of magic? She perfectly dispelled the magic so effortlessly. She... She was a lot more powerful than they were!

Ted's eyes brightened when he saw that, as if he was looking at a rare, precious treasure. His judgement three years ago was right. This little girl truly gave him too many surprises. Even the Vice Principal would be thrilled if he met such a genius girl!

"Haha, great! Masang School of Magic has really made a fortune this time!" Ted smiled very happily. The few magic teachers standing on the side also gave a smile in difficulty, but they felt like a hint of bitterness flashed across their faces. The younger generation truly surpassed the older!

Mi Lingli stared at Yun Feng firmly and she felt like all the organs inside her body shook violently. The cold giant snake just then was gazing at her. It fiercely glared at her with its blue eyes, and Yun Feng commanded it to do so! The fear and anger in Mi Lingli's mind were constantly mixing together at this moment. She really wanted to shout out the anger in her heart at Yun Feng loudly. The first place of the admission exam and the thought of making herself shine, not only did she fail to fulfil these things, her worth also dropped tremendously at this moment. All this happened because of her existence, because of Yun Feng!

However, Mi Lingli didn't have the courage to shout even if she wanted to. The shock that the two giant beasts brought her wasn't something she could endure anymore. The level-6 magic simulation made her eyes red!

The legs of Mi Lingli, who had a pale face, shook slightly and disappointingly. If she didn't grit her teeth and force herself to hold on, she would probably have fallen on the ground the moment those two giant beasts came out. Yun Feng glanced at Mi Lingli. It hadn't ended yet!

"Mr. Ted, do you still want the respect right now?" Yun Feng looked at Ted with a smile.

There was suddenly a trace of embarrassment on Ted's laughing face. Well... Both of them were double-element mages. In comparison, Yun Feng was certainly better and she was also more precious. In this case...

"Ahem, kid, just put this aside. How can you take a kid's words seriously?" What Ted said apparently elevated Yun Feng's identity several times. The conversation between the two of them was more like

one between adults. Mi Lingli's face completely flushed. She felt like it would be better if Mr. Ted didn't say this, because now, she had another title, an unreasonable kid!

"Haha, Mr. Ted, if you say so, I'll just put this behind me. A kid's words indeed can't be taken seriously." Yun Feng smiled, while Ted nodded in satisfaction. As the two of them talked, Mi Lingli could only stand there with a flushed, extremely embarrassed face. She truly had no idea what to do.

Ted looked around the situation in the exam venue. The results of the other candidates were already out. He immediately announced that the exam was over. Some booing burst out of the crowd. Apparently, these people still hadn't had enough at all. It would match these people's minds if Yun Feng and Mi Lingli could have a fight.

The first place of the magic exam of Masang School of Magic this time definitely belonged to Yun Feng, while Mi Lingli was in second place. Although this was quite a good result, the second place this year wasn't as glorious as the ones in past years, under Yun Feng's influence and after Mi Lingli was cast aside fiercely because of her high-profile appearance and arrogant attitude. She had a feeling like she couldn't look up instead.

Mi Lingli had indeed become famous, but other people were all judging her. "Look, it's that pretentious double-element mage!"

### **Chapter 243: A Life for a Life (2)**

"Yeah, she even provoked Yun Feng and said that whoever loses will slap her own mouth. That's really ridiculous!"

"If it weren't that the teachers from the magic school protected her, she would have slapped herself countless times. Haha!"

The moment Ted announced that the exam was over, Mi Lingli left the central square at the highest speed and got out of there swiftly with her servants. Yun Feng smiled coldly as she looked at Mi Lingli's back. You really reap what you sow.

Mu Xiaojin smiled and ran over quickly. She wanted to say something, but shut her mouth again with bulged cheeks, making her originally cute face even more adorable. Mu Xiaojin gave Yun Feng a thumbs-up while her huge eyes glittered. Yun Feng chuckled softly, then held Mu Xiaojin's hand and was about to leave.

"Kid, you're leaving without saying goodbye to me?" Ted came over with a smile. Mu Xiaojin immediately called him Mr. Ted respectfully when she saw him, then whispered, "Xiao Feng, I'll wait for you outside with my brother."

Yun Feng nodded as Mu Xiaojin let go of her hand and ran outside. Ted walked to the side with Yun Feng, as if he had a lot to say to her. People who had been watching also dispersed quietly after Yun Feng left. The crowd gradually became sparse.

Every person leaving the central square was talking about the exam with excitement. The exam this year became an unforgettable memory in the minds of people in Park City.

When the sparse crowd left, a small group of people stood out. The few of them looked cold and seemed to be a bit out of tune with the surrounding bustle. One of them was being held up, standing there with difficulty. There was an extremely vicious look on her gorgeous face.

“That’s her! That nosy girl!” A voice with endless hatred sounded. “And also that bitch! And that bastard!”

The middle-aged man, who was holding this person, looked gloomy. He glanced at the person, who couldn’t even stand still, next to him with his black eyes. “She’s a double-element mage...”

“I don’t care! I don’t care how you do it. I want this girl to learn a lesson. A double-element mage? Hahaha, I don’t believe that even a few warriors together can’t deal with her!” This person lifted her beautiful face abruptly. She was that tomboy, who was beaten fiercely by Yun Feng a few days ago, Huangzu Yelian!

“This is a bit difficult...” The middle-aged man helped Huangzu Yelian to the side and came to something like a wheelchair as he let Huangzu Yelian sit on it. He then walked aside and pondered while frowning slightly.

“What’s so difficult? With the power of the Royal Mercenary Group, isn’t it easy to find some mercenaries?” Huangzu Yelian smiled viciously and showed her white teeth. A hint of embarrassment flashed through the middle-aged man’s face. The Royal Mercenary Group was just a two-star mercenary group. Many people in the Huangzu family didn’t know what kind of a world the Mercenary Union was. They thought being a two-star mercenary group was already very impressive, but it was actually quite the opposite.

Logically, people should have already been familiar with Yun Feng’s name when they entered the world of the Mercenary Union, but there were more than a thousand level-1 to level-5 mercenary groups registered at the Mercenary Union. Yun Feng’s name didn’t spread to every mercenary group. The assessment three years ago could be said to be a full spread. And yet, the speed of the replacement between the new and the old groups was very rapid, especially these level-1 and level-2 mercenary groups. The Royal Mercenary Group was also formed after the Huangzu family rose. So, Yun Feng was still a completely unfamiliar name among the level-1 and level-2 mercenary groups. Yun Feng’s name hadn’t even appeared in some mercenary groups at the bottom of the three-star level.

On the contrary, those powerful three-star, four-star and five-star mercenary groups were already familiar with Yun Feng, and definitely with the Red Maple Mercenary Team as well!

The toad at the bottom of the well only saw a world the size of the mouth of the well after all. The lower people were, the less they could see how vast the sky was. It was so vast that there were many others they couldn’t provoke.

The Huangzu family was a toad at the bottom of the well like this. Huangzu Yelian had pretty powerful strength, but she was ruthless and seeking pleasure had sapped her spirit. She had done a lot of bad things in Park City and the Huangzu family also had a bad reputation in the city. Compared to the Murong family, they could be considered as bad as the gutter. None of the people who were involved with such a family were good.

Huangzu Yelian became quiet for a few days after Yun Feng injured her legs. The news made people in Park City excited, but the inside of the Huangzu family was covered with thunderclouds. Although Huangzu Yelian was a tomboy, she was deeply adored by the leader of the Huangzu family. She also inherited a cruel personality and could be considered the most favored one. When Huangzu Yelian was carried into the door, the leader of the Huangzu family was enraged. The family had been covered by thunderclouds for a few days. However, he had no idea who hurt Huangzu Yelian so he didn't take any action. He could only control himself. And yet, it was different today.

When Huangzu Yelian came home, she directly told the leader of the Huangzu family, Huangzu Fu, about Yun Feng. Huangzu Fu also frowned like that middle-aged man after hearing that.

"Father, if we don't take revenge, we'll lose our dignity!" Huangzu Yelian sat there and growled reluctantly. Huangzu Fu looked like he was struggling. In fact, it wasn't really necessary to gain back this dignity. After all, it was just a conflict between kids.

"Girl... That person is a double-element mage and a student at Masang School of Magic..."

"Student at Masang School of Magic? She still hasn't been admitted yet! If she's been accepted, I won't do anything to her either and I won't cause any trouble for our family!"

Huangzu Fu sat there and pondered, constantly weighing the interests. "Father, let's just find a few people in the Mercenary Union to teach her a lesson! I won't kill her. I'll just make her suffer. Hahaha!"

The leader of the family certainly had a different perception than other people. Huangzu Fu sat there without talking easily. In the end, he shook his head. "We're just a two-star mercenary group. Those weak level-3 and level-4 warriors in the one-star and two-star groups can't hurt her at all!"

"So, what should we do? Do I really have to swallow my anger?" Huangzu Yelian punched the back of the chair fiercely and a few cracks appeared on it. Huangzu Fu sat there as a person came to his mind. However, he couldn't use this person easily. Using this person on such a matter would be a total waste of talent!

### **Chapter 244: A Life for a Life (3)**

**Translator:** Henyee Translations **Editor:** Henyee Translations

"Yelian, just let go of this matter and treat it as an argument between children. Forget about it."

Huangzu Fu rubbed his forehead. Things in the Huangzu family were a bit troublesome lately, which made the leader of the family distressed. If something like this happened to Huangzu Yelian in the past, Huangzu Fu might be able to do something about it. And yet, at such a worrying time, fights between children should be put aside.

Huangzu Yelian still wanted to say something, but she held back after seeing her father's exhausted face and buried her unwillingness and anger in her heart.

"Take Yelian out and let her rest these few days."

Huangzu Fu sent Huangzu Yelian away in one sentence. Huangzu Yelian didn't say anything either. She was taken out with a gloomy face. After returning to her house, Huangzu Yelian smashed a chair fiercely with one hand.. Her eyes were glittering with cruelty and her heart had already distorted completely!

“Yun Feng, don’t you think that I dare not do anything to you! And the fucking brother and sister, none of you can get away with this! Hahaha, hahahahaha!”

\*\*\*

After the exam of Masang School of Magic ended, all the candidates had five days of preparation time. Then, they would gather in Park City and the magic teachers, who came to the city this time, would take all the candidates that passed the exam to Masang School of Magic. When they officially entered Masang School of Magic, they would truly become the students of the school.

These five days could be said to be the most relaxing. Mu Canghai also stayed. He was planning to go home after Mu Xiaojin left. Under Mu Xiaojin’s strong request, Yun Feng also stayed with the two of them. They had fun wandering in Park City these few days and bought a lot of interesting stuff.

The Magic Beast Crystals from the group of Lion-Tailed Baboons gave Mu Canghai and Mu Xiaojin enough coins. Although dozens of level-3 and level-4 Magic Beast Crystals weren’t something rare, people would be interested in them and they could be sold at a pretty good price. So the brother and sister didn’t have to worry about money.

As for Yun Feng, the business of the Yun family had already taken the cake in Chunfeng Town. Her sullen father’s economic skills were top-notch and money kept flowing into the Yun family constantly. There was nothing Yun Feng had to worry about.

Tonight, the three of them came to a pub. Yun Feng wanted to treat the brother and sister to a big meal, and Mu Canghai and Mu Xiaojin also agreed happily. This was the best pub in Park City. They had attentive service and the food was really delicious. The three of them were delighted. When they finished eating the feast, the noisy crowd outside also gradually became smaller. They looked at the sky and thought it was time to go back. Yun Feng and Mu Xiaojin held their hands and walked back, while Mu Canghai followed them by himself. Looking at the backs of the two of them, a warm feeling rose in his heart.

They walked towards the hotel they stayed in along the way. When Yun Feng and Mu Xiaojin turned at a corner as they chatted happily, Mu Canghai walked forward and kept up with them, but a black shadow suddenly flashed behind him, smacking the back of Mu Canghai head with a hammer. Mu Canghai’s body swayed and fell down. He only felt something warm flowing from the top of his head slowly, covering his eyes. He could only see a cloud of blood, and nothing else.

Yun Feng and Mu Xiaojin walked a few steps and suddenly felt something wrong. They looked back and didn’t see Mu Canghai. Yun Feng’s heart stopped. She immediately walked back along the same road with Mu Xiaojin without saying anything, but found that Mu Canghai was already lying in a puddle of blood.

“Brother!” Mu Xiaojin ran over as she cried, holding Mu Canghai’s head up from the puddle of blood in panic and enveloping Mu Canghai’s injured head with the light blue water element. Yun Feng looked up and saw that there was already a hole in Mu Canghai’s head. Blood was oozing from inside out and something white could even be seen!

Yun Feng immediately clenched her fists and felt a sudden pain in her heart. Mu Canghai was dead!

“Brother, Brother, hang in there. I have only you left, Brother...” Mu Xiaojin was completely flustered. She used her blue water element desperately, making her forehead covered with sweat, but it was still useless. Mu Canghai lay there quietly with his eyes closed. His handsome face was full of blood stains and Mu Xiaojin’s boiling drops of tears.

Yun Feng narrowed her black eyes abruptly as her body suddenly flashed rapidly and ran towards the other side of the road. Mu Xiaojin didn’t care about what Yun Feng was doing anymore right now. She only held her motionless brother dumbfoundedly and cried her heart out.

Yun Feng’s body had completely merged with the dark. She was much faster than the wind. When that person carrying a blood-stained hammer was about to leave, Yun Feng had already swung her hand quickly and greeted him with a slender but powerful fist. That person fell on the ground without making a noise. His head was already smashed to pieces.

Yun Feng narrowed her black eyes. The person in front of her was apparently the one who killed Mu Canghai. He was a level-5 warrior, the same as Mu Canghai. Mu Canghai might not be prepared for a sneak attack. “Argh!” Mu Xiaojin’s scream was so bright in the somewhat empty alley. Yun Feng became anxious and she immediately rushed over!

When Yun Feng appeared in front of Mu Xiaojin, there were already five people and they were all at around level 5 and level 6. Mu Xiaojin was surrounded by these people with fear in her huge eyes. She looked around in panic, while holding Mu Canghai in her arms. Her face was covered with traces of tears, looking very messy.

“Xiao Feng, Xiao Feng!” Mu Xiaojin was like seeing a savior when she saw Yun Feng. These five people immediately turned around when they heard Mu Xiaojin’s shout and they saw Yun Feng, who had a sullen expression on her face like a killer!

The few of them were all holding weapons in their hands, but they couldn’t harm Mu Xiaojin no matter how they wielded the weapons, because Yun Feng formed a dimension around Mu Xiaojin with her mental strength. Unless there was a powerhouse of the Commander Level here, nobody would be able to break it! Mu Xiaojin was completely safe under the protection of this dimension!

Five people gave way and Yun Feng also saw the girl sitting on the wheelchair. Her cruel eyes and exasperated look made Yun Feng’s heart burn with anger, raging fiercely!

“Bitch, I can’t believe you’re quite smart. You know you have to prepare for defense.” Huangzu Yelian sat in the wheelchair with an evil smile. Looking at lifeless Mu Canghai who was lying in the puddle of blood and had already died without any chance of fighting back, she laughed without restraints.

“Hahaha, whoever hurts me has to die! Do you see that? This bastard is the first one to end like this! This bitch will be the second and you’ll be the third!” Huangzu Yelian said viciously with a lot of craziness in her words. The five warriors standing next to Huangzu Yelian also looked at Yun Feng with a ferocious smile.

#### **Chapter 245: A Life for a Life (4)**

“Even though I don’t know how you did that, it’s still hard for this bitch to escape death! Yun Feng, although you’re a level-6 double-element mage, can you beat a level-7 warrior, hm?” Huangzu Yelian curled up her lips and smiled. A man with scars on his face walked out of the dark. He had a fierce

momentum and his level-7 fighting energy burst out, which made the warriors around give way subconsciously.

Yun Feng looked at the man who walked out. She saw Mu Xiaojin's worried gaze and the messy traces of tears on her face. When she saw Mu Canghai's head with a hole and the blood all over the ground, especially his calm face that could no longer awaken, Yun Feng suddenly smiled.

She flipped her hand as the wand with six holes and six crystals appeared in her hand. Everyone's pupils shrank when they saw Yun Feng's wand. Huangzu Yelian grabbed the back of the chair fiercely. Six holes and six crystals!

Yun Feng held the wand in her hand and slowly lifted her black eyes. "I once said that whoever wants to harm the Yun family will have to go through me first! And I'll never forgive people who hurt my friends!"

Mu Xiaojin's eyes shed tears again. She wrapped her arms around Mu Canghai's body, which was getting colder and colder. She looked at Yun Feng's sullen face with tears welled up in her eyes, and at Yun Feng's eyes that became cold and cruel out of anger. The gentle, warm Xiao Feng became like this because of her and her brother...

"Haha, never forgive people who hurt your friends? I'll see how you do that!" Huangzu Yelian shrieked. That level-7 warrior pounced forward with an extremely high speed, but Yun Feng didn't even look at him. She squeezed her hand at the air abruptly as a huge invisible hand grabbed the warrior's body at his waist. His entire body arced abnormally. The next second, the body of the level-7 warrior had already turned into pieces of flesh and blood rain before he even got close to Yun Feng!

"Boom!"

His body exploded in the air. Blood rain with pieces of flesh and organs splashed onto the ground and other people's faces. Huangzu Yelian sat in the chair dumbfoundedly. She looked at Yun Feng and was already speechless. Her lips only kept shaking and shaking...

"Huangzu Yelian, I want you to return a life for a life!"

"You... You want to kill me..." Huangzu Yelian repeated this with a tremor in her voice. The miserable death of that level-7 warrior just then gave her a huge blow. A level-7 warrior! He was distorted like that in an instant and there wasn't even a whole body left in the end!

The other five warriors were completely dumbfounded. They couldn't help but vomit because of the strong fishy smell. Some of their faces were even covered in the organs and pieces of flesh from the body of the level-7 warrior. When they wiped their faces and saw those terrible things, they couldn't bear it anymore and ran to a corner, throwing up like crazy.

"I'm done. She's a devil. She's a killer!" A warrior looked at Yun Feng with fear in his eyes as he shouted. He didn't care about the others anymore and ran away. Yun Feng gazed at him coldly. She let that warrior escape. The head of the person who killed Mu Canghai had already exploded because of her punch. These people were quite lucky. If they had hurt Mu Xiaojin, they wouldn't be able to escape the fate of death either!

The other warriors didn't dare to run at first. They were afraid that Yun Feng would kill them out of anger if they did. And yet, when they saw that one of the warriors successfully escaped, the others

immediately followed him one after another. They instantly rolled, crawled and ran away. They even yelled as they ran, "Master Yun Feng, that girl commanded us to do these things. We didn't hurt that little girl at all. Master Yun Feng, if you have to kill someone, kill that psychopath!"

"You idiots, get back here. Get back here!" Huangzu Yelian couldn't help but shout in anger when she saw the few warriors run away desperately. She screamed like crazy, but these people didn't even look back and immediately disappeared.

Huangzu Yelian couldn't help but stop shouting. She sat in the wheelchair while panting. Since her kneecaps were injured by Yun Feng, Huangzu Yelian couldn't stand upright at all. She could only sit there with a weak body. She was still a bit confident earlier. And yet, when the level-7 warrior exploded because of Yun Feng's punch, fear rose from the bottom of Huangzu Yelian's heart.

She wanted to run. When those warriors ran, she wanted to move her legs and run. The thing was that she couldn't do so at all right now!

"You... You can't kill me. If you didn't provoke me and injure me first, how would I possibly do this to you? Yes, that's right! You attacked me first. If you want someone to blame, blame yourself!" Huangzu Yelian said with trembling lips and her brain was in complete chaos. A deep aura of death surrounded her entire body. She wanted to move her body, but found that even the slightest courage had disappeared. She spoke without thinking and seemed to find an excuse for her to get out of the situation after that. She continued shouting desperately.

Yun Feng looked at this woman coldly. Her face was as pale as a piece of paper right now and her body trembled constantly in the wheelchair. Yun Feng could see that she was finally afraid. She finally knew what fear was and she finally knew what people she couldn't provoke! However, everything was too late. Mu Canghai was already dead and she also had to die. She must die!

Yun Feng didn't say anything to her. She gently waved the wand in her hand as a giant wolf with an entirely red body appeared in front of her. When the fire wolf showed up, the temperature in the air suddenly rose a few degrees. Mu Xiaojin, who was enveloped by Yun Feng's mental strength, wasn't harmed at all, but Huangzu Yelian was. How would she be able to resist Yun Feng's fire element of the Commander Level with her strength as a level-5 warrior?

Yun Feng was completely enraged. She was so angry that she didn't want to hide her real strength anymore. The fire element of the Commander Level appeared and burnt everything around!

Yun Feng looked at Huangzu Yelian coldly. She wouldn't kill this psychopath quickly. She had to torture her slowly and let her truly experience what fear was, and what death was!

"Argh!" Huangzu Yelian's clothes were ignited by the fire element. After the raging temperature burnt her clothes, it continued penetrating into Huangzu Yelian's skin. Huangzu Yelian screamed. Her scream of fear was like a crow's cry, making people's hearts shake.

## **Chapter 246: Slim Hopes (1)**

**Translator:** Henyee Translations **Editor:** Henyee Translations

However, no matter how loud and how miserable she shouted, nobody could hear her. This dimension had already been covered by Yun Feng's mental strength. No one could hear a single sound inside!

Huangzu Yelian looked at the constantly burning fire elements on her body in panic. She couldn't put out the fire no matter what she did. These terrifying elements seemed to have their own consciousness and they went inside her body like crazy. Huangzu Yelian's exposed skin was immediately completely burnt. The skin turned black and peeled off her body, but there wasn't even a drop of blood, because the blood that oozed out also evaporated instantly because of the fire elements!

"I'm wrong, I'm wrong! Just let me go. I'm begging you. I won't do it again in the future. I swear I'll never lay a hand on you and that girl. Don't kill me. Don't let me die!"

Huangzu Yelian kept twisting her body and yelled desperately.. She shouted her head off, but found that nobody came after a long time and she realized that the cold, gorgeous girl in front of her wasn't someone she could provoke. So, she begged. Huangzu Yelian, who never begged, finally shouted and begged for mercy, but the cold girl didn't waver at all.

Mu Xiaojin slowly lowered her head and looked at her dead brother in her arms as tears rolled down drop by drop. The blood flowing on the ground had already transpired. Other than having blood stains on his cheeks and a hole at the back of his head, everything else of Mu Canghai's body was intact. If people didn't look carefully, they might think that he was just asleep.

Yun Feng's desire to kill surged out at this moment. A strong evil energy rolled around her, showing that she was enraged right now! Huangzu Yelian's continuous begging and painful cries merged together completely. However, Yun Feng didn't even move her eyebrows and the quiet fire wolf next to her also looked at Huangzu Yelian with the viciousness of a beast in its fiery red eyes.

The skin on her body had already fallen off. Huangzu Yelian looked like a fetus without skin. The blood clots on her face were ghastly. Regardless of those eyes and the human shape, people would think that she was a monster when they saw her.

Huangzu Yelian didn't have the power to shout anymore. The fear and panic in her eyes at first became struggles and prayers, then returned to cruelty and viciousness as usual.

"Yun Feng, the Huangzu family won't let you go. My father won't let you live!" Huangzu Yelian smiled ferociously. Her mouth that had no lips suddenly opened wide, looking vicious. Yun Feng also gave her a smile.

"I've heard this a lot of times. The first person to say this has already gone down there. And now, there's you." A trace of viciousness flashed through Yun Feng's black eyes. The giant beast next to her suddenly opened its mouth wide and the wolf body formed by the fire elements pounced on Huangzu Yelian abruptly. It opened its huge mouth, swallowing Huangzu Yelian. The fire elements immediately formed a ball and wrapped tightly around Huangzu Yelian!

"Argh!" It sounded like the last cry before dying. Huangzu Yelian's painful shout echoed in this dimension. The fire elements soared to a height and there were some small crackling sounds, like a giant beast chewing a bunch of bones, which sounded extraordinarily miserable in the silent night sky.

The fire elements gradually dissipated and the place where Huangzu Yelian was located just now had already been swallowed until nothing was left!

Yun Feng slowly turned around and saw that Mu Xiaojin was still sitting there dumbfoundedly while holding Mu Canghai. She walked over and tried to carry Mu Canghai's body, but Mu Xiaojin stopped her.

"Xiao Feng, can you burn my brother too... I want his ashes. I want to carry him with me and stay with him forever..." Mu Xiaojin cried again and she spoke intermittently while choking strongly. Yun Feng felt her heart ache and she nodded quietly. A ball of fire elements then surrounded her wand as Yun Feng waved gently and the fire elements went to Mu Canghai's body.

Unlike the original personality of the fire element, this ball of fire elements carried incomparable tenderness, like a gentle fire caressing Mu Canghai's closed eyes and cheeks. Mu Canghai's body gradually deformed and became smaller in the fire, while Mu Xiaojin's tears fell inside drop by drop, integrating closely with Mu Canghai's body, which had completely turned into ashes.

There was no wind in this dimension, so Mu Xiaojin didn't have to worry about the ashes being blown away. She carefully took out a small bag and put Mu Canghai's ashes inside. She was so careful that she didn't miss a bit of the ashes. When Mu Xiaojin put all the ashes into the bag, she tied it up and put it in her clothes in front of her chest.

Yun Feng came up and patted Mu Xiaojin's shoulder. Mu Xiaojin pouted as she went into Yun Feng's arms and the crying she had been suppressing was released at this moment. Yun Feng felt that the clothes on her chest were soaked by Mu Xiaojin's tears.

She cried so hard that her heart was torn and her lungs cracked. She cried so hard that her liver and intestines broke. Her only family member, her only brother, died just like that. If Yun Feng were her...

Imagining if something bad happened to her brother, Yun Sheng, and her father, Yun Jing, Yun Feng felt a burst of enthusiasm in her brain. She truly believed that if something really happened to her family, she would kill them, regardless of their strength and identity. If they were Gods, she would kill the Gods. If they were demons, she would kill the demons!

"Hey... Kid, comfort that little girl and ask her not to cry quickly." The ancestor's voice came slowly. Yun Feng didn't answer. If she didn't let Mu Xiaojin vent her emotions at this moment, it would be a torture to her.

"Kid, you're not listening to me? Hey, tell this little girl, if she keeps crying, her brother will never be able to come back!"

Yun Feng only felt that a beam of harsh light suddenly shot out of the cloudy sky. The sorrowful atmosphere just then was cast over by a layer of hope!

"Xiaojin, don't cry, don't cry!" Yun Feng dug Mu Xiaojin out of her arms in panic and quickly wiped off her tears with her hand. Mu Xiaojin looked at Yun Feng in confusion and had no idea what she was doing.

"Ancestor, tell me quickly. Will Mu Canghai be able to survive?" Yun Feng anxiously yelled at the ancestor in her mind. The ancestor mumbled pretentiously, "This kid shouted at me for a man. I shouldn't have said that..."

## **Chapter 247: Slim Hopes (2)**

Yun Feng really wanted to roll her eyes at the sky! The ancestor said something like this at this moment. "Ancestor, can Mu Canghai come back to life or not?" Yun Feng repressed her emotions, but she was still very nervous. Mu Xiaojin looked at Yun Feng with changing expressions and asked in confusion, "Xiao Feng, what's wrong? Please be okay, Xiao Feng..."

Yun Feng gave Mu Xiaojin a beaming smile as she wiped off the tears in her eyes that were about to drop out. "Don't cry first. I'll explain to you later."

Mu Xiaojin nodded obediently. The pain of losing her brother still lingered in her heart. Yun Feng was the only person Mu Xiaojin could rely on right now. Mu Xiaojin obeyed what Yun Feng said and forced the tears in her eyes back. Her little face was entirely red, which made Yun Feng anxious when she saw that.

"Alright, alright, you kid, really..." The ancestor complained again before finally saying seriously, "Theoretically, Mu Canghai is dead, but he's still alive for some people."

"What does that mean? Who are those people? What method is needed? What do they need?"

"Kid, which of your questions do you want me to answer first?" The ancestor said with a smile. Yun Feng immediately blushed a little. "Ancestor, go ahead. I won't interrupt."

"Tut-tut, do you have a crush on Mu Canghai? Ahem, forget about it. Let's not talk about this right now. I'll carry on. For some people, normal death can't be considered real death. In the perspective of these people, only when the soul and body completely vanish can the person be regarded as truly dead. As long as there's still a part of the body or memory left, it means that this person is still alive and not dead. The remaining part of the body and memory is the source of rebirth, so people with a normal death can be reborn and even reshape their bodies!"

There was a burst of shock in Yun Feng's heart. What kind of a theory was that? These people could manipulate death and rebirth. Didn't it mean that they completely controlled life and death in their hands?

"There's a unified name for these people. They're someone that people are familiar with but seldom see, dark mages!"

A dark mage!

The ancestor continued, "Among the seven elements, the light element and the darkness element are special elements. There can only be one light or dark mage in ten thousand mages, and it isn't necessarily the case. Light mages have the most powerful healing power. They advocate the restoration and return of life. Although most dark mages use offensive magic, they have a powerful ability that brings people back to life."

"Ancestor, do you know any dark mages?" Yun Feng asked as she pondered in her mind. As long as she found a dark mage, Mu Canghai would still have the chance of coming back to life!

"Do you think any dark mage can bring people back to life? Haha, kid, only dark mages who have reached the Lord Level have this ability!"

The Lord Level... Yun Feng's body shook slightly. The Monarch Level was above the Commander Level and the Lord Level was above the Monarch Level. How would there possibly be a mage of the Lord Level on the East Continent?

"I know a mage who's reached the Lord Level, but kid, do you really want to take care of someone else's business? After all, Mu Canghai isn't related to you. However, if you have feelings for this kid, I'll certainly support you, even though I'm not quite satisfied with him."

Yun Feng was truly speechless. What did it have to do with this matter? The ancestor could really think about these two things together. "It's not that. I am responsible for Mu Canghai's murder. It was my negligence that caused his death. Besides, the two of them are my friends. If there's a way that can bring my friend back to life, how can I possibly give up just like that?"

The ancestor burst into laughter. "Kid, you really inherited the Yun family's personality of cherishing affection and personal loyalty. Great, great! You must know that due to the physique of people on the East Continent, there are a total of less than ten thousand mages, but that isn't the case on the West Continent. The numbers of mages and warriors on the West Continent are always balanced. The magic level of the West Continent is far beyond that of the East Continent, so there can only be mages of the Lord Level on the West Continent."

"What about the Central Continent? Can't there be any mages at the Lord Level?" Yun Feng asked. If she couldn't find one on the West Continent and there were some on the Central Continent, she would still have a second chance!

"Speaking of the Central Continent, they don't really have much contact with the East Continent and the West Continent. I haven't been there either. It's very mysterious. Kid, if you have the chance in the future, you can travel there and broaden your horizon."

Yun Feng agreed at the bottom of her heart. The ancestor then continued, "Even though the West Continent has far better magic skills than the East Continent, they have only a few mages at the Lord Level. As far as I know, the number stays a single digit. The mage of the Lord Level I know about is the titular president of the Magic Union on the West Continent."

"The titular president?"

"Yeah, because this titular president has never showed up before like a ghost, whether it's before or after becoming the president. Apart from the few senior management personnel, other people don't even know if the president is a man or a woman and they have no idea about the whereabouts of this titular president. Perhaps the president is right before you and you won't know about it."

Yun Feng frowned tight. There were already very few mages at the Lord Level. She wouldn't expect to find any on the East Continent and there were only less than ten on the West Continent. How many of them would be a rare dark mage? The high hanging ratio truly made the original hope become even slimmer!

"This titular president is a dark mage?"

"Haha, I'm not sure, but might be. Kid, do you still want to go in this case?"

Yun Feng didn't even take time to think. "Yes! As long as there's a glimpse of hope, I'll bring Canghai back to life no matter what!"

The ancestor smiled with satisfaction. The personality of the children in the Yun family was like this. In fact, Yun Jing was the same, but there wasn't a brother he could do this for in the previous circumstance of the Yun family. And yet, Yun Feng was different. She made friends. Although she hadn't known the brother and sister for a long time, she had already given them a definition in her heart, friends!

### **Chapter 248: Slim Hopes (3)**

"You must plan everything well. The West Continent isn't like the East Continent. You can't rush this," the ancestor said.

Yun Feng also knew that she couldn't just go to the West Continent. Her current strength was far from enough for traveling across continents. Besides, dark mages were so rare. There was only slim hope. She wasn't sure if that titular president was one or not. Even if she was certain, it was difficult to find him as well.

All kinds of problems were placed in front of Yun Feng. Even though she was struggling in this matter right now, she wouldn't give up. She would definitely not give up!

"Xiaojin." Yun Feng said. Mu Xiaojin looked at Yun Feng with her huge watery eyes. Yun Feng gently caressed her little face. "Would you believe me if I say that we can still save Canghai?"

Mu Xiaojin immediately widened her eyes as tears dropped again uncontrollably. Yun Feng instantly wiped the tears off with her hand gently when she saw that. Mu Xiaojin's lips shook slightly. "Are... Are you serious... We... We can still save my brother?"

Yun Feng smiled with a hint of frustration in her tone. "There's a way, but the chance that he can come back to life is very small, or even a little slim..."

"I believe you! I'll believe whatever you say, Xiao Feng!" Mu Xiaojin suddenly interrupted Yun Feng as light burst out of her huge eyes. That was complete trust and support!

"Good! As long as you believe me, I'll do everything I can to bring Canghai back to life!" Yun Feng nodded and promised Mu Xiaojin. She also made a promise in her mind. No matter what, as long as there was a glimpse of hope, she wouldn't give up and she would try her best to bring her friend back to life, even if there was only a slim chance!

Mu Xiaojin suddenly stopped crying and smiled. Having experienced the sadness and joy just now, she could be considered to have experienced a rare stage in life. Mu Xiaojin seemed to have grown a lot at this moment and her original innocence had faded. At some point, this little butterfly had undergone a metamorphosis.

"Put away that bag. Without that, Canghai won't be able to come back." Yun Feng said as Mu Xiaojin nodded. "I'll take it with me. I won't put it down at any time."

Yun Feng nodded as she waved her hand gently and removed the blockade she formed with her mental strength. In a blink, the choking smell of smoke and an unknown smell in this space continued to spread and the messy situation in here was also exposed.

Yun Feng gave it a thought and the green Ring of Contract appeared in her hand. Mu Xiaojin couldn't help widening her eyes in shock. She looked at Yun Feng with endless surprise in her black eyes. Yes, a summoner that was hard to find showed up in front of her. It would be weird if Mu Xiaojin wasn't stunned.

Yun Feng smiled gently. "Xiaojin, you'll be my family from now on."

This made Mu Xiaojin's mind, which had just been calmed, emotional again and she was about to burst into tears. She just lost her brother, but got another family. Mu Xiaojin wanted to cry. She really wanted to cry...

"Lan Yi, come out." Yun Feng said gently as a beam of green light shot out of the Ring of Contract. The handsome Lan Yi appeared in front of Mu Xiaojin. Mu Xiaojin opened her mouth slightly and wasn't able to speak. Was that... a Magic Beast? A Magic Beast that could transform into a human being? What level was Xiao Feng at exactly?

Lan Yi looked at Mu Xiaojin in slight confusion, but he didn't ask any questions as Yun Feng wasn't saying anything. Yun Feng told Lan Yi what she wanted to do in her mind and Lan Yi immediately transformed into his original Magic Beast form. When the giant, beautiful Griffin appeared on this small street, half of the walls of the street were cut off completely by Lan Yi's wings, which made the originally messy place even more chaotic.

Yun Feng held Mu Xiaojin with one hand and hopped gently on Lan Yi's wide back with her. While Mu Xiaojin was still dumbfounded, Lan Yi's wings had already flapped abruptly. In the thunderous sounds caused by the collapsing walls, a beam of blue light shot from a corner in Park City straight into the sky!

"Xiaojin, hold on tight!" Yun Feng whispered in Mu Xiaojin's ear as Mu Xiaojin nodded in the wind and held Yun Feng's clothes with her little hands. Under her body was the soft and smooth fur of the Griffin. Mu Xiaojin looked at Lan Yi curiously. When she saw the patterns on Lan Yi's giant wings, she felt dizzy.

What Magic Beast was this? It was enormous and beautiful. She had never seen one before... Xiao Feng could get such a Magic Beast. That was truly... impressive!

A beam of blue light flashed over the night sky above Park City. It was so swift that it looked like a blue shooting star. People in Park City who were still awake looked up and shouted out of surprise. Some of them even started closing their eyes and made a wish.

After the beam of blue light left Park City, it flashed towards the Shiny Plains rapidly. After a while, it arrived in the place where the mercenaries were stationed on the Shiny Plains. Lan Yi hovered in the sky a few rounds as Yun Feng looked over carefully with her black eyes. There were over a hundred small tents in the two-star area. Lan Yi suddenly stopped above the two-star area. Yun Feng could still see quite clearly at such a far distance. Because of the transformation of the Array of Life, her altered bodily functions had already reached an extremely terrifying level.

Looking around briefly, Yun Feng finally found the logo of the Royal Mercenary Group. Her red lips curved up slightly and she gently let go of Mu Xiaojin. "Lan Yi, protect her."

"Yes, Master."

Yun Feng stood up on Lan Yi's back as her black hair fluttered in the wind in the night sky slowly. Her beautiful black eyes gazed at everything below from high above like God!

She waved her slender hand gently and her mental strength burst out silently, enveloping the tent of the Royal Mercenary Group completely and sealing the dimension!

Yun Feng suddenly jumped off Lan Yi's back, creating a whooshing sound of the wind. Mu Xiaojin couldn't help yelling anxiously after seeing that, but Lan Yi said with a smile, "Such a height isn't a problem for Master."

Mu Xiaojin sat on Lan Yi's back carefully and was relieved after seeing Yun Feng land on the ground safely. She knew what Yun Feng was doing and everything she did was for taking revenge for her brother!

In the Royal Mercenary Group, everything was the same as any other day. A dozen slack mercenaries were taking a nap inside the tent, while a few other brothers were out and hadn't come back yet.

#### **Chapter 249: Slim Hopes (4)**

Yun Feng opened the curtain and walked inside. The mercenaries couldn't help mumbling in confusion after seeing that, "Where are you from? Don't you know where this is? Get out of here now!"

However, Yun Feng looked cold as she glanced around. It turns out there are only a dozen of them? Haha, even though it's a small number, this is just the first one!

A ball of fire suddenly came out of the tent of the Royal Mercenary Group and miserable cries also sounded continuously, but the other mercenary groups didn't do anything at all. They didn't even stick their heads out to have a look. This space had already been separated by Yun Feng completely!

In less than a minute, a small figure walked out of the tent of the Royal Mercenary Group. When Lan Yi in the air saw that, he immediately flew over and Yun Feng's body also flashed as she hopped out of the area of the two-star mercenary group. After stepping back on Lan Yi's back again, Yun Feng looked in the direction ahead.

"Go to the Mercenary Union in Ge Yuan. I have to eliminate the Royal Mercenary Group completely!"

How much could happen in a night? In the dozen hours when people were in their dreams, something weird happened in several places.

In some alley in Park City, the walls around were damaged by someone and none of them were intact. There were also burnt marks everywhere in the scene. A huge area of black color covered the ground and there was a pungent smell flowing in the air. A lonely wheelchair was left there. There was a blurry print on the back of the burnt chair. That was a logo that people in Park City were familiar with. It belonged to that domineering, infamous Huangzu family.

Who was the person in the wheelchair? This was the question in the minds of people in Park City. Many people were guessing if this was a fight of revenge. Judging from the large area of traces, the two people involved in the fight were both someone who couldn't be trifled with!

The next day when sunlight shone over Park City, this messy alley entered people's sight. In a blink, news spread like the wind. There was another thing that people in Park City could discuss. Apart from

the magic exam of Masang School of Magic this year, this messy alley that was full of mystery and what exactly happened there became the subject that people in Park City talked about.

When Ted rushed to the alley, he, as a mage, knew clearly what was left in the air, even though the others might not be able to feel it. It was the fire element!

After one night, a little fire element was still floating in the air. This proved that whatever happened here yesterday involved a mage! It was even a fire-element mage with excellent ability!

Thinking about this possibility, Ted's face couldn't help turning pale. Among the teachers who came to Park City this time, no one was a fire-element mage, except for that kid! Ted looked at the messy scene here. There must have been a brutal fight last night. The burnt mark was so large. It seemed that this kid used the fire element out of anger. Who exactly wasn't afraid of dying and provoked that girl?

Ted looked around the scene and saw the remaining wheelchair. The wheelchair was made of extremely good material. It seemed to be a fire-proof material, or it wouldn't stand until now. Perhaps Yun Feng didn't notice that it was still here. When Ted saw the blurry logo on the back of the chair, Ted frowned slowly again. That logo should belong to some family. Perhaps...

"Move! Get out of my way!" A rude, deep shout came. The crowd around was pushed away abruptly. People all looked at the husky man who pushed them furiously. When they saw the few people behind him, they were all angry but dared not speak as they gave way. The arrogant Huangzu family was here!

The husky man pushed the crowd away and the two people behind him came to the front. When Huangzu Fu saw the wheelchair at the scene, his face immediately turned pale. He stared firmly at the wheelchair with his black eyes. After a while, he finally spoke slowly, "Yelian..."

Ted turned around and had a look. When he saw that the people who came were from the Huangzu family, he couldn't help feeling a bit shocked. He also realized in his mind afterwards that only someone from the Huangzu family, who didn't know their place, would dare to provoke that kid. Although Ted had just come to Park City for a few days, the Huangzu family's "prestige" in Park City was truly far-reaching!

"Who did this? I want to know who! I want that person to die!" Huangzu Fu shouted with a hoarse voice. Looking at the messy traces at the scene, he felt a bit dizzy and enraged. His face flushed and turned pale at the same time. He asked her to stay at home to rest. He said she should let this matter go. And yet, he had never thought that this kid would refuse to listen to him and sneak out alone. When the Huangzu family couldn't find her in the morning, they heard the news. Huangzu Fu immediately came over without caring about anything in the Huangzu family.

"Send someone out for an investigation. We must find out what happened!" Huangzu Fu said fiercely. He wanted to know the truth no matter how much it would cost!

Ted stood there with a little anxiousness in his mind. Even though the Huangzu family weren't people to be afraid of, they were still trouble. Would that kid truly be fine by herself? The girl still couldn't be considered an official student at Masang School of Magic right now. Even if Masang School of Magic wanted to protect her, they couldn't really have a reasonable reason. Ah, kid, you really have a lot of troubles!

Huangzu Fu asked someone to carry the burnt wheelchair home and sat in the main seat silently for a long, long time. In fact, he didn't have to investigate this matter. Huangzu Yelian must have provoked someone. Who else could she provoke? It must be that double-element mage!

When Huangzu Fu went to the scene, he was still thinking how impressive a double-element mage could be and he wanted to take revenge for Huangzu Yelian. However, when he saw the large area of scorched ground and Huangzu Yelian's body that didn't have anything left, Huangzu Fu's heart started pounding.

One daughter died, and that was it. In fact, there wasn't only one child in the Huangzu family, but Huangzu Yelian was the most favored one. Huangzu Fu was more or less a bit heartbroken. However, offending a double-element mage, especially an extremely talented one, because of the death of a child... Huangzu Fu knew what was more important. Comparing the Huangzu family with a child of the Yun family, the Yun family would certainly be the priority.

Huangzu Fu only said those things earlier as a formal remark. Even though he knew Yun Feng did that, he was also planning to put this behind him. Huangzu Yelian's death was a consequence of her own actions. She just reaped what she sowed.

### **Chapter 250: The Powerhouse Is Coming (1)**

Thinking of this, Huangzu Fu finally calmed his mind. He was still a bit heartbroken, but as the leader of a family, family affection had already turned into interests. He would just discard people who were useless.

Huangzu Fu sat there and he gradually began to look better. What happened to Huangzu Yelian only stayed in his mind for a few minutes before he had already put it behind him. Huangzu Yelian was truly a tragedy from the beginning to the end.

Huangzu Fu was worrying about other matters of the Huangzu family. The Royal Mercenary Group couldn't succeed in the Mercenary Union after all. Even though the Royal Mercenary Group had tried their best to recruit members, the ones they took in were all low-level people. Even though the two-star mercenary groups in the Mercenary Union were similar to that, it was difficult for the Royal Mercenary Group to develop further.

They couldn't establish any relationship with the three-star mercenary groups. The two-star mercenary groups were mostly as bad as they were and they didn't want to have anything to do with the one-star mercenary groups. As for the four-star and five-star mercenary groups, the Royal Mercenary Group didn't even dare to think about it. Huangzu Fu pondered for a long time, thinking about how he could open the passage for the Royal Mercenary Group. This was also the problem that had been bothering him these few days.

While thinking of this, someone suddenly opened the door and ran inside. He staggered and directly collapsed on the ground without standing still. Huangzu Fu couldn't help but frown when he saw that. "Why are you in such a panic? What's wrong?"

The person who came in stood up as he trembled and he glanced at Huangzu Fu several times. He then said with a tremor in his voice, "M-Master, something... something happened... to... to the mercenary... the mercenary group..."

“What did you say?” Huangzu Fu suddenly shouted furiously. The person who came was so scared that his legs became like jelly and he almost fell on the ground. He immediately knelt down without lifting his head and yelled, “We’ve just got news that the bases of the Royal Mercenary Group on the Shiny Plains and the Mercenary Union in Ge Yuan were all destroyed last night! No one survived!”

“How is that possible?” Huangzu Fu was so shocked that he got up from the chair. Blue veins appeared on the backs of his hands. All destroyed? No one survived? In one night?!

The person who reported the news trembled as he knelt there. His head was still touching the ground after all. Seeing that Huangzu Fu wasn’t talking, he said fearfully, “M-Master, I... I’ll leave first...” Before Huangzu Fu said anything, he quickly got up and ran away until he disappeared.

Huangzu Fu stood in the main hall alone dumbfoundedly. A few thunderbolts seemed to have struck in his mind. In one night, the Royal Mercenary Group was exterminated by someone!

The fire of rage burnt fiercely. Huangzu Fu was so enraged that he gritted his teeth! He spent so much effort in building the Royal Mercenary Group! And he spent so much effort to enter the Mercenary Union! He spent so much effort in making it a two-star mercenary group!

After putting in so much energy in it, everything was destroyed in one night, and was destroyed so completely! Wasn’t this person trying his bottomline?

Anger, heartache, hatred, all kinds of emotions constantly surged in Huangzu Fu’s chest, making his eyes slightly red. He might be able to forget about the matter of Huangzu Yelian, but definitely not the matter of the mercenary group! How could he just let it go after his roots were pulled out?

The Huangzu family relied on the mineral veins of the mercenary group to make a living. And now that the mercenary group was gone, the Huangzu family would soon be gone as well! Huangzu Fu clenched his fists abruptly as he gritted his teeth, making some clattering sounds. Double-element mage, Yun Feng? Even if you’re a talented genius, even if you have outstanding abilities, so what? You killed my daughter and destroyed my family business. You won’t be able to resist my anger no matter how talented you are!

Huangzu Fu suddenly took out a white jade pendant from his sleeve and sent his thoughts inside as the Sound Transmission Jade flashed several times. Huangzu Fu waited while holding his breath, as if he was waiting for a heavy hitter to arrive.

The jade pendant flashed a few times again. Finally, a deep and impatient voice sounded, “Are you looking for me?”

Huangzu Fu looked surprised after hearing that. His expression seemed to be a bit ferocious. “Master Baili, I indeed want to ask for a favor.”

The other side of the jade pendant went silent for a few seconds and it flashed again. “Have you made up your mind? I only owe you once.”

Huangzu Fu choked. This heavy hitter only owed him once and the favor was owed by accident. Huangzu Fu could be said to have gotten a huge bargain. Being able to get a favor from a powerhouse was even more exciting than receiving a piece of high-level ore!

Huangzu Fu had never asked this heavy hitter for help for so many years, because there was only one favor. He certainly had to use it well! Even when the Royal Mercenary Group needed help the most, Huangzu Fu wasn't willing to use the chance, but now, it was different. The Royal Mercenary Group was gone! The business he established with hard work was destroyed and uprooted by someone! A huge amount of energy was wasted and all the ideas were just empty talk. If he didn't get back everything he had, he would probably be unable to sleep well every night!

Huangzu Fu gritted his teeth secretly. Thinking about the burnt, chaotic scene, thinking about the mercenary group he established being destroyed in one night, hatred rose like raging waves in his mind. It couldn't be calmed. It was clamoring and wanted to swallow everything!

"Yes, I've made up my mind. Master Baili, please help me this time." Huangzu Fu said softly. The other party seemed to be relieved as well. A powerhouse wouldn't owe favors easily. A favor represented a request from someone, not to mention this someone was a person like this. The other party didn't seem to be comfortable in his mind either. And now, he could finally return the favor, which was a good thing.

"Hm, what do you want me to do? I must tell you that if this person isn't someone I can provoke, you should ditch the idea as soon as possible!" The voice suddenly became fierce. Even though the person wasn't right before Huangzu Fu's eyes, Huangzu Fu still couldn't help trembling. Powerhouses had their own rules. Although this person owed Huangzu Fu, it didn't mean that he would risk his life for him!

A few drops of sweat fell from Huangzu Fu's forehead and his face also became a bit pale. "Don't worry, Master Baili. I want you to kill an enemy of the Huangzu family this time."

"How's the strength of the other party?"

Huangzu Fu gritted his teeth, creating some clattering sounds. What a cunning powerhouse. If she was truly as powerful as he was, wouldn't this request be screwed? Huangzu Fu chuckled. "It's just a level-6 mage, one that you can kill with one hand, Master Baili."
