

Summoner 251

Chapter 251: The Powerhouse Is Coming (2)

The other side of the jade pendant went silent for a while again, then started glittering. "Huangzu Fu, if you dare to deceive me, you need to know the consequences of angering me."

Huangzu Fu's body shook again. "Sure, sure, I certainly know that. Master Baili, please help me this time."

The jade pendant shone a few times again. "What's the name of this person?"

Huangzu Fu immediately became sullen and he shouted out a name with red eyes. "Yun Feng."

The other side of the jade pendant went silent again, while Huangzu Fu waited a bit fearfully. Perhaps Master Baili changed his mind? Didn't people say that powerhouses never went back on their words? Thinking of this possibility, Huangzu Fu went into a panic. With the Huangzu family's strength, they couldn't lay a hand on Yun Feng at all. If they couldn't kill that kid, it seemed that Yun Feng would destroy everything of the Huangzu family, judging by her moves right now!

"Huangzu Fu, you're so courageous. You're keeping quite a lot of things from me!" The voice became fierce abruptly. Huangzu Fu's hand shook and he almost dropped the Sound Transmission Jade on the ground.

"Master Baili, what do you mean? I really don't understand..."

"You don't understand? Yun Feng is a double-element mage. You didn't tell me that!"

Huangzu Fu turned pale. How did Master Baili know about Yun Feng's condition? Didn't she just show that she was a double-element mage during the exam this year? What exactly was going on... "Well, I don't know about it either. Master Baili, you misunderstood me. If I knew, I would definitely have said that." Cold sweat appeared on Huangzu Fu's forehead. He was originally trying to pull a smart trick, but Master Baili had surprisingly heard about Yun Feng. What exactly was wrong with that kid? If Master Baili didn't do anything, the Huangzu family could only wait to be exterminated!

"Hm! You're indeed someone who causes trouble. And now, you even want me to wipe your ass for you. Don't you think you're dirty? Since I owe you a favor, I'll return it so as not to make bigger trouble for myself! It's impossible for me to kill Yun Feng. I can only teach her a lesson for you at best."

Huangzu Fu's face turned very pale again. This person owed Huangzu Fu a favor, but he was being scolded by this person right now, which made him frustrated. It was even worse right now. He originally said he wanted to kill that kid, and it changed to giving her a lesson. What was the use of giving her a lesson? If the person patted his butt and left after giving her a lesson, wouldn't the Huangzu family be the one who would suffer?

Huangzu Fu was so enraged that his entire face flushed. He felt that these powerhouses were all bastards! A group of bastards who acted like they were morally better than the others! However, how would he dare to say anything? He could only remain silent with a flushed face! He could accept teaching her a lesson. If the powerhouse refused to do so, even this lesson would be gone!

“Master Baili, please give Yun Feng a lesson. Let her know there’s always someone better than her!” Huangzu Fu said as a deep laugh came from the other side of the jade pendant.

“Huangzu Fu, I’ll just give her a lesson. Don’t try to drag me into your problems. I still have that qualification! I’ll go to Park City in two days!” The Sound Transmission Stone flashed a few times before it completely stopped shining. Huangzu Fu held it firmly in his hands and felt that enthusiasm rolled in his chest continuously.

The anger and hatred Yun Feng caused him didn’t reduce. Another wave came again. This was fucking suffocating, truly suffocating! Huangzu Fu narrowed his eyes and looked at the Sound Transmission Stone, hoping that what he said just then would be effective. A talented genius like Yun Feng would never admit defeat. If she angered Master Baili, hahaha, that would be interesting!

A ferocious smile appeared at the corners of Huangzu Fu’s mouth. Yun Feng, you dared to pull out my roots. This time, you’re going to have a hard time!

Yun Feng destroyed everything the Royal Mercenary Group had in the Mercenary Union in Ge Yuan in one night. This move also caused quite a huge panic in the Mercenary Union, because other mercenary groups didn’t notice anything the night the Royal Mercenary Group was eliminated! They only found out that the building that originally belonged to the Royal Mercenary Group was already gone completely the next morning. They really disappeared cleanly and completely.

Chaos had spread around the Mercenary Union since that day. Every mercenary group was a bit anxious. Someone who was able to kill like this must be an absolute powerhouse. Although this powerhouse only did that to the Royal Mercenary Group, his or her hand might reach towards them someday!

The Mercenary Union was also filled with a nervous atmosphere. Even those five-star groups were a bit anxious and were highly guarded. The Red Maple Mercenary Team was certainly talking about this. In the end, they decided to strengthen their protection, just in case of unexpected events.

The mercenaries of the Red Maple Mercenary Team also sighed. They all exclaimed constantly that it would be great if their Young Lady was here, as if they wouldn’t be afraid of any powerhouses if Yun Feng was present. Even Zhao Mingqi thought like this and said directly that it would be wonderful with Yun Feng here.

They had no idea that such swift, lightning-like killing was done by their Young Lady.

After dealing with the Royal Mercenary Group, Yun Feng immediately flew back to Park City that night and brought Mu Xiaojin back to the hotel they were staying to rest. Mu Xiaojin suffered a lot that day and she was still a bit dispirited. Yun Feng let Mu Xiaojin rest and stayed at the hotel with her. She decided to stay by Mu Xiaojin’s side until they entered Masang School of Magic, so that nothing could ever happen to her.

The place where Huangzu Yelian died miserably had already been cleaned by someone a long time ago and this also spread to Yun Feng. Yun Feng sneered at the bottom of her heart. With the strength of the Huangzu family, they wouldn’t dare to provoke her, or they wouldn’t have been so quiet these couple

days. Yun Feng wasn't worried either. If the Huangzu family wanted to look for trouble with her, she would kill whoever came to her, whether it was a pair or a group of people!

Even if they wanted to do anything to the other members of the Yun family, Yun Feng wasn't worried at all. The Yun Army would never let anyone harm Yun Jing and her brother was even safer at Masang School of Magic. Since both of her family were safe and had nothing to worry about, Yun Feng was completely relieved.

Spending a few days in Park City, Mu Xiaojin's health was already slightly better. She was sleeping in bed at this moment and the night sky outside was quiet and calm, as if there was only the breathing sound of people sleeping. However, Yun Feng didn't feel sleepy at all. She stayed next to Mu Xiaojin's bed and looked at her frowning, sleeping face.

Chapter 252: The Powerhouse Is Coming (3)

This was the house where Mu Canghai and Mu Xiaojin stayed together. There was another bed next to Mu Xiaojin's, where Mu Canghai originally slept. Ever since that night, Yun Feng had been here with Mu Xiaojin, staying with her all the time. Although Mu Xiaojin didn't have the sorrow and pain she had that night again, her expressions still showed that sometimes she wasn't feeling good at the bottom of her heart.

Even though there was a possibility that Mu Canghai would come back to life, the chances were really slim. Even so, it was enough for Mu Xiaojin.

Yun Feng watched Mu Xiaojin sleep while frowning and felt heartbroken. She couldn't help but caressed Mu Xiaojin's frowning eyebrows gently with her hand. Sitting quietly next to her, Yun Feng was also in a bad mood. Injuries needed time to heal. Only through the healing of time could Mu Xiaojin forget the pain gradually. Hopefully, after getting to Masang School of Magic, she would be better. Yun Feng suddenly remembered her brother. By then, Mu Xiaojin would have a brother to love her as well. With her brother's gentle personality, he would definitely be able to make Mu Xiaojin feel better.

Yun Feng was more or less comforted in her mind when she thought about this. When she remembered what the ancestor said about the West Continent, a thought came to her mind. Among the things that her Master had given her so far, there was a chorography about the continents. With her Master's experience, he should have quite a deep understanding of the West Continent!

Thinking of this, Yun Feng immediately took out the chorography. A very thin booklet appeared in Yun Feng's hands. There were a few vigorous and powerful words on the surface of the booklet, which also highlighted the arrogance of her Master: The Vast Chorography.

Yun Feng turned to the first page and saw the brief summary of the continent, the distribution of the few continents and some other places on this planet, other than the Vast Continent. Yun Feng looked at the simple map drawn by her Master and was slightly astonished. Her Master was indeed an extraordinary person. He had already explored places other than the Vast Continent? Seeing the few islands marked beyond the border by her Master, Yun Feng finally realized that this world was countless times larger than she imagined. Her Master still hadn't explored everything, because this simple map only showed part of the places. There were still a lot of blank areas!

Yun Feng was in awe of how vast this land was and she was also guessing which level her Master was at secretly. The Lord Level? Or a level higher than the Lord Level? Thinking of the strength level above the Lord Level, Yun Feng's mind became warm out of excitement. What would such a level be like? And what would people at that level encounter? If even her impressive Master was trapped and couldn't escape, which level would she need to reach to save him?

A strong fighting spirit surged abruptly in Yun Feng's mind. No matter what, she must put her Master's matters first, since she took on his mantle. Her Master was still alive, waiting somewhere for her, his disciple, to save him. She would definitely work hard. She must work hard to improve her strength!

Yun Feng looked at the chorography briefly. Her Master's descriptions of the East Continent and the West Continent were very accurate. There was even a detailed description of every place in the East Continent. Everything was there. Although information about the West Continent was relatively little, it still gave Yun Feng a general idea that there were three kingdoms.

What made Yun Feng most surprised was the Central Continent. Master's description of the Central Continent was only a short note, nothing more!

"It's so mysterious..." Yun Feng stared at the spot on the map that was marked as the Central Continent and murmured. Why was this continent so mysterious? Who lived on this continent? Perhaps not human beings? Why was it so isolated? What other secrets were there on this continent?

The Central Continent that was the size of a hand expanded infinitely in Yun Feng's eyes with layers of fog. Yun Feng had a feeling that she would have some encounters and meet some people, and that something would happen...

The night sky was silent. However, Yun Feng suddenly glanced out of the window and quickly put the chorography in her hand back into the Bracelet of Dimension as she used her mental strength to envelop Mu Xiaojin's entire body swiftly. After doing all this, Yun Feng's body immediately turned into a shadow, disappearing from the house. The wind element in her body emitted a faint green color around her, which made her entire body look like a beautiful flying firefly.

Yun Feng stood outside of the hotel quietly. After a few seconds, someone walked right towards her. He seemed to show up in a blink, so quickly that people couldn't see where he came from at all.

Yun Feng curled up the corners of her mouth slowly as she looked at the middle-aged man getting close to her. The middle-aged man also sized her up curiously. The middle-aged man waved his huge hand and there were some slight fluctuations in the air, but Yun Feng didn't mind at all. She let the man make his move with a smile. She was familiar with this skill, sealing the dimension!

"You're Yun Feng?" The middle-aged man sized her up with shock in his eyes. Yun Feng nodded as she stood there with her slim body upright. Her black eyes didn't glitter at all. Even facing a powerhouse who was at the same level as she was, she didn't panic!

Right, this man, who could seal the dimension, was at the same level as she was. Both of them had reached the Commander Level! Yun Feng thought secretly. Would tonight be the first time she fought with someone with comparable strength?

In an already sealed dimension in front of a small hotel in Park City, a slim teenage girl and a middle-aged man were standing with a distance between them. There wasn't even the sound of wind in this dimension. The two of them weren't talking at all. They only looked at each other with their eyes, detecting each other's strength.

"You kid are Yun Feng? Haha, you're indeed extraordinary. You've already reached the Commander Level at such a young age. This truly surprises me." After sizing her up, the middle-aged man said loudly. The momentum around him struck like a mountain, making Yun Feng feel a bit irritated.

Yun Feng smiled as she frowned slightly. The strength of this middle-aged man was above hers. She had just entered the early stage of the Commander Level not long ago. This man should be at the mid-stage of the Commander Level and his aura was also much stronger than hers.

"I'm flattered, Senior. I'm just a junior. How can I compare to you?" Yun Feng smiled gently. Although she knew that this man was looking for her, she still had to make a polite remark.

Chapter 253: A Fight Between Powerhouses (1)

"Hahaha, you're indeed quite interesting, kid. No wonder Fitch speaks highly of you." A smile appeared in the middle-aged man's eyes. Yun Feng was shocked after hearing that. Fitch? Wasn't that the General of the Army of the Karan Empire? It seemed that this man in front of her had quite a close relationship with Fitch. Perhaps he was a heavy hitter in the royal family?

Yun Feng frowned and pondered. Why would a heavy hitter from the royal family come to find her?

"Yun Feng, I came here today only to return a favor. Have you heard of the Huangzu family in Park City?"

Yun Feng frowned tight. "Of course. I'll be honest with you, Senior. I did all that to the Huangzu family. Senior, are you here to do justice for the Huangzu family this time?"

There was already coldness coming out of Yun Feng's eyes. She had never thought that such a heavy hitter would owe the small Huangzu family a favor. The Huangzu family was quite impressive.

"Hm! Do justice for them? They should look at themselves to see if they deserve that!" The middle-aged man grunted, then remembered why he was here. "Haven't you gone too far? It's fine you killed his child, but is it really necessary to destroy what he built?"

Yun Feng laughed loudly. Facing this man who had a higher strength level, she didn't yield at all! The members of the Yun family never bent their backs! Whoever it was, even a powerhouse couldn't make the members of the Yun family bend their spines and arrogant bones! They would rather die standing than live lying! This was the arrogance of the members of the Yun family!

"Senior, Huangzu Yelian ran wild and was domineering in Park City, while the Huangzu family is also a notorious gutter. Why do you have to lie in the dirty water? Aren't you worried that you'd make yourself stink as well?"

The middle-aged man became anxious. "Yun Feng, I won't argue with you for the sake of your young age, talent and intelligence. And yet, I want to tell you that you shouldn't go too far when doing things. You must leave a way out for yourself!" This was actually quite right. The middle-aged man didn't have a hint of evil intention. Yun Feng then nodded with a smile.

"I remember what you said in my mind. However, I also have something to say. If other people don't give me a way out, why should I give them a way out? Huangzu Yelian was cruel. She took my friend's life. Senior, may I ask you how I can do nothing at all?"

The middle-aged man was startled. He didn't ask about this. Huangzu Fu didn't tell him anything important at all! The Huangzu family was the one who was wrong in this matter, and now, they wanted him to stand up for them. They're clearly making him a scapegoat!

A fire immediately rose in the heart of the middle-aged man. "I didn't know about this. The Huangzu family, this dog, indeed bit someone first."

Yun Feng smiled, then cupped her hand in the other and bowed. "Senior, you're a righteous man. I appreciate that. Since you owe the Huangzu family a favor, you should return it."

Yun Feng thought this powerhouse was taking revenge for the Huangzu family. And yet, he didn't look like he was trying to hurt her at all. Perhaps it was because he treasured talents. Perhaps there was justice in his heart. He wasn't the kind of person who hurt people indiscriminately and did whatever he wanted because he was strong. If Yun Feng encountered such a person, she wouldn't let the other party take any advantage, even if that person was more powerful than she was!

"Huangzu Fu originally asked me to kill you, but I changed my mind and said I'd give you a lesson. Yun Feng, since I've already said that, I certainly have to do it."

The middle-aged man laughed as his momentum of the Commander Level burst out abruptly. He looked like he was already in his 50s, but there was a trace of excitement on his face right now.

"Don't worry. This dimension has already been sealed. Even if we fight fiercely, people outside won't have any response. I'll suppress my strength to your level but I won't let you take any advantage at all."

Hearing what the middle-aged man said, Yun Feng smiled speechlessly. Why did she always meet some strange powerhouses? Now that things had come to this point, this Senior wasn't trying to take advantage of her and probably just wanted to learn from each other, so why not? This was also the first time she had ever fought with a powerhouse of the Commander Level!

Thinking of this, Yun Feng was also a bit excited. She twisted her wrist as the wand with six holes and six crystals appeared in her hand. The middle-aged man couldn't help but burst into laughter after seeing that.

"Isn't your weapon too tacky?" The middle-aged flipped his palm as a sophisticated sword appeared in his hand. There was a faint luster on the blade of the sword, but there weren't any holes on it at all!

"What weapon is this?" Yun Feng narrowed her eyes and looked at it for a while. There wasn't even one hole on the sword, but it was exuding a very powerful energy, which made Yun Feng really confused.

"Even though you've entered the Commander Level, you really don't know much about this level. Yun Feng, let me give you a lesson!"

Yun Feng smiled. "Enlighten me, Senior!"

“Enlighten you? I’m not doing that by talking. Pick up your wand! I heard that you’re a double-element mage. It’s been so many years since I fought with a double-element mage. Allow me to relive the old dream again today. Yun Feng, if you don’t exert yourself, you’re going to suffer!”

Yun Feng burst into laughter as the wand in her hand suddenly emitted strong light. The six Magic Beast Crystals suddenly lit up and there were eventually slight fluctuations around Yun Feng. Her mental strength was communicating with the elemental force in the dimension.

This was a fight between powerhouses at the Commander Level, so Yun Feng certainly couldn’t let down her guard. She also knew that if she didn’t do her best this time, she would definitely be the one who suffered.

“Please take my attacks then, Senior!” Yun Feng shouted as she raised the wand in her hand. A beam of light suddenly flashed in the sky and claps of thunder came one after another!

“This is... the thunder element!” The middle-aged man widened his eyes abruptly and looked at Yun Feng in shock. After that, he seemed to understand something. He immediately burst into laughter, laughing unpleasantly!

“Hahahahaha! It turns out Fitch was being tricked! Alright, let me greet you multi-element mage!” There was a smile at the corners of the middle-aged man’s mouth. Buzzing sounds burst out of the blade of the sword in his hand, as if a dragon was growling!

“Thunder!” Yun Feng shouted as a few thunderbolts struck fiercely in the sky! The twisted thunderbolts that were as thick as an arm were like white silver snakes in the sky, striking at the middle-aged man viciously. The middle-aged man was breathless. He quickly moved to the side and avoided the thunderbolt. The ground was completely burnt because of it.

Chapter 254: A Fight Between Powerhouses (2)

“It’s not over yet!” Yun Feng’s red lips curved up slightly as she raised the wand in her hand again. The snakes that were ready in the sky immediately moved. Silver snakes danced around! A few silver thunderbolts struck towards the middle-aged man’s head!

“Tut-tut! Mages are indeed different.” The man mumbled. His body flashed between the few silver snakes rapidly and the thunderbolts, which were like dancing silver snakes, didn’t injure the man at all!

Yun Feng stood right there, watching the man dodge easily. The wand in her hand lit up again and some earthy yellow elements gathered around it!

“Earth Chains!” As Yun Feng shouted, the man only saw a giant earthy yellow chain coming towards him. The man burst into laughter. “You want to chain me up with this?” The man dodged to avoid the earth yellow chain gently before it arrived in front of him. The speed of the two of them couldn’t be compared at all.

The smile on the man’s mouth didn’t last long before he felt a current coming from behind him. His body subconsciously dodged. “Clang!” Another earthy yellow chain came from behind and plunged deep into the ground. The man was shocked for a while. In just a few seconds, dozens of chains suddenly appeared in all directions, flashing towards the man’s body!

The man was startled. His body flashed and was about to jump out of the dimension, but chains inexplicably appeared in the air, rushing down directly and wrapping around the man's body completely!

"Clang! Clang! Clang! Clang!" Four sounds came consecutively. The man's limbs were immediately restrained by the Earth Chains. The man moved his body slightly as the Earth Chains tightened abruptly!

Yun Feng looked at the middle-aged man who was tied up. "I certainly can't use just one chain to restrain you, Senior." The middle-aged man was tied up by the Earth Chains and his limbs were bound, while Yun Feng stood there without any difference and wasn't injured at all!

This was the difference between mages and warriors, especially those at the same level! If the warrior couldn't get close to the mage, the mage would be at a huge advantage!

The situation right now was a very good example. Yun Feng didn't even move. She trapped the man with just two spells!

"This is indeed interesting. Looks like I have to use my real strength as well." The man, who was bound by the Earth Chains, suddenly chuckled as the muscles on his limbs bulged abruptly. The stout chains shattered in an instant!

Yun Feng frowned tightly after seeing this scene. The earth magic was just a level-9 magic and the level of the middle-aged man was perhaps above the Commander Level. Although he kept his strength at the early stage of the Commander Level, it was effortless for him to get rid of Yun Feng's level-9 earth magic!

After the Earth Chains shattered, the pieces also disappeared. The man rubbed his shoulder as the sword in his hand let out an astonishing momentum. Yun Feng also slowly became vigilant. The few attacks just then were only little games. The middle-aged man was going to be serious now!

"The thunder element, the earth element... Tut-tut, what other elements do you know? Just use them!" The man waved the sword in his hand abruptly as his body flashed towards Yun Feng like a huge shooting star, making the air flow and creating buzzing and howling sounds!

Yun Feng narrowed her black eyes and moved her body rapidly. The man's sword suddenly stabbed Yun Feng's body, but the body immediately disappeared! A shadow!

The middle-aged man stopped and looked at Yun Feng, who was already a hundred meters ahead of him, and was shocked in his mind. Such a speed? Was she also a wind-element mage?

"The wind element... Together with the water element and the fire element Fitch told me about. Yun Feng, you truly surprised me." The middle-aged man looked quite emotional and the corners of Yun Feng's mouth raised. "It's my honor to have your appreciation, Senior."

Yun Feng waved the wand in her hand as the giant ice blue snake and the giant fiery red wolf appeared next to her. Heat of excitement couldn't help but surge out of the middle-aged man's eyes when he looked at the two enormous beasts.

"She looks really like a summoner... No wonder people in the royal family never give up on finding summoners among mages. It truly makes sense."

Yun Feng listened to the middle-aged man mumble and the smile at the corners of her mouth remained the same. Mages were indeed the closest to summoners, especially the magic simulations. If it weren't that their simulated giant beasts didn't have a real body and couldn't survive for a long time, they truly had no difference from summoners.

The Karan Royal Family had always been obsessed with summoners. Yun Feng guessed that if her identity as a summoner was exposed and went into the ears of the members of the Karan Royal Family, she wouldn't be able to live a peaceful life anymore. She was now only at the Commander Level. There were certainly powerhouses at such a level in the Karan Royal Family, like the person in front of her. He had a close relationship with Fitch, so he must have something to do with the royal family as well.

If her identity as a summoner was exposed, the Karan Royal Family would definitely ask her to join them. Did she have the right to reject it? Not at the moment. Did Yun Feng have to work for the Karan Royal Family? Impossible!

She said that the Yun family would no longer have to work for anyone. The Yun family would be their own master!

"Let me greet you multi-element mage!" The middle-aged man growled as he wielded the sword in his hand abruptly and a dazzling halo shone from the blade of the man's sword!

Yun Feng immediately sent out the Earth Shield to protect herself, but the two giant beasts next to her immediately disappeared in the dazzling halo!

Yun Feng was startled in her mind! What was that sword? Her fire magic had reached the Commander Level! But the beasts disappeared right after a slash!

The middle-aged man looked at Yun Feng's astonished look and spun the sword in his hand gently a few times. "After reaching the Commander Level, even if your weapon has nine holes and nine crystals, it can only be regarded as a piece of trash! And I can kill you easily with the sword in my hand!"

What the middle-aged man said made Yun Feng frown tight. Weapons would become totally different after reaching the Commander Level? The Commander Level was indeed a whole new level. It was far different from even the peak of level 9 and was completely incomparable!

"Weapons at the Commander Level aren't about holes, but crystals, the level of the Magic Beast Crystals! My sword has the energy of the Magic Beast Crystals at the Monarch Level. You can't resist it at all."

Chapter 255: A Fight Between Powerhouses (3)

"Integrated?" Yun Feng asked in confusion. The middle-aged man smiled and was very willing to explain for Yun Feng. "That's right. After reaching the Commander Level, all the weapons are about one thing, integration! The level of Magic Beast Crystals integrated represents the level of the weapon. My light sword is integrated with the Magic Beast Crystals of the Monarch Level, so it certainly will be a weapon of the Monarch Level."

"Senior, this sword is indeed something that makes people jealous!" What Yun Feng said made the middle-aged man burst into laughter happily. "You're right! My sword is indeed something that makes people jealous. A lot of people want to have it. It truly makes them envious!"

“Senior, your weapon is probably the only one that has the Magic Beast Crystals of the Monarch Level, right?” Yun Feng pondered for a while. How would anyone get things like Magic Beast Crystals of the Monarch Level easily? Only humans at the Monarch Level could possibly fight with Magic Beasts of the Monarch Level. The chance of killing them was very slim, which emphasized how precious the weapon in this Senior’s hand was. Being able to hold such a priceless weapon, it meant that this person’s strength couldn’t be underestimated either!

“You’re right. As far as I know, mine is the only weapon at the Monarch Level in the Karan Empire. The other old people all use either weapons at the Commander Level or even weaker ones.”

Yun Feng smiled. The strength of the middle-aged man in front of her must be higher than the Commander Level. Since he dared to wield a weapon of the Monarch Level everywhere, he certainly must have the strength that deserved this weapon.

Thinking about what he said about the integration, thinking about the Magic Beast Crystals that her Master gave her, Yun Feng smiled from the bottom of my heart. A weapon at the Monarch Level... This wasn’t urgent, but she should make a weapon of the Commander Level.

If possible, she had to make weapons of the Commander Level for her sullen father and big brother as well. Even though she couldn’t give the weapons to them right now, she could make them ahead of time. With the boost from the ultimate ores, it was a bit difficult for them to not reach the Commander Level!

“I said I’d give you a lesson, but I still haven’t done that. I better finish what I promised other people. Just bite the bullet and let me teach you a lesson!” the man said as his body dashed towards Yun Feng again like a shooting star. Yun Feng immediately adjusted her mind and directly turned into a shadow, but the middle-aged man penetrated right through it with a powerful momentum!

“Whoosh!” Yun Feng watched the man rush straight over. Even though her speed was increased by the wind element, it was still far from the speed of this man! It was already impossible to dodge anymore!

The man’s hand smacked directly, coming towards Yun Feng’s body! “Don’t worry. I just need to injure you a bit, so that I can finish my job!” the man said as he smacked his hand down. Yun Feng frowned and swung her fist without thinking!

The man smiled. When he saw Yun Feng take a punch in a flash, he immediately smiled. A mage, this kid was a mage, but she wanted to use the weak body of a mage to fight with a warrior? Haha, interesting idea!

The man smacked and hit Yun Feng’s fist!

“What?” The man widened his black eyes abruptly, feeling a fierce force come to him from Yun Feng’s fist penetrating through his palm. The man’s body was pushed away and Yun Feng also went backwards while panting. She felt a bit uncomfortable because of the power from the man’s hand just now.

“You...” The man immediately narrowed his eyes and glanced over Yun Feng again. “You’re a warrior?” After looking at her, the man asked in uncertainty, even though he was extremely confused and couldn’t believe it.

Yun Feng smiled. "I'm flattered, Senior. I'm not a warrior. I just have better physical fitness than ordinary people."

The middle-aged man's face immediately darkened. Just... better physical fitness than ordinary people? The strength just then was the strength of a warrior! How would a mage possibly have such powerful body strength?

"Although I don't know why you said that, I'm already done with my lesson. As for what the Huangzu family is going to do next, it's between you and them. I won't interfere anymore," the middle-aged man said as he waved his hand. The air shook several times and the seal was removed. The man's body flashed and he was about to leave, but he suddenly turned around.

"Yun Feng, perhaps the School of God of War is more suitable for you."

Yun Feng was startled and a bit speechless. "Senior, I'm really not a warrior."

The middle-aged man's mouth spread wider. He had already dashed forward without saying anything, disappearing from Yun Feng's sight in a blink. Yun Feng looked at the back of the middle-aged man for a long time. A powerhouse at the Commander Level, or perhaps above this level, was indeed different... When both of their hands contacted just then, Yun Feng clearly felt how much this Senior suppressed his power, so that he wouldn't hurt her. Even if she didn't block the attack with her hand, nothing would happen. She would only have a minor injury.

However, Yun Feng still took it. The short moment of contact that lasted a few seconds made her realize how delicate the powerhouse's control of power was. He could release and take back his power freely. In fact, in the fight between the two of them just now, both parties held back. Yun Feng kept her identity as a summoner a secret, while that man didn't exert his full power either.

This was a fight in which nobody exerted themselves. Even though the things Yun Feng realized were just a drop in the ocean, it was kind of a huge gain for her.

A name suddenly flashed in her mind, the Huangzu family.

If this Senior didn't have such a bearing, there would have been a brutal fight today and she might have even died. Huangzu family, you're truly shameless people. It's indeed right to kill Huangzu Yelian and destroy the business of the Huangzu family!

Yun Feng looked somewhere in Park City. The Huangzu family was like a cockroach. Even though cockroaches were small, they had the ability to reproduce very quickly. If she let them be, they would become a scourge sooner or later.

Coldness flashed through Yun Feng's black eyes. She must exterminate them.

Her slender body flashed in the night sky, rushing towards the house of the Huangzu family. Meanwhile, some people in the house of the Huangzu family were worried. The things that happened in the Huangzu family lately had made everyone lose their confidence. They were guessing if they offended someone they couldn't offend, leading to such a result.

The children in the Huangzu family were all a bit arrogant and Huangzu Yelian was one of the most arrogant ones.

While Yun Feng hid in a dimension, she saw a few teenage boys gathering together and talking about something loudly.

Chapter 256: A Fight Between Powerhouses (4)

Yun Feng was familiar with these few young people. They were the arrogant disciples, who were at the city gate with Huangzu Yelian. One of them said with viciousness on his face, "This time, Yun Feng and that bitch will definitely die!"

"That's right. The powerhouse Uncle found will definitely make them regret. Who gave her the guts to kill people of the Huangzu family?"

"That bitch deserves to die, and that bastard, isn't he dead now?"

"He died real quick. I really wanted to knock him to death by myself! Yun Feng and that girl should be sold to the brothel to be tortured!"

Hearing this, Yun Feng already looked very sullen. The few boys talked loudly like there was no one else and burst out in wild laughter from time to time, as if nobody could do anything to them!

Yun Feng's body suddenly appeared in the sky and she walked over. The few kids immediately screamed when they saw Yun Feng! "How... How... How did you get in here? Someone, someone!" The young boys instantly widened their eyes when they saw Yun Feng. They gathered together right away with glitters of fear in their eyes, totally unlike the arrogance they had just now.

"Weren't you having a lively discussion just now? Carry on!" Yun Feng curled up her lips and sneered as she glanced over everyone with her black eyes. The few young people all felt a bit breathless.

"Don't... Don't be so shameless. How dare you listen to us talk!" A young man shouted as he stared at Yun Feng firmly with his eyes while his body trembled constantly.

"That's right. Your parents aren't good people either. They raised someone like you!"

"Clap!" A hand slapped the person who spoke directly on his cheek, making a loud and clear sound. That young man was knocked down on the ground by Yun Feng and he didn't get up again.

The other few young people were all dumbfounded. Their legs kept shaking. "You... You... You killed..."

"If you say anything that insults my parents again, I'll beat each of you up!" Her eyes were like a sharp sword that stabbed these few young men and they had no power to fight back at all. They immediately shut their mouths in fear, then shook their heads again and again in panic.

"What's wrong?" A few people ran in. When they saw the scene in front of their eyes, they couldn't help but yell furiously, "Who are you? How dare you break into the house of the Huangzu family?"

Yun Feng snickered as she waved her hand. The man who spoke instantly stopped talking and his body fell on the ground like jelly. The others shook abruptly after seeing this. What tactic was that? The... The teenage girl in front of them was...

“Whoever speaks again will end up like this person.” Yun Feng glanced at the man lying on the ground. Some people couldn’t help talking. Yun Feng immediately raised her hand as another few people fell on the ground silently again.

The few young men had lost the strength to hold on a long time ago. Their limp bodies sat on the ground. One of them was so frightened that he peed his pants and a pungent smell came. Yun Feng glanced at him sarcastically.

People kept rushing over and Yun Feng kept killing some of them right there. There were more and more people lying in the yard. The few young men were completely lost. They felt that they offended the God of Plague, whom they shouldn’t provoke.

A huge number of members of the Huangzu family were dead in such a weird environment. The lips of the remaining ones were shaking. They didn’t even have the courage to send out a message and were just crouching there as they trembled, watching Yun Feng kill people with such a powerful tactic one after another.

Finally, an enraged man came in. When he saw Yun Feng, he couldn’t help feeling startled and he also realized something afterwards. He immediately growled furiously out of embarrassment, “You’re still alive?”

Yun Feng curled up her lips and smiled, which made that man furious. “Master Huangzu, you’re not dead yet, so I certainly have to be alive.”

Huangzu Fu looked at the scene in the yard with coldness in his eyes. There were people all over the ground, as if most of the people in the yard of the Huangzu family were lying here. When Huangzu Fu saw the few young people standing next to Yun Feng, his expression completely changed. Those were the children of the younger generations of the Huangzu family. If something happened to them, the root of the Huangzu family would be broken!

They could give up everything and let someone destroy anything, but the root of their bloodline couldn’t be broken. People with their bloodline couldn’t die! If they died, the Huangzu family would really disappear completely from this world!

“Yun Feng, what exactly do you want? Did Master Baili not give you enough of a lesson?” Huangzu Fu said coldly. In Huangzu Fu’s mind, Master Baili was an absolute powerhouse. If he said he would give Yun Feng a lesson, he would certainly do so and would definitely not go back on his words. After being punished by such a powerhouse, Yun Feng still dared to provoke him. She truly had nothing else to do!

Yun Feng burst into laughter. “Master Huangzu, Master Baili is your last trump card?”

Huangzu Fu’s expression changed. Did things change? Did Master Baili not do anything at all? Huangzu Fu glanced at Yun Feng with his eyes and his heart raced when he found that Yun Feng wasn’t injured at all.

“You should be afraid. Master Baili isn’t someone you can provoke!” Huangzu Fu repressed the panic in his mind, while Yun Feng laughed even happier. Her laughter made the hearts of everyone in the Huangzu family pound and they completely lost confidence.

“And yet, that Senior also said that the matters of the Huangzu family will have nothing to do with him from now on.” Yun Feng suddenly reached her hand out and grabbed one of the few young people next to her. This young boy immediately whimpered. Yun Feng’s slender fingers were stuck on his throat precisely. The boy’s face turned from pale to red. It seemed as if he was suffocating.

“Let him go! If you dare to lay a hand on them, that little girl will end up like the person who died before!” Huangzu Fu narrowed his eyes fiercely and shouted furiously with a cold voice. He certainly wasn’t an idiot. Before he noticed something was wrong in the Huangzu family, he had already sent five masters to attack that girl. Once he got that girl in his hands, Yun Feng would surely become his as well.

After hearing that, the flames in Yun Feng’s heart immediately rose. This group of despicable, shameless people didn’t learn their lesson and even thought about laying a hand on Mu Xiaojin!

Yun Feng exerted her power with her hand. “Crack.” The head of the young boy that she was seizing by his throat tilted as he lost his breath and his body became soft, hanging from Yun Feng’s hand. Yun Feng threw this dead young boy directly in front of Huangzu Fu.

Chapter 257: Destruction (1)

“Master Huangzu, let’s find out which one of us will die faster.” Seeing that Huangzu Fu had instantly turned pale, Yun Feng flashed to the remaining young men and grabbed two of them. Huangzu Fu’s pupils contracted as he roared, “Don’t you dare!”

Yun Feng laughed coldly and loudly. “Of course I do!” She exerted her strength, and the two struggling young men immediately died in her hands. Three of the young men were killed without putting up any resistance, and there was nothing Huangzu Fu could do. Yun Feng was obviously completely infuriated!

Huangzu Fu’s eyes were bloodshot. There was nothing he could do! He had played his only trump card, yet it didn’t work at all. He could only hope that the people he sent out brought good news back. Then, he would cut Yun Feng into pieces. However, his fury wouldn’t be vented even if he did that!

Yun Feng sneered. Since she protected Mu Xiaojin as a Commander Level mage, how many people of the Huangzu family were capable of killing her? Even the level-9 experts wouldn’t be able to break the mental barrier. Mu Xiaojin was absolutely safe!

Yun Feng had lost all her patience due to the Huangzu family’s continuous provocations. At this moment, Yun Feng’s heart was filled with the desire for vengeance, and the guilt of Mu Canghai’s death. Although Huangzu Yelian had died and the Royal Mercenary Group was gone, she wouldn’t stop until the Huangzu family was destroyed!

The Huangzu family was a cancer and an obstacle no matter how small it was. It would be a problem unless it was completely eradicated.

It was common sense not to leave any problem for oneself.

Yun Feng turned cold. Unwilling to play tricks with those people any longer, she waved her wrist and grabbed her wand. Huangzu Fu’s eyes widened when he saw the wand. “Are you not afraid that something will happen to your friend?”

Yun Feng sneered. “You don’t need to worry about that, Master Huangzu.”

Yun Feng suddenly flashed, leaving blurry shadows behind her. Her speed astounded everybody in the Huangzu family including Huangzu Fu. Countless Yun Fengs were flying and taking action in the sky. She was so dazzling.

“W-What kind of speed is that?” Huangzu Fu watched everything, stupefied with cold sweat all over his body. He flinched with fear, as Yun Feng had suddenly become immeasurably strong. He suddenly found that it was stupid to provoke and attack her. He couldn’t be more regretful. At this moment, keeping the Huangzu family safe was his priority!

“Yun Feng, please spare us! I, Huangzu Fu, swear that we won’t touch your friend or retaliate against you in the future!”

Yun Feng’s laughter came from the sky. Finally, all the Yun Fengs combined into one person that stood in front of Huangzu Fu. Her beautiful face was expressionless, and her black eyes were filled with a thirst for blood. Her black hair fluttered in the wind alluringly.

“Yun Feng, please have mercy! We can do anything for you as long as you spare our lives!” Huangzu Fu became obedient. He could abandon his pride and the grievances from the past, as long as the Huangzu family could stay alive. Then, he would have the opportunity to rise again!

Yun Feng laughed. “Do you take me for a gullible kid, Master Huangzu? I know exactly what’s on your mind. Today, the Huangzu family will be my offering to my friend’s soul in the other world!” Yun Feng’s tone became harsher and harsher, until in the end, she brandished her wand with a wave, igniting a large area of red fire element!

“Fire Field!”

Everybody exclaimed at the same time. Red fire elements had covered the Huangzu family’s house without leaving any gaps. Flames rose to the sky, and there were brutal fire elements everywhere. The members of the Huangzu family were even exhaling sparks!

The high temperature became unbearable for many people, whose clothes, skin, muscles and bones were burnt into smithereens. The Huangzu family’s buildings, under the attack of the rampant fire elements, collapsed one after another!

Some tried to resist the fire elements with fighting energy, but the entire place had been filled with fire elements so how long could they endure? Besides, Yun Feng had already reached the Commander Level. Could they even resist her flames?

Yun Feng seemed determined to torture Huangzu Fu. Her fire elements circumvented him and swallowed everybody else. Huangzu Fu stood there, watching the misery of the Huangzu family and listening to their devastating screams. When he saw that the kids next to Yun Feng were burnt into ashes by the high temperature too, his eyes became completely bloodshot.

“Master Huangzu, how does it feel to lose everything? Do you want to enjoy it again?” asked Yun Feng with a smile. Inside the Fire Field, Huangzu Fu was the only person of the Huangzu family who remained standing. The others were all gone. The human beings, buildings and planets had all been wreathed in red and turned into ashes!

“How brutal... Yun Feng, you are truly a heartless woman,” growled Huangzu Fu with red eyes. The greatest torture was not to face death, but to watch the people and things that one cared about being destroyed without being able to do anything about it.

“When Xiaojin’s brother was killed by your good daughter, she was in pain too. What did your daughter say? It’s exactly what I want to say to you right now. The bi*ches of the Huangzu family deserve to die.”

Huangzu Fu looked awful. Everything of the Huangzu family was gone, leaving him as the leader of nothing. What else could he do except die?

“Yun Feng, you’ll have your karma. You will!” Huangzu Fu roared and then laughed crazily. “Your karma is that your friends will die because of you. That humble man was the first. There will be a second, third and fourth very soon!”

Chapter 258: Destruction (2)

Yun Feng narrowed her black eyes. Red fire elements instantly tied up Huangzu Fu, who roared and laughed crazily and screamed in pain. He also cursed Yun Feng once in a while.

“I curse you! Curse you!”

Finally, Huangzu Fu’s voice was gone. His blackened body, or whatever was left of it, fell on the ground. The fire elements were still burning, further shrinking the size of the body.

The nasty curses were still echoing in Yun Feng’s ears. She solemnly waved her wand. “Curse? Hehe. I’ll kill whoever attempts to kill my friends!”

When the Fire Field was gone, the Huangzu family’s house had been razed to the ground. It had been completely deformed. In a short while, everything had been burnt into ashes. The Huangzu family was hence gone from Park City and this world.

Yun Feng immediately left for the inn where she lived, only to find four level-7 warriors in Mu Xiaojin’s room. She flashed into the room and approached them, raising her fist without saying a word. They had been punched in the chest before they could say anything. Then, all four of them collapsed and died.

There was a dent on their chest. Their hearts had been crushed by the dents, causing their death.

Mu Xiaojin was still sound asleep in bed. The four level-7 warriors had been here for quite a while. They tried to attack her, but found that they couldn’t approach her. She seemed to be behind a transparent shield that their weapons couldn’t break even when they joined their strength.

When they were at a loss about what to do and planned to retreat, Yun Feng returned and instantly killed them, saving them the time of resistance.

Yun Feng walked to Mu Xiaojin’s bed. Staring at her cheeks and her brows that were slightly furrowed in her dream, Yun Feng smiled casually. “Xiaojin, have a good dream. I’ll protect you. Nobody can hurt you.”

The next morning, when Mu Xiaojin woke up, she found that Yun Feng was asleep in a chair next to her bed. She quickly nudged her and said, “Xiao Feng, get up and sleep on your bed!”

Yun Feng opened her eyes dizzily. Seeing that Mu Xiaojin was awake, she smiled delightedly, "You're up. Did you sleep well?"

Mu Xiaojin nodded. "I always sleep well when you're by my side. Why didn't you sleep on your bed?"

Yun Feng smiled. She rose and stretched out her arms. As her body was continuously modified, she required less and less sleep. Unlike ordinary people, she only needed to sleep for two or three hours a day to keep herself energized.

Seeing how vigorous Yun Feng was, Mu Xiaojin was relieved. They freshened themselves up and walked downstairs together. This was the day when the teachers of the Masang School of Magic would take the students away. Once they entered the Masang School of Magic, they would be official students of the magic school.

When they reached the central square, they saw the twenty people who had passed the test. As they walked close, they saw Mi Lingli from a distance. She stood in the crowd, as condescending as ever. The other students whispered when they saw Yun Feng. Some of the bolder ones greeted her, and she greeted back with a good temper.

Her friendliness made the other students feel that she was approachable. They gradually gathered around her and talked to her. Mi Lingli stood aside and watched them coldly, before she turned her head with a disdainful snort.

"I truly doubt that Mi Lingli is a double-element mage. Why are you so much stronger than her if you're both double-element mages?"

"I think so too. Look how proud she is. Why does she feel so good about herself? She isn't the only double-element mage. Don't be so cocky!"

The other students agreed. Yun Feng simply smiled and didn't say anything. Mu Xiaojin, on the other hand, laughed and secretly raised her thumb at Yun Feng.

"Right, did you hear the news? The Huangzu family of Park City was wiped out last night!"

The other students all discussed the matter when they heard it. "I did! The first person who passed by was nearly scared to death! I heard that the Huangzu family's house was burnt to the ground. There's no telling where the members of the family are!"

"Where do you think they can be? In the netherworld, of course! None of the Huangzu family was decent. They deserved what happened to them!"

"Who do you think did it? They're so tough. Although I wasn't there to witness it, it sounds rather crazy to me!"

"I bet it must've been done by an unparalleled expert, like a level-9 one!"

"Yun Feng, what do you think?" a student asked Yun Feng curiously. Mu Xiaojin became gloomy and couldn't help but hold Yun Feng's hand tightly. Yun Feng replied with a smile. "I don't know about that. Maybe your guess is true."

The other students chuckled and proposed their own speculations. At this moment, Mi Lingli approached and squeezed through the students. Some of them were angry, but didn't say anything.

"You don't know? Why do I feel that you were the one who did it?" Mi Lingli walked close and raised her chin. She was as tall as Yun Feng, yet she had to raise her chin to make herself appear taller than her. Yun Feng smiled. Before she said anything, some of the other students had already started defending her.

"Mi Lingli, what's the meaning of that? That's just a groundless accusation!" declared a student.

Mi Lingli, on the other hand, glanced at him and said, "Am I talking to you?"

"You..." The boy blushed in fury and Yun Feng smiled and said, "You claim that I did it. Do you have any evidence?" The other students all cheered for her.

"If you don't have any evidence, then you're just a slanderer. Yun Feng is a double-element mage just like you, yet she's so much better than you." A girl looked at Mi Lingli with utmost contempt. Double-element mages were rare and called for envy, yet the other students didn't really respect Mi Lingli. It's not like she was unique in the entire world, so why was she always so cocky?

Chapter 259: Destruction (3)

"Humph! I have a good reason to make that statement. What do you know?" Mi Lingli's expression remained unchanged. She seemed to have acquired evidence on what Yun Feng did, and looked at her provocatively.

"The only mages in Park City are the teachers from the Masang School of Magic and us. None of the teachers are fire mages. Some of the other students are fire mages, but they're extremely weak. Yun Feng, you're the only fire mage who's reasonably strong. Who could've done that except for you?"

Yun Feng smiled casually, and the other students were deep in thought, as what Mi Lingli said did make sense. Yun Feng asked, "Mi Lingli, do you really think I'm capable of annihilating the Huangzu family overnight?"

"Well..." Mi Lingli was speechless for a moment. Yun Feng revealed herself as a level-6 mage during the test. If she was a level-6 mage, then she couldn't have destroyed the Huangzu family like that. She had to be a level-9 expert or even stronger in order to do that!

Mi Lingli looked at Yun Feng up and down. There was no way that she would believe that Yun Feng was a level-9 expert!

"What are you talking about?" Ted approached with a smile. He was stunned for a moment to see Mi Lingli and Yun Feng standing together. "Huh? Are you bonding as the only two double-element mages?"

Mi Lingli blushed, and Yun Feng smiled casually. Some other students announced, "Bonding? Mi Lingli is slandering Yun Feng!"

Ted frowned when he heard that. These two double-element mages didn't seem very close, and didn't want to become close either. "What's going on?" Ted came to Mi Lingli and asked in a low voice.

“Nothing. It’s about what happened to the Huangzu family. I suspect that she did it,” said Mi Lingli in a low voice, with her voice lowered. She glanced at Yun Feng, somewhat regretting her recklessness.

Ted became sullen after he heard that. “Ms. Mi, do you know what you’re doing? Same as you, Yun Feng is a distinguished first-year student of the Masang, yet you’re slandering her? Was Yun Feng really capable of doing that? In the future, think before you do or say anything!”

What Ted said made Mi Lingli even more ashamed. The other students couldn’t help but chuckle. Mi Lingli said “alright” in a low voice and didn’t say anything else.

Ted looked at Yun Feng. He was actually puzzled about the incident too, but he didn’t want to intervene with what Yun Feng did. If he were to impose traditional restraints on such a genius, she would probably resist very hard.

“Enough. Someone else will be there to take care of the matter. No need to talk about that.” Ted walked away unhurriedly after saying that. The students whispered to each other. Mi Lingli, naturally, turned around proudly and walked away with her head held high. She was nearly tripped on her way, but when she looked back angrily, all the students were talking to each other and nobody bothered her.

“Humph!” Mi Lingli went away. Most of the twenty new students this year were on Yun Feng’s side. They didn’t feel the arrogance of a double-element mage from Yun Feng, who was modest and courteous, so they preferred to stay with her. Mi Lingli was left alone, but she didn’t really care.

Very soon, the teachers of the Masang School of Magic arrived. They had a brief conversation about the tragedy that befell the Huangzu family the previous night. Then, after ensuring that none of the new students were absent, they nodded their heads. Ted announced loudly, “Let’s go!”

Hearing that, all the students were rather excited. They were leaving for the Masang School of Magic and embarking on a new journey of their life! All of them seemed thrilled. Mu Xiaojin, on the other hand, stood next to Yun Feng quietly. Yun Feng lowered her head and looked at Mu Xiaojin. “Xiaojin, Yun Sheng, my big brother, is also in Masang. He majors in the water element too. You’ll meet him there.”

Mu Xiaojin raised her head in astonishment. “Your brother majors in the water element too, Xiao Feng?”

Yun Feng nodded. “Yes. It’s been three years since I saw my big brother. He’ll be so happy that I’ve made a new friend!”

Mu Xiaojin nodded happily and held Yun Feng’s hand again. Yun Feng also held hers. From this day on, she would be part of the Yun family too.

Ted and the other teachers led the students out of Park City. After a long walk, they all stopped. Ted took a jade amulet out of his pocket. Yun Feng saw it and realized that it was a Sound Transmission Jade.

The jade amulet glittered for a while, and then a voice came out. “Are they all here?”

Ted laughed. “Yes. Come here quickly and stop being so pretentious.”

The jade amulet flashed again. “Haha. Got it. You’re as chatty as always, old guy.”

All the students pricked their ears and listened carefully. They were surprised that Ted was called old guy. That man was the Head of Student Affairs. How could anyone dare to address him so arrogantly?

After Ted took out the Sound Transmission Jade, all the teachers waited for him. The students held their breath in silence too. A moment later, Yun Feng suddenly raised her head, and looked in one particular direction at the sky. Mu Xiaojin pulled her arm and asked, "Xiao Feng, what's up?"

Yun Feng stared at a distance in the sky and said casually, "A swarm of things is coming close."

Mu Xiaojin widened her eyes quickly, but the others showed no reaction at all. After another while, when the swarm of things became visible as tiny black spots, Ted finally chuckled. "They're finally here."

Hearing what Ted said, all the students craned their heads and watched, only to see a dozen black spots swooping in their direction. As the black spots drew near, the students finally clearly saw what they were exactly.

They were bats. A bunch of enormous bats!

The flock of dark brown bats flew towards the students, astounding all of them. Mi Lingli was rather surprised too. When she saw that Yun Feng's expression remained absolutely unchanged, she gnashed her teeth angrily. Humph! What a pretentious woman!

Chapter 260: Destruction (4)

Yun Feng looked at the bats, which were a bunch of domesticated Magic Beasts. On one of the big bats stood a man who seemed rather wild and unrestrained with all his stubble. His clothes were unclean and of a mixed style too.

The man who stood on the bat laughed delightedly when he saw Ted. Then, all the bats flew to him and landed steadily. The dozen bats behind him obediently stood on the ground with their eyes blindfolded.

"Old guy!" The unkempt man leaped off of the bat, walked to Ted, and hugged him warmly. As for the other teachers, the man simply glanced at them.

Ted laughed and introduced him to the students. "He is a famous tamer in the Masang School of Magic, by the name of Dely. You may call him Uncle Dely."

Dely laughed. His face that was full of stubble was hardly awe-inspiring. Tamers were a famous and popular profession. It was quite unusual for a magic school to have one of them! The Masang School of Magic deserved to be the best magic school in the Karan Empire. It had so many Magic Beasts as mounts!

"How slovenly." Mi Lingli glanced at him and mumbled. Dely didn't seem to hear it, or at least, he didn't show any reaction on his face. On the other hand, Yun Feng said with a smile, "Uncle Dely."

Dely glanced at Yun Feng with glittering eyes. "You must be one of the two double-element mages Ted mentioned, right?"

Yun Feng nodded.

"Alright. It's about time. You will board on the bats in groups of two. The bats are all under Dely's control. Don't worry." Under Ted's instruction, the students were soon divided into groups of two. Yun Feng wasn't in a hurry, as Mu Xiaojin was staying by her side.

The twenty students were divided into groups, but Mi Lingli stood alone awkwardly. The last student would rather die than stay with Mi Lingli.

“You, go with that boy.” Dely suddenly pointed at Mu Xiaojin. Yun Feng’s eyes glittered, and she held Mu Xiaojin even more tightly. “We’re in the same group.”

Dely suddenly laughed and put on a weird smile at her. “You don’t know? The best and second best students are always divided in the same group every year.”

What Dely said made Yun Feng and Mi Lingli look at each other. Mi Lingli suddenly turned her head in disdain, and Mu Xiaojin looked at Yun Feng worriedly. Yun Feng smiled at her. “I’m fine. You can go with him. This is an annoying rule, but there’s nothing we can do about it.”

Dely couldn’t help but chuckle when he heard that. Mu Xiaojin nodded obediently. She completely trusted Yun Feng, and knew that she was ten times stronger than Mi Lingli. She let go of Yun Feng’s hand and walked to the male student, before she looked back at Yun Feng.

“Alright! Now that you’re all in groups, board the bats! Chop, chop!” Dely shouted. The teachers all leaped to the bats’ backs, whereas the students crawled on the bats carefully. They were too weak to jump onto the bats easily. Yun Feng, on the other hand, stomped and rose to a bat’s back agilely. Mi Lingli couldn’t help but gnash her teeth after seeing that.

She wanted to go up as agilely, but she was no stronger than the other students. Infuriated, she pulled the bat’s ear. “Lower your body!” The bat, pulled by Mi Lingli, jerked and stood up. Mi Lingli was scared and stepped back. Seeing that, Dely made a weird sound, making the bat lower its body again.

Yun Feng coldly stared at Mi Lingli on the bat’s back. Mi Lingli clumsily crawled her way to the bat’s back, before she murmured, “How snobbish. Humph!” Yun Feng ignored her and looked at Mu Xiaojin who wasn’t far away. With the male student’s help, she had managed to make it to the bat’s back too, and looked back at Yun Feng. Yun Feng smiled, hinting that she didn’t need to worry.

Everybody was standing on the bats’ backs in groups of two, and ready to go. Dely made another weird sound. Then, all dozen bats rose and flapped their wings, preparing to take off. Mi Lingli quickly grabbed a spine on the bat’s back. Looking at the ground that was getting further and further away in fear, she fell to the bat’s back.

Yun Feng, on the other hand, stood steadily, and laughed at Mi Lingli’s awkwardness. Mi Lingli glared back at her. Yun Feng stopped looking at her and fixed her eyes on Mu Xiaojin, ensuring her safety.

The bats flew together in an ordered and organized manner. Dely stood on the bat in the lead as the captain, and the other bats behind him obediently followed. It was quite a splendid scene as the group of bats slowly slid across the sky. The students were actually accustomed to the flight and overcame their fear. There were protruding spines on the bats’ backs that prevented them from falling as long as they held onto them. Besides, the bat’s back was not small at all, and they could even walk on it.

Many students boldly looked down. They had never flown before. Gradually, they whispered to each other in excitement. Unlike them, Yun Feng stood there quietly and glanced at the scenery down below, while she secretly compared the bat with Lan Yi.

Their gap was quite huge. Lan Yi was five times faster than the bat!

Mi Lingli overcame her initial fear too, and stood up. After seeing Yun Feng's natural expression, she looked at her in disdain again. "What a hypocritical bumpkin!"

Yun Feng considered her words bulls*it, and didn't argue with her at this moment. The bats flew in the sky, and the view she saw changed again and again. There was no telling how far they had crossed, but they hadn't reached their destination yet after a whole day.

"How much further must we go?" one of the students couldn't help but mumble. He was starving...
