

Summoner 291

Chapter 291: Yun Feng's Decision (2)

Qu Lanyi raised her brows. "You're indeed smart, Fengfeng. But what are you going to do now? You're the one who challenged her, which puts you in an awkward position."

Yun Feng became even more sullen. Indeed. Unlike when other people challenged her, she was the one who challenged someone else this time, and it was hard for her to resolve the trouble. Qu Lanyi heaved a sigh and leaned back. "In my opinion, you should just forget the Karan Royal Family. You can always fight it if you don't have a choice. Isn't it great?"

Yun Feng became even gloomier. Did that woman not have a better solution? Could she fight the royal family? The Yun family was still in Chunfeng Town. How could she fight the royal family? She couldn't, not until she found a more powerful supporter!

"So, this is really a tricky situation. Kasa will surely lose, and run around the campus naked. The Karan Royal Family will surely be infuriated. What will you do, Fengfeng?"

Qu Lanyi slowly turned around. Yun Feng was still frowning. What could she do? The challenge was inevitable. However, she should've reconsidered the naked-running deal...

"I suggest that we run away together before the Karan Royal Family is enraged. What do you think?" Qu Lanyi seemed quite excited about this proposal. However, Yun Feng simply glared at her. "No." She declined quickly.

"Fengfeng, you're truly cold-hearted. Never mind. You're still considering how to turn this disadvantageous situation into an advantageous one, right?" Qu Lanyi complained and then rose, before she looked back at Yun Feng. Yun Feng's eyes glittered. Could this disadvantageous situation turn into an advantageous one?

The Karan Royal Family learned of Yun Feng's challenge from Kasa very soon. The emperor changed his expression after learning the news. Although he knew it was just a competition between two young people, the Karan Royal Family's honor was at risk. It would be humiliating if Kasa lost and ran naked in front of so many people!

Kasa spent a few days in uneasiness, before she received the response of the Karan Royal Family, who asked her to win whatever it might take, or she would have to brace for the consequences! Hearing that, Kasa became quite gloomy. She didn't know Yun Feng's strength very well, but Yun Feng wasn't the only member of the Constellation Society. Qu Lanyi was there too. How could her society possibly defeat the top-ranking genius?

Kasa had thought that the Karan Royal Family would impose pressure on the Yun family and force Yun Feng to withdraw the challenge. However, the Karan Royal Family simply ordered her to win! That was so hard!

The society ranking contest of the Masang School of Magic finally began in this strange and anxious atmosphere. When the participation forms were submitted, good news came from inside the Dragon Palace: Yun Sheng had finally jumped to level 7!

Yun Feng was quite excited at the news. She took out the jade pendant and released her big brother in a secret position. When Yun Sheng left the Dragon Palace, the pair of gray eyes in the Dragon Palace opened again with infinite surprise.

“What happened? A level 3 kid has risen to level 7 in only one month? What kind of cultivation speed was that?”

The young man thought for a moment and shook his head. “Never mind. They’re all weirdos. I’m just going to bed...”

After Yun Sheng came out, he actually had evolved significantly. Having risen to level 7, he was already one of the strongest geniuses of the Masang School of Magic. He was even a level higher than Kasa!

Yun Feng informed Yun Sheng of her deal with Kasa the moment he came out. Yun Sheng frowned after he heard that, but didn’t blame Yun Feng for her recklessness. He simply said, “Feng, you know very well that the Karan Empire would attack the Yun family sooner or later.”

Yun Feng nodded and grabbed her big brother’s hand. “Let’s seize this opportunity and let the Yun family break away from the Karan Empire!”

Yun Sheng was stunned for a moment. “Break away from the Karan Empire?”

Yun Feng nodded. “Yes. We’ll break away from the Karan Empire. The Yun family is nobody’s slave. We’re our own masters! Once the Yun family becomes independent, I’ll announce to the East Continent my identity as a summoner. Then, even if the Karan Empire wants to attack the Yun family, the other countries won’t let it!”

Yun Sheng was completely shocked when he heard that. He never knew of his sister’s plan. Once the Yun family broke away from the Karan Empire, it would surely try to annihilate the Yun family! However, if Yun Feng publicized her identity as a summoner, the entire East Continent would be thrilled! The other three empires would rush to make friends with the Yun family, and there would be nothing the Karan Empire could do!

If the Karan Empire wanted to attack the Yun family despite everything it had done for the empire, why should the Yun family care about the bond in the past? It was better to take the initiative and push the empire into a dilemma, where it could only watch the Yun family grow without being able to do anything!

“Feng, have you told your idea to our father yet?” asked Yun Sheng. Yun Feng shook her head. “Not yet. So, I have to return to Chunfeng Town someday and tell our father what I’m planning. Kasa will surely lose. I won’t go easy on her! However, the Karan Empire won’t be able to hurt the Yun family either!”

Yun Sheng took a deep breath. Had it not been for his sister, the Yun family would’ve been destroyed by the Lin family a long time ago. Had it not been for his sister, he wouldn’t have been admitted by the Masang School of Magic, and would’ve been killed in the trap. The Yun family owed its rise to his sister!

“Go for it. Whatever you do, Feng, I’m always on your side. Whether you decide to break away from the Karan Empire or move to another place, I’ll always support you!” Yun Sheng petted Yun Feng’s head, with gentleness in his eyes. Yun Feng nodded heavily. It was quite a risky decision not just for herself, but also for the Yun family including her father and brother. She had made a decision and judgment in a

self-willed way, yet her brother supported her unconditionally. Yun Feng felt warm. She decided that she wouldn't let the Yun family be hurt at all no matter what she had to pay!

Chapter 292: Yun Feng's Decision (3)

Now that Yun Sheng had come out, he naturally took control over the society again. Yun Feng asked for leave with an excuse. A few days before the society ranking contest, Yun Feng left the Masang School of Magic for her hometown, Chunfeng Town.

She left some ultimate ores for her brother, and significantly strengthened his weapon. At this moment, it boasted seven holes and seven crystals, and would astonish anyone! After everything was done, Yun Feng left for home without saying goodbye to anyone. When she flew across the forest at the edge of the Masang School of Magic on a bat, the two guys in it were finally relieved.

"Big brother, she's gone!" A young man patted his chest hard, and the brawny man next to him wiped his sweat too. "I hope that the person who left is what you think. Otherwise..."

"Hey, what are you talking about?" said a familiar voice. The two brothers were stunned to see the newcomer. The brawny man pulled a long face and managed a smile. "M-Madam, you're still here?"

The newcomer smiled. "What's the matter? You don't welcome me?"

The two brothers both shook their heads quickly and looked at each other. Oh my god. This madam is still here. Then who was the person that left?

Riding the bat to the suburbs of Park City, Yun Feng jumped off. After Masang's bat flew away, Yun Feng summoned Lan Yi, which resumed its Magic Beast form the moment it appeared. Yun Feng leaped to its back, and it flapped its wings and soared into the sky. Suddenly, Yun Feng felt nervous, as if someone was peeping at her.

"Master, what's the matter?" Lan Yi could feel what was on Yun Feng's mind. "Go back!" Yun Feng gave an order. Lan Yi immediately changed its direction and flew back to where they set off. Yun Feng jumped off and scanned the soil and trees within a radius of several kilometers, only to discover nobody. Was it her illusion?

The enormous griffin stood there and waited. Yun Feng frowned for a long time, and eventually shook her head. Was she being paranoid? She jumped back to Lan Yi and patted it. Lan Yi understood her intent, and flapped its wings again, flying towards Chunfeng Town.

A couple of hours after Yun Feng flew away, a sigh came out of a bush that had been absolutely empty. "Tsk, tsk. Her senses are truly keen. I was almost spotted." As the void spread out, a young man rose from the bush. He had a tall body and a handsome face. His long eyes were as appealing as peach blossoms. The vague smile on his face was somewhat wicked. His black hair dangled on his neck. Half of it had been tied, showing his wonderful cheek, and the other half covered his other cheek.

The young man raised his head and looked at the empty sky, as if he could see Yun Feng despite the infinite distance between them. "So, she's a summoner... Another summoner has emerged in the Karan Empire? That's exciting news..." The young man smiled and withdrew his gaze. He patted his clothes and walked out of the bush, before he brushed his chin softly. "She's truly a gorgeous woman..."

The young man laughed and casually walked into the noisy Park City, disappearing into the crowd.

Yun Feng was seated on Lan Yi's back. The feeling of being peeped at lingered in her mind. Whoever looked at her made her feel uncomfortable. She shook her head quickly. She had carefully examined the place and didn't find anyone. Maybe she had been too anxious during these days... Yun Feng tried to comfort herself. Lan Yi suddenly flapped its wings, and Yun Feng saw the familiar town in front of her. She was back home.

She could only be away from the Masang School of Magic for three days. It was very easy to ask for leave in the Masang School of Magic. She would've asked for a few more days if the society ranking contest weren't going to be held so soon.

She returned home, but didn't find her father. As it turned out, her father had gone to Park City for business. Yun Feng was rather amused. She wouldn't have come home if she had known that. She remembered the Sound Transmission Jade in her bracelet, which could've prevented this waste of time. Seeing that Yun Feng was leaving, the old butler quickly asked, "Miss, where are you going?"

Yun Feng waved back at him. "There's something urgent that I need to talk about with my father. I'm going to meet him in Park City!" After saying that, Yun Feng left home. The old butler felt happy as he watched Yun Feng's back. The lady of the Yun family was its greatest support. His master had talked about her a few days earlier, and she was back home already!

Without any delay, Yun Feng flew towards Park City. She was in such a hurry to meet her father that she forgot to ask where her father went. It was not until she landed on the street of Park City that she finally realized she didn't know where her father was.

Yun Feng chuckled. What was wrong with her these days? She was no longer herself. Looking at the crowd, Yun Feng remembered that the butler told her that her father would stay in Park City for the night, so he would definitely live in a hotel. There were only a couple of hotels in Park City. She could check them one by one.

Yun Feng made the decision. Remembering that she still needed storage containers, she thought she could buy them by the way. Her father and brother probably needed them... Yun Feng then walked to the Auction House. Such items couldn't be found anywhere except the Auction House.

The moment she entered the Auction House, someone came to receive her, but when he saw that Yun Feng was alone, he said, "Young lady, we don't welcome visitors here."

Yun Feng glanced at him, it looked like there were snobbish people everywhere. "I know exactly what this place is for. Move."

Chapter 293: Yun Feng's Decision (4)

The waiter was stunned for a moment. Seeing that Yun Feng wasn't easy to deal with, he could only move aside and squint at her, while mumbling to himself, "Damn you. Do you have to be so pretentious?"

Yun Feng walked to the counter in the Auction House, and the receptionist asked with a sweet smile, "Dear guest, do you have a VIP card?"

Yun Feng was confused, so the receptionist explained to her patiently, "The VIP card allows you to examine the items to be auctioned in advance and make bids ahead of others. There are special rooms for the VIPs too, to ensure you're comfortable here. Naturally, you'll enjoy a discount too."

Yun Feng nodded. The receptionist smiled and said again, "Do you want to sign up for a VIP card, miss? If you don't need one, please go to the channel over there. The next auction will start soon."

Yun Feng glanced at the receptionist. "What's the price of the VIP card?" All the Auction Houses on this continent were in a chain. So, Yun Feng would be a VIP in all of them if she applied for a VIP card here. Of course, her privileges in those houses might be different, but it could make her life easier in general. Yun Feng believed that she needed one.

"As long as you pay more than a thousand mid-level ores for an item in the Auction House, you will get a VIP card," said the receptionist with a smile. Yun Feng chuckled. A thousand mid-level ores? That was a high price. Few people could afford it except for the bigshots in the Mercenary Union.

"Got it." Yun Feng nodded. "If I pay that number of ores in advance, can I have a VIP card?"

The receptionist was stunned for a moment, and then put on a professional smile. "Yes, it's possible, madam."

Yun Feng took out two high-level ores and presented them to the receptionist, making her eyes glitter and widening her mouth. One high-level ore could be exchanged for five hundred mid-level ores. Such an exchange rate suggested the rarity of high-level ores. Even the five-star groups in the Mercenary Union could only excavate no more than a hundred high-level ores in a year, and the number varied every year.

The receptionist finally regained control of herself. She looked at Yun Feng with glittering eyes. "Honorable guest, please wait a moment!" She quickly rushed to the rear of the Auction House, and Yun Feng stood there and waited. Very soon, a man hurried from the rear. The man wore a pair of glasses, which made him look rather scholarly. The receptionist pointed at Yun Feng and said something. The man immediately walked to her with an obsequious smile, "Madam, I'm Li Jiefu, director of this Auction House. What can I do for you?"

Yun Feng smiled. "I need storage containers. Do you have any?"

Li Jiefu said with a big smile on his face. "Dear guest, please come with me. We have exactly what you need!"

Yun Feng nodded and followed the man. Hardly had they disappeared from the lobby, when another man walked inside. The receptionist put on a professional smile, but when she saw the man's face, her tongue was twisted. The visitor smiled and raised the receptionist's chin with his finger with charming eyes. "What did the previous girl say?"

The receptionist was completely befuddled. She looked at the handsome young man, and could see nothing but peach blossoms. Without any resistance, she repeated exactly what Yun Feng said earlier.

The young man put on a smile and retreated his hands. Then, he left the Auction House. Standing at the door, he mumbled, "She's here to buy things? I thought she was here to sell stuff..."

Yun Feng followed the Auction House's director to a room on the second floor. She realized that it was one of the special VIP rooms. It was rather comfortable, with a soft, spacious couch where one could sleep. The room was quiet too. The most eye-catching feature of the room was the transparent glass on its side, which allowed the people in the room to see everything in the auction field. The director rubbed his hands and asked, "Madam, what do you think of this room?"

Yun Feng nodded. This place was indeed satisfactory. She could see what was being auctioned clearly, and if she was interested and made a bid, her identity wouldn't be exposed. The buyers in the lobby, on the other hand, might be vulnerable to malicious robbers. If they paid for a big or famous item, they might even get killed because of it.

Yun Feng examined the environment and was quite satisfied. Her privacy was well protected. She liked that. Seeing the satisfaction on Yun Feng's face, the director of the Auction House took out a glittering card that said "VIP", and gave it to Yun Feng. Yun Feng nodded, and the director prudently left. Yun Feng sat down on the couch and pressed a button that had a voice sign on it. Immediately, she heard the sounds from the auction area.

"Next, we're going to auction..." The auctioneer was trying to elaborate on the items that weren't really special. Yun Feng sat there lazily. The storage containers were treasures. They weren't too precious, but weren't affordable to everyone. They wouldn't be auctioned just yet. Yun Feng waited patiently and observed the people in the seats through the transparent glass. Those people couldn't see her, but she could see them clearly.

Glancing around the room., Yun Feng discovered a few familiar people, including Murong Shuli and Murong Ze. They must've come to this auction because they wanted something. Yun Feng smiled. Some good items were exhibited during the auction, but neither Murong Shuli nor Murong Ze raised their sign. Both of them seemed calm and confident, as if they were determined to get something here.

Chapter 294: Meatball's Fury (1)

Translator: Henyee Translations **Editor:** Henyee Translations

Yun Feng became curious. Whatever attracted both of them couldn't be ordinary. There were a lot of people at the auction, but very few raised their sign, as if they were all waiting for something. Yun Feng was quite interested. It seemed that good stuff would be sold in this auction.

In the final step, the auctioneer was greatly relieved. None of the items so far had excited the buyers, and the atmosphere was rather chilly. The staff brought a box to the auctioneer, and the auctioneer smiled and said to the buyers, "You're no stranger to these items, which are symbols of identity and position! Every bigshot boasts a lot of these things. They're the safest and the most private space where you can store unportable things you need. They are storage containers! Also, more than one of them will be sold today. The seller has announced that if you buy all of them, you will enjoy a discount!"

The auctioneer opened the box, showing the exquisite storage containers to everybody. They were a beautiful belt, two rings, and a unique pin. They were different in looks, but their style and color were

the same, making them enjoyable as a group. They attracted a lot of attention and made many people exclaim. Some raised their sign immediately.

The auctioneer added with a smile, "The items that you're bidding for are the ultimate treasures in this auction. The seller has announced that they only accept ores. If you want them, make a bid with ores! The bottom price is fifty mid-level ores. The auction begins!"

The buyers at the auction were dazed. Then, someone shouted, "Sixty mid-level ores!"

"Seventy!"

The price rose all the way to three hundred mid-level ores.

When the price was announced, everybody gasped hard. The person who made the bid was a middle-aged man. He seemed determined to get the treasures. His bidding was indeed quite astonishing too. The auctioneer looked at him with a smile. "Three hundred. First time!"

Yun Feng put on a smile on the couch. Three hundred mid-level ores were a fair price for four storage containers. However, she had to get them!

"One high-level ore." Yun Feng's words silenced all the buys for a couple of seconds! Everybody couldn't help but look at the source of the voice, only to see nothing but an empty wall!

"A VIP has bid with one high-level ore. Anyone with a higher price?" The auctioneer's voice shivered. Three hundred mid-level ores were already a high price, and someone was offering one high-level ore! That customer was truly rich! Did they have so many high-level ores?

Murong Ze's face darkened. He looked at Murong Shuli and said, "What do we do, father? Will they ruin our business?"

Murong Shuli sat there gloomily too. Supposedly, the Murong family was capable of bidding for the last batch of items. Although they suffered a huge loss after the disappearance of the Evil Wolf Mercenary Group, it had a lot of savings. This time, the family heard that a great item was to be auctioned in Park City, and was determined to get it one way or another. Little did they expect to see such an extravagant person!

That person had directly offered a high-level ore, which made Murong Shuli look rather awful. Would the Murong family have to pay a fortune this time?

"Let's just wait for it. If there's no choice, we can always..." Murong Shuli dropped a hint at Murong Ze, who nodded and looked at the wall in frustration.

The man who offered three hundred mid-level ores almost choked when he heard the new bidding. He coughed with a reddened face, while the auctioneer shouted, "One high-level ore, first time!"

The first bidder cursed angrily, "One high-level ore? What's wrong with you?" He didn't raise his sign again. Everybody knew that high-level ores were much more precious than storage containers. In their eyes, Yun Feng was just a spendthrift. Yun Feng noticed their expressions, but wasn't bothered at all.

She offered such a high price, simply to prevent others from bidding against her. Her insurmountable price discouraged the other bidders. The auctioneers announced three times and knocked his hammer. "One high-level ore, third time. Deal!"

The set of storage containers was taken away and delivered to Yun Feng's room soon after. Yun Feng paid a high-level ore, and the waiter accepted it respectfully and left the room quietly. Yun Feng put away the box. She had enough storage containers, and could already leave. However, the attitude of the two people from the Murong family made her wonder what they wanted in this auction.

The storage containers were sold at an unexpected price, which delighted the auctioneer. Then, the staff presented another delicate box, and the auctioneer bragged about it again. When the box was opened, a level 6 Magic Core was revealed!

Yun Feng couldn't help but yawn. A level 6 Magic Core? That was indeed enough to excite the buyers. It was good stuff, and rare on the market. Most Magic Cores on the market were level 3 or 4. Few Magic Cores above level 5 could be seen. The level 6 ones were even rarer.

As expected, the level 6 Magic Core raised a round of exclamations. Many people's eyes turned bloodshot. A level 6 Magic Core would significantly improve a weapon if it was embedded on one! However, excited as the buyers were, they weren't stupid, as the Magic Core would be useless if they didn't have a mage to help embed it!

The auctioneer waited for a long time.. All the buyers were excited, but nobody bid at all! The auctioneer became rather awkward, and cursed in his heart. What a bunch of shrewd people! At this moment, someone walked forward and whispered something to the auctioneer, who immediately smiled and said, "The seller said that he will do the embedding for the buyer for free!"

Chapter 295: Meatball's Fury (2)

Yun Feng was rather curious to hear that. Was the seller a mage?

Hardly had the auctioneer said that when another round of heated bidding began. Everybody bit crazily and gazed at the level 6 Magic Core. Yun Feng casually took out a level 7 Magic Core and played with it, amused at their passion. She threw the level 7 Magic Core back in. In the end, the level 6 Magic Core was sold for 350 mid-level ores. The auctioneer clearly wasn't very happy, as the price was much lower.

The level 6 Magic Core was taken away. Next, the staff brought up another item, which must be the most important item at this auction. The moment the item was presented, the people, including Murong Shuli and Murong Ze, who knew what it was, changed their expression. Yun Feng couldn't help but glance at the item, wondering what it was.

A box the size of a palm was picked up carefully. When the auctioneer opened its box, everybody gasped, and even Yun Feng uncontrollably leaned forward. Inside the box was a black item that had light on its surface. Yun Feng didn't recognize what it was, but her ancestor's voice echoed in her head. "A protection piece!"

Yun Feng was dazed. A protection piece? Seeing how curious the buyers were, the auctioneer said proudly, "You might not know what this is. It's actually a protection piece, which allegedly can absorb one third of the damage dealt by anyone below the Commander Level!"

Everybody breathed heavily after hearing that. One third of the damage below the Commander Level! How powerful must the item be? "This protection piece can absorb one third of the damage, no matter whether you're attacked by a warrior, a mage or a summoner's Magic Beasts, as long as they're below the Commander Level! It's one of the most valuable treasures in battles!"

Hearing the auctioneer's explanation, Yun Feng became passionate too. It could absorb one third of the attack below the Commander Level? In such a case, she would be able to ensure her advantage with this item if she were to confront an enemy who was as strong as herself!

"Kid, this item will benefit you greatly. You must get it!" The ancestor's voice echoed in Yun Feng's head. Yun Feng clenched her fist quickly. She certainly had to buy it! Through the transparent glass wall, she saw Murong Shuli and Murong Ze. Both of them seemed hopeful and excited. Who were they buying this for? Murong Yuntian? Or more likely, Murong Ran.

Whoever they were buying it for, the Murong family would not have it!

The auctioneer talked for another while, giving the buyers some time to consider and making the atmosphere even more heated. "The seller said that the bottom price is four hundred mid-level ores. The bidding begins!"

When he said that, many people were scared off. Four hundred mid-level ores! Ores were rare to begin with. The exchange rate between gold and ores on the market was quite unbelievable. One mid-level ore was worth a thousand gold coins! Four hundred mid-level ores were worth hundreds of thousands of gold coins!

Noticing the other buyers' expressions, Murong Shuli and Murong Ze were relieved. Murong Shuli dropped a hint at Murong Ze, who nodded and raised his sign. "450 mid-level ores."

The other buyers all backed off when they heard the offer. The auction had come to the most exciting moment, when the competitive bidders, including the Murong family, were the stars of the show. Some other famous families in Park City made their bids too.

Yun Feng heard that their offers had risen to 700 mid-level ores. "720!" Murong Ze gritted his teeth and raised his sign again. Yun Feng couldn't help but raise her brows. Was the Murong family so rich after losing the Evil Wolf Mercenary Group? It seemed that the Murong family hadn't invested everything in the Evil Wolf. It was truly smart.

The other families, seeing that the Murong family bid with 720 ores, couldn't help but grit their teeth, but they didn't give in either. Three families were competing at the beginning, and gradually, there were only two left. The price had risen to 900 mid-level ores!

The auctioneer stood there with a smile. The higher the price, the better. Nine hundred mid-level ores... The auctioneer glanced in Yun Feng's direction. That big shot hadn't taken any action yet. He could still wait...

"950!" shouted someone. Murong Ze and Murong Shuli both looked gloomy. 950... The rich bidder didn't join the competition, and they thought that the Murong family would get the item. However, they had an unexpected challenger!

“Murong Ze, let’s keep bidding!” shouted the bidder arrogantly. Murong Ze awfully raised his sign. “970!” He looked at the Murong family’s challenger with brutality in his eyes.

“Tsk! You’re truly bold! 970 mid-level ores are all that you have, right? I’m not as crazy as you. I forfeit!” The man who provoked him earlier cursed and put his sign down angrily. Murong Shuli was relieved. The man was quite right. The Murong family truly didn’t have any more ores left... It was bidding for this item for Murong Ran and the following contests in the Masang School of Magic. Of course, there was also the important thing...

Murong Ran had to be distinguished in the Masang School of Magic! Murong Shuli and Murong Ze both agreed on that. Since the Murong family couldn’t make a way out in the mercenary world, it had to look for another solution. It couldn’t be caged in Park City forever!

The Murong family had truly spent a fortune, just so that Murong Ran could rise above others!

Yun Feng’s red lips curved as she saw how relaxed Murong Shuli and Murong Ze became. What the Murong family was paying a fortune for happened to be the item that she needed. Tsk, tsk. It seemed that the Murong family and the Yun family were destined not to be friends.

Chapter 296: Meatball’s Fury (3)

Yun Feng opened her mouth. “Two high-level ores.” Her words made the auctioneer grin hard. Murong Shuli could hardly breathe, and flushed in fury. Murong Ze looked awful too, and felt that he had been insulted.

If the bidder had joined the competition from the beginning, it would’ve been fine for them to bid. However, when the Murong family was the only one left and thought it was the winner, this stranger popped up and offered a price that the Murong family couldn’t possibly surmount. Murong Shuli and Murong Ze both felt that they were being made fun of.

Murong Ze rose abruptly and looked in Yun Feng’s direction, before he shouted angrily, “Why do you have to give the Murong family a hard time? Are you trying to embarrass us?”

Murong Ze knew Yun Feng’s voice, but her voice had been processed through the special channel, so she didn’t sound like herself. Yun Feng smiled. “Why would I care about the Murong family?”

“If you don’t, why did you make an offer at such a moment?” Murong Ze looked even more awful, and couldn’t hold back his fury! Especially, since the other families were all watching the drama as if the Murong family were clowns for entertainment!

“Was I not allowed to make an offer?” asked Yun Feng. The auctioneer immediately replied, “Yes, of course you were! Mr. Murong, this bidder didn’t violate the rules. It was fine to make an offer of two high-level ores. Are you going to continue bidding, Mr. Murong?”

Murong Ze’s face was dark and red. He couldn’t have been more frustrated and infuriated. The Murong family had defeated all its competitors in the bidding. Yet, that stranger’s offer was higher than the Murong family’s, which was a brutal slap in the Murong family’s face!

Murong Ze’s lips shivered, and he fell back on his seat rigidly. Murong Shuli was sullen too. Continue bidding? The Murong family couldn’t afford it even if he wanted too! Murong Shuli wanted to shout an

astronomical number to get back at the stranger who intervened, but he wouldn't be able to make the payment later.

The auctioneer stood there in a good mood. It didn't matter who the buyer was or whether there was any conflict. As long as the items were sold, the money and ores would be the Auction House's, and it didn't really care what would happen later.

The auctioneer knocked the hammer and announced the winner. Both Murong Shuli and Murong Ze sat there gloomily and gazed in Yun Feng's direction. They were of a mind to tear the wall down and see who was inside. Many buyers shared the same thought. They all wanted to find out who this surprisingly rich person was behind the wall.

If Yun Feng did show up in public, they probably wouldn't believe that she was the buyer at all as she was just a little girl. In such a case, the Murong family would've been even more shocked.

The auction was over, and everybody dispersed. Seated inside the VIP room, Yun Feng received the protection piece and paid two high-level ores. The waiter retreated respectfully. Yun Feng took out the black item from the box, and suddenly felt that it was unusual. She touched the black item carefully and examined its every tiny stripe.

Yun Feng's eyes widened. This... this item wasn't made by humans. It.. It...

The ancestor's voice came at this moment. "Kid, this item is called a protection piece because people don't know it well enough. Hehe. It's actually a rare treasure. You're truly lucky to see it!"

Yun Feng held the black item in her hand. A moment earlier, she had extended her mental power into the item, but it was bounced back! She was in the Commander Level, so it was probably true that the item could absorb damage underneath the Commander Level!

The item couldn't have been made by any human. So, it was an unknown item that had been given such a name because of its special effect!

"Ancestor, do you know what it is?" asked Yun Feng in her heart. The ancestor, however, shook his head. "I only know that this item is extremely precious, and that there aren't a lot of them. I've seen similar protection pieces before, but they could absorb damage of a much higher level!"

A much higher level? Could they absorb damage below the Monarch Level?

"I was very curious about them and wanted to find out what they were, but I failed to find an answer. I only discovered that they contained a sort of powerful energy. The protection pieces that still exist in the human world have lost most of the energy, yet they're still so effective. It's not hard to imagine that they must've been unimaginably powerful when they had all the energy in them!"

What the ancestor said made Yun Feng's heart shiver. The protection piece in her hand must've existed for a long time and lost most of its energy. So, its effect was based on the remaining energy in it? What kind of item was it exactly? Why was it so powerful when it had lost most of its energy?

How did it come into the human world? Was it brought by human ancestors? Or another mysterious species? Or maybe, human beings hadn't found out everything about the world yet?

Questions popped up in Yun Feng's head one after another. At this moment, Lan Yi's voice chimed in. "Master, I think I've seen this item before."

Yun Feng was intrigued. Lan Yi had seen it before? "Where?" asked Yun Feng. Lan Yi considered it for a long time, before it finally replied, "I think Lord Yao Guang had one of these things before. I don't know whether or not it was the same thing. Maybe they're just similar."

Lord... Yao Guang? Yun Feng seemed puzzled, and Lan Yi smiled. "Lord Yao Guang is the black-robed guy who looks like a young man. He has a pair of gray eyes. It's very easy to recognize him."

Chapter 297: Meatball's Fury (4)

That weirdo! The idea suddenly flashed in Yun Feng's head. That mysterious weirdo in the Dragon Palace owned the item in the past. Then he must know what it was...

Yun Feng put the black item into her bracelet. It seemed that she wouldn't be able to get the answer to her question anytime soon. She could only enter the tenth level of the Dragon Palace, which that weirdo couldn't access. She couldn't find him until she completely refined the Dragon Palace...

Yun Feng thought for a long time. Before she completely figured out everything, a white ball had jumped out of her bracelet. Yun Feng quickly grabbed Meatball, and saw that it seemed exasperated, and it was seizing the protection piece!

Yun Feng narrowed her eyes. "Meatball, put it down!" She had a bad feeling when Meatball held the protection piece so tightly. Meatball's cute face suddenly became scary, and brutality flashed in its big round eyes as it gazed at the black protection piece. Yun Feng had never seen Meatball like this, and was rather stunned. Exactly at this moment, Meatball opened its mouth that was full of sharp fangs, and bit the piece brutally!

The moment Meatball bared its fangs, Yun Feng felt that something was wrong. Her heart palpitated when she saw Meatball bite the protection piece with its sharp fangs. She had paid two high-level ores for this item, and she couldn't allow it to be destroyed!

"Don't you dare!" shouted Yun Feng loudly. Meatball's mouth stopped at the edge of the protection piece. Its sharp fangs were only several millimeters away from the protection piece! Yun Feng grabbed its nape and dragged it to herself. Then, she reached for the protection piece. However, that little thing was unwilling to let it go.

Yun Feng was rather baffled to see Meatball behave like this. However, the most important thing at this moment was to secure the protection piece. She suddenly chuckled, and Meatball looked at her. She said, "If you don't give it to me, you won't have any ores in the future..."

Meatball's tiny body trembled abruptly when it heard that. It patted Yun Feng's back with its tail, and there was no brutality and only complaint left in its grape-like eyes. Yun Feng was stunned at its cute look, and almost changed her attitude. Fortunately, she contained herself and stared at Meatball, before she curled her finger at it. "Now, give it to me."

Meatball looked at Yun Feng reluctantly, and then furiously looked down at the protection piece, as if the item was its nemesis. However, there was no telling why this unknown protection piece would be

the pet's enemy. Yun Feng couldn't possibly figure out why Meatball was acting so weird even if she had multiple brains.

The two of them confronted each other for a while, and Yun Feng finally won. Meatball reluctantly loosened its jaw, and the protection piece fell to her leg. She was relieved, and put the item in a ring that her master offered. Meatball couldn't enter her master's rings, which suggested that her master was much stronger than Meatball. The ring would be a safe place to store the protection piece. Meatball angrily turned around, with its buttock against Yun Feng.

Yun Feng smiled and turned Meatball around. "Tell me, why were you so sensitive about that thing?"

Meatball cried after hesitating for a while. Then, Yun Feng smiled awkwardly. "Hehe... I forgot that I don't understand you."

Meatball seemed infuriated by what she said. It suddenly turned its back against Yun Feng again, before it flashed into her bracelet. It never came out again no matter how she consoled it. It seemed that it was quite angry.

Yun Feng smiled helplessly. That protection piece caused Meatball's reactions. It was so brutal as if the item was its nemesis. What would've happened if it really bit the piece? Yun Feng frowned. Forget it. It was not time to consider that stuff yet. She needed to talk to her father about the future development of the Yun family.

Yun Feng patted her clothes and walked out of the VIP room. Most of the buyers had already left since the auction was over. She was alone when she came back to the lobby. The receptionist put on an exceptionally warm smile when she saw her. "Miss, are you leaving?"

Yun Feng almost tripped herself over because of the receptionist's nauseatingly sweet voice. She looked back at her, and felt chilled all over her body. The waiter who was standing at the door blushed when he saw her, and opened the door respectfully for her. When Yun Feng glanced at him, he lowered his head in embarrassment. Yun Feng walked out without saying a word. Relieved, the waiter wiped his sweat. "Phew... I must keep my eyes keen next time."

Yun Feng left the Auction House. It was already dusk. The clouds had turned yellow. There were a lot of passers-by on the street. Planning to search the hotels for her father, Yun Feng joined the crowd. Suddenly, a man, who seemed to be in a rush, was about to bump into her. She narrowed her eyes and subtly dodged him. However, to her surprise, the man hit her in the end anyway.

When they hit each other, Yun Feng wasn't hurt at all. After all, she was no ordinary girl. Although her skin and body figure were just like anybody else's, the internal structures of her body were already as solid as a Magic Beast's!

Yun Feng had never stopped modifying her body. As her level advanced continuously, the upper limit of the modification had been improving. The vitality from the Array of Life had caused her body to be reborn again and again. Yun Feng had never tested which level of warriors she should compare to. Maybe it wouldn't be a bad idea to fight warriors.

Yun Feng didn't fall; the stranger who bumped into her did. She extended her hand to help him regain his balance. The man was rather surprised too. He had crashed into this seemingly weak girl. How come he was the one who fell in the end?

Chapter 298: Yun Feng's Return (1)

Translator: Henyee Translations **Editor:** Henyee Translations

"Are you alright?" asked Yun Feng casually. The man whom she supported suddenly put a delightful smile on his handsome face. His long eyes were like peach blossoms, and his face that was half covered by his black hair made him look mysterious. The man bowed at Yun Feng and asked, "Beautiful lady, do I have the honor to know your name?"

Yun Feng stood there coldly. Was the man trying to hit on her? Thinking of that possibility, Yun Feng walked away. The man quickly caught up to her. "Beautiful lady, it's fate's arrangement that we meet each other in such a crowd. We should not refuse fate's arrangements."

Yun Feng glanced at him coldly, and his smile remained unchanged. He seemed absolutely impeccable. Yun Feng said, "Fate's arrangements may be terrible."

The man choked at what Yun Feng said, and looked at her in surprise. No girls had ever reacted to a handsome guy who tried to hit on them like Yun Feng did. However, Yun Feng seemed to have not grown up yet when it came to romance. She found the man's flirtation rather disgusting.

"Beautiful lady, you have a unique way of saying things. No one that I have seen is like you. There's no way that I'll let go of the opportunity of getting to know you. Why don't we..." The handsome man wanted to continue, but Yun Feng would rather not waste her time on him any longer. She moved weirdly and passed through the crowd like a breeze. In the blink of an eye, she had vanished, leaving nothing but the trace of the wind.

The young man, who was about to say more, stood there with his eyes widened. He blinked his eyes and looked at the place where the girl had been standing. He laid his hand on his cheek, combing the hair that had been messed up by the wind. "Ah... What a surprising girl. Haha. Interesting, interesting..." The young man laid his hand down, and resumed his previous mysteriousness. He flashed and disappeared like the wind too.

"Huh? There was someone else, wasn't there?" A passer-by looked in his direction in confusion. The others did the same. They were all puzzled. There was a person a moment earlier, wasn't there?

After getting rid of the young man, Yun Feng was in a better mood. She searched the four hotels in Park City for her poker-faced father, and finally found him seated in the lobby of the last one. "Father!" Yun Feng called out to him. Yun Jing was reading something with his head lowered. He couldn't help but raise his head when he heard the voice, and was surprised to see Yun Feng.

Yun Feng walked to him with a smile, and sat down. Yun Jing was holding some files in his hand. Yun Feng looked at them and said, "Father, there's something I need to say to you."

At first, Yun Jing was surprised to see Yun Feng here. Then, seeing Yun Feng's solemn expression, he knew that it must be an important matter. He immediately put away the files and took Yun Feng to his room. Both of them sat down after they entered the room. Yun Feng gave the Sound Transmission Jade

and the storage container to her father, which surprised him even more. Her daughter turned out to be more capable than he expected.

After giving the items away, Yun Feng finally told her father everything that happened in the Masang School of Magic except for Yun Sheng's accident. Her brother had told her that they shouldn't let their father worry. After she told him about her deal with Kasa, Yun Jing sat in silence, and Yun Feng slightly lowered her head. "I know I was too reckless."

After a few seconds of silence, Yun Feng slowly opened his mouth. "No. Just like Yun Sheng said, the Karan Royal Family will attack the Yun family sooner or later. If the Yun family remains what it used to be, it won't raise the royal family's attention. It doesn't care about a small local family. However, now that the Yun family has risen and the royal family invited us, they can't accept us declining them. They must be angry that the Yun family, which has always supported them, turned them down."

Yun Jing's analysis was reasonable, and Yun Feng listened quietly. "Maybe, things aren't as bad as I expected. Although Kasa is a royal princess, she isn't the only one. If the Karan Royal Family truly declares war on the Yun family because of this matter, they won't be justified."

For a thousand years, the Yun family had done a lot for the Karan Royal Family. The summoner that was born in the family fought diligently for the royal family and even let the Karan Empire dominate the East Continent for a while! The Yun family had always been loyal to the royal family, yet when it declined, the Karan Royal Family didn't offer any help and simply let it perish.

Yun Feng didn't blame the Karan Royal Family for not helping. After all, it was the Yun family's fate, and the transformation between rise and decline was inevitable. She never blamed the Karan Royal Family for her family's misfortunes. However, what Kasa said shattered Yun Feng's impression of the Karan Royal Family that wasn't great to begin with. In her eyes, the Yun family was the royal family's slave!

Yun Feng was infuriated. The Yun family that she deeply loved, after devoting everything, only received such an acknowledgment. So, that was how the Karan Royal Family thought of the Yun family!

Ever since then, Yun Feng had sworn that she wouldn't let the Karan Royal Family take advantage of the Yun family again. The Yun family wouldn't be anybody's slave! She lost her confidence in the royal family too. The royal family was a congregation of the most selfish people who would sacrifice others for their own interests!

"Father, the Karan Royal Family might not do anything, because it would look bad if it attacks the Yun family who is a major contributor to its rise. However, it will attack our family sooner or later. By then..."

Yun Jing looked at Yun Feng. "By then, I will listen to you. Even if we must break free from the Karan Empire, it will be your call."

Yun Feng's heart palpitated. After all, the Yun family was based in Chunfeng Town. If it wanted to break free, it had to take Chunfeng Town away with them!

"Feng, what do you plan to do this time?" asked Yun Jing worriedly. Yun Feng smiled.. "Father, don't worry. I'll do what I should, and let others do what I shouldn't!"

Chapter 299: Yun Feng's Return (2)

Yun Feng's red lips curled. It was fairly easy to infuriate Kasa. When one was angry, it was easy for them to lose control of themselves, make insensible judgments, and say things that they would regret. Kasa's naked running was inevitable. The key was to let it happen in a skillful way, so that Yun Feng could take all the advantage. For example, she could make use of Murong Yuntian, whom Kasa had always liked.

Yun Feng remembered the connection between the Yun family and the Murong family that had been cut apart a long time earlier. Kasa couldn't possibly know that, as even Murong Yuntian was unaware of it. The Karan Royal Family didn't have time to investigate everything the Yun family did either. So, the intelligence that nobody else knew would be valuable.

Yun Feng had already made up a plan. She spent the rest of the two days in Park City with her father. Her father asked about Yun Sheng, and she simply replied that everything was fine. They didn't talk much even when they were together. When Yun Jing did his things, Yun Feng simply stayed aside without disturbing him. Spending two days in peace, it was time for them to return. Yun Feng and Yun Jing said goodbye to each other.

Yun Jing was returning to Chunfeng Town. They were leaving through different city gates. Everybody in the Yun family was decisive and determined. The father and daughter never looked back after they said goodbye. Yun Feng remembered the Sound Transmission Jade she gave her father. It would be very easy for her to reach out to him later.

Coming to the suburbs of Park City, Yun Feng saw the Masang School of Magic's bat waiting for her. She jumped on its back, and considered what she must do after she returned to the Masang School of Magic. The society ranking contest was starting... She had the feeling of being peeped at again, and suddenly looked down from the bat's back. As the bat rose higher and higher, it became impossible for her to see the ground clearly, but she kept gazing at one place, until the bat took her away.

A long time after Yun Feng left, someone appeared in the place that she had been gazing at. He was none other than the handsome young man whose face was half covered. He stared at the direction where Yun Feng left and mumbled, "It's impossible for me to chase her to the Masang School of Magic... But that's fine. We'll meet again."

Ever since the forms for the society ranking contest were submitted, the Masang School of Magic had been caught in a heated atmosphere. Everybody in the school was excited. They passionately discussed which would be the best society this year. Naturally, the war between the Constellation Society and the Fire Society attracted most students' attention.

The Masang School of Magic had been divided into two factions. Originally, the members of the Fire Society didn't consider the challenge a big deal. After all, the Constellation Society was too weak. They didn't know Qu Lanyi's participation or Yun Sheng's sudden advancement, so they thought the Constellation Society was as weak as before, and would only embarrass itself. However, to their surprise, the Constellation Society had a huge number of supporters!

Chu Kuangren had been feeling awful for days, because of the recurring conflicts between the Fire Society's members and the Constellation Society's supporters. "Bam!" Chu Kuangren hit the table heavily. "It's just the Constellation Society. Are they blind? How can the Fire Society possibly fail? What a bunch of idiots!" After Chu Kuangren mumbled that, someone broke into the Fire Society's office. "Deputy leader! Something happened! They're fighting again!"

Chu Kuangren looked even more awful. He rose and stormed out in fury, gnashing his teeth. He had been furious for days. He didn't know what the princess was concerned about, or why the Constellation Society had so many supporters! The Fire Society was under unprecedented pressure because of the insignificant Constellation Society, whose supporters should be taught a good lesson!

Chu Kuangren dashed out in fury, and saw two groups of people furiously confronting each other in the square before the society building. One of them had a wounded arm, and the others were applying bandages to it. Someone shouted, "Why did you hurt him?"

"Why did we hurt him? You should feel lucky that only his arm was hurt! If you announce that the Fire Society will fail next time, you'll be mutilated!" A guy from the Fire Society roared furiously. After the roar, the Constellation Society's supporters became angry. "Just wait for it. The Constellation Society will surely beat you!"

"You..." The guy was about to attack, when someone dragged him. He looked back, only to find that it was Chu Kuangren. "Deputy leader!" Chu Kuangren smiled and looked at the group of people on the opposite side. He suddenly burst into laughter, and pointed his finger at them. "It will beat us?? Great! Where is Yun Feng? Do you know where she is? I haven't seen her in days. She didn't flee because of fear, did she?"

What he said made the Fire Society's supporters burst into laughter, and the Constellation Society's supporters looked at each other in bewilderment. It was true that Yun Feng hadn't been seen on campus for days. Many people of the Fire Society had been spreading rumors, and the Constellation Society's supporters couldn't argue.

"Y-You're lying! How can Yun Feng possibly flee?"

"She didn't? Then let her come out! Just let her come out. I would love to meet her!" declared Chu Kuangren provocatively. The people behind him all laughed crazily. However, before their laughter came to an end, a cold voice had come close. "You want to meet me?"

The Constellation Society's supporters, hearing the voice, all turned their heads and looked at its source in delight. Chu Kuangren was so shocked that he nearly bit his own tongue. He stared at the beautiful girl who was walking closer. Wasn't she supposed to be missing?

While everybody watched, a slim girl walked closer. Her pretty face was covered in frost, and coldness glittered in her black eyes. Her clothes were fluttering in the gentle breeze. Her long hair tumbled down her back, as smooth as a waterfall.

Yun Feng walked close unhurriedly and gazed at Chu Kuangren coldly. She had heard everything the man said. It seemed that a deep misunderstanding was caused when she left without saying goodbye.

Chapter 300: The Fire Society's Humiliation (1)

Chu Kuangren shut his mouth and stood there quietly. All of the Constellation Society's supporters looked at her excitedly. "It's Yun Feng! I knew she wouldn't run! Why would she possibly run?"

"Indeed. Only the people with malicious intentions would think like that..."

The Constellation Society's supporters all glanced at Chu Kuangren, who was rather solemn. The Fire Society's members behind him didn't look happy either. They had been delighted when Yun Feng was gone, as she was critical to the Constellation Society's unity. However, she had returned before they had the time to celebrate.

"Chu Kuangren, you want to meet me?" Yun Feng walked close and looked at Chu Kuangren coldly. Chu Kuangren moved his lips awkwardly, but didn't come up with anything.

"You've been gone for days, and now you're back? If you had come a few days later, I would've really thought that you're a coward who escaped!" Chu Kuangren could only keep his condescending attitude. He had already mocked her earlier. If he changed his attitude so quickly, he would be humiliated as the deputy leader of the Fire Society!

The Fire Society's members all felt horrible and didn't say anything. Yun Feng chuckled. "I'm a coward who escaped? That's a good reason, and one that's particularly suitable for you."

"Yun Feng is right! He's such a coward that he doesn't have the courage for a fight!"

"Indeed. If you think you're good, fight Yun Feng right now!"

"Exactly. Didn't you want to meet her? Why don't you fight her if you think you're capable?"

The Constellation Society's supporters were all infuriated, and urged Chu Kuangren to fight Yun Feng. Chu Kuangren wasn't an idiot. He knew that Yun Feng was much stronger than him even though he had never seen Yun Feng fight, thanks to his sensitivity to danger. He knew that Yun Feng was too strong to be his opponent.

"Stop making noise! Whether I fight her or not is none of your business!" Chu Kuangren roared loudly, and the Constellation Society's supporters immediately laughed. Yun Feng put on a mocking smile too.

"Coward! You are the runner here! The Fire Society's deputy leader is a coward!"

"How humiliating! If I were a member of the Fire Society, I would quit! Such a deputy leader is truly humiliating!"

"You..." Chu Kuangren blushed when he heard all the mockery. He truly didn't have the courage. After all, even the princess was rather scared of Yun Feng. He was too weak to fight her!

If Chu Kuangren were capable of fighting Yun Feng, he would have. However, he knew that he was to Yun Feng what an ant was to an elephant. He would never do such a stupid thing. However, the students' mockery made the Fire Society's members change their expressions. They all looked at Chu Kuangren, who felt such overwhelming pressure that he couldn't dodge at all!

"Deputy leader..." mumbled a Fire Society member behind him. Chu Kuangren shivered. Damn it! He had been pushed to a corner! If he left just like this, the Fire Society's reputation would be ruined, and the princess would punish him. The Fire Society might lose its attraction because of him, and the Constellation Society might gain more popularity!

Usually, Chu Kuangren would never do anything that would benefit others at his own cost. However, he didn't have another choice at this moment. Even if he lost, it would be better than running. His dignity as the deputy leader would be preserved!

Making up his mind, Chu Kuangren changed his attitude and held his head high. "Why are you shouting? As the deputy leader of the Fire Society, I must accept this challenge. There are no cowards or losers in the Fire Society!"

The Fire Society's members all cheered in a low voice. Yun Feng changed her expression. Chu Kuangren's insinuation had invoked her fury. Her big brother wasn't a loser. He was much more brilliant than this idiot!

Yun Feng curled her lips and smiled. "Fine. If you want to fight, let's." Yun Feng slowly stretched her arms. Seeing that, Chu Kuangren shouted loudly, "For the record, this is just a practice, not a life-and-death duel!"

Stunned for a moment, Yun Feng laughed. "So, you don't want to die. Got it. I won't kill you." There was even more mockery in Yun Feng's smile. Chu Kuangren's face turned red. It was true that he was scared of death. It would be a huge loss if Yun Feng killed him with this opportunity. He would rather resign as the deputy leader of the Fire Society than get killed!

Hearing what Chu Kuangren said, the Fire Society's members all felt humiliated. They found the Fire Society's leaders indecisive and cowardly. Yun Feng of the Constellation Society, on the other hand, seemed confident and righteous, as if she was the queen of the world!

Chu Kuangren swallowed and stared at Yun Feng. "We'll begin on count of three. One, two..." Chu Kuangren's eyes glittered. He attacked crazily when he counted two!

"What a shameless scoundrel!" The Constellation Society's supporters all roared. Chu Kuangren's advance attack that violated his deal gave him all the advantage. He threw out the fire elements in his hand towards Yun Feng, and he laughed cunningly. Since he was weaker than her, he had to do everything to take over the initiative!

"What do you know? It's called strategy!" cried Chu Kuangren. Everybody on the Fire Society's side lowered their heads. They were even more embarrassed than a moment earlier.

"Damn you! This is what the deputy leader of the Fire Society does! The Fire Society is an unscrupulous society!" roared everybody excitedly. Chu Kuangren turned cold. "If you keep shouting, I'll burn you to the ground!" Chu Kuangren's voice appeased the furious roars. He stared at Yun Feng, whom he was attacking fiercely with his fire elements. He was in the mid-stage of level 4. He was using all his magic power and had taken the initiative. He believed it was enough to cause damage to a level 5 expert!
