

Summoner 301

Chapter 301: The Fire Society's Humiliation (2)

Chu Kuangren waited excitedly. However, his exuberant fire elements disappeared all of a sudden!

"What's... going on?" Chu Kuangren's eyes widened. He looked at where Yun Feng was standing in disbelief. His fire elements were nowhere to be seen. A gigantic red wolf was standing next to her, closing its big blazing mouth. His fire elements had all been swallowed by the wolf!

The wolf burped, and then glared at Chu Kuangren intimidatingly with its red eyes. Chu Kuangren trembled, and looked at the fiery beast in disbelief. "M-Magic simulation... The level 6 spell..."

All the students were shocked. Many looked at the beast next to Yun Feng jealously. The level 6 magic simulation! Yun Feng had already reached level 6!

The Fire Society's members were shocked too. They had been proud of the Fire Society because of its reputation that it had accumulated over the years, and because of its leader, Princess Kasa who ranked second on the individual rank! It was said that other than the mysterious top of the rank, Kasa was one of the few students who had reached level 6, and she was the strongest of them!

However, the girl before them had reached level 6 too, which meant that Kasa, whom everybody in the Fire Society was proud of, would be challenged!

Yun Feng chuckled. "Now that you've greeted me with your so-called strategy, it's my turn to greet you back."

Hearing that, Chu Kuangren couldn't help but step back, and so did the members of the Fire Society. Yun Feng raised her hand high, and the wolf next to her flexed its claws and let out a roar. When Chu Kuangren heard that, his blood curdled and he wanted to run. However, under such circumstances, it was impossible for him to run. His legs had already turned soft, and he could only stagger back.

Yun Feng's lips curled, and she waved her hand abruptly. The wolf that had been eager for action, receiving her permission, dashed forward and opened its bloody mouth. It lunged towards Chu Kuangren with coldness flashing in its eyes!

Some of the audience couldn't help but close their eyes. This gigantic, fiery wolf was so ferocious that it would probably bite off Chu Kuangren's head. Chu Kuangren retreated, and wished that he could fly. However, the fiery wolf was still pressing close aggressively. Its scary eyes and mouth caused Chu Kuangren mind-blowing fear!

"Don't kill me! Please don't kill me!" Chu Kuangren staggered and fell on his knees, with his hands covering his head. He emitted a foul smell, which made the members of the Fire Society change their expression. The Constellation Society's supporters all laughed.

"Hahahaha. Did you see that? The Fire Society's deputy leader just peed his pants!"

"Haha. I can't stop laughing. I really can't. He peed his pants! Good for him!"

Laughter came closer and more loudly, but Chu Kuangren could no longer hear any of it. He simply knew that he wanted to live. He didn't want to die! The members of the Fire Society looked at their deputy

leader with utmost contempt. The man had peed his pants because of fear, and was begging for mercy. It was so demeaning...

"I quit! This is humiliating!" A student mumbled and immediately walked away. Another student also looked at Chu Kuangren with loathing. "The people of the Fire Society must've been blind. They chose him as the deputy leader. Disgusting!"

Most of the members of the Fire Society walked away, determined to quit, but Chu Kuangren was still on his knees, perhaps too frightened. He was still holding his head, and didn't quite understand his situation.

The gigantic, fiery wolf disappeared when it was several millimeters away from Chu Kuangren, which shocked everybody. However, Chu Kuangren failed to notice it in time. He was so scared that he fell on his knees right away and begged for mercy, while peeing his pants. His behavior was indeed rather surprising.

Yun Feng looked down at him coldly. "This is just a practice. I always value my promise, so I won't kill you."

Chu Kuangren's head trembled when he heard that! How come he forgot what he said! This was a practice, and it was impossible for Yun Feng to kill him! He suddenly raised his head, and saw Yun Feng's mockery and the other people's expressions. He also realized that he had soiled himself, and blushed!

"Yun Feng..." Chu Kuangren gnashed his teeth. That fiery wolf was truly a great actor! It retained the offensive gesture until it almost hit him, and it emitted such a vibe of bloodlust that he thought he would get killed the next second. That was exactly how Chu Kuangren felt a moment earlier. While his head was occupied by fear, he completely forgot the deal between him and Yun Feng!

She did this on purpose! Chu Kuangren raised his head angrily. She had publicly humiliated him by attacking him in a way as if she were going to kill him! Was that really appropriate in a spar? As a result, he even wet himself...

Chu Kuangren rose from the ground, while Yun Feng looked at him mockingly. Chu Kuangren blushed and walked away with wet pants. The remaining members of the Fire Society were so embarrassed that they also walked away in frustration after Chu Kuangren left.

"Hahaha. Did you see him? If he's the deputy leader of the Fire Society, then what's the Fire Society like?"

"Yun Feng, you're so awesome! It would've been strange if he weren't frightened by that attack. You're both smart and bold!"

"The Constellation Society seems great. I've decided to join the Constellation Society!" shouted a student. The Constellation Society's supporters were all stunned for a moment. Yun Feng smiled at the student who spoke, making him blush. "Welcome."

Chapter 302: The Fire Society's Humiliation (3)

The other students remembered Yun Feng's shocking attack a moment earlier, and the humiliation of the Fire Society's deputy leader. They were all excited. The result of the Constellation Society and the Fire Society's competition wasn't certain yet! With Yun Feng's help, the Constellation Society might win!

"I'd like to join too!"

"Me too! Me too!"

The Constellation Society's supporters all shouted. Looking at the students who sincerely wanted to join the Constellation Society, Yun Feng was quite delighted. She had indeed imposed the fear of death on Chu Kuangren and demeaned him in public on purpose. She always treated others the way they treated her. Since the man went back on his word, she certainly wouldn't let him walk away easily.

Remembering the expressions of the Fire Society's members, Yun Feng put on a smile. It was time to suppress the Fire Society's arrogance.

Chu Kuangren's spectacular show made a lot of people laugh so hard that they had a stomach ache. Many other people were regretful, and the Fire Society suffered an unprecedented strike. The spar between him and Yun Feng was spread wide, especially the part where he peed his pants. Most members of the Fire Society found it embarrassing. How could such a man be the deputy leader of the Fire Society?

An unprecedented number of students were quitting the Fire Society, including many new members and many old ones. The phenomenon made the Fire Society's leaders ill at ease. At the same time, the Constellation Society, which few people had been interested in earlier, became increasingly popular at the registration office in the society building.

Chu Kuangren had already hidden himself from the public. This time, he had humiliated himself so badly that he wouldn't be able to hold his head high again.

"Bastard! Idiot! Loser!" In the Fire Society's office in the society building, Kasa roared furiously and hit the table. The other members at the meeting were all anxious and silent!

"Remove his position as the deputy leader immediately! Separate him from the Fire Society as quickly as possible!" Kasa coldly gave an order. The other members of the Fire Society couldn't help but feel chilled. Even though Chu Kuangren was indeed an idiot and had failed his duty as the deputy leader, causing a huge loss to the Fire Society, many people found it hard to accept Kasa's decision to get rid of him the moment the accident happened.

Although Chu Kuangren was useless, he had stayed in the Fire Society for many years, and made his own contributions. He respected Kasa wholeheartedly, and carried out her every instruction. He actually did a lot of things for the Fire Society. Now that he had made a mistake, it wasn't wrong to remove his title as the deputy leader, but it seemed outrageous to separate him from the society completely...

"Your Highness, Chu Kuangren made a lot of contributions. Why don't we..."

"Just do what I say! Do you want to quit too?" Kasa glared at him with flaming eyes. What a bunch of losers! They couldn't accomplish anything, and caused all sorts of problems for her!

“Yes, ma’am!” The person who talked lowered his head, not daring to say another word. Everybody else looked gloomy too. What happened to Chu Kuangren might happen to all of them later!

“The contest forms have been submitted. Let the representatives try their best! If they don’t get a good ranking, they’d better consider moving out of the Karan Empire!” declared Kasa furiously, before she walked out. The leadership of the Fire Society that were left in the office looked at each other in bewilderment, and saw fear and helplessness in each other’s eyes.

“What Chu Kuangren did was truly not worth it. He did so many things for her, yet she isn’t grateful at all...”

The others all heaved a soft sigh. They all seemed rather helpless. “In my opinion, we won’t end up any better than him.”

Many people agreed with him, and all heaved a sigh at the same time. They were all deep in thought. Kasa was a royal princess. She had a glorious title, yet she was cold and heartless. Chu Kuangren had followed her for a long time, yet she kicked him away the moment he made a mistake. Everybody else felt chilled.

The leaders of the Fire Society looked at each other. One of them organized the documents in his hand and said jokingly, “Why don’t we join the Constellation Society too? If we stay in the Fire Society, we’ll only end up just like Chu Kuangren. Kasa won’t give us a hand at all if anything happens to us!”

It was supposed to be a joke, yet the person who talked saw that everybody considered the proposal seriously. He quickly said, “It was just a joke! Don’t take it seriously!”

The others managed a smile, and then dispersed and went back. However, the same idea occurred to all of them: should they start looking for other options?

Things were looking good for the Constellation Society. At the registration office in the society building, many people asked for the Constellation Society instead of the Fire Society, unlike before. This change made the student who was responsible for the registration curious. When he learned of the battle between Chu Kuangren and Yun Feng, he completely understood the students’ decision.

Perhaps because the society ranking contest was drawing near, more and more students who hadn’t decided which society to join took action. What surprised the student who was responsible for registration even more was that a lot of Fire Society’s members were quitting.

“I’d like to quit!” Dozens of such voices occurred on a daily basis. The Fire Society had plenty of members, but it still couldn’t suffer the loss of dozens of members every day. Although the Fire Society separated itself from Chu Kuangren as quickly as possible, it didn’t stop the students from quitting.

Kasa came up with all sorts of ways to restore the Fire Society’s attraction. She even offered low-level ores to every new member of the Fire Society, which was a method that probably only she could afford. Some students were indeed attracted. Although some members were quitting, many new students joined the Fire Society every day. Therefore, the number of members of the Fire Society was stabilized in the end.

Chapter 303: The Fire Society’s Humiliation (4)

In the Constellation Society's office, Yun Feng was reading the forms that her big brother submitted. The rules of the society ranking contest were attached to the back of the forms. Every society could send five representatives for the contest. The societies would draw lots before they fought each other in best-of-five matches. The representatives couldn't fight continuously, meaning that they could only fight once. The order of the representatives wasn't fixed. It could be changed according to the circumstances!

In the first round, ten teams would be picked. In the second round, five teams would be picked. In the third round, every two teams must fight until two teams were eliminated. The remaining three teams would fight each other, and the team that had two victories would be the champion!

Yun Feng read the rules carefully, and checked the rewards.

First place: the five representatives would each receive one mid-level ore, while the rest of the society would each receive one low-level ore.

Second place: the five representatives would receive three mid-level ores between them, while the other members of the society would receive ten mid-level ores between them.

Third place: the five representatives would get one mid-level ore between them, while the other members of the society would get five mid-level ores between them.

The societies that ranked lower wouldn't be rewarded. Yun Feng clicked her tongue after reading this. The Masang School of Magic was rather generous. Every member of the champion society would receive one low-level ore. Considering the number of students the Fire Society had, a lot of low-level ores must've been given away!

The second and third best societies were much less generously rewarded. It explained why the Fire Society had to stay on the top all the time. After reading the back of the form, Yun Feng turned it around, and there were five names on it. They were the Constellation Society's representatives in this contest.

Yun Sheng, Yun Feng, Qu Lanyi, Ling Xiaoyun and Mu Xiaojin. Mu Xiaojin smiled when she read the list. They were almost all the most important members of the Constellation Society. Although more and more students joined the Constellation Society, not all of them could represent the Constellation Society. Yun Feng read the names and glanced at Qu Lanyi and Ling Xiaoyun. She was confident in her brother and Xiaojin, but she had to reconsider the other two representatives, especially Ling Xiaoyun, who didn't even know what the society was.

Yun Feng put down the form and considered. Ling Xiaoyun must've cultivated in the Trial Tower with her high-level ores since she gave them to him half a month earlier. If she didn't sign up for him, the Constellation Society would have one fewer representative for no good reason.

While thinking, Yun Feng rose and intended to talk to him, when her office was suddenly opened and someone jumped at her. Yun Feng keenly stepped aside, but the person changed her trajectory precisely towards her new place. Her warm body touched Yun Feng, who immediately turned sullen.

"Qu Lanyi, get off of me!"

Qu Lanyi, who had wrapped herself around Yun Feng, moved her face away and stared at Yun Feng with alluring eyes. "Fengfeng, why didn't you tell me that you were leaving? Did you miss me in the past days?"

Yun Feng's lips cramped. She couldn't hold it any longer, and pushed Qu Lanyi away from her. Yet, Qu Lanyi grabbed Yun Feng's neck and simply refused to get away from her.

"Fengfeng, you didn't miss me at all." Her complaining tone, which sounded like a lonely wife's, made Yun Feng shiver uncontrollably. What was wrong with this woman? Why did she keep sticking to her?

"Qu Lanyi, I don't like being so intimate with anyone else!" roared Yun Feng. Qu Lanyi was stunned. Right when Yun Feng thought that she would get off, she said, "That's alright. You'll get used to it, Fengfeng."

Yun Feng was so angry that she narrowed her eyes. Not caring whether or not Qu Lanyi would get hurt, she was going to throw her away. However, Qu Lanyi stepped back agilely before Yun Feng did anything.

She gazed at Yun Feng with her charming eyes, and unhurriedly combed her black hair. "Where are you going, Fengfeng?"

Yun Feng sorted her clothes. "To talk to Ling Xiaoyun."

"Why do you want to talk to him?" Qu Lanyi seemed rather gloomy and unhappy.

"Why do you care?" Yun Feng raised her brows and looked at Qu Lanyi, who chuckled and moved closer to her again. She quickly dodged her and turned the doorknob, about to run away...

"You can't get into the Trial Tower. Did you forget?" said Qu Lanyi unhurriedly. She looked at Yun Feng with a smile. Yun Feng stiffened. Right. She had indeed forgotten that, but that was fine. She could let her brother talk to him. Yun Feng ignored Qu Lanyi and simply walked out. Seeing that, Qu Lanyi followed her and put on a big smile.

"I'll help you fetch him, Fengfeng. There's no need to thank me."

Yun Feng looked rather gloomy. This person was truly rather voluntary. So be it. Since she said that there was no need to thank her, it was fine. Seeing that Yun Feng didn't turn her down, Qu Lanyi put on a smile and looked at Yun Feng with an unusual light in her eyes.

The two of them reached the Trial Tower, and unsurprisingly, caught a lot of people's attention on the way. Many people couldn't help but look at them and follow them. They didn't even realize it when they bumped into trees.

Qu Lanyi and Yun Feng didn't notice any of them. They simply walked forward, until they reached the Trial Tower. Then, Qu Lanyi smiled at Yun Feng. "Just wait a moment. I'll be right back." After that, Qu Lanyi entered the Trial Tower. When she showed her Trial Card, Yun Feng keenly noticed fear on the face of the teacher at the door.

Fear? Even if the Masang School of Magic's teacher wasn't as strong as talented students, he shouldn't have feared her. Who was Qu Lanyi? Looking at Qu Lanyi's back, Yun Feng was deep in thought. It seemed that this Qu Lanyi couldn't be a simple person, could she?

Chapter 304: The Fire Society's Humiliation (5)

Qu Lanyi's speed astonished Yun Feng. She had only waited for about one minute, when she saw Qu Lanyi walking out of the Trial Tower, with a messy and unkempt man in her hand, who was none other than Ling Xiaoyun.

"What are you doing, crazy woman?" The moment they came out, Yun Feng heard Ling Xiaoyun's furious cry. The contempt on Qu Lanyi's face amused Yun Feng. The moment they came out, Qu Lanyi threw Ling Xiaoyun aside and waved her hands in disgust. She looked at Ling Xiaoyun and asked, "Fengfeng, is this filthy garbage the person you're looking for?"

Ling Xiaoyun rose from the ground quickly. "What did you say, woman? I dare you to say that again!"

Yun Feng frowned. Ling Xiaoyun turned out to be quite angry. Judging from his messy look, he must've been cultivating wholeheartedly, until Qu Lanyi interrupted him. What caught Yun Feng's attention was Ling Xiaoyun's strength. This man had already reached level 5.

He had advanced by one level in only half a month. What kind of speed was that? How had he been cultivating? Yun Feng was quite astonished. The man cultivated even faster than she did. Was he... a genius?

"You're as filthy as garbage. Am I not right?" Qu Lanyi coldly stared at Ling Xiaoyun, and then turned her head aside, as if she couldn't bear looking at him any longer. "Fengfeng, I'm leaving," said Qu Lanyi, before she left as quickly as the wind. Yun Feng blinked her eyes and walked to Ling Xiaoyun, before she raised her head and looked at the messy man.

"Ling Xiaoyun." Yun Feng slowly opened her mouth. Ling Xiaoyun turned back and gazed at her, as if he was searching his memories. "Ah, I remember you. You were the girl who bought my stuff. What's your name?"

Yun Feng sweated hard. It had only been half a month, yet the guy had completely forgotten her! "I am Yun Feng."

"Right, Yun Feng. I remember you. What can I do for you?" Ling Xiaoyun scratched his hair, which was messy and dirty. Yun Feng stared at him for a long time, before she finally asked, "You haven't forgotten your promise, have you?"

Ling Xiaoyun was stunned. "My promise? What's it about?"

Yun Feng couldn't help heaving a deep sigh. Good thing that she had come here to confirm the matter with Ling Xiaoyun, or the Constellation Society would suffer a huge loss... "I asked you to join the Constellation Society, and you accepted my request. I signed up for you. You're now a member of the Constellation Society."

Ling Xiaoyun was stunned again. Then, he waved his hand. "It doesn't matter. Every society is the same to me. Anything else? I'm going back if that's all." Ling Xiaoyun was about to return to the tower, when Yun Feng extended her hand and grabbed his arm. Ling Xiaoyun angrily tried to throw her off, but Yun Feng turned out to be much stronger than he thought!

Ling Xiaoyun suddenly turned his head around, and looked at Yun Feng with glittering eyes. Yun Feng wasn't in the best mood. She stared at Ling Xiaoyun coldly. "You don't seem to be a man with any sense of responsibility. I don't have any hope for you either. I'm simply here to tell you that the society ranking contest is about to begin and you're one of the representatives. That's all." Yun Feng then let go of Ling Xiaoyun, who stood there in a daze and stared at Yun Feng's back as she walked away. He lowered his head and looked at his wrist, which had a dark mark around it. Ling Xiaoyun looked at the mark and mumbled, "What's the matter with that girl? She's so strong..."

Yun Feng walked angrily. The form that had been submitted couldn't be changed. Those representatives were likely the only members of the Constellation Society when it signed up for the contest, otherwise her big brother wouldn't have written Ling Xiaoyun's name. However, Ling Xiaoyun might not come at all, and the Constellation Society would only have four representatives. Although it would be easy for them to secure three victories, she still felt that something was wrong.

After Yun Feng left, a person emerged from the corner. She looked at Yun Feng's back and gradually put on a smile, before she walked to Ling Xiaoyun who was still in a daze. "Cough, cough. Are you Ling Xiaoyun?"

Ling Xiaoyun raised his head, and saw a totally strange woman smiling in front of him. He lowered his head and asked, "Who are you? Why do you know my name?"

The stranger was dazed. "Well... I certainly know you. You don't know who I am?"

Ling Xiaoyun didn't even bother to bat an eye. "No. Why should I know who you are?"

the stranger blushed. "You..." She took a deep breath and continued, "I'm Princess Kasa, from the Karan Royal Family. Everybody calls me Her Highness!"

Ling Xiaoyun glanced at Kasa as if she were a lunatic, scaring her with his expression. "What the f*ck are you talking about? Princess? Are you done bulls*iting? If you have, get the hell out of here."

Kasa's face turned completely red, as if it was about to drip blood. She looked at the man with embarrassment and fury all over her face. She had never been insulted like that in her entire life! How bold of the man!

"Ling Xiaoyun, just who do you think you are? You dare to yell at me? I'll have your family destroyed for that!"

Ling Xiaoyun couldn't help but laugh aloud. "Hahaha. You can't stop bull*iting? I don't have enough time for you. You'll have my family destroyed? Be my guest," said Ling Xiaoyun coldly, before he turned around and walked to the Trial Tower.

Kasa almost bit her own tongue off. Wasn't she supposed to be here to attract him? Why did she burst into fury?

"Hold on a second! If you're willing to quit the Constellation Society and join the Fire Society, I'll give you ten high-level ores!"

Kasa's voice stopped Ling Xiaoyun from moving forward. She smiled proudly. She had obtained the list of the Constellation Society's representatives through a special method. It was hard for her to work on the

other four representatives, but she could still start with this one. Also, she saw that Yun Feng was angry with him a moment earlier. This person would be the best point of breakthrough!

Chapter 305: The Fire Society's Humiliation (6)

Ling Xiaoyun slowly turned around and put on a smile at Kasa. His white teeth were glittering, which made him look like a canine. "Who the f*ck are you to boss me around?"

Kasa had been proud of her identity as a member of the royal family ever since she was born. Everybody had respected her. Yun Feng was the first person to challenge her dignity, and caused her greatest failure. This time, Ling Xiaoyun had insulted her in an even more blatant way. This time, she might lose even more brutally.

Kasa flushed in fury. Her face was even turning purple. She clenched her fists hard, and she shivered because of what Ling Xiaoyun said. However, she didn't say anything. She was here to divide the Constellation Society, especially its representatives! She didn't care even if anyone was going to say that she was unscrupulous. To that, she would only reply with her head held high, "This is just how the royal family does things. What do you know?"

Ling Xiaoyun looked at Kasa in disdain. "Get lost!" He roared, and returned to the tower without looking back. Kasa was stunned for a moment. Then, her face turned purple, and she breathed more and more heavily. "You, you, you..." Kasa stared at Ling Xiaoyun and watched him reenter the Trial Tower. Kasa breathed heavily and tried her best to retain her grace as a member of the royal family!

Yun Feng, and now Ling Xiaoyun. Were they blind or stupid? They didn't have any respect for her, a royal princess. Did they not have families in the Karan Empire? Were they not afraid that the royal family would attack them in fury? Why did they dare to provoke a royal princess again and again?

Kasa thought furiously. A lot of students who passed by looked at her curiously. Kasa managed to regain control of her expression, and strutted away with her head held high like a proud chicken, while everybody looked at her thoughtfully. Yet, her back was stiff, and she nearly tripped.

Kasa's operation of divide-and-conquer failed, which made her angry. The Constellation Society's representatives were indeed a huge problem for Kasa. There were Yun Feng, Qu Lanyi, and Ling Xiaoyun whose strength was unknown. Kasa didn't know who Ling Xiaoyun was. Having been in the Masang School of Magic for years, she didn't even know Ling Xiaoyun. She wasn't worried about Yun Sheng or Mu Xiaojin. She didn't consider them threats. Yun Feng and Qu Lanyi were Kasa's greatest opponents. There was no way that she could beat them. It was quite a problem for the Fire Society to win the contest. However, Kasa didn't know that Yun Sheng, who didn't catch her attention at all, would be the most shocking person in the contest. Also, because of this contest, the Yun family would embrace a completely unknown storm.

Very soon, it was already the night before the social ranking contest, which would officially begin on the next day. The representatives of every society that participated in the contest were excited, and the audience was even more excited than them. All the students were heatedly discussing who would win the society ranking contest on the next day.

On this night, when all the students discussed excitedly and loudly, the Vice Principal of the Masang School of Magic received an important message, which widened his eyes and filled them with light.

The Vice Principal immediately summoned Ted, who came right away without any sleepiness. It seemed that he was somewhat thrilled about the upcoming society ranking contest too. Opening the Vice Principal's office, Ted saw him seated on a chair in front of the window with the moonlight shining over his face through the glass. The old man who always seemed relaxed and comfortable appeared rather mysterious on this occasion.

"Vice Principal," said Ted softly. The Vice Principal didn't turn around, but simply chuckled. "Ted, you're having trouble sleeping too?"

Ted was dazed for a moment, and then put on a smile. "You too, Vice Principal? It's already late. Do you want someone to talk with you?"

The Vice Principal chuckled again. "You're too old to be so excited. That girl must've been a great surprise to you. I, on the other hand, am not as excited as you are."

"Then why did you..." Ted frowned suspiciously. The Vice Principal turned around slowly and looked at Ted with a smiling, wrinkled face. He waved his finger, and a tiny fire element leaped from his finger to the lamp, illuminating his face and making him look rather mysterious.

"Our Principal, who's far away in the Gamen Empire, finally sent a message back." Ted's eyes widened the moment the Vice Principal said that. He looked at the Vice Principal with disbelief and panic. Then, he suddenly laid his arms on the Vice Principal's table.

"Our Principal?"

The Vice Principal nodded with a smile. "That irresponsible old man is like a ghost. Ted, we've got things to do."

Ted frowned. The Vice Principal waved his hand, and threw a letter to Ted. Ted quickly grabbed the letter, and slightly frowned at the messy handwriting on the envelope. Then, he smiled helplessly. The Principal was as wild as before. Was he not afraid that other people couldn't read his handwriting?

As he read the letter, Ted became serious and furrowed his brows harder and harder. In the end, after finishing the letter, Ted raised his head with gloom all over his face.

"So to speak, we've really got things to do..." Ted mumbled in a low voice. The Vice Principal chuckled and leaned back against the chair. "I'm not too worried this time. After all, too many surprising kids have shown up this year. For them, this will just be an easy task."

Ted put on a smile, as the Vice Principal was absolutely right about that. Remembering Yun Feng, Ted was less gloomy. With her here, the Masang School of Magic would probably distinguish itself this time...

Chapter 306: The Society Ranking Contest Begins (1)

"Should we hold the individual ranking contest at the same time?" asked Ted. The Vice Principal chuckled, "Just do what you see fit."

Ted's lips twitched. He walked away and held his head. The Vice Principal was truly the pot calling the kettle black. The only difference between him and the Principal was that he was on campus. He was actually just as irresponsible as the Principal. Ted heaved a helpless sigh. Never mind. It was perhaps his fate to be a hardworking teacher.

The next morning, the social ranking contest of the Masang School of Magic excitingly began. This time, fifty societies participated in the ranking contest. Almost all the students dropped their cultivation, making the Trial Tower emptier than ever. Everybody swarmed to the place where the society ranking contest was to be held. They were all excited, as the ranking contest this year would be quite suspenseful.

Naturally, as the dark horse, the Constellation Society received everybody's attention, whether they meant well or not. The Constellation Society was as popular as the Fire Society, if not even more so! The rise of the Constellation Society, which had always been at the bottom, made other societies jealous. They all regretted that they didn't have a member like Yun Feng, which would've made them popular too.

Jealous as they might be, the societies knew that Yun Feng was unique. The Constellation Society was able to attract her to join it only because of Yun Sheng!

Yun Feng was a lot like Ling Xiaoyun in terms of personality. If her brother Yun Sheng hadn't joined the Constellation Society and become its leader, she wouldn't have joined any society or caused such turmoil.

In the giant auditorium of the Masang School of Magic, all the students had gathered. The fifty teams had arrived too. Hundreds of people were standing in the center of the auditorium, from which the tables and facilities had all been removed. Inside the spacious auditorium, besides the hundreds of contestants, there were twice as many students as an audience, who discussed in a low voice and looked at the contestants curiously.

The contestants who were standing in the center wore different expressions, and most were simply expressionless. There was no telling whether they simply didn't care, or whether they were just anxious. The Constellation Society's representatives stood in a corner. Yun Feng glanced around and became grave, as Ling Xiaoyun hadn't come.

Mu Xiaojin extended her hand and grabbed Yun Feng's. Yun Feng smiled at her. Seeing the harmonious scene from aside, Qu Lanyi leaned close and wrapped Yun Feng's finger with her warm and soft hand.

Yun Feng shivered, and threw off Qu Lanyi's hand without thinking. However, out of her expectation, Qu Lanyi leaned against her arm, and put her perfect face on her shoulder. "Four representatives will do. We don't need that disgusting guy."

Yun Feng had goosebumps all over her body. Seeing that, Yun Sheng looked gloomily and pulled Yun Feng to him, freeing her from Qu Lanyi. Qu Lanyi chuckled, "Brother Yun, are you jealous?"

Mu Xiaojin was rather gloomy as she listened. Yun Feng couldn't help but look at her brother. Qu Lanyi was indeed stunningly beautiful. Every man who passed by would stop and look at her. It was understandable if her brother liked the woman. However... Yun Feng was uncomfortable when she pictured her brother being together with that woman. She then shook her head and drove the random thoughts out of her head. It was best not to mess with such a woman. Considering how gentle her brother was, she had no doubt that Qu Lanyi would take advantage of him if they were really together!

Yun Sheng blushed, not because he liked Qu Lanyi, but because of the way Yun Feng looked at him. "That's not it!" Hearing that, Qu Lanyi put on a charming smile again. "Oh? Then what's it?"

Yun Sheng's face was even redder. Mu Xiaojin watched everything in silence with a tightened face and pursed lips. She looked at Yun Sheng with her big eyes, yet Yun Sheng didn't see and Yun Feng didn't notice her either. Qu Lanyi glanced at Mu Xiaojin and then whispered to her, "If you just watch and don't talk, he'll be stolen by someone else sooner or later."

Mu Xiaojin suddenly raised her head, and looked at Qu Lanyi in shock. Her face turned red the next moment. Qu Lanyi chuckled. Seeing that, Yun Feng immediately pulled Mu Xiaojin to her. After seeing that, Qu Lanyi was about to embrace her again, but Yun Feng glared at her and stopped her from moving forward. Qu Lanyi said, "Fengfeng, why do you have to act like this? Don't we always do this every night?"

Her words were truly enticing. Those who were curious about them overheard what she said and clicked their tongue. They were two women... What did they do every night? Also, the two girls were so beautiful. No wonder they didn't have boyfriends and never hung out with guys. Was it possible that they...

The society ranking contest hadn't begun yet, but Yun Feng and Qu Lanyi's relationship had already become the center of attention. Men and women alike were gossiping about them without the two of them realizing it.

"The Constellation Society has only four representatives?" The voice silenced all the contestants. Yun Feng and her companions fell quiet too. The contestants who had been waiting made way for the newcomers. They were Kasa, who was as condescending as always, with four followers. The five of them wore the same clothes. None of the other societies' representatives did that. They looked rather intimidating.

Kasa was walking in the lead, followed by Mi Lingli, whom Yun Feng was quite familiar with. She was as arrogant as she always was. Seeing that there were only four representatives on Yun Feng's side, she sneered. Murong Ran was in the team too. She was the tenth on the individual rank, and it was natural that she got picked as the Fire Society's representative. The three women who had grievances with Yun Feng were in the same team. Seeing that, Yun Feng couldn't help but smile, wondering if it was preordained that they were gathered together.

Chapter 307: The Society Ranking Contest Begins (2)

"Every team in the contest has five members. The Constellation Society is certainly no exception," replied Yun Sheng peacefully.

Murong Ran snorted and didn't say anything else. She looked at Yun Feng with fear. After all, Yun Feng's water element attack that tortured her for half a month turned her into an animal in a zoo. Some unknown students came to the hospital and visited her every day while she was on the sickbed. She almost died of embarrassment.

Ice gathered inside her body every day, and until the ice melted, she felt a coldness that was deep to the bones. Such cold changed Murong Ran's impression of the water element. If anyone said again that the water element was the least aggressive element, Murong Ran would be the first to argue with them. Murong Ran didn't dare to say anything else.

Yun Feng smiled. It seemed that it was right to teach that woman a lesson. She was much more obedient at this moment.

“You have five representatives? Where is the fifth person? Has he not gotten up yet?” Mi Lingli looked at Yun Sheng in disdain. She was the most ignorant about the Yun family and the brother and sister. Her provocations had no limits. She had no idea that she was not confronting two harmless human beings, but two lions which had concealed their claws.

Yun Sheng smiled. “He will come.”

Kasa put on an arrogant smile, which she thought was graceful. She walked to Yun Sheng and said in a low voice, “Ling Xiaoyun won’t come. Just drop your hope.”

Yun Sheng couldn’t help but glance at Kasa, who smiled and said to Yun Feng’s team, “Good luck to all of you. I hope you won’t run into the Fire Society in the first round.”

Yun Feng chuckled and looked Kasa in the eyes. “Don’t worry. You always have to wait for the good shows.”

Kasa held her breath. At this moment, Yun Feng’s eyes looked like those of a ferocious beast that was about to attack. She was so fearsome and shocking that Kasa’s vibe was destroyed. Kasa could only turn around angrily and leave with her teammates, who were also too awed to speak.

After Kasa left, Yun Feng asked in a low voice, “Big brother, what did that woman say to you?”

Hearing what Yun Feng was calling Kasa, Yun Sheng was quite startled. Then, he smiled in relief. “It’s nothing. Don’t worry.”

Qu Lanyi remained silent with a smile, as if nothing could attract her curiosity. Mu Xiaojin looked at Yun Sheng worriedly. The Constellation Society only had four representatives, which was a great disadvantage. Mu Xiaojin couldn’t help but feel anxious. She knew Xiao Feng’s strength very well, but she didn’t know much about Qu Lanyi. As for Brother Yun, he was even weaker...

Thinking that, Mu Xiaojin couldn’t help but frown. Was it really possible for the Constellation Society to win with only four representatives. She felt someone grab her head, and then a hand petted her on the top of her head. She raised her head, and saw Yun Sheng and Yun Feng. The brother and sister of the Yun family both put on the most gentle expression and said at the same time, “Don’t worry.”

Mu Xiaojin’s uneasiness was soothed. Qu Lanyi said casually, “Mu Xiaojin, your worries were totally uncalled for.”

Mu Xiaojin put on a big smile at Yun Sheng and Yun Feng. She grabbed Yun Feng’s hand. Even if they only had four representatives, so what? They would enter the finals and win! Nothing would happen as long as her friends were here!

The society ranking contest finally began after Ted showed up. Fifty teams were assigned to five regions by drawing lots. There were ten teams in every region. Then, by drawing lots, the ten teams in each region would fight in pairs. The top two of each region would enter the second round.

The captain of each team was responsible for drawing lots. Naturally, it was Yun Sheng's responsibility. He returned with the lot he drew. The Constellation Society was assigned to Region C, whereas the Fire Society was in Region A. They wouldn't fight each other in the first round.

Very soon, the region assignments were listed, including the names of every person that participated in the region. There were two teachers responsible for each region. The audience naturally gathered around the regions. As expected, most students were around Region A and Region C, because they were interested in the Fire Society and the Constellation Society.

Standing in front of the board, Yun Feng glanced across the ten teams in Region C. She had never seen any of the societies. After reading their descriptions, she found that the Clouds Society was the only threat to the Constellation Society.

The Clouds Society's team consisted of three level 4 mages and five level 5 mages, which was a rather powerful lineup among all teams in the contest. Most contestants were between level 3 and level 4. Considering the average of the level of all the mages on the East Continent, those who were above level 6 were extremely rare. Geniuses such as Yun Feng and Qu Lanyi were hard to come across.

The society ranking contest finally began after an order. Elimination games took place in the five regions at the same time. Roars, as well as boos and cheers from the audience burst out now and then. The auditorium was quite lively. Above a protruding platform on the top of the auditorium, Ted was standing and watching all of the games. He paid most of his attention to Region C, but it wasn't the Constellation Society's turn yet.

The Fire Society in Region A was the first to fight. It won the first game with dominating advantages, receiving applause and cheers from all the students. After all, the Fire Society had gained a lot of popularity over the years. Although Chu Kuangren's incident was a major strike, thanks to Kasa's cruel decision, the Fire Society still had a lot of supporters despite its tarnished reputation. This first victory brought a change to the Fire Society's impression, reminding everyone that it was as powerful and unbeatable as before.

After finishing off their opponents easily, the representatives of the Fire Society looked at Region C at the same time, and heard the students' cheers from that direction. Kasa mumbled to a person near her, and the person immediately ran to Region C. It seemed that he was asked to acquire all information about the Constellation Society as soon as possible.

Chapter 308: The Society Ranking Contest Begins (3)

Yun Sheng looked at the number in her hand. It was the Constellation Society's turn now that the last pair had finished. A teacher shouted, "The Constellation Society, go up!" All the students in Region C waved their arms and roared excitedly. They all gazed at the arena with passion all over their faces. The Constellation Society's opponent was an unknown small society. Without the new members such as Yun Feng, it probably couldn't even beat this small society.

Yun Feng was the first to leap to the arena. Her opponent stepped up too and glanced at Yun Feng. "You're the guy who challenged the Fire Society? You're quite bold and courageous. I wonder how strong you are."

Yun Feng curled her lips and smiled. She waved her hand, and flowing blue water elements appeared in her hand. They seemed gentle and harmless, but there was something unusual about them. Her opponent became solemn and waved his hand too, summoning yellow elements, which suggested that he was a mage of the earth class.

“You’ll find out how strong I am very shortly,” said Yun Feng with a smile. She narrowed her eyes and slashed her hand. The Constellation Society’s first battle hence began!

The matches in Region A were all finished quickly, and the Fire Society was particularly fast. It beat all its opponents with several moves. None of its opponents hoped to beat it either. Soon, the Fire Society became one of the advanced societies in Region A, whereas the other teams fought for the other opening. The person whom Kasa asked to watch the Constellation Society’s game returned with an awful expression.

“Tell me. How is it going there?” Kasa sat on her chair at ease, with her four teammates by her side. The reporter took a deep breath and then said in a low voice, “Three consecutive victories.”

Kasa frowned. “I know the result; I want the details!”

The reporter couldn’t help but gasp. He glanced at Kasa. “They defeated all of their opponents in only one round.”

Kasa suddenly raised her head. “Did it happen in all three of the games?”

The reporter nodded heavily. “Who fought in those games?” Kasa’s heart palpitated ill at ease. She tried to soothe herself, telling herself that instant victories were no big deal. It was possible that they had been fighting Mr. Nobodies.

The reporter opened his mouth with shivering lips. “Yun Feng, Mu Xiaojin and... Yun Sheng.”

Kasa’s heart raced the moment she heard that. The others were rather startled too. They knew that Yun Feng would win easily as a strong double-element mage. It was understandable that Mu Xiaojin defeated her opponent fast too. However, about Yun Sheng... How could he have won so easily even though he was only level 3? It didn’t make sense!

Kasa sat there in silence without saying anything. Her companions were deep in thought too. The reporter, seeing that, quickly moved away. Cheers suddenly burst out of Region C, which woke Kasa up and made her furrow her brows.

Yun Sheng, Yun Sheng... Was it possible that Yun Sheng had been hiding himself this whole time?

Kasa felt ill at ease when she thought about that. The Yun family was no normal family. The Karan Royal Family needn’t have wasted so much time dealing with it if it were. A summoner had emerged in this family in the past. It was like a fish bone that was stuck in the Karan Royal Family’s throat. It would be fine if the family declined, but it would be a disaster to the Karan Royal Family if the family rose. Since there was no way that the family would give in, the Karan Royal Family had to completely erase it! That was the royal family’s philosophy.

Kasa thought carefully. Yun Feng's growth had already made the Karan Royal Family vigilant. If Yun Sheng grew strong too, then... Kasa became solemn. If that was true, it seemed that they would have to attack the Yun family in advance.

After the Fire Society became the top in Region A, the matches there started coming to an end. All the audience moved towards Region C, where rounds of cheers were bursting out. It seemed that many other societies presented splendid performances besides the Constellation Society.

Soon, only two teams were left of the ten teams. As the students cheered more and more loudly, the battle between the Constellation Society and another society was about to begin!

"Keep it up, Constellation Society!"

"I have high hopes for you! Become the top of Region C and let the Fire Society see!"

The students all shouted enthusiastically. In the cheering crowd, there was a small group of people who remained cold and silent. They all had the emblems of the Fire Society on their chest, indicating that they were members of the Fire Society.

"Aren't you from the Fire Society?" A student keenly noticed this group, who didn't join the cheers of the crowd at all, making it easy to notice them. The other students all turned their heads. The group of students thought that nobody would see them, but they had ended up as the center of attention. They all blushed. "So what? Can't we watch the matches in Region C because we're from the Fire Society?"

"Haha, of course you can! You're here for reconnaissance, aren't you?" said a student unconsciously, making those students even more embarrassed. They had truly come here for reconnaissance at Kasa's instruction. They weren't happy about her instruction either, because she could've come here and watched, instead of asking them to report all the details to her.

"Stop spouting nonsense! The Fire Society is the best of Region A. We're only here to check if the Constellation Society will be the top! Otherwise, it won't be capable of challenging the Fire Society!" The members of the Fire Society all held their heads high. Although they spoke aggressively, they seemed rather anxious in a way. All the students around them burst into laughter, making them rather scared. They looked at the laughing students, wondering why they were laughing so loudly.

"Then just stay here and watch how the Constellation Society reaches the top."

The students of the Fire Society looked pale and sullen. The other students all glanced at them in disdain. At this moment, the Fire Society had lost most of its reputation in the Masang School of Magic. Chu Kuangren's incident and Kasa's cruel attitude towards him changed people's impression of the Fire Society.

Chapter 309: Absolutely Strong (1)

The Constellation Society had never been known until it challenged the Fire Society. However, as it turned out, the Constellation Society was strong enough to challenge the Fire Society. Besides, it seemed to be united and harmonious, and its leader wasn't arrogant at all. Yun Feng, on the other hand, also carried the vibe of leadership that made the members of the Constellation Society want to obey her.

As time went by, the Fire Society lost its brilliance, and the Constellation Society became a rising star!

“It’s begun. Those people are unimportant. If they want to watch, just watch!” All the other students moved their eyes away, and the Fire Society’s spies couldn’t help but lower their heads. Had the Fire Society ever been so ignored? When the Fire Society was in its heyday, even its regular members received other people’s envy! However, at this moment, they were subjects of despise and derision!

They stood there, holding back the discomfort in their heart. On the arena, four members of the Constellation Society stepped up. Yun Feng glanced at her opponent’s team and moved forward. Cheers burst out consecutively. Region C was likely the most heated region of all.

Yun Feng glanced at the crowd, and soon saw the frustrated spies of the Fire Society. She put on a smile. It seemed that the Fire Society had successfully become the top of Region A. It would be unacceptable if the Constellation Society didn’t become the best of Region C unstoppably!

Yun Feng warmed up her wrist, with determination all over her face. Her opponent stepped up. The referee raised his arms and was about to announce the beginning of the match, when her opponent suddenly said loudly, “Wait! I admit defeat!”

Everybody was shocked. Then, curses and yells echoed in the region.

“Damn it! Seriously? You’ve admitted defeat even before the battle starts?”

“Exactly! Don’t you think it’s humiliating?”

The students who were expecting a spectacular game never thought that one party would voluntarily admit defeat. The contestant who admitted defeat stood there with a red face. The referee was rather awkward too. He slowly put his arms down.

“Are you sure you want to admit defeat?” asked the referee again. At this time, a guy who seemed to be the captain of the team walked close solemnly and bowed to all the audience.

“I know you want to watch a spectacular game, but I know we’re too weak to beat the Constellation Society. It’s impossible for us to reach the top. Therefore, we admit defeat.”

After the captain said that, the audience booed him. The referee nodded in approval and then announced loudly, “The Constellation Society is the top of Region C!”

The unexpected submission made Yun Feng chuckle. That captain seemed like a smart guy. It was right to dodge foes that were too strong to resist. In particular, in the society ranking contest, one failure didn’t mean doom. They might achieve better rankings if they preserved their strength. Besides, they were already the second best of Region C, and qualified to advance. If they hadn’t been qualified, they probably would’ve tried their best to fight.

The members of the Fire Society looked at the scene in shock. Admit defeat? They had admitted defeat? The Constellation Society became the top without even fighting. Even the Fire Society never awed its opponents like that, and had to fight to reach the top!

The spies looked at each other in bewilderment. They didn’t acquire much intelligence, but were rather shocked. They immediately squeezed through the crowd and walked to Region A. Although the audience at Region C were rather bummed, they realized that the captain was right not to take the risk of fighting

the Constellation Society. After all, even if the battle was fought, the Constellation Society would still win easily. Its instant victories so far had intimidated a lot of people, and made its opponents feel threatened.

The members of the Fire Society quickly ran back to Region A, where Kasa was seated anxiously. She resumed her calm expression when she saw them, and asked unhurriedly, "How did it go?" She knew that the Constellation Society must be the top, but she wanted to know the details about how it reached there.

Those members were silent for a moment, before they finally said, "It won."

"Of course! I know it won! I want to know how it won!" shouted Kasa anxiously. Then, she immediately changed her attitude. She had lost her cool. As a princess of the royal family, she must keep her grace and manners all the time.

"Your Highness, there are no details. The Constellation Society didn't do anything. Its opponent voluntarily admitted defeat."

Hearing that, Kasa could hardly remain cool. She looked awful, and waved her hand to dismiss the spies. Then, she rose and walked to a dark corner, hiding herself in the shadow. Glancing at Region C, Kasa walked out of the auditorium silently.

On the rear mountain in the Masang School of Magic, Kasa stood along with a Jade amulet, which glittered and emitted a voice. "Kasa, what's the matter?"

Kasa was rather nervous, even though she couldn't see the person who talked and could only hear his voice. "Father, the Yun family has changed."

The person whom Kasa called father was none other than the emperor of the Karan Empire!

The Sound Transmission Jade glittered again. "It has changed? Tell me about it."

Kasa frowned and told her father about Yun Feng and Yun Sheng, how Qu Lanyi took Yun Feng's side, and the progress of the society ranking contest. After that, Kasa continued, "Father, the Yun family is already a great problem for us. Why don't we..."

The jade was silent for a long time, before the emperor finally said, "Leave the matter alone for now. The Yun family is still useful to us. Both of the Yun family's kids in this generation are mages. If either of them grows into a summoner..."

Chapter 310: Absolutely Strong (2)

Regret and fury surged in Kasa's eyes when she heard that. "Father, if a summoner emerges in the Yun family and it doesn't obey the Karan Empire, it will be a disaster. What if it listens to the orders of other countries?"

The Emperor was silent for another few seconds. "That's a valid concern. However, in any case, we must observe the Yun family for a while longer. I already have a plan about what to do."

Kasa bit her lips, unwilling to give up. "However, father, if the Fire Society loses, I'll have to..."

The Sound Transmission Jade glittered, and the emperor's solemn and cold voice sounded. "You'll have to do whatever you can! You should know the consequences if you dishonor the Karan Royal Family!"

After that, the Sound Transmission Jade stopped glittering. Kasa clenched the Sound Transmission Jade so angrily that it would've crumbled into pieces if it weren't extremely hard!

Was the Yun family or the summoner really remarkable? The Karan Empire hadn't had a summoner for years, but it was just the same as before. Besides, only one of the other three empires had a summoner, who was already very old. Why were summoners so important?

If a summoner truly emerged in the Yun family, considering Yun Feng's attitude towards the Karan Royal Family, there was no way that she would work for the Karan Royal Family! Kasa bit her lips and thought of her deal with Yun Feng. If she lost, she would have to run nakedly, which would bring shame to herself and the Karan Royal Family!

The emperor had already expressed himself very clearly. If she dishonored the Karan Royal Family, she would bear the consequences. She couldn't bear the royal family's fury even though she was a princess. Besides, her father was well known to be temperamental...

The more she thought about it, the more awful she looked. She paced back and forth, and almost flattened the grasses underneath her feet. Suddenly, she thought of a person, and became relaxed. If that person helped her, Yun Feng wouldn't dare to do anything to her!

Kasa was delighted the moment she thought about that. She clenched her Sound Transmission Jade and sent her aura into it. Very soon, the Sound Transmission Jade emitted a voice. "Princess Kasa?" The voice sounded so lazy as if the guy hadn't woken up yet.

Kasa was even more delighted. "Uncle Randal, you remember me?"

"Hehe. How can I not remember you, Princess Kasa? Is there anything I can do for you?"

Kasa carefully considered how she should describe the matter, before she finally said, "Uncle Randal, my life has been terrible. I've been bullied. I wanted to talk to you about it."

"Oh? Who dares to bully the Karan Royal Family's princess? They're rather bold, aren't they?"

"Even though you don't know her, Uncle Randal, you must know her family name."

The Sound Transmission Jade was quiet for a while, before it sounded again. "I must know her family name. Is she from the Yun family?"

"Yes, the Yun family. On behalf of the Royal family, I extended an invitation to the Yun family, but the Yun family declined me and arrogantly claimed that they wouldn't serve the Karan Royal Family. Besides, the two kids of the Yun family had no respect for me or the Karan Royal Family at all."

"Is that true? If so, they have forgotten the Yun family's teachings that were from a thousand years ago."

Kasa put on an even bigger smile, yet she spoke in a faked bitter tone, "Uncle Randal, it's fine if they disrespect me, but they must not despise the Karan Royal Family. The Yun family is just the royal family's subject anyway. It's truly disappointing that they have no respect for us at all."

“What do you think we should do, Your Highness?”

Brutality flashed in Kasa’s eyes, and she put on a smile. “To give the Yun family a warning, of course, and let them drop their arrogance. Especially, the young people of the Yun family must be taught a lesson!”

Chuckle came from the other end of the Sound Transmission Jade. “Princess Kasa, do you want me to teach them a lesson?”

“I know that you cannot leave the capital easily, Uncle Randal. I called you only because I felt uncomfortable. You don’t need to do anything. I already told the matter to my father, but he didn’t really care. He might think that the Yun family is still loyal.”

“Well... Princess Kasa, you’re right. If the Yun family is no longer loyal, then it’s a great problem for the Empire. It might become even more arrogant if it’s not taught a proper lesson.”

Kasa was so delighted that she clenched the Sound Transmission Jade tightly. As long as Uncle Randal accepted her request, Yun Feng would be taught a lesson that she would never forget for the rest of her life!

“Although I cannot leave the capital easily, it is my duty to resolve His Majesties’ concerns for him.”

Kasa smiled delightedly when she heard that. “Exactly. The Karan Royal Family gave the Yun family everything, yet they have ungratefully forgotten our favor.”

“I’m setting off right now. I should be able to arrive at the Masang School of Magic by evening. This is a personal trip. Please do not tell anyone else, Your Highness.”

Kasa nodded. “Uncle Randal, don’t worry. I won’t tell anyone.”

No sound came from the other side of the Sound Transmission Jade. Kasa put away the Sound Transmission Jade carefully, and put on a cocky smile without any grimness. Yun Feng, haven’t you been arrogant? This time, you will learn that the Karan Royal Family is not to be provoked, and I’m not to be insulted by you! Tonight, you’ll have a taste of the princess’s wrath!

The first round of the society ranking contest was over, and the second round would begin on the next day. The matches on the first day weren’t entirely satisfactory. Very few of them were enjoyable. The strong teams beat the weak teams instantly, and the matches among the weak teams weren’t very attractive. However, in the following days, the games would be much more spectacular. Three fourths of the teams had been eliminated in the first round, leaving only ten teams. Although some of those teams were stronger than the rest, the difference among them wasn’t as huge as in the first round.
