

Summoner 31

Chapter 31: Hm? Someone's Here (1)

"Let's go back..."

"No! If I don't see a living level-5 Magic Beast, I'll never go back!"

The boy's face immediately darkened and the anger that had been suppressed in his mind also started burning fiercely after hearing what she said. A level-5 Magic Beast? Did she think that she had a few lives? Did she want to rely on her ability as a level-3 mage or the strength of a few level-5 servants?

"We're returning!" The anger suppressed in the boy's heart for a long time finally burst out. He had had enough of this ignorant and arrogant girl! The few servants couldn't help but look thrilled after hearing this. They thought their Young Master finally made a good decision.

"Mei Bing! How dare you command me! I'm the Young Lady of Park City. No one dares to order me!" The girl's face flashed with anger, but the boy's ice-like look indicated that today's trip was over!

"Master, be careful!" Suddenly, the expressions of the few servants changed abruptly. The four of them immediately formed a circle around Mei Bing and the girl. This sudden alert made Mei Bing's face turn dark. When they were about to retreat, he felt an energy covering his head, which made it difficult to breathe!

An elegant figure slowly stepped out from deep in the bushes. The toned body had an elegant purple color and its golden yellow eyes were full of viciousness and cruelty!

The young boy's pupils shrank immediately and the four servants also turned pale. They saw... a level-5 Purple Electric Leopard. This girl indeed jinxed it!

"Mei... Mei Bing, what... what should we do?" The girl, who was still yelling loudly earlier, instantly became a gentle sheep, hiding behind the boy obediently. Looking at this fierce level-5 Magic Beast before her, the girl's face also turned pale.

What should they do... The young boy couldn't wait to punch this arrogant, foolish girl to the side. If it weren't for her, how would they encounter such a dangerous situation and have to face this level-5 Magic Beast?

The Purple Electric Leopard was in a pretty good mood right now. Its self-esteem had been greatly lowered because of Yun Feng. The thing was, there had only been humans running away from the claws of Magic Beasts, but not Magic Beasts escaping from the hands of humans. Therefore, facing the fear and panic of this group of humans, the Purple Electric Leopard's traumatized dignity was slightly comforted. Humans were still afraid of it. Humans were still that weak!

The Purple Electric Leopard didn't attack immediately. Just like a cat that played with a mouse in its paws, it looked at the frightened and fearful look on the faces of its prey, which made this predator feel delighted.

It was quite surprising that the Purple Electric Leopard didn't attack, but they dared not let down their guards at all. The young boy's brain spun quickly. What should they do to run from this Purple Electric Leopard? It would be better if there was just him and his servants. After all, they were all warriors and they had excellent physical fitness and running speed. And yet, this Young Lady was here as well! A level-3 mage! A great burden!

She couldn't help with attacking and would drag them down if they ran. The young boy's black eyes glanced at the girl whose face was a bit pale with a hint of ridicule and anger.

The Young Lady, who had never experienced any battle and was spoiled by her family, saw that the Purple Electric Leopard wasn't attacking and she thought the level-5 servants frightened it. Her pale face from earlier looked slightly better and she stepped out from behind the young boy. The boy was a bit shocked and he then heard something that almost made him spurt out blood.

"You! Deal with this leopard immediately! It's apparently afraid of us, that's why it doesn't attack us. Use this opportunity to take it down!"

The girl's swaggering command made everyone want to scream up to the sky. How dumb could this woman be? Was she a fool or mentally retarded? How did she see that the Purple Electric Leopard was afraid of them?

The Purple Electric Leopard was apparently enraged because of what she said. Its original thought of playing them was also gone completely. A level-3 mage dared to talk nonsense in front of it and said it was afraid of them?

The leopard's roar spread with the fierceness of a level-5 Magic Beast. The air even seemed to be vibrating slightly. The expressions of the level-5 servants immediately changed and their muscles tightened, getting ready to fight the Magic Beast before them with their lives!

Both parties were on the verge of a battle. Suddenly, the Purple Electric Leopard seemed to sense something terrifying. A glint of fear flashed through its golden yellow eyes. After that, it ran away in front of everyone's extremely shocked look!

"It... It ran..." The few servants and the young boy felt their hearts in their throats. They thought that they wouldn't be able to escape from the disaster today. They didn't expect such a strange twist to happen. A level-5 Magic Beast ran away in panic. What did it see that made it so terrified?

Either way, everyone was relieved. When the Young Lady saw that the Purple Electric Leopard ran away, she immediately grunted in disdain, "A level-5 Magic Beast? It ran away after all..."

The boy's face turned cold. He had truly had enough of this idiotic girl! "Let's go. We're returning to Chunfeng Town!" He immediately yelled with a low voice as he walked outside with the servants, ignoring the girl's look. The Young Lady wanted to say something, but when she saw that everyone ignored her, she could only follow them furiously. She was just a level-3 mage, so she dared not wander around in the Foggy Forest. She knew her strength. She was just thinking about complaining to her father after going back. How dare the Mei family disrespect her!

After walking just a few steps, they heard some noises in the bushes. The few of them, who had just wandered on the edge of death, couldn't help but feel their hearts in their throats. They suddenly

thought about the Purple Electric Leopard that had just run away. It must have sensed a more terrifying being, which was why it escaped so fearfully. Perhaps... they were about to encounter that creature!

The boy was very frustrated and angry. All this happened because of the girl next to him. Without her, he wouldn't have to come here and would never fall into such a dangerous situation! Even though they escaped death, they might be facing a much greater trouble!

They became nervous and the servants surrounded the young boy and the girl again. Those few pairs of eyes stared somewhere extremely anxiously. As the sounds in the bushes became louder, their faces also turned paler. Cold sweat on their foreheads rolled down along their faces. Some of them couldn't help but gulp. They held their breath and waited...

The sounds became louder and got closer. Their hearts also beat faster. Soon, very soon. Their distance kept shrinking. A hundred meters, fifty meters, thirty meters, ten meters... Arrived!

Chapter 32: Hm? Someone's Here (2)

The level-5 servants immediately sent out level 5 fighting spirits. The weapons in their hands were also infused with all the power and they were ready to resist the attack from the thing coming towards them!

"Hm? Someone's here?"

A dramatic scene appeared. The four level-5 servants stood there like four fools. They lifted the weapons in their hands up in the air, but didn't attack. They looked extremely conflicted, mixed between rejoicing and shock.

Yun Feng found it funny as she glanced at these people who seemed to be frozen into statues. Their postures... were truly interesting.

None of them had even thought that the thing that came out of the bushes wouldn't be a Magic Beast or something terrifying, but a little girl who looked slim and weak!

The level-5 servants put down the weapons in their hands one by one with a hint of embarrassment on their faces. They were in fact a bit frustrated. Why would they see such a little girl in the Foggy Forest? Was she a child who came in for fun without permission and got lost?

The young boy being surrounded in the middle was also very surprised. He stood there dumbfoundedly and didn't know what to say. A little girl? How would there be a little girl here? Did she not want to live, so she ran into the Foggy Forest alone?

Yun Feng's appearance was just a nine-year-old girl right now. She was short and small. Looking from the outside, nobody would have thought she was a girl with the strength of a level-5 warrior!

"Who are you? Do you know that you can scare people to death?" A shout brought everyone back slightly from the shock. Yun Feng glanced over and saw a girl who was yelling at her with a furious look.

The Young Lady was a bit embarrassed and angry at the same time right now. This trip to the Foggy Forest had truly made her simmer with anger. They even encountered a level-5 Magic Beast back then.

Even though she had no idea why the Magic Beast ran away, her heart sank again because of the strange movements in the bushes before she recovered from the fear. She originally thought it would be something terrifying. She had never expected it to be an impolite little girl. Besides, in the eyes of the Young Lady, Yun Feng's smile was completely understood as a kind of irony, a kind of mockery at them.

Yun Feng didn't reply. She turned her head and walked away. If it weren't that they stood in her way here, she wouldn't have stopped. Who exactly scared who? Yun Feng originally didn't want to talk to the group of people, so she had to leave even more quickly and intentionally at this moment.

"Stop! You scared me and you want to leave!" The Young Lady immediately shouted in anger when she saw that Yun Feng was leaving. The young boy and the servants all looked speechless. This Young Lady could really make trouble. Why did it matter to her if the little girl left?

Yun Feng didn't even bother to look back. She continued forward and kept walking. The young boy, who had been remaining silent, finally spoke, "Little girl, it's too dangerous to walk in this forest alone. We're going back too. Let's go together."

"Why should we take her with us? If she wants to go, just let her go!" The Young Lady objected right away after seeing this. The young boy automatically ignored her opposing voice and still threw an olive branch to Yun Feng kindly.

Yun Feng slightly turned her head to the side and had a look at the clean face of the young boy. To be honest, his smile was really true and he didn't make her feel disgusted. However, that girl who kept yelling next to him was indeed very annoying.

She gently nodded. Her trip in the Foggy Forest had completed perfectly anyway. It was fate that they crossed paths. It should be pretty nice to walk with them. Besides, with their strength, four level-5 warriors with three at early-level 5 and one at mid-level 5, they were truly lucky to be able to get so close to the central area of the Foggy Forest.

Yun Feng had no idea that she was the reason why these people could get this far safely. If she didn't fight with the three level-5 Magic Beasts which made the other Magic Beasts hide out of fear, it would be a pie in the sky for a team like this to come so deep in the forest. That Purple Electric Leopard back then could totally annihilate them!

The young boy also smiled lightly when Yun Feng agreed. He also did this out of kindness. After all, it was too dangerous for a little girl to wander in the Foggy Forest alone. And yet, his worries were unnecessary. With Yun Feng's strength, she could completely run wild in the outermost area of the Foggy Forest.

"My name's Mei Bing and she's Murong Ran." The boy made a friendly introduction. Murong Ran looked very upset. She had never looked straight into Yun Feng's eyes. Yun Feng nodded. She was truly puzzled by the girl's inexplicable hostility.

Murong Ran thought she was a rare beauty and this was indeed the truth. She was only twelve right now, but had already become a flower in the upper-class society. Everyone held her high in their hands and many boys were all over her. And yet, Yun Feng made her feel defeated. Yun Feng's gorgeous face made her feel an instinctive threat. Ever since Mei Bing entered the Foggy Forest with her, he had never

been attentive to her, but he was so passionate about this little girl who suddenly showed up. How could Murong Ran, who had always been chased by boys, accept this?

“Hm! Does she deserve to know my name?” Murong Ran said tactlessly. The boy’s expression changed slightly and he smiled at Yun Feng with an embarrassed look. His temple pulsed several times.

The Murong family was one of the top families in Park City. Murong Ran was only twelve and she had never seen the so-called real noble families at all. So she naively thought that her family was very impressive. Park City was only a second-rate city in the Karan Empire. Putting any family in a first-class city in front of the Murong family, the Murong family already had to lower their head and bow, let alone the Yun family which was once so superior in the Karan Empire. The Murong family would have to consider if they deserved to know the names of the members of the Yun family.

Even though the Yun family had already declined, their thousands of years old history and background were something this small Murong family couldn’t afford to compare to, and couldn’t compare with at all!

Yun Feng’s expression didn’t change at all, as if what Murong Ran said was like air. Murong Ran couldn’t help but flush after seeing this. She felt slightly stripped of her dignity. In her family, she was the one who was pampered. Whoever dared to be rude to her would be punished! And yet, this impolite little girl in front of her dared to ignore what she said!

Yun Feng looked at Mei Bing and pondered in her mind. Mei Bing, the Mei family, one of the three largest families in Chunfeng Town. They were neither the Yun family’s enemy nor friend, and their relationship with the Lin family was also the same. They could be said to be neutrals. When the Yun family declined, the Mei family didn’t knock them down, but didn’t help them either.

Chapter 33: Meeting Some People

“Yun Feng.” Yun Feng told them her name indifferently. Mei Bing was immediately shocked. He looked at the girl before him with his black eyes filled with astonishment and he couldn’t help but murmur, “Yun Feng, Yun Feng... She’s still alive...”

Seeing Mei Bing’s face, Yun Feng only raised her eyebrows. News about Yun Feng dying and being reborn had already circulated around Chunfeng Town. Most people didn’t believe it. They thought the Yun family deliberately made this up and were unwilling to accept reality. After all, how could a dead person be reborn? And yet, Yun Feng was indeed alive and she was standing right here looking fine. The Mei family had always been doubtful about it, but after Mei Bing returned, the senior members of the Mei family would know that Yun Feng was indeed alive.

“Yun... Yun Feng! You’re Yun Feng?!” What was unexpected was Murong Ran’s expression. After hearing Yun Feng’s name, she was like she saw a ghost. She pointed at Yun Feng with her eyes wide open, looking very shocked.

Yun Feng looked at her with her black eyes as calm as water. Why was Murong Ran so surprised? Did she know Yun Feng?

“God, God... Weren’t... Weren’t you dead? Why... Why are you still alive? What should I do? What should I do?” Murong Ran’s tone made Yun Feng frown uncomfortably. Why did she sound like she hoped Yun Feng was dead?

Murong Ran was in panic at this moment. Her eyes glittered slightly when she looked at Yun Feng. The Murong family sent her to Chunfeng Town to do something and Yun Feng’s death was the key that caused this thing. However, she had never thought that Yun Feng would be alive. How could a dead person possibly be reborn?

Murong Ran struggled in her mind. She might not be able to finish what she had to do. She had to report this to her father immediately and see how they should deal with it next!

Murong Ran surprisingly didn’t say anything else along the way, as if she had become dumb, but she still kept glancing at Yun Feng with a complicated look from time to time.

Yun Feng had never turned around to look at Murong Ran. She walked in the front with big steps. Even so, she could still sense Murong Ran’s small movements with her mental strength.

Yun Feng’s black eyes darkened slightly. Murong Ran definitely knew her. An outsider came to Chunfeng Town with an unknown purpose and her tone just then sounded like Yun Feng ruined her big plans because she was alive. Thinking of this, Yun Feng’s face couldn’t help but become a little colder. If someone wanted to do something to the Yun family, she would let them know that they would have to pay a hundred times for one move!

They walked out of the outermost area of the Foggy Forest after a while and saw the road nearby. Mei Bing and the servants of the Mei family couldn’t help but feel relieved. They were finally out.

“The Foggy Forest? Even a level-5 Magic Beast ran away...” Murong Ran glared at the forest in disdain, as if this mysterious and dangerous place people talked about was like the grove at her home. She beat a severely injured level-5 Fire Cloud Wolf to death and a level-5 Purple Electric Leopard ran away all of a sudden. Everything made this Young Lady feel like she was pretty impressive and she started looking down on Magic Beasts instead.

Yun Feng heard her. A level-5 Magic Beast ran away? She knew which one they encountered after pondering for a bit in her mind and she could imagine its funny expression and moves. She smiled helplessly. The Purple Electric Leopard was quite smart. It knew it had to hide from her.

Yun Feng guess was totally right. The Purple Electric Leopard only ran away in panic because it sensed Yun Feng. It could only sigh for its bad luck. It finally met a group of people that it could use to vent its anger. And yet, it had never thought this little girl was nearby. The Purple Electric Leopard wasn’t dumb. When it wasn’t strong enough to fight with her, it would hide!

So, if it weren’t for Yun Feng, this group of people would have already been dead in the mouth of the Purple Electric Leopard. How would Murong Ran still have extra energy to despise the Foggy Forest?

Yun Feng suddenly remembered something. When the others weren’t paying attention, Yun Feng took out a fluffy fur ball from the bracelet. Once the meatball was taken out by Yun Feng, it immediately widened its big round eyes and looked at Yun Feng, as if it was complaining, which startled Yun Feng a bit.

“You should go back, even though I don’t know why you followed me.” Yun Feng put the meatball on the ground and asked it to go back into the Foggy Forest, then strode forward. And yet, she turned around after walking a few steps and she saw that little meatball was still following her.

“You...” Yun Feng was a little frustrated. The meatball was chubby and its body that was covered with white fur was extremely cute. It intentionally looked at Yun Feng with a pitiful face like it was being abandoned, which made Yun Feng very speechless. This was the first time they met. Why did it look like she abandoned it?

“So cute!” Following an exclamation, the meatball was picked up by a hand. Its big round eyes immediately moved around constantly and its claws also kept waving in the air.

Yun Feng looked at the person who picked up the meatball. It was Murong Ran. She was pinching the meatball’s neck with two fingers right now. She seemed to like it a lot. She then looked at Yun Feng opposite to her and lifted her chin. “Hey, make an offer. I want it.”

Yun Feng narrowed her black eyes slightly and felt annoyed by this arrogant and domineering girl before her. Mei Bing also came over and was a bit confused when he saw Murong Ran holding something in her hand. However, after hearing what Murong Ran said, he frowned.

“This doesn’t sound good. It belongs to her after all. This...” What was the difference between this and robbing?

“I’m already saving her face by buying it. Hey! Make an offer!”

Yun Feng’s face turned completely cold. She always thought a person would have certain knowledge and at least have some respect for others, but the woman in front of her taught Yun Feng a lesson. If a person was shameless, there could be no limit!

“It’s not for sale!”

Murong Ran’s face turned dark. She held the meatball with her fingers and swung it. “Not for sale? Haha, okay, this thing is in my hands. If you don’t sell it to me, I’ll squeeze it to death!”

She was already so ruthless at such a young age. As Murong Ran grew up, she had been spoiled by the elders of the Murong family to a nearly deformed state. If she couldn’t get something, then others couldn’t get it either!

Yun Feng’s face immediately became cold. She looked at the meatball that was constantly rolling in Murong Ran’s hands. She didn’t believe that the meatball couldn’t get rid of this girl. After all, she had seen the meatball’s terrifying speed with her own eyes. However, why wasn’t the meatball trying to escape at all right now? Yun Feng couldn’t help but feel a little frustrated. The meatball obviously wanted her to help!

Chapter 34: Ignore Your Magic

Yun Feng glared at the meatball that was performing hard in Murong Ran’s hands and grunted coldly. *You meatball! If you want to act, I’ll cooperate and act with you.*

“You can nip it if you want. I’m not selling it.”

What Yun Feng said made Murong Ran freeze for a moment. Murong Ran was also shocked. Even the meatball that was still struggling hard earlier paused its moves. It looked at Yun Feng with its round black eyes, as if it couldn’t believe it was abandoned just like that.

Yun Feng turned around and didn’t look at Murong Ran at all. She kept striding forward. “What are you looking at? Keep up!” Following Yun Feng’s shout, the meatball in Murong Ran’s hands was immediately full of beams. Its eyes brightened up and its body twisted flexibly, landing on the ground gently under Murong Ran’s surprised gaze. Its chubby body then sped towards Yun Feng’s direction at an unimaginably high speed!

“You animal! How dare you fool me!” When Murong Ran saw the meatball run and even so effortlessly, a sense of humiliation and anger of being fooled by an animal rose in her head. She flipped her hand. A ball of yellow elements jumped out and gradually formed an arrow, pointing at the direction of the meatball.

“Arrow of Earth, go!” As Murong Ran yelled furiously, the arrow formed with earth elements shot out fiercely from Murong Ran’s palm. The power of her level-3 magic created yellow glitters on the earth elements of the Arrow of Earth. Mei Bing was also stunned after seeing this. He had never thought Murong Ran would really attack!

“Watch out!” Mei Bing yelled. Murong Ran watched indifferently and there was also a cold smile at the corners of her mouth. She was a level-3 mage. There were originally not many mages on the East Continent, so the talented Murong Ran became the pride of the Murong family. Besides, reaching level 3 at such an age, she could certainly be regarded as a genius.

The arrow shot towards the magical elements with the power of the earth element. The earth element wasn’t the strongest in attacking but defending. However, the earth element known for its defensive power also had magic for attacking. In Murong Ran’s eyes, the animal that fooled her definitely couldn’t resist level-3 magic. It was also impossible at all for Yun Feng to block it!

How old was that little girl? How powerful could she be? If she wanted to resist level-3 magic, she must have the strength of at least level 4. How would that girl be above level 4? Was this a joke?

Yun Feng had already known what Murong Ran was planning when she gathered the earth element and she sensed the earth-element magic coming towards her. Yun Feng didn’t care about it at all. With the meatball’s speed, it was a piece of cake for it to avoid the magic. However, Yun Feng had never thought that the meatball didn’t want to dodge at all!

It made a deft jump with its chubby body and hopped onto Yun Feng’s shoulder. Feeling the furry touch on her cheeks, Yun Feng’s face immediately darkened. You meatball! You want to use me as a shield!

Yun Feng’s furious look created a smile in those huge eyes of the meatball. As the meatball jumped onto Yun Feng’s shoulder, the Arrow of Earth shooting behind them also arrived!

“Swish!” “Boom!”

The sound of the arrow breaking the air and the sound of it hitting Yun Feng’s body came at the same time. A layer of dust was stirred up at the spot where Yun Feng was. Seeing that the attack was

successful, Murong Ran's sneer at the corners of her mouth became bigger. She was planning to shoot that animal only, but it jumped onto the little girl's body. Haha! That was even better. If she could kill Yun Feng, she would also be able to complete the things her father asked her to do.

After seeing this, Mei Bing couldn't help but look terrified. He was about to run over and see if Yun Feng was alright. However, when he stepped his foot forward and saw the human figure after the dust dissipated, he stepped back again.

Murong Ran's sneering lips couldn't help but move a little. Looking at Yun Feng who was still standing there stably after the dust lifted, Murong Ran's eyes popped out and she looked like she couldn't believe it at all. How was that possible? She wasn't injured at all after being attacked by level-3 magic. This wasn't real!

Yun Feng stood there and gently released her clenching fists. The magic of the earth element had already been destroyed by her punch just then. Yun Feng truly felt the obvious gap between the level of their power as well. Level-3 magic didn't pose any threat to her at all and she could send that Murong Ran to Heaven with only one punch.

"You're not allowed to go. You're not allowed to go!" Watching Yun Feng leave slowly, Murong Ran shouted furiously. She wanted to use the magic of the earth element with her hands again, but Mei Bing stopped her coldly.

"Your magic didn't hurt her just now. Do you think you can harm her when you use it again?"

Murong Ran bit her lips hard and she watched the figure gradually go further away from her in anger. A glint of resentment flashed through her eyes. Mei Bing looked at Yun Feng's back as she left and remained silent. There was a lot going on in his mind.

Yun Feng wasn't injured at all after being attacked by level-3 magic. This proved that she already had the strength of not lower than level 4. She looked like she wasn't even ten years old and she had become a level-4 warrior at such an age... What a scary talent... Even though Mei Bing had broken through early-level 4, he also wasn't confident he could resist Murong Ran's magic attack without being injured at all. Yun Feng was stronger than him. This fact made Mei Bing's heart shake.

The Yun family was indeed a different family. Even though they had declined, there was still such a talent in the family... Yun Feng, the terrifying genius who came back to life. After Mei Bing reported these things to the senior members of the Mei family, they would certainly think about their relationship with the Yun family again.

The Mei family was one of the three largest families in Chunfeng Town. Speaking of the three large families in Chunfeng Town, they were all different as well. According to the richness of their backgrounds, the Yun family undoubtedly deserved to be the first, while the Mei family was the second and the Lin family the last.

The Mei family wasn't as lucky as the Yun family which had one summoner. However, there were always some talents among the warriors and mages of the Mei family. Each generation had a couple of them, which made the status of the Mei family in Chunfeng Town stable. After the Yun family moved to the Imperial Capital, the Mei family became the top family in Chunfeng Town. They were well-deserved in both wealth and strength. Of course, the Mei family had once been jealous of the Yun family's luck. They

had a summoner. There were only five in total on the East Continent. The status of the Karan Empire rose greatly because of the Yun family's summoner and the Yun family also kept advancing and soared up into the sky.

Even though the members of the Mei family envied the Yun family, they were all calm. They knew their strength. Unlike the other people who were jealous, the Mei family was extremely cool in this respect.

Chapter 35: The Mei Family's Plan (1)

This calmness and restraint made the Mei family become a unique existence in Chunfeng Town. Even after the Yun family moved back to town from the Imperial Capital, the Mei family had gone through a few centuries of reflection and accumulation of experiences, taking the limelight from the Yun family back then. In Chunfeng Town, even the Lin family dared not disrespect the Mei family.

The Mei family was unbiased and neutral. They believed in staying out of other people's business. They could only deal with everything calmly and wouldn't ruin the big plans because of the paranoid emotions when they were the detached third party.

And yet, after hearing the news brought back by Mei Bing, the Mei family was a bit restless as well at the moment.

"Bing, is everything you said true?" In the main hall of the Mei family, the leader of the Mei family of this generation was sitting in the main seat. It was Mei Bing's grandpa, Mei Ran. Even though he was already old, his body was tough and he was still energetic. Being a level-6 warrior made Mei Ran a lot younger.

Three to four men were sitting on both sides of Mei Ran. They were all senior members of the Mei family of this generation. Mei Bing's father and a few uncles of the same generation were all sitting there. These middle-aged men looked a bit nervous and they frowned tightly. They were all looking at the young boy standing in the middle of the hall.

Mei Bing nodded. To be honest, if he didn't see it with his own eyes, he wouldn't believe it either. Yun Feng of the Yun family wasn't just alive. Her strength was even stronger than his!

Mei Bing gave a wry smile. He was thirteen years old and he had already reached level 4 this year. Even though he still hadn't consolidated his power, he was a bit of a genius among his peers. And yet, when facing Yun Feng, Mei Bing found that he was too arrogant.

If he was a genius, then what was Yun Feng? A genius above a genius? It was truly annoying when people compared themselves with each other.

Seeing Mei Bing nod, everyone's face couldn't help but darken. Yun Feng, the daughter of the Yun family who was supposed to be dead came back to life with an astonishing talent! How old was Yun Feng this year? She was nine, but she was already stronger than Bing! Bing had already broken through level 4. What kind of a monster was Yun Feng who surpassed him?

Mei Ran frowned and sighed. "The Yun family is indeed the Yun family..." After hearing this, the other few men also smiled wryly. Although the Mei family wasn't as bossy as the Lin family in Chunfeng Town these years, everyone secretly thought that the Mei family was the top family. Even the high-profile,

domineering Lin family dared not disrespect the Mei family. While they thought the Mei family was unique, the Yun family entered their sight again.

Last time, a summoner appeared in their family. And this time, they had such a talented descendant. Comparing their backgrounds, the Mei family truly felt a bit ashamed for being the first.

Even though the Mei family also had talents. Mei Bing was a genius of this generation that the Mei family was most proud of. He reached early-level 4 at thirteen and could be ranked in the top 100 even in the entire Karan Empire. And now, Yun Feng of the Yun family was only nine and she had already surpassed Mei Bing. She was a genius. She was truly a genius!

“Father, what should we do?” Mei Bing’s father, Mei Hua, asked. This was also the question all the other members of the Mei family were thinking. The unbiased Mei family might not have gotten themselves in any trouble, but they didn’t get any benefits either. Even though they were quite superior in Chunfeng Town, they would still be rednecks that people looked down on when they were in any second-rate cities.

Did the Mei family have no ambitions? Of course they did. All humans had ambitions, but the Mei family fulfilled their ambitions carefully and they entrenched themselves at every step. Yun Feng had already had such strength at a young age. If this continued to develop, the Yun family would soar in the sky once again! And whether the Mei family should climb on this tree was a very difficult decision to make.

Mei Ran had a meticulous mind. As the leader of the family, he certainly had to consider the big picture and think about the Mei family’s future and all the members of the Mei family. Yun Feng was indeed a talented genius, but how would the Lin family let her grow up safely? Last time, the eldest son of the Lin family hit Yun Feng viciously, taking her life. Even though they had no idea how Yun Feng survived, they were sure that the Lin family wouldn’t just let it go. Once the Lin family confirmed that Yun Feng was alive, they would use all means to eliminate her!

Yun Feng was indeed talented and powerful, being able to surpass Mei Bing at the age of nine, but such strength was nothing in the eyes of the real masters. As long as the Lin family was willing to spend money, it would still be difficult for Yun Feng to escape death... If the Mei family stood on the wrong side, then...

“We... stay put.” After pondering for a long time, Mei Ran slowly spat out three words. The Yun family was like a swaying boat. Nobody knew if it would flip or survive in this raging storm. It was best for the Mei family to stay out of it. After all, even if the boat flipped, they would still be safe. And if the boat was alright, they wouldn’t lose anything as well.

After hearing what he said, the others also nodded slightly. Apparently, they were also thinking the same thing. Only Mei Bing who was standing in the middle frowned gently. He didn’t quite agree with his grandpa, but he didn’t say anything after all.

Mei Ran wouldn’t have thought the swaying boat in his eyes would become a magnificent ship someday in the future, being invincible in this ocean. The Mei family would definitely regret making this decision in the coming days as well.

Yun Feng went all the way back home. She had already thrown the meatball on her shoulder back into the bracelet. Even though the meatball expressed its serious disagreement, Yun Feng still threw it inside quickly.

When Yun Feng arrived at the door and was about to walk into her room, her father stopped her. Yun Feng slowly turned around and saw her father coming over from the study. Beams of sunlight shown on his body, making him look warm.

“Feng, don’t go out these few days. It’s still a bit dangerous for a girl to run around alone.” Yun Jing looked at Yun Feng. He sized her up from head to toe silently. After making sure his daughter was fine, Yun Jing found that his daughter seemed to be a bit different from how she used to be. There seemed to be some subtle strange feelings. Even though he could feel those feelings, he couldn’t tell what they were exactly.

Yun Feng felt warm in her heart and she nodded. Now that she had contracted the Fire Cloud Wolf, she wouldn’t go outside alone anymore. Yun Feng wanted to improve her strength at the moment. Level 6 was far from enough. If she wanted to be respected and take the Yun family back to the glorious peak where they used to be, she must become stronger, constantly become stronger!

Chapter 36: The Mei Family’s Plan (2)

Yun Jing nodded, then returned to the study without saying anything else. Yun Feng stood right there and watched the back of her father quietly. Yun Jing always looked serious and wouldn’t say anything caring. Even after Yun Feng came back to life, he wasn’t that emotional. And yet, Yun Feng understood that Yun Jing’s love for her was at the bottom of his heart. Yun Feng would remember deeply his angry growl she heard when she was reborn, saying that he would do everything for her.

Yun Feng collected her thoughts, cheered up and walked towards her room. Right now, she had one more important thing to do. She wanted to know what exactly that strange meatball was!

After Yun Feng entered her room, carefully shut the door and locked it, she came to her bed. She gave a thought and the bracelet appeared. In a heartbeat, an entire white meatball was taken out of the bracelet by Yun Feng.

“Nana!” After the meatball got out, its black eyes were full of condemnation to Yun Feng. Apparently, it didn’t like to stay in that space. Its little claws also stretched out from the bottom of its chubby body and waved in the air. Yun Feng ignored it. She lifted its body in front of her eyes and observed it carefully, for a long time...

“Ancestor, what Magic Beast is this meatball?” Yun Feng and the meatball stared at each other. Looking at those pure black eyes, Yun Feng felt weird. After a while, what the ancestor said shocked Yun Feng.

“Kid, I’ve never seen it before... There are too many different species of Magic Beasts. None of the Magic Beasts I know look like this. Perhaps, it’s a species humans haven’t discovered yet.”

Yun Feng was astonished. A new species? Humans nowadays had never discovered it before? She observed the meatball carefully again. Its body was like a round ball. It had white fur, a pair of unusually watery eyes and a tail curled up behind its butt. This looked like a very cute species. Instead of a Magic

Beast, it was more like a pet. Those Young Masters and Young Ladies would like it very much when they saw it.

“Nana, nana!” Yun Feng kept lifting the meatball’s body, hanging it in the air. Its ball-like body swayed a few times and its tail also tapped Yun Feng’s arm again and again, asking her to let go. It didn’t like it.

Yun Feng pouted and let go of it and the meatball jumped down from the air deftly. Its body seemed to be chubby, but it didn’t make any sound when it landed on the ground. Yun Feng slightly narrowed her black eyes. How did this seemingly harmless thing survive in the central area of the Foggy Forest?

Also, why did it follow her? Was it because it couldn’t live in the central area of the Foggy Forest anymore and it felt like she could be its support? Yun Feng pondered in her messy head. Suddenly, she remembered that the meatball got something from Little Fire. She threw that thing into the bracelet together with the meatball that time.

Yun Feng searched carefully and the fruit snatched by the meatball appeared in Yun Feng’s hand. After taking the fruit out, the abnormally active fire elements inside made the temperature of the air rise several levels all of a sudden.

“This is...” Yun Feng was stunned. Even though the fruit was small, the fire elements it carried inside were too astonishing. She had just taken it out and the temperature had risen so much. If the fire elements inside were absorbed, she had no idea which level her fire-element energy would be raised to!

“A Fire Spirit Fruit. There’s only one in a thousand years. Haha. The Fire Cloud Wolf is quite lucky. This thing is very beneficial to it. Once it absorbs the fire elements inside, it can directly advance one level among the intermediate level.”

What the ancestor said dispelled Yun Feng’s doubts. She couldn’t help but feel a bit astonished in her mind. The Fire Spirit Fruit, such a small fruit had this powerful energy that could take a Magic Beast to the next level! The fire elements inside it were indeed astounding!

And yet, the Fire Spirit Fruit wasn’t really useful anymore right now. The Fire Cloud Wolf had been contracted by Yun Feng. The level of the contracted Magic Beast and the summoner was equal. Only when the power of the summoner increased would the contracted Magic Beast enter the next level.

“Kid, the Fire Spirit Fruit is something everyone wants. If it’s shown to the world, a great furor will be caused.” The ancestor’s delightful words made Yun Feng smile. There was only one of it in a thousand years and it carried such pure and astonishing fire elements inside, so people certainly wanted to get it. And yet, how many people dared to go to the central area of the Foggy Forest? Even if they truly dared to go, they wouldn’t find this fruit. If it weren’t for the Foggy Forest, Yun Feng would never have discovered the Fire Spirit Fruit at all.

She threw the fruit back into the bracelet again casually. This thing wasn’t useful for her at the moment. Even though the Fire Spirit Fruit was very beneficial to Magic Beasts and humans, if they ate it forcibly and the amount of fire elements exceeded their limit of absorption, they would only end up setting themselves on fire.

After putting the Fire Spirit Fruit back, the meatball entered Yun Feng’s sight again. This little thing looked like it would stick with her and wouldn’t be able to be sent away. To be honest, Yun Feng was

also very curious about the meatball. It was definitely not simply a meatball. Even a level-6 mutated Magic Beast couldn't keep up with its terrifying speed. This must mean something!

Yun Feng looked at the meatball for a long time. The meatball seemed to be a bit frightened after being watched. Its body moved slightly and it pointed its butt at Yun Feng, which made her dumbfounded. "If you want to be with me, then stay."

The meatball immediately turned back after hearing this. Its round, watery black eyes blinked a few times, looking quite cute. Yun Feng smiled and poked the meatball's head gently with her finger. "Meatball, this name is pretty nice, right?"

Meatball was shocked. It still hadn't responded. When it understood that its name was now Meatball, its black eyes widened and the little claws hidden under its chubby body also stretched out. "Nana, nana, nana!" It kept protesting in dissatisfaction, but Yun Feng ignored it. She flicked the forehead of Meatball gently with her hand with a hint of teasing in her black eyes.

"Stop it! Objection invalid."

Since then, there was a purely white pet that looked like a meatball on Yun Feng's shoulder. On the Vast Continent after many years, people knew that the most obvious symbol of that legendary summoner wasn't her Ring of Contract, but the white meatball on her shoulder.

After Meatball officially stationed on Yun Feng's shoulder, Yun Jing asked where it came from in confusion. Yun Feng laughed and said she bought it outside. Even though Yun Jing was still doubtful, he didn't ask anything else.

Chapter 37: Meatball

Ever since Yun Feng contracted the Fire Cloud Wolf, she had gotten better control of the fire element. Summoners had one more great advantage over mages. Mages could only rely on themselves with the mastery of elements, while summoners weren't like that. The Magic Beasts summoners contracted could help summoners master the elements more easily, so in terms of attainments of magic, there was a shortcut for summoners.

In these few days after returning home, Yun Feng stayed in her room obediently and kept practicing the elements she had mastered, including the water element, the wind element and the fire element. Among the three elements, Yun Feng was most proficient in using the fire element. Because of Little Fire, Yun Feng was also able to use the fire element easily. As for the Mutated Fire Cloud Wolf that was contracted, it still hated itself for being put into a contract and losing its freedom at first, but after it truly realized Yun Feng's strength, the resentment also dissipated gradually.

After being contracted, a special connection would be formed between a Magic Beast and its summoner and their minds would be connected. Although Little Fire was staying in the Ring of Contract, it could feel the mental strength in Yun Feng's body clearly. There was only one word in Little Fire's mind that could describe Yun Feng's mental strength: Endless!

Little Fire went from being surprised at first to admiring her now. People always had a yearning for becoming powerhouses after all. The nine-year-old Yun Feng's mental strength was as magnificent as

the ocean. This left Little Fire completely in awe. Even among the Magic Beasts, there weren't many of them that could be as terrifying as Yun Feng. When Yun Feng grew up, she would definitely be a powerhouse!

Becoming the Magic Beast of a powerhouse, even though it would still feel that it couldn't retain its dignity, it would be able to gain back its face. After all, it was already a glorious thing to be a powerhouse's liking.

In these few days of mental strength communication, Yun Feng didn't forget about physical training. With the mysterious energy that oozed out slowly from the black jade pendant, Yun Feng felt that her body became even more powerful than it used to be. After a few days of meditation, Yun Feng opened her black eyes. A glint of light flashed inside and a bit of maturity appeared on this childish little face.

Yun Feng counted the days in her mind. Her red lips curled up slightly. Three months passed in a blink. Two days later would be the day she was supposed to be going to the Martial Arts Institute, but this had certainly been cancelled because her Qi meridians were damaged.

The smile on her red lips was full of coldness. The son of the Lin family, it's time for me to settle the scores with you.

The Lin family was one of the three largest families in Chunfeng Town and could also be regarded as the most embarrassing one. Their background wasn't as good as the Yun family's and their strength wasn't as strong as the Mei family's. If they didn't take some advantages while the Yun family was declining, the Lin family might not even be able to become one of the three largest families. After all, the Lin family was just a shameful family, while the Yun family was like the superior Queen. Even though the Emperor didn't favor them anymore, they were still a noble family. The Mei family was a noble consort of a level lower and the Lin family was a maid at the bottom level who got power overnight. Being on an equal footing with the Yun family and the Mei family as the three largest families, the Lin family felt guilty after all.

With their precise minds and ruthless means, the Lin family earned a lot of money and beat a lot of enemies, certainly including the Yun family. The decline of the Yun family made the Lin family feel thrilled and aroused their desire for revenge. They had been suppressed underneath for a long time and the people who had always been on top suddenly fell down. If the Lin family didn't step on them a few times, it would not be consistent with their style.

From the leader to the younger generation, the members of the Lin family had some kind of weird twist and a struggle against being a lowly family in their minds. They knew from the bottom of their heart that they couldn't compare to the Yun family, but they still plucked up their courage to put their hands to the Yun family. The Yun family was a declined family, a family that moved back to Chunfeng Town from the Imperial Capital. Even if they once had a summoner, so what? Even if they had once been glorious, so what?

Like rats leaving a sinking ship, the few large families that had a pretty good relationship with the Yun family in the past also watched from the sidelines. Why did such a Yun family deserve to own such abundant assets? And why could they still act so arrogant in front of other people?

The Lin family gnashed their teeth with hatred and they were so greedy that their eyes turned green. So many assets! How wonderful would it be if they were the Yun family... Why did a declined family deserve all these? Even if they owned them, they wouldn't be able to keep them sooner or later. If they were going to lose them anyway, it was best for the Lin family to put them in their pocket.

The Lin family perfectly showed the others how shameless they were. The Mei family watched on the sidelines and didn't offer help, which made the Lin family more presumptuous. They courageously let go of themselves and did whatever they wanted. Apparently, although the Lin family was shameless to a certain extent, they were also clever. The assets the Lin family plundered from the Yun family gave them an abundant foundation and also supported the development of this small family. Under the plan of the Lin family, the title of the wealthiest family in Chunfeng Town finally landed on the Lin family's head.

However, the Lin family's wealth encountered a great crisis in this period of time, which put the senior members of the family in a fix.

The Lin family didn't have many businesses in Chunfeng Town, but all the pubs and inns in town belonged to them. The two industries that made the most money were put in the Lin family's bag.

Since Chunfeng Town became famous, more and more explorers gathered here and the profit the Lin family earned increased year by year, which made the Lin family laugh more savagely every year. And yet, almost half of the huge number of customers in Chunfeng Town strangely disappeared recently!

The disappearance of over half of the customer base gave the catering and accommodation industry in Chunfeng Town a severe blow. The losses were calculated by the hour. As time passed, the number of people reduced again and the losses also doubled up. Without the customer base, the pubs and inns only had a few guests. Chunfeng Town relied on the Foggy Forest. Apart from those explorers, no one would be free and bored enough to come here. And the Lin family, who operated the catering and accommodation industry here, was the most unfortunate family in this weird crisis.

The Yun family and the Mei family only suffered a little bit of a loss, but the Lin family lost an astronomical amount of money. Watching their money drain out and their business get worse day by day, the senior members of the Lin family were so frustrated that their hair turned grey.

Even though the Lin family was very rich and their title of the wealthiest family was real, they couldn't afford such a loss...

It was fine if they only suffered a loss in business. After all, they could just shut their business down if they couldn't make money. And yet, this wasn't the only thing that made the Lin family frustrated. There was a more important reason, Lin Meng.

After all these years of development, although the Lin family had already earned an incomparable amount of money, their background and power were too inferior. If the Yun family didn't have so few members, how would they be persecuted by the Lin family?

Chapter 38: The Lin Family

After all these years of development, the highest level of member the Lin family ever had was just a level-8 warrior. They wouldn't dare to think about having a summoner, which the Yun family once had.

The Lin family didn't even have a mage. And the reason why the Lin family was so afraid of the Mei family was because the strength of the Mei family was much more powerful than that of the Lin family!

The current leader of the Mei family, Mei Ran, was a level-6 warrior. The second echelon of the Mei family, which was the generation of Mei Bing's father, had several level-5 warriors. Even though the Yun family had declined right now, Yun Jing was also a level-5 warrior while Yun Sheng was a mage! As for the Lin family, the current leader of the Lin family, Lin Quan, was just a level-4 warrior! Among everyone in the Lin family, only two of them were at level 5. Even the Lin family was ashamed of such strength.

If the Lin family didn't have such a large amount of money for them to hire some level-5 masters, they would have been gone a long time ago. So, in terms of strength, the Lin family was a river that had almost dried up. None of them were geniuses and they didn't have practicing talent at all. This made the members of the Lin family a bit frustrated and anxious.

However, when Lin Meng was born, the members of the Lin family were shocked and their eyes brightened! The genius the Lin family had been waiting for so many years finally showed up. Lin Meng was all the hope of the Lin family!

The Lin family spent countless money and put so much energy into Lin Meng. If Lin Meng wanted the stars in the sky, the Lin family would take them down for him. He could do whatever he wanted. Ever since Lin Meng was little, he had been protected and doted on by everyone with their hearts. Countless expensive herbs were melted into his blood. Even the Mei family didn't want to spend money on buying snow ginseng, but the Lin family bought them like buying cabbage and they threw all of them into Lin Meng's stomach.

In fact, Lin Meng's aptitude was only a little higher than normal kids. He was thousands of miles away from the definition of a genius. If the Lin family didn't spend money to buy medicines for him like crazy, Lin Meng would probably take ten years more to reach the peak of level 3.

Mei Bing was a genius. That arrogant Murong Ran was also a genius. Yun Feng was a genius above the geniuses. And Lin Meng would never be able to be one of them his entire life.

Meanwhile, in the main hall of the Lin family, a few middle-aged men were sitting with a pretty serious look. They were all the senior members of the Lin family of this generation. Their frowning eyebrows showed that the Lin family's recent financial situation was indeed in a bit of a crisis.

"Brother, Xiao Meng will be taking the graduation exam after a few days. Shouldn't you..." The person who was talking was Lin Meng's father, Lin Sen. He was the second younger brother of the leader of the Lin family, Lin Quan.

"Brother! You know the situation in Chunfeng Town. We've already suffered a huge loss. There are other miscellaneous expenses as well. How can we take more money out?" The one talking furiously was Lin Quan's third younger brother, Lin Miao.

Lin Sen opened his mouth and didn't know what to say. The amount of money the Lin family spent on Lin Meng was enough to buy an entire city. He was indeed embarrassed to ask for more again, especially during this time. And yet, it was a crucial moment for Xiao Meng right now. It was about that only spot!

Lin Quan, who was sitting in the main seat, remained silent. His hair was a bit white and there were more wrinkles on his face because of the things that happened recently, making him look a bit older.

“Brother, how much do you need?” After a while, Lin Quan rubbed his forehead. He felt like they had gone too far to turn back right now. They spent so much money on Lin Meng just for this spot. If they couldn’t catch up right now and let the Mei family get the spot, the huge amount of money they spent would be wasted.

Lin Sen looked a bit strange. After pondering for a moment, he said with a soft voice, “Five hundred thousand...”

“What! Five hundred thousand!” Lin Miao widened his eyes angrily. Lin Quan also glanced at Lin Sen. After seeing this, Lin Sen immediately said, “Mei Bing of the Mei family has already reached level 4 and Xiao Meng is just at the peak of level 3. Even though they’re similar in strength, they’re also one level apart after all! I’m going to use the five hundred thousand to buy medicines, so that he can secure the spot!”

Lin Quan’s pupils shrank abruptly and his face darkened. “What did you say? Mei Bing has already reached level 4?”

Lin Sen nodded and Lin Miao also looked shocked. The Lin family had been through too much lately. The two of them were so busy that they were in bad shape and they only knew about Mei Bing’s situation right now.

Lin Quan sat there and pondered for a few seconds, then said, “Go to buy the herbs. Xiao Meng must get this spot.”

After hearing this, Lin Sen was thrilled. Lin Miao pursed his lips and didn’t say anything else. After all, Lin Meng was everyone’s hope. Since they had already put so much money into him, they didn’t have to hesitate to spend more.

“Right, brother, I heard that the little girl of the Yun family is alive.” Lin Miao said as he frowned. The members of the Yun family were indeed tough. That girl had already stopped breathing and she came back to life?!

Lin Quan’s eyes glittered. He was also a bit shocked that Yun Feng was alive. Lin Sen then said slowly and calmly next to him, “That girl is just lucky she didn’t die, but Xiao Meng didn’t leave any trouble for the future either. Her Qi meridians were damaged.”

After hearing this, the eyebrows of Lin Quan and Lin Miao couldn’t help but soften. They even snickered in their minds. Although they weren’t quite satisfied that she didn’t die, it was also pretty nice that she had become a useless person. They had given the Yun family a slap, loud and clear!

“Hm, a useless person won’t be able to do anything.” Lin Quan said casually. Lin Miao and Lin Sen also chuckled. The Lin family was determined to get the spot of the Martial Arts Institute!

The warm sun rose from the east, covering this vast continent. The first beam of sunlight also shone on Chunfeng Town from the east slowly, gradually plating this peaceful town with a layer of gold. It emitted golden light like an ancient, mysterious artifact, looking extremely dazzling.

In the mansion of the Yun family in Chunfeng Town, a pair of black eyes slowly opened. The vast and deep black color was like the boundless night. A glint of red light flashed inside abruptly. It was as fast as a shooting star and it disappeared immediately.

Yun Feng breathed out gently and slowly withdrew the mental strength she used to constantly communicate with the elements all night. She stretched her body slightly and heard a few crackling sounds from her bones.

She came down from her bed and took a breath deeply. Yun Feng looked at the beam of golden light that shone through the window and stared at the sky outside that gradually brightened. Phew, it was a new day again.

She slightly lifted her hand and a ball of red elemental force appeared in her palm, like an unusually lively, leaping flame. Looking closely, the red elemental force had a few black strands inside. The space around the elemental force became hot all of a sudden and was even a bit distorted, even though it wasn't that obvious.

Chapter 39: What Is She Doing Here (1)

The fire elements jumped on Yun Feng's palm. Her red lips curled up slightly. With the gaze of her black eyes, the fire elements in her palm gradually formed an arrow. There was black on the tip of the arrow and it had a terrifying temperature.

Yun Feng waved her hand gently and the flaming red arrow stood on her fingertips. The burning heat it carried didn't have any impact on Yun Feng at all. When she felt the small circle of distorted air around the arrow, the smile on the corners of her mouth became deeper. Yun Feng's strong mental strength gave her extraordinary ability to control the elements. She carefully contained the temperature of the arrow in a certain area, otherwise the entire house would be on fire.

"Kid, your fire-element magic has reached level 6. Compared to the mages of the same level, your fire elements are fiercer."

Yun Feng nodded and felt the temperature of the arrow moving around her fingertips. Contracting the Fire Cloud Wolf gave Yun Feng a direct train to the road of mastery of fire-element magic. Since it was a mutated Fire Magic Beast, its fire element and darkness element intertwined with each other. Even though the fire element was dominant, the fire element that Yun Feng mastered also seemed to be changing slightly with the addition of the darkness element. The most obvious sign was the trace of black in the fire element. That was the existence of the rare darkness element.

Since the fire element she mastered was mutated, the effect of the attacks would also be different from those made with normal fire elements.

Although Yun Feng really wanted to try, in the end she put this thought behind her again. Level-6 magic of the mutated fire element, hearing the name of it could already give people goosebumps, let alone its

power. If she accidentally destroyed Chunfeng Town, she would be giving a lark to catch a kite. After all, this was the root of the Yun family and the place on this continent where the Yun family was settled.

Compared to the fire element, the wind element and the water element Yun Feng had mastered were a bit weaker. The strength of her fire element had reached Yun Feng's original level 6, but the wind element and the water element had only reached level 3. Elemental magic wouldn't improve altogether just because one element did. Each element required hard work and practice to reach its own level.

Mage was a harder profession than warrior. Warriors only had to practice their Qi meridians. If the mages only mastered one elemental force, it would be easier. However, if they mastered two elemental forces, they had to make a trade-off.

Practicing magic required support from mental strength. If the mages didn't have mental strength that was strong enough, practicing two elements at the same time would be a very heavy burden for them and the consequence would be having no breakthroughs in the practice of both elements.

Multi-element mages were happy and frustrated at the same time. They were happy that they had stronger abilities than the others and they were frustrated that they couldn't have all of these abilities. Although there weren't many multi-element mages, there were still a few hundred of them on the entire Vast Continent. The road of practice of multi-element mages was to choose one elemental magic as their major one, while the other elements could only be an aid. They had only that much mental strength and it was very difficult to increase mental strength as well. Practicing everything or mastering one of them, most people would undoubtedly choose to master one element.

Although multi-element mages were a bit weaker than single-element mages in strength, with the assistance of the other elements, they were usually unbeatable.

Multi-element mages were quite helpless in the control of elemental forces. They had the talent, but they couldn't practice all the elements because they were doubtful about their mental strength. So, they could only bear the pain and make a trade-off reluctantly. And yet, it was another matter for summoners.

There had always been very few summoners and they were extremely mysterious. The world didn't really have a very deep understanding of summoners. Besides, summoners didn't leave many books behind, which made this profession more mysterious and unpredictable.

In the practice of magic, if the mages knew about the ability of the summoners, they would certainly be so enraged that they spurted out blood. The summoners' most mysterious ability, contracting Magic Beasts, offered them with an unlimited cheating machine.

Unlike the mages who had to practice magic by themselves, summoners only needed to contract a Magic Beast and they would automatically master the elemental magic through the level and abilities of the contracted Magic Beast. With this advantage, summoners had an understanding of elemental magic that was a few times stronger than that of mages. Multi-element mages dreamed of practicing multiple elements their entire life and it only seemed like a piece of cake for summoners.

However, summoners weren't all-powerful. Multi-element summoners were very rare. Usually, three-element summoners were already summoners with the most elements. Summoners bore greater mental consumption than mages. After all, mages only used their elemental force to perform magic,

while summoners had to use their mental strength to control a Magic Beast! Comparing the two of them, even though practicing multiple elements wasn't difficult for summoners, it also gave great pressure to summoners and there might even be a danger of mental exhaustion.

These things that other people saw as common sense or acknowledged facts all became shaky theories in Yun Feng's eyes. Strong spiritual control and unexplorable spiritual boundaries. Even though the ancestor told Yun Feng that practicing multiple elements at the same time would be very difficult and the loss might even outweigh the gain, Yun Feng didn't care at all.

She might be the only five-element summoner on the Vast Continent. Since she was the first one, she was willing to take the road that others dared not take and do things that others didn't want to do, reaching the peak that no one else had ever reached!

Having five elements was a talent that could make someone crazy for other people and it was also a talent that required the person to endure the pain and make a trade-off. However, in Yun Feng's perspective, she wanted them all!

Yun Feng also understood deeply that she must walk stably. Since she already had an astonishing talent, the next thing would be to persevere and maintain a calm and peaceful mind, taking it slow. Right, she had to go forward step by step.

"Phew... Don't rush. Just keep going stably." There was a hint of determination on Yun Feng's little face, which made the ancestor smile contentedly. He was in awe of this descendant at first. After that, he was moved by the maturity Yun Feng showed at such a young age. As he stayed with Yun Feng for a longer time, Yun Lan realized that Yun Feng was truly a child who sought stability. She wasn't arrogant or spoiled. She was humble and mature. Such qualities were rarely seen in a child and this also raised Yun Lan's expectations of Yun Feng to another level.

This kid would bring the Yun family to that peak again, no, somewhere higher than that point!

Yun Feng washed up in her room and was about to head out to eat with her sullen father. She felt clearly with her keen perception that there seemed to be a few guests at the Yun family on such a warm morning.

Chapter 40: What Is She Doing Here (2)

There were guests? Yun Feng raised her eyebrows in confusion and she quickly stepped out of the door silently, walking towards the main hall of the mansion of the Yun family. After walking for a bit, Yun Feng heard a familiar voice from afar.

"Uncle Yun Jing, my father asked me to visit Chunfeng Town this time to talk to you about something. I hope you will agree with it."

Yun Jing narrowed her black eyes. Wasn't this the voice of that spoiled, willful Murong Ran she met in the Foggy Forest? What was she doing here?

In the main hall of the Yun family, Yun Jing was sitting in the main seat indifferently. A charming little girl was sitting in a chair on his right. She seemed to be a teenager only, but her facial features carried a hint of wisdom and her black eyes didn't have the innocence that kids of this age should have, making her look very cunning.

The fact was, children on the Vast Continent were all precocious. Under the cruel rule of survival of the fittest, children's naive childhood was gone forever.

"Uncle Yun Jing, about the marriage arrangement between the Murong family and the Yun family, my father asked me to tell you something. That was only a joke between old people. Why take it seriously?"

Yun Jing sat in the main seat and his stern look didn't move a bit. Only his eyebrows twitched a few times. He glanced at Murong Ran who was sitting next to him lightly. Meanwhile, she was smiling, but there was great impatience in her eyes.

In fact, Murong Ran didn't want to come to Chunfeng Town, especially when the thing her father asked her to do was to cancel the marriage arrangement between the Murong family and the Yun family. Speaking of this marriage arrangement, Murong Ran was enraged.

The person who was engaged wasn't someone else, but Yun Feng of the Yun family and Murong Ran's brother, Murong Yuntian!

Who was Murong Yuntian? He was the top genius of the Murong family. He was now sixteen and had become a level-5 warrior. The status of Murong Yuntian in the Murong family was second only to those few senior members. Apart from the senior members, everyone had to yield to Murong Yuntian and be obedient. Murong Yuntian was someone who couldn't be provoked even in the entire Park City!

And yet, the former leader of the Murong family, Murong Yuntian's deceased grandpa, had a very close relationship with Yun Feng's grandpa who had also passed away. The old man of the Murong family ignored the opposition of everyone in the family and made this engagement with the Yun family forcibly. This enraged all of the members of the Murong family at that time.

What family was the Yun family? It was a broken, declined family. How could the Murong family become relatives by marriage with such a family? Let alone the problem of the Murong family's face, their status didn't match as well! Besides, the one who was engaged was Murong Yuntian. If it was someone else, the Murong family would be fine with it, but it was Murong Yuntian, the future leader of the Murong family. If he had to marry someone from the Yun family, the Murong family would lose face!

When the old man of the Murong family was still alive, the other members of the family couldn't say anything. Luckily, the two children were still young and they were far from reaching the suitable age for marriage. After a few years when the old man of the Murong family and the old man of the Yun family both passed away, the Murong family was completely relieved. Without the old man, they wouldn't allow this marriage arrangement!

A while ago, they heard that Yun Feng of the Yun family was beaten to death by someone. The Murong family was thrilled for some time. That was great. If she was dead, the marriage arrangement would naturally be cancelled. However, they also had to observe formality, so the leader of the Murong family sent his daughter here to talk to the Yun family casually. After all, Yun Feng was already dead and even

the Yun family couldn't do anything about it. And yet, nobody had thought that Yun Feng would be alive!

If she was alive, the marriage arrangement certainly still held so the Murong family didn't procrastinate anymore. They told Murong Ran that it would be great if the Yun family agreed, but if they didn't, she must cancel this marriage arrangement by all means!

Murong Ran sat there patiently. Even though she was talking quite gently, the thoughts in her mind had been shown very clearly on her face. Yun Jing sat in the main seat without saying a word.

The Murong family had truly overrated themselves. What family was the Murong family? They were just a small family in a second-rate city. And what about the Yun family? They were a glorious family that once stood on the top of the Karan Empire. Even the royal family had to respect the members of the Yun family!

The Murong family wasn't the only one who opposed the marriage arrangement between the Murong family and the Yun family. The Yun family also disagreed with it. Although the Yun family had declined by that time, Yun Jing still didn't agree to make a marriage arrangement with the Murong family. The pride in the bones of the members of the Yun family was still there. The Murong family didn't deserve to become relatives of the Yun family by marriage!

As the old man of the Yun family passed away, Yun Jing had already forgotten about this marriage arrangement between his family and the Murong family. If Murong Ran didn't come for a visit all of a sudden, he really didn't remember it and he also wouldn't want this marriage arrangement to proceed forcibly as the Murong family thought.

"Uncle Yun Jing, think about it. How can the Yun family climb on the Murong family? If the Yun family has any difficulties, the Murong family can offer you some money for the sake of the friendship between our old men." Murong Ran said with a hint of disdain in her black eyes. It was hard to believe that she could say something so unpleasant at such a young age.

Murong Ran couldn't help but feel a bit angry when she saw Yun Jing remained silent. Was the Yun family so thick-skinned that they were thinking of clinging on the Murong family? They were just a declined family and they wanted to climb to a higher branch of the tree. Weren't they afraid that they would fall and die accidentally?

"Yun Jing! I call you uncle only because you're a senior to me. The Yun family has never thought about if Yun Feng deserves my brother. Does the Yun family deserve to be relatives of the Murong family by marriage?" Murong Ran stood up from the chair and her aggressive words made Yun Jing frown slightly. The person before him was a junior. Even though she was so disrespectful, he didn't say anything as well.

"Murong Ran, my father's not arguing with you only because you're a junior. Don't press your luck." A cold voice came. Yun Jing turned around in shock and saw the figure walking in.

"Yun Feng!" Murong Ran's face tightened and darkened a bit. She was even more enraged especially when she saw that white meatball on Yun Feng's shoulder.

Yun Feng came over and smiled at the poker-faced father who had been remaining silent. She then stood in front of Murong Ran. She heard everything Murong Ran said. Great, it looked like the Murong family was looking for trouble.
