

Summoner 321

Chapter 321: It's Our Turn ()

"Haha. How dramatic!" The audience who were watching the game couldn't help but smile. In the first two battles between the Constellation Society and the Fire Society, the Fire Society's representatives had both surrendered. The Beast didn't mean it, but Murong Ran was quite open and straightforward. She didn't use any trick.

The members of the Fire Society all stood with awful expressions, and Murong Ran looked particularly bad. Although Kasa had helped save her dignity by telling her to surrender instead of waiting for her to, the failure was still embarrassing. Yun Sheng leaped off the arena. The brother and sister looked at each other with a smile. Yun Feng raised thumb at her big brother. Yun Sheng smiled and then rubbed her head.

"Now, it's my turn." Yun Feng stood up and was about to jump to the arena, when someone suddenly pulled her back. She turned around, only to discover that Qu Lanyi had a smile on her alluring face. Yun Feng was dazed. Could it be...

"Why the rush? I haven't fought once yet. I'm feeling that I'm rusting. Let me do it this time." Qu Lanyi gently stroked Yun Feng's chin with her finger, and Yun Feng suddenly moved back. Qu Lanyi smiled and jumped to the arena. Her appearance instantly raised a round of exclamations.

"What a beautiful girl..."

"Who is she? Why have I never seen her?"

"I wish I could be with her..." mumbled a guy, who gazed at Qu Lanyi with fascinated eyes. The other people couldn't help but roll their eyes at him. The guy immediately blushed and stopped talking.

Qu Lanyi stood in the arena, and looked at her opponents with charming eyes. Kasa became cold. She didn't expect Qu Lanyi to be the third representative. Considering the turn of events, she had to participate. She was the mysterious genius who was at the top of the individual rank.

Kasa's eyes glittered. After Qu Lanyi showed up, while others didn't know who she was, Kasa was well aware of her identity. What did it mean to be the top of the individual rank? It meant that she was invincible in the Masang School of Magic!

Kasa certainly didn't want to step up just yet. She didn't want to ruin her dignity as the princess. "Either of you, go fight her," said Kasa to the two people behind her. She sounded casual, if not disdainful, as if Qu Lanyi were just a Mr. Nobody whose strength was not worth mentioning at all.

Mi Lingli glanced at Qu Lanyi, and didn't feel anything special, except that she was stunningly beautiful. Mi Lingli always considered herself a beautiful girl, and several guys had pursued her. However, the moment Qu Lanyi showed up, she became the center of attention. Mi Lingli keenly noticed two guys in the crowd who had pursued her earlier.

Mi Lingli was quite angry. She was a double-element mage anyway, and this woman had nothing, but a pretty face. Thinking about that, Mi Lingli stepped up and said, "Let me."

Kasa was greatly relieved after hearing that. She had been worrying what she would do if neither of them were willing to fight. Now that an innocent lamb had finally stepped up, Kasa nodded. "Finish the battle as quickly as possible."

Mi Lingli nodded in satisfaction. Her identity as a double-element mage gave her such a great advantage that even the princess thought highly of her too.

Mi Lingli leaped onto the arena. She found Qu Lanyi so attractive that she could hardly move her eyes away from her. She bit her tongue hard to wake herself up. "What a woman."

Mi Lingli mumbled, and Qu Lanyi's red lips curled. Her eyes were filled with coldness. Mi Lingli was as good as garbage in Qu Lanyi's eyes even though she was a double-element mage. Qu Lanyi ignored her arrogance too. She found it demeaning to actually fight such a worthless opponent.

Qu Lanyi snorted and put on a helpless expression. Seeing that, Yun Feng covered her lips and chuckled. Yun Sheng and Mu Xiaojin both looked at her curiously. Yun Feng shook her head, showing that everything was fine. She stared at Qu Lanyi with a smile. She had never seen such contempt on Qu Lanyi's face before.

Obviously, Mi Lingli's pride had been seriously challenged. The helplessness and contempt on Qu Lanyi's face made Mi Lingli wonder if the double-element mages had become cheap these days. Were double-element mages everywhere to be seen, like weeds off the road? She had such a special identity. How come her opponent didn't know her?

"Let's begin!" After the referee gave the order, Mi Lingli was the first to cry aloud. "Don't underestimate a double-element mage!"

Qu Lanyi sneered and waved her hand, launching a dazzling pillar of light from her palm. After Mi Lingli made the declaration, and before she could catch her breath, she had felt such overwhelming pressure in front of her that she didn't even have a chance to retreat!

What's... that?

With her eyes widened, Mi Lingli looked at the glowing pillar of light that had approached her in the blink of an eye. It smashed into her body, and she felt like she was a falling leaf that had been torn apart and thrown away. Just like a falling leaf, she dropped from the height!

"Bam!" A deafening explosion came close. Mi Lingli had no clue what happened. She didn't even launch an attack. She had only uttered a few words, and didn't even have the time to express her pride, when she had already been thrown to the ground!

"Ugh!" Mi Lingli held her chest in pain, feeling that her windpipe was stuck and she could hardly breathe. She raised her head and became pale, as she was already a hundred meters away from the arena. The ground around her had sunk by a few inches. The pit underneath her body was full of cracks!

One attack. Only one attack. Everybody saw nothing but a dazzling pillar of light. Then, Mi Lingli was raised high and smashed into the ground. Judging from Mi Lingli's appearance, it was highly unlikely that she could rise and fight again.

A few drops of sweat appeared on Kasa's forehead and dripped along her hair. Qu Lanyi, the top-ranking genius, had crushed this double-element mage with only one attack. Also, she had used the light element magic, which was even rarer than double elements! Besides, judging from her attack, she was even more skilled than before.

Chapter 322: It's Our Turn (3)

Thinking of that possibility, Kasa felt that her heart was cold. How strong had Qu Lanyi become exactly? That woman had always been indifferent, if not scornful, towards the Karan Royal Family, yet her father always respected her, which puzzled her. However, at this moment, she realized that Qu Lanyi was likely an even more tricky figure to deal with than Yun Feng was!

Qu Lanyi clapped her hands and glanced at the referee, who swallowed and then announced aloud, "The Constellation Society won the third round!"

It was not until this moment that the audience finally realized what was going on. They all shouted as loudly as possible, "Gorgeous! You're my idol!"

"Beautiful girl, what's your name? Can we make friends with each other?"

The guys cried as if they were crazy, following Qu Lanyi with their passionate eyes. Qu Lanyi walked off the arena, and saw how astonished Yun Sheng and Mu Xiaojin were. She raised her brows and sat down next to Yun Feng, who didn't seem surprised at all.

"Beautiful girl, don't ignore us!"

"Beautiful girl, look over here!"

After Qu Lanyi sat down, the guys were still shouting crazily. It was a rather chaotic scene for a moment. Qu Lanyi immediately became cold, and leaned her soft body towards Yun Feng. Yun Feng just felt the warmth on one side of her body, when someone forcefully turned her head and moved closer to her. Yun Feng narrowed her eyes, and Qu Lanyi's lips that were going to kiss a certain place changed their source and fell on Yun Feng's cheek.

All the audience fell silent. The girls all shyly turned aside, and the guys looked as terrible as if they had eaten something unclean. Leaning against Yun Feng casually, she smiled at the guys who were vehemently shouting at her, making all of them shiver. Yun Sheng's face turned completely sullen, and Mu Xiaojin blushed. She looked between Qu Lanyi and Yun Feng, and thought that they were a great match for each other...

Yun Feng pushed Qu Lanyi away and then jumped onto the arena. She unhappily stared at Kasa, who had been seated on the opposite side the whole time. "It's our turn now, isn't it?"

What Yun Feng said heated the atmosphere to the climax. It was already the fourth round of the Constellation Society and the Fire Society's competition, and their scores were 2:1. If Yun Feng won, then the Constellation Society would win. All the students were aware of its consequences. They still remembered the deal between Yun Feng and Kasa. The loser between them would run around the campus naked!

Kasa gradually stood up from her seat. Her beautiful body and her charming face evinced the grace of the Karan Royal Family, making the audience hold their breath. The princess of the royal family did carry a unique vibe! However, on the other hand, the more graceful a person was, the more brutal their fall would be. Quite a lot of the students were waiting to laugh at Kasa. They had no doubt that the royal princess's naked running would hit the headlines of all newspapers in the Karan Empire!

Kasa walked to the arena, one step after another. She raised her chin as a proud princess of the royal family. Although the Fire Society had lost two games in a row and was on the verge of failure, she was determined to win this round!

Kasa glanced at Yun Feng. "Let's make our battle a special one."

Yun Feng raised her brows and remained silent, hinting for Kasa to continue. Kasa pursed her lips. "To fight and kill is to perform like clowns for the audience. Some people want to laugh at me. Let's see if they're worthy enough to do that!" Kasa looked around at the audience, who all had cold sweat under her gaze. Their hot blood was chilled too. They didn't forget that Kasa was still a princess of the royal family!

"What do you want?" asked Yun Feng casually. Kasa chuckled and replied to the referee, "Sir, can we set up our own rules for this round?"

The referee nodded. The social ranking contest was always open and free. The Masang School of Magic only set up a framework. As for the details of the competitions, it would be fine as long as both parties agreed. Fighting and killing weren't compulsory.

Kasa put on an even bigger smile, and glanced at Yun Feng. "The rule is simple. We will simulate creatures with one type of magical element. So, we let the simulated creatures fight. What do you think?"

Yun Feng looked at Kasa suspiciously. Magic simulation? It seemed that Kasa was quite confident. Yun Feng smiled. "Alright. Let's do what you say."

Kasa's smile was even bigger. She stared at Yun Feng thoughtfully. "There are certain experiences that you shouldn't forget, and certain people that you shouldn't offend."

Yun Feng laughed. "Just cut the crap. I'm the one to decide whether or not to offend someone. Nobody tells me what to do!"

Kasa looked a lot more terrible, as if she had eaten rotten food. She snorted and summoned her fire elements. When the fire elements popped actively in the arena, the temperature in the environment changed obviously. All the audience were sweating. Some of the guys were also taking their clothes off.

Even the referee couldn't help but wipe his forehead. Yun Feng smiled. Immediately, blue waves appeared in her hand. Instantly, a cool breeze swept across the arena, making all the students feel comfortable. Kasa was angry to see that the heat of her fire elements was suppressed. Immediately, she took out a bottle of red fluid and held it in her hand.

All the students gasped hard. Even the referee couldn't help but stare at the bottle of red fluid in Kasa's hand. Yun Feng narrowed her eyes too, wondering what the fluid could be. At this moment, Kasa moved. With her gesture, more fire elements surged, and the bottle of red fluid was opened. When the

fire elements and the fluid contacted, they were like a beast that had been provoked. The fire elements danced crazily in midair, bringing the temperature in the environment to a whole new level!

Chapter 323: Yun Feng, the Summoner (1)

“Damn it, someone is going to die if you don’t stop burning!” cursed some of the audience. Everybody tried to resist the terrifying heat that had already twisted space. Yun Sheng immediately invoked water elements, hoping to protect every student at the arena, only to discover, to his surprise, that his level 7 water elements couldn’t compete with Kasa’s fire elements!

Yun Sheng stared at Kasa, whose gigantic mass of fire elements was already roaring. Kasa stood aside and watched the development of the fire elements proudly. The fire elements, whose temperature and size had soared, were finally taking shape as an enormous wolf standing next to Kasa. It stared at Yun Sheng with its fiery eyes, spouting out such scorching hot air that it seemed about to burn everything to the ground.

Yun Feng keenly noticed the anomaly of the fire elements. Kasa was in level 6, so why were her fire elements in level 8? They were two levels more powerful than herself!

“It’s the Fire Potion,” said the ancestor solemnly in Yun Feng’s head. “It’s a potion that can empower fire elements for a short amount of time. Considering the power of her fire elements, her Fire Potion is definitely of a high quality. Kid, there’s no need to explain. Don’t underestimate your opponent. As a royal princess, she isn’t easy to deal with.”

Yun Feng nodded and waved her hand, forming the cold water elements into a huge blue serpent, which had a pair of sapphire eyes and vertical pupils that emitted infinite wickedness. The serpent suddenly opened its mouth, spouting a cold stream towards the fire wolf. The fire wolf’s temperature was lowered, and the beast made an impatient roar.

“Has the princess violated the rule?” When the heat was finally under control, someone asked, “She used a potion. Isn’t it obvious cheating?”

“Shh... Do you want to get killed? Potions aren’t forbidden in the rules. Yun Feng is free to use them too if she has any.”

“Humph, that’s so unfair. Can everybody afford the Fire Potion? Even if they can, it’s not always available on the market.”

“Exactly. The princess is clearly taking advantage of her!”

The members of the Fire Society glanced at the student who just talked, and he immediately shut up. Everybody watched the confrontation of the two magical beasts. Kasa smiled. “Yun Feng, there’s still time to surrender.”

Yun Feng responded with a mocking smile. The serpent next to her opened its mouth and roared, “Right back at you with those exact words.”

Kasa turned pale, and without further ado, took out another bottle of Fire Potion. This time, everybody at the arena exclaimed, “Goddamn it, she has another bottle!”

“As expected of a royal princess. She has everything!”

“Oh my god, two bottles of Fire Potion. I only want one drop!”

The referee felt ill at ease and moved back a little bit. He wondered if he should call out to the Vice Principal and Mr. Ted, as this game was getting out of control...

Bright red fluids were flowing in the bottle of Fire Potion that Kasa was holding. Although they were shallow, Yun Feng knew that they could empower the fire elements by two levels! That was an invincible boost for any mage!

Yun Feng narrowed her eyes. Right now, the fire was level 8. How powerful would it be if another bottle of Fire Potion was added to it? Level 9? Or maybe, the Commander Level?

“Kasa, this is the Masang School of Magic!” said Yun Feng coldly. That woman seemed to be adopting any means possible for the victory. The fire elements were always brutal. This place would be ruined if she lost control of the fire elements that were beyond her level!

“Get the hell out of here if you don’t want to die!” roared Kasa. The audience was dumbfounded. What was going on? Kasa glared at them. She didn’t care about other people’s safety. She was determined to win, and she could not afford a failure. It had to be the Yun family that got humiliated!

The fire wolf howled at the crowd, launching another hot wave at the students, who were all panicking. Some of them had fled immediately because they were too frightened. Seeing the wolf’s terrifying posture, the students realized that Kasa wasn’t kidding.

Murong Ran changed her expression and left in a hurry. Mi Lingli followed her closely. The other members of the Fire Society retreated as quickly as possible. The other teams, though dumbfounded, evacuated in a hurry too. Very soon, the auditorium, which was crammed with people a moment earlier, became almost empty. Yun Feng looked back at her brother and companions.

Yun Sheng nodded at Yun Feng, and helped Mu Xiaojin to her feet. Qu Lanyi, on the other hand, winked at Yun Feng. “Fengfeng, we’re all leaving. You don’t need to hold yourself back anymore, you know?”

Yun Feng was rather surprised. She put on a smile, and Qu Lanyi blew her a kiss and then walked away. “Xiao Feng, be careful,” said Mu Xiaojin concernedly. Yun Feng nodded. Yun Sheng, on the other hand, said practically, “I’ll be waiting for you outside. Get out sooner.”

Yun Feng couldn’t help but chuckle. All of them retreated. Kasa turned around and said to the referee, “Sir, you may want to get out first. You’ll know the result of our battle very soon anyway.”

The referee swallowed hard, and quickly left. All that he could think of was that he must inform Mr. Ted and the Vice Principal immediately!

The auditorium of the Masang School of Magic became empty. Nobody was around except Kasa and Yun Feng who were still in the arena. Outside of the auditorium, it was surrounded by people. All the students were craning their heads and watching, but they didn’t have the courage to draw any closer, because the wolf that Kasa released was too horrifying. Besides, there was another bottle of Fire Potion. If that Fire Potion was used too, then the consequences would be...

Chapter 324: Yun Feng, the Summoner (2)

Inside the auditorium, Kasa slowly opened the bottle of Fire Potion. The moment the flowing bright red fluids appeared, the fiery wolf jumped at them excitedly as if they were the most delicious meat. It swallowed greedily. Immediately, the fire elements became even more powerful, and Kasa turned pale.

“You’re really too weak to control the wolf.” Yun Feng glanced at Kasa coldly, and Kasa laughed and stood straight, staring at Yun Feng palely. The wolf next to her suddenly roared aloud. Yun Feng examined the power of the fire elements, which rose from the mid stage of level 8 all the way to the peak of level 9!

As if it were a roller coaster, Kasa was able to make use of level 9 fire elements although she was only level 6! As the energy level of the fire elements soared, Kasa became paler and paler. That was not the energy she could bear. For a level 6 mage to control level 9 magical elements, it was like for a kid to command an adult.

Kasa bit her lips hard. The burden on her body had already reached the highest level. Even though the Fire Potion was powerful, it had great side effects too. One must pay a price for the power that was beyond one’s level! Kasa bit her lips and glared at Yun Feng. She didn’t want to lose, and certainly not to the person in front of her eyes!

The power of the fire elements was kept at level 9, but they were highly unstable, and seemed to be still increasing. Yun Feng found it rather hard to believe. Such a rapid increase of strength could be an ace card in a battle! It could empower one’s elements to such a high level without improving one’s own level. Mages weren’t easy to deal with at all!

Yun Feng’s mental strength surged out, and blocked the space. Although the space was blocked, she wasn’t sure whether or not it would be broken. After all, the fire wolf was extremely unstable and agitated. It seemed to be trying to make another breakthrough! If it rose to the Commander Level, then the blockage wouldn’t work on it.

“Try to endure as long as possible!” Her ancestor’s voice echoed in her head. “Although the Fire Potion is unbelievably powerful, it has a time limit and cannot last for more than three hours. Don’t be hasty!”

Three hours... Yun Feng thought; three hours wasn’t a short amount of time at all...

Kasa laughed. “Are you scared? If you admit defeat right now, I’ll give you a chance.”

Yun Feng raised her head. Admit defeat? She didn’t know what it meant!

“Hiss...” The blue serpent hissed and then slithered towards its enemy with its gigantic body. Seeing that, the fiery wolf next to Kasa let out a devastating roar too, “Hoo...”

The blue and red creatures collided brutally. The icy serpent wriggled and tied up the fiery wolf, and the fiery wolf unhesitatingly opened its mouth and bit the serpent’s body.

“Chi! Chi! Chi!” The noises of scorching iron causing steam in water kept echoing. The collision of fire and water, which were incompatible with each other, was destined to lead to ear splitting noises.

After all, the beasts were magical simulations and not real beasts. They didn’t have the real beasts’ wisdom, only their appearances. They couldn’t do anything except mauling and smashing. The fighting

of the two beasts triggered unpleasant noises. The moment they hit each other, a fog popped up. Very soon, the entire arena was shrouded in mist and became too fuzzy to be seen clearly.

“Ho...” The wolf’s roar rose to the sky from the inside of the Masang School of Magic’s auditorium. Hearing that, the crowd outside had heated discussions.

“What’s going on? How is it going inside? It seems that the battle is quite fierce...”

“Who do you think will win? Yun Feng or the princess?”

“It’s hard to say. You’ve all seen how powerful the fiery wolf was. It might accidentally burn this whole place to the ground...”

All the students discussed. They craned their heads and tried to look inside, even though they couldn’t see anything. “Hooooooo...” An even louder roar came out, with unusual excitement that seemed to have been held back for a long time. As if something had broken the obstacle and was freed, a hot wave that could burn anything into smithereens moved towards the audience abruptly along with the roar!

“Move back!” someone shouted. Then, an enormous blue barrier appeared above all the students. When the hot wave hit the blue barrier, there were seething noises. It was like a rampant beast that had hit an iron wall. It immediately stopped.

The Vice Principal stood aside gloomily, with his wand shivering in his hand. He stared at the school’s auditorium. Ted, on the other hand, had an indescribable expression.

“Ted, go to the capital and fetch Lord Sangqu immediately!”

Ted’s eyes widened. “Vice Principal, is it so serious?”

The Vice Principal looked back at Ted more solemnly than ever. “I can only resist for a short amount of time. Things are getting out of control. If you don’t want the Masang School of Magic to be razed to the ground, fetch Lord Sangqu immediately!”

Ted immediately nodded. He turned around and left quickly without a word. The Vice Principal looked at the panicked students and said loudly, “Fall back right now. Nobody approach this place!”

Under the Vice Principal’s instruction, the students retreated and moved further and further away from the auditorium. Yun Sheng held Mu Xiaojin’s hand and looked at the auditorium worriedly. Qu Lanyi, on the other hand, stood aside casually, without the slightest concern on her face.

“Is Xiao Feng alright?” Mu Xiaojin stared at the distance with her big eyes, even though she could no longer see anything. She moved more and more slowly, as if she didn’t want to retreat any further.

“What are you worried about? Even if Fengfeng isn’t alright, I’m still here for you.” Qu Lanyi chuckled, and looked at the source of the mess with a smile. This turn of events was quite beyond her expectation. Kasa had clearly gone mad. She had definitely paid a lot just in order to keep her face. That was Fire Potion. She had definitely spent a lot...

Chapter 325: Yun Feng, the Summoner (3)

Yun Sheng glared at Qu Lanyi, and thought that the woman was a jinx. Nothing would possibly happen to his sister, because unlike other people, he knew that Yun Feng was a summoner! How could anything happen to a powerful summoner?

Inside the auditorium, the rising and spreading steam had been vaporized. Yun Feng gloomily gazed at the fiery beast whose size had significantly expanded again. "Kasa, you're truly trying to get yourself killed!" Her ice serpent had just been bitten through by the fiery wolf. Kasa was shivering palely, with another bottle of opened Fire Potion in her hand!

Three bottles. Three bottles of Fire Potion!

Kasa laughed. Her face was as pale as a ghost. "Yun Feng, do you see this? Just admit defeat! Hahahaha!"

After absorbing the third bottle of Fire Potion, the fiery wolf had been upgraded to the Commander Level! It had only been two hours, which meant that the simulated beast could remain in the Commander Level for another hour!

"Damn you, woman!" Yun Feng cursed in a low voice. It seemed that Kasa had completely lost control of the beast. The fiery beast seemed aware of that too, and tried to break Yun Feng's space shackles. Feeling the rising temperature, and seeing Kasa's ignorant face, Yun Feng sneered, "You think you can defeat me so easily? In your dream!"

"What?" Kasa's proud smile was frozen on her cheeks. "I can't defeat you? Your wretched snake is already gone! It's gone! My fiery wolf can kill you easily right now. You..." Kasa could not utter another word, or more precisely, her lips were moving, but she couldn't make a sound. What did she see? That was...

Yun Feng closed her eyes and concentrated her attention, taking out the two Rings of Contract. She put on the green and red Rings of Contract, and then roared in a low voice, "Lan Yi, Little Fire, get out!"

At her command, green and red lights arose in front of her. When the human and the wolf appeared next to Yun Feng, Kasa couldn't hold any longer, and collapsed on the ground. She pointed at Yun Feng with shivering lips, yet she could not say a single word.

Kasa was roaring in her heart, summoner! Summoner! She's a summoner!

"Master, what's going on?" Hardly had Lan Yi and Little Fire come out when they discovered the unusual circumstances. Little Fire, in particular, faced the fiery beast while emitting a cold threat in its black eyes. Its body was tightened too, and it let out roars.

"Which reckless guy made this?" cursed Little Fire in a low voice. Yun Feng sneered, "That particular guy seems to have turned mute."

Kasa was clearly mute, and perhaps even retarded. She was obviously in a state of bewilderment. Summoners that the Karan Royal Family dreamed to have existed, and one of them was in the Yun family. It was truly the Yun family!

"Ho..." The fiery beast felt the enormous threat, and its fire element density rose significantly again. Little Fire roared, "Master, go to the sky. Let me take care of this one!"

Flames were rising from Little Fire's skin. Its dark red body was athletic and graceful. There were dark colors inside the flames that carried lethal mysterious power. Under the pressure, the fiery beast howled and then charged at Little Fire!

"Master!" Lan Yi quickly moved past Yun Feng and unfolded its wings. The gigantic white-and-blue wings appeared behind Lan Yi's back and glimmered, making it look like an angel. Lan Yi flashed to the sky and flapped its wings unhurriedly, causing a rhythm of noises. Yun Feng saw that Kasa was still lying on the ground with her head raised. That woman was obviously dumbfounded.

Perhaps, she had never seen anyone who had wings, or a multi-element summoner...

"Bring her up here. If she dies here, the Yun family will be in great trouble!" roared Yun Feng. Lan Yi immediately nodded, and dashed towards Kasa in a blue streak of light. It grabbed her by her collar and then flew back to the sky.

Kasa was shaking in midair while Lan Yi seized her in its hand, whereas Yun Feng was carefully surrounded by Lan Yi's arms. They obviously had different privileges.

"Master, forgive me," said Lan Yi in a low voice. Yun Feng chuckled. It was impossible for Lan Yi to reveal its true form as an enormous griffin here without being seen by all the students.

"It's fine. Is everything okay with Little Fire?" Yun Feng looked down worriedly. Beast roars were coming from the ground now and then, indicating a fierce battle. Little Fire was in the Commander Level, and should be stronger. However, the fiery beast had absorbed three bottles of Fire Potion, and had risen to the Commander Level too. It was hard to tell how the battle between them would turn out.

"Brother Fire will be fine. It has been stuck for a long time. It's time to get active."

Lan Yi wasn't wrong at all. Little Fire, who had been hidden for a long time, was almost going crazy. It finally had the opportunity to enjoy the fresh air. Now that it had run into this stupid beast, it would whet its fangs with the enemy!

"It's been a long time since I polished my claws. You will be a great help for me!" roared Little Fire, while it charged at its enemy. The fiery beast didn't resist, but simply roared and mauled Little Fire all the time. The beast only knew several simple moves despite its enormous strength. After figuring out all of its moves, Little Fire suddenly turned around and opened its mouth, gathering a dark red ball of light inside its mouth.

"Let me send you to the other world!"

Chapter 326: Yun Feng, the Summoner (4)

"Bam!" After an enormous explosion, the fiery wolf let out a devastating scream. The students and teachers who were very far away from the auditorium shivered after hearing the scream. What was that sound? Why did it sound so miserable?

"Xiao Feng!" Mu Xiaojin ran back without thinking, and Yun Sheng keenly grabbed her. "Feng will be fine. Xiaojin, you must believe in her!"

Tears flowed out of Mu Xiaojin's big eyes. For some reason, she remembered her brother's miserable death. Her heart was filled with uncanny panic and fear that she could not get rid of.

“Brother Yun Sheng, I don’t want anything to happen to Xiao Feng...” mumbled Mu Xiaojin. Her face, which was full of tears, was quite heartbreaking. Yun Sheng couldn’t help but hold her in his arms and pet her. “Feng will be fine. We must believe in her.”

Qu Lanyi simply stood there. For a moment, her face was grave, but then she looked ahead with a smile again. There was no telling what was on her mind. However, her lips were indeed curled with a vague smile.

“Mr. Vice Principal!” Ted’s voice came close. The Vice Principal immediately looked around, and saw Ted running towards him anxiously, holding a drowsy man who was yawning non stop in his hand.

“Lord Sangqu, please forgive us for disturbing you. This is an emergency,” said the Vice Principal, hinting that Ted should let him go. Ted immediately did. The man who had been brought yawned again. His clothes were a mess, as if he had put them on in a rush, and there were tiny wrinkles on his face. His hair was partly white, but he didn’t seem old.

“What exactly happened?” Sangqu yawned again. However, halfway throughout the yawn, he suddenly widened his eyes, with dazzling light flashing in them.

“How can there be such high-level fire elements in that direction?” Sangqu gazed in the direction of the Masang School of Magic’s auditorium. The Vice Principal smiled helplessly, “It’s a long story. Even I haven’t quite figured out what happened...”

Sangqu examined the scene remotely, and became even more shocked. He suddenly turned around and looked at the Vice Principal. The Vice Principal was almost creeped out by his look. “Lord Sangqu, what’s the matter?”

Sangqu’s eyes glittered again, with interest and excitement. “Was the Karan Royal Family’s insistence right after all?”

The Vice Principal frowned, and didn’t quite understand Sangqu. Sangqu chuckled. “I’ll go there and take a look. Be prepared, as anything may happen.”

The Vice Principal nodded solemnly. Before Sangqu moved out, he said again, “On the other hand, I need to meet that kid. Curious. I’m so curious...”

The Vice Principal was stunned. That kid? Which kid was Lord Sangqu talking about? Kasa or Yun Feng? After saying that, Sangqu dashed into the Masang School of Magic’s auditorium, leaving the Vice Principal standing there with furrowed brows and wondering what he meant.

Inside the Masang School of Magic’s auditorium, after the deafening explosion a moment earlier, the enormous fiery beast was gone, leaving just a plume of smoke and some lingering fire elements in the air that were still quite powerful. The low-level people would be burnt into ashes if they entered the place at this moment.

Yun Feng narrowed her eyes and looked at the floor, which had been reduced to smithereens. A moment earlier, Little Fire had enjoyed the battle so much that it basically destroyed everything in the auditorium that could be destroyed.

“Master, not bad, huh?” asked Little Fire rather proudly. Yun Feng smiled. Lan Yi descended and put her on the ground, and then threw Kasa aside randomly. Kasa trembled, and finally came back to herself.

“You, you, you, you...” Kasa repeated the same word many times, but could not speak a complete sentence. Yun Feng walked to her, slightly bent her back, and stared at Kasa in the eyes. “Esteemed princess of the Karan Royal Family, do you think you can defeat me?”

Kasa’s face, which had finally looked healthy again, became paler than ever. She shook her head, and trembled nonstop. She was not stupid. How could she challenge a summoner? She glanced at Lan Yi and Little Fire with fear. Were both of them Magic Beasts that could transform into human beings? She was not a human being. How could a human being achieve that?

“Kid, being too aggressive isn’t nice,” a voice came from behind the dust. Lan Yi and Little Fire became anxious, and stood in front of Yun Feng, one on the left and the other on the right. Little Fire extended its claws and opened its mouth, howling threateningly.

“Don’t be angry, don’t be angry. I mean you no harm.” The voice approached quickly. From behind the dust, a smiling young man revealed himself. He wore such a big smile that all his tiny wrinkles were accentuated, making him look quite hilarious.

“I am Sangqu. Kid, I’m not a bad guy.” Sangqu chuckled. Kasa, who was still sitting on the ground, trembled again, as if she was quite shocked at the name. Yun Feng didn’t have the time to notice Kasa’s reaction. She had fixed her eyes upon the man who claimed that he was not a bad guy.

“Kid, you’re right to be vigilant. The Karan Royal Family, on the other hand, shouldn’t be disgraced.” Sangqu glanced at Kasa with a smile. Yun Feng turned back and glanced at her too.

Kasa immediately rose from the ground and cleaned her clothes. She smiled at Sangqu and then at Yun Feng. She seemed to have turned into an exceptionally obedient kid at this moment.

“Who are you?” asked Yun Feng. Sangqu chuckled. “Kid, as I said, I am Sangqu. You, on the other hand, haven’t told me your name yet.”

Yun Feng stared at him. Feeling Yun Feng’s vigilance, Lan Yi and Little Fire let out a threatening vibe too.

Sangqu laughed. “Never mind. If you don’t want to tell, so be it. I’ll learn it sooner or later.”

Chapter 327: Yun Feng, the Summoner (5)

“If you tell anybody else about my master, I’ll rip your throat apart!” declared Little Fire brutally. Kasa trembled abruptly, with cold sweat in her hands. She took several steps back.

“Okay, fine. I won’t tell anyone. I’m just curious.” Sangqu chuckled, and didn’t seem infuriated at all. Yun Feng felt that the man carried quite a mysterious aura. He stood very close to her, yet she somehow felt that he was far away in the sky.

She triggered a thought, and sent Lan Yi and Little Fire back into the Rings of Contract as two streaks of light. Sangqu noticed the rings that Yun Feng was wearing too. When he saw the patterns on the rings, he couldn’t help but change his expression.

“Your strength has caused changes on the Rings of Contract?”

Yun Feng narrowed her eyes, and casually took off her Rings of Contract, before she threw them into her bracelet, which stunned both Kasa and Sangqu. What was happening? Those were the Rings of Contract, symbols of the summoners! So many people would've dreamed of wearing them. Why did she take them off so easily?

"Haha! Hahahaha!" Sangqu laughed loudly, as if he was delighted, and what Yun Feng did was amusing. Kasa, on the other hand, swallowed hard. She had never thought that Yun Feng was remarkable before. However, at this moment, she found that Yun Feng was sophisticated and unpredictable.

"You're truly special and unique!" Sangqu smiled and said. "I was dragged here against my wish, but it's a delightful surprise to meet you. Hehe. Kid, don't forget to come to me when you visit the capital."

Sangqu said with a smile, and then turned around. When he was about to leave, he seemed to remember something and then winked at Yun Feng. "Don't worry. I won't tell anyone about you."

Sangqu walked away, leaving Yun Feng and Kasa alone. Yun Feng considered for a long time, frowning. She found the man who uncannily showed up rather weird. Sangqu... Who was he? Or rather, what kind of identity did that name represent?

Kasa had been standing behind her, and never had the courage to talk. At this moment, she had lost all her pride as the royal princess. When Yun Feng turned around, Kasa anxiously stood straight. Yun Feng lost interest in her, and was about to walk away, when Kasa raised her head and stared at Yun Feng's back, squeezing her hands.

"Y-Yun Feng..." Kasa tentatively called out to her. Yun Feng turned around and said, "Just say whatever you want to say."

Kasa's eyes glittered. After Yun Feng walked out, Kasa took out her Sound Transmission Jade with shivering hands. A voice came from the jade after a few buzzes. "What's wrong?"

Kasa took a deep breath, and spoke to the Sound Transmission Jade with a shivering yet clear voice, "Father, the Karan Empire has a summoner now..."

The Sound Transmission Jade was silent for quite a long time. Obviously, the emperor found it hard to believe. Then, the Sound Transmission Jade sounded again. "Kasa, are you sure? You will be punished in the most severe way if you're mistaken!"

Kasa slowly closed her eyes, and couldn't breathe steadily. "Father, I'm not mistaken. I've seen it with my own eyes. Yun Feng of the Yun family is a summoner."

From this day on, a storm would happen to the East Continent, and Yun Feng's journey was turned to a new page.

The emperor was in a good mood on this day. To be more exact, he had never been in a better mood in his entire life. He was so delighted that the servants around him all glanced at him curiously. Their Majesty seemed to be speaking to someone a moment earlier, and then he became happy like this. They all knew that the emperor was such a grim man that he never showed any feelings on his face. Few people could tell whether he was happy or angry. However, things were different at this moment. The emperor couldn't have been more easy going and approachable.

All that the emperor could think of in his head was summoner, summoner, and summoner... His joy was beyond the description of any word. Had it not been for the presence of his servants, he might even have jumped and exclaimed. He was very thrilled. The person that the Karan Royal Family had looked forward to finally showed up, so surprisingly... No, maybe it wasn't surprising. It was just that they had never noticed her.

The Yun family... The emperor narrowed his eyes. The Yun family again. Two summoners of the Karan Empire had been born in the Yun family. Then, would the family have more summoners in the future? Thinking of the possibility, the emperor attached more importance to the Yun family, and decided that it depended on the Yun family!

Holding the Sound Transmission Jade, the emperor spoke to it after it flashed, "Kai, come to my place right now." He then cut the communication without another word. He then sat on his broad throne and laid his hands on his legs. Although the Yun family had been a troublemaker, it was crucial to the Karan Empire at this moment, because it had a summoner! The Yun family was still valuable and useful. At this moment, the emperor hesitated. When the Yun family declined, the Karan Royal Family had left it alone. Would it cause any negative influence at this moment?

The emperor smiled, as there was still time to make up for it. If the Yun family refused to work for the Karan Royal Family any longer, the Karan Royal Family wouldn't show any mercy to it, and would destroy it completely, even if it had a summoner!

Very soon, Kai arrived in a hurry. The moment he came, the emperor dismissed everybody else in the room. Seeing that, Kai stepped forward and sat down next to the emperor, "Big brother, what's wrong?"

After everybody left, the emperor gazed at Kai, "Now, I need you to go to Chunfeng Town in person, and invite the Yun family to move to the capital!"

Chapter 328: Return to the Capital (1)

Kai couldn't help but frown. "Invite the Yun family to move to the capital? Do you want to get rid of them?"

The emperor chuckled. "Do I? Maybe, maybe not. It depends on the Yun family's attitude. All in all, you must let the Yun family move to the capital, especially Yun Jing! If you need help, I can ask Randal to go with you."

Kai's eyes widened after he heard that. Randal? Big brother, well..." Even Randal was to be deployed just to control the Yun family?

"I've truly misjudged the Yun family this time... I didn't expect that another miracle would happen to the Yun family..." The emperor's whisper made Kai stand straight in shock. "Big brother, is it possible..."

The emperor nodded. "You must keep the news a secret. Don't let the other countries know! If other tigers notice this piece of meat, it's fine if the meat is gone, but it will be our loss if they steal the meat..."

Kai understood his implication, and nodded solemnly. "Don't worry, big brother. I won't make any mistakes. Just wait for my good news." Kai turned around and left after saying that. A shadow flashed

out from the emperor's back, and followed Kai. The emperor took a long breath, without loosening his brows. "Is she a blessing or a curse? Why did she show up at this moment? It's truly..."

The arena for the social ranking contest had almost been destroyed by the time the first round of the game of the top three candidates was over. When Yun Feng emerged from the auditorium, all the members of the Constellation Society cheered and ran to her, screaming, "Yun Feng, awesome! I knew you would win!"

"The royal princess is garbage! Yun Feng is the best!"

"The Constellation Society rules!"

Some of the Constellation Society's members roared crazily, and other students joined them too. The members of the Fire Society, on the other hand, were frustrated and caught in awkward silence. They all craned their head and looked inside, hoping to see their princess.

Soon, Kasa, whose clothes and face were covered in dust, walked out. She had lost her demeanor as the princess. Seeing her, some students cried, "The Constellation Society won this game, right?"

Nobody knew the details of the game. They only heard the continuous roars, which indicated the fierceness of the battle. Nobody knew the result of the battle except the two who were involved. Hearing that, Kasa held her breath, and remembered her deal with Yun Feng. She glanced at the crowd in panic. So many people... Did she really have to get naked here?

The Fire Society's members were all surprised to see Kasa stand in silence. Was she the honorable princess they knew? Why was she silent? Why didn't she argue with them? She should've been arguing with them!

Yun Sheng walked close at this moment, and smiled at Yun Feng. He combed Yun Feng's messy hair and asked gently, "Feng, was it a tie?"

Yun Feng raised her head and looked at her big brother. Her identity as a summoner had been exposed, and the Karan Royal Family would definitely try its best to please her. It probably wouldn't do anything even if she asked Kasa to run nakedly. However, Yun Feng had lost interest. It didn't matter anymore whether or not Kasa got naked or not.

"Yes, it was a tie," said Yun Feng. However, nobody really believed that. All the students complained and demanded the truth. Kasa blushed and remained silent, not knowing what to say. Some of the Fire Society's members couldn't hold it any longer, and roared, "Yun Feng said it was tie. Why are you still yelling? Do you want the princess to run naked? Do you even dare to watch her even if she does?"

The other students finally fell quiet. Ted couldn't help but feel relieved. The Vice Principal chuckled and walked close. "Today's games are over. Let's continue tomorrow."

All the students were quite bummed. The Vice Principal walked away, chuckling, and the students dispersed too. Only some members of the Constellation Society and the Fire Society stayed. Mi Lingli walked to Kasa. "Princess, I knew you wouldn't fail."

Kasa changed her expression, and glanced at Yun Feng. She wouldn't fail? She had faced a double-element summoner... Remembering the man who had wings and the soul-stirring Fire Cloud Wolf, Kasa breathed heavily. Not only had she been defeated, but she had been left so far behind that she couldn't possibly catch up with her opponent. She and Yun Feng already belonged to two different worlds...

Without saying anything, Kasa turned around and left. The members of the Fire Society all left too. Seeing that, the members of the Constellation Society all said in disdain, "They seem rather cocky as losers!"

"Alright, alright," Yun Sheng soothed them with a smile. "Let's all go back. I believe that the Constellation Society will definitely be the best society!"

The other members of the society were reassured. They all dispersed. Yun Sheng petted Yun Feng, and Yun Feng grabbed his hand. He knew that there was something that his sister wanted to say to him. Qu Lanyi yawned and stretched her arms. "Fengfeng, I'm going back."

Mu Xiaojin said goodbye to her, and followed Qu Lanyi. Yun Feng waved her hand and blocked the space. Then, she told Yun Sheng everything that happened earlier except Sangqu who had come uninvited. After that, Yun Sheng became solemn. "Kasa must've informed the Karan Royal Family of your presence."

Yun Feng smiled. "Indeed. A second summoner has emerged in the Yun family. The Karan Royal Family must be regretting what it did."

After the Yun family declined, the Karan Royal Family had left it alone. It must've lost confidence in the Yun family, and stopped placing hope on it. After all, no summoners had appeared in the family in hundreds of years. It was understandable that the Karan Royal Family paid attention elsewhere. Yet, at this moment, the Yun family had made a surprising comeback. The Karan Royal Family must be ill at ease at this moment. Thinking about that, Yun Feng chuckled. "Big brother, what will the Karan Royal Family do to attract the Yun family?"

Chapter 329: Return to the Capital (2)

Yun Sheng smiled too. What would it do? Everything that it could do, of course. It certainly couldn't offend the Yun family, not when the Yun family had a summoner. Now that Yun Feng had appeared, the situation on the East Continent would change!

"I wonder what the Karan Royal Family will do to please us. Should we rip them off?" Yun Feng put on a mischievous smile. Yun Sheng couldn't help but tap his sister's head. She was probably the only person on this entire continent who was bold enough to take advantage of the Karan Royal Family!

Yun Feng certainly had her own plan. It would be stupid if she didn't take advantage of them. She wouldn't do anything for the Karan Royal Family, and the Yun family would break free from the Karan Empire sooner or later. Maybe, it would be best to take advantage of the Karan Royal Family before the departure.

"It's true that the Yun family can't stay for long in Chunfeng Town," mumbled Yun Sheng. Yun Feng smiled in agreement. The Yun family was bound to stay in the capital. The Karan Royal Family would surely try its best to bring the Yun family back to the capital. "Ah, the Yun family isn't far away from

another heyday...” Yun Sheng sighed. Yun Feng, however, smiled. “Yes. Our life will be even better than what we had...”

Just as Yun Feng expected, honorable visitors came to Chunfeng Town very soon. Kai went straight to the Yun family. After he introduced himself, Yun Jing was rather awed. After all, it had been a long time since the Yun family had the privilege of receiving a member of the royal family. The news spread out in Chunfeng Town, and made everybody excited. The locals knew that the Yun family’s good days were coming again, and that it was too important to be confined to such a small place as Chunfeng Town forever.

The Mei family, upon learning the news, couldn’t have been more regretful. Mei Ran was too ashamed to visit the Yun family again, and thought that he shouldn’t have been so prudent. If he had been bolder, he would’ve been able to let the two families connect. However, it was impossible for him to change what had already happened.

The other families in Chunfeng Town were all jealous. Only the renowned families in the capital were supposed to receive nobles of the royal family. Although the Yun family used to be one of such families, it hadn’t been very popular these days. However, judging from what happened, the Yun family might be moving back to the capital very soon!

The small families in Chunfeng Town were excited too, and visited the Yun family more and more frequently. They all wanted to make friends with the Yun family, so that they could benefit from its rise! They all hoped to rise to the sky with the Yun family as the ladder, but the Yun family was too high for them to climb. Even the Karan Royal Family might not be qualified to climb it!

During his visit, Kai behaved as a friendly young man without the arrogance of the royal family at all. He spoke to Yun Jing as though they were brothers, which made Yun Jing rather uncomfortable. He also showed warmth and sincerity. He brought the Karan Royal Family’s promise that they would offer the Yun family whatever it asked for!

That was quite a generous promise. Yun Jing’s heart raced when he heard that. The Yun family, which had a thriving life in the capital in the past, was going to resume its glorious life. It was his dream that he had always hoped to accomplish! Seeing that Yun Jing was tempted, Kai quickly spoke nicely and apologized on behalf of the royal family, hoping that he could forgive the royal family.

Yun Jing could never forget the family teachings, and had a natural sense of belonging to the Karan Empire. He didn’t reject the Karan Royal Family. Kai had picked the right person to talk to. Under his persuasion, Yun Jing nodded and accepted his request. Kai was quite relieved. It would be great if the Yun family returned to the capital.

Yun Feng, on the other hand, knew that her father would accept the request. She knew that Yun Jing had always wanted to return to the capital and reclaim the family’s former glory. However, Yun Feng wanted much more than that. She wanted to go much further away!

In the Sound Transmission Jade, Yun Jing told her that the family had packed up their belongings and set off to the capital while Kai and Randal accompanied them, which made Yun Jing feel honored. When the Yun family left the capital in frustration, nobody noticed, as if it had never existed. However, its return was different. The emperor’s blood brother was accompanying them back to the capital. It meant that

the Yun family had been invited back! The future for the Yun family was extremely promising in the capital.

Yun Feng listened to her father with a smile, and could hear happiness from her father's words. Yun Sheng seemed consoled too. He had known Yun Jing's sufferings very well. What happened to the Yun family was like a dream... "Feng, the Yun family wouldn't have such an opportunity without you." Yun Sheng hugged his sister in his arms tightly. Yun Feng awkwardly wriggled, but her brother didn't let go of her. She blushed. "What are you talking about, big brother? You're just as important..."

Yun Sheng put a smile on his gentle, handsome face. The brother and sister looked at each other with a smile. The Yun family was destined to rise, and the capital would be a starting point!

The social ranking contest continued. However, none of the students were able to learn more about the shocking yet mysterious game fought the day earlier. Also, the Fire Society surprisingly quit the finals, which surprised a lot of the students. Why on earth would the Fire Society quit? It was led by a princess. Why would she... However, that was exactly what Kasa did, as per her father's instruction. "Quit the contest right now, and try to make friends with Yun Feng!"

Kasa nearly killed herself because of the request. Make friends with Yun Feng? They were already sworn enemies. How could they be friends? Kasa could only embolden herself to quit the contest. As to how to approach and make friends with Yun Feng, that was still a major test for Kasa.

Chapter 330: Return to the Capital (3)

In the society ranking contest, the Constellation Society became the top easily, as many students expected. As the absolute dark horse, the Constellation Society had become the champion and won the generous awards of the Masang School of Magic. The students who didn't enter the Constellation Society all gritted their teeth, regretting that they weren't smart enough to recognize its potential. Ever since the society ranking contest, the Constellation Society had been the most popular society, and was even more popular than the Fire Society in the past. To many students' surprise, the Fire Society never provoked it again, as if it was terrified and had flinched.

Yun Feng had been feeling awkward recently, and the main reason for her awkwardness was Kasa, who came to her now and then even though she was a condescending princess in the past, as if they were closer than before.

In the lunch hour, Yun Feng, Mu Xiaojin and Yun Sheng were enjoying their meal in the cafeteria, talking and laughing, when Kasa drew near. "Well... There are no other seats. I'll just sit here." Without their agreement, Kasa simply sat down. They looked at each other in bewilderment. Yun Feng glanced around and saw many empty seats. She wondered what was wrong with her.

In front of the society building, they met again, and Kasa greeted Yun Feng awkwardly. Yun Feng managed a smile. After thinking for a while, Mu Xiaojin finally asked, "Xiao Feng, is she trying to approach you?"

"She's trying to approach Fengfeng? Not a chance!" A voice suddenly came from Yun Feng's back. Having no time to dodge, Yun Feng felt that a warm body was stuck to her and a head had just been laid on her shoulder. She gnashed her teeth, "Qu Lanyi, get off me!"

Qu Lanyi chuckled, but refused to separate her body from Yun Feng's. Amused, Mu Xiaojin said something that made Yun Feng completely sullen. "You two are really close, aren't you?"

Qu Lanyi immediately nodded. "You're quite right. Fengfeng and I have always been this close."

Yun Feng took a deep breath. Seeing that, Qu Lanyi immediately jumped off Yun Feng and then whispered to her, "Fengfeng, you must show me your Rings of Contract when you have time."

Yun Feng glanced at Qu Lanyi, who winked at her cutely, as if she were telling her that it was impossible to keep any secret from her. Yun Feng heaved a helpless sigh. There was obviously something behind Kasa's uncanny friendliness, and Qu Lanyi was smart enough to think of the real reason. Yun Feng even suspected that Qu Lanyi had already sensed something earlier, although she never said anything.

"Right, Fengfeng, do you know that thing?" Qu Lanyi stood straight and asked in a low voice. Yun Feng frowned, and Mu Xiaojin thought for a moment, before she exclaimed, "Do you mean the cancellation of the individual ranking contest?"

"The individual ranking contest has been canceled?" whispered Yun Feng. Mu Xiaojin nodded, and Qu Lanyi frowned. "I wonder what happened. At first, the individual ranking contest was brought forward, but then it was canceled. I heard that the holiday has been brought forward too."

Holiday... Yun Feng realized that it had been more than two months since she came to the Masang School of Magic. The semester was almost over, and she could go home with her brother during the holiday! "Xiaojin, do you want to spend the holiday with me?" Yun Feng asked Mu Xiaojin. Mu Xiaojin blushed and nodded quickly.

"Fengfeng, that's unfair. I want to spend the holiday with you too."

Yun Feng became gloomy. "We're going home. You can go back to yours. Why do you have to tag along?"

Qu Lanyi chuckled. "I can't go home, so I have to spend the holiday with you, Fengfeng. It's a deal!" After saying that, Qu Lanyi turned around and left. Yun Feng looked at the woman's back with a helpless smile. It would be fine if she left without Qu Lanyi, but Qu Lanyi was strong enough to catch up with her, right?

The unexpected cancellation of the Masang School of Magic's individual ranking contest puzzled many students, who had expected more splendid games, but suddenly lost the opportunity. The school's explanation was that it was for a special reason, but didn't elaborate. In the next month, the atmosphere in the Masang School of Magic was rather dull. However, the students still discussed the society ranking contest now and then.

Yun Feng's ban from the Trial Tower had already expired. Her identity as a summoner was unknown to anybody in the school except Kasa and those around her. That was a relief for her. Apart from Kasa's behavior that was still a headache for her, everything else had been going well.

Yun Feng had enough crystals for her brother and Mu Xiaojin's cultivation. She spent a lot of time in the Trial Tower too. Although the element density here wasn't as good as in the Dragon Palace, it wasn't safe to use the Dragon Palace all the time here. Yun Feng went straight to above the sixth floor every

time. Many people looked at her enviously and pointed at her excitedly, “Do you see her? That’s Yun Feng!”

After rising to level 7, Yun Sheng entered another phase of hiatus. Although his phase body was quite shocking, the obstacle that he was faced with was the same as that for others. When he reached the peak of level 9, he would need an epiphany to rise to the Commander Level. That was a major obstacle that nobody could dodge or circumvent.

Yun Sheng had been cultivating diligently every day. He was also a center of public attention. Having risen to the sky in one step, Yun Sheng gave many people false hope in themselves. Not all of them had a phase body. In fact, there were only several dozen people who had such a body throughout the continent. While many people were disappointed, many more people admired Yun Sheng and considered him their idol.

In the following month, Yun Feng, Mu Xiaojin and Yun Sheng had been cultivating. Mu Xiaojin was making good progress too. As for Ling Xiaoyun who had never shown up again, Yun Feng simply forgot about him. Nothing eventful happened during the month. Finally, the holiday began. Mu Xiaojin had been very happy when the holiday approached. Had it not been for Yun Feng, she didn’t even know where she could go, and might have had to stay in the school. Yun Feng and Yun Sheng, naturally, would spend the holiday with their father, except that they were not returning to Chunfeng Town. They were going to the capital, where the Yun family used to belong.
