

Summoner 361

Chapter 361: This Opening Belongs to the Yun Family (4)

“Master.” Standing next to Yun Feng, Lan Yi ignored everybody else and waited for her order. “Bring my brother here.” The emperor frowned the moment Yun Feng said that. Kasa looked rather awful too. Lan Yi nodded and walked out. Next moment, it flapped its wings and disappeared.

“Your brother? Hehe. That’s really...” Kai smiled after hearing that. Yun Feng smiled at him. “If he is strong enough, would you decline him?” What she said gave Kai and the emperor no excuse to turn her down. Indeed. If her brother was stronger, why would the Karan Royal Family decline him? If they kept this level 4 mage on the team instead of him, they would be unreasonable.

Ximen Ying, as a student of the Masang School of Magic, was no stranger to Yun Sheng, but she didn’t know much about Yun Sheng’s recent transformation, or the Constellation Society’s matches. She snorted in disdain, as she remembered that Yun Sheng was useless. Seeing that, Kasa said in a low voice, “Yun Sheng has changed and become a lot stronger. Don’t be careless.”

Ximen Ying chuckled. “I’m in the mid stage of level 4. How much stronger can he be?”

Kasa couldn’t help but frown, and didn’t waste any time on her. As the princess, she could only give such a piece of advice, and if that woman didn’t listen, so be it. Very soon, Lan Yi returned with Yun Sheng, who was rather dizzy after being carried all the way here in the sky. He said to his sister jokingly, “Feng, you should ask Little Fire to fetch me next time.”

Yun Sheng landed and felt better. Yun Feng walked to him and briefly told him what happened. Then, she said to the emperor, “Your Majesty, let them have a match. The loser between them will be eliminated.”

The emperor wore a complicated expression. The Ximen family was the richest merchant in the Karan Empire, and provided infinite wealth for the royal family every year. Most of the royal family’s expenses were covered by the Ximen family. This arrangement was supposed to be a favor for the Ximen family, because Yun Feng had promised to help Karan win the contest and Ximen Ying didn’t have to do anything. The royal family had made the great plan of letting Yun Feng return the favor without them doing anything.

Yun Feng didn’t think that much. She simply wanted an opening, but she accidentally ruined the Karan Royal Family’s favor that they were trying to return. How should the Karan Royal Family explain to the Ximen family? Saying that Ximen Ying was eliminated because she was too weak would be humiliating... The emperor thought for a long time. It was obviously impossible to change Yun Feng’s mind. This was quite a dilemma. If they refused her, it would hurt the Karan Royal Family’s dignity too.

“Alright, you will have a match. The loser will be eliminated immediately.” The emperor’s eyes glittered. If Ximen Ying was eliminated, the Karan Royal Family would just blame it on the Yun family, and let the Ximen family deal with the Yun family. That would be a great idea.

Ximen Ying walked out. Yun Feng smiled and looked at her big brother. They were thinking the same: to take her down, one attack would be necessary.

Everybody looked at Ximen Ying and Yun Sheng curiously, wondering how strong Yun Feng's brother was. There was nothing but mockery in Ximen Ying's eyes, but Yun Sheng simply smiled. Yun Feng stood aside with Lan Yi casually, knowing that her brother would surely win.

"Alright, you may have a match," said the emperor from the throne. He waved his hand, implying that they could begin. Ximen Ying snorted. Without further ado, a green ball of light appeared in her hand. Yun Feng slightly frowned, as the wind element was quite rare.

"You can't catch up with me." After Ximen Ying said that, the wind element in her hand enshrouded her body and made her much more agile. Lan Yi sneered, "What a petty trick." Yun Feng laughed too. For Lan Yi, Ximen Ying was truly as slow as a snail.

Yun Sheng didn't say anything. The blue water element was gathered in his hand again. Ximen Ying suddenly moved. "Yun Sheng, can you catch up with me?" Ximen Ying flashed in the sky, and thought that she was very fast. However, everybody else saw her movement earlier. Some warriors already couldn't stop themselves from laughing, as Ximen Ying was almost like a clown.

The water element in Yun Sheng's hand emitted icy blue light. He saw Ximen Ying clearly, and didn't move at all, as if he was giving Ximen Ying an opportunity to attack. As expected, Ximen Ying simply roared, "Wind Arrow, go!" A green streak of light darted from Ximen Ying to Yun Sheng, who smiled with the water element ready in his hand.

"Water Arrow, go!" Yun Sheng roared, gathering the water element in his hand into an arrow, which collided into the incoming Wind Arrow. The two different types of magic elements confronted!

The Water Arrow and the Wind Arrow collided, with the arrowheads hitting each other precisely. The moment of the collision, the blue Water Arrow destroyed the green element. "Boom!" An explosion burst out from the sky, making Ximen Ying a lot paler. She saw that her Wind Arrow had already been destroyed by the Water Arrow, and the Water Arrow was still flying towards her rapidly!

Ximen Ying gritted her teeth and tried to move with the wind element. However, the Water Arrow was even faster than she expected. It had reached her before she was able to move!

"Break." Yun Sheng mumbled. The Water Arrow fell apart in front of Ximen Ying, and the blue element floated and dispersed very soon. Ximen Ying stood in a daze, unable to say anything. Her heart was racing. The Water Arrow would've pierced her if Yun Sheng hadn't broken it!

Chapter 362: To the Cashya Empire (1)

The winner was obvious. Ximen Ying palely stared at Yun Sheng. Wasn't that man famous for being worthless? When did he become so strong? Why was the gap between them so huge?

Seeing that, the emperor coughed and glanced at Ximen Ying, as if he was greatly disappointed at her performance. Ximen Ying awkwardly backed off. It seemed that she wouldn't get to participate in the international contest anymore.

"The Yun family's descendants are truly extraordinary. Not bad, not bad." The emperor praised Yun Sheng and looked at him with a smile. Yun Sheng replied, "You flatter me, Your Majesty." He then stood next to Yun Feng. If his sister hadn't let him cultivate in the Dragon Palace, he probably would've been stuck in level 3. This was all thanks to Yun Feng.

“Alright, there should be no objection anymore, is there?” The emperor looked around and stared at Yun Feng. Yun Feng showed that she had no objection. After being eliminated, Ximen Ying walked out, blushing and embarrassed. After she left, the teams for the international contest were established.

Kai stood up and, gazing at the ten excellent boys and girls, opened his mouth. “The international contest is where the four countries show their strength, and where the young people of those countries compete. Always remember that you represent the Karan Empire! There are amazing geniuses in other countries too, but don’t be intimidated. Just try your best. Whatever you get in the end, Karan will be proud of you!”

That was quite a nice speech, but Kasa simply snorted in disdain. Kai continued, “The contest will be held in the Cashya Empire instead of Karan. I will go with you. However, you will also need a leader, who must be strong and meticulous, so that Karan won’t suffer any loss in dealing with other countries. I think Kasa is perfect at doing that.”

Kasa put on a smile, and Yun Feng smiled too. As a member of the royal family, Kasa was most suitable for the post. Otherwise, the other three countries might despise the teams because their leader wasn’t from the royal family.

Without any objection, Kasa became the leader. The emperor smiled, and Kai continued, “In the international contest, the matches for warriors and those for mages are separate. Each of the teams will need a captain. Now, elect one.”

The warriors soon had an answer. Undoubtedly, Murong Yuntian became the captain of the warrior team. On the mages’ side, everybody fixed their eyes on Yun Feng, but Yun Feng pursed her lips and said, “Don’t look at me. I won’t be the captain.” Qu Lanyi chuckled. “If Fengfeng doesn’t, let’s elect Yun Sheng. Do you have any doubt about his strength?”

The girl named Siqi shook her head. Kasa stood with an awkward expression. It suddenly occurred to her that she was being isolated in this team. Yun Feng, Yun Sheng and Qu Lanyi were on the same side, and she didn’t know Siqi very well. She didn’t really have any followers in the team.

There was no objection. Or rather, the objection that someone had was simply ignored. Yun Sheng became the captain of the mage team. He smiled awkwardly. He had just come here, yet he became the captain. His sister should be more suitable for the task, but she didn’t seem interested in the job.

Now that the captains of both teams had been elected, the emperor said, “The two captains must listen to the leader’s command. You must stick together!”

As the leader, Kasa naturally had the greatest power, and the respect that she deserved. Then, there were weapons. The royal family was rather generous in that aspect. They gave a weapon that corresponded with the contestant’s strength to everyone. Murong Yuntian had the most awesome weapon, which had nine holes and nine crystal cores, and all nine crystals were level-5 Magic Beast cores. That weapon could significantly strengthen him. Yun Feng, unwilling to confess her real strength to the Karan Royal Family, declared that she was level 7, and so did Qu Lanyi. Her brother didn’t conceal his strength. As the captain, he had to be strong enough to awe others.

On the mages' side, Kasa, being in level 6, ranked second to last, which made her blush again. Yun Feng didn't grab a new wand, but simply added a few holes to it. At this moment, such holed weapons weren't too useful for her anymore. She had to build a Commander Level fused weapon someday.

She didn't intend to replace the crystal cores on the weapons that the Karan Royal Family offered, certainly not on such an occasion. She knew that she shouldn't expose her wealth easily. She could always upgrade her weapon after she won the contest and started exploring the relics.

There were three days to go before they left for the Cashya Empire, and a month until the international contest. However, the four empires were all used to sending their representatives early, partly to familiarize them with the arena and partly to familiarize them with the representatives of other countries. There was no telling if they had other purposes.

In three days, they would set off. Yun Feng didn't go anywhere during the three days. She read the notes that her master left behind carefully. The Cashya Empire was most famous for its ore production. It was said that it boasted more ores than all the other three empires did together. Compared to the Cashya Empire, the Karan Empire was rather barren. It must be quite greedy about the Cashya Empire.

Thanks to the abundant ores, the Cashya Empire was stronger on average. Its royal family was stronger than the Karan Empire's too. Reading her master's description of the Cashya Empire, Yun Feng was rather surprised. She was even more surprised to find that the Cashya Empire was the only empire that had a summoner!

Chapter 363: To the Cashya Empire (2)

Yun Feng closed the notebook in her hand. The Cashya Empire was powerful enough to swallow any other country with its ores and summoner. It was a shame that it didn't. The reason why the Cashya Empire didn't do anything was the pressure from other aspects, such as the Mercenary Union, which maintained the balance of the four empires on the East Continent, and other unknown forces. The check and balance of the four empires was a good thing. If one country became too powerful, a lot of people's interests would be affected.

Yun Feng heaved a sigh, and Meatball jerked on her shoulder. She had grabbed Meatball and put it on her shoulder. Meatball seemed rather angry, and glanced at Yun Feng pitifully. Yun Feng laughed and stroked it with a smile. How strong was the only other summoner in the four empires? She really wanted to find out.

Three days passed in the blink of an eye. During the three days, Yun Sheng consolidated himself again. Qu Lanyi seemed to be the most carefree one, and didn't do any preparation. They went to the royal palace together, and saw a lot of people waiting at the gate. Everybody was here except Kasa. The emperor and Kai also hadn't come yet. They probably had to wait for a while longer.

"Yun Feng!" Hearing Ze Ran's voice, Yun Feng walked to him with a smile and chatted with him. While they talked, she felt that someone was looking at him with scorching eyes. She unconsciously looked back, only to see Murong Yuntian turning his head away. She pursed her lips.

“Yun Feng, we’re going to the Cashya Empire. I’m so curious!” said Ze Ran in excitement. Yun Feng smiled. “I’m curious about the Cashya Empire too.”

Both of them smiled in delight. Soon, Kasa walked out unhurriedly, followed by the emperor and Kai. “Alright, come with me,” said Kai. All ten contestants followed Kai to a spacious area that was empty. Soon, noises came from the sky. Everybody looked up, and exclaimed in astonishment, “Griffins!”

Four griffins were flapping their wings and approaching from the sky, until they all landed. With their eagle heads and lion bodies, the griffins looked quite awesome. They had brown feathers on the upper half of their body and white ones on the lower half, which was contrary to Lan Yi’s. They were much smaller than Lan Yi too. Lan Yi’s original body was twice as large as any griffin.

The four griffins stood intimidatingly. Their claws were sharp, but they weren’t threatening at all. Such Mounts were mounts as best, and couldn’t attack anyway. It wasn’t surprising that the royal family had flying mounts. The royal family was evidently quite generous.

Yun Feng observed the griffins quietly, and noticed that someone was staring at her. She unconsciously glanced at Murong Yuntian, only to discover that it wasn’t him. At this moment, Murong Yuntian was attentively staring at the griffins. She suddenly looked up, only to see a man standing on the top of one of the griffins, and the man was gazing at her.

“Sangqu, you’re here!” Kai greeted him. Hearing the name, Yun Feng remembered that he was the middle-aged man who intervened in the battle between her and Kasa. He seemed to have told her to find him in the capital if she ever came. However, she had completely forgotten about that.

“Prince Kai, if they’re ready, just let them come up. It’s time that we set off.” Sangqu smiled and looked at Kai, who nodded and commanded them to board on the griffins. Sangqu and Kai each took a griffin, and the warrior team and mage team each took one. Although the griffins weren’t large, they could still accommodate five people, even though they wouldn’t have a lot of space activity.

The warriors all jumped to a griffin’s back. All five young men were excited. Murong Yuntian was no exception. Kasa glanced at Yun Feng and then walked towards a griffin. Yun Feng, however, stayed where she was. That griffin wasn’t bad, but she didn’t really like it.

“Fengfeng, I don’t want this griffin. It’s so tiny,” said Qu Lanyi in a low voice. Fortunately, nobody from the royal family heard her, or they would’ve been infuriated. Flying Magic Beasts were rare and precious. Yet, she despised the griffins and thought that they were too small. The emperor would’ve definitely been angered.

Yun Feng glanced at Qu Lanyi and smiled. Since they had their own vehicle, why bother using someone else’s? Lan Yi was summoned and realized Yun Feng’s intention. It was wreathed in a circle of green light. The people on the griffin all looked at her curiously, and knew that as a summoner, she definitely had her Magic Beasts. If they remembered correctly, Lan Yi had wings. Then what would its original form be?

Sangqu, standing on the griffin’s back, narrowed his eyes. After a flash of green light, the griffin’s enormous body appeared in front of everybody. The other griffins, which had been obedient, became anxious. One of them even flapped its wings and tried to fly away!

Everybody was astonished to see Lan Yi's original self. Griffins were very rare. Most people had only seen their illustrations, and not a real one. Lan Yi was even a strong four-winged griffin with a pure bloodline. It was only natural that those griffins panicked.

"So—So beautiful..." One of the warriors in the team mumbled in fascination. "It's so awesome..." Another warrior whispered too.

Both the emperor and Kai were amazed by Lan Yi. Greed arose in their heart. How great would it be if the royal family could have such a flying mount, especially on occasions like today?

Kasa was stunned and then infuriated. Yun Feng truly had the best stuff in every aspect. Her Magic Beast was so awesome. Compared to her griffin, the other griffins were like chickens!

Chapter 364: To the Cashya Empire (3)

Translator: Henyee Translations **Editor:** Henyee Translations

Yun Feng, Yun Sheng and Qu Lanyi jumped to Lan Yi's back. Kai dropped a hint at Kasa. Kasa blushed, but gritted her teeth, hoping to join them. Seeing that, Yun Feng said coldly, "Princess Kasa, your griffin is over there."

Kasa stood with a reddened face. Then, Kai walked to them. "Yun Feng, since you're on the same team, and Kasa is your leader, it's nothing inappropriate for her to take the same Magic Beast as yours, right?"

Yun Feng sneered. The Karan Royal Family was truly shameless. Did they think that they could ride Lan Yi? Even if she accepted, Lan Yi wouldn't! She smiled and said, "Alright, if Princess Kasa isn't afraid of falling from the sky halfway, come on up."

Kai changed her expression, and Kasa's face was even redder. Indeed, she wasn't that shameless. She wouldn't have even come if Uncle Kai hadn't asked her to! "Siqi, come with me!" Kasa shouted, and the timid girl who had freckles nodded and looked at Lan Yi enviously. She then followed Kasa to the griffin.

Kai smiled awkwardly, and boarded on another griffin. When everybody was ready, the four griffins flapped their wings and took off under his command. Yun Feng had planned to invite Ze Ran, but it might make his teammates reject him, so she didn't. As for Siqi, it seemed that Kasa had found herself a follower in the past three days.

"Lan Yi, keep up," Yun Feng gave an order. Lan Yi unfolded its gigantic wings. The mysterious pattern on the wings was exceptionally beautiful. A blue streak of light crossed the sky. Very soon, it caught up with the other four griffins, which were all rather nervous. Those griffins were too slow for Lan Yi.

There was a major contrast between the enormous beautiful griffin and the small ones. Everybody stared at Lan Yi earnestly, fascinated by its beauty. Yun Feng and her companions were seated on Lan Yi's back comfortably. Kasa and Siqi had enough space on their griffin too. However, the warriors were rather crowded on their griffin.

"How I envy her. As expected of a summoner. She's truly extraordinary." A warrior looked at Lan Yi and Yun Feng in fascination. "She's also so beautiful. I'll have no regrets in my life if I can marry a woman like her."

“In your dream. Brother Yuntian is the only one who is suitable for that summoner,” someone adulated Murong Yuntian loudly, but it didn’t work out as expected. Murong Yuntian was painfully reminded of the arranged marriage between him and Yun Feng, and hated his family for ruining it.

Ze Ran had been watching Yun Feng quietly. He quietly clenched his fists. Was he closer to her now, or further? She was already a summoner. He must work harder to keep up with her. He turned his head aside and looked at Murong Yuntian, only to find that the man had been staring at Yun Feng. He lowered his head.

Kasa had been angry since she jumped on the griffin’s back. Although Siqi had come with her, she obviously envied her other teammates. Kasa shouted angrily, “What are you looking at? Do you think a flying Magic Beast is remarkable? The royal family has a lot too!”

Siqi withdrew her gaze and stopped talking. Kasa gritted her teeth in fury and turned her eyes to Murong Yuntian. When she found that Murong Yuntian was gazing at Yun Feng, Kasa was infuriated. Yun Feng, Yun Feng, do you think you’ll always be so lucky as to have everything great? Just wait for it! Kasa laughed with a twisted face, which diminished her grace as the princess. Before the international contest, an undercurrent was already flowing in the teams.

The Cashya Empire was located to the east of the Karan Empire. Each of the four empires had two neighboring empires, so they all kept the same pace in any event. The trip from the Karan Empire’s capital to the Cashya Empire’s would take about five days. Lan Yi could cover it in two days, but Yun Feng wasn’t in a rush. She simply followed the rest of the griffins. After two days, they passed the Karan Empire’s border and entered the borderlands between the two empires. The moment they entered the territory, Yun Feng felt a depressing vibe. She looked down, but there were clouds that blocked her eyesight and prevented her from seeing anything clearly. However, the depressing vibe lingered. Lan Yi sent a thought.

“Master, we have unexpected guests here.”

Yun Feng furrowed her brows. She remembered her master’s description of the Cashya Empire about the areas in the south and west of the Cashya Empire, which were isolated and not habited by human beings. Gradually, Magic Beasts had taken up those areas.

Unexpected guests... They must be the Magic Beasts that rested here... Hardly had the idea occurred to Yun Feng when she detected the changing air current. “Swoosh! Swoosh! Swoosh!” Noises came from the clouds down below. The four griffins were all shocked, and flew even more vehemently. “Pull yourselves together, and be prepared for battle!” Sangqu’s voice came from the sky. The five warriors on the griffin’s back were immediately prepared for battle. Kasa seemed nervous, and Siqi seemed even more terrified.

“Swoosh! Swoosh! Swoosh!” More and more noises were echoing. Gradually, the four griffins halted and wouldn’t fly any further. Sangqu and Kai were both nervous. At this critical moment, the Magic Beasts that only served as mounts couldn’t fight at all!

Earsplitting noises were coming close, mixed with the sounds of flapping wings. The clouds down below suddenly dispersed. All of a sudden, a swarm of creatures darted upwards. Seeing that, both Sangqu and Kai became pale. “We’ve met bloodthirsty bats... And there are so many...” said Sangqu with a shivering

voice. He quickly glanced at others. The griffins were already too scared to move further.. The swarm of creatures was exclusively made of bats that had protruding fangs on their scary faces.

Chapter 365: To the Cashya Empire (4)

“Everybody, be prepared for battle!” Sangqu shouted. Then, the swarm of bats surged towards them like a tide and a huge dark cloud. Yun Feng gently stroked Lan Yi’s back. Lan Yi immediately realized what she meant. It flapped its wings, with scary light in its blue eyes. “Scumbags, get out of my way!”

A fierce air current was launched towards the bats, blowing some of them away. The bats seemed to be completely infuriated. They all roared and lunged at the griffins. Seeing that, Kasa shouted gloomily, “Yun Feng, see what you’ve done?”

The five warriors had already started fighting, and so had Sangqu and Kai. Hearing Kasa’s exclamation, Yun Feng simply turned around and smiled at her in disdain. Then, Lan Yi dashed forward and disappeared. Kasa couldn’t help but shout aloud, “Yun Feng, you coward! You’re escaping!”

Kasa’s voice echoed in the sky. The others had no time to care if Yun Feng was running. They had to defend against those tricky bats. Kasa tried to stand up, “Fire Arrow, go!” She launched plenty of Fire Arrows to the bats, only to no avail. She became quite anxious, and remembered Yun Feng again. She bit her lips hard. She wanted to run too, but the griffin didn’t listen to her command.

“Those bats won’t go away. What do we do, Sangqu?” While killing as many bats as possible, Kai roared. The number of bats didn’t seem to be changing at all. Countless more bats seemed to be joining. They would all be worn out very soon!

Sangqu gritted his teeth. “We can always jump off!”

Jump off? Karan Empire was stunned for a moment. He and Sangqu would be fine, but the kids wouldn’t be. Murong Yuntian, whose level was highest, was only in level 9, and couldn’t stay airborne at all. He would be killed in the fall! If all the Karan Empire’s contestants were killed before the contest started, the Karan Empire would be a laughingstock!

“What do we do? There are too many of them!” One of the warriors punched a few bats apart and asked angrily, “Isn’t Yun Feng a summoner? Where is she? She didn’t really escape, did she?”

“Yun Feng is not a runner!” Ze Ran roared and shattered a few bats. “I trust her!”

Murong Yuntian took out his weapon and waved it with a combat technique, eliminating hundreds of bats. He took a deep breath and said solemnly, “I trust her too. She won’t escape.”

“You...” The other three warriors were all rather stunned. It was a fact that Yun Feng was already gone. What could she do if not running?

“Fire Field, rise.” When everybody was caught in panic and desperation, they heard a pleasant voice. They couldn’t help raising their heads, but were unable to see anything except the swarm of bats. Still, they were sure that they heard it right!

“It’s Yun Feng!” Ze Ran shouted aloud. Sangqu and Kai were greatly relieved. Murong Yuntian put on a smile, and waved his weapon fiercely again. “She won’t run away. Never.”

After Yun Feng's declaration, bright red appeared in front of everybody's eyes, and they felt a scorching heat. The sky instantly turned into an ocean of flames. Countless sparks were dancing. The fire swallowed the bats, which screamed and tried to fly away, only to be seized by the fire. They couldn't escape!

The bats that couldn't be eradicated were all swallowed by the flames and turned into ashes. When they disappeared, everybody saw the slim and beautiful girl who was standing on the giant beautiful griffin. She smiled like a natural-born queen, and her aura was accentuated by the flames around her. She was none other than Yun Feng!

The Fire Field was an advanced spell of the fire class. In the space surrounded by fire elements, the bats were eaten up by the fierce fire elements. All of them were burnt into nothingness amidst screams. Yun Feng waved her hand and dismissed the fire elements. Seeing that, everybody else was finally relieved. Kasa sat down with sweat all over her head and face. Her body was shivering too.

She had had field trips in the Masang School of Magic too, but the Masang School of Magic wouldn't let any crisis happen to the students. The incident just now was completely different. If Yun Feng hadn't attacked, they wouldn't have been able to do anything except to jump off. She knew exactly what the result of the jump would've been. She was still quite scared after the narrow escape.

"Is everybody alright?" asked Kai loudly. Everybody nodded. Lan Yi hovered for a moment and descended to the other four griffins, which had come back to themselves and were able to move. Qu Lanyi simply smiled, with infinite mockery in her eyes against everybody who just survived.

"If we're all fine, let's resume the trip," Kai said. Sangqu nodded and led the griffins onward. Maybe because Yun Feng's attack was too obvious, they didn't endure any other Magic Beasts' attack on the way. It was quite smooth.

Although they didn't endure another attack, they had been quite vigilant and cautious. Yun Feng, on the other hand, remained casual and relaxed. They enjoyed the scenery below from Lan Yi's back.

It was not until they reached the Cashya Empire's border that they were finally relieved and felt that they were safe. Sangqu took a long breath, and looked at Yun Feng on Lan Yi's back. He couldn't help but put on a bitter smile. That kid was truly...

Kai was greatly relieved too. The griffins flew onward. After another two days, they finally reached the capital of the Cashya Empire. They were about to enter the capital, when two soldiers who rode hippogryphs stopped them.

Chapter 366: Chaotic Battle (1)

"Foreign flying mounts aren't allowed to enter the capital. Please land and proceed on foot."

Kai nodded. The four griffins landed. Because Lan Yi was too big, it had to fly further before it landed. Yun Feng and her companions jumped off when it approached the ground. Then, Lan Yi turned into a streak of light that disappeared into her Ring of Contract. Then, Yun Feng threw the Ring of Contract into her bracelet and walked forward.

"Please give your griffins to us. We'll look after them for you," one of the city guards said. Sangqu nodded. Kai had reported their identity. They were respected as honorable guests. When Yun Feng

came close, the city guard looked at her and asked curiously, "Where's the last flying mount? Please give it to us, miss."

Yun Feng's lips cramped. You want to have Lan Yi? "That's unnecessary. It can just fly around here for a while." Yun Feng waved her hands and walked in. The city guards were all stunned and looked at each other. One of the soldiers asked in a low voice, "Is that... allowed?"

"I don't know. It's not stipulated that they must give the mounts to us. It's fine as long as the mounts don't enter the city..."

"Okay then. But we will have to intervene if your mount flies into the city."

Yun Feng nodded and didn't say anything. Kai didn't say anything either. Yun Feng's identity as a summoner was supposed to be kept a secret until the international contest. Once it was exposed to the other three empires, she wouldn't be a trump card in the contest.

Yun Feng never liked to swagger around. She didn't like wearing the Ring of Contract either, which was the symbol of a summoner. She was perhaps the most low-profile summoner in history.

They entered the Cashya Empire's capital on foot. The Cashya Empire's capital was very similar to the Karan Empire's. Their architectural styles were similar too, and they were equally busy. Very soon, a crowd of people, led by a tall young man in luxurious clothes, walked to them. The young man greeted Kai with a gentle smile. "Uncle Wang, I hope the trip wasn't too exhausting."

Kai smiled. "Carson, you've grown much taller than you were when we last met."

The young man smiled. "Uncle, come with me. My father is waiting for you."

Kai smiled and walked in the lead with the young man. The others all followed them. Qu Lanyi whispered to Yun Feng, "Another arrogant noble."

Yun Sheng raised her brows curiously, as if he was puzzled. Yun Feng smiled. "Just now, this Carson only greeted Kai and simply ignored everyone else."

Yun Sheng smiled and petted Yun Feng. Kasa followed Kai, feeling insulted. She was Carson's peer, and a royal princess. Why didn't he even bother to greet her? It almost seemed that she was redundant here.

Under Carson's lead, they arrived at the royal palace, which was quite enormous too. After they came in, Carson said to a soldier, "Take those people to the place we prepared. Uncle Kai, please come with me." Carson smiled at Kai, who nodded and followed him.

"Guests, please come with me," said a soldier solemnly. Sangqu nodded. Regarding Carson's nonchalance, he didn't seem upset or embarrassed at all even though he was just as old as Kai. Kasa, on the other hand, blushed and felt insulted.

The soldier led everybody to a spacious yard. Yun Feng looked around and saw another two yards not far away. It seemed that the contestants of the other two empires would reside there.

"Guests, you will live here during the contest. The contestants of the other empires will be your neighbors. You may go there now."

Sangqu led the ten kids into the yard. The soldier then left. This was a free area without any guards. That was the Cashya Empire's special arrangement.

After the Karan Empire's representatives walked in, one of the boys who were standing on the high wall of the yard next to the Karan Empire's asked in a low voice, "Young Master Muqing, how strong are they?"

A boy who was handsome and had fair skin frowned. He seemed quite weak, if not sick. He frowned, and another boy laughed. "What's there to worry about? How can they be stronger than Young Master Muqing?"

The other kids all smiled too, and looked at the weak boy confidently. The boy opened his mouth and whispered, "There's one of them that I cannot see through."

"Even Young Master Muqing cannot see through them? Has the Karan Empire sent a real expert here?" asked a boy with an awful expression. The others looked anxious too. Muqing smiled and landed on the ground agilely. The others jumped off the wall too. Muqing went back without saying anything, but his companions were quite nervous.

Yun Feng glanced at the wall. She had keenly detected that a few strangers were examining them from there. She thought for a moment and suppressed her strength to level 7. After the examination was over, they all left.

"Fengfeng, how strong are they?" Qu Lanyi lowered her back and whispered to Yun Feng's ear. Yun Feng smiled. "Not too bad."

Qu Lanyi smiled and didn't say anything else. They were the only two who noticed the observers. The others were not nearly as sensitive as Qu Lanyi and Yun Feng, who were both on the Commander Level. There was just no telling which the country the observers were from. Yun Feng smiled. Never mind. She would meet them sooner or later.

All the contestants from the other three empires had absolute freedom. They could enter the royal palace without any restriction. That was the Cashya Royal Family's respect for the other three empires. It was probably confident enough to give such freedom because it was the only empire who had a summoner.

Chapter 367: Chaotic Battle (2)

Yun Feng didn't intend to waste all her time in this yard. In order to win the contest, she had to know her opponents well. It would be best if she fought them before the contest. Yun Feng made up her mind and walked out. Seeing that, Yun Sheng asked, "Feng, you're going out?"

Yun Feng smiled. "Big brother, you should come together. It's our first trip to the Cashya Empire. We should take a tour."

Yun Sheng nodded. He certainly would support his dear sister's decision. Hearing that, Qu Lanyi came too. "Wherever you're going, Fengfeng, I'm coming with you."

Seeing that, Ze Ran ran to them too. "Yun Feng, are you going out? Take me with you."

Yun Feng nodded. They were about to go out, when Murong Yuntian approached and gazed at Yun Feng. "Take me with you."

Yun Feng didn't say anything. If he wanted to tag along, so be it. He was free to do that anyway. Seeing that Murong Yuntian joined the team too, Kasa became anxious and strode over. "Yun Feng, where are you going? This is the Cashya Empire, not Karan!"

Yun Feng glanced at Kasa and simply passed her, ignoring her completely. So did the others. Kasa was so angry that her face turned red. "Yun Feng, I'm the leader! You will stay here! You're not going anywhere!"

Yun Feng paused, and Murong Yuntian frowned. "Kasa, are you overstepping the boundaries?"

Kasa was even more upset when Murong Yuntian scolded her. She burst into an outrage. "I'm the leader! You must listen to my command! Nobody is going out!"

Yun Feng sneered and walked forward. Qu Lanyi glanced at Kasa sarcastically. The others also followed Yun Feng out. Kasa stomped in fury. "Yun Feng! If you don't listen to my command, I will disqualify you for the contest!"

Qu Lanyi laughed the moment she heard that. "Princess Kasa, if Fengfeng is not participating in the game, you can just disqualify me too."

Kasa was stunned. She glanced at Qu Lanyi and gnashed her teeth in fury. Disqualify them? She certainly knew she couldn't do that. It was just a threat. However, those people simply disregarded it.

"Whatever." After saying that, Yun Feng vanished from the yard. Qu Lanyi followed her with a smile, and so did the other three companions. They ignored Kasa's threat. The rest of the contestants slowly moved out too. Kasa was quite infuriated to see that. "You're going out too?"

"Your Highness, well... it's not a big deal to go out, right?" After saying that, the other contestants all ran out. They were no idiots. Why would they be intimidated? Siqi timidly stood behind Kasa, and eagerly looked out of the yard, but she didn't go out in the end. Kasa stood in the yard, with her face half pale and half red. Those people had no respect for her as the leader at all!

"Hey, is she a princess of the Karan Royal Family?" A voice suddenly came close. Kasa raised her head, and saw a few men on the wall. "Who are you?"

"Tsk, ts. You're even the leader. It seems that your teammates aren't very obedient," said another mocking voice. Kasa looked even more awful. "Who do you think you are to judge me?"

"It's pointless to talk to her. Let's go," said the weak young man in boredom. He then flashed from the wall to the outside of the yard. His followers all laughed and looked at Kasa thoughtfully. Then, they all flashed out.

Kasa was embarrassed by her teammates' disobedience to begin with, and now she was mocked and insulted by outsiders. She clenched her fists. "Yun Feng! I've been humiliated because of you again!"

Yun Feng and her companions walked out of the royal palace. They didn't run into any contestants of the other three empires. Those contestants should be easy to recognize, as they were all strong young people.

They walked for a while and came to the busy streets in the capital. There were plenty of stores on the streets, and they all seemed to have a thriving business. Yun Feng looked at the stores curiously. The other four people all followed her. None of them were in the mood for shopping. They all gazed at her back. She was so slim that they all felt protective of her, yet she was too strong to need any protection.

Yun Feng walked in the lead with her brother, talking and laughing. She proposed to buy something for Mu Xiaojin, and Yun Sheng agreed. The other three people followed them quietly. Murong Yuntian had been gazing at Yun Feng the whole time. The longer he gazed, the less willing he was to let go of the girl.

All five of them were attractive. Qu Lanyi and Yun Feng, in particular, attracted a lot of attention for their beauty. The guys were quite handsome too, and made a lot of girls' hearts race. They became the center of attention on the streets, but they didn't consider it a big deal. Yun Feng came to a store that sold jewelry, and found a cute jewel that was very suitable for Mu Xiaojin in the window. She opened the door and walked in.

"Boss, how much is that jewel?" asked Yun Feng. The boss replied with a smile, "Miss, you have keen eyes. It's the best seller in my store. It's the only one left in my store now. Fifty gold coins."

Fifty gold coins were rather expensive, but not really a big deal. "I'll take it," said Yun Feng. The boss reached for it with a smile. At this moment, someone opened the door again, and said in an adorable voice, "Boss, I'll take that jewel."

Yun Feng turned back, and saw a sweet-looking girl entering with three boys. The boss said, "How unfortunate. This young lady has already picked the jewel."

Chapter 368: Chaotic Battle (3)

Hearing that, the girl frowned. "If so, give me another one."

The boss smiled awkwardly. "This is the last one in my store."

The girl became cold, and a boy behind her said to Yun Feng with a smile, "Miss, can you give this jewel to us? We can pay you fifty more gold coins."

Yun Feng raised her brows, and took the jewel from the boss. She played with it in her hand and then smiled. "Sorry, I'm not selling it."

"Miss, we..." The boy was going to continue, when another boy stopped him and shouted angrily, "Why bother wasting time on her? Who's interested in such garbage? Xiaoxiao certainly isn't!"

"Just go away if you can't get it. Why bother talking?" mocked Qu Lanyi. The short-tempered boy was immediately infuriated, "What did you say, bitch?"

"Watch your mouth!" Yun Feng glared at him, and the boy became solemn. Sparks seemed to be rising in the store. Seeing that, the boss couldn't help but step back. The sweet-looking girl glanced at Yun Feng and waved her hand. "Never mind. I'm not interested in that. Let's go."

The sweet-looking girl pushed the door and walked out. The three boys who followed her left too. The boss was quite relieved to see that. After paying the money, Yun Feng put the jewel in her bracelet. She then left the store and stared at the strangers who had left earlier.

“Fengfeng, what’s on your mind?” Qu Lanyi approached her and asked in a low voice. Yun Feng replied, “They must be the contestants from one of the other three empires. How can we not fight them now that we’ve bumped into them?”

Qu Lanyi chuckled and winked. “Do you need my help?”

Yun Feng turned around and put on a mischievous smile at Qu Lanyi. “If you voluntarily offer it.”

Qu Lanyi was dazed for a moment. Then, she chuckled and caressed her finger on Yun Feng’s cheek. “Fengfeng, you’re getting better at flirting.”

Yun Feng had goosebumps all over her body. She moved closer to her brother. She never felt comfortable when Qu Lanyi was around. Qu Lanyi was just a woman, yet she always felt awkward when they were together, as if she was suppressed by her.

Yun Feng followed the strangers unhurriedly while they went shopping. Ze Ran and Murong Yuntian realized Yun Feng’s purpose, and both felt puzzled, wondering why Yun Feng was following them.

They zigzagged with the strangers until they reached a remote corner where few people passed by. Yun Feng stopped, as the four strangers ahead of her had turned around and walked to her. “Why are you stalking us?” asked the sweet-looking girl, frowning. The other three guys all seemed vigilant.

Yun Feng shrugged. “We happen to have the same destination.”

“Is this place your destination? Do you take us for fools?” roared the short-tempered boy, who gazed at Yun Feng furiously.

“Do you have to admit it so quickly?” Qu Lanyi added, chuckling. “We never said you’re idiots; you voluntarily admitted it.”

“What did you say?” The short-tempered boy was exasperated, and was about to dash forward, but the girl stopped him. “Have you forgotten our teacher’s reminder!”

“But they’re too outrageous!” snorted the short-tempered boy, before he finally moved back. Yun Feng couldn’t help but heave a sigh. What a shame. She almost had an excuse to fight back. That girl seemed quite patient.

“You’re the Karan Empire’s contestants, right?” asked the girl. Yun Feng raised her brows, but didn’t say anything. The girl smiled. “We’re the contestants of the Shengyao Empire. It’s an honor to meet you.”

The Shengyao Empire... Yun Feng mumbled to herself. She suddenly extended her hand. “Fire Arrow, go!” Before everybody realized what was going on, an arrow made of fire elements had darted towards the girl!

What’s she doing? Yun Sheng, Ze Ran and Murong Yuntian all widened their eyes. The Fire Arrow was so fast that the girl couldn’t react at all. “Asshole!” One of the guys roared and slashed his long saber, cutting the Fire Arrow apart one meter in front of the girl, causing a huge explosion.

The short-tempered boy glared at Yun Feng furiously. The other people realized what was going on too. The girl suddenly became cold. "What are you doing? Just attacking me for no reason?"

Yun Feng chuckled and gathered fire elements in her hand again. Seeing that, the girl became even grimmer. The boys behind her all took out their weapons, ready for battle!

Yun Sheng, Ze Ran and Murong Yuntian were puzzled at Yun Feng's behavior, but they were ready for battle. Now that Yun Feng had started the fight, they might as well join it!

With fire elements hopping in her hand dazzlingly, Yun Feng smiled. "It's just Karan's way of saying hi."

Did the Karan Empire ever have such a way of saying hi? Yun Sheng and the others were completely stunned. The girl became completely gloomy, "If so, we have to say hi back to you in exactly the same way."

Yun Feng smiled. "Be my guest."

The girl was silent for a few seconds. It was obvious that a fight was inevitable. Those people were clearly trying to infuriate them. If they retreated, those people would only catch up. If so...

"Let's warmly greet our friends from Karan. Attack!" At the girl's order, all three boys showed their weapons. "Xiaoxiao, it's about time!" The short-tempered boy shouted excitedly. The girl frowned. "Careful!"

Chapter 369: Chaotic Battle (4)

An attack of fire elements was launched towards them with scorching heat. All of them dodged. The attack hit the ground, blackening a large area. All of them frowned. The girl considered for a few seconds, and soon made a decision. "She's a level-7 mage. Let me fight her! The rest are yours."

"Alright!" All three boys roared at the same time. Inside the girl's hand, purple elements were seething. Yun Feng raised her brows. Oh? The lightning element?

"Four versus four. Let's be fair," said Yun Feng. Qu Lanyi immediately stepped back and stood aside. "I won't participate. They're yours."

Ze Ran and Murong Yuntian had already dashed forward. They had both shown their weapons, each holding a long sword. With their level-9 and level-8 strength, they kept three warriors occupied!

"Rumbling Lightning, go!" the girl suddenly roared. The purple lightning elements roared and came like a ferocious dragon. Standing next to Yun Feng, Yun Sheng invoked water elements in her hand. "Water Shield!"

The lightning elements and the water elements collided. Ripples instantly spread out on the surface of the Water Shield. Yun Sheng frowned hard. Yun Feng quickly dragged her brother aside. The next second, the water elements were penetrated by the lightning elements and shattered on the ground.

"She's a tricky level-8 lightning element mage. It seems that my brother won't have any advantage confronting her," Yun Feng concluded in her head. The girl frowned when she saw that Yun Sheng invoked water elements. Two mages? She glanced at Qu Lanyi. The situation would be even more terrible if that woman participated.

“What a fierce battle.” There were four boys who were standing on a high wall. One of them was looking down at the battle with arms crossed in front of his chest.

“I really want to join them. I feel like fighting too,” said another boy, chuckling. He rubbed his hands, as if he was eager to step up.

“Let’s just watch,” said a soft voice. All other three boys nodded and watched the battle down below attentively. All of a sudden, one of the people down below raised her head and looked the young man in the eyes. He was slightly stunned by the cunningness that flashed in her eyes. The next second, a stream of red elements was launched to him.

“The observers up there, come down here.”

The scorching fire elements rose from the ground to the wall with her teasing voice. The four boys who had been watching from the wall managed to dodge them by jumping to the ground.

“Did you enjoy watching the fight?” Yun Feng stopped and casually smiled at the four boys. All of them felt somewhat nervous.

“You’re... the contestants from the Ovey Empire!” exclaimed the female mage from the Shengyao Empire. Yun Feng smiled even more delightedly. Except the local contestants, those of the Karan Empire, the Shengyao Empire and the Ovey Empire had met, though not all of them. Yun Feng observed them. This should be a meeting of the core contestants of the three empires.

“You may continue.” The weakest of the four boys looked around and was about to leave. Yun Feng put on a smile. Fire elements quickly arose in her hand. Her mental strength and the elements were so perfectly melded that she could invoke them with a thought. The speed astonished the other girl.

“Why are you leaving? Now that you’re here, let’s have some fun together.” Yun Feng gathered the fire elements into an arrow that darted towards the weak boy’s back. “Bam!” An explosion between elements and metal burst out. A sword had appeared behind the boy. The sword was broad and seemed heavy.

“You’re bold enough to attack Young Master Muqing!” Muscles were bulging on the arms of the boy who was holding the longsword with fury all over his square face. The other boys all showed their weapons too. Yun Feng’s attack had obviously provoked them. It seemed that Muqing was the leader of the Ovey Empire’s team.

Seeing that, Yun Sheng condensed water elements in his hand, ready to fight. The female mage from the Shengyao Empire, seeing that, quickly stepped back. Three warriors against two mages. It seemed that the Karan Empire’s representatives would be beaten up.

The girl turned around, and saw that her three warriors were still fighting Ze Ran and Murong Yuntian, and that Qu Lanyi was still casually watching. She couldn’t help but furrow her brows.

Muqing stood behind his teammates, without any emotion on his face, as if Yun Feng’s strike was not worth mentioning at all. His reaction made Yun Feng even more interested in him. A man who could endure and ignore such provocation must be very considerate.

“We have no time for you! If you want to fight, the people of the Shengyao Empire are right here!” roared the boy who was holding the longsword. Yun Feng raised her brows, as the boy was speaking as if they were clowns. She gradually turned cold.

“Let’s go,” said Muqing casually. All the boys looked at Yun Feng vigilantly. Yun Feng didn’t attack again. They finally put down their weapons and turned around.

“But I want to fight you.” Her unhurried response completely infuriated the boys of the Ovey Empire. They all turned around, but when they saw what was beside Yun Feng, they all fell quiet. Muqing glanced at it with glittering eyes. “Elemental simulation?”

A fiery wolf was standing next to Yun Feng, emitting scorching heat, while it gazed at everybody with bloodshot eyes. The girl from the Shengyao Empire was quite surprised at the scene, as elemental simulation required a great amount of mental strength. No mage would use it so easily. Once the simulated elemental beast was defeated, the mage’s mental strength would be exhausted!

Chapter 370: The Fight Begins (1)

Translator: Henyee Translations **Editor:** Henyee Translations

Therefore, in the battles of mages, unless it was absolutely necessary, or the mage had a great amount of mental strength, they would never use elemental simulation. They preferred other ways of fighting to such a costly method.

The Ovey Empire’s representatives were quite smart. They had figured out what other representatives were capable of, without divulging anything of their own. How could they not show anything? The fiery wolf immediately crouched and roared like a real ferocious beast.

“Go.” Under her command, the fiery wolf roared and charged at the four representatives of the Ovey Empire with scorching heat. “Hooooo...” The wolf’s howl stunned Murong Yuntian and Ze Ran, who were fighting the three boys from the Shengyao Empire. All of them stopped fighting and looked in the same direction.

“Is that an elementally simulated beast?” mumbled a warrior in surprise. Then, he became anxious.

His fellows remained silent. Murong Yuntian and Ze Ran watched quietly. In the end, they turned around. “I think we should stop fighting.” The three warriors looked at each other in embarrassment. They couldn’t defeat the two guys even though there were three of them. It would still be a tie no matter how much longer they fought.

All three warriors nodded. The confrontation between the Shengyao Empire and the Karan Empire came to an end. As the Ovey Empire joined, a new round of clash began!

“Damn you, Karan mages! This is too outrageous!” The wolf was already roaring and lunging. The boys all became nervous. One of them grabbed Muqing and dodged, and another fought against the fiery wolf with his weapon!

Level 9, level 8, level 8, and unknown. Yun Feng concluded their strength. Those three warriors were quite strong, and the only person unknown was the seemingly vulnerable young man. His strength was

unknown... Yun Feng narrowed her eyes. Was he stronger than her? If so, the Ovey Empire seemed determined to win the contest.

“Careful!” Yun Sheng roared and quickly pushed Yun Feng aside. Yun Feng came back to herself and saw a glittering sword that was about to cut her brother. Although Yun Sheng had already activated the Water Shield, the enemy warrior was a level stronger than him. His water elements couldn’t resist the attack!

Wind elements burst out instantly. Yun Feng moved as fast as a bullet and appeared in front of Yun Sheng, protecting her brother behind her. Seeing that, Yun Sheng couldn’t help but roar, “Yun Sheng, move away!”

The warrior who was slashing his sword was shocked too. Wasn’t she a mage? How could she be so fast? However, the warrior didn’t slow down at all, instead he used all of his strength. “You dared to provoke Young Master Muqing? Die!”

Yun Feng smiled with coldness all over her face. She suddenly stepped forward against the warrior’s sword, instead of moving back! She’s trying to kill herself! The warrior’s eyes widened! Nobody else could do anything. It only happened within a few seconds. They had no time to react!

“Yun Feng!” Seeing that, Ze Ran roared and was about to rush to her, only to be pulled back by Murong Yuntian. “What are you doing? Let go of me!” Ze Ran exerted his strength, but failed to throw Murong Yuntian away. His eyes turned bloodshot.

“She’ll be fine!” roared Murong Yuntian. He was absolutely confident in her. He remembered her performance back in the Mercenary Union vividly. Yun Feng’s physical strength would startle all of them!

The sword hummed and caused a fierce wind as it was swung down. Yun Feng went forward and raised her arm towards the sword. The warrior who was holding the sword smiled, and slashed down!

“Is she crazy? She’s having a head-on clash with a warrior? What’s she thinking?” mumbled the girl from the Shengyao Empire. When she found that none of Yun Feng’s partners was doing anything, she shook her head. “Is she overestimating herself?”

“Pa!” Everybody heard a feeble noise. The warrior who was holding the sword was stunned. Underneath his giant sword was a fair and tender hand that stopped it from moving any further. Yun Feng said coldly, “Is this your best?”

Everybody fell silent after seeing that. The contestants of the Shengyao Empire all opened their mouths, but were unable to say anything. The girl, seeing that Yun Feng emerged unscathed with the giant sword in her hand, was dumbfounded.

She was a mage! How could she have survived a warrior’s strike? That was absolutely impossible!

The warriors of the Ovey Empire were stunned too. Muqing, who remained tranquil the whole time, furrowed his eyes and eyed Yun Feng up and down. Everybody was having the same question. When did mages become as physically strong as warriors? Or was this woman just an exception?

Murong Yuntian put on a vague smile, and Ze Ran took a long breath in relief. How could he have forgotten that she was Yun Feng, a well-acknowledged genius ever since she was born? Yun Sheng, who was behind Yun Feng's back, put on a helpless smile and canceled the Water Shield. How could anything happen to his sister?

"You..." The warrior who was holding the sword said one word, but Yun Feng had clenched her other fist and smashed the warrior in the stomach!

"Ouch!" The warrior grunted and staggered back, stabbing his giant sword into the ground. He had to lean his body against the sword to prevent himself from falling.. His hands covered where Yun Feng punched a moment earlier, and his face was already pale.
