### Chapter 41: A Ridiculous Engagement

"The Yun family doesn't have any achievements, but they're quite good at talking." Murong Ran grunted again. Yun Jing's face immediately darkened. He couldn't help but shout with a deep voice, "Miss Murong!"

Murong Ran pursed her lips and stared at Yun Feng fiercely, "Hey, if you have self-knowledge, cancel the engagement."

After hearing this, Yun Feng burst into laughter. Her laugh scared Murong Ran a little and Murong Ran glared at Yun Feng with her almond-shaped eyes viciously, "What are you laughing at? You look like a psycho!"

Yun Jing didn't say anything. He only glanced at his daughter deeply. After all, it was Feng's engagement. Maybe he could let her decide what she wanted.

Yun Feng ignored Murong Ran. She turned around and looked at her sullen-looking father, Yun Jing, sitting in the main seat. "Father, can I decide what to do with this engagement?"

Yun Jing nodded. Yun Feng felt a bit warm in her mind. She then looked at Murong Ran again, "I can cancel the engagement, but the Murong family must remember, the Yun family is the one who cancels the arrangement today, not the Murong family. In other words, it's the Yun family that doesn't want the Murong family anymore. Do you understand?"

"You..." Murong Ran's face flushed out of anger and a breath was stuck in her chest. She was the one who came to cancel the engagement today. Why did the Murong family become the one that was abandoned? However, people would only think the Murong family got rid of the Yun family. It wasn't a big deal. It was just that Yun Feng's gaze gave her some kind of inexplicable pressure. Under such a gaze, she couldn't say anything to refute her. What the hell!

"Why? You have something to say?" Yun Feng raised her eyebrows and looked at Murong Ran coldly with her black eyes. Murong Ran subconsciously stepped back and stomped her foot hard as she pointed at Yun Feng. "Fine, fine! Don't come to Park City if you can!" After saying this, Murong Ran dashed out of the door.

Meatball, which was standing on Yun Feng's shoulder, also twisted its body and wiggled its butt at Murong Ran's direction with a disdainful look. Meatball's expression made Yun Feng chuckle. This little thing was truly a living treasure.

"Feng." Yun Jing walked to Yun Feng at the moment and looked at his daughter with his black eyes. He felt a kind of unspeakable distress. Yun Feng smiled. "Father, this engagement is going to be canceled sooner or later. Even if the Murong family agrees to keep the arrangement, I won't."

Yun Jing's breath paused for a second and he nodded slightly after a while. He caressed Yun Feng's head gently with his big hand. He only felt that fate was truly unfair to her. She had walked on the verge of death and her Qi meridians were damaged. And now, she was bullied by the Murong family to the extreme. Why could she still smile at ease?

Yun Feng knew Yun Jing was worried. She indeed wanted to give her father a surprise, but she still had to wait for a bit. It wasn't too late to surprise him after she dealt with the Lin family.

Thinking of what Murong Ran said before she left, Yun Feng lowered her head slightly and her black eyes dropped. She sneered in her mind. Murong family, do you really think the Yun family is a pushover?

\*\*\*

The Martial Arts Institute in Chunfeng Town was a place where all the children in town wanted to go. It was the only way to become a warrior. The tuition fee of the Martial Arts Institute wasn't really high, so normal families could afford it as well. And yet, a period of assessment time was required for admission.

Each child had different qualities, which determined how high the child could achieve in the future. The Martial Arts Institute was like a junior-level hourglass. All children could apply for admission once they reached a certain age, but their status of admission wasn't a formal student. The Martial Arts Institute had to assess the children for two weeks to decide who could continue to stay and study. The rest of those children undoubtedly had no talent or could hardly succeed.

The Martial Arts Institute didn't take in people who were completely useless. If you had the strength and the talent, you could stay. Otherwise, you would have to leave. The same applied to everyone. Nobody would pity you and nobody would feel sad for you. In this cruel world, everything relied on people's strength. Everything relied on their power!

Soon, the Martial Arts Institute started recruiting students for the new quarter. Not many children were admitted each quarter. After all, Chunfeng Town wasn't a large city. It was just a small town. If it weren't for Foggy Forest, it would probably be forgotten by the Karan Empire completely.

"Write your name here. Line up one by one!" At the entrance of the Martial Arts Institute, a middle-aged man was sitting there lazily. He sized up these children in front of his eyes. Seeing the enthusiastic and emotional expression on their faces, he couldn't help but shake his head and sigh. Were there still no good seedlings in this quarter?

Although the middle-aged man was sitting lazily, the aura exuding from his body wasn't weak at all. He was a level-5 intermediate warrior and one of the teachers at the Martial Arts Institute, who was responsible for the recruitment work every quarter. Usually, he could already know the quality of the children, who came to sign up, with a glance. After all, what level could children of this age have? The gap between a level-5 intermediate warrior and those children was enough for him to see through them.

Many young children came forward with an excited look one after another. They wrote down their names on the notebook in front of the middle-aged man with neat and tidy strokes, hoping to make a good impression. Of course, their parents taught them to do so. And yet, what they didn't know was that the talent of these children could already be seen clearly when the enrollment started.

The middle-aged man glanced over every child indifferently without any emotions, looking a bit dispirited. The line of children wasn't long. He saw the last few of them very quickly.

“Hm?” The calm middle-aged man finally raised his eyebrows slightly. He glanced over expressionlessly. His gaze landed on a little girl, who had a small beautiful face and a dull look. She didn’t have the thrill and anticipation the other children had on their faces. What she had was only calmness.

“Interesting kid...” The middle-aged man didn’t look dispirited anymore. A smile appeared in his black eyes as he watched that little girl walk towards him step by step.

The little boy before the girl came up excitedly. He picked up the pen in front of him with a slightly shaking hand. The middle-aged man couldn’t help but smile after seeing this. The girl was right behind the boy. Her unusually calm black eyes gazed at the emotional little boy. A kind of deep quality that didn’t belong to children surged out silently, making the girl look like an ancient well that didn’t have the slightest ripple.

#### **Chapter 42: Yun Feng from the Yun family**

The black eyes of the middle-aged man glittered. His palm resting on his knee flipped like lightning and a current suddenly formed in the air, rushing towards the little boy who was writing his name!

The boy who was writing his name didn’t notice it at all, nor did anyone else. The eyes of the middle-aged man stared at the calm girl behind the boy firmly. Under the probing gaze of the middle-aged man, the girl gently stretched her hand out and held the boy’s arm. At the same time, the current arrived. The boy’s body suddenly leaned to one side. If the little girl didn’t hold his arm, he would have fallen on the ground embarrassedly!

“Thank you!” The boy turned around and thanked the girl. He didn’t think something was wrong at all. The girl nodded gently, but her eyes glanced at the middle-aged man. The man was slightly startled and he gazed at the girl with a hint of astonishment.

After writing his name, the boy jumped and entered the gate of the Martial Arts Institute. The girl came up, picked up the pen and wrote her name casually and sloppily. After that, the girl’s black eyes glanced at the man with a serious expression again. The corners of her mouth carried a faint smile. She then slowly entered.

The middle-aged man immediately took a look at that particularly sloppy name on the notebook after the girl was gone. His mind was full of astonishment. Under his perception just then, only that girl among all the other children had no fluctuation of Qi meridians at all. There were only two reasons why he couldn’t feel the energy of the Qi meridians. The first one was that the girl didn’t practice Martial Arts at all, while the second one was... that girl was a warrior above level 5!

Thinking of this possibility, the middle-aged man laughed at himself. How old was that little girl? A Warrior above level 5? If there was such a top genius in Chunfeng Town, how would the principal of the Martial Arts Institute not know about it? The middle-aged man let out his level 5 fighting energy casually just for fun, but that little girl surprisingly noticed it and even blocked all of it!

What did this mean? A girl who had just registered blocked his level 5 warrior power. How... How was this possible?

The black eyes of the middle-aged man stared at that sloppy name fiercely. After looking for a while, he finally understood those two words. “Yun Feng...” The middle-aged man whispered the name. In the

end, his black eyes glittered as he looked into the Martial Arts Institute and mumbled, "The Yun family, she's from the Yun family."

A gust of wind went past and the middle-aged man sitting at the entrance of the Martial Arts Institute just then had already rushed into the institute like a tornado, startling the other managers outside and causing them to look at each other. Mr. Huang is so excited. Perhaps there's a genius among the children admitted this quarter?

\*\*\*

Yun Feng walked into the Martial Arts Institute slowly. Unlike the other kids who were extremely thrilled, Yun Feng was indifferent. She got Yun Jing's approval before coming to sign up for the Martial Arts Institute, but she put in a lot of effort to do so. After all, her Qi meridians had been damaged, so it was useless for her to come to the Martial Arts Institute. Yun Jing was worried that Yun Feng would be sad and he was afraid that the others would tease and sneer at her. And yet, Yun Feng insisted on coming. In the end, she only moved Yun Jing by saying that she wanted to feel what it was like to practice in the Martial Arts Institute. Facing Yun Feng who could never become a warrior her entire life, it was hard for Yun Jing to say no to her.

Just like that, Yun Feng was here. Seeing the children, who had just been admitted, standing in a corner of the outer courtyard of the Martial Arts Institute, Yun Feng also walked over slowly. Once she stood still, someone patted her shoulder gently.

"Thank you for helping me back then. My name's Ze Ran. Let's be friends."

Yun Feng turned around slightly and saw that the little boy she helped just now was smiling beamingly at her, showing his small canine teeth. There were also two deep dimples on his cheeks and his smile was like sunlight, warm and dazzling.

Yun Feng nodded. She wouldn't resist being friends with such a person. "Yun Feng." Yun Feng told Ze Ran her name gently and gave a friendly smile. Ze Ran's eyes widened slightly after hearing her name. Yun Feng knew what he was thinking. She looked at him deeply with her black eyes. "That's right. I'm Yun Feng from the Yun family."

Ze Ran's expression froze for a while. In the end, he shook his head and smiled frustratedly. Yun Feng narrowed her black eyes slightly. If this boy before her had the same attitude as the others, then she didn't want this friend she had just met.

"The Yun family, I've heard about it from my father since I was little. It's an impressive large family. My father always tells me that the Yun family will become as glorious as they used to be again..." Ze Ran lowered his head and said softly. What he said made Yun Feng a bit surprised. She had never thought that someone would be on the Yun family's side and be so supportive.

Even though the Yun family had declined, the honest behavior of the members of the Yun family and how they treated common people and nobles equally gained a lot of popularity for this family. Most of the popularity came from the common people, ordinary people who didn't have any power at all. In their eyes, the Yun family, who was despised by the noble families, was still a fabulous existence. Nothing had changed even after they declined to this point.

Ze Ran looked up with a beaming smile on his face, which distracted Yun Feng a bit. “Yun Feng, we’re friends now, right?”

Yun Feng froze for a second, then gently nodded. Her red lips also curled up slightly. “Yes, from now on, we’ll be friends.”

Ze Ran chuckled again. The dimples on his cheeks were exposed, adding a kind of cuteness to this boy. Then, there was suddenly a commotion among the gathering children. Yun Feng and Ze Ran raised their heads and looked forward. They saw a few people coming towards them from afar.

“It’s the principal! And the teachers of the Martial Arts Institute!” Ze Ran was apparently thrilled when he saw these people. There was a slight tremor in his voice and his eyes were full of excitement, just like all the other kids.

Yun Feng glanced over with her black eyes and sized up those few people far away a few times. She had already understood their strength. One of them was at level 6 and several others were at level 5. The strength of the Martial Arts Institute was quite good.

Those people walked to the kids. The old man in the front narrowed his eyes and looked around. He stopped for a few seconds when he saw Yun Feng, then turned somewhere else again.

Yun Feng and Ze Ran were standing at the back. Once the other kids saw these people, they all rushed forward like crazy to stand in the front, hoping that these teachers would notice them. Ze Ran also wanted to squeeze forward at first, but seeing that Yun Feng stayed still next to him and stood very calmly at the back, Ze Ran suddenly felt that he was too reckless, compared to how calm Yun Feng was. He couldn’t help but feel a little embarrassed and he also gave up the chance to move forward, standing behind quietly with Yun Feng.

### **Chapter 43: Unpredictable Strength (1)**

The two of them stood at the back, while the other children crowded around in the front, making them both more noticeable. After the few teachers saw these two calm children at the back, glints of praise burst out in their eyes. Compared to kids of the same age, these two children had a calmer mind, which was very rare.

That middle-aged man at the entrance was also among the teachers. When he saw Yun Feng at the back, there was a burst of heat in his eyes. His gaze made Yun Feng’s hair stand on end and she couldn’t help but step back.

After the old man in the front glanced over all the children, he gave a faint smile. His black eyes gazed at the calm Yun Feng and Ze Ran at the back again and felt a bit delighted in his mind.

The quality of the kids admitted this quarter wasn’t really good and they didn’t have much potential. However, those two kids standing behind were a bit different. The excitement and enthusiasm in the boy’s eyes couldn’t escape the old man’s eyes. The principal understood in his mind that if it weren’t for that little girl next to him, he would probably have rushed forward as well. The boy was much better than the others in terms of talent, but that little girl next to him...

A glint of confusion flashed through the principal’s eyes. When Mr. Huang ran inside just then, he said with a thrilled look that there was a genius. At first, the principal thought he was just joking. How could

anyone compete with Mei Bing and Lin Meng, no matter how talented the genius was? One of them had reached the early stage of level 4, while the other was at the peak of level 3. If there was truly such a genius, how would he not know about it?

When the principal, who thought this was a joke at first, saw Yun Feng, he couldn't help but feel shocked. He couldn't detect the movement of this girl's Qi meridians with his level-6 strength!

Had she gone over level 6? The principal thought and just found it unbelievable. After all, Yun Feng was just nine this year. If she had exceeded level 6, had she already gotten powers when she was still in her mother's womb?

The principal couldn't be blamed. No matter how much he thought about it, he would never have guessed that Yun Feng's Qi meridians were damaged. After all, this was something unusually cruel. If it weren't for profound hatred, who would break someone's Qi meridians? Yun Feng's Qi meridians were damaged, so there certainly wouldn't be any slightest movement. Even if a master of the Commander Level was here, he wouldn't be able to detect Yun Feng's energy, because Yun Feng didn't have any at all!

Yun Feng apparently had no idea that the principal thought she had gone beyond level 6. Even though this was close to her strength, she had nothing else along the road of warrior, except for her strong body.

The principal slowly looked away and smiled slightly. He made a hand gesture in front of the scrambling kids and asked them to keep quiet.

"Children, in the next two weeks, I hope that you can practice with your heart and work hard. After all, two weeks later, those who have no talent or those who have talent but are lazy, will have to leave here. No exceptions, no matter how powerful and how wealthy your family is!"

What the principal said made the kids feel a bit serious. A few of them pursed their lips in dissatisfaction. The principal was apparently talking about them.

"The Martial Arts Institute is divided into the outer campus and inner campus. In the next two weeks, you'll be having classes with our teachers on the outer campus. You can't enter the inner campus."

Yun Feng thought, "The inner campus... Looks like the inner campus is the area for those senior students. The son of the Lin family will also be there."

"Alright, the enrollment today has ended. Tomorrow will be your new start at the Martial Arts Institute." The principal said as he walked away slowly with the teachers. The children immediately started chattering. Their faces were all full of excitement. The Martial Arts Institute was the first step of becoming a top warrior!

"I'll definitely work hard. I'll stay!" What Ze Ran said made Yun Feng turn around slightly. She nodded when she saw Ze Ran's determined look. "Don't worry. You'll stay here."

Ze Ran smiled. His canine teeth and dimples were extremely cute. "Yun Feng, you have to stay as well. We'll stay together."

Yun Feng was startled and she replied to him with a “hm” a bit uncomfortably. Ze Ran didn’t notice it. He looked at the inner campus of the Martial Arts Institute with heat in his eyes. He would enter the inner campus, for sure!

The principal came to the inner campus of the Martial Arts Institute with the teachers. There weren’t many students practicing here. It was much quieter than in the outer campus. The middle-aged man who was at the entrance just then said to the principal with a thrilled look, “Sir, what do you think about that girl? I was right, wasn’t I?”

The principal and two other teachers all became serious after hearing that. The middle-aged man certainly knew what was going on when he saw this. “Yun Feng.... The Yun family is really extraordinary.” A teacher said with a little emotion in his eyes. How many people didn’t know things about the Yun family in the Karan Empire? That summoner made the Karan Empire become an existence that could do everything in the East Continent!

“To be honest, I couldn’t detect the energy of that girl’s Qi meridians. That’s truly unbelievable.” A female teacher said softly. The corner of the lips of the other two level-5 teachers also curled up. With such a genius appearing out of nowhere, they really felt a bit ashamed. They might not even be qualified to teach her.

“Haha, I was also shocked when I saw that girl. Sir, is the girl at level 6?” The middle-aged man chuckled and looked at the principal with anticipation. They thought that the principal must be able to detect the girl’s level, even though they couldn’t with their level-5 strength. After all, he was a level-6 warrior.

The principal froze for a second, then smiled in embarrassment. He looked at the anticipated look of the three teachers and coughed. “I couldn’t detect the level of that kid either.”

What?!

The eyes of the three teachers popped out. The middle-aged man even gave an exaggerated expression. Even the principal couldn’t detect the girl’s strength?! He was a level-6 warrior. If a level-6 warrior couldn’t detect it, perhaps the girl had already reached level 7?

“Fuck, she’s a genius. She’s a genius...” The middle-aged man said with a tremor in his voice. The other two teachers still hadn’t collected themselves from the shock. How old was Yun Feng this year? And she had already become one of the senior warriors? Why had they never noticed such a talented person before? If she didn’t come here by herself, the Martial Arts Institute would have missed her! If they missed her, it would be a huge loss!

#### **Chapter 44: Unpredictable Strength (2)**

“Sir, the recommendation spot this year...”

The old man looked up slightly with excitement in his black eyes. “The Martial Arts Institute in Chunfeng Town is going to succeed this year.”

The hearts of the other three teachers shook after hearing this. Right, with such a genius girl, it would be difficult for them to be unsuccessful!

Yun Feng's arrival undoubtedly made these teachers at the Martial Arts Institute delighted. She was like a pie that fell from the sky, catching them by surprise. Luckily, the Martial Arts Institute didn't miss such a genius, or they would be devastated.

"Sir, you look pretty happy today." A young man on the inner campus was looking at his teacher, who was teaching next to him with a beaming smile. The young man knew clearly that his teacher didn't smile because of him, as the other few teachers were also weird like that.

"Haha, you're quite observant, kid. You know I'm in a good mood!" Mr. Huang, the middle-aged man who was at the entrance that day, chuckled as he hit the young man's shoulder hard with his shoulder. The young man was almost knocked down on the ground.

"What happened? What makes you so happy?" The young man kept his body stable though his face was a little pale. Mr. Huang then laughed again.

"The Martial Arts Institute will be holding our heads up high this year!"

The young man heard this, then pondered for a while and finally understood. He stood upright and controlled the fighting energy of his Qi meridians to flow around different parts of his body slowly, easing the pressure caused by his teacher just then.

"Lin Meng and Mei Bing are both talented. We'll certainly be able to hold our heads up high. However, I personally think Lin Meng is better." The Martial Arts Institute was divided into two major factions invisibly because of Lin Meng and Mei Bing, and this young man was apparently on Lin Meng's side. He was also one of the people who surrounded Lin Meng in private.

Mr. Huang burst into laughter again after hearing this, making the young man a little confused. He hit the young man again with his hand and the young man, who had just stood still, fell on the ground instantly. The young man looked up and saw that disdainful smile at the corners of his teacher's mouth.

"That Lin Meng? Hm! Do you really think I don't know what you usually do with Lin Meng? Does the Lin family truly think that the Martial Arts Institute is their world?"

Mr. Huang's tone made the young man not dare to breathe. Lin Meng was always arrogant and domineering. He didn't even take the few teachers of the Martial Arts Institute seriously. What Lin Meng did the most was to bully the others. Except for Mei Bing, who else at the Martial Arts Institute hadn't been bullied by this little savage?

How would the teachers at the Martial Arts Institute not see Lin Meng's aptitude? Even though he was more talented than normal people, that was it. If the Lin family didn't feed him with so many medicines, how would Lin Meng be able to compare with Mei Bing? Thinking of Yun Feng, Mr. Huang's smile became larger. Now that such a genius appeared, nobody else would be able to get the only recommendation spot, except for that girl. The money the Lin family invested all these years would probably be wasted.

"That girl will probably make the members of the Lin family grit their teeth furiously. Haha!"

The young man climbed up embarrassedly and sat on the ground, thinking about what his teacher said in his mind. Perhaps there was a genius among the newly-enrolled students this year? However, no matter how talented that person was, it was impossible that she had reached Lin Meng's level!

“Sir, the girl you’re talking about is...”

Mr. Huang glanced at the young man sitting on the ground with a hint of disappointment in his eyes. Ah, if his student could have one-tenth of the girl’s talent, his old face would be able to light up.

“Hm! Why do you want to know about it? Can you compete with her? Work hard and practice!” Mr. Huang grunted angrily and immediately turned around to leave, but these casual words flowed into the young man’s ears.

The young man immediately turned pale after hearing this and a glint of fear flowed in his black eyes. *The Yun family... Yun Feng... Didn’t Lin Meng beat her to death? She really survived? But... But it shouldn’t be like this. Weren’t Yun Feng’s Qi meridians...*

The young man’s face was green and pale. He climbed up from the ground and dashed in a direction towards the inner campus!

“Yun Feng, who’s your teacher?” Ze Ran looked at the slightly cool girl next to him with a smile. He always felt like her calm personality was a little beyond her age.

Yun Feng frowned slightly. The children, who had just been admitted, had already been assigned to a teacher, except for her. However, this wasn’t a big deal for Yun Feng. After all, she didn’t come to the Martial Arts Institute to be a warrior. She only needed an identity at the Martial Arts Institute.

“Who’s your teacher?” Yun Feng didn’t answer. She asked Ze Ran instead. Ze Ran chuckled and told Yun Feng a bit proudly that his teacher was a teacher of the inner campus. Yun Feng couldn’t help but smile gently. Ze Ran could be taught by a teacher from the inner campus right after he was admitted. This was a pretty good treatment. If nothing happened, Ze Ran would be nurtured as a main seedling.

“Brother Ze Ran!” A shout made both of them look over. A boy in luxurious clothes came up with a few others behind him. Ze Ran was a bit confused. He didn’t know this boy. How did the boy know his name?

Ze Ran didn’t know that among all the kids who had just been admitted, he was the only one who got the guidance of a teacher from the inner campus. Everyone knew clearly in their minds what this meant. Although these children were still young, they were already familiar with greeting and flattering the others under the influence of their families and powerful social background.

Yun Feng sized up the boy who came forward. Judging by his clothes, Yun Feng knew that he was someone from a powerful background. On the contrary, Ze Ran came from an extremely ordinary family. Why did someone like this come to talk to Ze Ran? Yun Feng didn’t say anything. She only smiled coldly and started watching them, as if she was watching a drama.

“You are...” Ze Ran smiled in embarrassment. “Brother Ze Ran, I’m Wang Youcai. It must be fate that allows me to study at the Martial Arts Institute with Brother Ze Ran.”

Wang Youcai? This name was very funny. Yun Feng sniggered. Seeing that Ze Ran was still looking confused, she couldn’t help but lament over Ze Ran’s purity. Yun Feng suddenly felt Wang Youcai glancing at her. If she saw it right, his gaze was full of disdain and contempt. Yun Feng also understood immediately that she had been despised by someone again.

All the kids had a teacher, only Yun Feng didn't. The reason why the Martial Arts Institute didn't assign a teacher to Yun Feng was because they didn't think they were qualified to teach Yun Feng. She was a genius whose strength even the principal couldn't see through. So, who would dare to volunteer confidently to be her teacher? The principal dared not, not to mention those teachers.

#### **Chapter 45: It Was Impossible Not to Make a Fuss About It**

On the contrary, the teachers of the inner campus really wanted Yun Feng to give them some guidance. After all, these people, who called themselves teachers, would indeed feel ashamed when they knew that she reached such a level at her age. They also thought deeply that they must admit they were old already.

However, such an arrangement got Yun Feng seriously misunderstood. In the eyes of these newly enrolled children, Yun Feng was someone who was definitely about to be abandoned by the Martial Arts Institute. What did it mean if she was abandoned by the Martial Arts Institute? It meant that she didn't have potential and wouldn't have any achievement at all!

"Brother Ze Ran, I want to say something to you as a friend. Be cautious when you make friends with people." Wang Youcai glanced at Yun Feng, as if he was implying something. The few people behind him also had the same gaze. Yun Feng couldn't help but smile. With her strength, she could squeeze them to death with her fingers, but they thought she was a loser? That was truly interesting. Because of the difference between their strengths, Yun Feng didn't bother to argue with these people at all.

"What... do you mean?" Ze Ran glanced at him and glanced at Yun Feng. Wang Youcai gazed at Ze Ran with an exasperated look. How come the brains of these civilians were all like wooden bells? They couldn't be knocked through!

"Brother Ze Ran, with your talent, you should certainly befriend someone who has the same level as you. Don't make friends with losers that aren't going to stay in the Martial Arts Institute. They'll lower your value."

Ze Ran understood what Wang Youcai meant when he heard this, even if his brain was like a wooden bell. His face immediately darkened and he stared at Wang Youcai with an upset look. "It's none of your business. If there's nothing else, just leave."

Wang Youcai looked a bit embarrassed after Ze Ran stared at him like this. "Brother Ze Ran, Lin Meng is my cousin and he's the top student of the Martial Arts Institute. If Brother Ze Ran is sensible, you should know what to do."

After hearing this, Ze Ran smiled coldly. In the end, he surprisingly ignored Wang Youcai, then walked to Yun Feng, grabbed Yun Feng's hand and turned around to leave.

Ze Ran's help made Yun Feng a little surprised, but she also felt a sense of recognition towards this new friend. She looked at Wang Youcai's pale face, like he had eaten ashes, and asked Ze Ran wickedly. She didn't speak loudly, but Wang Youcai happened to hear her.

"Ze Ran, he said Lin Meng is his cousin. It seems that if you befriend him, you'll get quite a lot of advantages."

"Who's Lin Meng? I've never heard of him! You still haven't told me who your teacher is."

Wang Youcai saw that the two of them were talking and laughing, treating what he said just then as air. He immediately yelled loudly, "Ze Ran, you don't know how to appreciate kindness! I came to talk to you only because I think highly of you. Since you make friends with losers, I don't think you'll achieve much!"

Ze Ran suddenly stopped walking. Yun Feng saw his eyebrows pulse a few times fiercely and his face also looked very bad. She turned around and stared at Wang Youcai with a hint of coldness on her delicate face, making Wang Youcai's hair stand on end.

"Loser, what are you looking at?"

Yun Feng smiled and raised her eyebrows gently. "Did you say that Lin Meng is your cousin?"

Wang Youcai then chuckled. "Why? Are you afraid? My cousin isn't someone you can provoke! If you know how to read the room, you should kneel and apologize. Then, I'll forget about it."

Ze Ran clenched his fists tight. He only felt that Wang Youcai had gone too far! However, how would he have the strength to fight against him right now? He must tolerate this. He could only tolerate this!

The smile at the corners of Yun Feng's mouth became even colder. The invisible pressure shot out of her black eyes made Wang Youcai's body tremble slightly. She didn't want to make a fuss about it, but since he was related to Lin Meng, how could she not do so?

"Wang Youcai." Yun Feng said softly. The boy with an arrogant look in front of her was slightly startled.

"What?"

Yun Feng gave a slight smile, but she didn't look friendly at all. She touched her nose slowly with her finger and her black eyes were cold. "Apologize to Ze Ran, right now."

Wang Youcai glanced at Yun Feng to make sure that she was indeed talking to him. He then looked at the few people behind him. They all burst into laughter immediately without restraints.

"Hahaha, yo, did I hear it correctly? Are you talking to me?" Wang Youcai laughed so hard that his tears almost came out. He only felt like this girl in front of him, who wasn't even as tall as he was, must have gotten tired of living. How dare a loser, who wasn't even assigned to a teacher and was about to be expelled from the Martial Arts Institute, talk to him like this?

Yun Feng didn't talk. She only stared at these people, who were laughing wildly, with a cold look. More children gradually gathered around to watch the drama. This big conflict almost attracted all the newly enrolled children here. Everyone got closer and eventually formed a circle, surrounding Yun Feng, Ze Ran, Wang Youcai and his friends in the middle.

Ze Ran had never thought that Yun Feng would confront Wang Youcai for him. He felt moved in his mind. After all, Ze Ran was only a child from a normal family, who didn't have money and power. Apart from his pretty good talent, he truly had nothing else. A person like him could be friends with a member of the Yun family and was even protected by Yun Feng. Ze Ran's was touched in his mind and inevitably a little worried at the same time. It really wasn't worth it to do this for him. They just needed to be tolerant. When he grew stronger, could these people bully him like this?

“Yun Feng, just forget about it.” Ze Ran pulled Yun Feng’s sleeve as he looked at the indifferent profile of this girl, feeling warm and also worried. Yun Feng turned her head to the side slightly and smiled beamingly at Ze Ran. Ze Ran couldn’t help but become dumbfounded. She, was really beautiful.

“Ze Ran, sometimes, it isn’t that the other party will just let you go when you say forget it, just like these scumbags here.” Yun Feng said lightly as she glanced at those people, who immediately looked bad, in front of her. A sneer appeared in her heart.

Ze Ran and the children watching around couldn’t help but feel shocked. Even though Wang Youcai wasn’t really frightening, nobody dared to say that about him. After all, Lin Meng was his cousin, so it was like he had very powerful support! Almost all the newly enrolled kids knew how arrogant and domineering Lin Meng was at the Martial Arts Institute and they would avoid conflict with Lin Meng or people related to him. The power of the Lin family could be seen when nobody cared even if he was so insolent at the Martial Arts Institute!

However, the Lin family had no idea that if Lin Meng wasn’t at the peak of level 3, how would the Martial Arts Institute have the reason to allow him to run wild? After all, he was a talent. Being able to reach this level, he was already one of the best. They only turned a blind eye on Lin Meng’s arrogance because they cherished their talents. As long as he didn’t cause any big trouble, nobody would care about what he did.

#### **Chapter 46: I’ll Accept Your Challenge**

However, it was different now. Yun Feng suddenly jumped out. Even the level-6 principal of the Martial Arts Institute couldn’t detect her strength. So, how would Lin Meng be able to compare with her? In the past, there were only Mei Bing and Lin Meng. The only spot must belong to one of them. And yet, Yun Feng’s arrival turned everything upside down.

In the eyes of the teachers and the principal of the Martial Arts Institute, all the hopes of the institute were put on Yun Feng. If the Martial Arts Institute in Chunfeng Town could have such a genius like Yun Feng and send her to the School of God of War of the Empire, how bright would the faces of these teachers become? And Yun Feng was the only person who could change the past situation where they were suppressed by the other Martial Arts Institutes!

Mei Bing and Lin Meng were certainly outstanding as well, but they couldn’t compare to Yun Feng at all. If Lin Meng and Yun Feng truly had a conflict, the Martial Arts Institute would stand on Yun Feng’s side, even if she was wrong. They wouldn’t care about Lin Meng anymore.

Wang Youcai didn’t know about it. The support he thought was very stable had already been shaken. Even Lin Meng himself had never thought that his status at the Martial Arts Institute would completely change because of Yun Feng, who should have died in his hands.

“Loser, if you have the guts, say that again.” Wang Youcai’s fierce gaze made Ze Ran’s heart tighten. He subconsciously stood in front of Yun Feng, but Yun Feng pushed him away gently.

“Why? Are you deaf?” Yun Feng’s expressionless and calm look sent Wang Youcai in a panic. Usually when he mentioned Lin Meng, nobody would dare to talk to him like this anymore. After mentioning Lin Meng, even some seniors had to be respectful to him. He had never thought...

“If you piss me off, you won’t end up well!” Wang Youcai looked ferocious. Lin Meng was his strongest shield! What was the Yun family? Weren’t they still being suppressed by the Lin family?

Yun Feng smiled. That faint smile on her beautiful little face made Wang Youcai’s heart pound. Yun Feng slowly walked forward. Once Wang Youcai saw this, he quietly took a few steps back. Seeing Yun Feng come towards him calmly and slowly, Wang Youcai was anxious and he immediately shouted furiously!

“How... How dare you come at me? My cousin, Lin Meng, won’t let you go!” The groups of people behind Wang Youcai were also terrified by Yun Feng’s fierceness. They didn’t look as arrogant as they used to be anymore and they all started to step back sneakily. A few of them had even hidden in the crowd secretly, leaving Wang Youcai behind.

Yun Feng didn’t say anything. She just kept moving forward slowly. Wang Youcai’s forehead was covered in sweat. He didn’t know why he was a bit scared of this little girl in front of him. She was a loser who wasn’t even assigned to a teacher. What was he so afraid of? Besides, he had the support from his cousin, Lin Meng. Hurting him would be like not giving Lin Meng face. Lin Meng was at the peak of level 3. How would he not be able to deal with this little loser?

Thinking of this, Wang Youcai didn’t step back anymore. Some kind of blind confidence rose out of nowhere, which made his cowardice from earlier then disappear. After seeing this, Yun Feng couldn’t help but raise her eyebrows. At the same time, there was also a commotion among the kids surrounding them.

“Wang Youcai, what are you afraid of? Aren’t you supported by Lin Meng?”

“Right, right, what are you scared of?”

“Battle, battle!”

When Ze Ran heard that people were provoking a battle, he tried to pull Yun Feng back with a pale face, but the girl’s fierceness calmed his anxious mind completely. He didn’t know why when he saw the girl’s slender back, an invisible energy surged out. She would be fine!

Everyone’s noises got louder and louder. Under such a commotion, Wang Youcai couldn’t help but feel his blood boil. He pointed at Yun Feng with his finger with a disdainful look.

“Loser, do you have the guts to accept my challenge?”

After hearing this, Yun Feng immediately gave a cold smile. How stupid was this person exactly? He still came so aggressively when digging his own grave.

“What do you think?”

Wang Youcai burst into laughter and the kids around also laughed. They didn’t have any clear idea about Yun Feng, Wang Youcai and the others. They just wanted to see a dog-eat-dog battle. How exciting!

“Hahaha, do I have the guts? I think you don’t have the guts. You’re a loser who doesn’t even have a teacher, you timid little b\*\*ch, you...”

Some unpleasant words burst out of Wang Youcai’s mouth. Ze Ran’s face looked extremely bad after hearing what he said. He couldn’t control himself and wanted to rush forward to give him a few

punches! Smashing that mouth! However, before he took action, Yun Feng, who was still standing there just now, weirdly disappeared. Everyone was startled and the kids watching the drama all widened their eyes. Where... Where was she?

Before Wang Youcai finished saying those evil words, he only felt some pressure pressing down on his head, causing his voice to get stuck in his throat. A shadow flashed. Wang Youcai's eyes immediately widened and his pupils shrank right away!

Yun Feng appeared in front of him expressionlessly. In just a blink, she was already standing before him. What kind of speed was that?

"Very well. I'll accept your challenge."

Seeing that creepy sneer at the corners of the girl's mouth, Wang Youcai's heart suddenly pounded. He only felt that his body became weak and he was drenched in cold sweat. Could he... take it back?

Very well. I'll accept your challenge.

After hearing that, the children around raised their hands and screamed. They all looked at Wang Youcai and Yun Feng with excitement in their eyes. A battle! At their current age, they had only heard others talk about it, but had never seen a real battle at all!

"Fight! Fight! Fight!" Cheers rose among the crowd. Pairs of eyes full of excitement gazed at the two of them. Ze Ran couldn't help but become a little passionate and zealous. Yun Feng would win, she would!

Wang Youcai looked at Yun Feng in front of him and swallowed hard a few times. A drop of sweat rolled down quietly from his forehead, dropping to his neck along his cheek. There was no graceful way for him to back out of the current situation anymore. He must either surrender or knock this girl before him on the ground!

Wang Youcai then stood upright. Even though he didn't look very good, he had no choice but to bite the bullet! What was he afraid of? She was a loser that didn't even have a teacher! What could she do to him? Besides, he was related to Lin Meng after all. She wouldn't do anything to him, no matter how courageous she was!

Thinking of this, Wang Youcai stepped back a little. The fighting energy in his Qi meridians flowed around his entire body and his muscles bulged. Although he had never had any orthodox training and didn't know much about Martial Arts, he had started practicing to be a warrior since he was very little. He was extremely familiar with punching people with his fists!

#### **Chapter 47: Whoever Insults the Yun Family Dies (1)**

After seeing this, the smile at the corners of Yun Feng's mouth became even deeper. She clenched her fists gently, twisted her neck slightly a few times. "Kid, lay low when you attack," the ancestor chuckled and said. Yun Feng pressed her lips and smiled as she communicated with the ancestor with her mind.

"Don't worry, ancestor. I'll be careful."

She glanced at Wang Youcai with her black eyes and shot out a beam of cold light. Wang Youcai, you're the first present I give Lin Meng!

“I’ll be the judge!” A short boy ran forward excitedly. Wang Youcai and Yun Feng didn’t care about who was the judge, but a judge was necessary. It was fine for them to fight privately, but they would be at the risk of being chased after by the other party until one of them died. In a fair battle, especially one in the Martial Arts Institute, life and death lay in the lap of fate. A judge was like a fair witness. Besides, there were so many kids here right now and they all knew what was right and what wasn’t.

The little boy was even more thrilled when he saw that the two of them didn’t reject him. He widened his eyes and looked at them, who were ready to fight. He immediately raised his hand and yelled, “The battle... begins!”

Right after saying that, the boy instantly took a few steps back agilely, getting far away from the battling area of the two of them. It was very satisfying to watch people fight, and being a judge was even more satisfying. However, he must pay attention to his safety.

After the boy shouted, Wang Youcai growled as his fighting energy surged out of his Qi meridians. Kids watching around all widened their eyes. They couldn’t help but feel anxious for Yun Feng when they saw Wang Youcai’s fierceness. If they were in the battle, they would never be able to win!

Ze Ran stood at the back quietly with a patient look. He stared at Yun Feng with his black eyes, not missing any tiny little movement. If for a moment Yun Feng was in danger, he would rush forward. Even if he had to break the rules of the battle, even if he would be laughed at by everyone else or cause unnecessary trouble, he didn’t care!

Yun Feng glanced at Wang Youcai, finding him funny. His little fighting energy really couldn’t do anything to her. Yun Feng was someone who had fought with a mutated Magic Beast alone! Let alone Wang Youcai, Yun Feng could even take down the principal of the Martial Arts Institute with a smile!

She gently swayed her arm as she weighed the amount of power she was going to use in her mind. Even though Yun Feng’s body was as powerful as that of a level-5 warrior, she was like a Magic Beast. A warrior who was also level 5 would at best be tied with Yun Feng, even if he had reached the peak stage. The power transformation by the mysterious jade pendant gave Yun Feng a body like that of a Magic Beast!

With the power of a level-5 warrior, she could also fight with a level-6 warrior!

Phew... Yun Feng gently blew a puff of air out. She pondered for a second and thought that she should use the power of the peak stage of level 1. If she exceeded this limit, Wang Youcai would probably be killed by her punch. It didn’t matter if he died, but she wouldn’t be able to lure Lin Meng out. She needed Wang Youcai to go to Lin Meng in tears and tell him about her, luring Lin Meng to come here!

She secretly suppressed the power in her body. Yun Feng compressed her power to the peak stage of level 1. Then, the other people wouldn’t have doubts and Lin Meng wouldn’t have higher vigilance as well.

“Hah!” Wang Youcai’s fighting energy flowed around his entire body. He clenched his fists fiercely and gave a punch straight at Yun Feng’s little face. It looked like he wanted to knock Yun Feng down on the ground with one punch!

Yun Feng smiled and looked at the fist coming straight at her. She gently reached one hand in front of her body and Wang Youcai's fist, which carried all of his power, was moved away effortlessly!

Wang Youcai was stunned! He immediately swung another fist, but the same result appeared. Yun Feng pushed gently and moved Wang Youcai's fist to the side without any effort.

Wang Youcai took a few steps back in shock. The two of them had only started fighting for a second, but it had already astonished Wang Youcai. He was a level-1 intermediate warrior right now. And yet, that loser easily avoided his punches. How was that possible? Perhaps... she had gone over level 1!

Wang Youcai, who looked bright and dark at the same time, made Yun Feng sneer. Seeing that he was on guard, Yun Feng dashed forward and she swung her fist right at his face just like Wang Youcai did!

"It's my turn to attack now." As Yun Feng spoke, Wang Youcai quickly dodged to avoid her attack. However, Yun Feng's punch was already in front of his face right after she moved her body. Wang Youcai was terrified. The power in that punch was stronger than his strength. He couldn't escape it!

"Argh!" Following a scream, Wang Youcai's body was knocked a dozen meters away, falling onto the ground messily in the end as he let out some deep and frustrated sound. When he got up difficultly, half of his face had already swollen. He coughed a few times and spat out blood containing several teeth onto the ground.

The kids watching the battle were dumbfounded. What... What kind of power was that? She knocked him away with a punch and... turned his face into that! A loser? She was a loser? Who said that? How would such a person be a loser?

Ze Ran looked at the scene in front of his eyes and immediately felt relieved and a little delighted. Yun Feng wasn't a loser. She was more powerful than he was! It was just that Ze Ran didn't understand why such a strong student like Yun Feng wasn't assigned to a teacher?

Wang Youcai climbed up from the ground. His legs couldn't stop trembling. He touched his face with his hand and looked at the blood and teeth he spurted out on the ground. He was extremely furious that she really dared to attack him! When he looked up, he saw Yun Feng walking towards him. Wang Youcai turned pale as he yelled tongue-tied, "Don't... Don't come over. How dare you attack me? How dare you attack me? My cousin, Lin Meng, won't let you get away with it!"

Perhaps Wang Youcai forgot that he started this battle. Yun Feng only accepted his challenge. And yet, Wang Youcai mentioned Lin Meng during the battle, which showed how terrified he was. He knew that he could never beat Yun Feng, but he didn't want to lower his head and yield either. Wang Youcai was in a dilemma at the moment. With so many people watching, wouldn't he be disgraced if he truly had to surrender? If she knew how to read the room, she should give him an out for Lin Meng's sake!

Yun Feng shook her head and sighed softly, glanced at Wang Youcai with a slightly pitiful look. Her gaze made Wang Youcai very uncomfortable. "Fuck, why are you looking at me like that? Do you think you're impressive? Yun Feng? Haha, the Yun family is a joke. You're also a joke. Your family is destined to be trampled under the feet of the Lin family. Hahah! The Yun family... Ha!"

#### **Chapter 48: Whoever Insults the Yun Family Dies (2)**

Wang Youcai might have gone crazy. Yun Feng's face darkened and the fierceness around her also increased quite a lot. Kids who were watching all felt something pressing on their chests and they had to pant loudly to ease the pressure. After gasping a few times for air, they saw that Wang Youcai, who had just got up from the ground, fell down heavily once again, looking extremely hurt.

"You... You... little... b\*\*ch... Lin... Lin Meng won't... let you go..." Wang Youcai fell on the ground with his body curled up. Blood oozed out of the corners of his mouth. Yun Feng swung her fist fiercely again earlier, hitting his chest directly. Wang Youcai's chest was a bit dented right now, as if the bones were already bent.

Yun Feng narrowed her black eyes as her foot stomped hard on Wang Youcai's dented chest. Wang Youcai let out a miserable cry and blood spouted out of his mouth immediately. A few drops even splashed on Yun Feng's face. His body then twitched a few times before he became completely lifeless.

He was dead!

The kids watching the drama all turned pale. Their jaws dropped and they couldn't say a word. It was very common to have casualties in a battle, but it was a bit overwhelming for children, who watched a battle the first time, when it really happened before them.

"Whoever insults the Yun family dies!" Yun Feng's cold words resounded in this silent place. The kids couldn't help but turn paler. The Yun family... Yun Feng... They were so fierce, making them... petrified!

Yun Feng put down her leg with coldness on her face. Whoever insulted the Yun family, whoever hurt the Yun family, had to die! A dragon had a forbidden lamella that couldn't be touched, and so did she! If someone dared to offend the Yun family, she would make these people pay!

Wang Youcai lay on the ground with a weird posture and was totally lifeless. The girl, who had a few drops of blood on her face, looked cold and had no expression at all, as if she had done nothing just now and had not killed someone!

The boy, who volunteered to be the judge, had already turned pale. He stood aside with his trembling lips. Seeing Wang Youcai on the ground, his body shivered and then turned to the girl who looked extremely cold right now. There was a tremor in his voice and the sense of elation he had earlier was already gone.

"Yun... Yun Feng wins..."

His whisper sounded unusually clear at this moment, coming into everyone's ears. Their gaze couldn't help but stick to the beautiful girl with a cool expression who was standing there. Those black eyes were full of gloominess and coldness, which gave people a chill down their spine!

Ze Ran couldn't help but hold his breath when he looked at Yun Feng like this. He felt some kind of threatening pressure coming out of Yun Feng's body, which made it difficult for him to breathe. His fair face blushed slightly and his breath also became heavy.

Not only him, all the other kids had such a reaction the moment Wang Youcai died. They all found it difficult to breathe under Yun Feng's explosive pressure.

“Kid, are you alright?” The voice of the ancestor sounded in Yun Feng’s head, cooling down her enraged mind gradually. Wang Youcai’s humiliating words about the Yun family had immediately pushed her resentment to the highest point. If it weren’t for that trace of remaining sanity, Wang Youcai might not even be able to keep his whole body intact.

Yun Feng took a deep breath. There was some smell of blood. She walked gently, trying to calm those racing emotions in her mind. “Don’t worry, ancestor. I’m fine. I was indeed a bit impulsive just now. I couldn’t control myself for a second and killed him.”

“Ah, kid, it’s already pretty good for you to have such tolerance. Those who humiliate the Yun family should indeed be dead! However, this isn’t necessarily a bad thing. The members of the Lin family are obstinate, self-centered, arrogant and domineering. Even if the person under their protection is a lowly servant, they won’t just let it go easily.”

Yun Feng smiled coldly. “That’s even better. I can’t wait for him to come and find me!”

“Yun Feng! Are you... alright?” A shout made Yun Feng look up. Ze Ran looked straight at her with anxiousness in his black eyes. Yun Feng was startled. Was he worrying about her?

“I’m okay.” Yun Feng smiled lightly, and wiped off the few drops of blood on her face casually, leaving several light red traces. He was quite interesting. Wang Youcai was already dead and he was still worrying about her?

“I’m glad to hear that. Since this is a battle, life and death are uncontrollable. You don’t have to take responsibility for that.”

Yun Feng nodded. In fact, she didn’t want to kill him. She was just thinking to make him half-paralyzed, but Wang Youcai insisted on coming at her. If she didn’t kill him, it would obviously be unfair to his wisdom.

Anyone else would have been panicking and thinking about what to do because of the series of consequences brought by the death of Wang Youcai, but Yun Feng wasn’t afraid. She wanted the Lin family to go after her. She wanted Lin Meng to come and find her himself. It would be best if he asked to fight with her like Wang Youcai did. Then, everything would be easy to deal with.

Yun Feng and Ze Ran walked outside. The other kids, who were originally surrounding them, immediately stepped back in fear. They looked at Yun Feng with a slightly terrified gaze. The fierceness and power Yun Feng showed just then had already given these newly enrolled children a baptism, making them understand more clearly that the Yun family couldn’t be provoked!

Apart from Ze Ran, probably no one would have the courage to get close to Yun Feng. The kids couldn’t help but look at Ze Ran with a slightly weird gaze, but Ze Ran ignored them all.

While Wang Youcai lay on the ground lifelessly, the result of this battle also spread into the inner campus. The few teachers talking about Yun Feng just then couldn’t help but gasp when they heard about Wang Youcai’s death.

He went into a fight on the first day of school and a person was killed! This was something that had never happened throughout the few decades of history of the Martial Arts Institute!

“Who’s the person who fought with Wang Youcai?” Mr. Huang shouted. The student who delivered the news trembled and said Yun Feng’s name with a tremor in his voice. When Mr. Huang heard that, he was apparently stunned.

“That girl? Her attacks are truly neat...” Mr. Huang exclaimed softly. The anger on his face also disappeared. The other few teachers were the same. If this was someone else, they would have given that person a warning. After all, it was a bit too early for such a behavior to appear in the kids who had just been admitted. They were allowed to compete and fight with one another, but not when they were newly enrolled.

#### **Chapter 49: If Someone’s Hurt, Keep Her Safe**

“Hm... Just leave first.” The principal touched his chin and asked the student to leave. He then sighed gently and said a bit speechlessly, “This kid is quite outstanding. She’s just been admitted and has already caused such trouble.”

“Trouble? Are you talking about Wang Youcai?” Mr. Huang asked in confusion. The other teachers couldn’t help but roll their eyes at him. The most tactless one among them was definitely Mr. Huang.

“Even though Wang Youcai is nothing, he’s kind of related to the Lin family. Lin Meng is his cousin according to seniority. Wang Youcai is also the only son of the Wang family, so they’ll definitely go to find the Lin family. Although the Lin family may not care about such a small family, this is about their dignity. Besides, Yun Feng was the one who killed Wang Youcai this time. How would the Lin family just let her go?”

His words made the teachers there ponder. The Lin family wouldn’t just let Yun Feng get away. The most direct thing they could do was to ask Lin Meng to find Yun Feng, but with Yun Feng’s strength, she wouldn’t be afraid at all.

“That girl’s strength will only make Lin Meng hit a snag. The Lin family will have to swallow a bitter pill,” Mr. Huang burst into laughter and said indifferently. Compared to the girl’s power, Lin Meng, who was at the peak of level 3, was nothing!

The principal pondered for a while as he frowned slightly and touched his chin with his fingers. “What I’m worried about is that kid. You may not know this, but she was severely injured by Lin Meng before. I heard that she was already dead, but somehow, she came back to life.”

The teachers gasped. The Martial Arts Institute didn’t care about things that happened in Chunfeng Town. All the wheeling and dealing between families had nothing to do with them, so the Martial Arts Institute was kind of a detached existence in Chunfeng Town. No family could get the slightest benefit from them and nobody would be discriminated against because of their identity and status. Many people in Chunfeng Town knew what happened to Yun Feng. However, people at the Martial Arts Institute had no idea about it. If it weren’t that the principal was interested in Yun Feng and did some research on her, it would be very hard to believe that this kid died once, even at Lin Meng’s hands!

An eye for an eye. A debt of blood must be paid in blood, let alone if it was a life! It was true that Yun Feng was dead. Even though she was alive now, she couldn't forget that Lin Meng killed her once. Lin Meng wouldn't be able to avoid this debt no matter what!

"No wonder. Wang Youcai is truly unlucky." Mr. Huang frowned and looked at the principal. "Lin Meng will come to find that girl, and she'll not miss this opportunity as well. If the two of them fight..."

The principal's eyes gazed far away softly and he said, "If someone's hurt, make sure Yun Feng's safe!"

The teachers immediately understood what he meant after hearing him. Between Lin Meng and Yun Feng, the principal determinedly chose Yun Feng. Anyone would do the same. It wasn't even necessary to consider which one to choose, a genius who had powers that even a level-6 warrior couldn't detect or a talent who reached the peak of level 3 relying on herbs.

Among Lin Meng and Yun Feng, if Lin Meng died, then let him be. After all, it was a battle, and life and death lay in the lap of fate. If the Lin family wanted to make trouble with Yun Feng because of that, the Martial Arts Institute wouldn't just turn a blind eye. Yun Feng was the hope of the Martial Arts Institute. How could they let anyone hurt their hope?

The principal shook his head and smiled in frustration. They were a little crazy. The Martial Arts Institute had been established in Chunfeng Town for a few centuries, but they had never been involved in any family disputes before. Even if a talent of the Martial Arts Institute died because of that, they wouldn't interfere. However, they became mad this time, for Yun Feng, for this monstrous genius that appeared out of nowhere!

"Ah, I'm already this old now. It doesn't make sense if I don't go crazy for once..." The principal mumbled casually as the corners of his mouth curled up slowly and gave a smile.

\*\*\*

When Yun Feng came home, Yun Jing only asked her some simple questions and Yun Feng answered them briefly one by one. She knew that her poker-faced father didn't want to ask her these things. What he truly wanted to know was if she was bullied or looked down on by anyone.

Watching her sullen father beat around the bush and ask her questions, Yun Feng's heart felt warm. She held her father's arm and said with an affectionate voice, "Father, don't worry. Everything's great."

Seeing how Yun Feng reacted, Yun Jing finally let down his hanging heart slightly. Even though he didn't know why Yun Feng insisted on going to the Martial Arts Institute, for a kid that had damaged Qi meridians, that might be a place she most yearned for. So, how could he not let her go? It would be great for her to feel the atmosphere there, even if she would be sent back.

Yun Jing stretched out his large hand and caressed Yun Feng's little head. He couldn't stop feeling sad and powerless in his mind. It was a good thing for his daughter to be an ordinary person. All matters of the Yun family would be left to him and Yun Sheng to deal with.

"Father, I made a new friend today." Thinking of Ze Ran, Yun Feng couldn't help but smile. That pure boy made her feel close. After hearing this, Yun Jing pondered for a while, but he still couldn't remember which family Ze Ran came from.

“Ze Ran is a boy from a normal family.” Yun Feng’s reminder made Yun Jing understand. A kid from a normal family? That was great. Yun Jing nodded. “Hm, it’s a good thing for you to have a friend.”

The Yun family had always been like this. They never flattered and fawned over people and they never oppressed the good ones, just like a selfless and just judge. The Yun family represented justice, justice! This also made the Yun family a lot of enemies. After all, such a stubborn large family would stand in many people’s way of getting rich and promoted.

Yun Feng smiled. The upright Yun family and that righteousness in the bones of the members of the family were things that she was proud of. No matter who it was, as long as you are sincere to me, I will also treat you with my heart, unbiased, only justice in my mind!

She talked to her poker-faced father about things at the Martial Arts Institute. Yun Feng didn’t mention that she didn’t have a teacher. Maybe she understood that she was the only person who knew the real reason behind this, apart from the few teachers and the principal of the Martial Arts Institute. Telling her father about it would just make him more worried.

After saying goodbye to her father, Yun Feng returned to her room and took out Meatball from the bracelet. Once Meatball was taken out, it snarled at Yun Feng fiercely, showing the sharp teeth hidden in its chubby mouth. It seemed a little ferocious. Yun Feng was shocked. She casually threw Meatball away. Meatball’s rounded body spun agilely in the air and landed on Yun Feng’s legs gently. It lifted its head and stared at Yun Feng with its black, grape-like eyes full of anger.

## **Chapter 50: What Exactly Was Meatball**

Yun Feng was speechless. She put Meatball into the bracelet when she went to the Martial Arts Institute. This little guy certainly wasn’t willing to, but bringing it into the Martial Arts Institute would cause some troubles. After all, having a Magic Beast was something too extravagant. Although the Yun family could still afford it, this would make people jealous after all. The less trouble the better. She hated trouble.

“Na! Nana!” Meatball made some roar-like sounds angrily, but that clearly couldn’t achieve the effect. It didn’t know how to say anything, apart from “na.” Yun Feng’s black eyes gazed at Meatball after all. After a while, she grabbed Meatball’s neck and brought it in front of her. Those two pairs of eyes of a human and a beast looked at each other.

“Why can’t I feel your elemental force?” Yun Feng finally asked after staring at it for a long time. She didn’t care about this meatball at first, but now, it made her extremely confused. It was a Magic Beast, but why did it have any elemental force in its body?

Meatball’s huge eyes spun and looked at Yun Feng with an innocent face, as if it didn’t know as well. Yun Feng’s mental strength surged out quietly to detect Meatball carefully. And yet, she found nothing.

What... exactly was it?

“Ancestor, is it possible that a Magic Beast doesn’t have elemental forces?” Yun Feng, who couldn’t get any answers, asked her ancestor for help. The ancestor was knowledgeable, especially in the area of Magic Beasts. His knowledge was like a vast number of stars and he was a living library to Yun Feng.

“Hm... Such a situation is very very rare, almost none at all... but that doesn’t mean that these beasts don’t exist.” What the ancestor said made Yun Feng astonished. She glanced at Meatball she was holding in her hands with a weird look. Perhaps it was some impressive existence?

“Just like humans, there are some abandoned existences among the Magic Beasts.”

“Abandoned... existences?”

“Right. They were born without elemental forces and were born weak. They’re destined to be stepped on by the other Magic Beasts. No matter how hard they struggle, they won’t be able to change their fate.”

Yun Feng understood now. Just like humans, a very small number of people were born without any qualities. Taking the East Continent as an example, a small part of people were born with no Qi meridians or couldn’t practice because of various reasons. Did this apply to the Magic Beasts?

Yun Feng’s black eyes couldn’t help but sink. If it weren’t that her mental strength was strong, she, who had damaged Qi meridians, would have had the same fate as Meatball. Yun Feng swung Meatball’s chubby body in her hands and made it protest again. Yun Feng felt blue when she looked at Meatball right now.

“However...” What the ancestor said made Yun Feng shocked. There was a “however?”

“There’s also another kind of existence among the Magic Beasts. It’s not that they don’t have any elemental force. It’s just that humans can’t sense it.”

“Who... are they?”

The ancestor sighed gently and seemed a bit emotional. Yun Feng couldn’t help but breathe tensely. “There’s a special species among the Magic Beasts, which surpasses all the others. They’re called the Gods of Magic Beasts. They have earth-shattering powers and can destroy everything they want to destroy by just lifting a hand. Even summoners, who always have contact with Magic Beasts, don’t know a lot about them. They’re existences at the top of the pyramid of Magic Beasts and can be regarded as the most mysterious existences in the Vast Continent, Fantastical Beasts!”

Fantastical Beasts! Yun Feng’s pupils immediately shrank. They were existences at the top of the pyramid of Magic Beasts. Even summoners knew very little about them. They were so mysterious, so powerful!

Yun Feng glanced at Meatball and thought in her mind. This little thing was either an abandoned creature or an existence at the top. There was truly a huge difference. However, rather than the possibility of it being a Fantastical Beast, Yun Feng preferred the former one.

“Haha, kid, if Meatball is a Fantastical Beast, then you’ve got a treasure.” The ancestor’s words made the corners of Yun Feng’s mouth curl up slightly. A Fantastical Beast? Could it look just like this? Fat like a ball? Besides, Fantastical Beasts weren’t cabbages. They weren’t easy to catch. How would she possibly encounter an existence that people in the world had so little knowledge about so easily? She would never believe that Meatball was a Fantastical Beast.

“Ancestor, how would a Fantastical Beast look like this?” Yun Feng swung Meatball in her hands intentionally and made Meatball extremely discontented. The ancestor smiled a bit embarrassedly, then let out a long sigh.

“Ah, it’s still uncertain whether Fantastical Beasts are real or not. I heard that the one who encountered a Fantastical Beast was an absolute powerhouse from a few thousand years ago. As for now, people tend to think of Fantastical Beasts as creatures in legends. After all, nobody has seen any of them.”

“You haven’t seen them as well?” Yun Feng was very surprised. After all, her ancestor had extraordinary achievements, but even he hadn’t seen one before?

“Haha, kid, Fantastical Beasts aren’t something that people like me can encounter. Those powerful and mysterious Fantastical Beasts are the lifelong dream of summoners, and also a dream that can never be fulfilled...” There was frustration and sorrow in the ancestor’s words. If summoners could contract with Fantastical Beasts, the entire Vast Continent would shake. Summoners who entered a contract with Magic Beasts were invincible beings! Even the most powerful Magic Beasts would have to yield to them!

Looking at Meatball in her hands, Yun Feng pursed her lips. She released her hands and dropped Meatball down. Its fluffy body turned around to face Yun Feng with its back, like it was pissed off, showing only its round little butt, which made Yun Feng dumbfounded. This meatball had a temper.

The ancestor felt that Yun Feng’s mood got better gradually and his heart was slightly moved. Looking at this beautiful little face, a smile of relief appeared on the ancestor’s handsome face. Perhaps this kid could truly fulfil the dream that nobody could.

Due to Wang Youcai’s death, the Martial Arts Institute was eventually shrouded in a layer of shadow. It wasn’t a big deal. It was just a battle. There were countless battles on the East Continent and an innumerable number of people who died in these battles. Besides, when both parties agreed that life and death didn’t matter, you could only blame yourself for not being skillful enough if you died.

However, Wang Youcai’s death was a bit different. He was related to Lin Meng. A person who had a relation with the Lin family died at the hands of the Yun family, their enemy. How would the Lin family just let them get away?

Yun Feng and Ze Ran met on the outer campus of the Martial Arts Institute early in the morning. Ze Ran was very excited, but Yun Feng was extremely calm. If someone else beat Wang Youcai to death, that person would have to think about the consequences of coming to the Martial Arts Institute again.

Ze Ran was a little worried at first, but seeing how calm Yun Feng was, he was completely relieved. He couldn’t help but feel much better. After all, Ze Ran should be happy or even... proud to have made a friend like Yun Feng!
