

Summoner 411

Chapter 411: I'm Back (5)

When Yun Feng arrived at the Masang School of Magic, it was the time when freshmen just came to school. A lot of new students had gathered in front of the society building. The old students were mostly studying in the Trial Tower.

Yun Feng, Qu Lanyi and Ao Jin landed in the back mountain of the Masang School of Magic, where there was nobody. As a Golden Dragon, Ao Jin didn't like the company of human beings, so he hid somewhere on the back mountain. Both Yun Feng and Qu Lanyi agreed with the arrangement. They walked to the square, and were not recognized among the new students.

"Hey, welcome to join our society!"

The society building was quite crowded. Many societies were appealing to the students enthusiastically. The new students were picking excitedly too. "Feel free to join the Constellation Society, the biggest society in the Masang School of Magic!" Hearing that voice, Yun Feng couldn't help but look in that direction, only to see two young men wearing the same clothes. They were shouting at the passing new students, many of whom gathered around them. "I'd like to join the Constellation Society! Yun Sheng, the champion of the individual ranking contest, is your leader, right?"

Yun Feng's lips curled when she heard that. Her brother was the champion of the individual ranking contest. She seemed to have missed many things in the past three years. Yun Feng joined the crowd. A boy of the Constellation Society smiled. "Indeed! Yun Sheng, who's the champion of the individual ranking contest, is our leader! Not just that. The only summoner of the Karan Empire is his sister. She's also a member of the Constellation Society!"

"Wow! Seriously? Yun Feng, the summoner, is also a member of the Constellation Society?"

"I'm in! I'm in! I want to see the summoner so much!"

The new students became excited, and Yun Feng smiled awkwardly in the middle of them. The summoner that they were dying to see was right here, but none recognized her! The two guys of the Constellation Society both smiled. Yun Feng shook her head helplessly. The Constellation Society had thrived under her brother's management. Well done!

"I want to see Yun Sheng more than the summoner! I heard that he's super handsome and nice!" a few girls mumbled. Yun Feng was quite amused. It seemed that her brother had turned into a public idol.

"Dear students, the Fire Society is just as good. It's led by a princess of the Karan Royal Family!" A few men of the Fire Society came over. Yun Feng looked at them from the crowd. It seemed that the Fire Society had changed a lot and was no longer as popular as it was when she just came to the Masang School of Magic.

All the new students fell silent. The two guys of the Constellation Society both smiled generously. "Yes, the Fire Society is just as good. Don't hesitate to join it."

"Hey, what's the meaning of that? Do you despise us?" The people of the Fire Society were immediately infuriated. Seeing that, the new students all made way for them. The two guys of the Constellation

Society smiled casually and didn't say anything, which made the people of the Fire Society even angrier. They were about to attack, but a strong gale was invoked, throwing all them to their knees.

"Guys, no need to be so courteous." The two guys of the Constellation Society smiled. The people of the Fire Society blushed, and tried to rise. However, another gale rose and they fell on their knees again.

All the new students covered their mouths and held back their laughter. The people of the Fire Society remained on their knees, blushing. In the crowd, Yun Feng put on a cold smile and flashed out of the crowd. She extended her hand and created an independent space. After reaching the Monarch Level, her control of spatial laws was even better!

Qu Lanyi had naturally hidden himself too. He watched the folly, and didn't follow Yun Feng. Hiding in the independent space, Yun Feng took out the Sound Transmission Jade and pressed it. She said softly, "Father, brother, I'm back."

Yun Feng's Sound Transmission Jade glittered, but there was no sound. Although Yun Jing and Yun Sheng didn't reply, Yun Feng could tell how thrilled they were. Far away in Chunfeng Town, Yun Jing held the Sound Transmission Jade tightly, and smiled in comfort. Yun Sheng had been cultivating in the Trial Tower until he heard Yun Feng's voice from the Sound Transmission Jade. He then rushed down from the top floor of the Trial Tower.

Many students had gathered on the fourth floor of the Trial Tower, waiting for an opening. Most students were on level 4, so the level-4 area had always been most crowded in the Trial Tower. Naturally, it was also the place that had witnessed the most conflicts.

"This opening is mine!"

"Are you blind? Didn't you see that I got the badge first?"

"How can you do that? I was ahead of you in the line!" The argument in the level-4 area became louder and louder, making the place even more chaotic. There had been tension all the time. It was not unusual for the students to fight for an opening. The supervisors here had great trouble too. There were simply too many students for them to supervise.

The longer the two students argued, the angrier they became. They shoved each other and even invoked their elements, about to fight. The other students immediately retreated. Fights here were anything but unusual.

The oral fight soon escalated into a physical one. Elemental energy was splashing everywhere. An innocent girl who didn't have enough time to dodge was about to be hit by the flying elemental energy, when a blue shield arose in front of her and blocked the energy. The girl survived the attack, and watched the blue shield disappear gradually. The two angry students, on the other hand, were drenched in cold water elements from the top of their head. They both stopped, with their clothes wet.

"If you want to fight, fight outside. This place is too narrow for you to carry out your abilities, isn't it?" A cold voice came from the stairs between the level-4 area and the level-5 area. The handsome young man showed up. The two students who had been fighting immediately blushed and stood quietly and obediently.

“S-Senior Yun Sheng!” called the girl who was protected by the blue shield, blushing. Yun Sheng nodded. He looked at the two students who had stopped fighting, and then walked down.

After Yun Sheng left, people whispered in the level-4 area. “Is he Yun Sheng, the champion of the individual ranking contest?”

“He’s indeed extraordinary. He just came down from higher floors. How strong is he right now?”

“He’s also the leader of the Constellation Society! He’s so handsome!”

All the girls looked at Yun Sheng’s back in admiration, and the guys stared at him with envy and slight jealousy. They wanted to become as strong as him!

Yun Sheng walked out of the Trial Tower. The teacher who was outside of the Trial Tower saw him and greeted him. Yun Sheng greeted him back, and walked out in a hurry. His dear sister had told him that she was back. He didn’t know where she was, but he unconsciously believed that she had returned to the Masang School of Magic, maybe because of the link between the two siblings.

Yun Sheng walked to a corner. He was about to take out the Sound Transmission Jade, when he heard a familiar voice. “Brother.”

Yun Sheng shivered, and immediately looked back, only to see nobody. “Feng? Is that you?”

Yun Feng had been hiding not far away. She waved her hand, revealing herself next to Yun Sheng. After three years, she was already a lot more mature. Yun Sheng held Yun Feng, who had worried him for a long time, in his arms.

“Brother...” In Yun Sheng’s warm arms, Yun Feng felt that her brother’s heart was racing. She put on a sweet smile. That was family! He must’ve been concerned for her for a long time...

“It’s great to have you back!” Yun Sheng hugged Yun Feng for a moment, and then sized her up. He didn’t let go of her until he confirmed that she was safe and sound.

“Brother, you must be well aware of the Yun family’s situation. The Karan Royal Family must be doing something. It’s time we leave this place,” said Yun Feng solemnly.

Yun Sheng frowned. “The Karan Royal Family didn’t do anything in the past three years, probably because of you. They had to confirm if you were truly gone. Lately, father told me that the Karan Royal Family was making preparations. It seems that they’re done waiting.”

“That’s great. It’s a great opportunity for the Yun family to break free from this filthy empire!” Yun Feng’s eyes glittered. Passion arose in her heart. She was determined to break free from the Karan Royal Family and the Karan Empire!

“Feng, the Karan Royal Family will definitely find an excuse before attacking the Yun family. It’s truly ironic how the Yun family will be repaid for such a long time of loyalty,” said Yun Sheng with self-mockery. To deal with the Yun family, the Karan Royal Family would surely accuse it of disloyalty, or their actions wouldn’t be justified.

Yun Feng sneered. "The Karan Royal Family's good life is coming to an end."

Yun Sheng glanced at Yun Feng and didn't say anything else. His sister was much less bonded with the Karan Royal Family than he and their father were. It wasn't hard to predict what Yun Feng would do. Yun Sheng heaved a sigh. "What about Xiaojin? Should we take her away with us?"

Yun Feng thought for a moment. "Of course. Xiaojin is my family. We should certainly take her away!"

Yun Sheng put on a smile. "Very well. When are we going to leave? Right now?"

"The faster, the better! Father should be safe under the Yun Army's protection. They can resist any top assassins that may come. We should go back and reunite with him."

Yun Sheng nodded and stared at the campus in front of him. He had to leave this place. Would he ever be able to visit this place again after breaking away from the Karan Empire? Yun Feng looked around at the campus too, and smiled at her brother. "Brother, take Xiaojin to the back mountain. There's something else I need to do. We'll meet there."

Yun Sheng nodded, and reached out to Mu Xiaojin with the Sound Transmission Jade. Yun Feng, on the other hand, hid herself and left for the office building. There was another person she needed to thank: Mr. Ted.

Ted had been quite depressed in the past three years due to Yun Feng's disappearance. She had a special position in Ted's heart, because he was the one who discovered the young genius the earliest. He had been delighted to watch her grow rapidly. While Yun Feng was gone, Ted always believed that she was alive, and had been waiting for her to return.

Ted opened his mouth when he detected a powerful aura. The lingering aura suggested that an expert had broken into this place! Ted looked around nervously, and didn't see anyone. All of a sudden, he noticed a bag on his desk. There was also a note underneath the bag.

Ted frowned, and picked up the note. He found the handwriting on the note quite familiar! It took him a long time before he finally recognized the name on the note!

Mr. Ted, thank you for looking after me and my brother over the years. This is the least I can do in return. You must be aware of the Yun family's situation. My brother and I don't want the Masang School of Magic to get involved. We've already left. Please forgive us for our spontaneous decision. I'll always be a proud student of the Masang School of Magic.

Ted's hand that was holding the note shivered. He opened the bag, only to see a lot of high-level ores in it! Ted's eyes widened. Then, he laughed in a low voice, with his eyes wet. "You are truly a self-willed girl, and a fast runner. You should've met me before you left..."

Yun Sheng took Mu Xiaojin to the back mountain. Mu Xiaojin was excited to know that Yun Feng had returned safely. Then, Yun Sheng informed her of the emergency.. Mu Xiaojin immediately held back her tears of joy and excitement, and went to the back mountain quickly along with Yun Sheng.

Chapter 413: Imminent Battle (2)

“Xiaojin, brother, you’re here.” Yun Feng showed herself. Mu Xiaojin’s eyes widened, and were filled with tears. Yun Feng couldn’t help but walk to her. Mu Xiaojin jumped forward and hugged Yun Feng tightly.

“Xiao... Xiao Feng, you—you’re truly back...” Mu Xiaojin couldn’t stop weeping. She was heartbroken when she learned that Yun Feng went missing three years earlier. For her, Yun Feng was the closest person other than her brother. She couldn’t have endured the trauma if anything had happened to her.

Yun Sheng felt sorry for her too. Yun Feng stroked Mu Xiaojin’s hair, and hugged her tightly. She then wiped the tears on Mu Xiaojin’s face and smiled. “I’m back. Sorry for making you worry.”

Mu Xiaojin was about to weep again. Seeing that, Yun Feng quickly said, “Xiaojin, this is no time for sentimentality. We need to get out of here and return to Chunfeng Town. A battle between the Yun family and the Karan Royal Family will erupt soon.”

Mu Xiaojin’s tears were all gone. Hearing that news, Mu Xiaojin put on a solemn expression too. She held Yun Feng’s hand. “Xiao Feng, I support whatever you do.”

Yun Feng smiled, and looked at Qu Lanyi who had only just arrived. She frowned. Where did that guy go? Qu Lanyi smiled and said, “Fengfeng, we need to go. Annoying flies are coming.”

Yun Feng and Yun Sheng both frowned. They nodded. “Uncle Flirtatious!” Yun Feng shouted. Ao Jin immediately showed himself. Both Yun Sheng and Mu Xiaojin were dazed. Who was this handsome man who emerged out of nowhere? Uncle Flirtatious? He certainly didn’t look like an uncle.

“Girl, are we leaving?” asked Ao Jin. Yun Feng nodded, “We need to go back to Chunfeng Town as fast as possible. You two, this is the Yun family’s business anyway.”

Qu Lanyi looked at Yun Feng thoughtfully. “Fengfeng, are you still taking me for an outsider. I have...”

Yun Feng glared at him, and blushed. Yun Sheng glanced at them suspiciously, and felt that something was wrong. Ao Jin, on the other hand, said unhappily, “Girl, you can take anyone for an outsider, but not me!”

Yun Sheng was stunned, and Yun Feng simply laughed. “In that case, I’ll accept your kindness!” Ao Jin, as the Young Master of the dragons, and Qu Lanyi, whose strength was boundless, could defeat even the strongest experts that the Karan Royal Family might send!

“Lan Yi!” Yun Feng roared. Lan Yi appeared from the Ring of Contract. After a flash of green light, the big beautiful griffin showed up again. They all stepped on Lan Yi’s warm and spacious back. The griffin flapped its wings, causing such a strong wind that all the trees on the mountain were rustling. A blue ray of light rose from the mountain to the sky. Standing on Lan Yi’s back, while her hair was blowing in the wind, Yun Feng stared ahead with a smile. The Karan Royal Family would surely suffer this time!

In the sky above the forest beyond the Masang School of Magic, a couple of men were stopped by two people. They looked at the two men who stood in their way, and roared furiously, “Move away! We’re from the Karan Royal Family!”

The tall slim young man and the rough-looking man remained silent, as if they didn’t hear anything, but they didn’t make way for the strangers either. The five warriors, riding their flying mounts, decided to

break in with violence. They looked at each other and nodded, unleashing their fighting energy and charging as warriors in the final stage of level 9!

The tall slim young man and the rough-looking man both frowned. They flashed and counterattacked. The two parties fought for a moment, but neither could win. The people from the Karan Royal Family were almost exploding because of fury.

At this moment, the tall, slim young man and the rough-looking man unconsciously looked up at the sky, and were relieved when they detected something. Then, to the surprise of the Karan Royal Family's representatives, they left and disappeared into the dark forest.

"Damn it, how uncanny!" The warriors of the Karan Royal Family, seeing that, immediately rode their flying mounts to the Masang School of Magic. The two men who had flown back to the dark forest both took a breath in relief. "The madam's request was truly strange, wasn't it?" mumbled the tall slim young man. The rough-looking man considered for a moment and said, "Brother, I don't think the madam will come back after she leaves."

"Brother, are you serious?" The tall slim young man was excited, and asked delightedly. The rough-looking man smiled. "Haha. It was just my guess. You know how temperamental the madam is!"

Standing on Lan Yi's back, Qu Lanyi enjoyed the views at ease, with his eyes fixed upon Yun Feng. The girl was a beautiful view when she stood straight stubbornly. Qu Lanyi's lips curled. How could the woman that he had fallen in love with be ordinary?

As Yun Feng advanced, Lan Yi was even faster than before. The Monarch Level wind element Magic Beast could easily fly for a thousand kilometers in a day. In only fifteen minutes, Lan Yi had taken everybody to Chunfeng Town, which seemed the same as before. However, Yun Feng vaguely detected tension in the air, and even saw the Red Maple Mercenary Team near the Yun house.

Yun Feng was slightly excited. The Mercenary Union took action! That was beyond Yun Feng's expectation. She remembered Mr. Zheng Ran, who had always been smiling, and better realized how he cared for her.

Lan Yi stopped at a low altitude in Chunfeng Town. Yun Feng jumped off with Mu Xiaojin, and Ao Jin took Yun Sheng. Lan Yi transformed into a human being and folded its wings. They landed near the Yun house and went there together.

Chapter 414: Imminent Battle (3)

At this moment, not just the Yun Army, but many members of the Red Maple Mercenary Team were protecting the Yun family. When they learned of the task of protecting the Yun family, they all signed up for it. Although the Mercenary Union had given its connivance, Red Maple couldn't send all of them here. The mercenaries that were sent here were all elites. As Wang Ming said, Red Maple would die to protect Yun Feng's family!

"Father!" Yun Feng looked for Yun Jing the moment she came into the house. Yun Jing was in the ancestral hall. Hearing Yun Feng's voice, he rushed out and opened the door of the Ancestral hall. Then, he saw his daughter who had been away for three years.

The father and the daughter simply stared at each other in silence. Yun Jing was expressionless, and Yun Feng smiled casually as if she had just returned after a day of work. "Father, I'm back."

Standing at the door of the ancestral hall, Yun Jing looked at his daughter from a distance and nodded. "It's great to have you back." His tone was rather rigid. Yun Feng put on a smile when she saw how awkward her father was.

"Fengfeng, we should make a plan. There isn't a lot of time," said Qu Lanyi. Yun Feng nodded. Yun Jing glanced at Qu Lanyi and Ao Jin. Qu Lanyi chuckled at Yun Jing. "Uncle, I'm Fengfeng's close friend, Qu Lanyi."

Yun Jing was dazed for a moment, and Yun Feng seemed rather awkward. "She's my roommate."

"Uncle, hello, I am Ao Jin," Ao Jin also introduced himself. Yun Jing nodded. Those two people didn't seem ordinary. It was only natural that his daughter had made friends with top experts.

All of them sat down in the main hall. Yun Jing informed them of the current situation. Yun Feng thought for a moment after hearing that. "I've fought Randal before. He's at least in the Monarch Level. He's one of the Karan Royal Family's trump cards." Yun Feng had fought Randal when she was in the Commander Level, and couldn't figure out how strong he was. Randal should be at least in the Monarch Level, if not the Lord Level.

"The Monarch Level?" Yun Jing frowned and mumbled. "The Yun Army is between level 7 and level 9 on average. They can fight the Karan Royal Family's army, but to deal with such an expert..."

"Girl, the Yun Army is very strong. It's almost as strong as my people!" complimented Ao Jin. Yun Jing chuckled. "We must thank Red Maple for that. The ores they send every month have significantly strengthened the Yun Army."

Yun Feng smiled. So, it was Red Maple. Hehe. Those hot-blooded mercenaries gave the Yun family a lot of help.

"The Karan Royal Family must be aware of the Yun Army, and will send a lot of experts. To ensure their advantage, they will send Randal along with other people," said Yun Sheng. The other people all nodded in agreement.

"Don't worry about them, brother and father. I'll take care of them." Yun Feng smiled. She was in the Monarch Level, with another two Monarch Level Magic Beasts. Even if Randal were in the Lord Level, he might not necessarily be able to defeat Yun Feng. Besides, there were Qu Lanyi and Ao Jin. The experts of the Karan Royal Family wouldn't be able to do anything.

"Uncle, don't worry, Fengfeng is strong enough to deal with those experts." Qu Lanyi chuckled proudly. Ao Jin laughed too. "Exactly. The girl is astonishingly strong right now!"

Yun Sheng's and Yun Jing's eyes all glittered. "Feng, you've grown even stronger? What did you go through in the past three years? You haven't told us yet!"

Yun Feng said, "Let's wait after we're done with the Karan Royal Family. I've indeed become strong. I've reached the Monarch Level."

Both Yun Sheng and Yun Jing were shocked. The Monarch Level! That level was too far away from them. Yun Sheng was stuck in level 7, and Yun Jing was a level-7 warrior too. Yet, Yun Feng had leaped to the Monarch Level. The gap between them was truly great!

“Great! Great! Feng, you’re truly the pride of the Yun family!” declared Yun Sheng with admiration all over his eyes. Nobody in the history of the Yun family had ever made such achievements at Yun Feng’s age! Even the summoner ancestor couldn’t have been as talented as Yun Feng!

Yun Jing was quite happy too. Although he didn’t praise his daughter directly, his eyes already showed how proud of his daughter he was. “So in conclusion, the Yun family’s odds of winning are a lot higher,” said Yun Jing. Yun Feng nodded. “Father, brother, if the Karan Royal Family attacks the Yun family, there is no need for us to cling on to the past. The Yun family has done enough for Karan. If they’re heartless to us, then we don’t need to stay loyal to them!”

Yun Jing heaved a long sigh. “Whatever Feng says. I’m fine with it.”

Yun Feng could hear the pain and helplessness in her father’s words. The Yun family didn’t have any hope for the Karan Royal Family anymore. “Feng, I support any decision you make!” said Yun Sheng encouragingly. Yun Feng nodded.

“I cannot expose myself just yet. If the Karan Royal Family notices that I’m back, it won’t attack the Yun family. After all, the emperor is a sly old fox. He won’t wage a stupid war that he cannot win. Once Karan attacks, we’ll be justified to counterattack. This time, the Karan Royal Family won’t return in one piece!”

“Exactly! It will definitely be skinned.” Qu Lanyi chuckled. What he said, however, was rather bloodcurdling.

“Being skinned is too easy for them; we’ll cut off all their flesh!” Yun Feng smiled coldly. As she said, she would punish whoever hurt the Yun family a hundred times more harshly!

Yun Feng had been hiding since they returned to Chunfeng Town, and so had Ao Jin and Qu Lanyi. The outsiders only saw that Yun Sheng was back. The Yun family didn’t do anything strange either. Everything was normal.. On the Karan Royal Family’s side, it seemed to have encountered some sort of obstacle.

Chapter 415: Imminent Battle (4)

“My lord, Yun Sheng has already gone back,” a warrior reported to a cold-looking middle-aged man in fear. “Idiot! He was alone, yet you couldn’t stop him!” the middle-aged man scolded him, making him shiver.

“Alright, you may leave,” said the middle-aged man. The warrior immediately backed off.

“Randal, His Majesty has sent you to deal with the Yun family? Is it really necessary?” There were seven men in the room. All of them were hidden experts that served the Karan Royal Family. The one who talked was a pale middle-aged man. The others nodded in agreement. They thought they were enough to eliminate the Yun family, and Randal wouldn’t be needed.

“His Majesty is too cautious. Lord Randal is a trump card. We should be enough to deal with those little shrimps.”

“Haha. That’s right!” Everybody else laughed. Randal, however, sniffed. “What do you know? The Yun family is not a normal family! It has Yun Feng the summoner, the Yun Army, and the Red Maple Mercenary Team. None of them are easy to deal with.”

“Isn’t the summoner missing? She hasn’t appeared in three years. If she is alive, why would she hide for so long? The Yun Army is nothing to fear. Any of us can take care of it easily. Only the Red Maple Mercenary Team is slightly tricky to deal with. After all, it’s related to the Mercenary Union.”

“Humph! Don’t you worry about that. His Majesty will take care of it! There’s no telling if Yun Feng is truly missing. The Yun family must be completely eradicated, or they will be infinite trouble! Right, is there any news about the Yun family?” asked Randal, frowning. For some reason, he had been feeling nervous about the mission of eliminating the Yun family.

“The Yun family is just the same. Yun Sheng must’ve returned to the Yun family. We can finish him off together with his family.”

Randal thought for a moment. “We’ll observe for a couple more days. After we confirm that everything is fine with the Yun family, we’ll take action!”

During the days, a piece of unbelievable information was spreading in the Karan Empire. It was said that Yun Feng, the missing summoner, had been tempted by the privileges other empires offered, and betrayed the Karan Empire for another country. Besides, the Yun family, which was always considered loyal, was conspiring with other empires and sending them intelligence about Karan.

The rumor raised heated discussions throughout Karan, including Chunfeng Town. The Yun family was quite lost for words after hearing that. Just as expected, the Karan Royal Family had described the Yun family to be disloyal and treacherous. It had truly gone through a lot of trouble to eliminate the Yun family.

Naturally, Yun Feng received the rumor too. She simply sneered. The Karan Royal Family was truly so shameless that it would adopt any means possible to achieve its purpose! Murong Yuntian and Ze Ran were both maddened in the School of God of War, and disappointed at the Karan Royal Family. After thinking for a long time, Ze Ran couldn’t hold it any longer, and quit the School of God of War, which was a shocking decision for many people.

Murong Yuntian wanted to do the same, but he had a family. Although he was not deeply attached to the Murong family, it was the place where he was born and raised anyway. He couldn’t do anything just yet. If he did, the Karan Royal Family would eliminate the Murong family too, and he couldn’t protect his family on his own.

Ze Ran left angrily, and Murong Yuntian could only stay in frustration. Ze Ran returned to Chunfeng Town as quickly as possible. To his surprise, his parents supported him after hearing his decision. They didn’t believe that the Yun family would ever commit such treachery. They chose to trust the Yun family, and supported their son’s willful decision.

Both Yun Sheng and Yun Jing were shocked at Ze Ran’s arrival. They were even more shocked to hear that he had quit the School of God of War. Hiding not far away, Yun Feng was deeply touched at Ze Ran’s decision. The young man whom she met by chance as a child took her side firmly in such a moment. That was really touching.

Yun Feng remembered the Karan Royal Family for the rumor they made up. She would get back at them sooner or later.

After observing for two days, Randal confirmed that the Yun family was not doing anything. He decided to eliminate the Yun family at night with the six experts in his team. The Karan Royal Family had sent them instead of an army, which would've been too high-profile. It was better to send assassins to deal with them.

At night, Chunfeng Town was unusually quiet. The Yun Army was staying on guard around the house. Hiding inside the house, Yun Feng suddenly opened her eyes. A few powerful auras were approaching the Yun Army. Did they want to assassinate the Yun family? Yun Feng realized the Karan Royal Family's plan, and put on a smile. The strangers were indeed strong. Two of them were Commander Level, and five were Monarch Level.

"What a great lineup..." Yun Feng whispered. If she hadn't reached the Monarch Level, if she weren't a summoner, and if Ao Jin and Qu Lanyi weren't here, the Yun family would definitely face a disaster.

"None of you will hurt the Yun family," said Yun Feng. She waved her hands. Her immense mental strength surged out and covered the Yun house. She then clenched her fist, locking the space!

"Randal, it seems that there are experts in the Yun family." Naturally, the space blockage exposed Yun Feng's powerful mental strength. All seven assassins looked down at the covered Yun house, frowning.

"Let me have a try!" One of the assassins condensed his fighting energy, and smashed it at the locked space ferociously. The space wasn't affected at all. "It's not broken?" The person who tried was a Commander Level warrior. Randal smiled coldly and extended his hand. Daunting fighting energy surged from inside his body, and almost turned concrete in his hand!

Chapter 416: Imminent Battle (5)

"You think you can stop me with a space blockage?" Brutality flashed in Randal's eyes. He waved his hands, where the fighting energy had turned concrete, breaking the space blockage Yun Feng set up! The Yun house and everybody in it were surrounded by a daunting vibe! "Everybody of the Yun family, listen up! You are sentenced to death for committing treason! Surrender, or you will be executed!"

His voice echoed in the quiet night sky and the space that Randal locked up. The space where the Yun house was located had been locked up by Randal. Until it was broken, nobody from the Yun family could leave!

"Swoosh..." A person rose to the sky from the Yun house and stood in front of the seven assassins. Randal narrowed his eyes, and the guess that had been making him uneasy was confirmed. "Yun Feng, you are truly alive!"

The other six people were all slightly nervous to hear the name Yun Feng. They had seen the double-element mage born in the Karan Empire with their own eyes!

"I'll be alive as long as you are," said Yun Feng with a smile, staring at Randal.

Randal sneered and replied, "Yun Feng, the Yun family is already doomed! If you pledge your loyalty to the Karan Royal Family, I may be able to ask His Majesty to spare your life."

Yun Feng laughed. "Save it! The Yun family won't do anything for the bulls*it royal family any longer, and I won't become a dog instead of a human!"

All the seven assassins seemed embarrassed and infuriated. "Yun Feng, you should know better! The Karan Royal Family is only sparing you because you are a summoner!"

"So what? I'm not interested in that worthless royal family, and neither is the Yun family!"

Brutality flashed in Randal's eyes. "If the Yun family is so unwise, don't regret when you see the bloodshed in this place!"

Yun Feng smiled coldly. "We'll find out who the unwise people here are."

"Do it!" Randal gave the order grimly. The six men behind him split up quickly. Yun Feng roared, "Little Fire, Lan Yi!" Two streaks of light darted out. Yun Feng smiled coldly. "Kill them all! No mercy!"

Little Fire was excited to hear the command after it came out. It instantly howled, with a light of excitement in its black eyes. "Kill them all! As you wish!"

Randal's pupils contracted. The two beasts had already reached the Monarch Level! The two Commander Level assassins, who had split up, were killed by Lan Yi and Little Fire respectively with one attack without being able to defend themselves at all!

"What?" The Monarch Level assassins were all shocked to see that!

"Prepare to die, humans!" Little Fire was emanating the ferocious aura of a Magic Beast. Two Monarch Level assassins looked at each other and confronted Little Fire and Lan Yi respectively. The rest seized the chance to charge at the Yun house!

The two Commander Level experts were supposed to finish off the other members of the Yun family, but they had been killed in one strike. Yun Feng's powerful contracted beasts made the experts of the royal family further realize the formidableness of a summoner. Any of them could be killed in a duel with Yun Feng!

"I didn't expect you to grow so much stronger." Randal saw what happened, and seemed even more determined than before. This girl couldn't be left alive. If she continued growing, she would be a major problem for the Karan Empire!

"Hehe. I must thank the Karan Empire for your assistance," said Yun Feng sarcastically. Randal frowned. "You're too weak to fight me. Yun Feng, your talent is surprising, but nothing more! You think you can resist three Monarch Level experts on your own? In your dream!"

Yun Feng was not intimidated. She stood in front of Randal. Little Fire and Lan Yi had stopped two Monarch Level experts. The other two assassins had been blocked too. "I never dream; I speak with my action. Today, I'll teach the Karan Royal Family a lesson. You'll know the consequence of pissing off the Yun family."

Thanks to the Divine Essence Grass, Yun Feng had risen to the mid stage of the Monarch Level, skipping the early stage. Randal was one of the strongest men in the Karan Empire, and had been at the peak of the Monarch Level for years. He simply lacked an opportunity to break into the Lord Level. In terms of level, Randal had a great advantage!

“Yun Feng, you are a summoner, yet your Magic Beasts are not by your side. How strong can you be?” roared Randal loudly in disdain.

Yun Feng laughed. “I’ll let you know that you will suffer even if I don’t use my Magic Beasts.”

“Little girl, let’s find out who’s going to suffer!” Randal narrowed his eyes, and darted towards Yun Feng in a streak of light. Yun Feng put on a smile. All her cells were excited at this moment.

A battle was about to burst out!

The space around the Yun house in Chunfeng Town had been locked up. No matter how fiercely people fought inside, nobody would notice anything wrong from the outside. At this moment, a fierce battle was going on inside the space.

Randal didn’t conceal his strength any longer. He unleashed all of his abundant fighting energy. Yun Feng vividly detected the mountainous pressure, and knew that Randal was stronger than her! He must be in the final stage or the peak of the Monarch Level!

Releasing his abundant fighting energy, Randal became much more intimidating than before. As one of the strongest men in the Karan Empire, he was definitely not weak. He had been stuck in the peak of the Monarch Level for decades, and accumulated a lot of strength. He just never found the opportunity for a breakthrough. Once he accomplished the breakthrough, he would rise to the Lord Level!

The breakthrough to the Lord Level was tantalizing, but could never be accomplished easily. Some experts were stuck in the peak of the Monarch Level. They could never reach the next level no matter how close they were to it. Take Randal for example. It took him several hundred years to reach the peak of the Monarch Level, but he had been stuck there ever since. The Monarch Level and the Lord Level were completely different!

Randal, who was at the peak of the Monarch Level, was fighting Yun Feng, who was in the mid stage of the Monarch Level. His level was significantly higher. Also, he had stayed in the peak for a long time, and consolidated his strength. For Yun Feng, Randal was an exceptionally tricky enemy.

Randal stared at Yun Feng’s face, and gathered fighting energy in his hands. “Little girl, take this punch. If you’re still alive afterwards, let’s continue!” Hardly had Randal said that when he became invisible! Yun Feng narrowed her eyes. The man was so fast that he could no longer be caught by the naked eye!

Covering her body with wind elements, Yun Feng listened to the sound of the flowing air, and detected unusual signs on her left side. She had no time to consider, and quickly moved dozens of meters back. Randal appeared out of nowhere, and punched so heavily that the space was slightly distorted!

Yun Feng stared at everything coldly. That was the strength of the peak of the Monarch Level! His outburst of fighting energy could even change the space! After Yun Feng dodged, Randal flashed and disappeared again without another word!

Yun Feng's muscles were tightened. She was caught in a passive position, and she was like a chicken that was being hunted by a fox! She had to win this battle! She slowly closed her eyes, gathering an element that she had rarely used.

"Zi.. Zi..." Cracking noises of electric currents sounded next to Yun Feng, and tiny silver snakes slithered around her. Randal, who was so fast that he had become invisible, suddenly widened his eyes. That was... the lightning element!

"I didn't realize that she was a multi-element mage." Randal looked even more ominous than before. The more talented Yun Feng showed herself to be, the more uneasy Randal became and the more determined he was to kill her. If he didn't kill her and she didn't serve Karan, Karan would never be at peace again!

Randal flew towards Yun Feng quickly, gathering more and more fighting energy in his hand. He was hoping to kill her with one strike! A mage's body was too vulnerable to resist a warrior's attack. In a melee battle, the mage would surely die!

Yun Feng suddenly opened her eyes, which were glittering. She turned her hand upside down, gathering the active silver snakes. "Spear of Lightning, go!"

A silver snake as thick as a bowl darted towards Randal from Yun Feng's hand. Randal was greatly shocked. How did she detect his trajectory? He quickly switched to another direction. Yun Feng, however, put on a smile. Fox, you're too young to play hide-and-seek with the hunter!

"Go!" Yun Feng quickly pointed at Randal in a new direction, aiming at him precisely!

"Damn it!" Seeing that the Spear of Lightning was flying towards him again, Randal quickly dodged. However, Yun Feng seemed to have seen through him completely. The silver snake was constantly changing its direction and chasing after Randal. No matter how fast Randal was, Yun Feng could always catch his new route!

It was very similar to the battle against Lan Yi! After Yun Feng reached the mid stage of the Monarch Level, her expertise of fire and wind elements had reached the mid stage of the Monarch Level, and her expertise of other elements was in the beginner stage of the Monarch Level. She couldn't slow Randal down with the earth element, but she could feel Randal's movement with the wind element!

Without Randal realizing it, the space they were in had been filled up by wind elements. No matter how fast Randal was, he would still be perceived with the wind element!

Yun Feng constantly pointed at new directions, and the thick snake of lightning elements flew forward with daunting pressure, forcing Randal to dodge again and again. Randal turned from the hunter into the prey, and was rather awkward. Being chased by the lightning elements, Randal finally ran out of patience, and appeared in midair. He grimly clenched his fist and smashed the lightning elements!

"Zi! Zi... Boom!" The silver snake as thick as a bowl, under Randal's punch, was reduced into smithereens of elements in the moment!

That was the strength of a warrior at the peak of the Monarch Level, which could obliterate any attack!

Yun Feng narrowed her eyes, and Randal gazed at Yun Feng like a hawk. “Yun Feng, it’s no longer fun playing with you.” He quickly narrowed his eyes and accelerated. His sudden acceleration gave Yun Feng no time to dodge! In the blink of an eye, Randal had approached her!

“Die with your family!” Randal gritted his teeth, with the thirst for blood in his eyes. Yun Feng’s body was near at hand. She might be a talented mage and summoner, but so what? She would only die in his hands!

The fighting energy in his hand surged towards Yun Feng, who held her breath. There was no time for her to dodge anymore! The expert at the peak of the Monarch Level was truly fast. However, he would be terribly mistaken if he thought that he could hurt her in such a way!

All of Yun Feng’s cells were tightened at this moment. She moved forward with her body that was as sturdy as a warrior’s! Randal laughed. Seeing that Yun Feng was counterattacking fearlessly, he waved his fist. If she wanted to die, then death he would give her!

“Bam!” Randal’s fist smashed with a suffocating weight.. Yun Feng crossed her arms in front of her body. Randal’s fist hit exactly the spot where her arms crossed!

Chapter 418: Repay a Hundred Times More (2)

Randal’s eyes widened. He looked at Yun Feng in disbelief. Yun Feng raised her head palely, and looked at Randal with a weird smile. The next second, she kicked Randal brutally in his leg. Randal put on a twisted expression. The excruciating pain from his leg made Randal’s heart shiver! A mage had made him feel pain, even though he was at the peak of the Monarch Level!

Randal backed off quickly, and stood dozens of meters away from Yun Feng in midair. He had never been as shocked. He was quite dumbfounded, and almost couldn’t believe what he saw and perceived!

Yun Feng was slightly pale, and felt like throwing up. Although she was able to deviate most of the force, she was still hit heavily. She might have really been killed here if her body weren’t as sturdy.

“Impossible! That is impossible!” Randal looked at Yun Feng with doubt and disbelief all over his eyes. How could there be anyone in this world who was both a mage and a warrior? It didn’t make sense! It was illogical! However, the agony from his leg was a constant reminder that he had endured a physical attack from a mage, which caused great pain to him!

She couldn’t be left alive! Never! The idea grew in Randal’s heart like a weed and filled up his head. It seemed that he had to treat Yun Feng with more respect. This young junior, who was still a growing eagle, gave him unprecedented pressure. He even felt a tiny bit of... fear!

“Very few people are worthy enough for me to use my weapon. Yun Feng, you’re one of them,” said Randal, putting on a solemn expression. He didn’t have any thought of mockery any longer. Although the girl wasn’t as strong as he, he couldn’t kill her without using his real abilities!

Yun Feng smiled coldly. “Should I be proud?”

Randal managed a smile, and opened his hand, summoning a longsword that carried a suffocating pressure. Upon seeing it, Yun Feng realized that it was a Monarch Level weapon. Also, it was different

from the holed weapons; it was a weapon that had absorbed the energy of a Monarch Level Magic Beast Crystal's core!

It was not the first time that Yun Feng had seen such a weapon. The expert that the Huangzu family invited held a Monarch Level weapon too! Back then, he claimed that his weapon was unique. However, Randal had another one. The real experts often hid themselves very well.

Randal held the longsword in his hand, and the longsword emitted feeble waves. The weapon would make his attack even more powerful. Yun Feng wouldn't be able to resist the attack with her body!

Randal slowly drew a circle with his longsword, leaving a lingering trace of energy in midair. The Monarch Level weapon was indeed extraordinary. It was already giving great pressure even before it launched an attack. After drawing the circle, Randal threw the sword to the sky. Immediately, the circle he drew glowed!

"Thousand Swords Summoner, descend!" Randal narrowed his eyes and roared.

Yun Feng saw that the sword that had been tossed to the sky trembled and hummed. Then, dozens of identical swords appeared inside the circle. All of them aimed at her!

"Go!" Randal roared. Instantly, dozens of swords darted towards Yun Feng like shooting stars. They were as frightening and unavoidable as a volcano eruption!

In the middle of the dazzling light, Randal could see nothing but Yun Feng's eyes. Very soon, she was drowned!

It was a Monarch Level combat technique named Thousand Swords Summoner! A warrior could improve their fighting energy through combat techniques. Being in the peak of the Monarch Level, Randal was naturally very strong with the technique! It was his ultimate technique that nobody had ever survived!

When the swords were unleashed, their target would surely die!

"Yun Feng, I can't let you live." Standing in midair, Randal watched Yun Feng being consumed by the light of the swords in delight. By killing such a junior, he had eliminated a great threat. He didn't feel embarrassed because he was much older. After all, Yun Feng was astonishingly strong, and none of the kids her age could compare to her.

"Aren't you too happy too soon?" Randal's smile was instantly frozen on his face. He was stiffened, like a statue. His eyes widened as he stared at the place where the light concentrated. "No... That's impossible..." Randal's lips were shivering. He roared to himself in his heart, how did she survive? She couldn't have survived it! That's the Thousand Swords Summoner, my ultimate technique!

After a flash of dazzling light, the shocking pressure brought by the Thousand Swords Summoner exploded and disappeared like fireworks. The Monarch Level longsword had been grabbed by Yun Feng's tender hand. She looked at Randal with a vague smile. Seeing that Yun Feng was holding his sword, Randal's eyes became bloodshot.

His attack didn't hurt her at all. Rather, she even took his weapon. What happened exactly?

Yun Feng was holding Randal's longsword tightly. The longsword was quite disobedient in Yun Feng's hand, and was trying to break free. Yun Feng immediately summoned water elements that enveloped the longsword. The flowing water elements turned into ice that tied up the longsword.

The longsword, covered in the ice made of water elements, floated around Yun Feng, who wore a smile. What she was holding in her other hand made it impossible for Randal to conceal his shock any longer.

"That's... That's..." Randal's lips cramped as he gazed at what Yun Feng was holding in her hand. His pupils were contracted. He couldn't be more familiar with the aura of the item in Yun Feng's hand. That was a Monarch Level weapon too! It was a Monarch Level wand!

Chapter 419: Repay a Hundred Times More (3)

Yun Feng gently stroked the wand she was holding. There were no special patterns on the surface of the wand, yet its aura was as intimidating as that of Randal's longsword! A Monarch Level wand had been revealed!

"That's a Monarch Level wand! Where did you get it? Who gave it to you?" asked Randal with bloodshot eyes. Although the wand was useless to him who was a warrior, whoever gave the Monarch Level wand to her must be extraordinary! It was possible that the guy had other advanced weapons!

Yun Feng put on a vague smile. Where did she get the Monarch Level weapon? From the Dragon Palace that her master left for her, of course! The halo that covered the mysterious tenth floor was gone after she reached the Monarch Level. Naturally, Yun Feng knew that some of the items were no longer forbidden for her now that she had grown stronger. One of the new items she could use was a Monarch Level weapon that was a wand!

She felt a bit of pain from inside her body due to Randal's critical attack. Although the Monarch Level wand unleashed some energy to resist the attack, it didn't resolve all the damage. His ferocious attack hurt Yun Feng badly.

The longsword that floated around her hummed loudly. The next second, the ice that restrained it exploded and fell into pieces. The longsword then flew back to Randal loyally. Randal grabbed it in his hand again.

I'm not strong enough to trap his weapon yet... Yun Feng frowned and thought. Her face was still pale. Holding the longsword, Randal sneered when Yun Feng didn't reply to his question. "Just because you have a Monarch Level weapon doesn't mean you can defeat me!"

Randal's longsword became even more intimidating. Yun Feng held the wand in her hand tightly. It was time she found out how much power a Monarch Level weapon could unleash!

"Fire Arrow!" Yun Feng roared. Violent and bright fire elements gathered around the wand and scorched the space. The space was quickly twisted. Yun Feng clicked her tongue. The elemental energy, under the guidance of the wand, had completely changed, as if it were reborn!

Seeing that, Randal knew that the situation was rather tricky. Their weapons were on the same level. Despite the level gap between them, Randal didn't have any advantage in terms of physical strength. If Yun Feng had her Magic Beasts here, she would even have a lot of advantages. Even without the Magic Beasts, she could make up for the disadvantage with her expertise of the elements of five classes!

“Go!” Yun Feng roared. The Fire Arrow was a lot bigger than usual, and looked like a small rocket. It was also astonishingly powerful. If her opponent weren’t on the Monarch Level, she probably could’ve crushed him with nothing but a simple Fire Arrow!

The hot waves surged forward, leaving an obvious trace in the twisted space. Randal quickly moved and narrowly dodged the Fire Arrow. Yun Feng put on a smile. It wasn’t over yet, not even close! “Water Chains!” Yun Feng roared again. The water elements around the wand were quickly frozen into chains. Randal slightly frowned. So far, Yun Feng had utilized elements of four different classes. She was indeed extraordinary! Randal knew that his only advantage was his level, which was higher than hers. If they were on the same level, he would’ve been crushed by her.

Randal was truly shocked at Yun Feng’s speed of growth! She was in the early stage of the Commander Level three years earlier, and she was in the mid stage of the Monarch Level at this moment! It took her only three years to make the progress that usually took other people hundreds of years! Randal’s longsword hummed and unleashed abundant fighting energy. Yun Feng waved her Water Chains at Randal, and Randal simply slashed all the chains apart with the longsword!

It seems that it’s impossible to win the battle with one single element... The idea flashed in Yun Feng’s head. She attacked Randal continuously with the Water Chains, but Randal’s longsword prevented them from hitting him. Realizing Yun Feng’s thought, the ancestor exclaimed in shock, “Kid, what are you going to do? Don’t be reckless!”

Yun Feng smiled. “Ancestor, have I ever been reckless? I’m simply doing things that other people have never done.”

The ancestor said in shock, “Kid, that’s a wrong idea! If you do that, you will cause an elemental explosion, and you won’t be able to survive!”

Yun Feng laughed in her heart. Determination flashed in her eyes. She couldn’t possibly defeat that old guy in such a way. She would suffer a great loss in such a war of attrition. After all, the recovery of mental strength was very slow, and the Monarch Level weapon consumed much more mental strength than her previous weapons did. Even if she had an astonishing amount of mental strength, she couldn’t use it extravagantly like that!

Besides, she didn’t have the patience to fight the man any longer. There were a bunch more enemies that she needed to take care of...

Ignoring her ancestor’s warning, Yun Feng closed her eyes. Two different elements appeared around her wand, namely the green wind elements and the glittering lightning elements. The Water Chains slowly vanished. Randal gazed at Yun Feng, shocked, wondering whether or not she was going to...

With madness in her eyes, Yun Feng grabbed the two types of energy in her hands. Then, to Randal’s shock, she melted them together!

What? Randal trembled and his eyes almost popped out. She’s crazy! She must be crazy! When Yun Feng squeezed the two types of elements, she vividly felt the rejection between them. The wind elements and the lightning elements roared and denied each other. Yun Feng felt a strong pressure from her hands. The two masses of elements were emitting their energy respectively, trying to get rid of each other!

“So disobedient...” Yun Feng mumbled in a low voice. She then clenched her fists and pressed the two masses of elements that were rejecting each other together. “Hum...” A stream of energy spread out from Yun Feng’s hand and dispersed crazily like a tide!

Chapter 420: Repay a Hundred Times More (4)

“That’s...” Qu Lanyi was fighting a Monarch Level expert when the energy waves approached. Both of them stopped fighting. Qu Lanyi’s enemy, after detecting the waves, quickly moved back and ran out of the locked space in panic.

Qu Lanyi had no time to care about the expert who was fleeing in panic. He narrowed his eyes and looked at part of the sky where the energy waves were spreading out. Qu Lanyi frowned. “Fengfeng, you’re being too reckless.”

He quickly dashed towards the Yun house. If Yun Feng were truly going to do this, then he had to ensure that the Yun family wouldn’t be hurt in the attack! On the other hand, Ao Jin stopped moving and gazed at Yun Feng, feeling the vague energy waves that were spreading close. The waves somehow panicked Ao Jin. What exactly was the girl trying to do?

“Ao Jin!” Qu Lanyi’s voice came over. Ao Jin looked down in surprise, only to find that Qu Lanyi had finished his battle at some point. The man who was fighting Ao Jin, seeing that, quickly retreated too. He looked in a certain direction in the sky with a trembling heart. What exactly was that energy? What was Lord Randal doing?

“Master!” Little Fire’s and Lan Yi’s voices came to her at the same time telepathically. At this moment, Yun Feng felt excruciating pain from her hands. The two masses of elements that rejected each other crazily had melted together. Lan Yi, in particular, had sensed the wind elements’ dissatisfaction and resistance!

“Master, what are you doing?” asked Lan Yi anxiously. Yun Feng chuckled. “Little Fire, Lan Yi, come back!” She sent out her thoughts, and Little Fire and Lan Yi, who had been fighting two Monarch Level experts, turned into two streaks of light, returning to the Rings of Contract. Yun Feng’s hands were already bleeding while the two streams of elements rejected each other. However, she didn’t seem to feel any of the pain, and she was still trying to melt the elements!

“Stop her! I must stop her!” Seeing Yun Feng’s crazy action, Randal dashed forward without thinking, and raised the longsword in his hand. Yun Feng stood still without even raising her head. She simply stared at the elements in her hand. Randal attacked fiercely, as if he were trying to stop Yun Feng at the cost of his own life. Yun Feng didn’t care about any of that. She simply focused on her work. Feeling the change of energy, Randal finally changed his expression greatly!

Yun Feng slowly raised her head. Her hands were already heavily wounded. Blood was dripping and splashing into flowers on the ground. Her face and lips were pale, but she wore a casual smile.

Her hands were separated, and between her bloody hands was a ball of elements that contained destructive energy. Green and purple elements kept circulating on the surface of the ball as hissing silver snakes. The energy ball floated in Yun Feng’s palm, but its horror could be detected far away!

Randal was panicked! At this moment, Randal, who had reached the peak of the Monarch Level, was panicked! He quickly turned around and tried to flee. He didn't know what had been melted, but he knew that if the energy was unleashed, he would probably be killed here even if he was at the peak of the Monarch Level!

Yun Feng chuckled and watched Randal awkwardly escape. She rose to the sky quickly. She didn't forget the Yun family and other people on the ground. She had no idea how powerful the ball would be, but she wouldn't let it hurt anyone in the Yun family.

Randal fled in panic. The other Monarch Level experts, seeing that Randal was fleeing in panic, were dumbfounded. Was the man who was running desperately really the high and mighty Randal they knew? Seeing that Randal was fleeing in panic, his companions quickly retreated too. Whoever made Randal escape in panic was certainly too strong for them to defeat!

"Randal, you think you can get away?" roared Yun Feng, before she threw out the energy ball that was unleashing a terrifying pressure.

Randal, while fleeing in panic, felt the terrifying pressure, and dashed forward even more quickly. Still, the pressure caught him!

"Bam..." A deafening explosion burst out in the sky. Even the earth seemed to be trembling. In the peaceful night sky, a torrent of terrifying energy suddenly burst out. Then, waves that were even more enormous spread out quickly! Yun Feng's eyes widened, not expecting the energy to be so powerful!

The space had been distorted gravely where Randal was standing. The Monarch Level enemies who were trying to flee had been consumed by the energy. Yun Feng vividly saw the pain on their faces. Then, they were all minced by the energy the next second!

Yun Feng was slightly astonished. The ancestor took a long breath in relief. He was finally no longer nervous. What Yun Feng did shocked him, even though he had seen quite a lot of things in his long life. Fusion of elements was no different from suicide for a mage!

Every kind of element had its own energy. Different kinds of energy rejected each other. Some had tried fusing the elements, but none of them had ever survived! The ancestor had been worried sick about Yun Feng's action. He didn't expect her reckless attempt to succeed! The wind elements and the lightning elements had indeed been successfully melted. However, she was rather badly hurt too.

When the elemental energy burst out in the sky, Yun Feng felt rather fatigued. The fusion of two kinds of elements consumed a lot of her mental strength. The water drops in her spiritual space were mostly gone too. It was obvious that she could only use this move as an ultimate technique and couldn't use it frequently.

Randal was already gone. The experts who came to the Yun family that night had all died in the shocking outburst of energy. The Karan Royal Family would surely be infuriated. Yun Feng landed on the ground exhaustedly and looked at the Yun house that was still safe and undamaged in relief. She had protected the safety of her family.
