

## Summoner 431

### Chapter 431: Annihilation (4)

Yun Feng sneered. "You are indeed good at fighting, but you are too cowardly to be called a real strong man."

Randal felt rather embarrassed. "In this world, every man has to ensure their own safety. That's a rule that everybody knows!"

Yun Feng's smile was even colder. "There's nothing else that I'll say to you. It's time we settle our scores!" Yun Feng solemnly pressed forward, so fast that Randal didn't even have the time to react. He saw that her fist was swinging in the wind!

"Ouch!" Yun Feng smashed Randal in the chest. Randal immediately became pale and turned around, holding his chest with a painful expression. Yun Feng waved her hand, which was covered in consolidated blood. Although her hand was still painful, it was easier and more effective to deal with this old bastard with physical strength!

Usually, Yun Feng could've caused little damage to Randal with her physical strength. However, Randal had only regained fifty percent of his strength, and Yun Feng's physical strength didn't depend on her mental strength. It wasn't weakened at all. Randal couldn't possibly take it.

"You..." Randal glared at Yun Feng with widened eyes, and Yun Feng replied with a smile. She attacked ferociously again, and Little Fire and Lan Yi simply blocked Randal. They surrounded Randal in a circle, where he had to endure Yun Feng's storm of attacks!

"I didn't realize that master has such great physical strength." Little Fire was quite impressed. Its master was truly extraordinary.

"Brother Fire, master has always been extraordinary." Little Fire chuckled, and Little Fire nodded in agreement.

Randal tried to dodge. When he counterattacked, he didn't have enough strength. He was a warrior at the peak of the Monarch Level, and yet he had to run under Yun Feng's attack. It was quite hilarious. Yun Feng's fists were punching him without missing any of the attack. Randal couldn't endure any longer. When Yun Feng was about to punch him again, Randal shouted aloud, "Let me go, and I'll tell you information about the Fantastical Beast!"

Yun Feng, Lan Yi and Little Fire all narrowed their eyes. Randal seized the opportunity to catch his breath. He was not nearly as condescending as before. "The emperor cannot tell you anything now. But I can. If you spare me, I'll tell you everything!"

Randal, being at the peak of the Monarch Level, must've lived more than a hundred years, which should be long enough for the most inert man to become shrewd, not to mention that Randal was clever to begin with. He had definitely gained a lot of social experience in his long life. Yun Feng couldn't tell if he was speaking the truth.

Yun Feng was quite interested in Randal's proposal. After all, she had always wanted to learn information about the Fantastical Beast, and the Karan Empire never gave it to her. Yun Feng narrowed

her eyes and stared at Randal. It was very likely that this sly old fox knew about the Fantastical Beast. He had spent a lot of time with the emperor, who must've trusted him very much.

"Master, you'd better not believe what he says," said Little Fire telepathically. Yun Feng was silent. She didn't know anything about the Fantastical Beast. If Randal really knew something, it was a great temptation for her.

If only there were a way to search someone's memory. The idea crossed Yun Feng's heart. If so, Randal wouldn't be able to threaten her. Yun Feng slowed down her attacks and raised her brows, and Randal knew that his move worked.

"Do you really know?" asked Yun Feng casually. Both Little Fire and Lan Yi glanced at Randal. They didn't know whether or not he knew anything about the Fantastical Beast. If he was only bluffing, wouldn't they be tricked?"

"I certainly do. The emperor never avoided me when he had secret meetings." Randal stood straight and held his chest, before he looked at Yun Feng carefully. "How about it, Yun Feng? There's no grudge between us anyway, and I'm offering you such a piece of important information..."

"Do you think I should thank you?" asked Yun Feng angrily. Randal smiled awkwardly. "Yun Feng, my young friend, I never said that." He addressed Yun Feng as young friend. Obviously, he was quite scared of her.

"Speak," said Yun Feng coldly, but Randal didn't say anything. He looked at Little Fire and Lan Yi, which had surrounded him. "Since you've accepted my proposal, shouldn't they..."

"Little Fire, Lan Yi, let him go," said Yun Feng casually. Little Fire and Lan Yi were slightly puzzled, but made way for him. Randal was greatly relieved, and chuckled in a low voice. "Yun Feng, you are truly decisive."

Yun Feng raised brows and looked at him. "Speak. If your intelligence is useful, I'll spare you."

Randal laughed. "My intelligence is surely useful. Listen up!" Randal's fighting energy circulated inside his body, and he stared at Yun Feng. "My intelligence is that the Fantastical Beast is going to appear in..." Yun Feng listened attentively. Then, Randal unleashed his fighting energy, which covered his body and pushed him away like a bullet!

"Damn it!" Little Fire roared and was about to chase him down. Lan Yi unfolded its wings and was about to take off too. However, Yun Feng put on an unusual smile, and simply watched Randal go away in midair. She then extended her arm and grabbed something.

Little Fire and Lan Yi were both enlightened. A ribbon of blue water elements had been attached to Yun Feng's wrist. In the sky, there was a vague line of blue elements that stretched to the distance in the direction where Randal had fled!

"Let's go. Let's find out where he's going." Yun Feng sneered and followed the line of water elements unhurriedly. Little Fire and Lan Yi looked at each other. That old bastard had truly tricked their master like a kid. It was impossible for him to survive now.

## **Chapter 432: The Fengyun Empire (1)**

Randal ran crazily, and scared a lot of birds when he flew across the sky. He was a lot faster than when he escaped earlier. Randal was truly running with all his strength this time. He looked back now and then, and was relieved to see that Yun Feng and the others didn't chase them.

"You're too childish to fight me!" said Randal in a low voice. He never slowed down. He would never feel reassured until he reached a place that was absolutely safe. After running crazily for an entire day, Randal finally arrived in a town in the north of the Karan Empire at dawn. Randal calculated the distance, and concluded that Yun Feng couldn't have kept up with his speed. He had been running for so long, so Yun Feng should've lost him. Randal was truly a sly old fox. He hid himself in a town for two hours to confirm that nobody was following her. Then, he was finally reassured.

After he left the Karan Empire, the world would be his oyster. A man like him would never be short of food or clothing. Relaxed, he revealed himself in the town. He was exhausted because he had run out of fighting energy. He came to a hotel and checked in. Lying on his bed in his room, Randal thought that he would be able to leave the Karan Empire the next day. He had saved enough money in the Karan Empire over the years for him to establish his own enterprise.

Randal was quite ambitious. He was angry about being a royal guard all the time. Although he had privileges and a great position, he was a servant after all. Randal wanted to be in charge. He had been given a lot of good stuff in the Karan Empire over the years. Randal touched the ring on his finger. Inside the ring was all his savings.

Randal raised his hand and wanted to check his space ring. Out of his expectation, he saw a blue line that drifted in the air from underneath his wrist, and stretched out of his room. Randal observed it carefully for a while, and was greatly shocked. He jumped from his bed, and was about to storm out!

"You think you can get away?" Yun Feng's voice came from the outside vividly, giving Randal goosebumps. "Yun Feng! You are a shameless scoundrel to use such a dirty trick!" Randal was quite infuriated. He was in a poor condition. His fighting energy was almost exhausted, and he didn't have the chance to escape anymore.

"You're calling me shameless?" Yun Feng opened the door and walked in unhurriedly. She stared at Randal with a vague smile.

Randal thought quickly and put on an adulating smile. "I didn't mean it. Please don't feel offended, Young Friend Yun Feng. That was only a test. I didn't mean anything else."

Yun Feng put on a smile, and listened to Randal's explanation that didn't make sense at all. Randal smiled awkwardly. "Yun Feng, my young friend, I'm going to tell you all about the Fantastical Beast."

Yun Feng didn't seem touched at all, as if she had lost interest in the news about the Fantastical Beast. Randal became quite worried. Had she changed her mind? He really should've confessed sooner!

Yun Feng unhurriedly sat down on a chair, and Randal opened his mouth and spoke so quickly as if he feared that Yun Feng wouldn't believe him. "I don't know a lot about the details, but I heard something very important. The Fantastical Beast has left some traces in the past century that suggest it visited the human world and is real! Those traces are near the gods' relics!"

Yun Feng pretended to be cool. There were traces of the Fantastical Beast near the gods' relics?? It seemed that she had to explore the relics. Making up her mind, Yun Feng smiled at Randal, and Randal managed a smile too.

"Randal, don't mess with me as if I'm a three-year-old, or I'll be upset." What Yun Feng said made Randal quite anxious. "What do you mean, Yun Feng?? Haven't I told you everything?"

Yun Feng's lips curled. She tapped her chair softly and said, "I gave you an opportunity earlier, but you didn't seize it. Did I promise you that I'll let you go this time?"

"Yun Feng, you..." Randal blushed. The information that he thought would save his life didn't work. He had never been so embarrassed his entire life. He had never run so desperately. His dignity as an expert had been provoked. Randal blushed and looked at Yun Feng angrily. His eyes were almost fuming, and yet there was nothing he could and dare to do.

"Benevolence is a great virtue," said Randal in a low voice. Yun Feng slowly stood up and chuckled. "I return the exact words back to you. Also, may I add that you should never piss off the Yun family."

She clenched her fist and punched. After a grunt, Randal fell to the ground, with regret and embarrassment on his face. Yun Feng looked at Randal who had died just like that with a mocking smile. Then, she noticed his ring, and bent her back.

That old bastard must've looted a lot of treasures. Since she had killed him, she would gladly accept his belongings. She took off his ring, and transmitted her mental strength into it. Randal was dead. Naturally, the protection mechanism of his ring was canceled, and it was fine for Yun Feng to claim it. After sending her mental strength into the ring, Yun Feng clicked her tongue. That old man had indeed collected a lot of treasures. There were a lot of mid-level and even high-level ores.

Next to the ores, a glittering longsword drew Yun Feng's attention. It was the Monarch Level weapon! Yun Feng smiled. That was good stuff. She then looked aside, and saw a huge number of nine-holed weapons. There were even five Commander Level weapons!

## **Chapter 433: The Fengyun Empire (2)**

**Translator:** Henyee Translations **Editor:** Henyee Translations

Was that man going to establish his own sect? He couldn't be using all of those weapons. Yun Feng counted the weapons, and found that there were more than two hundred nine-holed weapons! They were piled up like a hill. Some of the weapons were even embedded with seven level-6 cores!

"How generous." Yun Feng picked up a random weapon and observed it carefully. Randal must've spent a fortune opening the holes and paying for the cores... Yun Feng stowed away the weapons, which were exactly what she needed. The soldiers of the Yun Army and the Red Maple Mercenary Team were in dire need of quality weapons. She had found exactly what they needed.

If Randal knew that his life savings had been given away by Yun Feng, he probably would crawl out of his tomb in fury.

As for the five Commander Levels, she would give her father one. Uncle Flirtatious probably didn't need any. One for Ze Ran, and one for Mr. Zheng Ran... Yun Feng smiled, wondering if Mr. Zheng Ran would despise the weapon, because he might have better ones.

The last two weapons were left for Wang Ming and Zhao Mingqi, who were about to make a breakthrough to the Commander Level. Yun Qi observed the storage container, and found two scrolls of senior commander levels besides the ores and weapons. One of the combat techniques was the Thousand Swords Summoner that Randal used. Yun Feng had experienced its destructiveness in person. If she hadn't protected herself with her master's Monarch Level weapon, she probably would've been heavily wounded. The other scroll was a commander level related to swords too. Yun Feng threw it aside. They were useless for her for now. She could offer the two techniques along with the Monarch Level sword.

In the end, Yun Feng glanced at Randal's body on the ground. She turned her wrist, covering Randal's body with fire elements. Scorched in the fire, his body was soon burnt into ashes and disappeared.

It was already late at night when Yun Feng returned to Chunfeng Town. She looked at Chunfeng Town in the distance from the sky. The town was unusually peaceful at this moment, and the Yun house stood there. It was very small, but it was always her home sweet home. She moved a lot faster. As she approached her home, she clearly detected a lot of visitors.

"Girl!" Ao Jin dashed to the sky and opened his arms, about to hug Yun Feng, but Meatball suddenly emerged from the bracelet space and bared its fangs at Ao Jin. Ao Jin narrowly withdrew his arms. Meatball shivered, as if it was angry. Yun Feng stroked it soothingly, and Meatball finally calmed down. She decided that she couldn't lock it up anymore.

"Uncle Flirtatious, thank you for protecting the Yun family." Yun Feng smiled. Ao Jin scratched his head, and seemed as carefree as before. "Girl, what are you talking about? I only did what I should." Yun Feng smiled and didn't say anything else. She had already seen the two men who were walking out of the room. Both of them seemed so gentle that Yun Feng's heart was softened.

"Father, brother!" Yun Feng called out to them and landed from the sky. She rushed to them. Yun Jing petted Yun Feng with his big hand. He seemed to have fully recovered. Yun Sheng, on the other hand, pulled Yun Feng aside, and didn't stop until he confirmed that she was safe and sound.

Amused, Yun Feng simply allowed her brother to examine her. Her brother was always like a mother to her, taking care of her and fearing that she might be hurt. Qu Lanyi was tired and had already gone to bed, which surprised Yun Feng. That guy had done many things that day, and probably ran out of mental strength too. In particular, he saved her father's life. "Master Yun, she must be Yun Feng, who has destroyed the royal family, right?" A casual and lazy voice echoed and interrupted Yun Feng's thought. An old man with a white beard approached. He wore a sloppy robe that covered his body.

Yun Feng looked at him, and the old man looked back at her with a friendly gaze, which puzzled her. Then, a middle-aged man walked out. Yun Feng narrowed her eyes. "I know you."

The middle-aged man laughed and patted Yun Jing's shoulder. "Your daughter is truly extraordinary. She and I only met once in that awkward situation, and yet she remembers me."

The middle-aged man was one of the people who appeared in the same senior club with her father back in the capital. At that time, she took her father away, destroyed a door, and mocked a middle-aged woman who wanted to claim Yun Jing.

“De Lan, it seems that you’re faster than me. I didn’t know you already met Yun Feng.” The old man wearing a sloppy robe chuckled and stroked his beard. The middle-aged man, who was called De Lan, laughed and seemed quite happy.

“Yun Feng, allow me to introduce myself. I’m De Lan. That old man over there is Shang Lian. Both of us are small businessmen.”

Yun Feng chuckled. “‘Small businessmen’ is too much of an understatement. I don’t think there’s anyone who doesn’t know the De family and the Shang family of the Karan Empire.”

De Lan and Shang Lian both chuckled. “It’s true that young people are always remarkable! Yun Jing, you truly have a great daughter. How I envy you!” De Lan patted Yun Jing’s shoulder, and Shang Lian smiled and narrowed his eyes. Yun Jing didn’t want to beat around the bushes with the two men anymore. “Is there anything you want to say on this late night visit?”

De Lan and Shang Lian both nodded. Yun Jing and Yun Sheng glanced at Yun Feng and said, “Guys, let’s talk inside,” said Yun Jing in a low voice. All of them walked in, and the others went out. After all, not everybody was qualified to attend the meeting.. After the five of them sat down, Shang Lian and De Lan looked at each other, and De Lan said, “Yun Feng, we’re here tonight because we want to discuss with the Yun family about the future path of this empire.”

### **Chapter 434: The Fengyun Empire (3)**

Yun Feng suddenly smiled when she heard that. She gracefully looked at the leaders of the two families who wore thoughtful expressions. To discuss the future of the empire with the Yun family? That’s an interesting proposal.

“What does the Yun family have to do with the future of the empire? You two families should take over everything of the Karan Empire. I think the Yun family is not worthy enough to decide the future of the empire.”

De Lan and Shang Lian both smiled at Yun Feng. “Yun Feng, you’re being too modest. Is there anyone who doesn’t know how loyal the Yun family was to the empire? The royal family had themselves to blame for what happened to them.”

Yun Feng could tell the indignity and mockery in De Lan’s words. Getting to the bottom of it, the two families had dutifully served the Karan Royal Family for years too, and were quite close to the royal family. However, it was not until Yun Feng roared the truth of the international contest that they finally realized that the Karan Royal Family had only been taking advantage of them. Even though they were appreciated on the surface, they were never informed of the shocking secret. Naturally, they had every reason to hate the Karan Royal Family for monopolizing all the treasures.

“Are you worried about the Yun family’s public image? Hehe. Don’t worry about that. We will appease those people.” Shang Lian chuckled, and De Lan nodded. Yun Sheng and Yun Jing were both silent. Both of them relied on Yun Feng’s opinion. She would be the one who would make the final decision.

The Yun family destroyed the royal family in the capital overnight, which was definitely shocking news. Yun Feng knew very well how other people would think of the Yun family. It was inappropriate for the Yun family to get involved in such things yet, or it would become a public enemy. Its reputation of loyalty would all be gone. Although the two old guys had come courteously, they weren't really humble. They were probably here only to make a gesture. If the Yun family were truly to rise to the top, they wouldn't be happy.

"Thank you for protecting the honor of the Yun family. I appreciate it," Yun Feng smiled and said modestly. De Lan and Shang Lian both felt comfortable to hear that. "Yun Feng, you're being too kind. We're only doing what we should. About our proposal..." De Lan raised his brows and stared at Yun Feng, waiting for her answer.

"Thank you for respecting us, but the Yun family is not nearly as powerful or influential as your families. This matter is so important that you should discuss between yourselves. If you need the Yun family's advice, we'll gladly offer it, but you have to make the final decision."

Both De Lan and Shang Lian were delighted, but they pretended to persuade Yun Feng again. Yun Feng patiently refused them several more times, until they finally gave up. Both De Lan and Shang Lian seemed to be in a good mood. "Yun Feng, you are an excellent junior. Shang Lian and I like you. If it's fine with you, let's respect each other as peers!"

Yun Feng smiled. "Then as you wish."

"Haha! The Yun family is truly different! It's time that the Karan Empire's name be changed. Right, the Yun family has done a lot. What do you want in return?"

Yun Feng smiled. She did have something she wanted, and it was obvious that she could ask for it. "Now that you've mentioned it, I'll just be straightforward. Chunfeng Town is the Yun family's root. I want to have this place."

Both De Lan and Shang Lian were stunned. They expected the Yun family to ask for ores, guards, gold, or something else, but certainly not a place! De Lan managed a smile. "If you want it, Yun Feng, you'll have it."

Shang Lian slightly frowned. Chunfeng Town was just a remote place anyway. It would be fine even if the Yun family had it. Shang Lian also nodded. "This place will belong to the Yun family. Let's call it Yun Town in the future."

Yun family smiled. "Guys, the Yun family has never been interested in politics. We simply want to live a peaceful life in our town. Please grant our wish."

What she said made De Lan and Shang Lian change their expression. Was the Yun family going to be independent and isolated? If so, Yun Feng's identity as a summoner would be no good. They might suffer losses if the other three empires were to attack.

Another reason why De Lan and Shang Lian were adulating Yun Feng was to make Yun Feng take their side. The Karan Empire was in turmoil after the royal family's fall. Although the two families had stabilized the situation, the country wouldn't be truly safe from the invasion of other empires until it was protected by a summoner.

“Don’t worry. Whenever you need my help, feel free to talk to me,” said Yun Feng with a smile. The two families were different from the Karan Royal Family. They were competitors to each other, and they treated the Yun family courteously. They certainly wouldn’t dare to regard the Yun family as servants. The two sly old foxes knew that Yun Feng wouldn’t tolerate that. That was exactly why the Karan Royal Family was doomed.

Both De Lan and Shang Lian were relieved. Nothing reassured them better than that. “Haha. We’re reassured now that you’ve promised that, Yun Feng! We’ll surely restore the reputation of the Yun family!”

De Lan and Shang Lian then said goodbye and returned to the capital at night. After they left, the three members of the Yun family changed their seats. Yun Jing took the main seat, and Yun Sheng and Yun Feng sat aside.

“Feng, is this really appropriate?” asked Yun Jing in a low voice.

Yun Feng smiled. “The Yun family cannot stay isolated, so we will just stand on the subtle balance point. The De family and the Shang family will surely hold each other back. Both of them will try to appeal to the Yun family. The Yun family is as powerful as any empire right now. The other three empires have to treat the Yun family with respect. This balance is exactly what I need.”

#### **Chapter 435: The Fengyun Empire (4)**

Yun Sheng put on a smile of compliment after hearing that. “Feng, you’re truly smart! In doing so, nobody on the East Continent will dare to do anything to the Yun family. If they do, the Yun family’s summoner will join hands with their enemy.”

Yun Feng nodded. That was exactly what she wanted! The Cashya Empire’s summoner had been weakened. There was nothing that Cashya could do except to keep a low profile!

“So in conclusion, the Yun family will be at peace.” Yun Jing took a breath of relief. Yun Feng smiled. That was true. Henceforth, the Yun family wouldn’t be attached to any empire on the East Continent. Just like Yun Feng said, the Yun family would be its own master.

“Right, father, brother, gather all the soldiers of the Yun Army tomorrow.”

“Okay.” Yun Jing and Yun Sheng both nodded. They didn’t ask what she was going to do.

The next morning, all of the soldiers of the Yun Army were gathered in the Yun family’s yard, which wasn’t very big. Everybody was excited and hopeful. It had been a long time since their lady gathered them! They were naturally excited. They were proud of themselves as soldiers of the Yun Army too. Ever since they joined the Yun Army, their strength had been rising. At this moment, they were level 7 on average, and the strongest of them were level-9 warriors!

All hundred of the men stood straight in the same place and simply waited for Yun Feng’s arrival quietly. When the three members of the Yun family walked out of the room, all of them roared, “All soldiers of the Yun Army, reporting for duty!”

Their voices rose to the sky with unprecedented vigor. Hearing their shouting, Yun Feng couldn't help nodding in approval. The Yun Army's rapid development was worth celebrating for the Yun family. Also, it was very valuable that the hundred people had never betrayed the Yun family.

"Thank you for protecting the Yun family for all these years. Well done." Yun Feng glanced at the hundred soldiers and thanked them sincerely. Yun Jing and Yun Sheng both smiled gratefully too.

"It's our honor!" cried one of the soldiers, blushing. "We've only done what we must for the Yun family and for the lady!" After shouting that, the soldier's face became completely red. The other people all laughed, and Yun Feng wore a smile too.

"You're right! As the soldiers of the Yun Army, we will sacrifice ourselves for the safety of the Yun family!" cried another soldier. Yun Feng smiled. "I'm very reassured that the Yun family is under your protection. I'm delighted at the Yun Army's development over the years. You should be able to find a great job now."

Every soldier of the Yun Army was strong enough to find a good job. Why would they stay in the Yun family as insignificant guards? However, none of the soldiers ever left. Even the level-9 ones had stayed in the Yun family for years.

The soldiers of the Yun Army had been influenced by the Yun family, and became loyal and grateful as the members of the Yun family were. They owed everything they had to the Yun family, so naturally they couldn't be ungrateful villains.

"Yun Feng, you must be kidding! We all want to stay!" The soldiers cried and grinned. Yun Feng looked at their sincere faces and put on a smile. Those people had truly lived up to her expectations.

Yun Feng turned her wrist, and a hill emerged in front of the soldiers. When the soldiers clearly saw what the hill was made of, they all breathed heavily. The hill was... a pile of nine-holed weapons with seven crystals. All of them were!

Some soldiers greedily wiped their saliva. Their eyes were glittering too. How much would so many nine-holed weapons cost? Their Young Lady was truly extraordinary!

"Young Lady, these are..." The soldiers weren't even certain that the weapons were for them. They looked at Yun Feng excitedly and suspiciously. Yun Feng smiled. "Those weapons are gifts for you, in return for everything you've done for the Yun family over the years."

Some soldiers couldn't help exclaiming. Indeed! It was always rewarding to follow the Young Lady! Yun Jing and Yun Sheng had already known that Yun Feng had those weapons. With the mid-level ores they received last time and the rare expensive weapons this time, the Yun Army was even stronger than the army of an entire country.

Every soldier of the Yun Army received a nine-holed weapon with seven crystals, which was something to be proud of. Not every family was rich enough to buy a hundred such weapons at the same time! All the soldiers were excited, and even more devoted and loyal to the Yun family.

The last hundred weapons were left for the Red Maple Mercenary Team. Yun Feng thought that it was time to visit Red Maple, which offered the Yun family a lot of help when she was gone. They had left

before Yun Feng returned. After all, the Mercenary Union had its own rules. They had already done enough to help.

De Lan and Shang Lian did an excellent job restoring the Yun family's reputation. The loyalty of the Yun family and the shamelessness of the Karan Royal Family were disseminated. All the dirty things that the royal family did were revealed, and the Yun family was described as heroes! At this moment, everybody was applauding for the fall of the Karan Royal Family.

After the Karan Royal Family was destroyed, the two families put the riots to an end as fast as possible. Thanks to all the propaganda, the people didn't consider it a big deal anymore. It didn't matter who their monarch was as long as their life was the same.

Just as Yun Feng expected, the De family and the Shang family became competitors. After a meeting, the Karan Empire's name was changed. Since the Karan Royal Family was already gone, the Karan Empire naturally didn't exist anymore. The new name for the empire was rather surprising for Yun Feng. It was... the Fengyun Empire.

### **Chapter 436: The Fengyun Empire (5)**

There was no telling if De Lan and Shang Lian did it on purpose, but the similarity between Yun Feng's name and the Fengyun Empire's made her rather helpless. Soon, the Fengyun Empire replaced the Karan Empire as the country's name throughout the country. Few people had objections. It was nothing more than a change of name and leadership. However, a certain someone in the Masang School of Magic couldn't hold any longer.

The entire Karan Royal Family had been annihilated except Kasa. She sometimes even wondered if she should have killed herself back then. She was outraged at first, and humiliated later. Her mood had hit rock bottom. The fall of the Karan Royal Family deprived her of the princess title that she was always proud of. Also, because of the scandals of the Karan Royal Family that had been spreading out, she turned from the high and mighty princess of the Karan Royal Family into a clown that everybody gossiped about.

Kasa had quit the Fire Society. Rather, she was forced to resign as the society's leader. She avoided everybody. Their unusual gaze made her want to dig a hole in the ground and hide.

Kasa was becoming more and more infuriated as each day passed. Every night in her dream, she gnashed her teeth and mumbled the same name... Yun Feng! Although Kasa wasn't there to see the bloodshed in the capital, she had heard about it from other people. Her father, uncle, siblings and cousins had all died, without any survivors. The royal family had been completely eliminated. Kasa was grieved and overcome with hate, but she knew she was incapable of seeking revenge. There was nothing she could do about Yun Feng!

Kasa, who had always been gifted at stupidity, seemed to have changed all of a sudden. She didn't cause trouble as she usually would've. Rather, she kept a low profile and trained very hard in the Trial Tower every day, trying crazily to improve herself, even though other people looked at her with contempt, disdain or sympathy every day. Kasa gradually turned sullen. Even her friends didn't dare to reach her easily.

In the Masang School of Magic, Kasa had been completely isolated. To be more exact, she had nothing left. The Murong family, which had almost arranged a marriage with the royal family, felt lucky that Murong Yuntian insisted on refusing it. Nobody expected the Karan Royal Family to be exterminated so quickly. Good thing that the Murong family didn't get involved, or it would surely suffer too.

Murong Ran didn't dare to speak ill of Yun Feng anymore in the Masang School of Magic. Yun Feng was too strong and powerful at this moment for her to compare. Mi Lingli, the double-element mage, lost her passion too. Yun Feng was a double-element summoner. How could she compare to her? Besides, Yun Feng had destroyed the Karan Royal Family! The two of them always felt bad when they thought of Yun Feng. They might have all been on the same level at some point, but in the blink of an eye, the two of them had been left so far behind that they couldn't possibly catch up.

The Karan Empire had been officially renamed as the Fengyun Empire, and the Yun family became the real master of Chunfeng Town. It also found the perfect point of balance. The other three empires all clicked their tongues when they heard what happened to Karan. The Fengyun Empire. That was really a special name.

Chunfeng Town became an independent area that was ruled by the Yun family. Everything was back to peace. Yun Feng seized the opportunity to take a rest. She stayed with her father in Chunfeng Town for a while, just in case anything happened. She also made use of the time to study the fusion of elements.

Inside her room, Yun Feng had just sat down, when she detected that the Sound Transmission Jade inside her bracelet was buzzing. She took out the Sound Transmission Jade, and put on a cold smile. The Sound Transmission Jade soon emitted a voice. "Uncle Randal!"

Naturally, Yun Feng was holding Randal's Sound Transmission Jade. After Randal died, Yun Feng took his space ring and everything inside it. She hadn't erased the information on the Sound Transmission Jade yet. When Kasa's voice came from the other end of the jade pendant, Yun Feng sneered. Was the stupid princess finally done waiting?

She thought for a moment. Although Kasa never left the Masang School of Magic, it was impossible that she didn't know about the fall of the Karan Royal Family. She was probably calling Randal so desperately because she wanted to fight one last time. Yun Feng speculated that Kasa was calling Randal to deal with the Yun family.

Yun Feng lowered her voice and hummed in a low voice. Although Kasa was worthless, she would cause trouble if she was left alive. It wouldn't be easy to kill her in the Masang School of Magic, so it was better to seize the chance and lure her out. Yun Feng's reply was brief, and her voice wouldn't expose her. Soon, Kasa sounded quite excited. "Uncle Randal! It's truly you! You're safe!"

Yun Feng hummed again, and sounded right unhappy. Kasa sensed the atmosphere. "Uncle Randal, I know you must feel terrible about the fall of the Karan Royal Family. I've lost my father, uncle, and brothers and sisters overnight." Kasa sounded quite depressed, but Yun Feng simply found her pathetic.

Kasa mumbled on for quite a while, and Yun Feng didn't interrupt her. After she was finally done, she stopped choking and became brutal again. "It's all Yun Feng's fault! If it weren't for her, the Karan Royal Family wouldn't have endured such a misfortune! That b\*\*ch!"

Yun Feng raised her brows, but wasn't infuriated. Meatball on her shoulder, however, grimaced and bared its fangs. Yun Feng shook her head, asking Meatball to keep silent. Meatball finally lay down again, but it stared at Yun Feng's Sound Transmission Jade with obvious fury.

"Uncle Randal, for old time's sake, you must help me!" Kasa implored. However stupid she was, she knew Randal's identity very well, and she dropped all her condescending attitude.

"Oh?" Yun Feng replied in a low voice. Kasa thought that Randal accepted her request, so she said quickly, "Uncle Randal, you only need to do something easy, which is to attack the Yun family! It will be fine as long as you kill one or two members of the Yun family! I believe my father will be delighted in the other world! The Yun family will be destroyed exactly as it destroyed the Karan Royal Family!"

### **Chapter 437: Meatball (1)**

Yun Feng became completely cold. Destroyed? She was indeed right that Kasa should be sent to the other world since it would be a disaster if she was left alive. "Okay," said Yun Feng in a low voice. Kasa was quite delighted to hear that.

"Uncle Randal, I'm so happy that you accepted my request! The Karan Royal Family was right to trust you! I'm going to Chunfeng Town from the Masang School of Magic right now! I'm going to witness the Yun family's grief!"

Yun Feng smiled coldly, and the Sound Transmission Jade glittered again. "Uncle Randal? Why are you so quiet? I'm the one who's talking this whole time..."

Yun Feng fell silent, and Kasa's voice came again. "If you're unwilling to talk, Uncle Randal, it's fine. I'm very happy that you accepted my request, Uncle Randal. I'll meet you in Chunfeng Town in three days."

Yun Feng clenched her fist and cut off the connection on the Sound Transmission Jade. Meatball roared angrily on her shoulder, despising Kasa for her sordid plan. Yun Feng stroked Meatball's fur and smiled coldly. Kasa, let's meet in Chunfeng Town in three days!

Kasa was quite happy in the following three days. After all, she didn't expect Randal to accept her request so easily. Kasa left the Masang School of Magic for Chunfeng Town in delight. The closer she got to Chunfeng Town, the angrier she became. Everything that happened to the Karan Royal Family was because of Yun Feng. She wouldn't stop until the Yun family was destroyed! Things should be simple with Randal's help. Even if Yun Feng was at home, so what?

For Kasa, Randal was an omnipotent expert that could do anything. Being at the peak of the Monarch Level, Randal was indeed extraordinary on the East Continent. However, Kasa didn't know that the extraordinary expert had already been slain by Yun Feng.

Yun Feng waited quietly in Chunfeng Town for three days for the idiot to arrive. Three days later, her Sound Transmission Jade glittered and emitted Kasa's voice. "Uncle Randal, I'm here." With a smile, Yun Feng flashed out of her room, and leaped into the sky. The Sound Transmission Jade was still glittering in her hand. "Uncle Randal, I'll wait for you in the suburb near Chunfeng Town's gate."

Yun Feng looked out of Chunfeng Town. Ever since Chunfeng Town became an independent area, special defenses had been established around it. Its gate became one that was similar to the gates of big

cities. This area was much more heavily guarded than before. Yun Feng moved to the suburb quickly, and soon saw Kasa from the sky.

Meatball rose on her shoulder and exclaimed in a low voice. It seemed about to charge forward. Yun Feng stroked Meatball with a smile. That little creature seemed to be getting more and more cranky. It wasn't upset so easily before. Finally, Meatball calmed down, and Yun Feng landed not far from Kasa, before she walked to her slowly.

Kasa waited uneasily. Hearing the footsteps behind her, she turned around in delight, but then her expression was frozen. "Ran... It's you!" Kasa's eyes widened. She watched Yun Feng approach her, and turned around and fled without thinking. She was not stupid. She knew that something was wrong.

Uncle Randal is conspiring with Yun Feng! That was the idea in Kasa's head. She tried to run, but it was very easy for Yun Feng to catch her. A wind rose, and Kasa found a person standing in her way. She came to a sudden halt, and looked at the girl, gritting her teeth. Knowing that she couldn't get away, she decided to fight back. The Karan Royal Family was gone. What else did she have to lose? What did she need to fear.

"Yun Feng, you're so shameless! You conspired with Uncle Randal to set me up! How shameless!" Kasa yelled, blushing. They were in the unpopulated suburb of Chunfeng Town. Nobody was around.

"Nana!" Meatball shouted loudly on Yun Feng's shoulder, and its cute little face became scary. Kasa was quite scared, but she moved forward nevertheless. Yun Feng smiled and took out Randal's Sound Transmission Jade. Kasa's eyes widened when she saw that. "You stole Uncle Randal's Sound Transmission Jade!"

Yun Feng smiled. "Kasa, your Uncle Randal doesn't exist in this world anymore."

Kasa was completely dumbfounded. Yun Feng's voice echoed in her head. He doesn't exist in this world anymore... Could it be... "No! That's impossible! How can Uncle Randal be killed?" Kasa didn't believe it. Randal was too strong to die. Who could possibly kill him? Could it be... Kasa finally glanced at Yun Feng, whose smile became even colder.

"It was you!" Kasa shrieked.

Yun Feng frowned in contempt. That understanding came too late. Kasa gazed at Yun Feng, and suddenly laughed aloud crazily. "Hahaha! Yun Feng, you will have your retribution! The Yun family will have its retribution!"

Yun Feng narrowed her eyes. It was fine to curse her, but not the Yun family. Kasa laughed crazily and kept cursing aloud with a malicious expression. "You've destroyed my everything! You'll have your karma! Just wait for it!"

"What a noisy woman." An exceptionally cold voice echoed, and Kasa was unable to speak another word. She held her neck, as if he were greatly discomfited. Her face was turning red and purple.

A person appeared out of nowhere next to Yun Feng. It was none other than Qu Lanyi, who stared at Kasa as if she were a clown. There was infinite contempt and mockery in his eyes. "She's indeed noisy," mumbled Yun Feng. She opened her hands, invoking bright fire elements. Seeing that, Kasa shivered. Her grit was all gone, and she struggled to escape.

## Chapter 438: Meatball (2)

Gradually, Kasa's eyes widened and she stuck out her tongue. Her lips were saying no. If she could make a sound, she would've screamed miserably. The fire elements in Yun Feng's hand finally rose and lunged towards Kasa, covering her entire body. Her face was completely twisted, but nobody could hear her scream. In the end, Kasa's body was twisted into a weird shape, and she stopped moving. The last member of the Karan Royal Family was gone from this world.

Yun Feng coldly looked at Kasa's burnt body without the slightest pity. Feeling Yun Feng's mood, Meatball nuzzled against her cheek. Yun Feng came back to herself and looked at Qu Lanyi who had appeared out of nowhere. "When can you stop eavesdropping on other people?"

Qu Lanyi smiled and held Yun Feng's hand in his own. Yun Feng didn't dodge and simply let him hold it, but Meatball wasn't very happy on her shoulder, and waved its furry tail. Qu Lanyi narrowly dodged it.

"I'm only concerned for you, Fengfeng. I never feel reassured until I see you." Qu Lanyi smiled, which made his alluring face even more beautiful. Qu Lanyi had a gender-neutral beauty that allowed him to switch his gender without making anyone feel awkward. He was stunning both as a woman and as a man.

"Fengfeng, it's time to consider something else." Qu Lanyi held Yun Feng's hand and took her back to Chunfeng Town. Yun Feng simply let him hold her hand, and stared at their hands. Qu Lanyi's hand wasn't very big, and his fingers were fair and narrow. No wonder he had pretended to be a woman for so long without being seen through. He had the exact body figure and skin of a woman.

Yun Feng couldn't help glancing at Qu Lanyi's breasts. Despite the blockage of his clothes, there was an obvious curve on his chest. Yun Feng unconsciously looked at her own breasts. She was already 15, and her body had grown a lot without her realizing yet. Her breasts were indeed rising, although not very significantly. Thinking about that, Yun Feng became gloomy again. Was Qu Lanyi a man or a woman? If he was a woman, then who was the naked man she saw last time? If he was a man, why did he have breasts? Did he have any stuffings here?

"Qu Lanyi, are you a man or a woman??" Yun Feng stopped and gazed at him. Qu Lanyi suddenly smiled. His curled lips were quite fascinating. He held Yun Feng's hand and pressed it against his breasts. Yun Feng immediately blushed. She waved her hands, locking up the space around them. Seeing that, Qu Lanyi put on a mischievous smile. "Do you want to spend some alone time with me?"

Blushing, Yun Feng tried to withdraw her hand, but Qu Lanyi wouldn't let it go. He pressed her hand against his breasts, and Yun Feng felt that the breasts were clearly real. She was greatly shocked, and Qu Lanyi said, "Be gentle."

Yun Feng's face turned red, and she quickly withdrew her hand. "Qu Lanyi, you are a pervert!" That androgynous man!

Qu Lanyi laughed with a manly voice. Then, he extended his arms and held Yun Feng between them. Surrounded in his arms and touching his body closely again, Yun Feng felt an obvious difference. The soft breasts she felt were gone, and Qu Lanyi's chest was as flat as any man's.

Qu Lanyi's finger crossed Yun Feng's cheek. The flirtatious movement made Yun Feng blush again. Before Qu Lanyi did anything else, Meatball had bitten heavily on his shoulder. Qu Lanyi was quick enough to let go of Yun Feng. He was rather dissatisfied. "Isn't that thing too possessive? I'm already your man. Why is it still so mean to me?"

Meatball opened its mouth and bared its fangs, as if it were announcing to Qu Lanyi that Yun Feng was nobody else's! Meatball simply stared at Qu Lanyi with the same expression. Qu Lanyi snorted. Yun Feng finally calmed down after leaving Qu Lanyi's arms.

"Fengfeng, I'm an out-and-out man. If you don't believe me, feel free to examine me!" Qu Lanyi put on a charming smile at Yun Feng, which only made her feel cold. She glared at Qu Lanyi and canceled the space blockage. Then, she walked back to Chunfeng Town.

Qu Lanyi chuckled and walked next to Yun Feng, staring at Chunfeng Town. "it's time to consider the other thing, right?" Qu Lanyi's voice drifted like the wind. Yun Feng looked ahead without turning her head. "Yes. It's said that the exploration of the gods' relics will begin in a couple of months."

After the fall of the Karan Royal Family, the qualification of exploration was transferred to the two families who had reached a balance. They had ended on bad terms with the Karan Royal Family and badmouthed it mostly because of the relics. They were infuriated by the emperor's selfishness. It was better now. The two families would share whatever they might find from the relics. That wasn't bad.

As Yun Feng expected, neither of the two families forgot the Yun family. Both of them tried to win her support. It wasn't easy for Yun Feng to ask for the openings on the team from the emperor, but she was given a lot without doing anything this time.

Because the three empires were going to explore the relics together, there were only a fixed number of spots. After discussions, it was decided that every empire would send ten explorers. For the De family and the Shang family of the Fengyun Empire, five spots for each family were too many. They were just secondary families anyway, and not as powerful as the royal families of other empires. There weren't a lot of experts in their families.

Naturally, they wanted Yun Feng's support. The Yun family was well-known to be loyal and trustworthy. The two families were smart enough not to repeat the emperor's mistake. They generously declared that she could bring as many people as she wanted. Naturally, Yun Feng knew that they wanted returns for their generosity. For example, they wanted a share of the loot, or benefits in other ways.

### **Chapter 439: Meatball (3)**

Yun Feng had asked for three spots earlier, and she asked for another three. Those two families weren't very happy, and wanted her to take more, but Yun Feng declined. There was nothing they could do. They could only try to find experts in other ways. The Fengyun Empire clearly didn't have as many experts as the other empires did, so it wouldn't get as much loot in the exploration.

Naturally, Yun Feng had plans about the three spots. Her father couldn't come along. He had to stay and supervise the Yun family. Qu Lanyi would go with her. Uncle Flirtatious didn't seem to be leaving. He would be one of her companions too. He was not as greedy as other dragons. As for her brother and Mu Xiaojin, they would surely come along too.

There were two months to go until the exploration of the gods' relics. Every country was making preparations, hoping to be the greatest winner in the exploration. Yun Feng had sent the batch of nine-holed weapons to the Red Maple Mercenary Team, who were excited and proud of their lady's capabilities again. Zhao Mingqi and Wang Ming were even grateful to the Yun family for the Commander Level weapons they received, and became more loyal.

Mr. Zheng Ran was truly an expert. He wasn't too excited after receiving Yun Feng's Commander Level weapon. He simply nodded and praised her. Yun Feng was truly an excellent young woman. No other geniuses on the East Continent could compare to her or achieve what she did.

Yun Feng chatted with Zheng Ran for a while. Zheng Ran knew about the gods' relics too, and gave Yun Feng a few reminders. She accepted them all with a smile. Everything had come to an end.

In the Masang School of Magic, Yun Feng and Yun Sheng were still students. The Vice Principal didn't care about what happened. Ted was waiting for them to come back too.

Yun Feng intended to spend the two months at home improving her expertise of fusing elements. Qu Lanyi and Ao Jin were training in seclusion, and so were Yun Sheng and Mu Xiaojin. Yun Feng smiled. She certainly couldn't be the only person who wasn't diligent.

In Yun Feng's room in the Yun house, Meatball sat next to Yun Feng, and didn't rest on her shoulder as usual. It rolled its big eyes curiously and stared at her.

At this moment, in Yun Feng's hands, two light balls made of elements the size of grapes, one bright red and the other gentle blue, were hopping. Recently, Yun Feng had tried different combinations of elements. Every combination of two elements had a surprising effect. She almost blew up her room by accident several times.

Meatball smartly kept its distance from her because elements hit it during one of the fusion accidents. Although it wasn't really hurt, it was still quite angry, and felt sorry for its smooth and soft fur, which made it look like a fancy pet that only the rich people could afford. Of course, Meatball was indeed a fancy pet. After all, its food was high-level and ultimate ores.

This was Yun Feng's latest attempt. What would happen if the fire element and the water element, which were opposite to each other, were fused? There were a lot of combinations of elements, which expanded the spectrum of Yun Feng's spells. This was the first time she had tried fusing the opposite elements. She didn't know what would happen.

The two types of energy didn't have a lot of energy, and Yun Feng was only testing. She could take care of it if any accident happened. Calming herself down, Yun Feng slowly pressed the elements in her hands against each other. Meatball moved further aside and winked, as if it were ready to run. Yun Feng glanced at it helplessly and hit the elements in her hands!

Rejection and resistance. That was the feeling that Yun Feng felt every time she fused elements. However, the rejection and resistance this time were greater than ever before. Water and fire were utterly incompatible. Naturally, their rejection of each other was much more powerful than before!

The fusion was more difficult than ever before! That was what was on Yun Feng's mind. Although the two elements were only the size of grapes, they caused clear pain on her hands and even arms that she

had only felt when she used the ultimate technique! She stared at her palms, where the two element balls were roaring and crazily rejecting each other. She gritted her teeth and pressed even harder, trying to make the elements accept each other!

Pain. Excruciating pain came from her hands. Sweat dripped from Yun Feng's forehead. The element balls weren't as obedient as usual. They were still resisting, as if they wouldn't bend no matter how Yun Feng tried!

"Kid, close your eyes!" The ancestor's voice echoed in Yun Feng's head. She instantly closed her eyes, and found herself in the middle of darkness. Instantly, the elements that she held in her hands were displayed in front of her eyes. Everything looked different!

The elemental energy that was previously in the form of balls was dismembered in the dark world. It turned into jumping and rolling spots in Yun Feng's eyes. The spots of elements gathered and resisted the elements that were in a different nature. Yun Feng observed carefully, and suddenly had an idea!

If she scrambled the spots of elements and then rearranged them, preventing them from gathering... Yun Feng's mental strength was gathered into an invisible hand, disrupting the concentrated spots of elements as she planned. Countless red and blue spots of elements filled the dark world in disarray after they were scrambled. The giant hand of mental strength quickly fused the spots of elements and rearranged the different elements. Although the rejection force lingered, it wasn't as powerful as when they were gathered, and could only be at Yun Feng's disposal!

#### **Chapter 440: Meatball (4)**

Okay!

Yun Feng suddenly opened her eyes, and saw everything in the room again. She slowly opened her hands, and found that the two types of elements that had been rejecting each other were already perfectly fused. The red color and the blue color intertwined, and it looked as beautiful as a brilliant gem. Yun Feng had gotten the hang of fusing elements, and found the key a moment earlier!

The perfectly fused elemental energy in her hands suddenly shivered. Yun Feng became anxious, and knew it was bad. The fused elements were already about to explode. She had no time to disperse them. If it exploded, then the Yun family would surely be destroyed!

"Swoosh..." Something flashed past Yun Feng, who felt that a warm object had landed on her hand. She looked again, only to find that Meatball had opened its mouth and swallowed the mixture of elemental energy!

"Meatball!" roared Yun Feng, but she didn't have time to stop Meatball anymore. She could only watch it swallow the fused elemental ball that was emitting scary energy waves. The next second, Meatball's furry body expanded like a balloon. Yun Feng even heard an explosion in its stomach. However, Meatball's body slowly retracted after the expansion, as if the air in the balloon had leaked. It opened its mouth, and spouted the remaining energy waves. Seeing that, Yun Feng immediately grabbed it by its neck and put it down in front of her.

"Are you alright?" Yun Feng examined Meatball and squeezed its belly. She was quite scared. Her pet was truly bold enough to eat everything! What if it had exploded because of excessive energy?

Meatball winked and looked at Yun Feng pitifully. It also patted the back of Yun Feng's hand with its tail, and called out to her. Yun Feng could only put on a helpless smile, and flicked Meatball's forehead heavily. "Don't do that ever again. Got it?"

The flicking was rather painful, and Meatball looked at Yun Feng rather pitifully. Yun Feng found it impossible to turn a blind eye to its cuteness. She took out a glittering ultimate ore. Seeing that, Meatball cried with glowing eyes. Yun Feng put the ultimate ore into its mouth, and it narrowed its eyes adorably in satisfaction.

Yun Feng tapped Meatball's forehead. Meatball was having a great time eating the food. Putting it on her shoulder, Yun Feng walked out. She had set both Little Fire and Lan Yi free. They didn't stay with her all the time and she never restrained them. It didn't matter even if they went far away. After all, they could always reach out to each other through telepathic communications.

Cracking noises came from Meatball's mouth. Those were the sounds of the ultimate ore being ground by its sharp teeth. It wiggled now and then, nuzzling Yun Feng's face while it enjoyed the food.

Ao Jin had returned to the dragon clan. As the leader of the clan, he certainly couldn't abandon it. Yun Feng's troubles had been mostly taken care of. He would come back when the exploration of the gods' relics began. Yun Feng glanced at the other rooms. The Yun house had been expanded a bit. After all, not just she and her brother lived here anymore. There were also Qu Lanyi and Mu Xiaojin, but their rooms were both closed. Yun Feng smiled and walked to the study.

She had expected to meet her father in the study, but Yun Jing wasn't there. Hardly had Yun Feng walked out of the study when she heard a voice from the hall. "Uncle Yun, is Yun Sheng here?"

Yun Feng frowned and walked to a corner of the hall, observing the girl who had just come in. She was a young and vibrant girl who was probably around eighteen years old. She loved smiling, and there were two dimples on her cheeks every time she smiled. Although she wasn't very pretty, the smile made her quite attractive.

"Unfortunately, Sheng is training in seclusion," replied Yun Jing. The visitor heaved a sigh of disappointment. Yun Sheng had been quite popular. All the unmarried girls in Chunfeng Town were visiting the Yun family and hoping to make friends with him. Many families who had moved to Chunfeng Town from other places fixed their eyes upon Yun Sheng too. Although Yun Sheng was handsome and strong, he had never been this popular.

Those families had their own plans. The Yun family was different from before. Its identity and position had risen to a new level. Chunfeng Town was already an independent area, and a kingdom in a way! It was impossible for them to marry the Yun family's daughter, but the Yun family's son certainly wouldn't find a wife who was stronger than him, would he? So, Yun Sheng became the most ideal son-in-law of all those families. The girls admired him too. After all, he was quite handsome.

Luckily, Yun Sheng had been training in seclusion. Otherwise, the threshold of the Yun house would've been flattened by the visitors. The girl talked to Yun Jing for a while, and didn't seem willing to go. Yun Jing found it inappropriate to just tell her to go away. Yun Feng watched curiously from the corner. Unexpectedly, Yun Sheng's voice came from the yard.

"Let's take a walk today. You haven't really visited this town yet, have you?"

Yun Feng looked over there, and found that her brother and Xiaojin were talking and smiling. It seemed that her brother was taking Xiaojin for a walk. Yun Feng smiled. Weren't her brother and Xiaojin a perfect couple? She certainly wouldn't give him away to another woman easily.

"Brother Yun!" The girl, who had been sitting steadily in the hall, rose and ran towards Yun Sheng the moment she heard his voice, as if she were going to throw herself into his arms. Yun Sheng dodged agilely, and smiled at the eager woman. "Miss, who are you? Do we know each other?"
