

## Summoner 71

### Chapter 71: The Lin Family, Eliminated

Even though this was just the first step, even though it wasn't a big deal, Yun Jing's excitement couldn't be concealed anymore. Once he returned to the Yun family, he had entered the ancestral hall and still hadn't come out until now.

Finally, the door moved. Yun Jing appeared in front of the brother and sister expressionlessly or even solemnly. Seeing that Yun Sheng and Yun Feng had been waiting outside, Yun Jing showed a pleased look. His son and daughter were all grown up and were both responsible!

"Feng, come in."

Yun Feng nodded. Yun Sheng also let go of Yun Feng's hand and gave his sister a gaze of encouragement. Yun Feng smiled as she entered the ancestral hall. Her sullen father then shut the door. Yun Feng knelt on her knees on the ground without even thinking about it, quickly and neatly!

Yun Jing also knelt next to Yun Feng. The two of them looked at the forebears of the Yun family enshrined in the ancestral hall. The painting of the ancestor was hanging right ahead of them. That uninhibited smile was arrogant and confident!

"Yun Feng, are you ready to bear the expectations of the Yun family from the last few centuries?"

Yun Feng's black eyes immediately moved as she clenched her fists quietly on the sides of her body. "Yes!"

"Yun Feng, are you ready to bear the responsibility of the Yun family from the last few centuries?"

"Yes!"

"Yun Feng, are you ready to give your all for the Yun family until the day you die, as a member of the Yun family?"

Yun Feng clenched her fists tight as she gazed at the row of ancestors with her black eyes. Those were generations of members of the Yun family up there, people who carried the hope and responsibilities of the Yun family in the last few centuries! And she would continue to bear the burden. No matter how heavy it was and how tired she was, she was willing to do so. This was her root, her home!

"Yes!"

A "yes" sounded in the ancestral hall and kept resounding around. Yun Jing slowly closed his eyes, then opened them again slowly. They were full of arrogance and pride! Yun Feng knelt there and only felt a huge hand holding her shoulder gently. When she looked up, she saw those eyes of her poker-faced father were filled with warmth.

"Feng, thank you."

The burdens of the Yun family were all weighed on Yun Feng's skinny shoulders. How would Yun Jing not be heartbroken? After all, Yun Feng was a girl. Although there was no strict distinction between men and women in this world where the strong were respected, women were always on the weaker side.

Yun Feng smiled. This smile completely wiped away Yun Jing's worries and concerns. "Father, the Yun family will stand on an even higher place. Believe me!"

Yun Jing froze for a second, then gave a rare smile. He caressed Yun Feng's little head with his big hand. "I believe you."

Yun Jing got up and Yun Feng also got up together. Suddenly, the ancestor's voice echoed in Yun Feng's mind. "Kid, have you noticed..."

What the ancestor said made Yun Feng a bit confused. Notice what? Did the ancestor see something? "What have you found?"

Yun Feng subconsciously looked at the painting of her ancestor hanging in the center of the ancestral hall. He had distinct short hair and an uninhibited smile. Yun Feng surprisingly had some similarities to that confident look.

"Have you noticed that I'm quite handsome?"

Yun Feng froze and looked a bit embarrassed. She gazed at the painting of the ancestor a few more times. To be honest, her ancestor was indeed pretty handsome, but if he blew his own horn...

"You're right..." Yun Feng replied in her mind. The ancestor burst into laughter very happily. "I told you I look better with short hair. Those old guys unanimously opposed it back then. Luckily, I insisted..."

Listening to the ancestor's chatter, Yun Feng shook her head speechlessly. Old urchin was a suitable phrase for describing her ancestor. He was this old already, at least a few hundred years old... and he still cared about things like his hairstyle. Ah... Her somewhat pressured mood just now had been eased by what the ancestor said. When she followed her poker-faced father out of the ancestral hall, Yun Feng saw an old man showing up in front of her and felt a little startled.

Yun Jing was also startled. The old man who suddenly came to visit chuckled and cupped his hand in the other in front of Yun Jing, feeling a bit sorry. "Master Yun, you wouldn't mind my sudden visit, would you?"

Yun Jing also cupped his hand in the other. He looked at the old man in front of him and glanced at Yun Feng. "I certainly wouldn't mind having you here, Mr. Principal. Please come in."

The old man shook his head as his eyes gazed at Yun Feng. He then asked with a smile, "Kid, it's time for you to go back to the Martial Arts Institute. The matters with the Lin family are all done."

Yun Sheng couldn't help but feel a little anxious. His precious sister was a summoner. Why should she return to the Martial Arts Institute? The development of warriors was pretty good indeed, but it couldn't compete with that of summoners at all!

Yun Jing glanced at Yun Sheng to signal him to calm down. The two of them both remained silent. It was better for Yun Feng to deal with this herself. After all, the principal of the Martial Arts Institute was here for Yun Feng.

Yun Feng smiled gently after hearing that. At this moment, the ancestor also mumbled with reluctance, "Go back to the Martial Arts Institute? Kid, don't let him shake up your stance. How can those stupid muscular people compare to summoners?"

Yun Feng knew clearly that most people on the East Continent followed the path of warrior, but that was because of the system. If possible, everyone would be dreaming of becoming a summoner! Practicing to become a warrior when they could be a summoner? People's brains weren't kicked by a donkey. Besides, Yun Feng's Qi meridians were truly damaged. It was useless for her to go on the path of a warrior.

"Thank you for thinking about me, sir. Please forgive me for being rude, but I'm not going back to the Martial Arts Institute."

"Not going back to the Martial Arts Institute?" The principal repeated this in shock. When he knew what Yun Feng meant, he couldn't help but feel slightly anxious. They were waiting for Yun Feng to gain face for the Martial Arts Institute in Chunfeng Town this year. How could this kid not come back? She didn't even want that only spot?

"Yun Feng, that spot of the Martial Arts Institute is for you. Are you giving up the chance to be admitted to the School of the God of War?" The tone of the Principal couldn't help but raise slightly, even with a sense of pressure.

Yun Feng raised the corners of her mouth. The School of the God of War? Only ghosts wanted to study there. If she really wanted to study, she would choose a magic school. After all, summoners were also mages. It made sense for her to practice magic as well. The School of the God of War? Just forget about it.

"Mr. Principal, doesn't the Martial Arts Institute still have Mei Bing? His strength was also exceptional."

## **Chapter 72: Rejecting the Martial Arts Institute**

The principal immediately wanted to refute. "That Mei Bing can't compare to you at all!" However, it was indeed inappropriate to say this, so he swallowed it back down. "Kid, being admitted to the School of the God of War is your chance of succeeding. When you achieve something, the Yun family will also be able to reach the sky!"

The principal still persisted in persuading Yun Feng. He truly couldn't just let go of such a genius without a reason. And yet, everything was up to the student's will. If she didn't want to go, he couldn't force her either.

"Mr. Principal, how can the Yun family put everything on a little girl?" Yun Jing said something softly. The principal then mumbled, "You're right, Master Yun, but..." It would really be a shame if they missed this kid.

"Thank you for your kindness Mr. Principal. If Feng doesn't want to go back, I certainly won't oppose it. Thank you for coming this time, Mr. Principal." Yun Jing cupped his hand in the other in front of the principal. Even though the truth was that Yun Feng had already taken the burden of the Yun family, in Yun Jing's mind, he would never really let Yun Feng bear everything. He wasn't just the leader of the Yun family, but also Yun Feng's father!

Besides, Yun Feng had a brother as well. With him here, with Yun Sheng here, how would Yun Feng need to take on all the responsibilities? Even if her skinny shoulders could, her father and her brother wouldn't let her.

Seeing this situation, the principal certainly understood that Yun Feng wouldn't go back to the Martial Arts Institute. They still had Mei Bing, who was also an outstanding student being able to reach the early stage of level 4 at his current age, but compared to Yun Feng, he was indeed...

The principal still didn't want to give up and he glanced at Yun Feng. Yun Feng could only smile embarrassedly. "Ah, kid, I hope you won't regret this one day... Ah..." The principal sighed as he left the Yun family. After the principal left, Yun Sheng held Yun Feng's little hands and lifted her body high, holding her in his arms like a baby. This made Yun Feng blush slightly.

"Brother, I'm not a baby anymore. Put me down quickly!" Yun Feng moved her body anxiously, but Yun Sheng held her tight and refused to let go. His black eyes were full of love. How would he not know what his father said when Yun Feng entered the ancestral hall back then? Thinking that the heavy burden of the Yun family was all pressed on these skinny shoulders, Yun Sheng didn't only feel ashamed, but was also more determined to work hard. He must help his sister a bit no matter what!

"Feng, if you're not going to the School of the God of War, go to the magic school with me!" What Yun Sheng said startled Yun Feng. Yun Jing also glanced at Yun Feng, as if he was thinking in his mind, then asked Yun Sheng to put Yun Feng down.

"Feng, have you thought about what to do from now on?"

Yun Feng nodded. She had certainly planned for her future path. Now that the Lin family's matters had been settled, the Yun family had almost regained all of their lost vitality. She could leave at ease. Training is the foundation of rapid growth! It didn't matter for Yun Feng if she studied at school or not. After all, these schools didn't help her in the training of a summoner at all. With the ancestor here, she didn't need any other guidance. And yet, her brother was a mage and she also had to practice magic, so it was a good and harmless idea for her to go to the magic school to study magic.

Yun Jing nodded. "That's great. A few days later will be the enrollment day of the Imperial School of Magic. You should go and check it out with Yun Sheng."

Yun Sheng was immediately thrilled after hearing that. Seeing how happy her brother was, Yun Feng also nodded. She wasn't interested in the Imperial School of Magic at all. She only did it for her brother. As long as Yun Sheng was happy, what couldn't she do?

Due to the system of the East Continent, warriors accounted for almost 80% of the population. No matter which of the four largest empires on the East Continent, their main forces and army were formed by warriors and there were quite a lot of strong ones among the warriors. However, a single combat force wasn't enough. Even though the warriors were the main forces, the status of the mages wasn't low at all.

Because the number of mages was far less than that of warriors, even the total number of mages in the four largest empires wasn't as large as the number of warriors in a second-rate city. Although the overall strength of mages wasn't as strong as that of warriors, mages didn't have a low status and were even at a higher level than warriors.

Mages, who were good at using magic, were long-range killers. Even though they didn't have mysterious and powerful Magic Beasts like summoners did, their powerful magic also gave them pretty good strength. Warriors might have strong and excellent power, but they also had to be careful when they

encountered the mages. The power of magic was comparable to or even surpassed any combat techniques!

Weak mages could mobilize all kinds of elemental forces to form a perfect combination of attack and defense, while the strong ones could create a knotty problem for warriors of the same level or of a level higher and might even frighten them!

The mages, who didn't have a high overall strength, enjoyed a noble status on the East Continent. The diversity of battles made magic an indispensable element. A thing was precious when it was rare. It was something that made people happy when a mage was born. Of course, the most powerful and mysterious summoner was still the profession that people constantly looked at from afar and dared not imagine. The five most powerful summoners born on the East Continent in the last few centuries had already passed away slowly. Only one of them was left and this remaining summoner kept his empire in an invincible position. As for the Karan Empire, the empire where Yun Feng lived in, it had already been desperately looking forward to the birth of another summoner for countless centuries.

Everyone knew that summoners were also mages. This gave the mages another layer of anticipation. Even though there was only a slim chance, it still existed after all.

The Imperial School of Magic was the only magic school in the Karan Empire. Unlike the School of the God of War that had a dozen campuses in the Karan Empire, The Imperial School of Magic had only one and there were less than a thousand people in the entire school right now, including students and teachers.

Almost all of the mages in the Karan Empire were trained there. The Imperial School of Magic was also highly valued by the Karan Empire. Although their overall strength wasn't strong, it didn't reduce the empire's expectations on them. The enrollment day of the Imperial School of Magic every year even caused a great furor in the Karan Empire.

The enrollment day of the Imperial School of Magic wasn't simply for the school to recruit new mages. The most important responsibility was to find a summoner! If summoners were also mages, could those talented young mages possibly become summoners as well? The senior officials of the Karan Empire thought so, but only one summoner was born in the Yun family. They didn't really have much understanding of summoners. Although none of those talented, smart young mages became a summoner, the Karan Empire still hadn't given up.

### **Chapter 73: Talent**

How would it be so simple to become a summoner? Not to mention that the mental strength must reach a certain level, the person also needed to have the ability to sense the elemental force on the Magic Beasts. Not only that, that person must realize his own Array of Contract. Even if the former two requirements could be fulfilled by the later generation, how would they know how to realize the Array of Contract if they weren't a summoner?

How would they be able to become a summoner if they couldn't realize the Array of Contract? The Karan Empire was looking and hoping for a summoner so blindly. Apparently, they didn't expect any results anymore. They only thought about it. And yet, the senior officials of the Karan Empire had never

thought that the summoner they had been longing for and anticipated the most had been born silently in the down-and-out Yun family in the obscure Chunfeng Town.

Yun Feng was communicating with elemental forces at home as usual. She was currently at the final stage of level 6 and there was already a sign of going towards the peak of level 6. Once she broke through the peak of level 6, it wouldn't be difficult for her to reach level 7.

Even though the final stage and the peak stage was just a step away, it wasn't that simple. After Yun Feng finished her daily communication with the elemental forces, she stretched her body gently and her powerful mental strength increased even more. Yun Feng's mental strength was already like the vast, endless ocean originally. However, although it was huge, it was in fact not really strong. And now, her mental strength faintly entered the state of merging, like flowing water began to gather, undergoing some vague changes.

"Kid, this is the sign that you're entering the advanced level. Once you reach the threshold of level 7, you'll find that the advanced level is a whole new world." The ancestor's words came, which made Yun Feng smile from her heart. She should be able to break through level 7 very soon. Thinking of the enrollment location of that magic school, Yun Feng found it a coincidence. They were recruiting students in Park City, the place where the Murong family, which she had a ridiculous engagement with before, was located.

Yun Feng still remembered what the arrogant Murong Ran said before she left, "Don't come to Park City if you can!" Yun Feng smiled. She didn't care about Murong Ran. She had nothing to do with the Murong family at all right now. This time, she was just going to the admission exam with her brother and she would have a brand new experience.

"Kid, you can visit the weapon store when you go to Park City this time. It's time for you to choose a handy weapon."

Weapon? Yun Feng pondered carefully. Practicing up till now, she still wasn't very clear about the concept of weapons. The highest level of the people she had encountered was only level 6. She had just seen the masters employed by the Lin family use their weapons, but they all seemed extremely ordinary.

"Ancestor, are you talking about the swords those masters used the other night?"

"Bah! Those are scrap metals that aren't up to standard! Kid, only people who have entered the advanced level, level 7, are worthy of the word 'weapon.' Anything else is just crap!"

Yun Feng stuck out her tongue gently. Meatball moved its body up and down on her shoulder. Its soft fur around its entire body made Yun Feng a bit itchy. She picked Meatball up and swung it in the air. Seeing Meatball show its teeth and wavy its claws, Yun Feng widened the corners of her mouth and smiled joyfully.

"Ancestor, are weapons divided into different levels as well?" Yun Feng asked as she swung Meatball's chubby body. The ancestor also saw Yun Feng's mischievous side and he couldn't help but smile from his heart. She was still a kid after all.

“The division of level of weapons is basically the same as that of strength. The rules on this continent seem to be the same. They’re all limited to such levels.”

Rules? Yun Feng’s black eyes glittered. She continued swinging Meatball’s body as she listened to her ancestor. “Weapons themselves don’t have a level. Their power is determined by the strength of the person who uses them. Fighting energy and mental strength can be infused into weapons. The higher the level of the fighting energy and mental strength, the higher level of power the infused weapon will be able to release. Of course, the power of a weapon also depends on another factor, holes.”

“Holes?’ Yun Feng asked in confusion. The holes of weapons? What was that?

“Holes can be engraved on weapons, from one hole to nine holes. And inside the holes, you can insert something that can greatly increase the power of the weapon, Magic Beast Crystals!”

Magic Beast Crystals could be said to be the essence of Magic Beasts. They contained the elemental force and power of the Magic Beasts! If Magic Beast Crystals were inserted in all the nine holes of a weapon, its power would directly leap to a higher level!

“If any weapon can have nine holes and have crystals inserted, wouldn’t everyone be able to become a master?” What Yun Feng said made the ancestor nod in satisfaction. This kid was indeed extraordinary. Her mind was mature enough.

“Of course not. Not everyone can engrave holes in the weapons. The size and quality of the holes also vary by strength. Not everyone can inlay crystals inside either. These two processes determine the success or failure of inserting crystals into the holes on the weapon.”

Yun Feng was shocked. It turned out to be so complicated. Engraving holes in a weapon required an expert and inserting crystals in it also required an expert. Let alone these two things, even Magic Beast Crystals weren’t something ordinary. The higher the level of the crystal inlay, the more powerful. However, crystals of level 5 and level 6 were already rare in the market. After all, the ratio of human beings that could hunt Magic Beasts was too small, not to mention Magic Beasts of the advanced level or even the commander level.

“Then, why should I get a weapon? I need to find someone to engrave holes and insert crystals in the weapon for me. Isn’t it the same with or without a weapon?”

The ancestor laughed with a sense of pride and cunning in his laughter. “Kid, the person who engraves the holes must be a warrior, because it requires perfect and proper control of power to engrave holes in a weapon. And the person who inserts the crystals must be a mage, because the elemental force contained inside a crystal has to be tamed in order to be inserted in a weapon.”

When the ancestor said this, Yun Feng suddenly felt like she was enlightened. Warrior, mage... For other people, they might only be able to do one of them, but for her, she could deal with everything by herself!

“Do you still not have the confidence to make level-6 holes and insert level-6 crystals with your strength?” What the ancestor said immediately put a beaming smile on Yun Feng’s little face. She gently threw Meatball, which she was swinging, in the air and caught it firmly in her hand. Yun Feng knew clearly that she could do all these things!

Feeling Yun Feng's excitement at this moment, the ancestor also smiled gently. Even though he had given Yun Feng a lot of details, he still hid something. The ancestor didn't tell Yun Feng that people usually gave those who could engrave holes a title: Weapon Refiner, someone who could engrave holes in weapons. And those who could insert Magic Beast Crystals in weapons also had a title: Inserter.

#### **Chapter 74: Heading to Park City**

These were the two most well-known secondary professions among warriors and mages. It wasn't easy to engrave holes and insert crystals. Those who could engrave holes on weapons were definitely warriors above level 7, while those who could insert crystals must also be mages above level 7.

The nine holes corresponded to the early stage, mid-stage and final stage. The more holes on the weapon, the more Magic Beast Crystals could be inserted and the more powerful the person who engraved the holes. Almost everyone that had weapons wanted to engrave holes and the number of holes was directly related to the power of the weapon, so it was certainly the more the better. And yet, there might be a lot of warriors at the advanced level, but there were differences between their ability to control their power. Although there were many Weapon Refiners among warriors, there were just a few masters and it was hard to make a hole in the weapon.

Inserting crystals was the same and might even be more difficult than engraving holes. Some people engraved nine holes on their weapons and they also had Magic Beast Crystals, but there was no way they could finish the inserting job because there were too few Inserters. Mages were already rare and those who could reach the advanced level were even rarer, which led to the lack of Inserters. Apart from the mysterious and powerful summoners, it could be said that Inserters were the second rarest on the East Continent.

Those advanced mages were also Inserters. If people could rope an advanced mage in, it wouldn't be a problem to insert crystals on their weapons. Those who could engrave holes were everywhere, but not everyone had someone who could insert crystals.

Yun Geng was probably the first person in the world to be a freak who could engrave holes and insert crystals by herself.

Soon, the enrollment day of Masang School of Magic came. A day before, Yun Jing prepared money and a carriage, and Yun Feng and Yun Sheng went on the road early in the morning. Yun Jing didn't go with them because there were a lot of things of the Lin family he had to take over and manage by himself. However, the real reason why Yun Jing wasn't going was because he thought his son and daughter had already grown up, especially after what happened with the Lin family. Yun Jing thought from the bottom of his heart that his daughter, Yun Feng, would be able to spread her wings and fly, even without him, her father, by her side!

Yun Jing prepared a generous sum of money, so Yun Sheng and Yun Feng could buy whatever they wanted without restraints. The two of them were thrilled. After all, this was the first time they left Chunfeng Town and came to a larger city.

After driving the whole morning, they finally arrived in Park City. Since it was the place where Masang School of Magic recruited students, Park City had been flooded with a large number of people from

elsewhere these few days. They were all children and parents from other towns who came here for the registration. However, almost none of the children came alone like Yun Sheng and Yun Feng.

“Drive steadily. Those who want to enter the city, get in line, get in line!” The guards of the city shouted at the top of their lungs. It could be seen that a lot of people were surging into Park City. Yun Sheng and Yun Feng, who were sitting in the carriage, looked outside through the curtains and were a bit shocked. Although it hadn’t reached the point where there was a sea of people, it was crowded.

“Looks like the admission exam of that magic school is very valued,” Yun Feng said casually as she looked outside. Yun Sheng couldn’t help but shake his head. He stretched his hand out and squeezed Yun Feng’s cheek.

“It’s Masang School of Magic. It has a name.”

Yun Feng pouted and Meatball on her shoulder also swayed its body in disdain. Meatball didn’t like to stay anywhere else. Its favorite spot was Yun Feng’s shoulders. No matter where Yun Feng threw Meatball, it would immediately climb back onto Yun Feng’s shoulder.

“Compared to the School of the God of War, Masang School of Magic is the second largest school, following the School of the God of War directly under the Karan Empire. All the great mages in the Karan Empire came from Masang School of Magic.” Yun Sheng said with a yearning look. Seeing how eager her brother was, Yun Feng didn’t say anything else.

“Feng, you’re really not planning to let the royal family of the Karan Empire know your real strength?”

Yun Feng frowned gently and shook her head. “No, it’s not time yet. Let me improve my strength a little first.”

Yun Sheng nodded. Since his sister said so, he would keep it a secret as well. Yun Feng had kind of become the backbone of the Yun family right now, and it was because of her that the Yun family had a series of changes.

They soon entered Park City in a crowd of people. After getting off the carriage, Yun Feng finally saw the view of Park City clearly. The buildings here were a few times larger than those in Chunfeng Town and the streets were much wider. The street view in the city was also a lot broader. There were even some shops Yun Feng had never seen in Chunfeng Town.

The two of them weren’t in a hurry to sign up. Children who took the admission exam must register in advance. The deadline for the application was the night before the admission exam. Even though today was already the last day, there were still a lot of people coming to Park City for registration. If they went to sign up now, they would have to line up and wait, so they would rather walk around first. The ancestor also asked her to go to the weapon store.

Yun Feng told Yun Sheng her thoughts. Yun Sheng certainly agreed and went to the weapon store in Park City with Yun Feng. There were different kinds of weapons in the weapon store. Most of them were weapons for warriors, accounting for a huge part, while a small part was weapons for mages, including various types of wands.

A dozen people were choosing weapons in the weapon store. They were all choosing carefully and kept comparing different weapons. The boss stood at the counter with a smile and only said a few things to

the customers, letting them choose the weapons themselves. Yun Feng and Yun Sheng went straight through the weapons for warriors once they entered and walked towards that small part for wands.

There were only a couple of people around the area for mage weapons. Yun Sheng and Yun Feng walked over and looked at all kinds of wands carefully, large ones, small ones, long ones and short ones.

Yun Sheng certainly knew Yun Feng's strength. Although he also looked forward to having a weapon, he had only level 2. Even if he had one, he wouldn't be able to release any power out of it. Besides, who could help him engrave holes and insert crystals on the weapon?

Who? Isn't there an all-rounder standing in front of you?

Yun Feng and Yun Sheng had the same thought. She also wanted to buy a weapon for her brother. Of course, she would engrave holes and insert crystals for him. She still remembered that there was a level-5 Magic Core in her bracelet, which she could give to her brother. As for herself, how would she have to worry about not encountering any Magic Beasts when she went out for training?

With such an idea, Yun Feng also thought about what kind of weapon was suitable for Yun Sheng, while Yun Sheng was thinking about finding a weapon suitable for his precious sister.

### **Chapter 75: Shooting Herself in the Foot (1)**

"Kid, your brother only has the strength of level 2. He wouldn't be able to release any power even if he had a weapon right now." The ancestor's voice sounded. Yun Feng certainly knew that, but it was kind of a guarantee of safety. After all, she would have to go out for training. If someone dared to bully her brother, he would need a weapon that could protect him. She wanted to insert a level-5 Magic Beast Crystal in it. Even if her brother was only at level 2, he could release power of level 3 with a wand that had a level-5 Magic Beast Crystal.

Level-3 magic could lead to a tie with a level-4 warrior. Besides, her brother was going to the magic school. It would be a lot safer there.

There were less than ten weapons for mages in total in this corner. Compared to the large number of warrior weapons in the entire weapon store, the number of mage weapons was miserably low.

Even though there were very few of them, Yun Feng still saw a weapon that satisfied her. Of course, it was for Yun Sheng. A mahogany wand. Yun Feng chose it because this wand already had a hole. Although there was just one, it was just right for Yun Feng. One hole inserted with one Magic Beast Crystal, not too many and not too few.

The wand Yun Feng chose for herself was much more inferior. Not to mention that there was no hole, it was even a shorter type. Normally, mages would avoid short wands. Perhaps because the shape of short wands was indeed unattractive. Without looking carefully, people might think it was a dagger.

A short wand might be bad for other people, but it suited Yun Feng a lot. She wasn't an ordinary mage. She used her fists to deal with problems when necessary. In close combat, a long wand would be too conspicuous and inconvenient. It would also be a little abrupt for her to take it out and make a sudden attack at the enemy. A short wand was light and convenient to use, and it was extremely easy to hide and take out. It couldn't be more suitable for Yun Feng's way of fighting which combined magic elements and body strength.

When Yun Sheng saw Yun Feng pick two wands, he couldn't help but find it a bit strange. When Yun Feng gave the wand with a hole to Yun Sheng, Yun Sheng finally understood and he immediately shook his head. "Feng, I don't need a weapon."

Yun Feng smiled. "Brother, I don't know how many people are going to make trouble with the Yun family, but you must have something to protect yourself no matter what!" Yun Feng said firmly and didn't allow him to reject her.

Yun Sheng looked at the wand in his hand. When he saw the hole on the wand, he immediately shook his head again. "I want that one. You'll have this one."

Yun Feng smiled again. Her brother... "Brother, this wand suits me more. I'll feel uncomfortable using that one. Alright, stop rejecting me. Just treat it as a present from me!"

Yun Feng didn't wait for Yun Sheng to shake his head again. She immediately brought him to the boss and put the two wands on the counter. "Boss, I want to buy these two wands."

The boss glanced at Yun Feng and Yun Sheng curiously. If they were buying two wands, then these two kids were both mages? Two mages in one family? Although this wasn't unusual, it rarely happened.

"Haha, little girl, this wand is quite expensive." The boss pointed at the wand with a hole and said to Yun Feng with a smile. Yun Feng smiled. Expensive? Even though weapons with holes weren't cheap, their price also depended on the number of holes. A wand with only one hole couldn't be too expensive. If this man wanted to deceive her, he had picked the wrong person.

"How much? Tell me."

After hearing that, the boss pondered immediately in his mind. These two kids didn't seem to come from a rich family. Even though the price of this single-hole wand was a little higher, could these two kids afford it?

"Twenty gold coins."

Yun Feng raised her eyebrows. Twenty gold coins? Did he think that this wand was made with gold? Just one hole and it cost twenty gold coins? Did money just come from the strong wind?

"Boss, don't try to fool me. This single-hole wand is worth at most ten gold coins and you're asking for twenty? Do you really think I'm a pushover because I'm a kid?"

The boss chuckled as he pointed at that short wand Yun Feng wanted. "Little girl, I can sell you this wand for one gold coin, but the price of the single-hole wand is not negotiable."

Yun Feng couldn't help but feel a bit furious. This man truly bullied her as a child! When Yun Sheng saw this, he immediately pulled Yun Feng's little hand and smiled at the boss. "We'll buy them. Here's 21 gold coins." Yun Sheng gave the boss the gold coins so quickly that Yun Feng didn't have the chance to stop him. Yun Sheng caressed Yun Feng's little head and signaled her not to care about it.

The boss was certainly a lot happier when he took the money. He removed the tag of the store from the single-hole wand and the short wand. When he was about to hand them over to Yun Sheng, a voice came from the entrance of the weapon store, resounding around the entire shop.

“I was thinking who you are. It turns out to be the members of the Yun family. It’s just twenty gold coins and you’re still haggling over the price. If you don’t have money, do you want me to lend you some?”

Yun Feng looked over and saw a group of people who had just walked into the weapon store. The person who said those harsh words was Murong Ran whom she hadn’t met for a while. She was still savage, still domineering and unreasonable.

Murong Ran came inside and saw Yun Feng and Yun Sheng. Strong disdain and contempt instantly burst out of her eyes. This was Park City, the territory of the Murong family. Murong Ran could be arrogant to the extreme. Suddenly, something came to her mind. Murong Ran sized up Yun Sheng. With her strength of a level-3 mage, she could certainly detect that Yun Sheng only had level 2 and she immediately gave a smile.

“The Yun family doesn’t have anyone anymore. A level-2 mage, tut-tut, how lowly.”

Murong Ran’s ironic remark instantly made Yun Sheng flush and turn pale. Those people behind Murong Ran also burst into laughter. Yun Feng held her brother’s hand quietly and her body stepped forward, standing in front of Yun Sheng. She glanced at Murong Ran with her black eyes. “Murong Ran, the Yun family’s matters are none of your business. Just take care of yourself.”

“Who are you? How dare you talk to my Lady like this?” One of Murong Ran’s attendants immediately shouted. Yun Feng didn’t even bother to listen to him and treated him like air.

Murong Ran blushed right away. Suddenly, she saw something. She went forward and picked up the wand Yun Sheng just bought. “You only have the strength of level 2 and you want to use a weapon? And even a single-hole wand? Can the Yun family afford a Magic Beast Crystal?”

## **Chapter 76: Shooting Herself in the Foot (2)**

Laughter echoed in the entire weapon store again, resounded around constantly, the vicious ridicule, the malicious disparagement, the filthy hearts.

Yun Sheng immediately turned pale and clenched his fists. Yun Feng quickly narrowed her eyes and a gust of wind suddenly blew towards Murong Ran. “My Lady, watch out!” An attendant shook his body as his fighting energy burst out. It was the power of early-level 4! The attendant stood firmly in front of Murong Ran, but when the wind came, the level-4 warrior felt a vigorous wind blowing. The energy inside of the wind lifted his entire body up and blew him away!

“Argh!” The attendant screamed and was blown aside by the wind, looking extremely messy.

Murong Ran was immediately startled. She quickly used the earth elemental force to barely block the attack of the remaining wind. When she was still in shock, she saw a blurred sight before her eyes and Yun Feng had already stood in front of her!

Murong Ran turned pale abruptly and the expression of the other attendants also changed drastically, but they dared not to make a move rashly. Yun Feng stood before Yun Feng and looked at her coldly. She gently swung her hand and the single-hole wand Murong Ran was holding was already in Yun Feng’s hand.

“Be careful of what your Lady says, or she may lose her tongue someday.”

With a few steps, Yun Feng's body flashed back again. Such a quick and creepy speed made those attendants dumbfounded. They were still thinking about taking down this girl who dared to disrespect their Lady, but once Yun Feng showed what she had, they were all drenched in sweat.

"Brother, let's go." Yun Feng picked up the wands they bought, then held Yun Sheng's hand and walked out of the weapon store, leaving Murong Ran, who turned pale, standing there as she gritted her teeth with an unresigned and resentful look on her face.

After leaving the weapon store, Yun Sheng's face was still a little pale. Yun Feng also bore in mind what Murong Ran did and the Murong family which raised such a savage and arrogant Murong Ran, in her heart secretly.

These were also things Yun Feng had to get back, but she knew that the Murong family was completely different from the Lin family and they weren't at the same level. She could eliminate the Lin family with one hand and remove the Lin family's name in Chunfeng Town. And yet, with her current strength, she wouldn't be able to take down the Murong family, the boss of Park City, at all.

She could certainly deal with Murong Ran. Even though she was a level-3 mage, she was nothing in front of Yun Feng. However, the reason why Murong Ran could be so arrogant and act without caring about the consequences was mostly because there was a large family supporting her. If it weren't for the Murong family, what would Murong Ran be?

Even though the Yun family had gotten back the property taken by the Lin family, only Yun Jing, Yun Feng and Yun Sheng were left in the sparsely populated Yun family. Their number was miserably low compared to the other families, even a tiny one.

Yun Feng understood that it was indeed very important that she was powerful, but the Yun family must also have some fresh blood injected. Otherwise, it was just empty talk even if the Yun family had a strong background and financial strength.

Yun Feng didn't only want the Yun family to regain its former glory, she also wanted them to stand on an even higher position. So, the premise was that the Yun family must be stronger and more prosperous!

It was time to start building the Yun family's own armed forces. Yun Feng thought that if they wanted to be in a high position, they must have a powerful strength, but the forces they had in their hands was also another important factor. No matter how strong a one-man band was, how could he be able to compete with thousands of troops?

The indispensable force for the rise of the Yun family, the armed force that belonged to the Yun family themselves, was in fact a protection squadron, the Yun Army!

It wasn't easy to build a team like this. What kind of people should she choose? The overall strength of these people couldn't be too weak and they must be loyal to the Yun family. Even though it wasn't possible for Yun Feng to recruit anyone right now, she had made notes in her mind secretly.

"Kid, no matter how narrow-minded Murong Ran is, she should be one of the talents in the Murong family. With the power of the Murong family in Park City, I'm afraid they may rig the admission exam this time."

Coldness appeared in Yun Feng's black eyes after she heard what the ancestor said. Rig the exam? Were they going to fiddle with the result of her brother's admission exam? Thinking of Murong Ran's vicious eyes, Yun Feng had no doubt that she would do this. And the Murong family spoiled her so much, so they would definitely stand up for this Lady.

"If they dare to do it, let them. They should think about how much they've got before laying a hand on my brother." The ancestor also nodded after hearing that. With this kid's ability, if someone truly rigged the exam, she would notice right away. The Murong family would definitely be doing it for nothing this time.

They wandered around again. Because of the small incident of the appearance of Murong Ran just now, Yun Sheng clearly wasn't in the mood for shopping anymore. It didn't matter to Yun Feng. Staying with her brother was the most important thing. So the two of them went to the admission venue of Masang School of Magic in Park City. Once they got there, a very long line appeared in front of their eyes. Yun Sheng was slightly shocked. He had never thought that there would be so many people here.

A lot of people were lining up, but only a small number of them were signing up. Most of the others were families that came with them. There were very few mages on the East Continent, so it was a huge glory when a mage was born in a family. On the enrollment day, the whole family would come with that one person for application.

The two of them stood at the end of the line. After a while, other people who came for application arrived one after another. Yun Feng looked over with her black eyes and realized that only one person was truly signing up, but a lot of people came along. On the contrary, Yun Sheng was just with his sister and they were the only family like this.

Yun Sheng held his sister's hand and stood there quietly, looking at the long line that was like a dragon as he pondered in his mind. His handsome face seemed a bit serious at this moment. The sarcastic words Murong Ran said casually just then hit his heart heavily.

A level-2 mage? Tut-tut, how lowly.

Yun Sheng's black eyes darkened slightly. Level 2. He was fifteen this year. Having the strength of level 2 was quite normal for mages of this age, but compared to his sister, he was indeed too weak. He didn't even deserve to be a member of the Yun family!

Yun Sheng was a little too hard on himself. Being able to be a mage was already something glorious on the East Continent and there were very few talents among the mages. Even the future development of the talents was greatly restricted. Due to the system of the East Continent, people here were born with very weak mental strength. Even if you had the potential of becoming a mage, how far could you go on this road?

### **Chapter 77: Changing His Physique**

Yun Feng was a weirdo, a weirdo that only appeared once in a thousand years. Wasn't it too much for Yun Sheng to compare himself with Yun Feng? Even a genius would be embarrassed when compared with Yun Feng.

Yun Feng seemed to notice that her brother was in a solemn mood. She couldn't help but shake his hand that she was holding. "Brother, what's wrong?"

Yun Sheng lowered his head and smiled warmly as he saw the anxiousness in Yun Feng's black eyes. "Feng, I'll work hard and do my best to assist you!"

Yun Feng froze for a second and immediately gave a smile. "Brother, you'll definitely become powerful. I have faith in you!" Yun Feng's heart felt warm. Her brother, wasn't he trying too hard? Yun Feng certainly knew the reason why Yun Sheng was working so hard. He wanted to take on some responsibilities for her. Thinking of this, Yun Feng's heart became warm. Could she really not change the physique of people on the East Continent?

"Ancestor, can a person's physique be changed?"

The ancestor froze and pondered carefully. Finally, something came to his mind. "Even though it's very hard to change someone's physique, it's not totally impossible."

There's a way? If there's truly a way to change a person's physique, brother will be able to go very far on the road of magic!

"Kid, it's very difficult to change someone's physique and there will be a huge risk."

Risk... "What kind of risk?"

"The person being changed has the risk of becoming useless. Kid, do you still want to try this?"

Yun Feng went silent. It was indeed a good thing if she was able to change her brother's physique, but if something went wrong, her brother's life would be over. Yun Feng never did something she wasn't certain about, especially if it was about someone she loved. If she wasn't 100% sure, she would absolutely not do it.

"There's one way that's the safest, but also the most impossible."

The safest, but also the most impossible way? "What is it?"

The ancestor chuckled and said three words slowly, "Array of Life."

Array of Life? Yun Feng couldn't help but move her eyebrows. She was communicating with her ancestor in her mind. The long line had moved forward a little. The others didn't notice Yun Feng's expression on her face, not even Yun Sheng.

"I learnt about such an array in an ancient book. The Array of Life contains the most essential energy of life and can forcibly transform the body of the person in contact with it!"

What the ancestor said made Yun Feng's heart move hard. Array of Life... could change the body forcibly... Hadn't she experienced such a phenomenon? The pure energy that constantly surged into her body when she was exhausted, the mysterious energy that forcibly changed the DNA of her body. Perhaps... that was the Array of Life?

"Kid, if I'm right, there should be an Array of Life in the black jade on your neck."

The black jade... Right, that mysterious power ran from the black jade to her body. Yun Feng touched the jade pendant on her neck gently with her hand and felt a little incredible.

“Kid, I’m certain that this piece of jade doesn’t belong to me. Not everyone can use the Array of Life. Only mages who have reached the Lord Level have the ability to use an Array of Life.”

The Lord Level! Yun Feng’s heart shook slightly. On the Vast Continent, levels above the peak of level 9 was the Commander Level, followed by the Monarch Level, then the Lord Level, the highest level humans on the Vast Continent could reach at the moment!

The ancestor said this piece of jade certainly didn’t belong to him and the ancestor wasn’t at the Lord Level. Yun Feng pondered carefully. Those at the Lord Level should be some extremely rare, absolute powerhouses. Becoming a mage of the Lord Level might probably be a dream that could never be fulfilled for people on the East Continent, just like becoming a summoner... People on the East Continent were born with restricted physique and they couldn’t go far on the road of magic. Being able to reach the Commander Level was already a great achievement for mages. The Lord Level... was something people on the East Continent dared not to think about!

Why would this piece of jade appear in the ancestor’s bracelet? The ancestor didn’t know about it before, so who put it there? Or did the ancestor get it without knowing?

This didn’t seem to matter anymore. No matter who created this Array of Life, it looked like it could be used to change someone’s physique forcibly. If her brother put this jade on, wouldn’t his physique be changed successfully?

The ancestor seemed to have sensed Yun Feng’s thoughts. He shook his head in frustration. “Kid, it won’t work. When the Array of Life is triggered by someone, it’ll only have effects on that person. It won’t be effective on other people.”

Yun Feng’s joy just then was completely cooled down. It looked like it would be useless for her to give this jade to her brother. Only mages at the Lord Level had the ability to create the Array of Life. There were only a few mages who had reached the Commander Level on the East Continent, so how would there be any mages at the Lord Level? If there was truly one, things would be easier. It was possible for her to establish a good relationship with that mage at the Lord Level and ask him to create an Array of Life for her brother. However, as the ancestor said, it was something that couldn’t possibly be achieved.

“Kid, the Lord Level is the highest level humans have ever reached. The number of mages and warriors at the Lord Level around the entire Vast Continent can be counted with ten fingers. I also yearned to reach such a level back then.”

There was a trace of desolation in the words of the ancestor. The corners of Yun Feng’s mouth curled up gently. The peak? The highest level humans had ever achieved? Then, what was above the Lord Level? It seemed that nobody had been to that point before. Thinking of this top, thinking of that area humans had never touched before, a strong ambition quietly appeared in Yun Feng’s mind. There wasn’t anything in the world that couldn’t be explored, that couldn’t be known! If you wanted to know how big this world was, then this world would be this big. The world was how big the heart was!

The long line gradually shortened a bit. Yun Feng was indulged in her own thoughts. Her mind was full of the yearning and anticipation for that unknown area. Even though Yun Feng looked forward to it, even

though she was confident in herself, she understood deeply that accumulating power was the most important. Only the accumulation of quantity could form changes to the quality. Only by taking every step of the way firmly could she go far on her road.

### **Chapter 78: The Array of Life**

Yun Feng slowly suppressed the surging thoughts in her mind. She told herself to chill and be calm. She still wasn't qualified to have contact with such high-level things right now. She must try her best to do everything she could do at this moment to make herself stronger!

Calming herself, Yun Feng started to feel curious about these people who came for the application and she slowly spread her mental strength. After a little exploration, she already had a brief idea of the strength of those who were here to sign up. Yun Feng was now at the final stage of level 6. She still hadn't found anyone comparable to her in Park City up till now. Even the leader of the Murong family was at the mid-stage of level 6, so nobody discovered Yun Feng's exploration with her mental strength.

Only around twenty kids were here for the application and they were usually at level 1 or level 2. There wasn't anyone at level 3. Yun Feng thought about Murong Ran. With Murong Ran's age and her strength as a level-3 mage, she must have signed up as well.

Since Murong Ran was going to the magic school Yun Sheng was going to, she certainly had to go too. If Murong Ran dared to say something to insult Yun Sheng and the Yun family again, she would beat her up, no matter how many Murong families she had behind her!

After waiting for another period of time, the queue in front of them was finally shortened. And a while later, it was Yun Sheng's turn to sign up. Looking at the entirely white and transparent crystal on the table, Yun Feng and Yun Sheng both looked at the person responsible for application in curiosity.

"Put your hand on it."

Yun Sheng put his hand on it obediently. The color of the transparent crystal immediately changed and gradually turned into a pure sky blue color. When the application officer saw that, he nodded and put a tick next to Yun Sheng's name.

Yun Feng immediately understood after seeing that. This crystal was for testing whether he had elemental force or not. If he didn't have elemental force, he would certainly not be able to be admitted to the magic school.

The first selection began during the application. The admission officer then glanced at Yun Feng. "Do you want to sign up too? But you don't seem to be old enough. Are you twelve?"

Yun Feng shook her head. She was just nine years old. The person responsible for recruiting students glanced at Yun Feng carefully and suddenly smiled at her. "Come back three years later, little girl."

Yun Feng only smiled and left with her brother, who had successfully signed up. Three years was enough for her to hone herself. Three years later, she would come to find her brother. Yun Feng gave a sweet smile at Yun Sheng and Yun Sheng also smiled back at Yun Feng. The two of them walked forward while holding hands. Yun Feng gazed at the sky with her black eyes. Tomorrow was the day of the exam, so the Murong family must also be busy right now.

The reputation and status of the Murong family in Park City were both at the position of a boss. Even the City Lord of Park City had to show courtesy to the leader of the Murong family, Murong Shuli, not only because Murong Shuli had strength at the peak of level 6 close to level 7 or because he had control of almost three quarters of the economy of Park City, but because the Murong family had an important partner, the Evil Wolf Mercenary Group.

Political power came from the barrel of a gun. Only by controlling the armed forces could one obtain supreme authority. Just like the City Lord of Park City, he was the government official appointed by the royal family of the Karan Empire, but everyone knew in their minds who the real boss was in Park City. The City Lord was just superior on the outside and the Murong family didn't want this position of vanity either. They didn't care who was in that position. As long as that person didn't threaten the Murong family's interests, why should they care?

Together with the Evil Wolf Mercenary Group, a mercenary group notorious for their cruel and bloody slaughters which take any mission and didn't care about the bottom line of morality at all, the Murong family was like a tiger with wings, even though the two parties were in a relationship of mutual use where no one owed anyone.

I fought for you and you protected me. They didn't owe each other anything and took what they needed. The boss position of the Murong family in Park City could be said to be as steady as a rock. Who would dare to provoke someone that even the City Lord of Park City had to respect?

If there were people who were so ignorant, the Evil Wolf Mercenary Group would let them know the consequences of offending the Murong family. So, the Murong family could be said to have great power in Park City and nobody dared to provoke them.

Murong Ran was one of the few outstanding members of this generation of the Murong family. Her brother, Murong Yuntian, was the one who had the most expectations from the seniors of the Murong family. Even though it was indeed not easy for Murong Ran to reach the level of a level-3 mage at the age of 12, the road of mages was much harder than that of warriors and it was also limited. She only ranked second.

In Murong Ran's mind, she truly never put anyone in her generation in her eyes, except for her brother, Murong Yuntian. With the prestige and power of the Murong family in Park City, who would dare to offend her, this Young Lady of the Murong family? Everyone couldn't wait to butter her up and dared not disrespect her at all.

In the Murong family, everyone pampered her like a myriad of stars around the moon. In Park City, everyone respected her, and nodded and bowed to her. Murong Ran's ridiculous self-esteem that kept growing day by day didn't allow anyone to provoke her or insult her, not even the slightest humiliation!

However, she slapped her face. When she went to Chunfeng Town, Yun Feng from the Yun family, the declined family, gave her the taste of humiliation the first time. Level-3 magic couldn't do anything to her, this level-3 power that she and the Murong family were proud of was so vulnerable in front of Yun Feng!

Together with the overbearing words from Yun Feng of the Yun family, Murong Ran, who always maintained a lofty attitude, experienced the taste of being humiliated once again. Going home with fire

in her stomach, Murong Ran certainly complained, but the leader of the Murong family, Murong Shuli, only smiled gently and didn't take it seriously. After all, the declined Yun family from a small town didn't deserve the attention of the Murong family.

So, this incident also ended with nothing. Murong Ran thought her grandpa, Murong Shuli, would step up for her. She had never thought he would just put it behind him. What surprised her was that Yun Feng came to Park City and the two of them happened to run into each other by coincidence.

What Murong Ran didn't expect was that, the third time, this was the third time she was humiliated by the same person!

This time, Murong Ran had to say something to give Yun Feng a lesson and take revenge on the Yun family! When this furious Young Lady of the Murong family returned home, she ran straight to her grandpa's room, regardless of who was inside and what they were talking about, and she didn't care if anyone was stopping her. When she pushed the door open fiercely, she yelled at that majestic old man inside with red eyes, "Grandpa!"

### **Chapter 79: The Interference of the Murong Family**

When Murong Shuli saw Murong Ran rush in like this recklessly, his expression changed slightly and he was a bit upset at the bottom of his heart. There was another person in the room. That man had a ferocious scar on his face from his right eye to his jaw, giving that face a fierce aura.

When Murong Ran recklessly pushed the door open and ran in, a dim light flashed through the eyes of the man with a scar. Those bloodshot eyes stayed on Murong Ran and sized her up a few times.

"Tut-tut, I can't believe Master Murong has such a beautiful granddaughter. Congratulations!" The man with a scar laughed weirdly. Even though he was talking to Murong Shuli, his eyes kept looking at Murong Ran. When Murong Ran saw this man with a scar, her face immediately turned a little pale. Her savage temperament seemed to have come across a huge problem. She didn't even dare to breathe and hid straight behind Murong Shuli.

"Deputy Head, I'm flattered. I still have some family matters to deal with today. Please excuse me." Murong Shuli smiled politely at the man with a scar. His words carried his intention to ask that man to leave.

A glint of viciousness flashed through the eyes of the man with the scar and he then raised the corners of his mouth.

"Master Murong, if you have family affairs to deal with, I'll go first. Miss Murong, goodbye." The man with a scar smiled at Murong Ran with a ferocious look. Murong Ran gasped and her body couldn't help but get closer to her grandpa.

The man with a scar chuckled and didn't say anything else. He left after saying goodbye to Murong Shuli. When Murong Ran saw the man with the scar walk out, she finally came out from behind Murong Shuli with a disgusted look.

"Who's that ugly man? His gaze really makes me sick..."

Murong Shuli's expression changed immediately and he shouted at Murong Ran, "How dare you still keep gabbing? Who said you can come in like this? Huh?!"

Murong Ran pouted, feeling wronged. Her grandpa had never scolded her so harshly before, so a trace of sorrow surged in her heart. "Grandpa, your granddaughter was insulted by someone and you're still rebuking me like this..."

Seeing Murong Ran's teary look, Murong Shuli couldn't help but soften his heart. That man just then wasn't a good person. Who wasn't vicious and cruel in the Evil Wolf Mercenary Group? If that man had any feelings for Murong Ran, it would be a huge problem for the Murong family.

Murong Shuli thought again. Even if he did, the Evil Wolf Mercenary Group wouldn't want to destroy their relationship with the Murong family completely either. After all, they had to rely on the Murong family, this big tree.

"You, when can you change your temperament... Who picked on you? Tell grandpa." Murong Shuli calmed his emotions, looking kind. When Murong Ran saw that, she was instantly happy in her mind. She quickly told Murong Shuli what Yun Feng and Yun Sheng did to her in the weapon store today. Of course, this Young Lady tried her best to twist the truth and exaggerate the story. In the end, it completely sounded like Yun Feng was the one who caused trouble, while she was innocent.

When Murong Shuli heard that, he frowned slightly as he glanced at Murong Ran with his bright eyes. Murong Ran lowered her head with a guilty conscience. Murong Shuli certainly knew that the truth could be completely the opposite. With Murong Ran's temperament, who would take the initiative to provoke her? And yet, even though he knew his granddaughter provoked other people first, he still had to help her. He certainly had to take sides with his own family.

"The Yun family again. I've never thought there would be a day when the Yun family becomes lucky."

The Murong family had certainly heard that the Yun family took over things from the Lin family in Chunfeng Town and they were indeed astonished. The down-and-out Yun family got back their own family business. How could people not be surprised? The Murong family even had an engagement arrangement with the Yun family before.

"Grandpa, even if the Yun family has become lucky, they're still mud that can't stand up. And yet, such a Yun family dares to bully me and humiliate the Murong family. Grandpa, you must get justice for me!"

Murong Ran was quite smart. Yun Feng was only up against her alone, but she dragged the entire Murong family in. How would Murong Shuli not know what Murong Ran was thinking? However, he couldn't just let other people insult his granddaughter, even if Murong Ran was wrong.

"How do you want me to take revenge for you? Tell me."

After hearing that, Murong Ran's eyes brightened. She spent a long time coming up with this plan. "The brother and sister of the Yun family came to Park City to sign up for the admission exam of Masang School of Magic. If I want to take revenge on her, I'll have to start from her loved ones. Only then can I give her the heaviest blow. Grandpa, am I right?"

Murong Ran looked at Murong Shuli with a proud look. Murong Shuli chuckled softly. "You're right, Xiao Ran. If you want to take revenge on someone, you must give that person the greatest blow. Her

weaknesses will be the parts we have to hit. Even though it's almost impossible for us to rig the admission exam, it's not that we can't do it. As long as we do it well, we can make that boy of the Yun family fail the exam."

Murong Ran was immediately delighted when she heard this, as if she had imagined how sad Yun Feng would be if Yun Sheng couldn't pass the exam. An evil smile appeared on her gorgeous little face. Yun Feng, your brother won't pass the exam. Let's see how crazy you'll get!

\*\*\*

The silk-like fog was gradually torn by the fierce, dazzling sunlight. It was a new day, a different morning in Park City, this second-rate city of the Karan Empire.

Liberty Square in Park City had always been a good place for citizens to relax and play, but today, the periphery of Liberty Square was surrounded and isolated by transparent barriers. The square that was usually livening up at night had begun to be flooded with crowds of people once the sun rose.

It seemed that people in Park City had been waiting for this day to come. In less than an hour after the sun rose, more than a hundred people had already started gathering outside Liberty Square, except for the area surrounded by transparent barriers.

People were moving inside gradually. Everyone's face seemed to be filled with a different kind of enthusiasm. Their eyes all gazed at the isolated central area of Liberty Square with an inexplicable excitement and anticipation.

Today was a big day that happened every year in Park City. It was comparable to the most joyful festival. Today was the day the admission exam of Masang School of Magic was officially held!

Even though there were ten recruitment venues of Masang School of Magic in the Karan Empire and the one in Park City didn't have the most attention, today was still a special day for people in Park City, because they could see a lot of future mages here on this day. Today, they could witness the magnificent magic exam with their own eyes. This was undoubtedly exciting and delightful for areas where mages rarely appeared like the East Continent.

### **Chapter 80: Admission Exam (1)**

If there was some impressive genius born in Park City, this place might be given unprecedented attention in the royal family of the Karan Empire because of the birth of this genius!

People in Park City were all joyfully looking forward to a genius that came from nowhere, who could push Park City to a higher position. Kids that were here for the magic exam were also extremely excited. After all, they were the focus of the magic exam. If they could pass the exam successfully, a brilliant path of life would be awaiting them!

The starting time of the admission exam was ten o'clock in the morning. It was just around eight right now, but the venue had gradually been filled with people. There was also a clamor of voices around Liberty Square. People were talking about the exam this time with a loud voice and were also discussing whether it was possible that someone astonishing would appear.

Of course, Murong Ran was someone that people in Park City must talk about. This Young Lady of the Murong family, the boss of Park City, this outstanding girl who had become a level-3 mage at the age of 12, was the candidate that citizens in Park City thought highly of.

“In my opinion, the top candidate of this admission exam must be the Young Lady of the Murong family.”

“Hm, I agree. Even though the Young Lady of the Murong family isn’t very nice, she’s pretty strong.”

Some people couldn’t help but press their lips and smile when they heard that. They all agreed in their minds. Although Murong Ran wasn’t a nice person, her strength was indeed there. She wasn’t just a doll. This was something a little desirable.

“But you can’t guarantee there won’t be any accidents.”

“What accidents can happen? She’s a 12-year-old level-3 mage and she still can’t get first place with such strength? Who else can be stronger than that?”

“Tut-tut, you’ll never know. Man proposes, God disposes. A genius may come out of nowhere.”

“Right, right, have you heard about the Yun family and the Lin family in Chunfeng Town?”

The others nodded after hearing that. The Yun family took over the Lin family in Chunfeng Town. This incident spread through gossip somewhere. Everyone who heard the news couldn’t help but tremble!

“I heard that the two children of the Yun family also came to Park City for the exam this time!”

“Really? The Yun family became stronger all of a sudden. Do you think they have any trump cards? Perhaps they truly have a genius?”

“I don’t know if they have a genius or not, but since they’re here, I’m sure they’ll have a pretty good performance.”

“You mean someone from the Yun family might be this genius that comes out of nowhere?”

Some people pursed their lips and doubted, some were skeptical and some remained silent. “If it’s true, there will definitely be a tendency for the rise of the Yun family... The declined Yun family, tut-tut, they’re indeed an unpredictable large family.”

The others also nodded with thoughts in their minds. The superior Yun family had such a rich background and also the birth of that legendary summoner, which made ordinary people kind of fearful of the Yun family.

Time passed silently in the heated discussion. It would be ten o’clock in a minute. A few people walked over from the side of Liberty Square. They were all wearing the same clothes, but of different colors. These few people were staff members sent to Park City by Masang School of Magic to assist with the admission exam. They were all mages and the colors on their clothes represented the type of elemental force they belonged to.

There was a commotion among the crowd of people. All the examiners and inspectors were here! The few of them whispered in the isolated area of Liberty Square and some people were preparing something. It looked like the admission exam was about to begin.

After a while, some young men appeared in the square one after another and walked past the entrance orderly. After their identity was verified, they were allowed to enter the isolated area.

At this moment, Yun Feng and Yun Sheng also arrived at the exam venue, Liberty Square. When Yun Feng gazed at the transparent barriers, she paused for a while. Her black eyes glittered slightly. Level-6 magical elemental barriers?

She looked at the few mages wearing clothes of different colors inside the transparent barriers with her black eyes. Yun Feng already knew that one of them was a level-6 mage, while the remaining ones were also quite powerful. They were all at around level 5. Yun Feng didn't use too much of her mental strength. She was also at the final stage of level 6. If she used too much of her mental strength to detect them, she would catch the attention of the level-6 mage.

Retrieving her mental strength, Yun Feng pulled her brother, Yun Sheng, to the entrance of the transparent barriers. A beam of cold light swept past. Yun Feng looked up slightly and saw Murong Ran, who had already gone inside. She was sneering right now. Yun Feng directly looked away and ignored her completely.

Murong Ran froze for a second and the anger in her heart rose again. However, thinking that Yun Sheng wouldn't be able to pass the exam today, Murong Ran sneered once again.

Yun Sheng passed the identity verification and was allowed to enter. Before he went inside, Yun Feng held her brother's hands and found that his hands were covered with sweat. She couldn't help but show a sweet smile.

"Brother, relax. You'll pass successfully. I believe in you!" Yun Feng then added in her mind that she would eliminate any possible things that stood in her brother's way!

Yun Sheng nodded. Even though he was still a bit nervous, he had become much more courageous than he used to be. After saying goodbye to Yun Feng, Yun Sheng went inside, while Yun Feng stood outside of the transparent barrier as her black eyes kept following her brother, Yun Sheng.

Soon, it was ten o'clock. All the children who signed up for the exam had arrived. After checking their information, one of those people wearing clothes of different colors cleared his throat and looked at the crowds of people outside the barriers. Those people immediately quieted down.

"Ladies and gentlemen, we're delighted to be here in Park City again. It's good to be back in a city that's full of hope! The admission exam of Masang School of Magic has always upheld the principle of equitability, openness and fairness. I'm sure everyone can see that! Without further ado, the rules will be the same as last year. Candidates between 12 to 18 years old have to lift a level-1 magic stone with their mental strength, while those between 18 to 25 have to lift a level-2 magic stone with their mental strength. I hope these children get good results and I sincerely hope that we'll see the appearance of a genius this time!"

Once he finished talking, enthusiastic cheers and applause immediately burst out of the crowd of people. Yun Feng saw that her brother was standing in front of a table with a few stones on it. According to the rules the man mentioned just then, those stones contained magic. Lifting them with mental strength would be a test of the candidates' compatibility with their elements!
